CALL DUTY

The challenge is coming clear and strong to every man in Cisco to enlist in the DEFENSE PROGRAM, which just NOW is to BUY WAR STAMPS AND BONDS.

AND BUY SYSTEMATICALLY—EACH MONTH!

The armies of dictators are marching steadily onward --- and that means steadily toward the liberties of our own country which they expect to overthrow, just as they have ravaged those of other nations, coming in their path of destructiveness.

We must rally around our own Defense Leaders, giving them our cooperation -- and for us who remain at home, it means furnishing the money with which to carry on --- to buy food, arms, ammunition, build tanks, ships, war planes and big guns.

TWe can all help by buying War Stamps and Bonds systematically --- regularly, not just a few, but a regular schedule of buying each month --- a certain part of our earnings --- 10% of our earnings as a minimum --- more if possible.

(Winning this war is no childs play or morning exercise --- it is a man's iob with the enemy winning all the scores thus far. Overwhelming mass production --- greater than our enemies can muster, is our only possible chance for ultimate victory --- that means billions in dollars. Cisco must and will do her part. Start Now;
