## U.S. WINNING SEA, AIR BATTLE IN SOLOMONS

### Eastland Co. Gave Each Winning State Candidate Majority; Smith Top Man

The Daily Press herewith gives the vote of Saturday's second Democratic primary by box—27 in all— together with the Eastland county majorities of the five victorious candidates.

The vote was not as large as that cast at some previous elections, but the interest was greater than in most instances, due principally to the U. S. senatorial race and the hotly contested race for sheriff of Eastland county.

#### County Majorities.

Lee O'Daniel	958
John Lee Smith	4,309
Esse James	1,865
Leafor Jester	1,583
John Hart	258

### WIFE OF R. H. GREEN DIED AT HOME HERE; 83

Mrs. Lizzie Green, wife of R. H. Green, died at the family home here Monday afternoon after a lingering illness.

The funeral was held at the East Cisco Baptist church, with Rev. Russell Dennis, Rev. H. N. Baldersee and Rev. S. C. Kirkpatrick officiating. Interment was in Oakwood cemetery. Pallbearers: Wayne Thurman, Paul Poe, Kent Word, Omar Fenley, Flynn Reames and Jess Youngblood.

Deceased was born in Arkansas, March 30, 1859, and was married to Mr. Green at Boydsville, Ark., January 8, 1889. Eleven children were born to this union, seven of whom, together with the father, survive. They are R. A. Green, McGregor; Mrs. E. R. Fenley, Arthur Green and Mrs. R. H. Abbott, Cisco; Mrs. J. L. Shannon and Emmett Green, Amarillo; Mrs. B. F. Tucker, Eastland.

Mrs. Green came to Texas with her husband and family in 1897 and had lived in the county since that time. She was a consistent member of the Baptist church and also survived by thirteen grandchildren and three great-grandchildren. The Lane funeral home was in charge of burial arrangements.

### JOIN HANDS FOR STATE AND NATION

—W. LEE O'DANIEL.

FT. WORTH, Aug. 25.—With struggling returns sending his vote percentage up fractionally, Sen. W. Lee O'Daniel prepared today for a six-year term in the upper chamber by calling upon all Texans "to fight together now for the welfare of this state and the nation."

At mid-morning, the senator departed for Dallas, to confer there at 11 a. m. with other officials of the cotton states on a proposal to withhold the new cotton crop from the market by use of federal loans until the market price of cotton hits 22 cents.

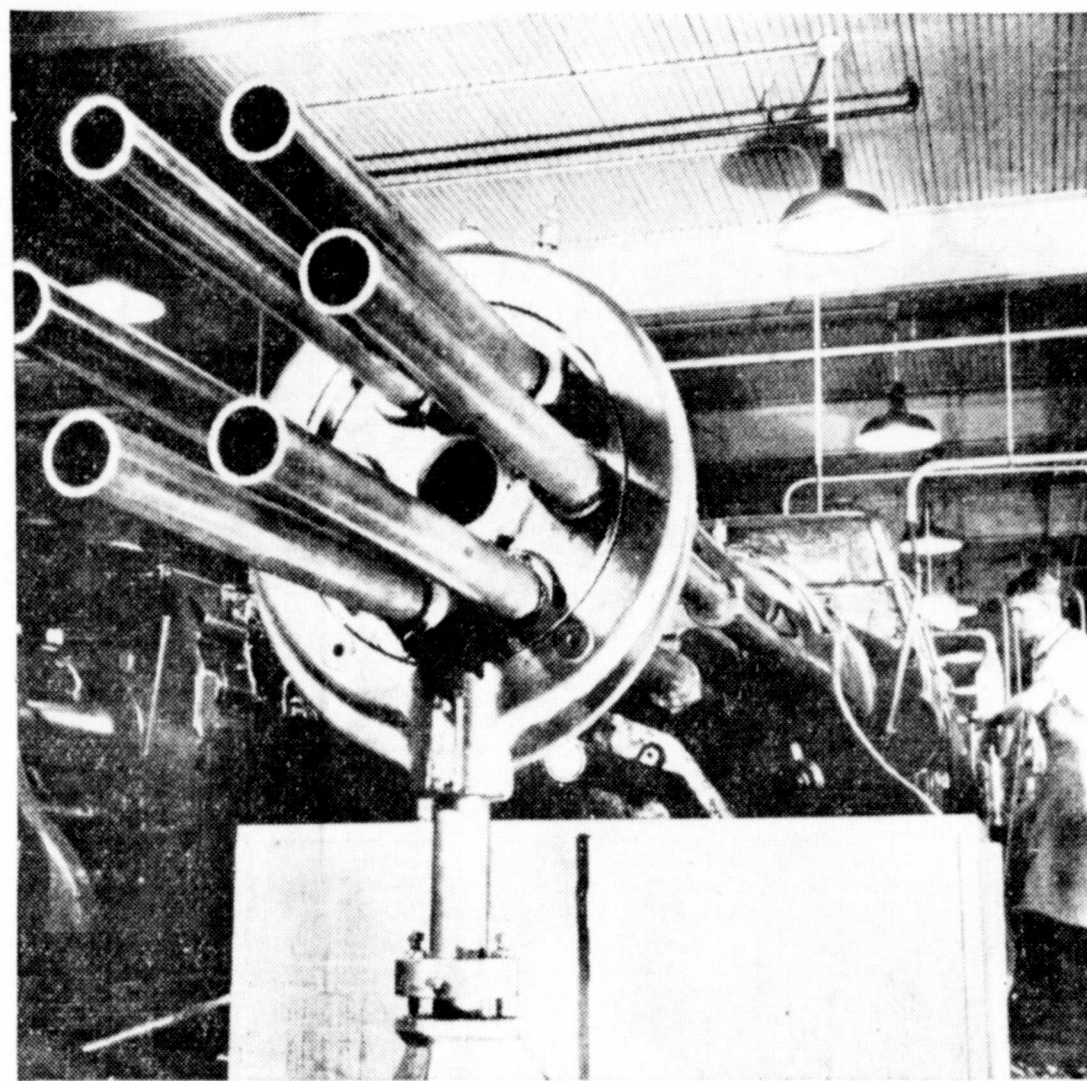

In his statement, issued as he closed his Fort Worth headquarters, the junior senator thanked "thousands of good loyal friends throughout Texas who worked so diligently during the campaign and who have so loyally stood by me in this fight."

The senator added: "The unofficial returns of last Saturday's election indicate a complete victory. I do not consider it a personal victory, but a victory for the great rank and file of the people of Texas and for the principles of American democracy. "The fight is over and I hold no bitterness in my heart for anyone."

The Texas Election Bureau prepared today to close its books on the senatorial run-off primary. One additional tabulation was to be released today.

The figures released last night indicated that O'Daniel's majority might go to 16,500. At that time O'Daniel had 444,272 votes and James V. Allred 429,825. O'Daniel's majority was 14,447, with an estimated 14,500 votes uncounted.

Mr. and Mrs. C. F. Coats received news of the birth of a son to their daughter and husband, Mr. and Mrs. Wayman Wilson of San Angelo. The babe weighs 7 1/2 pounds and was born Sunday, August 23.

### GEORGE W. DANIELS, HONORED CITIZEN SINCE 1883, PASSED AWAY AT 12:45 A. M., MONDAY

George W. Daniels died at his home on E avenue at 12:45 a. m., Monday and the remains were laid to rest in Oakwood cemetery this afternoon.

The funeral was held at the Neil Lane funeral parlor, with Rev. Leslie Seymour, pastor of the First Methodist church, officiating. His six surviving children—Mrs. J. E. Crawford, Miss Mabel Daniels, Mrs. A. T. Boland, Cisco; Mrs. B. A. Tunnell, Abilene, and Ivan Daniels, Abilene, were at the bedside when death came.

Mr. Daniels was born in New York state, October 28, 1858, and came to Cisco in 1883. The following year—July 12, 1884—he was united in marriage to Miss Clara Bell Stevens, of Mishawaka, Ind. Mrs. Daniels died July 31, 1932.

Eight children were born of this union, all of whom are living except Mildred Daniels, who died during the flu epidemic in 1919, and C. J. Daniels, who died May 9, of this year.

Deceased was a Mason and a licensed lawyer, but never practiced in that profession, and entered the drygoods business here with W. D. Chandler and H. Z. Duke soon after locating in Cisco. Later, he purchased the interests of his partners and conducted the business alone for some time, or until he sold out to go to California in the hope of getting relief from asthma. After four years in California, he returned to Cisco and again entered the drygoods business, in which he remained for some 20 years. Upon his final retirement from this business, he and his brother, the late Charles H. Daniels, built the present Daniels Hotel.

Was a Cisco Booster  
In an interview with the Cisco Daily Press about two years ago, Mr. Daniels, in referring to his brief sojourn in California, paid Cisco and this area the following fine compliment:

"The reason that prompted my last and final trip to Cisco was again that of health. We had contracted malarial chills in California and it was to get rid of this illness that prompted us to return. I am very happy to say that this climate has worked wonders in restoring and retaining my health and vigor. It permanently cured my asthma, and of course, chills can-

not survive in this climate. I think it the most wonderful climate in the world."

Deceased was widely read and a man of positive convictions, but with a good friend and neighbor and generally regarded as the soul of honor.

Besides the immediate family, he leaves two grandchildren, Gwendolyn Tunnell of Abilene and Dr. J. W. Bettis of Houston, and one great-granddaughter, Betty Sue Bettis, daughter of Dr. and Mrs. J. W. Bettis.

Pallbearers were Hokey H. Davis, K. H. Pittard, W. H. Craddock, Edgar Strickland, Baby Miller, H. A. Bible, George Fee, Cisco; John Hart, Eastland.

### J. E. BOATMAN OF CISCO DIED IN CALIFORNIA

Mrs. J. M. Boatman received a wire today informing her of the death of her son, Jerrell Elmo Boatman, at San Diego, Calif. Young Boatman was employed at the Consolidated Aircraft company and became ill early Sunday and died at 5:45 p. m. Sunday. Doctors said death came from an infection in his leg that had been operated on six years ago.

He was 22 years of age and was reared in Cisco, attending Cisco public schools and graduating from high school in 1940.

The father, J. M. Boatman, left Sunday as soon as the news came of his boy's illness, but was not able to reach him before he died.

The body will be brought here for burial. Survivors besides the mother and father are four sisters, Mrs. D. J. McGough, San Antonio; Miss Marzie Boatman, Lucille Boatman and Mary Boatman, Cisco; and a brother, Kenneth Boatman, also of Cisco.

### ROUNDUP INTEREST GROWS

Committees for the scrap metal drive this week in Cisco and in surrounding rural communities are snapping into their work of gathering scrap before the final Round-Up rally scheduled for E avenue and Fifth street, Monday night. Chairmen have organized their forces and some are already at work, while others will get into their drives Wednesday.

A. D. Anderson, chairman, is optimistic concerning the outcome, saying his aides are doing their work with a vim, and adds that the quota will be possibly doubled from what was first envisioned.

The organization of rural communities has started. C. J. Turner, H. R. Garrett and Arlin Bint are contacting school trustees in the surrounding area to get the drive on. The greatest amount of scrap metal is expected from those areas. These men are out today.

Mrs. George P. Fee and her committees will begin contacting housewives of the town tomorrow and about 30 women have been enlisted in the work of contacting every home in Cisco during the next two days. If anyone fails to receive a call it will be because they are not at home. The town is thoroughly organized, block by block, Mrs. Fee reports.

The industrial committee, composed of Bobby Deen, chairman, and Frank Bond and C. M. Nevill, have already reported a huge tonnage of scrap metal found in the acreages of oil companies and kindred concerns.

The program committee expects to have a most unusual entertainment feature for Monday night. E. L. Jackson heads this committee. Call 395 for further information.

### TRANSPORT, CRUISER BURNED AND 7 SHIPS DAMAGED; BATTLE STARTED AFTERNOON OF AUG 23

WASHINGTON, Aug. 25.—The navy announced this morning that the Japanese have counter-attacked American forces holding the southeastern Solomon Islands and that a great sea and air battle had developed in which the enemy had suffered more than half a dozen ships damaged.

The battle began developing on the afternoon of Aug. 23 and already army and navy carrier-based planes have effectively bombed two Japanese carriers, one battleship, one transport, one cruiser, and an unspecified number of other cruisers which the navy described only as "several."

The transport and one cruiser were left burning fiercely after an aircraft attack on them north of Guadalcanal Aug. 24.

The main action of the battle, the navy communique indicated, is currently in progress and the navy said that it was "a large scale battle" between American sea and air forces and a strong Japanese striking force which has approached the southeastern group of the Solomon Islands from a northeast direction.

Army and navy units backing up the American Marines in the Solomons had expected a violent attempt by the Japanese to recapture their lost bases in the Tulagi area, and so, the navy said, apparently were fully prepared to meet it.

On this point the navy said succinctly, "this counter-attack has developed and is now being met."

### SWEDES CLAIM EVACUATION OF STALINGRAD ON

STOCKHOLM, Aug. 25.—Swedish Telegraph Bureau reported from Ankara today that the Russians are hastily evacuating Stalingrad's industries and the area along the banks of the Volga.

The Soviet evacuation, the Swedish reports said, is being carried out under a continuous attack of Nazi dive-bombers.

The Swedish reports said scenes at Stalingrad are reminiscent of Moscow last October at the height of the German drive on the Russian capital.

All civilians, the dispatches said, have been mobilized and are digging trenches and hastily erecting defenses around the city.

### JAPS WITHDRAW FROM CHINA CITIES

Chinese dispatches said Tuesday Japan's invasion armies were withdrawing from China east coast provinces to prepare "another thrust" elsewhere—possibly an attack on Russian Siberia, India or Australia.

In Chungking, Generalissimo Chiang Kai-Shek's war capital, informed quarters agreed that some big scale revision of Japanese plans had prompted the enemy to yield hard-won territory in Chekiang and Kiangsi provinces.

A Chinese army spokesman said the Japanese were withdrawing

As the navy released the preliminary report it said that the enemy striking force has been attacked by United States army flying fortresses and that our carrier-based naval aircraft are in action.

A large Japanese carrier, the name of which was not given, was attacked by army bombers which reported scoring four hits.

Navy carrier-based aircraft were credited with having "severely damaged" a smaller Jap carrier, the enemy striking force has been attacked by United States army flying fortresses and that our carrier-based naval aircraft are in action.

In addition to this damage, the navy said that "several enemy cruisers and a battleship also have been hit by our carrier planes."

The navy referred to "our occupation of the important enemy base at Tulagi," suggesting that Tulagi harbor itself may have been completely occupied by American forces.

In the preliminary phases of the battle on Aug. 23, the navy related a "strong enemy air attack" was made against Guadalcanal island but was intercepted by American fighters and 21 enemy planes were shot down with only "minor" losses for the Americans.

That night enemy destroyers approached Guadalcanal and shelled shore positions. The following day United States aircraft hit the enemy transports and the cruiser north of Guadalcanal.

To its account of what has happened so far the navy added the brief remark, "the action continues."

between 50,000 and 60,000 troops from the two provinces—about half the original invasion force—and abandoning city after city to General Chiang's armies.

The China Times, appealing to the Allies "not to sit still waiting to be attacked," urged a general United Nations offensive to thwart Japan's new strategy which most observers forecast would develop in an attack on Siberia at Russia's back door.

**UNSOLVED MYSTERY**

The Trepot Deme scandal over the lease of public lands, which marked perhaps the lowest moral point in our governmental history, was never completely uncovered. One missing piece in the puzzle was the testimony of Henry M. Blackmer. This multi-millionaire chairman of the Midwest Refining company was, in 1922, wanted by the government as a material witness against Harry F. Sinclair, Albert B. Fall and the late Edward L. Doheny. Instead of testifying, Blackmer fled to France, and has never been back since. Our government took up his passport and revoked his citizenship. France also refused to admit him to citizenship in that country. A federal grand jury in California indicted him for income tax evasion, amounting to over \$6,000,000. In 1932 he made partial settlement by paying the treasury \$3,669,784. In 1940 he fled from Paris to escape the Germans, and he is now supposed to be in Switzerland.

Recently Blackmer rose again to the surface of the news. The treasury department, making a routine search for foreign funds in banks, stumbled upon nearly \$10,000,000 in cash and tax-exempt securities, owned by Blackmer, but not appearing under his name. This money has been impounded by the treasury, which notified governmental agencies that might have claims against him.

What is the secret for which he gave up his country and hid his money? Once it was thought he might be concealing some appalling misdeed of the Harding administration, but there is no evidence that Blackmer ever put himself to so much trouble for anyone but himself. Many people would be interested in the solution of this mystery.

**SERVICE TO THE WHOLE NATION**

In July, war bond sales—not counting the sale of war stamps—reached the record figure of \$900,000,000. June sales, by way of comparison, totaled \$634,000,000. Much of the credit for that great increase must be laid squarely at the door of American retailers, whose nation-wide "Retailers-for-Victory" drive started with a bang in July.

The participating retailers include both chains and independents. They include stores dealing in food, hardware, furniture, dry goods, drugs, shoes, and stores in little villages. They represent, in short, American merchants of all kinds—and American merchandising in all its many branches.

The scope of the campaign is indicated by a release from the Institute of Distribution, an organization serving a large number of the nation's non-grocery chain systems. Here, in part, is what the release said: "With approximately 185 miles of windows dressed to popularize bonds and stamps; with nearly 600,000 employees stimulated to push and sell stamps; with radio programs reaching nearly 45,000,000 listeners; and newspaper advertisements that are part of approximately 430,000,000 lines used by them, yearly, this group attempted, earnestly, wholeheartedly—to do its share. . . . It harnessed its entire resources to the assignment by the treasury of selling a minimum of 4 per cent of its entire July sales volume in war bonds and stamps."

The figures show how successful this great drive has been. And it will continue, day after day, month after month, until the war is won. These retailers are doing it without a cent of profit—and they are paying out of their own pockets the heavy promotional costs involved. That is real "service to the whole nation."

**OIL AND RUBBER**

To argue that the oil industry is trying to prevent the manufacture of synthetic rubber from any process whatsoever, whether it involves the use of petroleum or not, amounts to arguing that this industry is hell-bent on its own destruction.

The situation is simple enough. The very life of the oil industry depends upon the maintenance of motor car transportation. The industry has big war orders, of course, but civilian consumption of gasoline and lubricants are still the foundation of its business. And when the war is over, the motor car will represent its principal market. It is clear to oil men that the industry can't continue to sell motorists unless they can obtain tires.

Even if every ounce of synthetic rubber were manufactured from petroleum products, the money value to the oil industry would be microscopic in the light of its total business. And, in many instances, the industry is operating government-owned synthetic rubber plants without profit. From the purely commercial point of view, rubber simply represents a means to an end so far as the oil industry is concerned—and the end is the sale of gas and lubricants. It is in the oil business—not the tire business.

There are many synthetic rubber formulas, and some involve the use of petroleum, and some do not. Only the chemists and the engineers can decide which is best, quickest and most practical. The position of the oil industry is one of complete cooperation with any program which promises to solve the critical rubber problem. It is devoting all its resources and facilities toward that goal.

**PROBATE CASES DISPOSED OF BY COUNTY COURT**

The following probate matters have been disposed of in the county court:

J. Choate, petition for letters of guardianship of Martha Ann Choate, incompetent; approved and letters issued. Bond filed for \$100 and approved.

Mrs. Ruby McGee, petition for letters of guardianship for Allan McGee Harris, minor. Approved, letters issued, bond filed and approved for \$100, oath administered, inventory and appraisement approved as filed.

In the matter of the estate of Guy Westerman, incompetent, petition for increased maintenance allowance to \$35 per month. Approved and increase authorized.

Charles H. Everett, Sr., guardian of Charles Henry Everett, Jr., incompetent, petition for authority to pay income tax of \$119.64. Approved and payment authorized.

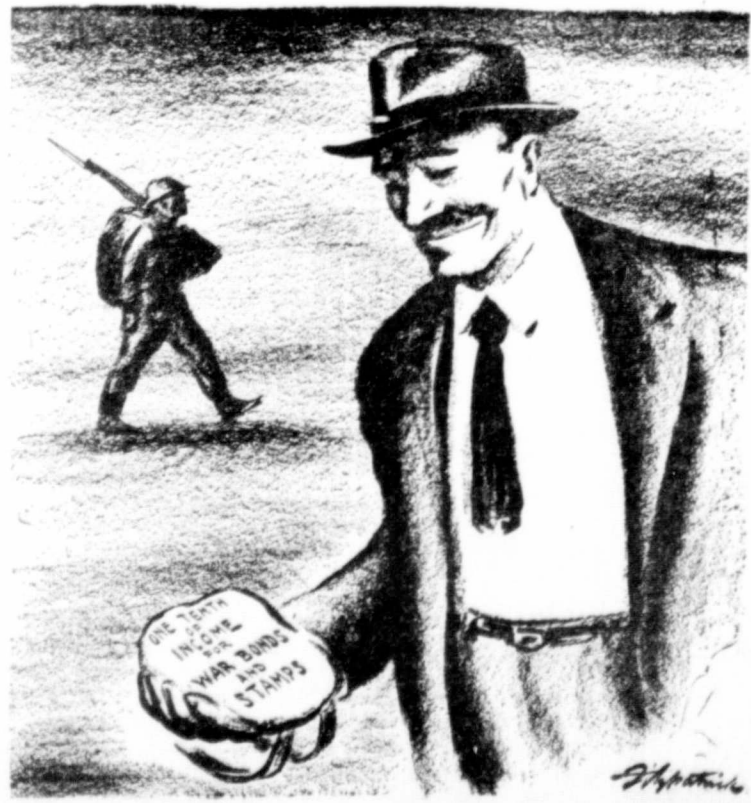

Ethel Irene Walker and E. R. Trowers, guardians of Robert Lee Morehead, minor, for authority to cash insurance policy on said minor for the sum of \$302, for support and maintenance of said child. Approved, and guardians authorized to cash said policy.

Robt J. Burr et al, heirs and beneficiaries of the estate of the estate of August Johnson, deceased, petition for partition of certain stock owned by the estate among the six heirs, in equal parts of \$9,655.75. Approved and partition authorized. It was the order of the court that no inheritance tax was due the state, which was approved by Geo. H. Sheppard, comptroller.

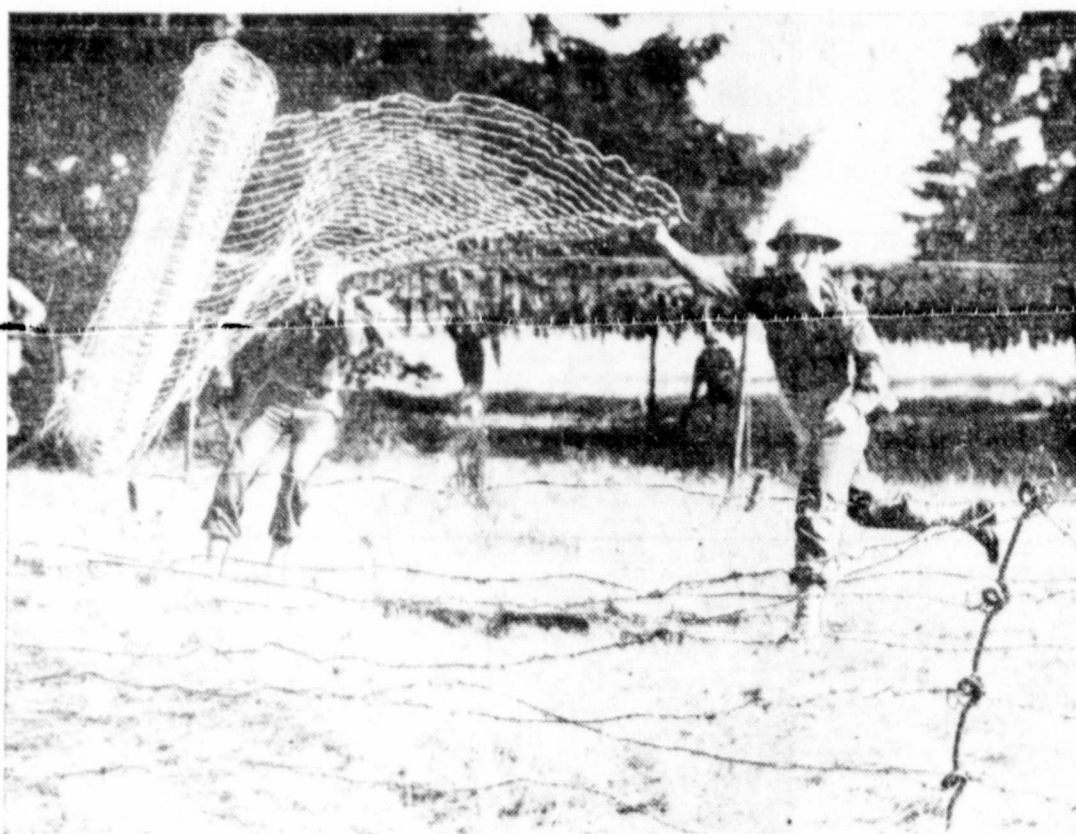

In the matter of the estate of J. B. Ames and Bettie Sue Ames, minors. Now comes Ada Gordon, guardian of said minors, whose final report of the estate is filed and approved. Guardian shows to the court that J. B. Ames has reached his majority, and asks for authority to deliver to him his portion of the estate, that she be permitted to cancel her bond of \$7,000, and enter into a new bond of \$2,500. Report approved, distribution of his interest in the estate made to J. B. Ames, that bond be cancelled, and she be permitted to enter into a new bond of \$2,500. Report approved, distribution of his interest in the estate made to J. B. Ames, that bond be cancelled, and she be permitted to enter into a new bond of \$2,500.

**CURTIS**

The recent showers have been beneficial to the peanut crop in this part of the county, which were greatly appreciated by the farmers. Also, the precipitation, though light, has served to lower the temperature, making the weather more tolerable. However, the drought in the community continues, despite the excessive hot weather that has prevailed.

Mr. and Mrs. J. W. Brawley and son Clifton, were business visitors to Rising Star last week. Many of our people have been constant attendants at the revival services being held at Sabana. Mr. and Mrs. L. T. Tension et Cross Plains, were week-end visitors of the parents of Mrs. Tension, Mr. and Mrs. O. D. Vowell. Mr. and Mrs. Wimerth Ferguson of Ballinger, were guests of Mrs. Ferguson's parents, Mr. and Mrs. Frank Marsh, the past week.

George Tralmore and daughter, Mrs. Walter Brawley and Alex McCann of Rosco, were guests of the J. W. Brawley home Monday night and Tuesday. Mr. Tralmore reported crops fairly good in the Rosco section. Cotton is very promising, but the leaf worm is doing quite a bit of damage.

The farmers there, he said, are poisoning their cotton to check the ravages of the worms.

Mrs. Earl Spillers was a guest of Mrs. J. W. Brawley Wednesday.

Recent showers have caused some of our people to turn their thoughts to turnip planting and fall gardens.

**H. J. R. No. 1**

**A Joint Resolution**

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this

State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray the submission of this amendment.

**Be It Resolved by the Legislature of the State of Texas:**

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources, showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes."

From and after January 1, 1945, any bill containing an appropriation shall be considered as passed or sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller funds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing

the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing on said fund on September 1, 1943; provided such bonds shall draw interest in excess of two per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at the next general election to be held on the first Tuesday after the first Monday in November, 1944, being November 3, 1944, at which election all voters favoring the proposed amendment shall vote or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts to available funds for payment thereof, limiting appropriation of the total of such available funds providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature in Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "Against the Amendment to the Constitution of the State of Texas requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts to available funds for payment thereof, limiting appropriation of the total of such available funds providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature in Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendment thereof.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or as much thereof as may be necessary is hereby appropriated out of all funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

# 'WAKE ISLAND'

## HOLLYWOOD PAYS TRIBUTE TO AMERICA'S DEFENDERS

**SWEAT, BLOOD AND FURY** marked the heroic stand of the 446 gallant Marines who defended Wake Island for fourteen days against 10,000 Japs, an invasion fleet and scores of dive bombers. Authentically dramatized under the supervision of the U. S. Marine Corps, Paramount's "Wake Island" brings to the screen the thundering, living story battle of resistance which thrilled America. The center illustration, painted by noted artist Arthur Beaumont, is from a scene in the film depicting the first Jap cruiser of the war sent to the bottom by a U. S. Marine fighting plane. To the left, Barbara Britton, sole woman in the cast of 25 principals and supporting players, including Macdonald Carey, Robert Preston and Brian Donlevy (seen at lower left) and Walter Abel (at lower right). At upper left can be seen helmeted Nipponese troops splashing through the sea from armored barges as they battle for a foothold on the tiny mile-wide island—one of the hundreds of vividly realistic scenes in this film every American should see.

# CISCO BOY MAY BE PRISONER OF THE JAPS

Mrs. Clyde Mancill, proprietor of the X-Ray Beauty shop, recently learned that her son, J. T. Culp, private first class, from somewhere in the Philippines, written February 18. Mrs. Mancill says this is the first news she has had from her son since he was transferred from Randolph Field to the Philippines. Leaving Randolph Field he was stationed at Nichols Field as meteorologist.

Pvt. Culp was reared in Cisco, attended the Cisco schools and graduated from the high school with the class of 1939. After graduating he enlisted in the armed service in June, 1939. He reached his majority June 19, this year. He stated he was in the best of health and enjoying life as he finds the climate much more pleasant than the "hot air in the low country."

He sent his regards to old friends and school mates, and says he will "tell them all about it when I see them again."

Speaking of the changed conditions due to the war, the letter said: "I suppose the gas and tire rationing makes keeping up the cars pretty hard. You should put them in the garage and get yourself a horse."

"I suppose all the local boys and girls are struck with the glory and glamour of war fever, wishing they were meeting the treacherous Japs in mortal combat. It takes something like this to teach us that it is nothing but war, with all its grim reality and hellishness."

"I will have a lot to tell you when I get home—I do—of course. I will walk in and surprise you when I do, and then we will celebrate."

The light receipts of cattle and calves that reached Fort Worth stockyards for Tuesday's trading

cleared at steady to strong prices on an active market.

Hogs opened 10 cents lower but later sales carried prices that were strong to 15 cents higher than Monday's average, with the top of \$14.60 paid by all interests.

Most classes of sheep and lambs were fully steady and some yearlings sold on a stronger market.

Good to choice fed steers and yearlings were scarce but sales included a package of fed heifers at \$12.60 and odd yearlings to \$14.50. Medium to good cake-on-grass cattle cashed at \$9.75 to \$12.25.

Good to choice fat cows brought \$9 to \$10.25; common to medium butcher cows at \$8 to \$9, and canners and cutters at \$5 to \$7.75. Good heavy bulls sold at \$9 to \$10 with common lightweights down to \$7.25.

Good to choice fat calves ranged from \$11.50 to \$12.75 with common to medium butcher calves at \$8.50 to \$11 and culis at mostly \$7.25 to \$8.25.

Good to choice stocker steer calves went out at \$12 to \$13.75 with similar heifers at \$13 down. Common to medium stocker calves cashed at \$8 to \$11.50. Good to choice stocker steer yearlings ranged from \$10.50 to \$12.50. Common to medium stocker steers and yearlings ranged from \$7.75 to \$10. Stocker cows sold at \$6 to \$9.50.

**How to Arrange Food In Your Electric Refrigerator**

1. Frozen foods, frozen desserts. Put them into the freezer if self. Remove ice cube trays if necessary.
2. Milk and beverages. Put them at the top, beside the freezer—but do not allow bottles to touch freezer.
3. Meat and fish. In the meat keeper if you have one, or right under the freezer in the chilling tray, loosely covered with wax paper.
4. Butter, custards and puddings. Will be well protected here in the upper middle section. Butter should be kept in a covered dish.
5. Salads, desserts, eggs and leftovers. The lower section is best. Leftovers should be covered.
6. Vegetables, most fruits. Put into vegetable crisper or air-tight bag, except tomatoes.
7. Berries, grapes and melons. The bottom of the refrigerator is the place for these.

**WHAT YOU CAN DO**  
—to Make Your Refrigerator LAST LONGER  
—to SAVE MONEY on Current and Upkeep

1. Arrange foods in proper place as indicated above.
2. Let hot dishes cool off to room temperature before putting them in refrigerator.
3. Turn temperature control back after freezing ice cream, etc., and try to keep at a setting no colder than necessary for proper food preservation.
4. When going away for a vacation or week-end, turn control to warmest setting.
5. Defrost regularly! Never let frost on freezer build up thicker than an ordinary lead pencil—about 1-4 inch.
6. Don't open door any oftener, or leave it open any longer than necessary.
7. Don't keep foods in refrigerator which don't need refrigeration.
8. Take a few simple measures to protect the finish. Wipe milk stains off right away (lactic acid in milk will stain even the best enamel or porcelain finish). Watch the top of the refrigerator where milk bottles and other objects are often set while opening door. Acid foods, such as lemon and vinegar, also will cause stains if left very long.
9. Use the handle or opener to open and close the door. If perspiration from hands or fingertips is transferred to the rubber door seal it will, in time, cause deterioration.
