MEN OF ACTION PICK THE NAVY

DETERMINED MARINES CONTINUE THE STRENGTHENING OF SOLOMON AIR BASES; HARASS ENEMY

MacARTHUR HEADQUARTERS, Australia, Aug. 15. — Determined U. S. Marines are hourly strengthening their bases in the Southern Solomons while American and Allied planes smash Japanese attempts to push reinforcements to the islands, dispatches indicated today.

MacArthur's Southwest Pacific air force made a strong attack on an enemy convoy struggling southward from Rabaul, in New Britain Island, and other American and Allied planes were harassing the Japs over a wide area between New Britain and the Solomons.

An Australian broadcasting commission correspondent reported that Allied attacks had forced the convoy out to sea.

It was believed that important raids not mentioned in communiqués were being made on such Japanese harbors as Kieta on the east coast of Bougainville and Carola on the west coast of little Buka Island, at the northern end of the Solomons, to keep back enemy reinforcements.

A navy department communique issued at Washington, reporting that consolidation of Marine shore positions was progressing satisfactorily, that naval units were protecting supply lines and escorting supply vessels to "our occupying forces" and that army and Allied planes were attacking enemy air and harbor bases was taken to mean:

1. That the Marine hold on the Tulagi area of the Solomons including the harbor, the seaplane base and probably the Kukum airfield and harbor base on Guadalcanal Island was now firm.
2. That enemy naval units had been dispersed so that supply ships were able to move up under escort to the Marine positions.
3. That Allied planes were taking the attack to the enemy in order to break up reinforcing fleets of ships and planes and that so far they had been successful because it was apparent that no big enemy force had arrived in the Southern Solomons.

Flying Fortresses made the attack on the convoy bound for the Solomons from Rabaul — a small convoy, MacArthur reported.

The three-day score in the New Guinea-New Britain air fighting was raised to six enemy fighters shot down and between nine and 12 damaged by Allied heavy and medium bomber planes out of a total of 27 challenging enemy planes. Not a single Allied bomber was lost in the three days, though some returned to base damaged and with casualties.

It was indicated that aside from trying to get ships southward, the Japanese had moved some planes toward the Solomons, possibly to Buka and Bougainville Islands.

United Press dispatches from Pearl Harbor indicated that no more doubt was held there that the Marines were in the Solomons to stay.

There was already talk there of the way the Marines were expected to push northward through the Solomons and probably to continue to New Guinea Island, northwest of the Solomons and east to New Guinea, to take the great base of Rabaul. The loss of Rabaul would make the Japanese position in all New Guinea untenable, and Mac Arthur's forces would be able to push Japanese troops at the Lae-Salamaua and Buna-Gona bases into the sea.

LANGSTON WILL CONDUCT A REVIVAL AT OKRA

Dr. Roy Langston, district superintendent of the Methodist church, will begin a revival Sunday night at 8:30 o'clock at the community tabernacle at Okra, between Rising Star and Carbon.

Dr. Langston will be assisted by Rev. A. W. Ferrell, pastor of the Caddo Methodist church, who will direct the choir and home-to-home visitation work.

Services will be held nightly through August 28, it was stated.

FORTY MILES PER HOUR

FORT WORTH, Aug. 15.—Three motorists and a driver for a gravel-hauling concern today had lost their tire ration certificates. They had one consolation, however. They were the "first" victims of the County Ration Board's crack-down on speeding motorists who turn up tire rubber.

The gravel firm's driver, G. L. Robertson, Ration board chairman said, had five tickets for exceeding 40 miles an hour.

MRS BARROW DEAD

DALLAS, Aug. 15.—Only one of her three children in prison will obtain furlough to attend the funeral of Mrs. Curmie Barrow, mother of the late desperadoes Clyde and Buck Barrow. She died early Friday after a short illness. The mourner on furlough will be her eldest offspring, Jack Barrow, serving 99 years for murder. Only two of her seven children had no police records.

Fight for your country's freedom! Get action, training, advancement. If you're 17 to 50, choose the Navy now

Men of courage and patriotism! Are you itching to get into this scrap? You bet you are! So why not get in now? Why not get in where America needs you most, where you can do a real fighting man's job, where you can build your own future success—the United States Navy?

You are a red-blooded American. If you are from 17 to 50 and in normal health, the Navy has a job for you right now. It's a man-size job. And it offers a man's reward.

The Navy gives you the stuff that a man of action needs. It puts and keeps you in top physical shape. You get good food, and plenty of it. Your life is clean, healthy, invigorating.

Look what the Navy offers you

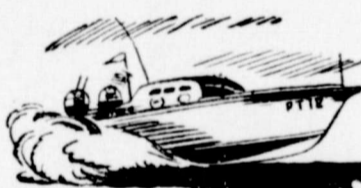

1. A chance to serve your country.
2. Clean, healthy life.
3. Good food—and plenty of it.
4. Good pay—up to \$138 a month.
5. Free clothing—\$133 worth.
6. Free medical and dental care.
7. Travel...adventure...thrills.
8. Opportunity to be an Officer.
9. Training in nearly 50 trades.
10. Future success in civil life.

Your shipmates are the finest. The Navy trains you to think straight and to think fast. You're taught how to take responsibility. And you're given responsibility. You play an important part on a mighty important team.

You have a chance to become an expert in your chosen trade. And that means you have a choice of radio, aviation, electricity, engineering—dozens of top trades that will win for you big pay later in civilian life.

In the Navy you get ahead fast. Your first promotion comes in approximately two months upon completion of recruit training, and it carries an increase in pay. Some Navy men earn as much as \$138 a month by the end of their first enlistment. And your pay is all yours. Your food, clothing, shelter, medical and dental care are free.

Read at the right what other men say about their life in the Navy. Then go to the nearest Recruiting Station. Have a friendly talk with the officer in charge. And ask him for a copy of the exciting new book, "MEN MAKE THE NAVY." It will give you all the facts why men of action pick the Navy. Don't delay. Act now.

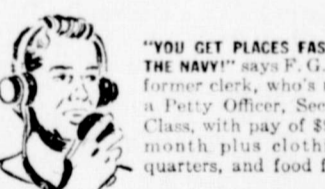

"A PT BOAT BEATS A POLLER COASTER forty ways for thrills," says Torpedoman T.E.W., once a gas station attendant.

"EVERY MAN IS IMPORTANT when you play on the Navy team," says Aviation Machinist J.C.K., who now catapults roaring planes from the deck of a battleship instead of collecting tickets at a ball park.

"YOU KNOW YOU'RE DOING SOMETHING BIG for your country when you're on watch for Nazi subs on the deck of a destroyer," says Seaman, First Class C.P.N., high school graduate.

"YOU GET PLACES FAST IN THE NAVY!" says F.G.H., former clerk, who's now a Petty Officer, Second Class, with pay of \$96 a month plus clothing, quarters, and food free.

WE WANT TIRES

The charge that oil companies have deliberately blocked the production of artificial rubber for mercenary reasons is an example of buck-passing of the worst type.

One of the largest oil companies recently categorically stated that it "supports and will fight for just one program for the production of synthetic rubber. That is, whatever program the government adopts to give our nation the most rubber in the shortest time from any raw material whatsoever, and with the least possible drain on vital construction materials."

What has delayed the synthetic rubber program is inexcusable political manhandling. Bureau after bureau has stuck its finger into the pie. The public has been fed one conflicting opinion after another. Only recently has any order come out of the chaos—and only recently has any real start toward solving the problem been made.

Whether synthetic rubber can be best made from petroleum, grain alcohol or anything else is a chemical problem, not a political problem. The oil industry, like the rest of the country, wants results. Its interest, like the interest of all of us, lies in getting tires in the shortest possible time, irrespective of the process used to manufacture them.

War Finances.

Dallas News: An extraordinary situation bearing on the placement of power at Washington is pointed to by Senator Harry F. Byrd (Dem.) of Virginia in his statement before the senate that there was, as of July 1, an unrepaid balance of 163 billion dollars of appropriations available to the government for its war efforts. During the month of May, latest for which complete figures are available, total war expenditures were \$2,553,090,909 (billions). The highest estimate of rate of expenditure possible at peak period of production is seven billion monthly. It follows that under an optimum spending schedule congress has provided the federal government with funds for two years.

Senator Byrd thinks that a halt should be called by congress until some headway is made toward use of the appropriations already made. This seems entirely justifiable, especially in view of the authority of the president to reallocate funds to new purposes. Since the national debt, on basis of expenditures already made, is now more than eighty billion dollars, it is evident that, under the highest tax schedule possible, the national debt for war purposes alone will be more than 200 billion dollars at the end of another two years. And this does not include the accumulation of deficits for normal governmental operations.

An even more serious objection to the present tendency of congress to make additional huge appropriations is the further resignation to the executive department of its own authority by congress. Of course, congress can always rescind its appropriations, but it must override presidential veto if the chief executive opposes the action. The present 163 billion dollars ought to be sufficient for the moment.

Farm Worries.

Redland Herald: Not all the worry of this section is over the war. As cotton begins to open farmers wonder how they are going to get the crop picked. Many thousands of acres of peanuts have to be pulled and threshed. A good crop of corn has to be gathered. Labor is still on its way to shipyards and defense industry. Moreover, the farmer sees a declining cotton market as his fields begin to turn white. The government policy appears to be to depress prices. It will soon announce its cotton loan limit. While the farmer faces discouragement and disappointment labor is accorded increased pay.

THE BIGGEST BUSINESS

The recent decision of the War Labor Board in the "little steel" case should cause a good deal of thinking throughout the country.

The board allowed steel workers a substantial increase in wages, despite the fact that many liberal as well as conservative economists are convinced that higher wages will make adequate price control impossible, and start a potentially disastrous inflationary spiral.

The board then decided in favor of so-called "union security." What that means is that men now members of a union cannot resign from it. They must continue as members, and must continue to pay dues, irrespective of their personal opinions and desires.

The question this raises is of immense importance.

The labor unions constitute the biggest of the country's "big businesses."

Inasmuch as practically all war industries work under the closed shop or union shop plan, the unions' "take" in initiation fees and dues reaches incredible proportions.

Yet this "big business," as distinct from all other "big businesses," is not subject to regulation or public control in any shape, manner or form.

No public accounting is made of the receipt or distribution of the vast sums it receives.

It is an absolute fact that a small group of union heads has far greater power over the life and destiny of this nation than any other private group has ever possessed.

It is also a fact that no man can go to work in a government-financed war industry which is making the instruments of war on which the entire nation depends for survival, without paying tribute to a union—and without accepting iron-handed dictation from a union.

In short, labor leaders are in the saddle, and they are riding hard.

They can ride us straight into a dictatorship—with themselves as dictators—until government takes over all labor and all business, as in Germany.

The tragedy lies with labor in the failure of its leaders to grasp the issues at stake.

sembly will be held at the First Methodist church which has sufficient seating room for the gathering.

Mrs. S. T. Stover entertained informally Friday afternoon in honor of the 91st birthday of her mother, Mrs. Louise Lookingbill. Quite a large number of friends gathered to congratulate "Grandma" as she is called by every one and to wish that she may live to see her 100th birthday and to continue to be a blessing to her family and friends. Rev. Z. L. Howell, one of the guests offered a sincere prayer of thanks for the influence of "Grandma" and invoking continued blessing upon her—Desdemona Letter.

Misses Dorothy and Maxine Hampton entertained the First Methodist senior league and several other guests with a Halloween party at their home last week. Fortunes told by Mrs. Merket and a ghost house furnished excitement for the evening. After several interesting games, delicious refreshments were served to all. Among the high school students present were: Pansy Lee Porter, Marie Qualls, Louise Statham, Merrill Goldberg, Virginia Lee Smith, Deyan Warren, Mary Spruill, Billy Kilburn, Byron Lee Winston, Gerald Merket, Theron Graves, Thomas Graves, Betty Elda Clark, Louellyn Clark, Lucille Clark, Mignon Clark, Donald Suries, Jere Lotfin, F. B. Mathews, Durward Boyd and the hostesses.

Rev. E. S. James, pastor of the First Baptist church, left this morning for Fort Worth with a party of Cisco people to attend the state Baptist convention, which will be in session until Friday. Rev. James expects to remain in Fort Worth until Friday, but other members of the party will probably return to Cisco tomorrow. Among those in the party were Mrs. J. J. Butts, Miss Mary Jane Butts, Mrs. F. D. Wright, Mrs. W. D. Hazel, Mrs. R. B. Kinsey, Mrs. H. B. Hensley, Mrs. E. J. Poe, Miss Letha Estes, Miss Fern Warren, Mrs. H. J. McArdle, Mrs. P. L. Ulom, Mrs. W. D. Brecheen, Mrs. C. S. Suries, and Mrs. Frank Walker.

Mrs. Sam Draganis and two small daughters, Katherine and Helen, have returned from a week-end at Dallas where they visited Nickie Nicklas, business associate of Mr. Draganis, who is recuperating from a serious operation.

HAS CONSTRUCTIVE PROGRAM TO HELP IN WINNING THE WAR

Texas is the greatest oil producing state in the nation and petroleum production, and the regulation of transportation, are as indispensable toward winning the war as are tanks, guns, planes and ships. In Texas the production and use of petroleum, transportation by truck, by rail, by air and by bus are controlled by the State Railroad Commission... and so are various public utilities of the state... in such a manner as to have the business of the railroad commission affect every consumer in Texas, every man, woman, boy and girl.

Beauford Jester submits to the people of Texas a brief program as follows: 1. The first and primary duty of my service as Railroad Commissioner will be to expedite the war efforts in Texas in every way possible. The greatest oil producing state in the union must put its full petroleum resources to work as the government demands.

BEAUFORD JESTER Corsicana

ing program of that institution. He is a life long Democrat and is the son of the late George T. Jester who served two terms as Lieutenant Governor of Texas under Governor Charles A. Culberson. He is married and has three children. He applied for enlistment in the United States Army after war was declared but was refused on account of physical disability. He hopes to serve his state and his nation as railroad commissioner—a place important in coordinating the resources of Texas for the winning of the war.

Parent-Education Group Had Good Meeting

The parent-education group held its regular monthly meeting Thursday afternoon at the nursery school. The meeting was opened by all singing "God Bless America." Willirue Logan, parent-education teacher, presided at a brief business session, after which the meeting was turned over to Mrs. Joe Courtney, program chairman. Several games of a humorous nature were played and following this the group sang and demonstrated nursery school songs, led by a teacher in the school, Mrs. Lula Condron. Mrs. Courtney then conducted an intelligence quiz based on nursery rhymes, with Mrs. H. Wood and Mrs. Charley Wink tying for first place. At the conclusion of the program, refreshments were served by Mrs. W. M. Joyner, chairman of the group, to eleven members and nine guests. One new member was enrolled at this meeting.

What You Buy With WAR BONDS

A part of the regular armament for a U. S. soldier is a 45-caliber automatic pistol which costs \$65. So we need millions of these firearms to properly equip our army on the world's battle fronts.

Purchase of three series E War Bonds at \$18.75 each, will more than pay for one of these modern weapons, so every person with an income should invest at least 10 percent in War Bonds every pay day. You can buy them at your Bank, Building & Loan Association, Postoffice and at many retail stores. Buy your share in America and help your country go over its War Bond Quota.

Church of the Nazarene. Sunday school 9:45. The Sunday services will be conducted by Rev. W. L. French, evangelist as the speaker, and Buford Burger as the music director. The revival,

What Does YOUR FUTURE hold? NOW IS THE TIME! Now is the time to start thinking seriously about the future of that family of yours... Whether they are to enjoy the freedom of American independence that our forefathers fought for, and that we as citizens of these United States have been enjoying all these years of our lives... or whether they are going to become the down-trodden serfs and slaves of European and Asiatic masters, as are the people... the women, the girls, the sons... the babies, of those enslaved countries. It is not a question that we should put from us as an unpleasant and improbable one... no, it could and should be, a real live thought just now in the minds of every citizen of Cisco and the United Nations... It is not probable, and we hope, unlikely, but it is not too far removed. We have won no battles yet, and every day we are faced with the fact of demands upon us for more materials... which means more money... with which to continue the fight for victory. From nowhere else can it come except from us of America... Texas... Cisco! Surely not from those countries who are now slaves of those despotic masters... They not only do not have money, but they are starving in all subjected countries except where they have been forced into armies of their masters. We see pictures in the papers of starving Greeks... and the same thing is true of others who have dared to raise their arms and voices against tyranny. YOUR COUNTRY NEEDS YOU.
