NUMBER 18

SECOND FRONT SPECULATION HURTS ALLIES

STALINGRAD IS HOLDING AFTER 6-DAY SIEGE

CANNON BALL FOR HITLER

MOSCOW, Sept. 29.—A Russian offensive northwest of Rzhev was held today to have cleared the area from a bank of the upper Volga, while Soviet troops exacted flaming attacks from the Don Volga to the Don bend in effort to relieve the embattled garrison of Stalingrad.

German penetration in the northwest added to the danger of Stalingrad's position. The tanks pivoted and charged in a workers' settlement in effort to hold the gains of a assault Monday. Through the city's street fighters measured at times in yards. The Russian street fighters held their own. Soviet forces northwest of Stalingrad showed somewhat and captured several heights in swift assaults. More than three times of Germans were wiped

L. B. Reeves, who lives in West Twenty-third street, brought in a cannon ball weighing five pounds. That is a relic of the Civil War and was used by the Confederacy in its struggle against the federal government.

Mr. Reeves said the cannon ball was given to his father, D. A. Reeves, who died a few years ago. Further history was not known, but Mr. Reeves wanted it to be donated against Hitler.

Mrs. L. B. Reeves also gave a sword guard used in the Confederacy. The guard, which is of brass, is elaborately carved, with the monogram of the state of Louisiana, which is a pellet surrounded by rice stalks and grain, with the letters "C" and "S" on either side.

This sword was the property of her step-uncle, Jesse Lamb, brother of T. Lamb, and her step-mother, Mrs. W. R. M. Willson.

Mrs. Reeves admits she is bloodthirsty enough to wish that this guard might be given to another sword sharp enough to pierce Hitler's heart.

ITALY'S "FIGHTING" MEN—Taken prisoner by Indian troops who attacked and captured the Libyan desert town of Jalo, Italy. The troops huddle on waterfront behind British lines in Egypt, awaiting transportation to concentration camp further in rear.

CHURCHILL ASKS THAT HINTS OF POSSIBLE FUTURE OPERATIONS CEASE; NEGRO PROBLEM

LONDON, Sept. 29.—Prime Minister Churchill voiced emphatic disapproval of speculation on the time or place of a second front, as the subject cropped up in Commons Tuesday and as the BBC broadcast to France that an Allied offensive "is in the making."

Churchill's remarks were provoked by a question from Capt. Peter MacDonald, which was prefaced by the assumption that the period of the offensive operations by the United Nations is now approaching.

As parliament met for the first time since Sept. 11, a high officer of the British army broadcast in French that "today more than ever before the possibilities of a British and Allied landing on French soil must be foreseen."

The message followed the pattern of previous BBC broadcasts to France. It told the French there would be no advance warning of the day or point of attack, but that "the offensive of the Allied Nations is in the making."

MacDonald was anxious lest someone with inside information indiscreetly tip off the enemy with too free talk. In response to the member's request for a word of caution, Churchill said:

"I welcome this opportunity of again emphasizing the undesirability of public statements or speculation as to the time and place of future Allied operations, even though such statements are based on inference, and not, as the suggestion seems to imply, on inside information."

The house's applause was punctuated by the remark—which Churchill did not answer—"Will that be conveyed to Mr. Wendell Willkie?"

Willkie, speaking in Moscow Sunday, urged a second front "at the earliest possible moment which our military leaders will approve."

William Gallacher, only Communist member of Commons, joined the discussion, saying he had received a copy of a letter sent to Churchill by soldiers stating an officer had given them a lecture "advising them of the necessity of discrimination in connection with negroes in London."

The Commons discussion followed by one day the announcement that Brig. Gen. Benjamin Davis, only negro general officer in the United States army, had arrived in Britain.

Churchill told Commons: "I am afraid I have rather exhausted the possibilities of the English language" in denouncing Pierre Laval. He declined to make any further statement on the government's attitude toward Vichy.

He also brushed aside a new suggestion that the RAF bomb Rome.

Churchill told one member that his charge of "discrimination against negro troops" of the United States army in Britain was unfortunate. The prime minister assured another member that harmony in Allied war planning was "our constant aim and there certainly is no lack of machinery to achieve it."

The question was raised by T. O. M. Driberg, who implied that the alleged discrimination was introduced by the Americans themselves.

Replying, Churchill said: "The question certainly is unfortunate and I am hopeful that without any action on my part the points of view of all concerned will be mutually understood and respected."

Driberg, an independent who writes a column in the Daily Express under the name of William Hickey, brought the matter up with a request to Churchill to make friendly representations to American authorities, asking them to instruct their men that the color bar is not the custom in Britain and that its non-observance

Mr. and Mrs. W. B. Johnson, route two, Cisco, received a short but very interesting letter yesterday from their son, Jack Lee Johnson, seaman of the second class, stationed in Honolulu. The letter:

"Dear Sweet Mother, Dad and the Kiddies: I am just fine. Mother, don't worry about me. I'm just as safe here as I would be at home and I have a task to perform. It won't be like this always; things will work out for the best for those that love and live for God.

"Will write again soon. With all my love,

"JACK LEE JOHNSON."

4-H CLUB BOY JOINS UNCLE SAM'S SAILORS

Paul Ray Davis, 20, son of Mr. and Mrs. S. A. Davis, route three, Cisco, volunteered for service in the navy September 23. He went to Dallas for his physical examination and writes his parents that he has been accepted but has not been assigned to duty as yet.

The young man attended Morrison's Valley school for several years and has been an outstanding figure in 4-H club work in Eastland county. He received a handsome pin from A. and M. college. He was also a member of the FFA, worked with the state wild life organization and earned a trip to Rockport, Tex., three years ago.

Several of his sisters and two of his brothers came home for a visit with Davis before he left for Dallas. They were Mrs. Charles E. Lutz, Olney; Mrs. H. W. Smith, Odessa; Mrs. A. J. Williams, Austin; brothers: S. A. Davis, Jr., and W. H. Davis, Abilene.

QUALIFIED PEOPLE NEEDED IN PLANTS OF WAR

With the increased demand for men in the armed forces, it is becoming more and more necessary for women to take the place of men in defense industry. There is a critical shortage of qualified people to keep industry going and keep the "man behind the gun" supplied. Women, particularly those between the ages of 19 and 31, are urgently requested to make themselves available for training so that they may qualify themselves to take a place in our vital defense effort. Men with 3-A draft classification, or those with minor physical disabilities which preclude them from military service, are also urgently requested to call at the United States Employment Service, room 2, Sinclair Prairie building, Eastland.

Many men, and possibly some women, will qualify immediately for placement in defense industry. Others will be sent to the defense industry training schools, and after six or seven weeks' training will be placed in industry vital to our war effort. These training courses are free and there are now many vacancies. Men and women are urgently needed. Please call at once at the United States Employment Service, Eastland, for information.

A CHECK ON THE JAPS—Workers at Pearl Harbor Navy Yard donated Labor Day's pay to war effort, so Tony Todaro writes check to F.D.R. on wing fragment of Jap plane downed there Dec. 7th.

OUR NO. 1 JOB IS TO KILL!

ST. LOUIS, Sept. 29.—The United Nations have taken a terrible shackling all around the globe was sounded by Lt. Gen. Brehon B. Somervell, chief of the Army Services of Supply.

In an address before the Masonic Grand Lodge of Missouri at a patriotic rally in St. Louis, Somervell declared:

"We have lost all our rubber, most of our tin, hemp, silk, ships by the hundreds and men by the thousands. We have lost freedom of the seas, we have lost everything except our complacency, and that is one thing we have got to lose, and lose fast, or we will lose our independence."

Asserting the Japanese and Nazis hate us, Somervell said:

"You can't kill a man you do not hate and fear. Our No. 1 job is to kill Nazis and Japs."

COWS STRONGER

Cows were active and strong on the Fort Worth stockyards Tuesday. Other slaughter cattle and calves ruled about unchanged. The better grades of stockers were about steady but trade on plumper grades was slow. Good butcher hogs were mostly steady to 15 cents lower, while packing sows and stocker pigs were strong to 25 cents higher. The top was \$14.85, while packers paid up to \$14.75.

MRS. ROOSEVELT

FORT WORTH, Sept. 29.—Mrs. Eleanor Roosevelt was in Los Angeles today after spending Monday at the Dutch Branch home near Benbrook of her son, Lt. Col. and Mrs. Elliott Roosevelt. The wife of the president arrived Sunday night, boarded an American Airlines plane at 2:48 a.m. today for Los Angeles and was in that city at 8:55 a.m. to begin a busy day's program inspecting troop hospitals.

FARM BLOC DETERMINED

WASHINGTON, Sept. 29.—Sen. Elmer Thomas (Democrat, Oklahoma), hinting that the farm bloc may make a last-ditch stand to write protection for farm prices into the pending anti-inflation legislation, today indirectly threatened to delay senate action beyond President Roosevelt's Oct. 1 deadline.

MORE SPECULATION

LONDON, Sept. 29.—A large scale naval engagement may be expected somewhere off England within the next few months, naval experts predicted Tuesday. The opponents will be an Anglo-American flotilla based in Britain and the entire German high sea battle fleet, it was said.

ALLIES MAKE LAST NIGHT'S PROGRESS IN FLYER BANQUET MORESBY AREA WAS A SUCCESS

WASHINGTON, Sept. 29.—A determined Allied offensive appeared definitely under way in the far-flung Pacific war theater today, causing the Japanese invaders to fall back in New Guinea and inflicting heavy losses on enemy planes and troops in the Solomon and Aleutian Islands.

The unleashing of Allied air and ground power on two of the three strategic Pacific fronts coincided with announcement of a conference of the United States navy and air force's high command somewhere at sea. The attacks brought destruction of 49 Japanese planes in the Solomons and Aleutians and damage to five ships in four days of raids.

Taking the offensive for the first time on New Guinea, General MacArthur's ground forces hammered back Japanese troops in the Owen Stanley mountains with an infiltrating and outflanking attack about 32 miles north of the important Allied base at Port Moresby.

MacArthur's Australian headquarters announced Monday night that the attacking forces were "making progress" for the first time since the invaders landed at Gona mission July 21 and began pushing through the heavy, crocodile-infested jungles toward Port Moresby, which, if captured, could serve as a springboard for an assault on Australia.

VICHY, Sept. 29.—The U. S. embassy learned through official channels today that 1400 additional Americans—1,000 men and 400 women—have been interned by German authorities in occupied France. The new arrests brought to 1,780 the total of Americans now in German hands.

dispatches indicated that the front along a front of more than 40 miles as Marshal Timoshenko's shock troops drove down against the Axis across the Don-Volga corridor. A Nazi-occupied stronghold in the villages were declared liberated.

Stalingrad's thirty-sixth day of siege.

The sector fortifications which the Germans were 11 months ago have been broken to a considerable depth in a two-day army drive taking up the recent central front of the left off, the Russians said. The information bureau committee announced the capture of strategically important heights in the area. It also reported that 25 villages, municipalities and prisoners in the upper Don basin northwest of Rzhev, 100 miles northwest of Mos-

2,500 Germans were decimated in this theater, of 500 fell in fighting for the city. The Russians were as well, hitting back with vigor in the western sector and the western sharp battles persisted in the Voronezh area, on the upper Don-Volga corridor.

They fighting was noted in the struggle for Stalingrad, 100 miles northwest of Moscow, and dispersed a column of trucks.

for the possession of single Soviet artillery was said to have damaged eight German tanks and dispersed a column of trucks.

COLDWELL OF CISCO AWAITS OCEAN ORDERS

Lieut. Charles Hutton Coldwell of Cisco, graduate in mining engineering from the Texas College of Mines at El Paso, has completed his training at the naval reserve officers' school, Tower Hall, Chicago, and awaits assignment to sea duty.

Lieutenant Coldwell, son of Mr. and Mrs. W. P. Coldwell, was employed as a geologist in San Antonio before entering the service. July 27. He is a member of the American Institute of Mining and Metallurgical Engineers, the San Antonio Geological society, and the American Association of Petroleum Geologists.

STATE SCHOOL MAN CHECKING TEACHERS' AID

Anthony Hunt, deputy state superintendent of education, Abilene, arrived in Eastland Monday and began checking applications of the common and independent school districts for teachers' state aid. Five independent districts have asked for state aid. T. C. Williams, county superintendent, said.

The five independent school districts which have already applied for state aid are Pioneer, Rising Star, Gorman, Carbon and Desdemona. All rural schools will apply for state aid, Superintendent Williams said.

All rural school districts operated last school year on a strictly cash basis, paying their bills as they became due, from the state aid, which was collected 100 per cent.

150,000 WOMEN. MONTRO, Sept. 29.—Shipments of the United States will be at least 150,000 women in coming year, Paul R. Porter, chairman of the Shipbuilding and Conversion committee, told the American Federation of Labor and Trades Department conference today.

Shipments of the United States will be at least 150,000 women in coming year, Paul R. Porter, chairman of the Shipbuilding and Conversion committee, told the American Federation of Labor and Trades Department conference today.

'ACTION OVERHEAD'—View of water-bat farming all over a 'house' up in smoke during 'Action-overhead' at the Post Grounds in New York, September 24, 1943. It was part of elaborate subterranean spectacle presented by the Demonstration Unit of War Department.

SLANDERING AN ALLY

It is hard to describe the harm that an irresponsible Nazi-sympathizer like Theodore Dreiser has done by going around slandering Germany's people for fun and venturing the British name in the act.

Dreiser has had the nerve to name and slander to the British people and to the Canadian people. It would rather be the Germans in England than those same unscrupulous free-riding Brits who are in the United States. They stay at home and do nothing. They are loiterers.

This sort of thing is not only slandering but dangerous. Dreiser is a well-known author and his name carries weight. He is not only slandering but he is also slandering the British people who are doing their best to help the United States.

Intelligent Americans know that Britain for two years has been the main source of supplies for the United States. She has fought and died in battle and through the world, until Americans and other free-thinking people could not help but back the British.

They know that even yet they are not getting a thing from the British. They know that a British agent, who was a spy in Germany, was arrested in the United States. They know that a British agent was arrested in the United States.

On the subject of the spy, Mr. Dreiser should be held up for the scorn of the people of the United States. He should be held up for the scorn of the people of the United States.

HARASSED FARMERS

Perhaps the most serious problem confronting farmers all over the world is the shortage of labor. This is true in the United States as well as in other countries.

The shortage of labor is due to many causes. One of the main causes is the migration of people from the rural areas to the cities. This has left the farms with a shortage of labor.

Another cause is the war. Many young men have gone to the front, leaving the farms with a shortage of labor. This has made it difficult for farmers to get their crops in.

TITING

A Gallup poll shows a majority of American voters in favor of putting a dime tax on every dollar for war savings bonds and stamps. They think all people with income, whether in wages or salaries or other forms, should do this.

Such "tinting" is a very fair thing. It is a way of getting more money for the war effort. It is a way of getting more money for the war effort.

GOLDFISH

"Goldfish" are out. It will be good news to veterans of the A.E.F. who have returned to the service, and who recall how often this article, known officially as canned salmon, used to be on the day's bill of fare. In frequency of appearance it ranked with bully

CISCO MARINE WEDS DALLAS WOMAN

Mr. and Mrs. Louis J. Schlaepfer announce the marriage of their son, Franklin R. Schlaepfer, to Miss Ann Verdaman, of Dallas. The wedding was held in Los Angeles, Sept. 19. The only attendants were Mr. and Mrs. Paul V. Johnson, cousins of Mr. Schlaepfer. The bride was dressed in navy blue, with white accessories and wore white gardenias, as did Mrs. Johnson.

Mrs. Schlaepfer was born in Dallas and graduated from Dallas high school. She went to California recently for the wedding.

Franklin R. Schlaepfer was a local boy, but received most of his education in the Dallas schools. He joined the Marines three years ago and was on the ill-fated SS. Lexington for two years. He is now stationed near Los Angeles.

The newlyweds arrived in Cisco Saturday for a visit with his parents and left Monday for a short trip to Dallas. They will return to Cisco Wednesday.

ENJOYABLE OUTING HELD BY CLASS

A most enjoyable outing was held by the Harvesters' class of First Baptist Sunday school and other members in service at the American Legion Hut Monday evening. Wieners were roasted and the meal was served on the lawn adjacent.

Class members then went into the Hut and held the monthly business meeting, with Mrs. H. N. Lyle, president, in charge.

Those present were Mrs. E. L. Jackson, Mrs. E. C. McClelland, Mrs. A. E. McNeely, Mrs. George Boyd, Mrs. S. B. Parks, Mrs. W. D. Brechen, Mrs. Wm. Isenhower, Mrs. H. N. Lyle, Mrs. W. C. Clements, Mrs. Burton Philpott, Mrs. Opal Blackstock and Mrs. Paul Poe.

SECOND PERIOD CLASS ORGANIZED CLUB FRIDAY

The home economics second period class met Friday afternoon to organize a club for the year. Officers were elected as follows: President, Bobby Jean Tullis; vice president, Bobby Lee Miller; secretary-treasurer, Dorothy Grant;

historian, Doris Lee Hall; reporter, Patsy Wilbanks; song leader, Robbie Joe McNeely; recreation leader, Wanda Wilcox.

The club adopted the rose as the club flower and chose red and white as club colors. The president named a committee to suggest a name for the club, which will be chosen at the next meeting. Members of the committee are: Bobbie Jean Tullis, Mary Jean Elaherty and Catherine Alsop. A committee was also appointed to suggest a motto, and those composing the committee are: Geraldine Shepard and Virginia Benskin. Members of the two committees were requested to make reports at the next regular meeting.

FIVE S. S. MEMBERS ARE AWARDED MEDALS

At the promotion day exercises, held in First Presbyterian church Sunday, one family of children received special recognition and were presented medals of honor for their splendid attendance record. They are children of Mr. and Mrs. Yancey McCreo, and three of them, Yancey, Jr., Patsy Lois and Bernice Ann, were awarded six-year medals, which were earned by perfect attendance during the past six years. The youngest

J. O. Y. CLASS MET IN THORNTON HOME

The J. O. Y. class of First Baptist Sunday school held the regular business and social meeting in the home of Mrs. J. L. Thornton Monday evening. Mrs. H. T. Huffman, class teacher, brought a splendid devotional, after which Mrs. R. D. Jones, president, had charge of the business session.

At the close of the social hour following, the hostess passed refreshments to Mrs. H. T. Huffman, Mrs. R. D. Jones, Mrs. M. P. Farnsworth, Mrs. R. H. Williams, Mrs. Sim Ledford and Mrs. M. F. Underwood.

MARRIAGE LICENSE

BISHOP MANNING CONTRIBUTES—Bishop Manning oversees workmen in the dismantling of railroads and fences about Cathedral of St. John the Divine, in New York. Metal will go for war scrap.

SUCCESSFUL DRYING METHOD

Mrs. H. C. Jordan, farm demonstrator of the Flatwood community, has reported the following work of drying: "My husband made me a drier," says Mrs. Jordan, "using a windowpane on the top of the frame, and screen on the bottom. The drier is about three inches deep and two feet square. I have dried squash, green peas, butterbeans, peaches and pears. Since I have been using sunlight in drying my fruits, they are of a much better color. I heat my fruits and vegetables 30 minutes at 150 degrees before storing them in tight containers to protect them from infestation by beetles and moths. A bulletin that has helped me greatly in drying is C-170 Drying Foods at Home. This bulletin can be secured from Gladys Martin, county home demonstration agent of the extension service. A and M college."

Nine years of history are revealed when millions mutter: "Now it'll only act as tough as he talks."

Eat At MOBLEY HOTEL Special Dinners Sundays and Wednesdays FISH DINNER on Fridays Only 40c

If you're a heartsick wife, mother or sweetheart you'd do a lot to give that boy a better chance to get back safe. Well, Then, DO IT!

SOMEONE'S LIFE IS IN YOUR HANDS!

Round up your scrap metal—it's needed to make steel. Steel for armor plate to protect him from bombs and bullets. Steel for weapons to help him do the job that must be done before he can come home again.

You don't want production figures. It's enough to know that 50 per cent of all new steel is made of scrap—that our steel mills now have only enough

scrap in sight to last another 30 days AT THE MOST!

What happens after that depends on all of us. If production falls and you've not done your part, will you rest easy?

This week the Lions are starting a collection drive—to build the biggest stockpile of scrap metal you've ever seen. Then when the mills need it, we'll have it—because you came through... for HIS sake!

Watch this paper for details of the big scrap drive and what you must do to help NEWSPAPERS' UNITED SCRAP METAL DRIVE

Major operation. She stated that her daughter is now doing well.

F. D. Altman and wife, Mrs. Edna Altman, spent the weekend at Dallas, returning to Cors Monday night.

Jack B. Green of Brownwood spent Monday night and today at the home of his parents, Mr. and Mrs. Ed Green.

HOUSEWIVES GET SWAN SOAP CAKES

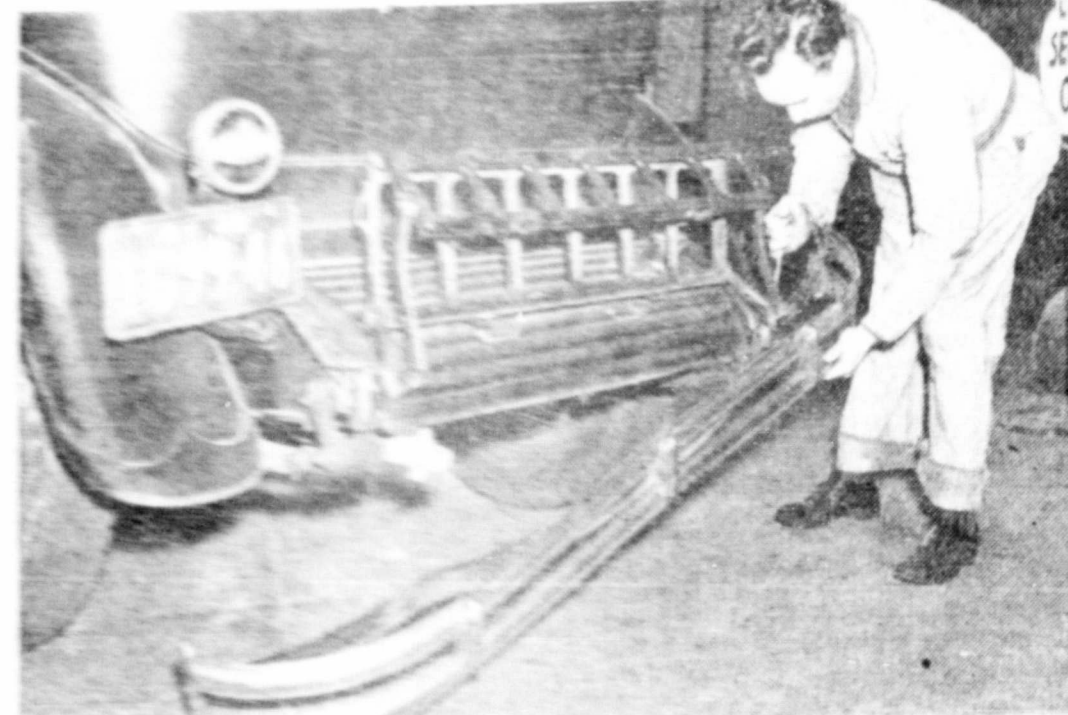

There is a new craze in the household—the craze for Swan Soap Cakes. The new product was developed by the makers of Lux, Lifebuoy, Dial, and other famous soaps and bath-tissue products, which is being distributed in the week by Lever Bros. advertising agency.

According to H. Sawyer, manager of the promotion program in Dallas and vicinity, Swan is the first new soap to be developed in over 20 years. And it provides a further opportunity for women to enjoy their bath and toilet. Swan is the first soap to be developed in over 20 years. A WAR MESSAGE to Truck Owners and Drivers

America's truck transportation system is faced today with a very serious situation, and the Office of Defense Transportation is asking the help of every truck owner and driver.

Normally, the country scrapes 40,000 trucks a month. We have left now a stock of less than 20,000 new trucks—a mere 3 months' supply—to be rationed to our civilian needs for the duration of the war. This means that we must conserve every possible mile of transportation out of the 5,000,000 trucks now on the road.

When you realize that most of our every-day needs are utterly dependent on truck transportation—the baby's milk, your daily newspaper, the servicing of your airplane and many others—you can realize that this breakdown would mean a complete breakdown of our entire way of life. This must be prevented at all costs.

That's why the Office of Defense Transportation is asking that every truck owner and driver join in a nation-wide movement to conserve all existing trucks and tires through the program of the United States Truck Conservation Corps.

Your Country asks your Cooperation in this National Program

AS A TRUCK OWNER...

Your Patriotic Duty is to Make Sure That:

- ✓ Your truck receives a thorough maintenance check-up at regular intervals.
- ✓ Your truck is never overloaded. (Overloading strains both truck and tire life.)
- ✓ Your drivers turn in daily forms reporting on the mechanical condition of their trucks.
- ✓ Only thoroughly instructed competent drivers are allowed to operate your trucks.
- ✓ Broken or worn-out parts are immediately replaced or to a scrap dealer. If they cannot be salvaged for future use.

AS A TRUCK DRIVER...

Your Patriotic Duty is to Make Sure That:

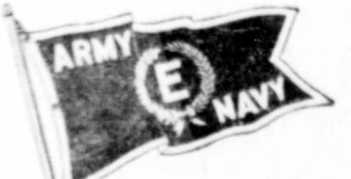

- ✓ You take every precaution to avoid accident; one careless moment can spoil a year of caution.
- ✓ You remember that "easy does it" when you start and stop. Otherwise, you waste tires, gasoline, strain the clutch, brakes and other mechanical parts.
- ✓ You report conscientiously, on the condition of your truck at the end of each day.
- ✓ You avoid unnecessary delays because loss of truck time slows the war effort.
- ✓ You check tires daily for inflation, cuts, nails, glass, bruises and any indication of unusual wear.

HUMBLE STATIONS have been designated OFFICIAL STATIONS for the U. S. Truck Conservation Corps

A nation-wide program of conservation has been initiated by the Humble Oil and Refining Company has signed the U. S. Truck Conservation Corps program to help promote the Official Program.

Here's how YOU can help. Stop at your nearest Humble station and ask to join the U. S. Truck Conservation Corps. You'll be given full information on the program of preventive maintenance that will make your truck last longer. On your next stop at an official Humble station that designates you as a thoughtful and patriotic driver, please to cooperate with your government in this important program.

Remember—fit job needs the cooperation of everyone. Whether you're the owner of a fleet or the driver of a single truck, drop in at your nearest Humble station—today—and sign up to do your part to help—KEEP AMERICA'S TRUCKS ROLLING STRONG.

For high achievement in the production of war equipment.
