

Every man and woman, every boy and girl in Cisco can help the government win the war by collecting scrap metal, burned-out light globes, tooth paste tubes, old batteries, bicycle tires and tubes, garden hose, lawn mowers, golf clubs, wash tubs, tin cans and waste cooking fats. Our government is earnestly asking us to do this. Let's do our duty in this respect—before it is too late.

CISCO—Admittedly one of the healthiest areas in state, with a countryside devoted to cotton, fruit, feeds, poultry, dairying, natural gas and oil; 2 railroads; Bankhead highway; one of the largest concrete swimming pools in the world.

TIME XXII. CISCO, TEXAS, WEDNESDAY, AUGUST 5, 1942 NUMBER 240

NAZIS MAKE THEIR GREATEST PLAY IN RUSSIA

When Entering the Union Texas Retained Title To 72,000,000 Acres Land

Aug. 5.—Texas has given away more land than in several other states, a large territory to which it is due upon joining the States, still finances much of its activities.

Entering the Union, Texas title to a public domain, approximately 172,000,000 acres—more than North Dakota and Oregon together.

Of this, 4,229,000 acres were distributed to 239 counties—others of the present 254 counties were not organized when this distribution was made—and the counties lease it for the benefit of local school funds.

A much bigger grant—42,000,000 acres—has been set aside for administration of a state land board for the benefit of the public schools. Approximately 1,200,000 surveyed acres of this remains unsold, but \$95,000,000 in cash and first lien land notes have been turned into the permanent school fund.

In addition to this surveyed but unsold 1,200,000 acres, it is estimated there is 5,500,000 acres of river beds and submerged land along the Texas Gulf coast and 20,000,000 acres located in more than 200 counties in which the state still retains an interest for its schools.

Different boards handle the lands that have been set aside for the colleges and that for schools. Different policies have been followed by them in handling the lands—particularly in leasing them for oil and gas exploration and development.

The college board follows the trend of oil development and has a public auction of oil and gas leases whenever the trend makes the time appear favorable for leasing. The board sets a fixed amount of acreage and royalty and sells the lease to whoever bids the biggest bonus. The auctions are held at Austin with an auctioneer who knocks down the tracts like other property at a sale.

The board that handles sales and lease of state school lands has so far favored sealed bids as a method of getting the best price for the lands that are leased or sold.

Sometimes the bonuses are the controlling factor; sometimes it is the amount of royalty that is to be paid to the state out of oil, gas or other minerals recovered.

This board places land on the market whenever there are inquiries from prospective buyers. The right to reject any or all bids is retained, so if the sealed offers are not large enough, the board does not have to sell.

Outright sales of land have been less profitable to the state than leases for oil and gas.

Sales are made as low as \$1 an acre in some areas, but when oil or gas is discovered under the land many times that is offered merely as a bonus. On oil production, the state usually receives one-eighth.

Actual area of the state has shifted from time to time. Biggest changes have come from surveys, showing errors in old boundaries, but there are recurring changes along the border between Mexico and Texas. The Rio Grande frequently shifts its channel, and with the changes of the channel, property becomes either a part of Mexico or Texas.

Texas recognized the grants that had been made by Spain and Mexico prior to establishment of the Republic. Then no new land titles were issued until Feb. 1, 1838, when the state general land office was opened.

The grants by the Republic include what are known as "headrights." These were granted to

from oil royalties and has more than 2,000,000 acres left out of its original 2,329,000. The University has received more than \$32,000,000 from this source and is collecting about \$800,000 a year.

An area almost as large as that of West Virginia and Wisconsin together and only a little smaller than South Dakota has been set aside for public schools below the college grade.

Of this, 4,229,000 acres were distributed to 239 counties—others of the present 254 counties were not organized when this distribution was made—and the counties lease it for the benefit of local school funds.

A much bigger grant—42,000,000 acres—has been set aside for administration of a state land board for the benefit of the public schools. Approximately 1,200,000 surveyed acres of this remains unsold, but \$95,000,000 in cash and first lien land notes have been turned into the permanent school fund.

In addition to this surveyed but unsold 1,200,000 acres, it is estimated there is 5,500,000 acres of river beds and submerged land along the Texas Gulf coast and 20,000,000 acres located in more than 200 counties in which the state still retains an interest for its schools.

HIWAY 80 RIGHT-OF-WAY

The chamber of commerce directorate discussed a number of things at the regular meeting last night, and while no formal action was taken on some of the matters, these discussions were fruitful, bringing out facts for future action.

C. C. Duff, teacher of diversified occupations, told of his work and cited business firms that had been very cooperative and appreciative of this work of providing technical learning for high school students while still in the public schools. If his work was to continue, Duff said it would be necessary to secure further cooperation. This department provides a payroll of about \$2,000 per year, much of that sum coming from the outside, Duff stated.

John Kleiner, Cisco head of the scrap metal and rubber drive, was also a visitor and made a very clear talk on his work which is to culminate in an all-out drive program on August 29. The chamber assured Mr. Kleiner it would cooperate fully.

Director E. P. Crawford made a report on highway work, of which department he is chairman. The commissioners court has authorized the obtaining of the right-of-way for the straightening of highway 80, west of Cisco.

It was suggested that some trees on the outskirts of the airport should be removed and thereby increase the safety and efficiency of the landing field.

The committee consisting of Directors J. J. Collins, E. P. Crawford and A. B. O'Flaherty, for getting out a folder advertising the advantages possessed by Cisco as a place in which to live, made their report that the folders had been printed and were ready for distribution to business men, to be enclosed in their out-of-town correspondence.

Directors present were, A. D. Anderson, J. J. Collins, E. P. Crawford, Dr. Charles Hale, J. D. Lauderdale, Nick Miller, A. B. O'Flaherty, Wm. Reagan and J. L. Thornton.

Members present were A. V. Clark, Charles Kleiner, John Kleiner, Jack Anderson, G. P. Mitcham and C. C. Duff.

SUICIDE SQUADS THROWN INTO FIGHT; THOUSANDS OF PARACHUTISTS DROP BEHIND LINES

MOSCOW, Aug. 5. — Throwing parachutists, suicide tommy-gun squads and more tank reinforcements into their drive, determined Germans forced new Russian retreats today around Bielayaglina, on the critical far southern front, and around Tsimlanskaya, on the south side of the great Don River bend.

The noon Soviet communique said a Cossack cavalry charge killed 3000 Germans on one sector near Kuschevka 50 miles south of Rostov. An infantry formation destroyed six German tanks and killed 550 of the enemy.

The new Russian reverses in the Bielayaglina district, coming on top of a 47-mile German drive from the vicinity of Salsk to Bielayaglina, threatened the encirclement of Soviet forces trying desperately to stop the Germans around Kuschevka, 50 miles south of Rostov.

"During the night . . . our troops fought the enemy in the zones of Kletskaia, Tsimlyanskaya, Bielayaglina and Kuschevka," the Soviet noon communique said. "There was no change reported on other sectors of the front."

"In the Bielayaglina zone, Soviet troops engaged in heavy fighting. On one sector, the enemy succeeded in breaking through Soviet lines. Soviet troops retreated to new positions."

"In the Tsimlyanskaya zone, stubborn fighting took place, Soviet troops repulsing four attacks. On one sector, Soviet troops retreated to new positions."

The government organ Izvestia said the odds were already overwhelming, and that the Germans still increased their pressure. It said new armored and motorized units had been brought from France.

A report that five Russian tanks had repulsed three attacks by 20 enemy tanks, supported by tommy-gunners, illustrated the odds the Red army was fighting. In another engagement, a Russian artillery unit destroyed 20 tanks, two armored cars and a company of tommy-gunners.

In a third engagement, the Russians destroyed seven of 14 tanks that attacked them. A battalion of anti-tank riflemen repulsed 150 German tanks and destroyed 17, but eventually had to withdraw to new positions.

The profusion with which the Germans used tanks showed that they had thrown the greater part of their panzer forces into fighting around Bielayaglina, military observers said.

The retreat around Tsimlyanskaya was the first reported in several days, although the Germans had thrown both tanks and infantry across the Don river there, to advance on Stalingrad in conjunction with a force trying to get across the river around Kletskaia, on the north side of the bend.

Tsimlyanskaya is halfway between Stalingrad and Rostov. Kletskaia is 75 miles northwest of Stalingrad, and the last mid-night communique had reported a Soviet retreat around Kletskaia.

Dispatches from the front said that generally the Russians were holding the Germans in the Kuschevka area. But the enemy drive through Bielayaglina, on the Stalingrad—Novorossiisk railroad, roared southwest toward Tikhoretsk, junction of the Rostov-Baku railway. If the Germans reach Tikhoretsk, they have out-

Livestock Moved Rapidly at Cisco Auction Barn, 75 People Participating

METHODISTS TO CISCO

Bishop Ivan Lee Holt and his cabinet of ten district superintendents of the central Texas conference of the Methodist church, in session today at Fort Worth, called Rev. Leslie Seymour, local Methodist pastor, by long distance telephone to inquire as to facilities in Cisco for entertaining the annual conference which will meet in November.

After consulting members of the official board of the church, the mayor, the secretary of the chamber of commerce, hotel managers and other representative individuals, Mr. Seymour notified the bishop through Dr. Roy Langston, Cisco district superintendent, that this city would be glad to undertake to provide necessary accommodations for the conference.

Until recently host cities of the conference provided free entertainment, but for the last several years the conference has officially adopted the policy of expecting each minister and each lay delegate to pay for their rooms and meals.

If the bishop and cabinet decide to come to Cisco, as it seems likely they will, this city—with the help of adjacent cities—will have the task of taking care of some 400 people for about five days and nights.

The conference had been set to meet in Waco, but due to abnormally crowded conditions there that city had asked to be released from the undertaking.

JOB PLACEMENTS

AUSTIN, Aug. 5.—Texas ranked second among all states in job placements made in June by the United States employment service, the war manpower commission had reported Wednesday to the governor's office. A total of 87,700 placements were made in Texas, which reported 91,200 placements. New York came third, with 66,300.

BLACK MARKET IN STEEL

NEW ORLEANS, Aug. 5.—Two investigations were promised Wednesday into charges made before a congressional subcommittee here that a "black market" in steel existed where "immediate delivery was made" from "bulging warehouses scattered over the nation."

N. C. HUSTON GAVE LIST OF LION CHAIRMEN

President N. C. Huston read a list of committee chairmen for standing committees for the year's work at the Lions luncheon today, and gave written instructions as to the duties of each Lion. He emphasized the fact that a small club, working efficiently, was better for a community than a larger club membership that was indifferent to the opportunities for service their membership in this organization gave them.

Lion Seymour announced that a group of 10 counties, including Eastland county, had been delegated the obligation of providing equipment for the army hospital at Camp Bowie through the Red Cross organization.

P. R. Warwick, secretary of the chamber of commerce, was a visitor and announced that leaflets setting forth the advantages of living conditions in Cisco had been printed and that he had distributed these leaflets to Cisco business men to use in their out-of-town correspondence.

Other visitors were Harvey Thurman, W. E. Dean and Carter Belew, guests of Lion D. G. Streeter, and Ford Lane, guest of Lion O. L. Stamey.

President Huston emphasized the fact that a drive for better attendance would be made by the committee in charge, and that absent members would be contacted each week, following their non-attendance.

Sales at the Cisco Auction Exchange barns continued their climb from last week and topped the \$5,800 mark this week.

Plenty of offerings and ready buyers made sales brisk. There were more than 75 participants.

YANKS STRIKE HANKOW

HEADQUARTERS, U. S. ARMY AIR CORPS, China, Aug. 5.—American army bombing planes have made a heavy attack on the Japanese base at Hankow with "very satisfactory" results, a communique said today.

W. N. Favor of Rising Star was named justice of the peace for precinct No. 7 by the commissioners' court this week. This appointment fills a vacancy caused by the failure of any one announcing for the office. The former justice of the peace, S. H. Evans, moved away early this year and no write-in ballots were reported.

U.S. MEN FOND OF LAKE

That Lake Cisco has found great favor with Uncle Sam's soldiers is attested by the fact that groups from Abilene and Brownwood continually visit the cool waters of the swimming pool whenever they get the opportunity. It is the finest swimming they have ever found anywhere they say.

Today Capt. E. G. Reed of 185 quarter master's detachment of Camp Berkeley and about 40 men of his detachment, had lunch and enjoyed a long swim at the lake, said Gordon T. Davis, manager of this fine recreational center.

Mr. Davis announced that he had just received a letter from Capt. James F. Holliday of the 744th tank battalion, asking cabin reservations for a party to be at the lake over the week-end, when they plan to golf, swim and fish.

Captain Holliday was here last week with a group of 85 officers and soldiers, who expressed themselves as delighted with the recreational facilities afforded by this great pool and parks.

SCRAP—Copper and Brass

Lamp Bulbs—1,000 burnt-out lamp bulbs equals 40 compasses.

One Refrigerator equals 70,000 37 mm. anti-aircraft explosives.

Electric Cords—Ten six-foot electric cords will provide the copper scrap equivalent to the copper used in 1,000 37 mm. anti-aircraft explosives.

Per year, in advance\$5.00
Per week, by carrier boy.....\$1.00

TIME FOR SILENCE

The time for discussion of the advisability of a second front is over. Everybody knows it must come. The time for silence is at hand, except for the radio voices of those few who have power to worry the Germans.

The plans are being perfected, the goods are being made ready, the men are moving into the appointed places where they mark time briefly while awaiting the order—Forward, March!

Meantime the bombing planes, vanguard of the fighting forces, do their deadly work of preparation.

The Germans are worried. They are getting excited. They are already irritable about it. Soon they may lose their nerve.

The authorities know what they are doing. Now is the time for silence.

SCRAPPING RAILROADS

Another way to get high-class scrap metal is to requisition unneeded railroads, as was done some months ago with the C.&N.E. between Cisco and Throckmorton. Now all rails and bridges on the Winchester, Ky., and Maloney, Ky., branch of the Louisville & Nashville railroad, a 52-mile line, have been requisitioned by the government. The road has been dismantled. This branch was used for local traffic only, and last April the road asked the Interstate Commerce Commission for permission to abandon service. With rails and bridges gone, this permission is likely to be granted.

It is not necessary to be the seventh son of a seventh son to predict that other branch lines which have seen their best days will go the way of the Winchester-Maloney branch.

NAZIS IN RUMANIA

The Nazis won Rumania, says Countess Waldeck, an anti-Nazi observer who was there because they sold each group one at a time, on the virtues of Nazism. Particularly they tried to suggest to each group that the corresponding class in Germany was doing very well. Wealthy German bankers were paraded before Rumanian bankers to prove that wealth was not disturbed in Germany. Intellectual Germans were similarly displayed to prove that not all educated Germans were in concentration camps. The underlying idea was to play group against group, and especially the group against the country as a whole. Hints of special favors were often thrown out. To get the favors, that class was often too willing to throw its own country overboard.

This Rumania was captured, and France also—piecemeal, by group bribery. The same Nazi technique has been tried here, so far without much success. Unremitting watchfulness against it is called for. The opposook motto still holds, and with ever-increasing urgency: Eternal Vigilance is the Price of Liberty.

NEWS COMMENT

There are several very good news broadcasters and interpreters on the national air now. The public is better served in this respect than ever before. Radio news comment, it should be remembered, is a comparatively recent form of public service, which has developed since the last war and, in the matter of expert interpretation of public events, has little more than a decade of history. The public, or that part of it which appreciates, shrewd and expert comments on current affairs, surely has a wealth of material now, with such men as Baukage, Close and Swing making the most of it. There are various other talented men in the game who present less analysis and criticism, and more entertainment.

The method of serious and responsible commentators was well stated recently by Upton Close, who says: "I know that human beings have nearly always been wrong

in evaluating events of their time, and the best check on this is to develop a deep feeling for trends that go back centuries, and necessarily must go forward for decades. I try to make sense and logic out of the week's events for my own sanity. When I find an interpretation that satisfies me, I pass it on as succinctly as possible and as fully as 15 minutes will permit."

Such spokesmen are doing the work ordinarily done by newspaper editorial writers, but in a different medium, with a slight advantage in freshness of presentation and expression of their own personality. The editorialists, on the other hand, seem to have an advantage in a more leisurely and careful analysis of events.

The news broadcasters, though seemingly very modern, may be regarded as offspring of the strolling players of whom Shakespeare's Hamlet said: "Let them be well used, for they are the abstracts and brief chronicles of the time. After your death you were better to have a bad epitaph than their ill report while you live."

THE WAR HOUSE

The National Association of Home Builders has asked the War Production Board to allocate minimum amounts of materials essential to immediate private construction of 200,000 war housing units in principal defense areas.

They have obtained from Donald Nelson the assurance that any war worker who rents a new war house and wants to buy it, may do so. This relieves the minds of many builders who hesitated to build war housing units lest they be unable to sell the houses now or afterwards.

The need for immense numbers of war houses comes not only from the fact that workers must be sheltered within reasonable distances of the new war plants but because the country was very sadly underbuilt at the end of the depression. Most of the units would have to be built at about this time anyhow. Old houses became obsolete and new ones were not constructed in numbers sufficient to house the normal population. This lack must be filled.

DESEMONA

Ole Brightwell and family enjoyed a visit Sunday from his mother, Mrs. Brightwell, Sr., of Gorman, and his sister, Mrs. Emma Bettony, of DeLeon.

Mr. and Mrs. Ed Parks have as their guests this week their daughter and son-in-law, Mr. and Mrs. Travis Hilliard and their two small sons, of Olden, and Mrs. Raymond Stark and baby son of Ranger. Mr. Stark is now working for an aircraft corporation at San Diego, Calif., and Mrs. Stark and little son will go out there soon.

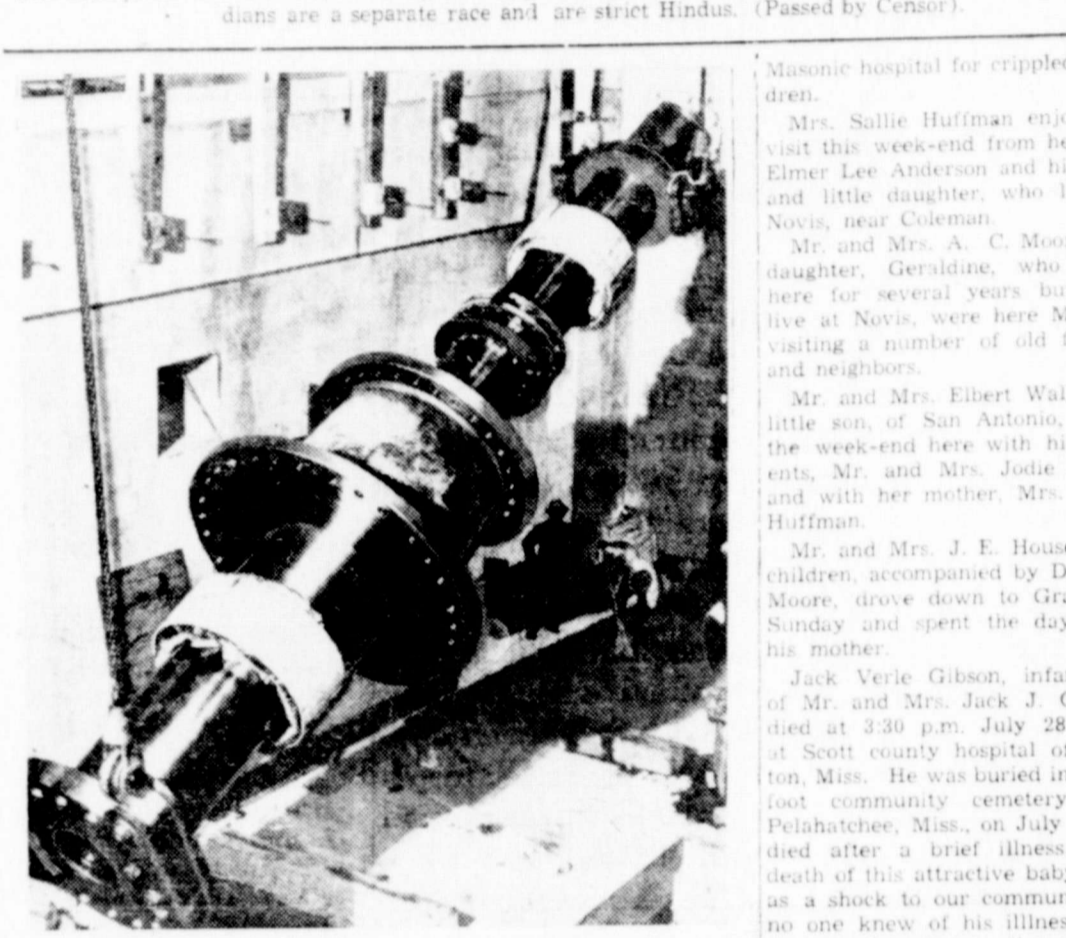

Miss Ruth Williams, daughter of Mr. and Mrs. Clayton Williams, came in several days ago from Augusta, Ga., where she had been employed for several months. During June she spent two weeks at the popular summer encampment at Lake Junalusa, North Carolina.

Mrs. Cordley Miles of Cien was here from Wednesday until Friday visiting her husband, who is one of the drillers on Foville No. 1, Stanfield, et al.

Mr. and Mrs. Jay Malby arrived Saturday from Los Angeles, Calif. On Sunday Mr. Malby went on to Houston to report at the head office of his concern—the Broad Sales Division company. He had been working in California

JAT TROOPS IN IRAQ—Jat troops, from India, concealed behind a gun, maintain communications with headquarters in the "rear" in Iraq, as they go through maneuvers with British forces. These Indians are a separate race and are strict Hindus. (Passed by Censor).

MORE WAR POWER—More power for U. S. war industries will be forthcoming from Grand Coulee Dam in Washington when this armature, newly arrived from Shasta Dam, emerges in the form of 75,000 kilowatt generator. It's being placed on erection base.

nia as a well logging engineer. His wife will remain here with her parents-in-law, Mr. and Mrs. C. W. Malloy, until he finds out where the company will send him for his next work. While in California they spent a few days in the Sequoia National park, and Jay wrote a most interesting letter to his mother, describing the big trees.

Mr. and Mrs. Jim Todd of San Antonio have been here the past few days visiting their daughter and son-in-law, Mr. and Mrs. Murray Foss.

On Wednesday morning Miss Loma Faye Hearne, home economics teacher, and the girls who have been in her class, held open house in the home economics department, which had been attractively decorated for the occasion. There was an exhibit of the work that had been done by the pupils at

their home projects. All of the work reflected credit on the teacher and pupils and the guests enjoyed inspecting the exhibit.

Rev. H. D. Martin began the Baptist revival at the community tabernacle on Sunday night with a large crowd present. Mrs. Cary of Caddo is the leader of the song services and her part of the services is much enjoyed by all who attend.

Mr. and Mrs. Hugh Roe drove to Eastland Saturday afternoon to meet their two daughters, Miss Bernice Roe of Abilene and Mrs. John Goswick of Dallas, who spent the week-end here. Jack Powers came in from Snyder on the same bus with Miss Bernice and Mr. and Mrs. Roe brought him home. He had been working on a farm for his uncle and aunt, Mr. and Mrs. Will Anderson.

Mr. and Mrs. John Arnold and son, Paul Stanley, returned Sunday from Houston, where they had spent a week with their two daughters, Miss Jolene Arnold and Mrs. Frank Leazer and her husband and their baby daughter.

In Sunday's issue of the Star-Telegram on the page of pictures of Texas boys who have won their "wings" there was a good picture of Charles Williams, son of Mr. and Mrs. Clayton Williams. He is a staff sergeant. He came in Monday for a visit with his parents and sisters and brother.

R. A. Brown and his daughter, Margie, drove to Abilene on business Monday.

Mrs. Paul Baker and two children of Abilene arrived Saturday to visit her parents, Mr. and Mrs. Hugh Abel. Helen Abel came home with them.

Mr. and Mrs. Durant Putty drove to Dallas Friday and brought home their little daughter, Billie, who had spent a few weeks there, being treated at the

Masonic hospital for crippled children.

Mrs. Sallie Huffman enjoyed a visit this week-end from her son, Elmer Lee Anderson and his wife and little daughter, who live at Novis, near Coleman.

Mr. and Mrs. A. C. Moore and daughter, Geraldine, who lived here for several years but now live at Novis, were here Monday visiting a number of old friends and neighbors.

Mr. and Mrs. Elbert Walls and little son, of San Antonio, spent the week-end here with his parents, Mr. and Mrs. Jodie Walls, and with her mother, Mrs. Sallie Huffman.

Mr. and Mrs. J. E. House and children, accompanied by Dorothy Moore, drove down to Granbury Sunday and spent the day with his mother.

Jack Verie Gibson, infant son of Mr. and Mrs. Jack J. Gibson, died at 3:30 p.m. July 28, 1942, at Scott county hospital of Morton, Miss. He was buried in Barefoot cemetery near Pelahatchee, Miss., on July 30. He died after a brief illness. The death of this attractive baby came as a shock to our community, as no one knew of his illness until a short time before the message came telling of his death. Mrs. Gibson and baby had gone to Mississippi to visit her grandmother and other relatives a few weeks ago, and her husband was expecting them to return when the news came of the baby's illness. He left at once, but reached there after the baby had passed away. The sincere sympathy of our entire community is being extended to the grief-stricken parents, who returned Monday night. Jack Verie Gibson, who was born at Gorman, at Blackwell sanitarium, on Sept. 1, 1941, being nearly 11 months old, was a favorite with everyone, not only on account of his pretty face but because of his friendly disposition.

Mrs. C. A. Skipping and baby

GOOD POSITION SOONER

Through the streamlined college-grade Draughon Courses and Southwestern Placement Service, you can step into a good income—be prepared for patriotic service—three years sooner than in other comparable careers. Starting in a vital government or business office, you can earn \$3,000 to \$4,000 during the time thus saved, and be gaining experience that will be invaluable after Victory comes. 5,000 positions annually to select from. son, Ray, drove up to Olden and Eastland Monday. They were accompanied by Mrs. W. H. Powers and son, Jack, who went to see an official of the Magnolia Petroleum company. After going to Eastland for his physical examination, Jack left with Jesse Clark and Earl Parks for Beaumont, where they will be employed by the Magnolia company.

The Methodist women's society of Christian service met Monday at Victor and had the closing lesson in the book, "Christian Roots of Democracy in America," the author of which is Rev. Arthur E. Holt, who was pastor of the First Presbyterian church of Fort Worth from 1916 to 1919, and was a teacher in a theological institute in Chicago for several years. The lesson was led by Mrs. W. C. Bedford, and Mrs. Albert Duke and Mrs. S. E. Snodgrass had special assignments.

Texas Retained--

(From Page ONE)

every person then living in Texas except Indians, negroes and descendants of negroes.

Heads of families were given a "league and a labor" (460 1/2 acres), thus originating a term still found in many deeds. Single men, 17 or older, were given one-third of a league (147 1/2 acres).

Immigrant grants of 640 acres for families and 320 acres for single men also were authorized. Grants for military service amounts to 3,149,234 acres.

Because of their Spanish and Mexican origin many deeds give land descriptions in varas of 23 1-3 inches.

By act, the state adopted standards for measuring land and provided that where English rule is used, the chain for measuring land shall be 22 yards long, divided into equal parts called links. An acre is required to be measured horizontally containing 4,840 square yards and 640 acres is declared to constitute a square mile.

POLITICAL

The Cisco Daily Press is authorized to announce the following candidates for the offices under which their names appear, subject to the action of voters at the run-off or second Democratic primary, of August 22, 1942.

are you eligible for recapped tires?

WE'LL HELP YOU GET A CERTIFICATE FOR GOOD YEAR RECAPPED TIRES
Many thousands of car owners are eligible for recapped tires.
Come in and get the facts. We'll advise you if you are eligible, and will help you obtain a certificate.

The closest thing to a new tire you can buy is a tire recapped with Goodyear materials—the Goodyear way! Every step—from inspection to curing—is done by factory methods and equipment and best quality wartime tread rubber available is used. All sizes can be recapped.
See us today—for complete information.

LEGION IS RIGHT

DALLAS, Aug. 5.—(C) should not be pardoned as he serve in United States forces, the Dallas American Legion Central Council, declared a resolution adopted Tuesday.

To the Voters of Eastland County:

I wish to thank each and every one for the vote which re-elected me your district clerk. I will strive to continue the courteous, efficient service I have heretofore given you. THANKS.

JOHN WHITE,
District Clerk.

Standing Guard for Your Protection.

Day after day, year in and year out, we are at the County House checking, compiling and posting data on Eastland County land titles. Ours is a responsible job, and we know it. When you come to us for your abstract work you will feel perfectly safe that we have the records complete and the experienced personnel to properly compile and assign your title. The best is always the cheapest, and you get it here.

THE NOTEBOOK

Thursday

The Word home demonstration club will have a basket picnic for families of members at 7 p.m. at Lake Cisco.

The nursery school advisory board will meet Thursday morning at 10 o'clock at the chamber of commerce.

Friday

The Philathea class of First Methodist church school will meet at 8 p. m. on the church lawn for a basket picnic supper.

Mrs. Lucy Abel Entertained Fidelis - Matrons

Mrs. Lucy Abel was hostess to the Fidelis-Matron class of the First Baptist Sunday school in her home Monday night. It was a business and social meeting. The house was gay with bouquets of seasonal flowers placed attractively about the rooms. After the business session, a social hour was enjoyed and at the close refreshments of home-made ice cream and cake were passed to Mrs. J. E. Mayhew, Mrs. J. T. Richardson, Mrs. Bobby McWhorter Saunders,

Curry-Myers Marriage Rites Held August 1

Ima Jean Curry and Sgt. L. G. Myers were united in marriage Saturday, August 1, in the parsonage of the First Methodist church, Mineral Wells. Rev. Mr. Lightfoot, church pastor, officiated. Only relatives and a few close friends were present. Mrs. R. C. Rasmussen sang "Because," with Mrs. E. R. Jones playing the piano accompaniment.

The bride wore a street-length dress of poudre blue with white accessories and a corsage of white gardenias. For "something borrowed," she carried a white Bible; for "something old," she wore her mother's engagement ring. She traveled in a navy blue suit with white accessories.

After the ceremony the wedding party went to the Baker hotel where luncheon had been prepared for them.

Mrs. Myers, daughter of Mr. and Mrs. W. L. Curry of Cisco, graduated with the Cisco high school class of 1940; she also attended Cisco Junior college. Sgt. Myers is the son of Mr. and Mrs.

SWEATER GIRL—Winner of local competition in New York in contest to select the National Sweater Girl of 1942, Maddy Lynn, of the Bronx, poses her prettiest. Finals will be held in Trenton, N. J. on September 27th.

W. L. Myers of Rising Star. He finished the Rising Star school with the class of 1939. He is now at Perrin Field with the U. S. air corps.

Mrs. Jay Garrett Was Hostess to Willing Workers

Mrs. Jay Garrett was hostess Monday night in her home on west Seventh street when the Willing Workers class of First Christian Sunday school met for the monthly business and social meeting. The meeting opened with prayer by Mrs. J. F. Benedict after which Mrs. Claire Swartz presided over the business session. A social hour followed in which pleasant conversation entertained the guests and the hostess was given a surprise shower of pretty utility aprons.

Refreshments of punch and cake

Methodist WSCS Held Business Meeting Tuesday

First Methodist church society of Christian service met in the church at 4 o'clock Tuesday afternoon for the monthly business meeting. Mrs. T. J. Dean, society president, opened the meeting by group singing of the hymn "Jesus Is All the World to Me." She then gave an article by Gid Bryan on "Christ, the Light of the World"; Mrs. John Shertzer gave a report of the "Bulletin" and also read a letter from Mrs. M. H. Hagaman of Ranger, district secretary. Mrs. Jimmy Allen discussed the topic,

Mrs. R. L. Ponsler Was Circle Hostess

Presbyterian auxiliary circle two met at 4 o'clock Tuesday afternoon in the home of Mrs. R. L. Ponsler. The meeting was called to order by Mrs. J. E. Moriarty, chairman, and prayer was offered by Mrs. Homer Slicker, auxiliary president. The circle will decorate the church with flowers for the next two Sundays. The project of circle two for the coming year

WMU Circle One Met In Church Tuesday

Circle one of the First Baptist Missionary society met Tuesday afternoon in the church parlor. Mrs. T. E. House, vice chairman, presided at the business session which followed the opening prayer by Mrs. E. J. Poe. The Bible teacher, Mrs. W. I.

will be the Tex-Mex Presbyterian school for Mexican boys. Mrs. S. E. Hittson brought an interesting Bible lesson giving Luke's account of Jesus' Persean ministry, after which the meeting was closed by repeating the Mizpah benediction in unison. A refreshing drink was served to Mrs. F. J. Borman, Mrs. J. E. Coleman, Mrs. S. E. Hittson, Mrs. J. E. Moriarty, Mrs. A. J. Olson, Mrs. R. E. Pentecost, Mrs. R. L. Ponsler, Mrs. A. R. Purifoy, Mrs. J. E. Walter and Mrs. J. J. Tableman.

FRYING PAN TO FIRING LINE VIA 40 MILLION HOUSEWIVES

DOING HER BIT AT HOME ON THE RANGE

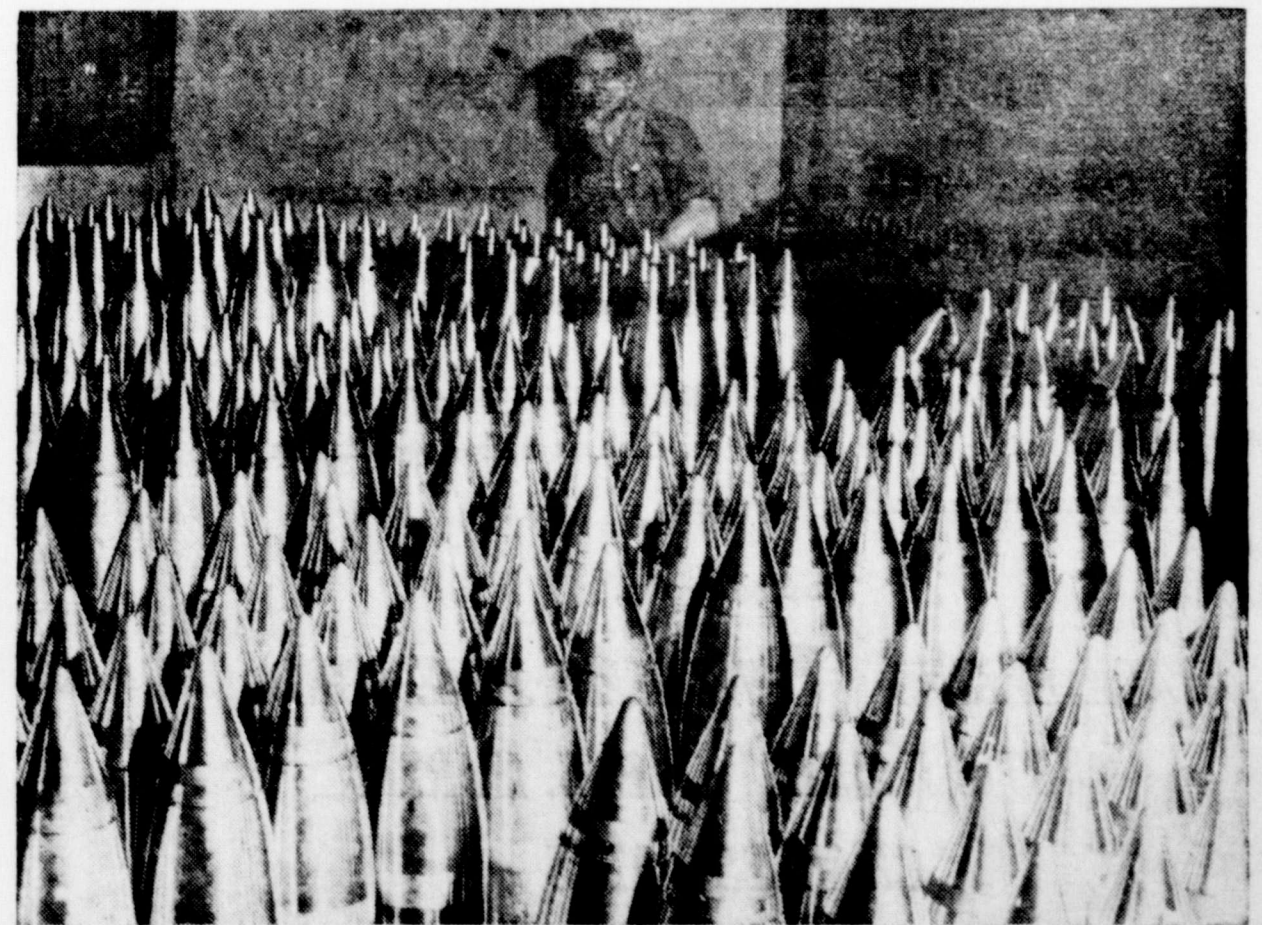

A PROCESS TANK AT WOBURN PLANT IN NEW JERSEY

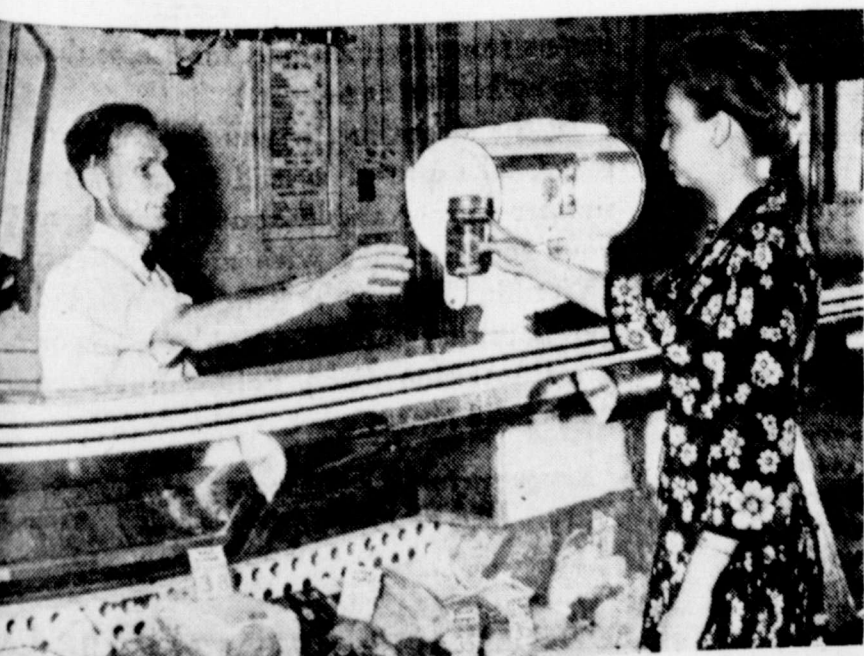

If Hitler should ask you "what's cooking?" the answer is "fats for the firing line." In response to a plea from Uncle Sam, forty million housewives throughout the nation are saving their discard fats and greases from their kitchens. After being sold to the local butcher, these renderings are in turn bought up by the government and shipped to plants equipped to extract glycerine, an essential in the manufacture of T. N. T. from them. Also obtained are fatty acids used in making rubber tires. Soap is another product derived from these fats which replace such imported oils as coconut, palm and soybean, permitting the use of the latter in the production of edibles for our fighting forces and hungry allies and the manufacture of paint for battleships and tanks. Herewith a typical "Mrs. America," does her bit. Other photos describe resultant steps.

BRIEFLY TOLD

Mr. and Mrs. O. Gustafson had several of their children as guests in their home Tuesday as follows: Mrs. Dean Turner, Brownwood; Mrs. Marie Gustafson and daughter, Ella Marie, Eastland; their son, Mr. and Mrs. R. B. Gustafson and children, Rayford and Gladys Jane Gustafson of Lake Charles, La. Other guests were Mr. and Mrs. W. A. Phippen and children, Bill, James and Mary Ann Phippen of Wayland.

Harry Granty has returned from a two-month stay on his uncle's ranch near Lamesa.

Mr. and Mrs. Jack Lamb of Wichita Falls are visiting in the home of their sister and husband, Mr. and Mrs. Mack Stephens, and other relatives in Cisco.

Elmer Abbott of Stamford visited his aunt, Mrs. Mary Abbott and other relatives near Cisco over the week-end.

Mrs. John Penn has returned from a brief visit with relatives in Greenville. She was accompanied

home by her small nephew and niece, James Hoyt and Linda Slatton, who will spend the month with relatives here.

Mr. and Mrs. Paul Jones of El Paso arrived Sunday for a visit with her mother, Mrs. Mary Abbott.

Miss Lucile Clark is expected to return to Cisco tonight after a vacation trip to points in California.

Mrs. Dwight Shelton of Merkel is a guest in the home of her daughter and husband, Mr. and Mrs. John Dunn.

Miss Brenda Louise Warwick is visiting friends in Corpus Christi.

Sarah Ann and David Bedford of Abilene are guests of their grandparents, Mr. and Mrs. F. D. Pierce.

Rev. and Mrs. S. W. Kendrick, recently of Amarillo, who have been visiting her sister, Miss Cowe B. Harris, have decided to remain

here for awhile and have secured rooms at 900 E. avenue.

Mr. and Mrs. L. W. Higenberg of Abilene were guests of friends and relatives in Cisco Sunday.

Mr. and Mrs. O. W. Hampton plan to leave Thursday on a vacation trip to the Ozark mountains.

Ronny Fee has returned to his home in Colorado City after a pleasant visit with his grandparents, Mr. and Mrs. C. H. Fee.

Mr. and Mrs. G. A. Eppler have returned from Midland, where they accompanied their daughter, Mrs. Henry Pittman, to her new home.

Mrs. J. J. Lightfield has returned from a three weeks' visit with her daughter and husband, Mr. and Mrs. Bobby Russell, at Victoria.

Mrs. Keith Fuller and sons, Don and Lynn of Longview, are guests of Mr. and Mrs. Charlie Kimmel this week. Mr. Fuller is a son of Mrs. Kimmel.

Roy Lee Barnhill of Stanton is a guest of relatives and friends in Cisco.

Mr. and Mrs. Joe H. Payne have returned from Waco, where they spent the past two weeks. They attended the bedside of their brother-in-law, J. Ed Brown, who died in a hospital there after a week's illness. They remained for the funeral and burial rites, which were held in that city.

Mrs. P. R. Warwick spent Tuesday in Brownwood on a business errand.

EASTLAND AND COMANCHE, GORMAN, Aug. 3.—The two adjoining counties of Eastland and Comanche this year will lead all the rest of Texas in producing peanuts to meet Uncle Sam's war needs. Comanche has the largest acreage with about 90,000 acres in peanuts. Eastland ranking second with about 80,000 acres. These acreages are nearly 50 per cent greater than the normal amount of land planted to peanuts in these two counties.

Some of us figure that life is a terrible disappointment, but we want to stay here and be disappointed as long as possible.

When relatives try to have him declared incompetent, it means he is spending what they hope to inherit.

WHERE I STAND, AMERICA RULES—Infantry is proud that wherever stands one of its men, it is a declaration that the United States has taken that ground and a pledge that, once taken, that ground will be held against the enemy.

Nth - KEEPS CAR A₁

MAN: Here she is... what'll you give me for her?
DEALER: Sounds like she just breathed her last. We want good second-hand cars but not this kind.

MAN: Why, it's got only 30,000 miles... and look! ... it's the same make, model and year as that gray job you've got tagged to sell for \$450.

DEALER: But that engine is OIL-PLATED and runs like new. Good for another 30,000 miles. Its owner took good care of it... greased it and drained the crankcase every thousand miles.

MAN: I always thought that was the bunk.

DEALER: Well, you've got a pile of junk there to prove you're wrong.

MAN: All right... all right... I'm wrong. Tell you what, I'll give you three hundred cash and my car for that one if you'll wise me to the motor oil that fellow used.

DEALER: It's a deal. He used Conoco Nth oil. That's oil with the synthetic that helps keep both the motor and the oil clean.

MAN: Oh, now I remember reading about that oil and the synthetics they use. Brother, I'll use nothing but Conoco Nth from now on!

Do you want to add life to your car? Do you want oil economy? See Your Conoco Mileage Merchant today and get Conoco Nth. Continental Oil Company

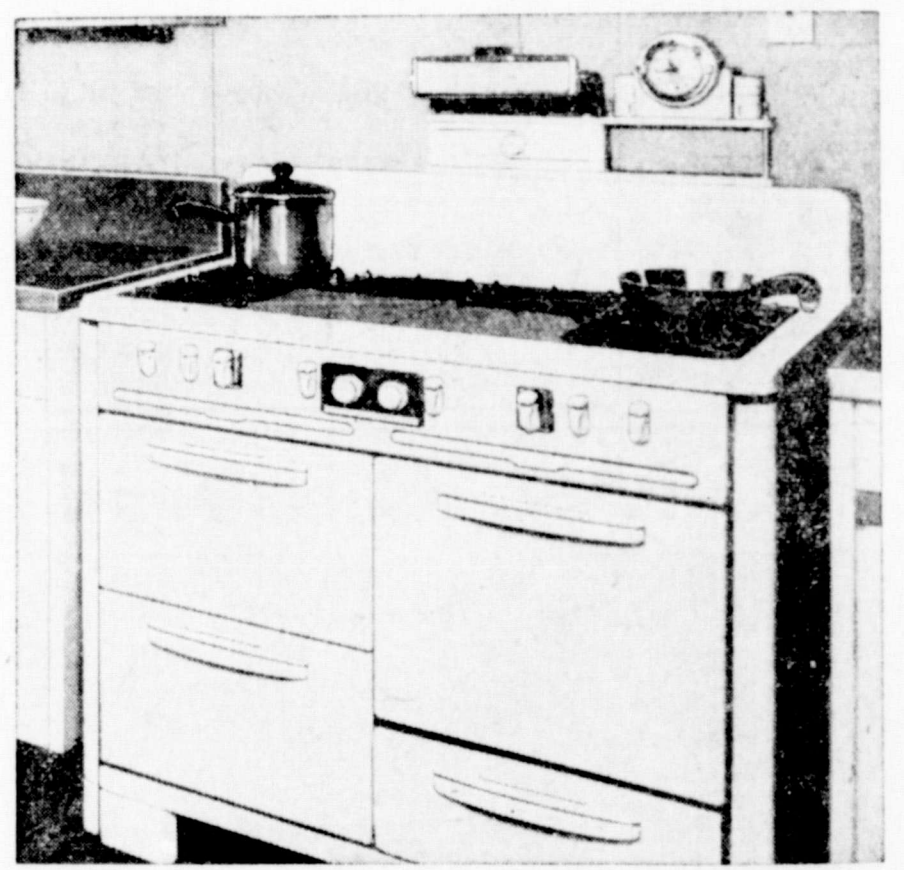

FOR THE DURATION of your car...
Don't depend on hurried stops for gasoline to have your tires and car checked. Join my **ONE-WEEK CLUB**. Choose one day each week to bring in your car. I will properly check your tires, oil, radiator, and battery. I will report anything that appears to need attention. I will keep a careful record and remind you when greasing and oil change are needed. I help you get maximum service and car life at the least possible cost and trouble.

WPB Releases Gas Ranges

We never thought we'd see the day when this country would have to ration gas ranges.* But if you need one to feed your family, you'll find a stock-pile on hand to supply you; and these modern ranges are built to last a long time, war or no war, with thick insulation, heavy enameling, and the new-type burners. (The War Production Board says that you can also buy heaters from the stock-pile, for rooms that have no heating at present.)

In the meantime, if you have a good range, take care of it, and profit by the simmer-burner and thermostat, to keep your foods packed with nourishment. (Vitamins have to be handled with kid gloves, or they float away and leave you on a malnutrition diet.) Follow nutrition guides, and thrive.

* Range factories and heater factories are tied up making war goods

Peach Chutney
4 qts. sliced peaches
2/3 cup chopped onion
1/2 cup white mustard seed
1 cup sugar
1 cup raisins
5 cups vinegar
1 teasp. chili pepper
2 teasp. salt
2 teasp. ground ginger
1/4 teasp. ground cloves
(Tie spices in cheesecloth)
Let boil together until clear, and thick as ketchup. Pour into hot sterilized jars and seal, and you have a substantial relish with a rich, integrated four-way flavor: sweet, sour, hot, and spiced. (Peach-peeling Tip: Pour boiling water to cover peaches, standing five minutes. Then the skin will slip off.)
