

CISCO—Admittedly one of the healthiest areas in state, with a countryside devoted to cotton, fruit, feeds, poultry, dairying, natural gas and oil; 2 railroads; Bankhead highway; one of the largest concrete swimming pools in the world.

# ALLIED RAID ON FRANCE COMPLETE SUCCESS

## SQUADS OF 300 MEN ENGAGED GERMANS AT DIEPPE; DIVISIONS 1500 NEEDED IN SECOND FRONT

LONDON, Aug. 20. — German prisoners, some wounded, arrived at a south coast port today, living symbols of the complete success of the Allied raid in force on the French coast which brought the second front in Europe portentously nearer.

BACK TO THE FRAY—British soldiers in the El Alamein battle zone in Egypt wave a hearty welcome to a truckload of Australian troops returning to the desert to reinforce the British in their struggle with Field Marshal Rommel's Nazi armies of invasion. (Passed by Censor)

Throughout the night, United States Rangers, Canadian shock troops, British Commandos and Fighting French volunteers streamed back across the English Channel and on through cheering English country towns and villages to their bases.

The last of the Allied troops, many seriously wounded, arrived in mid-morning under a cover of Spitfire and Hurricane planes which streaked a broad path across the 60-mile stretch of the channel to Dieppe above warships and transports.

With them came German prisoners.

A United Press correspondent saw one sorry group of five prisoners in drab gray-green uniforms and thin knee-boots, their knees shaking in fear they were about to be executed.

British surgeons treated a German non-commissioned officer who had suffered a bad head wound.

All through the night British planes ranged over enemy occupied territory and watched over the power-driven invasion barges, warships and other vessels which came streaming back after the nine-hour attack that ended just six minutes behind schedule.

There was a furious burst of gunfire before dawn in the Calais area 85 miles north of Dieppe.

Soon after dawn, squadron after squadron of Spitfires raced over to Dieppe to cover the last of the men who had made the great raid on the enemy-held coast and had put fear into the hearts of the German occupying forces from France to Norway.

Hospital trains waited at casualty clearing stations along the south coast to take the last of the seriously wounded to base hospitals.

The Allied forces left hundreds of stoutly wounded at field hospitals on the south coast; and on the beaches, fields and streets of Dieppe, 60 miles across the English Channel, they left the bodies of their dead, mingled with the bodies of many more German dead and the wreckage of nine hours of concentrated destruction.

Military quarters, assessing the results of the raid they regard as a complete and inspiring success, said:

1. It proved that a second front can be opened in the west at a price which may be calculated in advance.
2. To open it while half-ready would be suicidal.
3. The raid was effected with the greatest concentration of men, weapons and airplanes ever directed against an objective of such size.
4. There will be more, and even bigger raids before the second front comes.
5. The new raids will test the ability of shock forces to consolidate and expand a bridgehead of the kind formed yesterday.
6. Where companies of 300 men engaged the Germans at Dieppe, divisions of 15,000 men will be needed for the second front.
7. Yesterday's raid cost the Germans up to one-third of their fighter plane strength in western Europe, 91 planes certainly destroyed and another 100 damaged, many so severely they undoubtedly crashed, against 98 Allied planes. Thirty pilots of the lost Allied planes were saved.
8. The Allied plane forces dominated the air. On the present scale they probably could not do so if the second front were opened in the north, on the relatively thinly held Norwegian coast.
9. The Germans will have to bring fighter planes to the west at once and they may have to re-

"Southwest of Kletska, it" said, "German troops which succeeded in crossing the Don river have been annihilated. On one sector alone, 18 German tanks and up to 1900 Germans were destroyed."

### RUBBER SUBSTITUTE

WILMINGTON, Del., Aug. 20.—The Hercules Power company announced a new plastic which could replace rubber in hundreds of everyday articles. Base for the new plastic is ethyl cellulose, manufactured from cotton linters or wood pulp, common salt and alcohol from natural gas or from fermented farm products.

### GOOD RECORD

FORT WORTH, Aug. 20.—Sale of \$105,930.25 in war bonds and stamps since last December 11 is the record made by 432 Star-Telegram carrier salesmen.

## ALL WAR NEEDS FIRST

—BEAUFORD JESTER

WORTH, Aug. 20.—An administration in the railroad was pledged by Beauford Jester, director of the state American convention here as he declared that no call for essential oil go unattended, and the entire transportation of Texas be geared to goods needed for war.

Front-line infantryman of the first world war, Jester, who has been steadily in the line of the work he does, at the head of the state American convention here as he declared that no call for essential oil go unattended, and the entire transportation of Texas be geared to goods needed for war.

## CISCOAN BUYS 200 HEADS

Mitcham has purchased 200 head of beef cattle from San Angelo and will take them on Friday and Saturday of this week, he stated.

It is estimated that he would not have more than 50 head of cattle on the big barns at the ranch northwest of Cisco on account of the rub-

ber. However, his sales this season seem to be better than without the embargo.

Sales This Season  
R. K. Ray, Clyde, 21 bulls.  
D. Montgomery, Throckmole, two bulls.  
White, Eastland one bull, two calves.  
H. Vanshollen, Goliad, one bull.

Louder, Cisco, one bull.  
Herron, Albany, one bull.  
Hall, Cisco, one bull.  
Zimicke, Strawn, four calves.  
Chaney, Moran, one bull.  
D. Humphrey, Dallas, two calves.  
N. Norvell, Cisco, four bulls.  
Dobose, Gonzales, one bull.  
J. Kleiner, Cisco, three calves.  
Morgan, Corpus Christi, 21 calves.  
Morgan ranch purchased from Mitcham in 1935.

## OTHO KEAN IS IN HOSPITAL AT FT. WORTH

—BEAUFORD JESTER

Otho Kean of Cisco, who has been employed on a defense project at Texarkana for the past year, is now in a Fort Worth hospital for a minor surgical operation. When discharged from the hospital, Mr. and Mrs. Kean will return to Cisco.

## WILLIAMS IS BAND HEAD

Burl Williams of Coleman was elected band director of Cisco high school at a meeting of the school board yesterday, says W. W. Fowell, chairman of the band committee. Mr. Williams and his wife and little daughter will arrive in Cisco next Wednesday and will occupy the residence at 808 W. Twelfth street.

Williams, who is 28 years of age, is a thoroughly experienced band director and comes with excellent recommendations. He was director of Daniel Baker College band two years, was at Brownfield one year and at Judson school, near Longview, four years.

The band committee—W. W. Fowell and J. D. Lauderdale—feel they were fortunate in securing the services of Williams, and especially since the armed forces have absorbed so many of the more efficient band leaders. Williams succeeds popular Leonard King, who is now in the navy.

## ANDERSON IN CHARGE

—BEAUFORD JESTER

Capt. George LaMar has resigned as chairman of the scrap metal drive which is to culminate in a grand Round-Up program August 29, and A. D. Anderson, vice chairman, was asked to take over.

Mr. Anderson has accepted the responsibility and this morning appointed a group of men to aid him in getting the drive organized. G. P. Mitcham, P. R. Warwick and Jack Anderson are to assist him.

A program committee to arrange for the celebration rally will be announced tomorrow, as will other committee chairman and personnel of the organization. Anderson asks that all citizens of Cisco and adjacent rural districts watch the Cisco Daily Press for these announcements.

"This is an important task and Cisco must do her part," Anderson said.

"Every farmer in the territory must be contacted and every housewife in Cisco must be on the job to gather her scrap metal, be it much or little, so that trucks or boy scouts may pick it up and bring it to the salvage center selected by the committee, which will be announced later. This applies only to metal donated.

## TEXAS CRUDE FLOW NOW FITS NEEDS OF WAR

AUSTIN, Aug. 20.—Adjustment of allowed production in Texas oil fields to the oil needs of purchasers satisfying war demand had been largely accomplished by the Railroad Commission Thursday in its new statewide order effective September 1.

The September order calls for 21 producing days in most fields and the estimated Sept. 1 allowance is 1,430,363 barrels. Normal production will bring production down to about 1,353,000 barrels daily, well below the Office of Petroleum Coordinator's estimate of 1,397,800 barrels for Texas.

BATES RECOVERING.  
R. M. Bates of the Bates Hotel is recovering from the effects of a spider bite, though he will probably carry a scar on his left hand as long as he lives. The wound was very painful for several days after the bite and the poison had destroyed the flesh and exposed the bones of the hand before the wound began to heal.

CITY TO BUY BONDS  
GAINESVILLE, Aug. 20.—The city of Gainesville will purchase \$21,000 in war bonds from the cemetery permanent fund and with bonds in sinking funds.

## LIKE LOCAL PORT

As the northeastern turning point for the flyers' training class at Coleman airport, the Cisco port was visited this morning by 12 flyers on cross-country jaunts, who were checked by a control plane in charge of Lieut. Howard L. Gerber and his staff sergeant, J. T. Hutchins.

There are 106 in the Coleman class and Cisco will be regularly visited each morning by these flyers until all students have visited this turning point in the cross-country flights. They will be checked each day by Lieut. Gerber's control plane.

This officer, who is a very fine gentleman, according to local Clearance Officer Charles D. Roberts, was complimentary regarding Cisco's field, saying it was 100 per cent better than the field at Coleman. He also stated that it was the history of all present government-designated fields that they were first "turning point" fields until the government found out about them through the reports those in charge of control planes made.

Roberts seemed to think that Cisco might profit much through the reports Lieut. Gerber will be turning in each day about the Cisco field. Roberts said the Coleman field was two-thirds out of commission today on account of a little rain last night, while the Cisco field is always at 100 per cent efficiency, even though "we might have a four-inch rain. That is one reason the Cisco port was rated by the officer as much better than the Coleman port.

Mr. Roberts also suggested that a visit to the port in the morning at about 9:30 by Cisco business men might be of interest.

## PIPELINE DELIVERIES

NEW YORK, Aug. 20.—To speed up deliveries of petroleum to the East Coast, the nine pipe lines formerly in the Standard Oil group moved a total of 31,768,000 barrels of crude oil in July, a record for any month. In the like month of 1941 deliveries amounted to 25,818,000 barrels. In the first seven months of 1942 deliveries aggregated 196,546,000 barrels, compared with 150,592,000 in the comparable months of last year.

WILL ACT QUICKLY.  
WASHINGTON, Aug. 20.—Positive and prompt action to forestall any war production shutdowns due to lack of materials appeared imminent Thursday in consonance with Donald M. Nelson's newly enunciated "get tough" policy. The production chief was expected to give his regional directors throughout the country power to issue "quickie" priority ratings to provide needed small quantities of materials or parts.

## NEW PASTOR SPEAKER AT ROTARY LUNCH

Rev. Cooper Waters, newly-arrived pastor for the First Baptist church, was the speaker today at the Rotary club and brought a message that was full of optimism and very conducive to thought. He was introduced by Rotarian A. C. Green.

There were several other visitors at the luncheon—Mrs. Ernest Hittson, who played the piano for the regular pianist, Miss Billye Cole, who is on her vacation; N. W. McCormick, Abilene; Charles Woodson, Brownwood; Jim Mitcham, Brownwood, son of Mr. and Mrs. G. P. Mitcham, Cisco; Rev. W. R. Derr of Ralls, Texas. All of the above men are Rotarians, except Mr. Waters.

President Hittson made some announcements, among them being that Cisco will receive an official visit from District Governor Charles Paxton on December 17, and that the Cisco club was fifth highest in the district last month from the standpoint of attendance. Hittson urged that this high rating be continued, if not improved upon.

Mr. Waters said he would always have a warm spot in his heart for Rotarians, since the club at Wichita Falls, when he was a boy, arranged that the "knothole" group of boys might enter the field and watch baseball games without charge.

He then plunged into his subject of comparing the dictator groups with democracies, where there was freedom of the people and of their thoughts, also.

He said that if the Axis group won, freedom of action and of thought would be doomed, but that if democracy won and the victory was protected, this freedom would extend throughout the world.

He thought, however, that there might be some danger of the communistic doctrine permeating the minds of the Allies, but that he was optimistic enough, and had faith enough in his religion to believe that Christian religious thoughts and beliefs would rather engulf the minds of the liberated peoples of the world and in this way sweep its way with democracy into Russia and doom communism.

He stated that already the Russians were softening toward the Christian religion and Stalin was allowing America to ship thousands of Bibles into that country. The talk was short but covered his subject well, and the speaker received the compliments of many of those present.

## SUCCESSFUL MEETING

Rev. Seba Kirkpatrick, pastor of the Twelfth-st. Methodist church, who has been conducting a revival at Romney, reports the interest has been received and is ready for volunteer workers. The work room will be open Friday afternoon. The chairman also said that those who have completed sweaters may bring them to the work room Friday afternoon.

## CANNON BACK TO NAZIS

The American Legion Post at Moran has contributed to the scrap metal drive in a nice way and without much talk and a German cannon and machine gun are now in the scrap pile of the Cisco Lumber & Supply company.

The cannon weighed 2,140 pounds, but the weight of the machine gun could not be learned. The cannon has stood on the lawn in front of the Moran Legion Hall for a number of years, but the machine gun has been on display inside the hall and was thus protected from the weather.

Charles S. Sandler, who bought the gun and cannon from the Legion, says the machine gun seems to be in very good working condition, though out of date by some 24 years.

## TRUCK STOLEN FROM JACKSON PRODUCE CO.

Wylie Jackson of the Jackson Produce company, reported to Cisco police this morning the loss of a Chevrolet blue cab truck, 1939 model, which he said was presumably stolen from in front of the Buster Bell shop in the 1100 block of S. D. avenue. The truck was left at the Bell shop late Wednesday evening for repairs. This morning a driver made inquiry at the shop to ascertain if the repairs had been made, but was told that the proprietor had not seen the truck.

Police Chief Perdue said he had checked on the truck and learned that it was seen at the Bell shop as late as 12 o'clock Wednesday night. He said he had notified police of surrounding towns to be on the lookout for the vehicle.

LATER—Chief Perdue was notified this afternoon that Abilene police had found the truck in that city.

ROMPER MATERIAL HERE.  
Mrs. W. W. Wallace, Red Cross chairman, says a large shipment of material for children's rompers has been received and is ready for volunteer workers. The work room will be open Friday afternoon. The chairman also said that those who have completed sweaters may bring them to the work room Friday afternoon.

## REDS RETREAT, BUT KILL MANY AS THEY GO

MOSCOW, Aug. 20.—The Russians announced today that they had been forced farther south of fallen Krasnodar by masses of German tanks and infantry penetrating dangerously close to Novorossiisk, the best remaining Soviet naval base on the Black Sea.

The Soviet noon communiqué indicated, however, that Russian forces were holding on all other fronts, and reported the destruction of 52 German tanks and the killing of 8,400 more Germans, in addition to the enemy column.

South of Krasnodar, the enemy massed his strength on the most important sectors of a range of hills and started a ferocious attack. The Russians withstood it for 24 hours, but finally had to retreat into the valley beyond, where the fight still raged, as the Germans tried to penetrate their depth defenses.

In neighboring sectors, the Russians had beaten off two attacks and killed hundreds of Germans and still held strategic heights.

The noon communiqué reported that Russian forces had made "a number of counter-attacks around Kletska, which is 75 miles northwest of Stalingrad and the Volga river, line, and had wiped out seven German tanks and a battalion (1,000 men) of infantry.

"Southeast of Kletska," it said, "German troops which succeeded in crossing the Don river have been annihilated. On one sector alone, 18 German tanks and up to 1900 Germans were destroyed."

The Cisco Daily Press

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 3, 1879.

A. B. O'FLAHERTY, Publisher and General Manager. W. H. LAROQUE, Advertising Manager.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year by mail (outside of Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties, Texas; outside the above-mentioned counties \$2.50; \$4.75 in U. S. outside of Texas.

Per year, in advance \$5.00 Per week, by carrier boy \$1.00

MIS-USED POWER

A thoughtful person in these times might easily turn pessimistic about modern civilization. And especially about the Age of Power for which the world has striven in recent generations.

The test of any method or system is, "What does it get you?" And what our modern steam and electric power has got us and the other civilized nations seems to be a tremendous headache, without much immediate hope of alleviation.

Thoughtful people naturally ask, in frank moments, what good all this boasted "progress" does for humanity - what nations use it more and more to kill each other instead of making life easier and pleasanter for everybody.

The fact is that we solve scientific and economic problems better than we solve personal, human problems. We make better machines and gadgets but we don't make better people. We create a world economy without creating a world spirit of cooperation.

This kind of introspection won't win the war, and it must be won. But when that is done, the next job might well be some real thinking about what we're all here for, and what we're going to do about it.

NOT YET BUT SOON

Hitler's lines are thinning as he stretches them out in ever-lengthening movements of conquest. And sooner or later the Axis may get the ax, applied where it will be most effective.

Suppose Russia, with the Allies' knowledge, were shrewdly letting Hitler stretch out his military neck into southern Asia until it could be neatly severed.

It should be kept in mind, too, by timorous friends of the Allied Nations, that Germany had only 80,000,000 population to start with, in this war to grab the world, and that the Allies, though handicapped at the start by well-prepared foes who "jumped the gun," have vast resources not yet brought into action.

BARRELS FROM SPOONFULS

Half a cup of kitchen drippings seems such a trifling thing, hardly worth carrying to the butcher to be turned into the big can which holds the fat brought in by the other folks on the street.

A shelter tent is a "pup" tent and our Army and Marine Corps uses thousands of them in field maneuvers, in training, on short marches and for overnight bivouacs.

THE DESTROYERS

The drive to socialize the electric power resources of this nation does not consist of isolated and unrelated incidents. It is, instead, a national campaign—carefully planned and integrated.

Any one can see that simply by looking at a map. In the southeast, the TVA has an almost 100 per cent electric monopoly in whole states—and it is constantly enlarging its power-producing and distributing facilities.

The public-power zealots used to say that such projects as the TVA and the rest were primarily for navigation, flood control and irrigation, and that power was only a by-product.

Recently, a federal power authority in South Carolina said, in a brief presented to the courts, that "the object of the named projects (Bonneville, TVA and Boulder), and of scores of others that have been undertaken, was to socialize the business of producing and distributing electric energy."

missioned bombardier. The bride will be at home at 910 W. Fifth street until September 20.

Mrs. A. L. Clark Was Hostess to Circle

Mrs. A. L. Clark was hostess to group three of the First Christian church council which met in her home Tuesday afternoon for the regular weekly meeting. Mrs. Randolph Lee Clark opened the meeting with a devotional from Psalm 23. The afternoon lesson was discussed by Miss Jo Gray. A business session followed and plans were made for filling a box for the Juliet Fowler Orphan home. The meeting closed by repeating the missionary benediction in unison.

Those present were Mrs. Randolph Lee Clark, Mrs. A. J. Ward, Miss Jo Gray, Mrs. Claire Swartz, Mrs. J. S. Mobley and the hostess, Mrs. Clark.

Next meeting will be held in the home of Mrs. H. R. Miller, 500 W. Eighteenth street, with her daughter, Mrs. D. G. Alford, as hostess.

Marriage Of Cisco Couple Is Announced

Mr. and Mrs. O. W. Statham, 910 W. Fifth street, have announced the marriage of their daughter, Sammy Louise, to Aviation Cadet Gerald C. Merket, son of Mr. and Mrs. R. W. Merket of Cisco. The wedding took place Saturday evening, August 15, at Midland, in the home of Rev. Mr. Pickering, who read the ceremony.

Attending the bride was Mrs. Ben Moody of Abilene. Aviation Cadet Ben Moody, of the Midland army flying school, served the groom. Others attending were Mr. and Mrs. Herman of Midland.

Both the bride and groom attended Texas Technological College, Lubbock. The groom will be stationed at the Midland flying school until September 24, at which time he will become a com-

SGT. YORK AT PALACE PLAY HOUSE SUNDAY

The exciting story of America's greatest World War hero will return to Cisco when Warner Bros. "Sergeant York" starts its showing at the Palace theater next Sunday.

Brought back by popular demand, the picture has everything that goes to make up a fine film—stars, romance, drama, excitement, a fascinating story and a beautiful setting. It can now be seen

Radio-Equipped Marine Scout

Marine Corps scouts are trained in the use of compact sending and receiving radio sets so that information they may uncover may be quickly transmitted to operation headquarters.

for the first time at popular prices. Gary Cooper is cast in the title role, for which he won the academy award, with Joan Leslie appearing opposite him as simple mountain girl with a keen wit and a lovable personality. Walter Brennan, academy award winner, is cast as Pastor Pile, life-long friend of York, whose homely philosophy became part of York's creed.

George Tobias, Stanley Ridges, Margaret Wycherly and a host of others make the cast one of the most impressive of recent years.

The story is at once both simple and exciting because it shows both sides of the lives of the Cumberland mountain folk. York, a sharp-shooting farmer

Old? Get Pep, Vim with Iron, Calcium, Vitamin B, MEN. WOMEN

who "gets religion" in his own manner, is a fellow who hates no one and registers as a conscientious objector when he is drafted during the World War. An understanding officer in his company, played by Stanley Ridges, shows him that sometimes violence is necessary to insure freedom. York turns out to be not only a good soldier, but one of the bravest heroes in the A. E. F., winning the highest decorations of the allies. Incidentally, Sergeant York has recently been promoted to a majority in the armed forces.

LET'S TALK ABOUT MONEY -- AND WAR

When you hear that bombing planes cost \$335,000, tanks \$75,000, anti-aircraft guns \$50,000 --- and when you hear, too, that America needs 60,000 planes, 45,000 tanks, and 20,000 anti-aircraft guns at once . . .

It doesn't take much figuring to see that winning this war calls for every dollar of us we can scrape together. With our freedom at stake . . . with our farms, families, even our very lives depending upon the outcome, we'd gladly give this money.

But we aren't asked to do that. Our government asks only to LEND THE MONEY . . . to put our increased earnings into WAR BONDS . . . month after month . . . until this war is won.

In doing so we save for our own security as well. For we get back \$4 for every \$3 we invest, when the bonds are held 10 years. And if we need the money, we can get it all back any time after 60 days from issue date.

This is the American way . . . the volunteer way . . . to raise the billions needed for victory. And the money can . . . will . . . must be raised.

So, let's show them that the people of Cisco — merchants, laborers, adjacent farmers and all classes of this patriotic citizenry, are helping and will help more . . . in this great struggle to win this war . . . in two important ways . . . by producing more food for Freedom, and by saving more through WAR BONDS. Invest at least 10% of your earnings in War Stamps and Bonds . . . regularly . . . each month.

NOTE --- Farmers can buy War Bonds through their Rural Carriers.

ly at \$14.35 or \$14.10 with packers stopping at \$14.35. Good and choice 150 to 175 pound averages turned at \$13.75 to \$14.30. Packing sows were steady at \$12.75 to \$13.25. Stocker pigs were mostly 25c higher at \$13.75 down.

**QUIT TALKING, BEGIN KILLING, TEXAN ADVISES**

GREENSBORO, N. C., Aug. 20.—In a two-fisted fighting speech, Maury Maverick of San Antonio called upon America to gird itself for the killing of our enemies so they can be wiped off the earth. Maverick, now an official of the war production board in Washington, addressed a meeting here of the North Carolina League of Municipalities. "A school has lately arisen," Maverick said, "which seeks to prove that our Civil war was a sort of unnecessary affair. Be that as it may, it was one of the most glorious periods of American history. We got tired of talking and went to killing each other. For four and a half years we stood face to face and glogged and slaughtered and asked for nothing but to be allowed to die. When we of the South surrendered we may have surrendered to our equals. Our brave soldiers went to their homes with their honor and their arms and property. But that isn't the point; the point is we got tired of talking and went to killing. "We have talked enough, too much, in this war. Is it not possible for us who once killed each other to rise in horrible and terrific unity and wipe our enemies from the earth?" "My answer is yes. "The only trouble is that some

**AUSSIE GETS D.F.C.**—Squadron Leader Robert Gibbes flashes a cheery smile after being awarded the D. F. C. for heroics in the air over Egyptian front lines. During 294 hours of operational flying he shot down 6 Axis planes.

people in high places think you have to keep coddling, promising, and putting sugar coats on the American people — the people DON'T WANT sugar coats. They cry out to be allowed to wear coats of blood. "Furthermore, catch phrases and slogans just won't win the war. Killing Japs and Germans everywhere in the world, on, above and under sea and land and in the air, upon a thousand fronts, wherever you can get at them, that's how we will win this war. "Today," Maverick continued, "in the blackest hour of the Republic, we cannot be preparing ourselves for jobs after the war,

for personal gain now or later, or do anything for individual selves. Many of us still think of this war as some strange and irritating interlude which we will muddle through, and that suddenly 'normalcy' will burst upon us."

**EXPENSE THE CAUSE.**  
NEW YORK, Aug. 20.—Net earnings of steel companies in the first half of 1942—despite record-breaking production—were sharply below any six-month period since the first half of 1939, the American Iron and Steel Institute reports. Increased cost of doing business was given as the cause. The advantage of a self-addressed envelope is that mail carriers can deliver it without deciphering your signature.

**CATTLE MARKET**

The Fort Worth market on cattle and calves Thursday was fully steady on all classes. Hogs sold weak to 15c lower with the top \$14.40. However, stocker pigs were 25c higher. All classes of sheep and lambs ruled steady. Choice heaves were scarce but one load of strictly choice heifers drew the top of \$14. Medium to good red steers and yearlings in the \$11 to \$12.75 range included

two loads of yearling heifers at \$12.75; one load of steer yearlings at \$12.75; 11 loads of steers at \$12.25; and two loads of steers at \$11. Common to medium steers and yearlings off the grass sold mostly at \$8 to \$10.

Good beef cows cashed at \$9 to \$10 with a few higher. Common to medium butcher cows brought \$7.75 to \$8.75 and canners and cutters turned at mostly \$5 to \$7.30.

Good heavy bulls sold at \$9.25 to \$10 and common to medium kinds at \$7.25 to \$9. Good to choice fat calves cashed at \$11.50 to \$12.75; common to medium butcher calves at \$8.50 to \$11; and cull calves at \$7 to \$8.25.

Good to choice stocker steer calves went out at \$12 to \$13.50 with heifer calves mostly at \$12.50 down. Common to medium stocker calves brought \$8 to \$11.50. Good and choice stocker steer yearlings cashed at \$11 to \$12.50. Stocker cows went back to the grass at \$9.50 down.

In the hog yards and choice 180 to 300 pound butchers sold mostly \$10 to \$11.50.

Good to choice fat calves cashed at \$11.50 to \$12.75; common to medium butcher calves at \$8.50 to \$11; and cull calves at \$7 to \$8.25.
