ARE DEVIL MARINES HOLD TULAGI BEACHES

PROGRESS OF 5-DAY BATTLE INDICATES A VICTORY FOR ALLIES SURPASSING CORAL SEA FIGHT

NEW YORK, Aug. 11.—The British Broadcasting Co. today reported the Allies are having "some success" in the Solomon Islands battle. The broadcast added, however, that the Japanese are putting up strong opposition, and are trying to move reinforcements from Timor to Rabaul around New Guinea.

MacARTHUR HEADQUARTERS, Australia, Aug. 11.—U. S. troops spearheaded by Marines are fighting the Japanese on the fever-ridden beaches of Tulagi today, consolidating their newly won positions in the first great American offensive of the Pacific war.

Guns of a formidable U. S. and Allied Fleet and the bombs and machine guns of naval and land based planes pounded an enemy fighting desperately to hold its positions with the aid of planes and such naval units as the Japanese command had managed to put into action --- and keep afloat.

As the battle of the Solomon Islands raged through its fifth day, all reports to U. S. Naval headquarters at Hawaii, Gen. Douglas MacArthur's headquarters in Australia, and Washington indicated that the Americans had a chance to win a victory which would far surpass those of Midway and the Coral Sea.

Australian and native troops launched a small scale offensive of their own in the Kokoda area of New Guinea, just west of the Solomons, to prevent the enemy from concentrating and drove the Japanese back with severe casualties from positions they had prepared for a long defense.

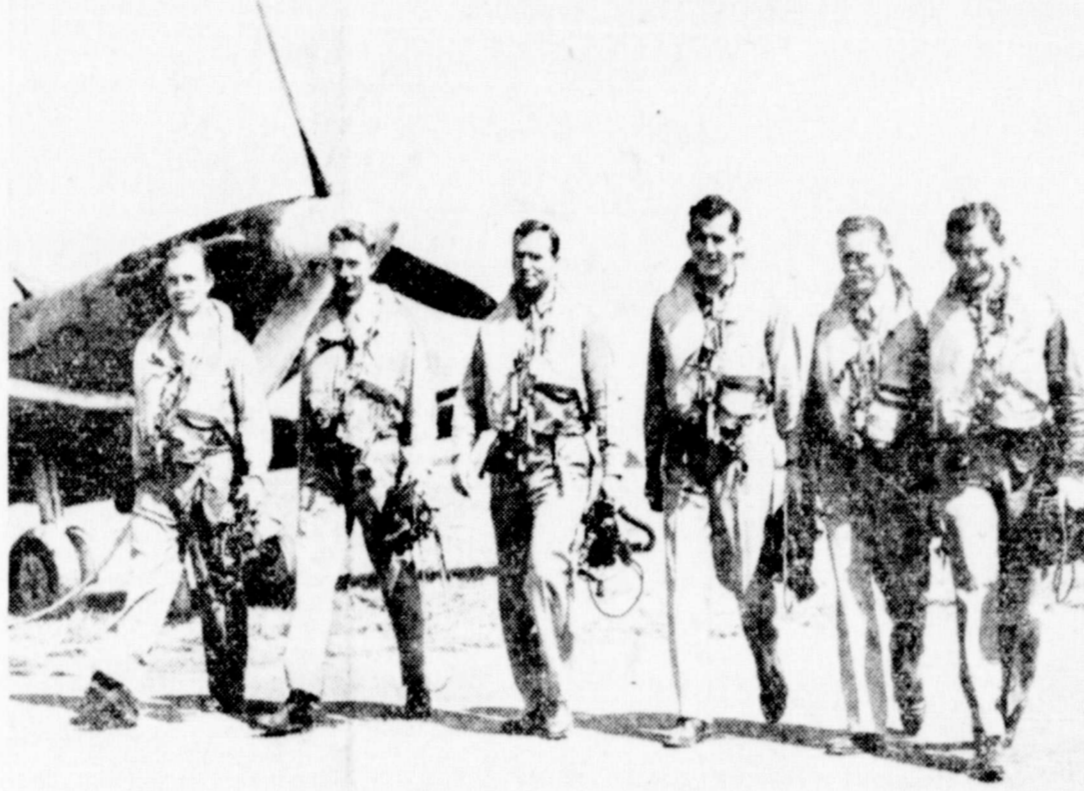

Allied planes of Gen. MacArthur's Southwest Pacific forces maintained a furious 24-hour-a-day offensive over a 2700 mile front from Timor Island northwest of Australia to the Solomons on the east in support of the Allied naval and land forces, seeking to retake one of the Japanese conquests in the South Seas.

Medium bombers struck heavily at enemy shipping off the south coast of Timor, damaging heavily by three direct hits an enemy destroyer, setting fire to a medium cargo ship with three more direct hits and probably sinking a smaller cargo ship with two hits. They did this without the loss of a plane.

Another fleet of medium bombers heavily attacked the big Japanese base at Rabaul in the Bismark Islands east of New Guinea and northwest of the Solomons, starting fires among airdrome installations which they saw 50 miles away as they flew home, and destroying one enemy bomber which got in their way.

The pattern of the Allied bombing attacks showed clearly that MacArthur's aerial forces were supporting the Solomon Islands forces of Admiral Chester W. Nimitz, commander in chief in the Pacific, and Vice Admiral Robert Lee Ghormley, commanding in the South Pacific, by preventing the Japanese from reinforcing the garrison under attack at Tulagi.

Nimitz, at his headquarters at Pearl Harbor, was silent pending reports which would permit him to give a clear picture of the trend and the outcome of the battle. But unofficial reports indicated clearly that the battle had developed as follows: 1—MacArthur's Allied planes persistently raided Japanese bases over the entire northeastern zone, in New Guinea, the Bismarks and

YANKS RAIDED GERMANY—Six of seven American airmen who took part in raid over Nazi-occupied France in cooperation with the R.A.F., leave airport in Southern England on return to base. One of their number was lost in the raid. They flew British Spitfire planes as bomber escorts.

THE PRESENT IS DARKEST HOUR FOR RUSSIA

MOSCOW, Aug. 11.—The official mouthpieces of the Red army, the Communist party and the Soviet government appealed to the fighting forces Tuesday to save Russia, acknowledging in the plainest words the gravity of the position as Axis armies ground through the smoking Malskop oil fields and the scorched wheat lands near Krasnodar.

"The fate of our country is being decided in the violent battles on the Don and the Kuban," declared Red Star, organ of the Red army.

It quoted the Russian Eighteenth Century general who told his troops: "We are surrounded by mountains. . . To retreat is shame. . . We can not expect help from anybody. . . We stand on the edge of the abyss."

It asserted "the danger hanging over our country has increased" and said "the enemy, despite tremendous losses, continues to rush into the depths of the nation. In the name of freedom and independence of the fatherland, of your people and your children, halt and repulse the enemy."

Pravda, the Communist organ urged: "By iron firmness, bar every way to the German hordes." The newspaper said "the enemy drives deeper into the country. Disregarding losses, the Hitlerite fascists summon all their forces to occupy new, important districts."

INDIA TURNS ON WHITES; RIOTS GROW

BOMBAY, India, Aug. 11.—Rioting in Bombay took a sudden anti-foreign turn today, and the strike paralysis creeping over the country hit war industry for the first time. Police fired on thousands of student rioters outside the great Bombay municipal hospital, killing two and wounding many. The death toll here had reached 17, and 209 persons had been wounded before today.

There were casualties so far unestimated when police fired on rioters at Poonja and Lucknow. The students demanded the hats and neckties—symbols of the white race—of their professors and burned them in bonfires.

In fact, Bombay's turbulent northern suburbs, where police had fired 10 times on rioters yesterday, was unsafe for anyone wearing western clothing.

Surgings crowds, chanting their slogan of "Freedom or death," forced the surrender of all hats, neckties and other western articles of dress, which they destroyed in bonfires built in the middle of streets.

At Cochin, on the southwest coast, some workers of the Tata Oil Co. struck in the first mass civil disobedience blow against essential war industry. Shops in the city closed.

Lachlan Currie, President Roosevelt's special envoy, who flew to New Delhi from China with Lieut. Gen. Joseph W. Stilwell, commanding U. S. forces in Southeast Asia, held a long conference this morning with the viceroy, the Marquess of Attlee, Political circles here.

In the teeming northern suburbs here, additional mill workers joined the thousands of Hindus jamming the principal streets.

YOUNG GANGSTERS. LOS ANGELES, Aug. 11.—More than 200 Mexican boys and girls are in Los Angeles city jails on charges ranging from murder to common assault in the latest outbreak of juvenile gang warfare in Los Angeles. Suspects ranged from 12 to 25 years of age.

FORMER MAYOR WEAKER

J. M. Williamson, who is ill at his home on Seventh street, was 75 years old Saturday, and the day was a quiet one in the Williamson home because of his serious condition.

While there appears to be no particular chronic trouble, yet the former city builder, who was always alert to the best interests of his home town, and who will go down in history as the outstanding city builder of the oil belt, is daily growing weaker and friends are fearful that the end is not far distant.

However, when not suffering from one of his now frequent attacks of physical weakness, Mayor Williamson, as he will always be known to Cisconians, seems to thoroughly enjoy conversation relating to state and national politics. He is greatly concerned about the world war, but says victory will come to this country quickly when our leaders and the people as a whole shed their coats and begin to fight in true American style.

Miss Helen Williamson, a daughter, who has been making her home with a brother, Henson Williamson, at Eden, is here now. Henson Williamson spent Sunday here, as did Mrs. John Duker of Ranger, another daughter.

T. B. DEATH RATE.

NEW YORK, Aug. 11.—The National Tuberculosis association announced Tuesday a decline in the 1941 tuberculosis death rate from 46 for every 100,000 population in 1940 to 44 per 100,000 last year, but warned that under wartime conditions the disease might show an increase for 1942. Figures submitted by state health departments showed 59,173 persons died of tuberculosis in the United States last year, with 105,714 new cases being reported. Nevada, with 171 deaths per 100,000, had the highest death rate, followed by the District of Columbia, 82; Tennessee, 79; Maryland, 74; Kentucky, 67, and New Mexico, 65.

EYES ON STALINGRAD.

MOSCOW, Aug. 11.—German armed forces today were reported penetrating Red army positions in the Kietskaya sector and attacking with massed tanks in the Kotelnikovo area in a new twin offensive toward Stalingrad, industrial center on the Volga. Around Malskop, rich petroleum area in the Caucasus, the Russians were fighting within sight of the derricks of their previous oil fields.

TEXAS FOOD COSTS.

AUSTIN, Aug. 11.—Retail cost of food rose to a new high in July. State Labor Commissioner John D. Reed has reported. He said surveys in 19 cities by department agents have shown a steady climb in food costs since the first of the year. Price control was reported to be having "some effect."

Y. W. A. PROGRAM.

The Y. W. A. of East Cisco Baptist church met Monday night at 8 o'clock at the church. The program opened with the singing of a hymn, followed by prayer led by Miss Hazel Dawson. The theme, "Buildings of God," was discussed by the following: Miss Edna Hightower, Leola Evans, Lillian Whaley, Hazel Dawson, Mary Lou Whaley and Helen Phaley. Others present were Miss Bettie Joe Hickey and Mrs. Glenn Garrett.

CAN QUARANTINE THEM.

AUSTIN, Aug. 11.—Attorney General Mann has ruled that the state has authority to arrest prostitutes with communicable diseases and send them to quarantine stations which may be outside their home counties.

85 CISCO FAMILIES GET AID

Mrs. B. S. Huey, executive secretary of the Cisco Welfare association, made an extensive report at the regular monthly business meeting today, in which she recounted activities during the past month and gave the board a glimpse of conditions of her wards and things most needed for them. She also mentioned marriages and prospective marriages of some of the daughters of families under her care.

There are now 85 families in this area receiving aid, with 133 school children who will need school supplies and clothing.

In recounting items needed, Mrs. Huey mentioned low heel shoes as the paramount item for girls. She has too many high heels and her present stock is a problem for disposal. No one, naturally, seems to want them.

Mrs. Huey gave an extensive review of receipts and expenditures, including items of groceries, clothing and medicine dispensed.

At the business meeting presided over by President Neil Lane, it was voted to meet again September 8 to get ready for fall drives, including budget and bundle drives.

Committee for the bundle drive was as follows: Mrs. Pete Nance, chairman; Mrs. W. D. Hazel, Mrs. Charles Jones, Norman C. Huston and W. H. LaRoque.

Mr. Lane appointed a nominating committee to select officers for the next year. They will make their report at the October meeting, when election will be held. They are: Mrs. W. W. Wallace, chairman; Mrs. Sam Kimmell and Mrs. J. T. Anderson.

FIELDER DESCENDANTS TO COME AGAIN

About 45 descendants and their families of the late Mr. and Mrs. W. A. Fielder, gathered at Lake Cisco Sunday for their second annual reunion held at this place. Formerly the reunion was held at Comanche, home of the deceased.

Being urged to bring the gathering to Cisco on account of the good drinking water and other facilities for recreation and enjoyment, the location was moved here last year. The group then voted unanimously to come again this year, and they expressed themselves so well pleased with arrangements this year that Cisco was voted the permanent home of the reunion.

All living children were present except a brother, Rev. Wilson Fielder, who is being detained at Shanghai, China by the Japanese, and a sister, Mrs. N. B. Smith of New Orleans. Several grandchildren were absent, most of whom are in some branch of the armed forces of the United States.

W. A. Fielder was born in Mississippi but, having joined the Confederate army at a very young age and just before the surrender, he was imbued with the restless urge of that day to move west. He came to Texas and joined the ranger force to fight the Indians and guard the Mexican border.

Later becoming a farm hand, he married Miss Elizabeth Carter of near Bastrop, and they moved to Hamilton county and later to Comanche, where they reared a family of 13 children, one of whom died just short of young manhood.

Those Present Los Angeles—Mr. and Mrs. Wm. Courtney. Church Point, La.—Mr. and Mrs. Joe T. Fielder and Theresa, Raymond and Mary Elizabeth Fielder. Waco—Mrs. Ila Patterson. Dallas—Mrs. Wilson Fielder and children, Byron, Golda Jean, Gerald and Florence Ann; Miss Ruth Carmichael. Abilene—Mr. and Mrs. R. M. Fielder. Hamlin—Mr. and Mrs. L. E. Fielder and children, Melvin and Vera Pearl. DeLeon—Mr. and Mrs. Henry Robertson and son Jimmie. Rising Star—Mr. and Mrs. R. T. James and grandson, Donald James. Sidney—Mr. and Mrs. Roy Fielder, Mr. and Mrs. Joe Runkle and children, Thomas, Hyman and Lorraine; Mr. and Mrs. R. W. Fielder; Miss Florence Fielder. Cisco—Mr. and Mrs. A. D. Anderson and children, A. D., Jr. and Dick; Mr. and Mrs. W. H. LaRoque, Mr. and Mrs. Lloyd LaRoque and son, Billy.

TAX BILL IS FOOD MENACE

WASHINGTON, Aug. 11.—Sen. Robert M. La Follette (Progressive, Wisconsin) said today that the pending new tax rates so greatly increase the burden on masses of low wage earners as to threaten the manpower requirements of the war.

With single persons earning more than \$9.62 a week and all heads of families earning more than \$23.08 a week subject to an initial 24 per cent above those exemptions, La Follette said, the rates in the house-approved \$6,270,900,000 revenue bill would amount to "TAKING THE FOOD OFF THE TABLE OF THE LOWER INCOME GROUPS."

"From the standpoint of the long war—and we must predicate our policies on that basis—it's a big mistake," he said. "Asserting that \$40 a week (or about \$2,000 a year) is really not a decent standard for the American family," La Follette said.

"I recognize the vital necessity of collecting all that we can in taxes, but in view of the fact that we have not entered an era of astronomical expenditure and deficits, congress must exercise its taxing power in such a way as not to undermine the health and efficiency of the masses and in such a manner as will enable the productive enterprises of this country to operate at a maximum peak of efficiency."

He noted that even at present tax rates, the army has found it necessary to reject many men for malnutrition.

La Follette, a member of the senate finance committee, told reporters he would oppose the drastic increases of the house bill for the lower income group of taxpayers. He said that above all congress should first make efforts to obtain more money from estate taxes, taxation of income from tax-exempt securities, wiping out depletion allowances for oil, gas and minerals, and taxing income in community property states according to the source.

The senate finance committee already has ruled some of these proposals out of consideration. Its latest action was to vote 11 to 4 to leave undisturbed the present system of taxation in eight community property states, passing up a possible \$85,000,000-a-year revenue source.

REASONS HONOR SCOTT

K. Scott was honored yesterday celebrating his 100th birthday by Royal Arch Mason chapter 190, at the regular business session at Masonic hall, August 10. Scott was born in Jefferson, Ohio, August 7, 1842. He has held offices in various Masonic bodies totaling 73 years, including a Royal Arch Mason.

PEOPLE DETERMINED

The young lawyer came to say good-bye before going to camp. It was one of the worst nights of that first week in August which holds the record of being the most discouraging week of the war so far.

Only the middle-aged mother of the family was at home. She said: "I have held tightly so far to the belief that we cannot lose this war. Churchill told us that 1942 would be a year of preparation, of catching up with the enemy in material and trained manpower, that 1943 would see the United Nations taking the offensive and 1944 would see the victorious end of the war. When each defeat came along, Bataan, Singapore, Tubruk, Sevastopol, I took them in stride. I knew we had to expect defeat this year. Any victories, small or large, would be velvet. For any great action we must wait for 1943. But I declare, this business in the Caucasus getting me down. If German gets that oil and those fields of grain, with slave labor to work them, I cannot see what can stop the Nazis at all."

THE PIONEER

Henry Ford on his seventy-ninth birthday remarked, just a little wistfully, that he "guessed he was getting on in years." Not at all, Henry, not at all! You're probably as young right now as you ever were, in mind—which is the part of man that counts. And still as good a man, as serviceable to the nation and the world, as anybody likely to be thought of at the moment made from two or three statements—even though that man Kaiser in California, who would almost take a contract for a new world and deliver it week after next, may be crowding you a bit.

REVIVING THE ANCIENTS

Early in the Twentieth Century there lived an eminent New York banker named James Loeb. He loved the ancient Greek and Latin writers, and knew that others did too. Unfortunately, unless a busy man keeps up his Latin and Greek (and who has time?), he will find the basic of reading Virgil or Homer, Plato or Horace in the original almost impossible. Starting with the best will in the world, this busy man might read six words before finding one which had to be looked up in the dictionary. To master a page might mean looking up 25 words. To try to read the classics, under such conditions, is simply too much.

POISON IVY

Library is carrying on, and providing one center of stability while around it the most apparently solid institutions disconcertingly crumble or dissolve.

There is something reassuring, in a way, about poison ivy, says a friend who has suffered much from that pestiferous plant. You really can get rid of it. After trying a lot of patent dopes and procedures without much luck, you tackle the job directly. You put on a pair of old boots and old gloves and take a hoe or mattock with a long handle, and attack the ivy around the edges, chopping away until you have cut the leaves and stems and roots to pieces as far down as you can dig. Working around and around, you have finally destroyed the ivy bed—for the current season. Then you put away in a safe, remote place the tools and clothes you have used.

The next year you get out your equipment and do it all over again. It is much easier this time. Again you put your tools and clothes away. In the third year you may reasonably expect to finish the job for good.

A lot of troublesome things in this life may be disposed of by very much the same procedure. It takes patience, but it pays.

This war will never be won by being disgusted with it.

The west ward Rhythm band, 42 second and third graders in smart red and white uniforms, captured the county rhythm band contest at Eastland Saturday from four other contesting bands. With drums and triangles, cymbals and other simple instruments, the youngsters, organized by Miss Atie Stephens and accompanied at the piano by Miss Ora Howell, expressed the rhythmic phrases of three compositions with a unity controlled cadence that won them a clear recognition over the field. They defeated bands from Ranger, which took second; Eastland, which took third; Rising Star and Olden. Little Miss Patty Jean Boyd waved the baton over the Lilliputian Cisco orchestra. The three compositions of which their renditions were adjudged the best were "The March of the Brigades," Paul Valdemar, "La Czarine," by Louis Ganne, and "The Daffodils Waltz," by Franklin. The west ward band has been in existence two years. It was the result of the desire of Miss Stephens to provide her primary department youngsters with a project of school interest with aesthetic value in grounding the children in a rudimentary knowledge of music. Capable and essential assistance has been rendered by Miss Howell in supplying instruction in music and accompanying. Members of the band are: Dorothy Jean Anderson, Billie Jo McArdie, Patty Jean Boyd, Jerry Myrick, Janet Myrick, Lee McCleskey, Jacqueline Ruppert, Leta Clarkson, Marjorie Gouglitly, Helen Bailey, Bill Morrison, Charis LaVoise, Joan Qualls, Mary Il Ullom, Donald Burnam, Billy Blackstock, Wirted Tichenor, Evelyn Moldave, Catherine Shepard, Lois Coates, Betty Mae Davis, Doris Jamison, Mary Louise Wood, Kathleen Keadan, Polly Ann McDaniell, Arthur D. Johnston, Virginia Lee McNeely, Jack Bruce, Juanita Beem, Leonard Beem, Ruth Roach, Debra Dill, Ruby Etheridge, Betty Rue Barnhill, Mary Catherine Johnston, Zovell Cagle, Jan Brooks, Dona Robinson, Virginia Lou Ford, Doris Ruth Thomas, Robert Barker, Doris Jean Starling, Louise Farley, Jimmie Jean Hensley, Gilbert Shackelford.

T. Scott, Mrs. H. Farquhar, Mrs. Troy Powell, Mrs. Ben Krauskopf, and Miss Holmes.

Insurance was carried on the building, but none was carried on the furnishings and contents, Mr. Wendt said. Origin of the flames was laid to defective wiring. The building caught in the roof and when the family was aroused flames had gained such headway that the fire department could not check them. The fire occurred shortly after midnight. Mr. Wendt is one of Cisco's most successful farmers. The residence, a modern structure, was of the airplane bungalow type.

The Cisco Rotary club will be host tonight to the clubs of Breckinridge, Eastland and Ranger in the regular Oil Belt inter-city Rotary meeting. The banquet will take place at the Laguna hotel garden beginning at 7:30 o'clock. In charge of the program is a committee consisting of J. B. Cate, R. L. Ponsler and J. M. Bird. Dr. J. Stuart Pearce will be program master. The principal address will be delivered by C. Q. Smith, President Philip Pettit, of the Cisco club, will open the meeting in regular order. Rotary Annus will attend with their Rotary husbands. The meeting is expected to draw an attendance of 125 or more.

Mike Fincher is reported improving in the Stamford hospital from a critical injury received Friday. While riding a horse in tall grass on the Clear Fork ranch looking for a calf, his horse bumped into a stick protruding out of some driftwood, which frightened the animal and he threw his head back, striking Mike on the cheek bone. The cheek bone was caved in, necessitating a delicate operation to get it back in place and set the bone. He was carried to the Stamford hospital Friday night.

Of course it is bad to hear a man and wife quarrel in public, but it isn't quite as bad as seeing them pet.

ALBANY

(Shackelford County)

John F. Sedwick, county war bond chairman, announced at the chamber of commerce luncheon Tuesday that the county had more than raised its July war bond quota of \$23,300. Total amount sold during last month was \$29,972, which was \$5,672 more than the quota. Mr. Sedwick stated that Moran sent in a report of \$6,000 in bond sales the last of the month that boosted the sales to the \$29,972 figure for the county. Mr. Sedwick complimented the ladies of the bond committee who sell bonds at the booth on Main street, stating that their sales are very gratifying.

C. D. Hagerty, pioneer contractor and producer who drilled some of the first wells in the Moran-Sedwick shallow pools of Shackelford county 20 years ago, has joined with C. M. (Dad) Joiner, discoverer of the East Texas field, in a new test five miles southeast of Albany. This well is the No. 1 Lucy Robinson, located in center north half of southwest quarter section 43, Blind Asylum lands. It will be a 1,000-foot test. The well is drilling at 350 feet and is adjoining a large block of leases recently taken by Shell Oil Co., Inc., the first block taken by this firm in Shackelford county.

R. H. Roark No. 1 W. H. Green, in section 1, Orphan Asylum lands, is drilling ahead in the Caddo lime at 3,800 feet after suffering a bothersome delay in milling a pin on the bit, and the well is going ahead to 4,500 feet seeking the Ellenberger lime, in which the nearest producer is the DeLafosse No. 1 of Pitzer & West. This well is still rated a discovery of the year 1925, with all leases held on long term contracts by Humble Oil & Refining company on the DeLafosse ranch.

A Joint Resolution

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

Be It Resolved by the Legislature of the State of Texas:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows: "Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes. "From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation. "For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write

or have printed on their ballots, the words: "For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto." Those opposing said proposed Amendment shall write or have printed on their ballots, the words: "Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Section 3. The Governor of the State of Texas is hereby authorized to issue the necessary proclamation for said election and same published as required by the Constitution for amendments thereto.

Section 4. The sum of Five hundred Dollars (\$5,000.00), much thereof as may be necessary, is hereby appropriated out of funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

Section 5. War-time consumption of metallic metals has spurred a progressive search in Canada for sources of base metals.

How Chemistry Goes Into War

By Dr. Ralph L. Brown Director of Research Pennsylvania Salt Mfg. Company

TODAY'S war is a war of metals in tanks, ships, planes, guns, shells and the myriad other items necessary. In any metal fabrication work the metal must be thoroughly and speedily cleaned in various stages of manufacture, and here chemistry again serves.

Metal cleaners are chemicals and they help to conserve vital time and materials. For example, effective removal of oil, grease and other soils from structural and sheet steel before tin-plating and galvanizing is an essential operation.

Cleaning Machine Gun Barrels

In some cases, crates of steel are lowered by crane into a tank containing a steam heated solution of cleaner. After ten minutes, the crates are taken to a rinse tank and then are water sprayed.

In one plant chemists saved over 2,000 pounds of zinc a week—300,000 pounds a year, by finding the right chemical cleaner. That 5,000 pounds a week was formerly rejected due to improper cleaning.

Metal cleaners developed by the chemical industry are thus contributing to war production by removing and preventing deposition of dirt, grease, oil, emery dust, rouge, carbon smut and grit.

The chemical industry has created hundreds of such metal cleaners, and in daily research is developing new ones for new uses.

91ST DIS. COURT HAS INJUNCT'N CASE ON D'CKET

Geo. L. Davenport, Judge.

New Cases Filed.

- J. E. Lewis, trustee, vs. Harry Breisford, note. G. H. Blackburn vs. Olene Blackburn, divorce. Roy W. Maxwell vs. Cora Maxwell, divorce. Norreen Moore vs. Paul Moore, divorce. Jim Hall vs. Louise Hall, divorce.

Judgments and Orders.

Mrs. S. E. Reynolds et al vs. Myrtle Warren et al, trespass to try title and damages. Comes now Mrs. Ha Ward a widow of one of the plaintiffs, and complains to the court that the defendants are threatening to enter upon the property in litigation, and to remove some of the fences, and she fears they will damage the property and rendered it valueless during the duration, therefore, she prays the court for a temporary injunction restraining defendants from entering upon the premises, and from molesting and otherwise damaging the same.

The plea of Mrs. Ward was approved and the court ordered the district clerk to issue a restraining order against the defendants in the case, restraining them from anywise molesting the property or damaging the same, as the court finds that the farm could be rendered worthless before the defendants could be cited to appear in open court.

Josie A. Buford vs. H. L. Buford, failure to pay alimony to minor child. Plaintiff appeared in open court and stated that the arrears in the alimony had been paid, and defendant hopes that the contemplated contempt order by court be waived. At the same time the plaintiff's attorney waived his motion for attorney fees. Whereupon the court dismissed the contempt proceedings but awarded the custody of the minor child to the custody of the plaintiff, but ordered the defendant to continue payment of the monthly sum of \$5 and cost of court, except the attorney fees.

Robert Jarrett vs. Lois Jarrett, divorce. Judgment for plaintiff annulling the divorce from defendant.

OFFICIAL UNITED STATES TREASURY TEXAS WAR BOND QUOTAS FOR AUGUST

WASHINGTON, D. C., Aug. 10.—Henry Morgenthau, Jr., Secretary of the Treasury, today announced the August War Bond Quotas for the 3,070 counties in the nation totalling \$615,000,000. The August quota for the State of Texas is \$27,250,000. In arriving at the county quotas for August the Treasury Department took into consideration major factors affecting incomes which in turn cause significant variations in sales during the twelve-month period. Hereafter actual Bond sales in the various states will be compared with quotas on a cumulative basis. The amount by which sales fall short of or exceed quotas in any month will be added to or subtracted from quotas for future months.

- Quotas by counties are:
- Anderson, \$110,000; Andrews, \$2,000; Bastrop, \$31,700; Baylor, \$25,400; Bee, \$65,900; Bell, \$153,000; Bexar, \$2,062,700; Blanco, \$9,800; Borden, \$3,700; Bosque, \$29,900; Bowie, \$234,100; Brazoria, \$144,500; Brazos, \$97,500; Brewster, \$29,000; Briscoe, \$9,000; Brooks, \$18,500; Brown, \$108,000; Burleson, \$36,300; Burnet, \$29,000;

ARE YOU MOVING AWAY?
On account of war time conditions more of our people are being dislocated than ever before. Some are moving out, others are moving in. If you own property and want to sell, most any buyer will first want an abstract. Many sales are lost because the title is not up in good shape, or down to date, at the moment the buyer is ready. Be prepared; get your order in to us today.

In Their Behalf... In Our Behalf... WE THANK YOU

Naturally we are proud of our boys in the service, of the job we are doing, and prouder still to be a vital part of America's great transportation system. We are also proud of the way you are co-operating with us in making our civilian transportation efforts less difficult. Your patience and understanding of these problems are aiding us immensely in our war effort.

Today, Uncle Sam comes first... Troop trains that transport our fine boys to their own particular jobs, and important freight shipments consisting of raw materials and finished products, that constantly glide across the country for our fighting forces, naturally come first and we know that is the way you want it.

Timely Hints for All Travelers

- Plan your trip as far in advance as possible.
- Whenever you can, travel on midweek days.
- Purchase round-trip tickets and save time and money.
- Buy your Pullman ticket as soon as your reservation has been made.
- Cancel reservation promptly if travel plans are changed.
- Allow ample time at the station to buy tickets and check your baggage.
- Take as little luggage as possible, than there'll be more room and comfort for everybody.

Timely Hints for Freight Shippers

- Order Freight Cars Properly
- Load 'em Quickly
- Load 'em to Capacity
- Unload 'em Promptly
- Unload 'em Completely
