CONGRESS TELLS FD TO FIX WAGES AND PRICES

LATCH WRITES PARENTS

Mrs. W. Z. Latch has just received two letters from her son, Bill Latch, who is with the U. S. Marines.

He said in part: "We had mail all today—the second time in more than sixty days. I had 11 letters from members of the family and friends. Thanks ever so much for remembering that you really did have a boy out here somewhere.

"How are Dad and Spot getting along? They should be getting plenty of squirrels now. Wish I could join them again.

"The censorship is very strict and I can't tell you where I am or what I'm doing, but I am in good health and, if you don't worry about me any more than I worry about myself, you will be much better off. Wherever we are, our thoughts and our hearts are at home, and whatever we do will be done in the best manner we can to achieve victory and the end of this war.

"I had a letter from Billie Beth Bacon recently. She has high hopes that Bobby is still alive. Of course, I can't answer that, for I don't know, but I am certain of this: some more Marines in the Solomon are evening up the score or Bobby, Bill Westfall, Roy Lee Myers and thousands of other like them.

"Don't send me anything for Christmas, nothing in the way of clothing would I be able to use, and food would probably be spoiled by the time it reached me. If things remain unchanged, all I can say here for you is razor blades; you will have to see Santa out of the money I'm sending home; the present I want most from all my family and friends is LETTERS.

"Dad, I am reading a book about J. E. B. Stuart. He seems to have been quite a soldier. The book was written by a captain of the Marine corps and he goes thoroughly into the organization of the Confederate army and the greater battles, giving the outfits involved, the maneuvering each made, and even such details as the number and size of guns captured. Parts of it are boring with details, but I am enjoying it fully. I am now in the second battle of Manassas.

"Where is Phil McCannies since he joined the Marines? Have any more of the Cisco boys been injured or killed?

"I surely got home-sick last night when a boy on watch with me started singing some of the old songs you used to sing to me. When I sat on your lap in the evening, Mother. He used to live Cisco, years ago. His last name is Valentine. Did you ever know his family? I didn't.

"In about three more months I'll be 21 years old and a man. I hope I have been almost everywhere except the moon, and when this war is over, I'll be ready to stay at home.

"Write me soon, long and often. Your son,

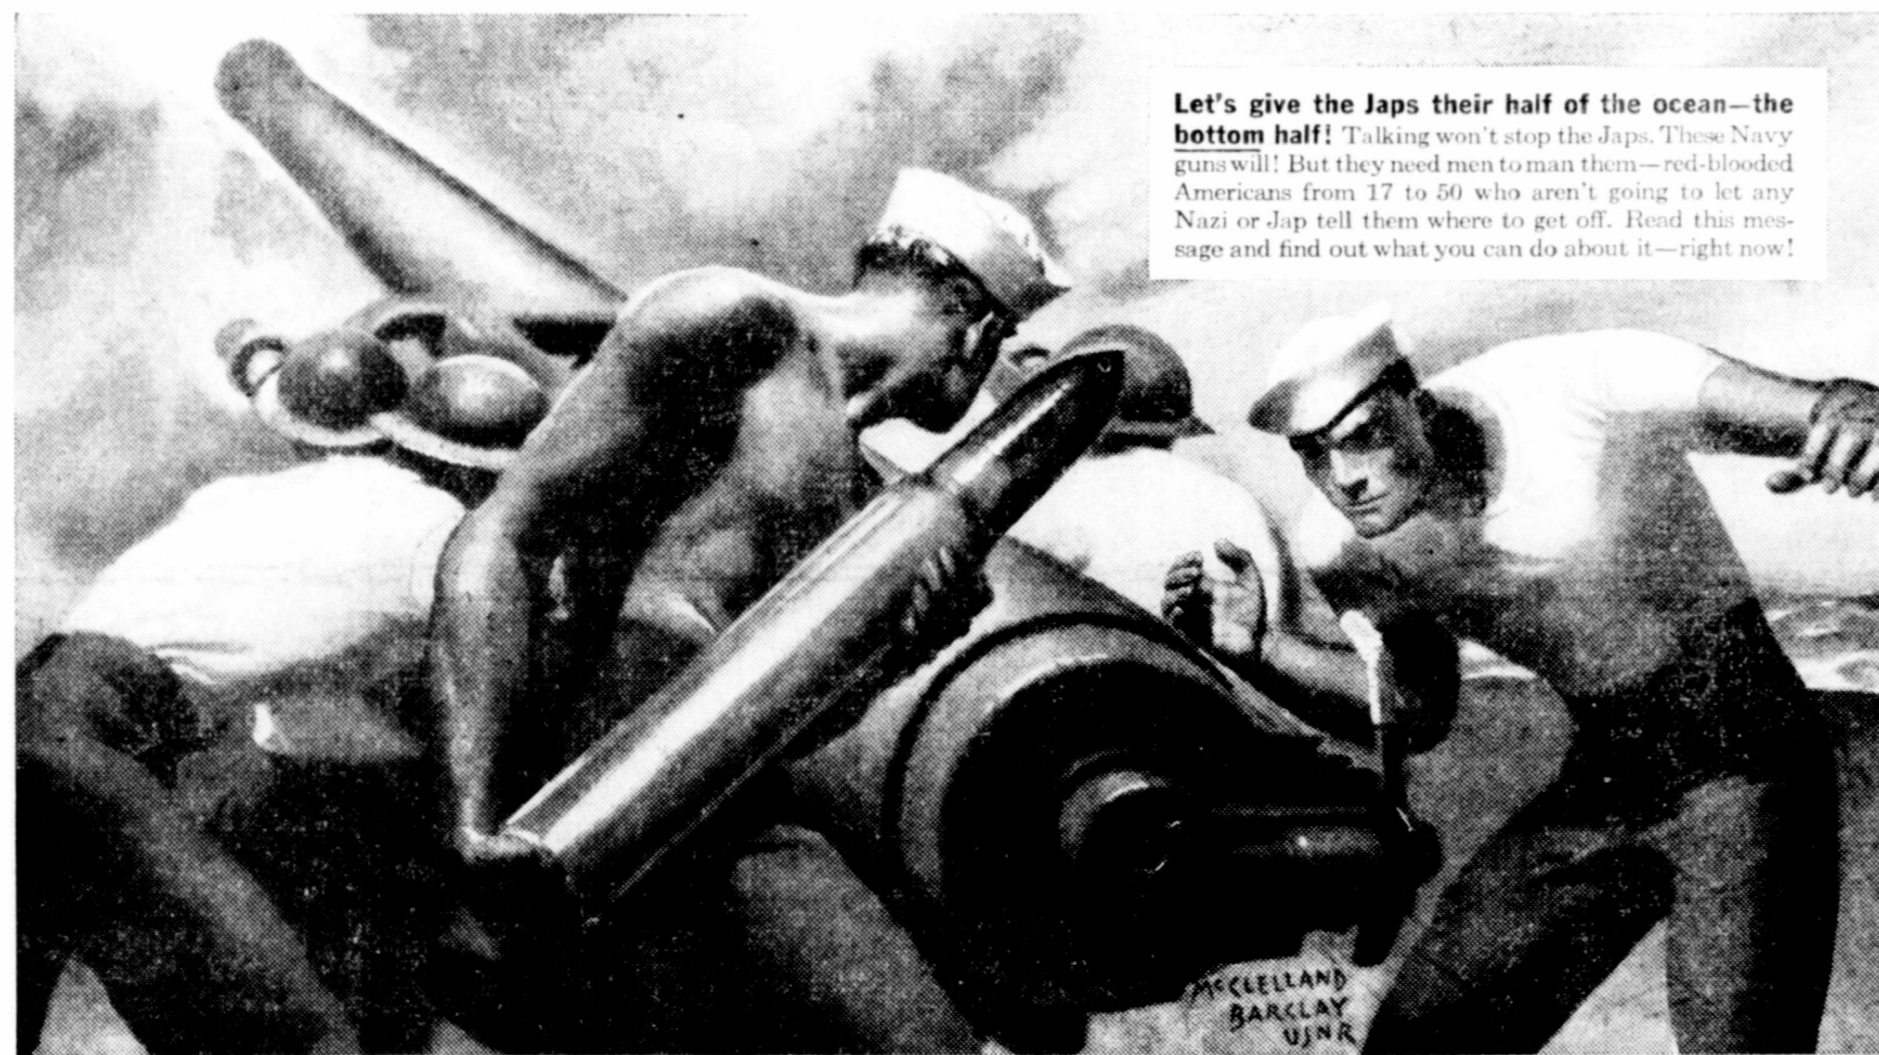

"BILL LATCH."
LATCH, a 1939 graduate of Cisco high school, enlisted in the Marines in May, 1941, and fought in the Pearl Harbor battle. His address is: Pfc. Bill Latch, 6th Div. U. S. Marines, USS. Helena, care Postmaster, San Francisco, Calif.

SOVIETS AGAIN OUTSMART THE MIGHTY HITLER

MOSCOW, Oct. 3.—The Red army gave a new, brighter turn to the great battle for the Volga basin Saturday by snatching the initiative from the Germans and bearing down on the Nazi flank in an advance northwest of Stalin-

grad, while defenders within the city also were breaking down the enemy's offensives.

Russian tank and troop attacks carried the defenders of battered Stalingrad into the Germans' front line on the north and strong counter-attacks within the city also threatened the besiegers' positions there.

The battlefield appeared now to be divided roughly into three zones, with the Russians driving across the steppes outside the city and along the streets inside it, while the Germans persisted in assaults in the suburbs between these two areas.

ESTABLISHING A MINIMUM FOR FARM PRICES, NEW LAW ALSO PERMITS FEDERAL FARM LOANS

WASHINGTON, Oct. 3.—President Franklin D. Roosevelt Saturday named Supreme Court Justice James G. Byrnes as director of economic stabilization to administer the nation's new overall program to control the cost of living.

The president, vested with greater powers to curb inflation than ever before were bestowed upon a Chief Executive in the Nation's history, moved quickly Saturday to stabilize salaries, prices and wages.

Three hours after congress finally approved the compromise anti-inflation bill Friday night, the president signed the measure into law and prepared to issue an executive order applying the brakes to wartime living costs.

Prodded into action by the president on his return from a two-week inspection of war establishments, congress completed passage of the controversial bill, but one day later than he had demanded.

A cause of many ruffled tempers and frayed nerves in its three-week stay in congress, the measure generally directs the president to stabilize wages, prices and salaries by Nov. 1 and, as far as is practicable, at the levels of Sept. 15, 1942.

Swift executive action was regarded as certain, however, because the president has asserted that unless new controls were exercised the inflationary trend could not be held in check longer than Oct. 1.

The act calls for the adjustment of farm prices if those established under the stabilization provisions do not meet the increase in the cost of farm labor and other agricultural expenses since Jan. 1, 1941.

Establishing a minimum for farm prices, the new law also allows government crop loans and purchases at 90 per cent of parity instead of the present 85 per cent. To prevent an exorbitant rise in the cost of meat, however, the president may set the loan rate between 85 and 90 per cent in the case of grains used as feed for livestock and poultry.

In general, wages and salaries can not be lowered below their highest figures reached between Jan. 1 and Sept. 15, 1942. The president must be notified 30 days in advance of any proposed increase in public utility and common carrier rates and a representative of the price administration must be allowed to appear in behalf of consumers at any rate hearing that may be held.

A senate-house conference committee Friday revised one section of the measure requiring that before the president could sanction increases in wages and salaries above the Sept. 15 level, he must find not only that there were "gross inequities" but that the effective prosecution of the war demanded the raise.

In contrast with the stormy reception which greeted the measure in its earlier stages, the anti-inflation bill emerged from the committee and promptly passed the house, 257 to 22.

Speeded to the senate, it also met brief debate and was passed by a voice vote at 7:12 p. m. The president fixed his signature at 10:15 p. m. and the White House announced an executive order carrying out its provisions would be signed and issued within 24 hours.

In the house, Representative Walcott of Michigan, ranking minority member of the banking committee, declared the measure "gives the president everything he asked for."

Before final passage, Senator Brown of Michigan, floor manager for the measure, told the senate he believed congress had fashioned a bill by which the president could place effective controls on \$90,000,000,000 of the estimated \$115,000,000,000 national income this year.

Praising the bill as "acceptable and workable," Democratic Leader

Barclay of Kentucky told his colleagues they had "vindicated" the legislative processes by working out a compromise.

Senator Thomas of Oklahoma, who led the farm bloc fight for a revision of parity standards, promised his aid in preventing any further inflation. Thomas said the office of price administration has done a "practically perfect job" in holding down inflation under the present law.

Thomas said that on May 2, when the price control bill went into effect, the general price level was 98.7. Since that time, he said, it had advanced to 99.4.

Senators Wheeler of Montana and Herring of Iowa complained that a provision of the bill giving the president discretion to keep government loans on feed crops below the 90 per cent of parity level fixed for other crops discriminated against corn and wheat growers.

Wheeler said this was penalizing crops which had not yet reached parity and Herring called it "discriminatory, unjustified and unfair."

LITTLE REST FOR YELLOW DEVILS NOW

MACARTHUR HEADQUARTERS, Australia, Oct. 3.—Allied bombing planes have set fire to two big Japanese transports, probably hit a cruiser and an unidentified vessel and possibly damaged a second cruiser in a day of shattering attacks on enemy bases in the northeast Australian zone, General MacArthur announced today.

The attacks, made while Douglas attack bombers and fighter planes gave heavy support to Australian troops driving up the Owen Stanley mountains of New Guinea, approached a record for the southwest Pacific.

Boeing Flying Fortresses, in a big raid on Rabaul in New Britain Island, most important Japanese base in the entire New Guinea-Solomon Islands area, set fire to a 15,000-ton Japanese transport and a 7000-ton transport with direct bomb hits and probably hit a Japanese cruiser and an unidentified ship.

They also bombed the big Rabaul airbase and blew up an ammunition dump.

CATTLE MARKET

Hogs were steady to weak compared with Friday's levels at a top of \$14.90. The market was generally 20c higher than a week earlier. Sales in the sheep yards were steady.

FORMER CISCO GIRL BRIDESMAID AT TEXAS WESLEYAN

Johnnie Macias, daughter of Mr. and Mrs. Jose Macias, 509 Gault street, Cisco, was chosen as one of the six bridesmaids at the student "wedding" at Texas Wesleyan. This "marriage" is an annual tradition with the opening of each school year. The senior president takes a freshman "bride" to symbolize the union of the new class to the college. The bridal party, except the groom, is chosen from outstanding members of the freshman class.

Miss Macias graduated with the 1942 class of Cisco high school and has six brothers and six sisters in the public schools here. Her brother, Julie, also graduated last year. In a letter to Miss Lela Latch, she wrote: "At the last minute I decided to come to Texas Wesleyan and I'm really glad I did. All the students are very, very friendly. The sophomores are really giving the freshmen the 'works' already. You should see the silly things we have to do! I have joined the Tau Gamma Chi. We had our first meeting last Thursday with an informal luncheon. How is dear Cisco Hi? I sure do miss it. I'm really going to miss the football games, since TWC isn't having a team this year. Come to Fort Worth some time. I would like to see you. I'm planning to come home some weekend when I do not have too much to study. My best wishes."

Half the Metal in every ship
every tank
every gun
is SCRAP!
THROW YOUR SCRAP INTO THE FIGHT!

As one businessman to another We're talking facts, remember! Such as the fact that steel for every tank, ship, and gun must be made of 50 per cent scrap. And the terrible fact that America's mills are starving for this scrap—without enough on hand for even 30 days more production!

Which puts it up to you;

And you, as a businessman, have a double job to do. Clean out your home—and scour your place of business, factory, office or store... for every single bit of scrap.

BUSINESSMEN -- LET'S TALK ABOUT DEATH! LET'S NOT DODGE THE ISSUE -- LET'S FACE THE FACTS. A LOT OF GOOD AMERICAN FIGHTING MEN MAY SOON HAVE TO DIE FOR WANT OF SCRAP!

IF YOU FAIL SOME BOY WILL DIE!

And when you see the stockpile grow—for the mills to take when it's needed—be glad that you've done your part... that your work may have saved some boy from a needless death!
