ACTION IN THE PACIFIC

The tension with which Americans have been awaiting announcement of a so-called "Second Front" has been relaxed somewhat by news of the offensive action on Solomon Islands. This is not the expected invasion of France, but it certainly is motion in the right direction. Nor is it a little affair, but rather an engagement of the enemy on an important scale.

Losses must come of men, ships and planes, and are to be expected, but especially and personally of men. But losses are inevitable in a war and the more heavily the enemy is made to pay for these losses, the lighter the later losses will be.

Invasion of Europe has not been set aside. It is on the way. But it will be good strategy not to make the invasion at one point where the enemy can see it coming and prepare to meet it, but rather at a dozen points and in several different ways, so that even while the enemy scatters itself to meet a dozen minor dangers, suddenly it will find that the minor dangers have become major facts, that the United Nations has established itself and cannot be driven out.

UP ABOVE

Canada, according to the report of an observer from this side of the long border, seems to be standing the war disruption better than might have been expected after more than two years' experience. It is a vast country with much of its population widely scattered in small towns and villages, or on rather lonely farms. It is hard to leave those farms to neglect. There is many a wheat field standing unweeded.

The farm women must have a hard time of it, but there is little complaint. It is something that had to be done. Canada would stand with Britain to the end, even if she herself were not threatened. The back of the empire, at least, must be saved.

As for the enlisted men, for large numbers of them it means a chance to see the world, an expansion of their narrow lives, better pay than they have been used to in many cases, and an education for their all.

FROM STORE TO ARMY

What store does the biggest business in the United States? Many people would name a store in New York, others Chicago's largest department store. Both would be wrong. The city of Detroit with its thousands of industrial workers has a department store which topped the list in volume of sales last year.

Last week Oscar Webber, head of that great store, waved it good-bye for the duration to accept a post in the ordnance department of the United States army in Detroit—that city's biggest business of all. As deputy chief of this district, later to be chief, Webber will be head of a five billion dollar business with 7,100 employees, a thousand less than he directed in his own business.

Webber is only one of hundreds of Americans who are turning their backs on selfish interests to give the best they have to the service of their country.

JAPAN

Blake Clark was an eye-witness to the Japanese attack on Pearl Harbor. This led him to some sound reflections about the coun-

try that could plot such a treacherous assault.

"If the 'Big Five' of Japan," he says, "had solved Japan's social problem, given Japan's people food, they would not have had to give them fanaticism and superstition. A healthy social system does not arm for, or launch, wars of conquest and acquisition. It does not rear men who will strafe ambulances and civilians in the streets."

This is true of Nazism, too.

The newspapers of the country are devoting columns of space to the fact that Clark Gable, rich movie star, has enlisted in the United States army as a buck private. Gable is 41 years of age, in good health and single since the tragic death of his wife, Carole Lombard, whose plane crashed while she was returning from a trip east, where she had established an enviable record in the promotion of war bond sales. Many will say that Gable is only doing his duty, but it should be remembered that he has volunteered ahead of a call from his government, which is certainly commendable. That the screen star goes in as a private instead of using his influence to obtain a commission, is also another feather in his cap as a good citizen.

LONG BRANCH

Sunday school was dismissed early by previous agreement, in order that the church-goers might attend services at other nearby places last Sunday.

Their grandson, Jack Grant, will be with them for a while to help them get settled in their new home.

Long Branchians who attended the marriage rites that united Mary Esther Lewis and Floyd Henson, at the Baptist church in Carbon Sunday, were Miss Lucille

Furr, Mr. and Mrs. Britt Dudley and Ace Howard.

Though rain has fallen in several nearby communities recently and there have been many promising indications, up until Wednesday Long Branch had no rain for ten days. Peanuts, though in need of moisture, are holding out well.

Beauford Jester Has Constructive Program to Help Win the War

THE PEOPLE OF TEXAS in the Democratic primary of July 25th gave to Beauford Jester about 165,000 votes in a field of eleven candidates which placed him in the second primary election of August 22nd as a "runoff" candidate. This strong support was given this native Texan who has never before been a candidate for public office. The record made by Beauford Jester in both civil and military life and his full qualification for the office which he seeks makes him the logical candidate for the Democratic voters of Texas.

Beauford Jester served in the front line trenches in the first world war as a Captain of Infantry in the 90th Division, composed mainly of Texas soldiers. Holding a reserve officers commission he volunteered his services after war was declared last December but was unable to qualify physically. Since he is not able to serve in the army in the present war, Beauford Jester believes that as a member of the Texas Railroad Commission he can perform a valuable war time service to both his state and his nation.

Petroleum production and transportation are as indispensable to the winning of the war as are tanks, planes, guns and ships. The Railroad Commission has the important duty of regulating oil production in the greatest oil producing state of the union and also is responsible for regulating transportation in Texas. The Railroad Commission which in normal times calls for competent, conscientious and patriotic service, becomes of even greater importance in time of war. Harmony, team work and devotion to duty are essential on this critically important commission. If Texas is to play its full part in the united war effort of America, Beauford Jester is pledged to harmony and cooperation in the conduct of the railroad commission's affairs. He is making the race independently, as a lifelong Democrat, a native Texan, and without any prior commitments or obligations to anybody. He will cooperate with all other members of the Railroad Commission for the benefit of the people of Texas and toward the winning of the war.

Beauford Jester submits to the voters of Texas a program which is both sensible and conservative. When elected Railroad Commissioner he will favor the following policies for this important department.

This ad is paid for by a group of the independent oil operators of Eastland county who are convinced that Beauford Jester, when elected, will with fairness to all administer the affairs of the Railroad Commission, and they earnestly solicit your vote for him on August 22, 1942.

Miss Flaherty Was Honoree At Lovely Dinner

Mrs. E. McCracken and daughter, Miss Elizabeth McCracken, were hostesses at a lovely three-course dinner in their home Wednesday evening, honoring Miss Pauline Flaherty, who is leaving next week for California.

Guests were seated at the large linen-covered table in the dining room while eating. Decorations of the season's cut flowers, placed artistically, gave a festive appearance to the rooms. After dinner conversation entertained the group during the evening.

Those present were Misses Pauline Flaherty, Ruby Jones, Evelyn Reynolds, Jewell Smith, Mrs. Jack Johnston, Mrs. Frances Boone, of Cisco; Miss Lillian Caldwell of Eastland, Miss Elizabeth McCracken and her mother, Mrs. McCracken.

Mrs. H. R. Garrett Was Group Hostess

Scripture verses 4-9 were used as a basis for the devotional.

The topic, "A Great Church Is Born," was presented in dialogue form by Mrs. H. H. Tompkins and Mrs. Elkins. Mrs. Tompkins,

Exports of bananas from Mexico have decreased from 14 million stems in 1937 to an estimated 2.5 million this year, due to plant disease.

HOGS AT \$14.75

Hogs at Fort Worth Thursday set a new top since 1926 when packers paid \$14.75 for good and choice 180 to 300-pound butchers. This was 15c to 25c above Wednesday's average levels. Some late sales were only 5c higher. A few good butchers sold down to \$14.60, but good and choice 150 to 175-pound butchers turned at \$14 to \$14.65 largely. Packing sows and stocker pigs were steady at \$13.30 down.

Trade in cattle and calves was fairly active on a steady to strong price basis. Several sales in each class were around 25c higher than last week's close.

Medium and good slaughter steers and yearlings selling in the \$11 to \$12.75 range included six loads of steers at \$11; six loads at \$11.50; four loads at \$12; two loads at \$12.10, and four loads at \$12.35. Choice cattle were practically absent. Common slaughter steers and yearlings ranged from \$8.50 to \$10.75.

Good beef cows brought \$9.25 to \$9.75 with odd head at \$10. Most butcher cows cashed at \$7.50 to \$9 and canner and cutter grades sold at \$5 to \$7.50. Bull prices ranged from \$7.25 to \$9.75.

Bulk of the good and choice fat calves moved at \$11.25 to \$12.50; common and medium grades at \$8.50 to \$11, and cull sorts at \$7 to \$8.

Good to choice stocker steer calves were in scant supply with only a few sales at \$12 to \$13.25, other steer calves selling at \$8.50 to \$11.50. Heifer calves sold downward from \$12. Stocker steers and yearlings sold at \$8 to \$12; and a few stocker cows went back to the range at \$9.25 down.

Most classes of sheep and lambs were steady with slaughter ewes strong. Sales included Spring lambs at \$11 to \$13; medium and good yearlings at \$10 to \$11.25; common aged wethers at \$5.25; cull to medium ewes at \$4 to \$4.75, and feeder lambs at \$8.50 down.

What Does YOUR FUTURE hold?
NOW IS THE TIME!
Now is the time to start thinking seriously about the future of that family of yours... Whether they are to enjoy the freedom of American independence that our forefathers fought for, and that we as citizens of these United States have been enjoying all these years of our lives... or whether they are going to become the down-trodden serfs and slaves of European and Asiatic masters, as are the people... the women, the girls, the sons... the babies, of those enslaved countries.
It is not a question that we should put from us as an unpleasant and improbable one... no, it could and should be, a real live thought just now in the minds of every citizen of Cisco and the United Nations... It is not probable, and we hope, unlikely, but it is not too far removed.
We have won no battles yet, and every day we are faced with the fact of demands upon us for more materials... which means more money... with which to continue the fight for victory.
From nowhere else can it come except from us of America... Texas... Cisco! Surely not from those countries who are now slaves of those despotic masters... They not only do not have money, but they are starving in all subjected countries except where they have been forced into armies of their masters.
We see pictures in the papers of starving Greeks... and the same thing is true of others who have dared to raise their arms and voices against tyranny.

Miss Nanella Bible of Merick is spending a few days in the home of her parents, Mr. and Mrs. H. A. Bible, before going to Cuero, where she has accepted a position with the REA.

Mr. and Mrs. P. W. Campbell of Abilene were Cisco visitors yesterday. While here Mr. Campbell called on his old friend, J. M. Williamson, who is ill at his home, 401 W. Seventh street.

ARE YOU MOVING AWAY?

On account of war time conditions more of our people are being dislocated than ever before. Some are moving out, others are moving in. If you own property and want to sell, most any buyer will first want an abstract. Many sales are lost because the title is not up in good shape, or down to date, at the moment the buyer is ready. Be prepared, get your order in to us today.

JESTER MAKING A GREAT FIGHT FOR A BIG JOB

DALLAS, Aug. 13.—Beauford Jester today had launched a win-the-war program for the Railroad Commission of Texas and was preparing to take to the campaign trails again in winding up the second primary phase of his first political race. "Texas," Jester declared in a campaign address here, "has 100,000 oil wells producing petroleum to carry our planes and trucks to victory. We shall produce this oil to keep 'em flying and keep 'em rolling on to Tokyo and Berlin. Eleven billion barrels of oil are ready to answer all calls for freedom. It will be produced as needed, when and wherever required for our country and our Allies."

FAVORS SALES TAX

WASHINGTON, Aug. 13.—An 8 per cent sales tax to supplement heavy corporate and individual income levies for war purposes was proposed Thursday by J. Cheever Cowdin, spokesman for the National Association of Manufacturers. The NAM program called for \$37,200,000,000 in revenue in 1943, a sharp increase over pending measures, on top of which was suggested consideration of compulsory individual savings. While urging a sales tax as had the United States Chamber of Commerce, the NAM said a 5 per cent withholding tax on individual earnings, such as the chamber al-

so proposed, was "impractical, indefensible."
