POWERFUL NAZI ARMY FORCES SWIFTS BACK

SCOW, Aug. 22.—Front divisions reported today that they have massed an estimated 800,000 men in a 50-mile front at the Don river in an attempt to break through to Stalingrad. Disasters in the bloodiest fighting war was going on along the bank of the Don. German non-stop offensive Stalingrad need unabated in 27th day, and their superior tanks and planes slowed the tired Russians back to flank, one of which was 40 miles from the city. Though the Russians sharply attacked, killing thousands of men and knocking out 10 of their tanks, the enemy division after division of fresh troops into the assault. The loop of the Don river, east of Kletskaia and 40 miles west of Stalingrad and the river line, the Germans bring their utmost to mop up the east bank, from there they could launch a final drive across the steppes.

LABOR THREAT GROWING MORE SERIOUS

PITTSBURGH, Aug. 22.—The United Workers of America threatened today to strike the Aluminum Corp. of America plants and practically production of the most strategic material, in protest against the board decision that denied a \$1-a-day wage increase. A strike poll of 32,000 members of the board's decision. The locals reject the board's decision. President N. A. Zonarich declared that he will immediately appeal to President Roosevelt to intervene, a statement.

Roosevelt declines to see whether or refuses to repudiate the board's decision, Zonarich said then, the union action call a strike that would cripple production in a few weeks and cripple the production of other weapons.

GOOD CITIZEN NEARS END OF LIFE JOURNEY

George W. Daniels, resident and highly esteemed Cisco citizen since 1883, who will be 84 years of age his next birthday, is very low at his home on E avenue and the family feels the end is near. Though suffering considerably,

and hardly the same man since the death of his son, C. J. Daniels, May 8 of this year, nevertheless Mr. Daniels had shown keen interest in world affairs and particularly in the progress of the war until about two weeks ago, when he began to sink. Till that time he read the papers daily without the use of glasses. An ardent admirer of Theodore Roosevelt, and born on the same day of the month and year as the former president—October 28, 1858—Daniels often laughingly referred to himself and Roosevelt as twins. Both were born in New York state, too.

JAPS TASTE MARINE FURY IN GILBERTS

HEADQUARTERS, PACIFIC FLEET, PEARL HARBOR, Aug. 22.—U. S. Marines killed 842 Japanese and took 30 prisoners in a raid on the Gilbert Islands and in two ferocious fights in the Solomons, and it was reported today

that they might even now be engaged in new offensive operations against enemy bases. In the Solomons the Marines wiped out one entire Japanese reinforcement battalion of 700 men, killing 670 and taking 30 prisoner, and killed 92 in another fight. They killed at least 80 Japanese and destroyed radio installations, stores and two seaplanes in their raid on Makin Island, in the Gilberts, and guns of the supporting fleet sank a small transport and a gunboat. The president's eldest son, Maj. James Roosevelt, was second in command. Japanese planes, sent under

The jury found him guilty Friday after two hours deliberation.

UNCLE SAM'S WARS

For a supposedly peace-loving nation the United States has had a good many wars—one every 20 or 30 years. But not till the two world wars did Uncle Sam go to fighting as if it were a serious business.

War Department figures, recently released, show that in the War of 1812 only 19 per cent of the troops were regular army soldiers. State militiamen accounted for 88 per cent and volunteers for the remainder. The war worked out just about as might have been expected. The inexperienced army, untrained except for the regulars, ran away in panic in almost every battle. Not till the battle of New Orleans, at the end of the war, did our soldiers make a creditable showing.

The Mexican war showed a much better proportioned army. There were then 20 per cent of regulars to 12 per cent of militia and 58 per cent of volunteers. This new distribution, and the fact that West Point had at last been to function, had much to do with our overwhelming success.

From the Civil War on, our wars have been conducted like the serious business they were. Only in the Spanish War was there a reversion to the bad old ways of political officers and inadequately trained men. The last war eliminated the uncertainties of volunteering and tried to assign men to work where they would do the most good. The only criticism is that, in view of the emergency abroad, it was necessary to rush soldiers over before they had learned their parts.

In this war Uncle Sam seems to have profited by earlier mistakes. In the camps they are teaching the methods of the present conflict, not of the one before. Uncle Sam's boys, when called into action, show the effect of careful preparation and acquit themselves with glory.

CRUEL DISPERSION

Three million Dutchmen are to be moved from Holland by Hitler, on the pretense that the country can't support its 9,000,000 people. This would raise a good laugh if it were not so tragic in its implications.

The Dutch have always been as self-respecting as any people in the world. The only reason they are not fully supporting themselves now is that the Germans have stolen their money, confiscated their property and deprived them of their jobs. The Japs have taken their territory in the East Indies.

The obvious remedy is not to move out the Dutch but to kick out the Germans. That will be done in time, but meanwhile there will be much grief.

ONE LIFE FOR MANY

There are people, possibly, who were shocked by the death sentence delivered by Federal Judge Arthur J. Tuttle of Detroit against Max Stephan, a naturalized German-American, for aiding the escape of a Nazi prisoner. In normal times the punishment might have been less severe. But these times are not normal. Judge Tuttle has stated the situation clearly enough for all loyal and intelligent people to understand.

"It is, of course," he says, "a dreadful thing to take human life. But we must remember that the offense of treason has to do with war, and we must remember that war has to do with death. The life of this traitor is less valuable than the lives of our loyal sons which are being given to the cause of the United States. We have been too soft, to the extent of being mushy. There are too many in the sob squad and too few in the fighting squad."

So viewed, the punishment is just. So, too, was that of the six saboteurs so promptly and effectively put to death. And no less important than the judgment it

self is the warning it carries. These acts of strict justice may deter many other potential traitors and save many loyal lives.

PEDALING TO WORK

Most of the automobile traffic still operating is that of people who work in town and live on the outskirts, driving to and from work. It is evident that a great deal of such transportation, using up gasoline and tires, is unnecessary. Swarms of people in most communities could use bicycles without hardship.

In one community with a large industrial population around the edges, a "Ride-a-Bike-to-Work" movement has been started with considerable evidence of success. Pioneers in this effort say they enjoy it. The pedaling seems to be mostly enjoyable and invigorating at the beginning and end of the day, rather than a hardship.

Eventually this may be normal procedure generally, if the bike supply doesn't run out. The boys and girls, though, may grudge the apparent confiscation of their "cars" by their parents.

BARRED FROM BARS

At a time when women's activities are being extended so broadly, it may seem like a bit of counter-revolution to see them shunted away from saloon bars. That is being done now in tolerant Chicago, following an example set in various other cities.

"It should be understood," says the mayor, "that I have no peevishness against women. Because of a few bad women who hang around bars and chafe drinks, I'm afraid the good women who derive a little pleasure from drinking at a bar will have to suffer." It is hoped, however, that this dreadful deprivation will not cause too much suffering.

CONFUSION

I was a gray mouse, Lived in a chair, But the house burned down, And my home died there.

I was a redbird, Flying the sky, But the sky grew dark, When a hawk sailed by.

I was a black dog, Skulking the street, But my heart went mad In the jungle of feet.

I am a man now... Where can I go? What shall I do? How am I to know.

—LOUISE N. ODER.

Christian Science.

'Mind' is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 23. The golden text is: 'God hath not given us the spirit of fear; but of power, and of love, and of a sound mind (II Timothy 1:7). Among the citations which comprise the lesson-sermon is the following from the Bible: 'O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out' (Romans 11:33). The lesson-sermon also includes the following passage from the Christian Science textbook, 'Science and Health with Key to the Scriptures,' by Mary Baker Eddy: 'The basis of all health, sinlessness and immortality is the great fact that God is the only Mind; and this Mind must be not merely believed, but it must be understood' (page 339).

LET'S TALK ABOUT MONEY -- AND WAR

When you hear that bombing planes cost \$335,000, tanks \$75,000, anti-aircraft guns \$50,000 --- and when you hear, too, that America needs 60,000 planes, 45,000 tanks, and 20,000 anti-aircraft guns at once...

It doesn't take much figuring to see that winning this war calls for every dollar of all of us we can scrape together. With our freedom at stake... with our farms, families, even our very lives depending upon the outcome, we'd gladly give this money.

But we aren't asked to do that. Our government asks only to LEND THE MONEY... to put our increased earnings into WAR BONDS... month after month... until this war is won.

In doing so we save for our own security as well. For we get back \$4 for every \$3 we invest, when the bonds are held 10 years. And if we need the money, we can get it all back any time after 60 days from issue date.

This is the American way... the volunteer way... to raise the billions needed for victory. And the money can... will... must be raised.

So, let's show them that the people of Cisco --- merchants, laborers, adjacent farmers and all classes of this patriotic citizenry, are helping and will help more... in this great struggle to win this war... in two important ways... by producing more food for Freedom, and by saving more through WAR BONDS. Invest at least 10% of your earnings in War Stamps and Bonds... regularly... each month.

NOTE --- Farmers can buy War Bonds through their Rural Carriers.
