Cisco Scrap Metal Hunt Gets Under Way and Is to Be Pushed With Vigor

The committee for organizing Cisco and adjacent rural territory for the scrap metal drive, headed by A. D. Anderson, chairman, with G. P. Mitcham, P. R. Warwick and Jack Anderson as co-workers, snapped into the organization program yesterday and have announced some working committees who will begin at once with their duties to raise Cisco's scrap metal during next week.

The program committee to prepare for an enthusiastic patriotic rally at the Round-Up scheduled for Saturday night, August 29, consists of E. L. Jackson, chairman, Jack Anderson and Rev. James R. Wright. This is an important committee and the task is one worthy of its efforts.

It is generally conceded that a greater part of the scrap metal will come from farms and ranches adjacent to Cisco. The rural territory is to be worked through an organization of the school trustees of rural communities. To organize these men and women, Carlos J. Turner, Cisco rural school principal, has been made chairman. He will be assisted by H. R. Garrett, vice-president of Cisco Junior High, and Arlin Bint, principal of Cisco west ward school. The city will be thoroughly organized and thoroughly equipped for every possible scrap of metal not valuable as an important piece of machinery part itself. All broken pieces of metal no longer of use to the owner are to be brought in either donated to the Red Cross or else sold to some metal dealer.

A site for the dumping ground for donated metal will be announced in Sunday's Daily Press.

The following persons have been entrusted with this important work of organization: Mrs. Geo. P. Fee, chairman; Mrs. Bill Hogue, Mrs. Paul Hod, Mrs. J. T. Anderson, Edward Lee and M. L. Keasler, trustees of the city and the boy scout organization will be working for bringing in all donated scrap gathered on the premises of citizens. Naturally this committee will appoint sub-committees to thoroughly comb the city, so that the Round-Up next Saturday night will be in the nature of a rally and over-reaching the quota.

A publicity committee was also appointed, consisting of E. LaRoque, chairman; C. J. Turner, E. L. Jackson, Mrs. Fee, Edward Lee, M. L. Keasler and P. R. Warwick. City Chairman A. D. Anderson says other committees of important announcements will be publicized in Sunday's Daily Press.

WILKIE TO BE PRESIDENT'S SPECIAL AMBASSADOR

WASHINGTON, Aug. 21.—President Roosevelt said Friday that Earl W. Wilkie, who opposed the presidency on the recent ticket in 1940, was going to represent the United States in the war effort and the unity of the nations.

President told a press conference in addition to Russia, China, Arabia, Palestine, Syria, Iraq and Iran. The best thing to call him, he said, is a special representative of the president, since he carries letters not only to the Americans but also to the other countries, including Stalin of Russia.

HOUSTON, Aug. 21.—The 15th annual convention of the Housebuilding Corporation will be launched by the Housebuilding Corporation today. The ship, of Liberty type and named the Sedgwick in honor of a Revolutionary War patriot, went to sea yesterday.

WORTH ENLISTMENTS. WORTH, Aug. 21.—Fort Worth is all other cities in the Texas area in naval recruiting the first two weeks in August. L. L. H. Ridout, Dallas recruiting officer, told Kiwanis members yesterday at Hotel Sedgwick that the office had recruited 223 men in a 24-hour period ending at midnight last.

LEGION'S 24TH ANNUAL CONVENTION AT FT. WORTH ENDS

FT. WORTH, Aug. 21.—The twenty-fourth annual state convention of the American Legion closed Thursday afternoon with election of officers and adoption of resolutions by both the legion and its auxiliary.

Charles M. Borger was elected department commander, succeeding Andrew Wilworth of San Antonio. Other officers elected were Dr. W. J. Danforth, Fort Worth, executive committeeman; Lou J. Roberts, Borger, alternate executive committeeman; Herman Nami, San Antonio, judge advocate; Rev. H. H. Black, Colorado City, chaplain; Caroline Wilcox, Waco, historian; Johnie Jenkins, Waco, sergeant-at-arms, and W. F. Spiegel, Port Arthur, treasurer.

RETURNS TO CALIFORNIA. Miss Martha Graves, who has been spending her vacation in Cisco with her parents, Mr. and Mrs. T. A. Graves, left today for her home in Corcoran, Calif., where she is supervisor of student teachers for Fresno State college. She is state advisor of home economics for student clubs. Miss Graves will be state chairman of the student clubs section at the American Home Economics association, which will hold its annual session at Los Angeles this fall.

MANY JOIN NAVY. HOUSTON, Aug. 21.—The Houston navy recruiting office today wondered if all Texas was joining the navy and claimed a new record for one day's enlistments. Lieut. J. B. Beebe, officer-in-charge, said the office had recruited 223 men in a 24-hour period ending at midnight last.

TO FORM BEGINNER SQUADS

Capt. O. L. Stamey of the Cisco Defense Guard, in announcing the regular drill for tonight, says new squads are being formed and suggests that those who wish to align with this patriotic organization should be at the fire department at 8 o'clock this evening and start in with other beginners.

Captain Stamey realizes that it might be embarrassing for beginners to be thrown into the ranks alongside those who have become more expert in drill tactics, hence the formation of squads for those without previous drill experience.

Stamey and his aides, First Lieut. Sim Ledford and Second Lieut. Wyatt Jacobs, are working out a regular drill schedule in strict accord with U. S. army tactics, and this will be instituted when completed.

ANDERSON GOT A FRACTURED BACK IN FALL

Mr. and Mrs. J. W. Anderson of 305 W. Third street have returned from Brownwood, where they were called by reason of an accident to their son, Fred Anderson, 36, Tuesday. The injured man is in Medical Arts hospital and though painfully injured is now expected to recover.

He was working for the Pruitt Construction company when he slipped on a wet scaffold and fell about 15 feet, sustaining a fractured back, the father relates.

It was at first thought the back had been broken, but careful examination revealed only a painful fracture.

The injured man's wife is now with him and will remain at his bedside until he is able to return to his home in Cisco.

MUST NOT FORGET. WASHINGTON, Aug. 21.—President Roosevelt warned enemy nations in a formal statement Friday of "fearful retribution" to come for what he called their "barbaric crimes" against civilian populations in Axis-occupied countries. The chief executive issued his warning after Secretary of State Hull had given him a communication from the Netherlands ambassador and the Yugoslav and the Luxembourg ministers calling attention to Nazi slaying of hostages.

WAGES AND FARM PRICES. NORFOLK, Va., Aug. 21.—Demands for immediate limitations on farm prices and wages were voiced Friday by Price Administrator Leon Henderson, who told a mass meeting of war workers that the battle against inflation will be lost unless such action is taken.

ROYAL ONLOOKER—King George of England (left) comes close to seeing the real thing as he watches "battle-school" maneuvers on English countryside. Troops engaged used live ammunition.

SUPREMACY OF AIR FOR ALLIES BECOMING FACT SHARPEN YOUR PENCILS

LONDON, Aug. 21.—The clipped wings of the German air force in Western Europe was rated Friday by British observers as the first dividend of Dieppe.

Allied mastery of the air, they asserted, is complete beyond challenge, not only over Britain and the channel but even deep into enemy territory itself.

These commentators, whose identity could not be disclosed, said this was proved by the extraordinary show of Allied airpower Thursday, with virtually no opposition and apparently without the loss of a single plane, over German-held soil.

In broad daylight, 500 fighters swept across the French coast—never before had more than 300 planes made such a raid at one time—and a force of the United States' big four-motored flying fortresses rained explosives on the Amiens railway yards without even sighting a Nazi fighter over the target.

WALK-OUT STRIKE. LOUISVILLE, Aug. 21.—The Reynolds Metals Co. today removed from the payroll additional workers who remained away from their jobs in a union jurisdictional dispute that has hampered production of aluminum parts for U. S. army bombers. Members of the International Aluminum Workers of America (CIO), who maintained pickets at the 11 plants of the company, seek a bargaining election. A total of 133 men had been removed from the payroll by 11 p.m. last night.

WILSON BREAKS NECK

J. W. Wilson, well known Cisco man and in his early forties, died at 8 o'clock last night in a government hospital at Camp Hulen, near Palacios, from a broken neck.

Complete details of the accident have not reached Cisco, but it is understood Mr. Wilson was swimming in the gulf and that the injury was received when he dived in shallow water and his head contacted the gulf floor. It is reported that he lived about an hour after the accident and death came after he had been carried to Camp Hulen base hospital.

"J. W.", as Wilson was familiarly known to many Cisco people, was born at Carbon, but his parents moved to Cisco when he was quite young and he attended school and grew up here. He was well known and had many warm friends here. He was a government employe at Camp Hulen.

Survivors include the wife and little daughter, who were with him at Palacios; Mack Wilson, a brother, who lives at Memphis, Tex.; Rupert, another brother, who is said to live in California, and four sisters. One of the sisters, Mrs. Hosea Poe, lives in Columbia, Mo.; Mrs. Claude Gaines lives in Oklahoma, and the names and locations of two sisters could not be learned today.

It is stated the body will arrive in Cisco tomorrow on the Sunshine and that the burial will probably take place Sunday.

TANK CARS CAN NOT HAUL AUTO GAS IN TEXAS

WASHINGTON, Aug. 21.—Petroleum Co-ordinator Ickes Friday prohibited railroad delivery of automobile gasoline in 20 states in the middle west and southwest in a move to release an estimated 5,000 to 6,000 tank cars for supplying the east.

The states brought under the ban were Texas, Louisiana, Mississippi, Alabama, Oklahoma, Arkansas, Tennessee, Kentucky, Missouri, Kansas, Nebraska, Iowa, Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, North Dakota and South Dakota.

Deputy Co-ordinator Ralph K. Davies said it "remains to be seen" whether rationing of petroleum would be made necessary in those states as a result of the order.

CIO MAKES PROTEST.

WASHINGTON, Aug. 21.—The Congress of Industrial Organizations today defended Frederick I. Libbey, discharged \$5,600-a-year engineering consultant who was the first casualty of War Production Board Chairman Donald M. Nelson's "get tough" program. Three CIO members of Nelson's own labor policy committee released a resolution urging Libbey's reinstatement to his WPB job and demanding the discharge of "the men in the iron and steel industry branch who are responsible for the present steel shortage."

HUGE RUSSIAN TANKS' TREADS GRIND BODIES OF AXIS TROOPS INTO EARTH; STRUGGLE FIERCE

MOSCOW, Aug. 21.—A slaughter of Germans that "turned the river red with the blood of the enemy" was reported in official dispatches today to have crushed a Nazi drive that had carried across the Don to within 40 miles of Stalingrad and Russia's Volga lifeline.

Thousands of German, Italian, Rumanian and Hungarian dead—some ground beneath the treads of charging Soviet tanks, others bayoneted in hand-to-hand struggle—were said to litter the east bank of the river southeast of Kletskaya where the Germans forced the crossing in massive strength.

The Germans still clung to a bridgehead today under terrific Red army attacks and front-line advances reaching Moscow said that it soon would be wiped out unless the Germans could move across reinforcements.

The Germans forced the crossing yesterday, after advance units were destroyed 24 hours earlier.

The official government newspaper Izvestia said that Russian tanks, charging into the Nazi bridgehead on the east bank "ground down" large numbers of Germans with their treads. Russian infantry followed, bayonetting and machine-gunning Axis troops and driving them back to the river bank.

"Groups of the enemy were driven into the river which was turned red with blood of the enemy," said Izvestia.

The newspaper reported that fighting still raged on the east bank but that all the enemy forces had been driven back to the river's edges.

The army organ Red Star described a battle field littered with dead and hundreds of burned-out tanks and other vehicles.

The earth "literally rumbled" under the terrific shocks of constant shelling by massed artillery and mine-throwers and tons of bombs hurled upon the closely-packed opposing forces by squadrons of planes.

Squadron after squadron of tanks raced into attacks and counter-attacks while the Germans poured fresh forces into the battle to take Stalingrad, Izvestia said.

On the southern flank of the menaced industrial city, northeast of Kotelnikovo, the Germans were said to be pushing ahead with wanton disregard of losses.

Great masses of German tanks, artillery and planes as well as motorized infantry were said to be thrusting toward the Stalingrad railroad, from which the enemy was driven last week in huge tank battles.

After the defeat of their tanks, the Germans regrouped forces with fresh reserves and opened a new drive northeast of Kotelnikovo, simultaneously with the attack southeast of Kletskaya.

GERMAN WOUNDED. MOSCOW, Aug. 21.—Ambulance trains containing 700 wounded German troops passed through Paris Wednesday night after the Commando raid on Dieppe, the Soviet news agency Tass reported from Geneva Friday. "Two hundred Frenchmen were arrested after the Allies withdrew because of their hostile attitude toward German troops."	WIN NAVAL BASE. WASHINGTON, Aug. 21.—The capture of a group of islands in the Solomon archipelago has given the Allied fleet a naval base site of great potentialities and at least one air field from which bombers could hammer at important Japanese positions on New Britain and Bougainville Islands to the northwest.

RE-CONQUEST

When the Japs got their feet into all these Dutch, British and American shores in the Pacific and Indian Oceans, they thought they were "sitting pretty." Or at least standing pretty. From their first beach-heads they could move further in, consolidate their gains, and gradually make themselves so strong that they could never be forced out.

Tokyo would then be the center of a vast ocean empire, buttressed by land holdings acquired gradually as they expanded their new domain. And Japan would be a great world power, to rule for countless ages, perhaps eventually to rule the world and all its people. The oriental mind is easily lured by such dreams when it turns to conquest.

But the practical, hard-headed western mind is now upsetting such dreams. The supposedly beaten powers have rallied and started ejecting the intrusive Japs. Beach-head after beach-head is retaken and American Marines are now "tightening their grip on the Solomon Islands."

When those islands are restored and consolidated, the wave of restoration may sweep westward also through the rich Indies above Australia until the Japs are expelled from all their gains. Then, or even before that duty is fully accomplished, the great, wholesome back-wash may turn north and beat upon the Japanese homeland itself.

GREEN CORN TIME

What with the war and summer vacations and all, and an election just around the corner, and the country uncertain of what to do about congress and congress ditto about the country, a grand old American institution hasn't been getting the attention it merits. The reference is to the annual event of corn on the cob.

"The time is at hand," announces a lyric newspaper contributor, "and gnawing it off the cob has now become general throughout the land. Moreover, the comely cuties who always stick the little finger out at the correctly cultured angle when sipping their lips around a cocktail glass, or toying with a tea cup in public, may now be seen buttering their chins, noses, cheeks and sometimes their ears while giving an ear of corn a workout in public."

"The folks, too, who have reached the trick-teeth stage and now happily making good on their boast that they can take off the cob just as expertly as the youngster one who still have their originals. And in truth, the only thing that betrays the oldest is the savage creak when they really start ripping."

This, however, is no theme on which comment should be allowed to grow ribald. Corn on the cob, as every true American knows, is a matter not only for ecstasy but for reverence. It is a test of patriotic loyalty rather than a test of teeth, and a national festival to be celebrated with due respect.

HUMAN NATURE

"Life," says a contemplative friend, "would be so simple if it were not for human nature." You can apply that principle not only to friends and associates but to communities and nations.

each other off to make room, opportunity and a living for the rest.

But such a view seems to ignore the fact that neighboring tribes, however small, have always fought each other. When there were not more than a million people in this hemisphere, and it was a long distance between tribes, those tribes would fight each other just as nations fight now. And animals, the stronger and fiercer ones, fight in the same way. The red squirrel in the woods, where there is plenty of room and food, is fighting and killing squirrels of other breeds. Birds, too, are at war. And fishes.

LONG SPEECHES

The best speech he ever heard, says Josephus Daniels, former secretary of the navy and recently ambassador to Mexico, consisted of just seven words. It was made by Henry Ward Beecher, the famous clergyman and orator, who had left his party to help elect President Cleveland. At a meeting held the next year in Cleveland's honor, Beecher made this speech: "We were not mistaken in our man." No more, but nothing could have been added in two hours of oratory.

President McKinley's last speech was introduced by an eminent Buffalo lawyer, John G. Milburn. His listeners, used to presiding officers, braced themselves for a long address. Instead Milburn said, "Ladies and gentlemen, the President," and sat down. Americans have suffered so much from long speeches that these two examples should be given in every banquet table.

CROSS PLAINS

(Callahan County)

Dr. Eli Powell and C. R. Cook returned Tuesday night from Callahan City, Mississippi, where they attended the funeral of Dr. Powell's brother, Dr. Clyde Powell, 54, who was instantly killed in an automobile accident near Forrest City, Ark., Thursday night. Funeral services were held at Callahan City Monday morning at 10 o'clock and interment was made at Pittsburg. Previously services were held at Forrest City Sunday morning at 10 o'clock. Survivors include two brothers, three half-brothers and one sister. Dr. Clyde Powell was prominent in the field of medicine in both Arkansas and Mississippi. He had headed the board of health at Forrest City for a number of years. He was a world war veteran, member of the American Legion and regarded as one of the peers in medicine and surgery in that section of the nation. It was explained that he was killed when his automobile collided with a parked truck along a state highway.

The second annual Carey family reunion was held Sunday, August 16, at the home of Mr. and Mrs. Bill Kinnard, who live about a mile west of Cross Plains. A basket dinner was served at noon to the following members and friends present: Mr. and Mrs. John Sherman and son, Ira; Thomas Carey, Blanket; Mr. and Mrs. Lindley Carey and children, Doris, R. L. and Lolene; Mr. and Mrs. W. C. Pinkston, Ruby, Wanda, Bettie and W. C. Cross Plains; Mr. and Mrs. G. H. Carey and Dottie and Edward; Mr. and Mrs. V. C. Carey and Wayne and Hazel; Mr. and Mrs. Ben Nix and Beth, Blanket; Mr. and Mrs. Charlie Robson and

What You Buy With WAR BONDS

The Torpedo Bombing plane has been developed to a high state of perfection and efficiency by our Navy. They have been used most efficiently to scatter and destroy both enemy fighting ships and convoys. They use a bomb something like a sub torpedo.

The Navy Torpedo Bomber costs approximately \$188,000. Our plane factories are building them at an amazing rate of construction. We need many of them and must pay for them through the purchase of War Bonds. You and your neighbors can help buy Torpedo Bombers for the Navy if you invest at least ten percent of your income in War Bonds every pay day.

Mrs. Arlis Webb and Mrs. Roy Boiles were co-hostesses Monday evening, August 17, when they entertained the junior department of the Baptist training union with a social, in the home of the former, at 8:30 o'clock. After numerous games and contests, refreshments of cake and iced punch were served to the following: Harold Strahan, Joan Hall, Marie Smith, Dena Lou Cox, Margaret Ann Clark, Patricia Randal, Robbie Key Shipp, Charles Boiles, Billie Joe Underwood of Tolar, Billy Boiles, Darrel Randal, Virginia Wooten, Ila Grace, Bobbie Jean and Billie Faye Webb, and Mrs. Boiles and Mrs. Webb.

Merchants were warned yesterday by Porter J. Davis, member of the Callahan county ration board, that sugar must not be sold in variance from the plan originally outlined by the federal government. For instance, merchants are prohibited from selling sugar on any given stamp in the ration book until the date for that particular stamp arrives. The ration board has received complaints that this law is being violated by a few merchants, the Review was told. Still another discrepancy in the manner in which sugar sales are reported to be handled is the report that some merchants have sold sugar rations with the understanding that the customer bring in his stamp later. This, of course, was occasioned by the fact that the purchaser failed to bring ration book with him at the time of making purchase. "Both these violations are in strict contradiction to the law and subject the merchant to a \$10,000 fine and possible imprisonment," Davis declared.

Miss Emma Cone Bride-Elect Was Complimented

Complimenting Miss Emma Cone, daughter of Mr. and Mrs. R. A. Cone, bride-elect of Durward Morris, of the U. S. navy, and son of Mr. and Mrs. Guy Morris, Miss Dot Cone and Mrs. L. E. Cotten of Stamford entertained Thursday afternoon in the home of their cousin, Mrs. J. H. Latson, Jr. A patriotic scheme was carried out in the decorations and appointments. The guests were greeted informally by Mrs. Earl Cotten and directed to the table, where Miss Ella Jo Cone presided at the bride's book.

A clever program followed during which Phyllis Cotten, niece of the bride-elect, dressed as a sailor, brought gifts in a small navy pursuit plane pulling a huge gift box, while a chorus sang "Sky Anchor Aweigh." The gifts were presented to the honoree. Misses Azalea Morris, sister of Mr. Morris and Kathryn Cotten, niece of the bride, served cake and punch to the guests. Plate favors were miniature airplanes.

Those present were Miss Emma Cone, Mrs. R. A. Cone, Mrs. Guy Morris, Misses Azalea Morris, Ella Jo Cone, Mrs. Carrie E. Tipton, Mrs. Tom Page, Mrs. J. W. Wallace, Mrs. Kelly Hatten, Mrs. A. C. Ivie, Mrs. Troy Stewart, Mrs. Nona Watley, Mrs. C. S. Moad, Mrs. Brady Boggs, Mrs. C. L. Moad, Mrs. J. F. Alsop, Mrs. Waldo Harris, Mrs. Gordon McCandies, Mrs. J. E. Blackwell, Mrs. J. W. Mancell, Misses Mona Jean Boggs, Kathryn Johnson, Azalea Morris, Kathryn and Phyllis Cotten, Jan Latson, Grace Ivie, Frances Moe-

ley, Cathryn Alsop and the hostesses, Miss Cone, Mrs. L. E. Cotten and Mrs. J. H. Latson, Jr. Those sending gifts were Mrs. Johnny Penn, Mrs. Uviah Bohannon, Mrs. D. Huddleston, Mrs. Jim Boggs, Mrs. W. J. Tickner, Mrs. Edith Gilmore, Mrs. Smith Huestis, Mrs. Buddy Dolgener, Mrs. M. E. Goldberg, Mrs. Andy Babers, Mrs. Joe Sykora, Mrs. Ed McCandies, Mrs. W. C. Ivie; Misses Mae Tickner, Eula Howell, Lala Mae Johnson; Messrs. Earl Cotten of Stamford, Arthur Cone and Guy Morris.

Ciscoans Return From Convention

Mr. and Mrs. W. R. Huestis, Mrs. Paul Poe and Mrs. Leon McPherson returned Thursday from Fort Worth, where they attended the state convention of the American Legion and auxiliary. They report a splendid time, filled with business, inspirational addresses and entertainment.

Officers elected to head the organizations for next year are Mrs. Frank Bell of San Antonio, president of the auxiliary, and Charles Mousel of Rochester, Tex., president of the Legion.

Mrs. Harder Was Hostess to Group

First Christian church group two met with Mrs. W. A. Harder in her home on W. Fifth street Tuesday afternoon. The meeting opened with a devotional, brought by Miss Alice Bacon from the book, "The Upper Room," using scripture readings from the fifth chapter of Luke. Mrs. L. A. Estes then offered prayer. Mrs. Edward Lee directed the afternoon

O. F. S. Chapter In Meeting and Program Tuesday

Eastern Star chapter 461 met in regular session at Masonic hall Tuesday night with the worthy matron, Mrs. H. T. Huffman, in charge. The meeting opened in regular form and reports of sickness and other routine matters were heard. Invitations were read from Moran and Hanger chapters inviting the local chapter to visit them. It was decided a group would visit Moran chapter on Monday night, August 24. The meeting closed in regular form, after which a "Founder's Day" program was observed.

Mrs. H. T. Huffman gave the first number, a sketch of the life of Robert Morris, founder of the order; Mrs. Joe Britain presented the American flag and all present pledged allegiance. Others taking part were Mrs. W. F. Watson, Mrs. J. J. Tableman, Mrs. M. M. Parmer, Mrs. Lalla Smart and Mrs. W. W. Feswell. The meeting was adjourned until September 8.

Ideas about rubber aren't contradictory. One group means there is no shortage now; the other means there will be one before it's over. A great man is one who says "You are my friend, but friend-

ship is less important than the Nation's safety, and you'll have to make good or quit. A free land is one where people never hate a foreign enemy as they hate the opposition candidate for president.

CATTLE MARKET

Cattle and calves found an active and steady market at Fort Worth Friday. Hogs were steady, 5c higher, with the top \$14.50 while packers paid up to \$14.45. Most of the sheep were old ewes but all offerings in the sheep yards sold steady.

Medium and strictly good steers and yearlings in the \$19.50 to \$12.75 range included one load of steer yearlings at \$12.75, one load of heifer yearlings at \$12.75, two loads of fed steers at \$11, and one load of heifers at \$11.50. Choice cattle were scarce without re-

ported of one load of steer yearlings at \$12 and a short load of fed heifers at \$14. Common grass steers and yearlings sold mostly at \$8 to \$10.

Good beef cows turned at \$9 to \$10; common to medium butcher cows at \$7.75 to \$8.75, and canners and cutters at mostly \$5 to \$7.50.

Good heavy bulls sold at \$9 to \$10 and common lightweight bulls down to \$7.25.

Good to choice fat calves cashed at \$11.50 to \$12.75; common to medium butcher calves at \$8.50 to \$11, and cull calves at \$7 to \$8.25.

Good to choice stocker steer calves went out at \$12 to \$13.50 with similar grades of heifer calves at \$12.50 down.

JIM FARLEY WON OUT IN NEW YORK OVER WAGNER, LEHMAN, FLYNN AND MR. ROOSEVELT

NEW YORK, Aug. 21.—James A. Farley scored a major triumph yesterday over his former political partner, President Roosevelt, when the Democratic state convention in uproarious session named Atty. Gen. John J. Bennett, Jr., as the party's gubernatorial candidate over Senator James M. Mead.

The vote was 623 to 393 — an even more impressive count than Farley had predicted before the balloting. The nomination was made unanimous on motion of Michael J. Kennedy, Tammany boss, whose organization was divided in the contest, as leaders moved swiftly to heal party wounds left by the gubernatorial conflict.

Effect of the convention action was to weaken President Roosevelt's hold over the New York state party organization. This issue superseded in importance the decision whether Bennett or Mead would be the candidate.

It was a test of strength between Farley, who managed the President's 1932 and 1936 campaigns, and then broke with him over the third term, and Mr. Roosevelt and top new deal political bigwigs, including Senator Robert F. Wagner, Gov. Herbert Lehman and National Democratic Chairman Edward J. Flynn.

Mead's name was placed in nomination by Wagner after the convention had adopted a platform pledging full support of President Roosevelt's war policies.

Outcome of the Bennett-Mead struggle surprised no one, although both factions made an unsuccessful attempt to avoid the floor fight that took place Thursday.

Farley tried without success Tuesday to convince a group of party leaders that Mead could win even with the president's support and urged them to withdraw him from the race.

His plea was rejected summarily and then Farley turned to a compromise proposal from president through which the Mead could have been averted. Several behind-the-scenes maneuvers to compromise also failed.

Mead's only hope of victory to crack the powerful 1932 delegation from Brooklyn to control of Frank V. Kelly, this delegation cut its strength behind Bennett, the tie was over.

It was a glowing Farley — not Farley who sat hunched on the platform at the 1940 Chicago national convention as he accepted President Roosevelt's term in a radio message to the hall — who responded to calls of delegates for "speech."

He formed a V for victory with the fingers of both hands as the convention roared: "Yes!"

Unless the citizens of America respond at once, the war production program can bog down for lack of steel and other vital materials.

Even in peacetime, scrap provided about 50% of the raw material for steel.

It may be rusty, old "scrap" to you, but it is actually refined steel — with most impurities removed. In the steel mills this precious "scrap" is remelted with pig iron to produce the steel which goes into our machines of war.

Many steel furnaces are working from hand to mouth. Others are faced with shutting down. All need great mountains of reserve scrap to see them through the fall and winter months.

Steel production has gone up... up... UP! America is now producing as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; all the tanks, guns and ships our country is counting on cannot be produced.

We can be thankful that there is enough Scrap in this country to see us through — Scrap a once wasteful nation is turning to in time of stress. It all depends on you to collect it and turn it in.

It is the greatest "Treasure Hunt" in history. Appoint yourself a committee of one to search your attic, your basement and your garage, your barnyard, your factory or your store.

Then give your pile to a charity or collection agency — or sell it to a Junk dealer. The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Throw YOUR scrap into the fight!

HOW TO TURN IT IN — Sell it to a Junk dealer. Give it to a charity... Take it yourself to nearest collection point... or consult your Local Salvage Committee. If you live on a farm, phone or write your County War Board, or consult your farm implement dealer.
