U. S. NAVY HITTING ITS STRIDE IN THE PACIFIC

TOLL OF JAP SHIPS IN SOLOMONS AREA IS NOW WELL ABOVE 40 AND THREAT TO US POSITIONS EASED

WASHINGTON, Oct. 9.—A coordinated attack by a navy carrier task force and army bombers from Australia which smashed 10 vessels of a napping Japanese fleet in the Solomon Islands was believed today to have eased the threat to American positions in that area.

The navy announced in a communique last night that its task force, taking advantage of "unfavorable weather," inflicted such a surprise on the Japanese Monday that "our task force suffered no loss of personnel or planes and no damage to any ship."

The communique listed five Japanese ships damaged by the carrier task force, two strafed in the harbor at Shortland Island, eight planes destroyed and an airfield damaged. A communique earlier in the week from Gen. Douglas MacArthur's headquarters in Australia listed five other enemy ships damaged and acknowledged loss of one Allied plane in the joint attack.

The army and navy carried out simultaneous raids, the navy communique said, with MacArthur's bombers concentrating on Japanese bases in the Solomons. The navy's part in the double-barreled attack was kept secret until last night — after the surface vessels participating could break radio silence.

Although the communiqués did not say how seriously the 10 ships were damaged, it was obvious that direct bomb and torpedo hits would at least put them out of action for some time — and make them useless for immediate reinforcing of Japanese positions in the Solomons.

Since the Monday attack the navy has announced damage to another enemy cruiser which was bombed and torpedoed while aiding in landing reinforcements on Guadalcanal Island, site of the Allies air base in the Solomons.

The toll of Japanese ships in the area—as announced by navy communiqués—now is at least 35 sunk or damaged.

Army bombers under MacArthur's command are believed to have brought the toll well above 40. In addition, the navy has announced the destruction of 238 Japanese planes of all types and damage to many more.

TEXAS' GREATEST CONSTRUCTION PERIOD

AUSTIN, Oct. 9.—Texas has enjoyed its greatest construction period in the first nine months of 1942, the Texas Contractor, trade publication, said today in a review.

The record not only exceeds that of any other nine-month period, but is greater than any previous full-year mark.

Contract awards for 1942 to date are nearly double the figure for 1941. Editor Hanford Reed said, while other work surpasses the record for 1941.

OPPOSE PRO ELECTION. FT. WORTH, Oct. 9.—The Fort Worth Trades Assembly, representing 11,000 men and women, today was on record against holding a prohibition election in Tarrant county at this time.

BATTERED BUT UNBOWED—This gaping hole was torn in the wing of an American-built Hudson bomber serving with the R. A. F. but heroic crew brought craft safely to British airport after participating in attack on Nazi convoy creeping along Dutch coast.

METAL IS NEEDED; GET IT!

The scrap pile at the A-G Motor company's used car lot, near the Katy freight depot, on E. Sixth street, is growing rapidly.

City trucks are hauling in the piles of scrap from the public schools of the city and some of the homes have already contacted people living in the rural section of their areas.

Where citizens do not want to donate it, Lions are arranging to buy it, if it is gathered in piles convenient to highways.

Columbus discovered America, October 12, 1492! Scrap will save America, October 12, 1942!

Columbus Day in 1942 will be Texas Scrap Metal Day by proclamation of Governor Coke Stevenson and on that day will be maintained all of the forces in Texas for a gigantic scrap collection.

Texas Scrap Metal Day will be observed throughout the state as a Texas holiday and in addition Junior Texas Rangers and students in public schools of the state will have a half-holiday to assist in the scrap collection.

On Texas Scrap Metal Day, State Dept. of Public Instruction, A. W. Lewis has announced.

Thompson Hall, state director of Texas Newspapers' Scrap Drive, in commenting on the designation of Columbus Day as Texas Scrap Metal Day, said:

This anniversary of the discovery of America should furnish an opportunity to redouble our efforts to see that sufficient scrap is obtained to fill all the needs of America's gigantic armament program, because none of our boys fighting fronts should suffer because we failed them at home.

REDS AT STALINGRAD CONTINUE CARNAGE

MOSCOW, Oct. 9.—The Germans attacked with two columns of tanks south of Stalingrad today and maintained their pressure against an industrial settlement in the northwestern section of the city, but the heroic defenders showed no signs of weakening.

Despite German propaganda broadcasts seeking to justify the German people an abandonment of frontal attacks on Stalingrad, there was nothing in the Russian noon communique to indicate that the attacks had been even modified.

Rather, the communique and all dispatches from Stalingrad, now in its 46th day of siege, indicated that pressure had increased.

No new German gain has been reported, however, since yesterday, when the Germans occupied two streets in the industrial settlement. They paid with the lives of 4,000 men and 16 tanks for it, the record blood sacrifice in one of history's greatest battles.

Twelve tanks and 500 troops penetrated another street of the settlement today. Nine of the tanks were destroyed, two companies of the troops killed, and the surviving tanks and Germans retreated.

South of Stalingrad, two panzer columns and a heavy force of German Tommy-guns tried to drive parallel wedges into Soviet defense and encircle a large unit. The Russians crippled 34 of the tanks and flung the enemy back.

Above Stalingrad, in the 50-mile corridor between the Don and Volga rivers, Marshal Semyon Timoshenko's counter-offensive rolled slowly and steadily forward to the relief of the city's defenders.

Timoshenko's men were routing out and killing Germans who had resorted to trench warfare in an effort to stop him. The Germans were ceaselessly counter-attacking.

TEXAS-BORN BISHOP DALLAS, Oct. 9.—A 43-year-old Texan who determined at the age of 13 to enter the clergy, became Texas' ninth bishop of the Catholic church Wednesday.

Crowds thronged Sacred Heart cathedral for the impressive, hour-long ceremony which elevated Augustine Danahy to the episcopacy, and heard Archbishop Robert E. Lucey of San Antonio plead for the laity to return to total Christianity.

FIFTY YEARS OLD. FT. WORTH, Oct. 9.—The second court of civil appeals, at one time one of only four appellate courts in Texas, observed its fiftieth birthday today with appropriate remarks by the present judges.

SOLDIER ON TRIAL. CAMP SWIFT, Oct. 9.—A one-man military "grand jury" today launched an investigation into charges that a 38-year-old army inductor, once a patient in a state institution, murdered the 8-year-old daughter of a county judge.

WASHINGTON, Oct. 9.—Based on the contention that a nation that uses a lottery to draft its men for war shouldn't object to the same method for helping to finance the struggle, a drive for a national lottery law was under way Friday on Capitol Hill.

AIRCRAFT CARAVAN COMING

SAN ANGELO, Oct. 9.—The last call for volunteers to choose their own branch of the army air forces will be made in the next two weeks as a special aircraft caravan tours West Texas and New Mexico.

A recruiting party from the AAF Bombardier school here, headed by Lt. B. E. Vance, recruiting interviewer, will furnish details of the many advantages of the specialists program for future aircraft mechanics, welders, radio technicians and metalworkers.

The caravan will be in Cisco, Wednesday afternoon, Oct. 15. With more than 300 enlisted men promoted in the last three weeks at Uncle Sam's newest war college, quick advancement is practically certain for men between 18 and 30 who have had previous experience working with tools.

Besides the promotions, more than 150 men who enlisted for assignment at the new bombardier college have been returned here after processing at San Antonio. Another hundred has been enlisted under the specialists plan and soon will join their friends at Uncle Sam's newest bombardier school.

This is only the beginning of a vast ground force to back up the pilots and bombardiers who are training for combat duty. More hundreds of mechanically-minded men from this section are needed.

Preliminary medical examinations will be given during the tour so the prospective volunteers will know right then and there whether or not they might be eligible.

FIRST BAPTIST BROTHERHOOD MEETS OCT. 20

The Men's Brotherhood of the First Baptist church will meet Tuesday evening for a supper in the basement of the church. The speaker of the evening will be Rev. Roger Hebard, pastor of the First Baptist church of Breckenridge.

At the meeting a committee will be appointed to nominate officers for next year. All men of the church are urged to be present. The time is 7:30. No admission will be charged.

SYKORA SOMEWHERE IN AREA GUADALCANAL

Leroy Sykora, son of Mr. and Mrs. Joe Sykora, route one, Cisco, writes from the Guadalcanal area that he is "all right." The letter was mailed September 24 and, among other things, said "Have received no letters as yet, but keep writing."

ODWIN CATE LOCATED AT FT. BELVOIR

Odwin Cate, son of Mrs. J. E. Cate of Cisco, who joined the army September 19, is now in the engineers' replacement center at Fort Belvoir, Va., where he is expected to remain for about six months. Cate writes his mother that he is well and thoroughly satisfied with his studies and duties.

There are 34 men in the barracks with Cate and 15 of these are Texas young men. Odwin Cate was born in San Angelo, but has spent practically all of his life in Cisco. For the past 11 years he has been with the Humble Oil & Refining company, in the geophysics department.

MURRAY RAPS SENATORS ON VICTORY TAX

WASHINGTON, Oct. 9.—The C. I. O., charging that the proposed 5 per cent victory tax in the pending tax bill was hypocritically named today said such a tax threatens to sabotage and impede the war production program instead of aiding victory.

In a letter to senate leaders a few hours before the victory tax was scheduled to come to a vote in the senate, C. I. O. President Philip Murray called for enactment of the treasury's original revenue raising proposals, two of which the senate already has rejected, and said:

"Your senate finance committee has warped the administration's tax program — by heavier taxation of the lower incomes, by reduction of exemptions, by imposition of a gross income tax (hypocritically denominated a 'victory' tax)—into a tax program which threatens to sabotage and impede our war production by taking bread and milk from the tables of our workers, and clothing from their backs."

Murray promised that organized labor would continue to marshal its forces for the most effective war production "under any circumstances," but added that it would be a more difficult task "if the senate persists in its present approach to the tax program."

MERCILESS NAZIS. LONDON, Oct. 9.—German SS troop reinforcements are pouring into Norway and special courts martial are being organized at Oslo, Trondheim, Berge and other key cities for a Gestapo blood bath in which nearly 50 Norwegian patriots already have been sacrificed, special reports indicated today.

GREW REPORTS—Our former ambassador to Japan, Joseph C. Grew, enters executive session of Senate Foreign Relations Committee in Capitol. It is presumed he told of his last days in Nippon.

BIG PIPE ORGAN WILL BE READY WITHIN 10 DAYS

Installation of the large pipe organ recently presented to First Methodist church by Samuel Greer will be completed in about ten days, according to a statement by C. H. Brick, from whom the instrument was purchased and who has been personally in charge of construction work.

G. P. Mitcham, long-time friend of Mr. Greer, voluntarily assumed responsibility for building the organ chamber and providing the grill in front. This work, including the hanging of the curtain behind the grill, will likely be completed this week.

Arrangements are being made for Miss Doris Poteet, head of the department of organ music at Southern Methodist University to give the opening recital, soon after the work is done.

Extra helpers have been working on the job in order to assure completion before the session of the Central Texas conference, to be held in this church November 5 to 8. The date originally scheduled for the opening of conference was November 4, but by action of the bishop and his cabinet it was moved back one day.

LIEUT. SLICKER WRITES HOME FROM O'ERSEAS

Second Lieut. Joe Slicker, 21, son of Mr. and Mrs. Homer Slicker of Cisco, a member of the coast artillery anti-aircraft service and presumed to be somewhere in the Honolulu area, writes that he is well and getting along all right.

Lieutenant Slicker, who joined the armed forces last April, was born in Eastland but has lived in Cisco since quite young, and is a 1937 graduate of Cisco high school. He is also an A. & M. college graduate.

In his last letter he enclosed an article from the Honolulu Star Bulletin, which will be of interest to many Cisco people. Here it is: Out beyond Ewa, in miles and miles of dusty kiawe forests and military secrets, nestles a little post known as the "navy rifle range."

The fact that the rifle range belongs to the navy, and is comparatively out of sight and sound of water, is one interesting feature. Another is that not only do boys live healthier out of doors here, but also a contingent of marines, who attend machine gun school, and a battery of army lads, who man an anti-aircraft section.

The three service branches live harmoniously under the same kiawe trees, and seldom get into any involved arguments as to the relative superiority of their own branch.

Sunday the gang decided to have a luau, mostly because none of them had ever seen one before. They got a hot swing band with a trumpet player that went to heaven in the groove, and a drummer who also had the ecstasies, and a piano player who really played music.

Maybe the luau lured them, but there were more girls at the dance than I've ever seen congregated at one camp day room! Some of them wore holokus, lots of nurses came in their dress whites, and some turned out in slacks. Of course the marines claimed they cornered the majority, but the rest of the boys did all right, too.

The luau was served at long tables in the mess hall. There was poi, two pigs, lomi-lomi salmon, coconut pudding, sweet potatoes and even limu. It was all laid out on ti leaves and most of the boys ate with paper spoons. Most of the lads left their poi, but did a good job on the chicken and pig and chocolate cake.

Lt. Roy Nelson was in charge of the navy arrangements, Capt. Robert C. Brewster for the army and Lt. Col. Frank Reinecke for the marines.

Everybody had a wonderful time, including Spud Murphy, who did a masculine interpretation of a Clare Inter lula.

HUMBLE CO. TO BROADCAST 5 GAMES ON SAT.

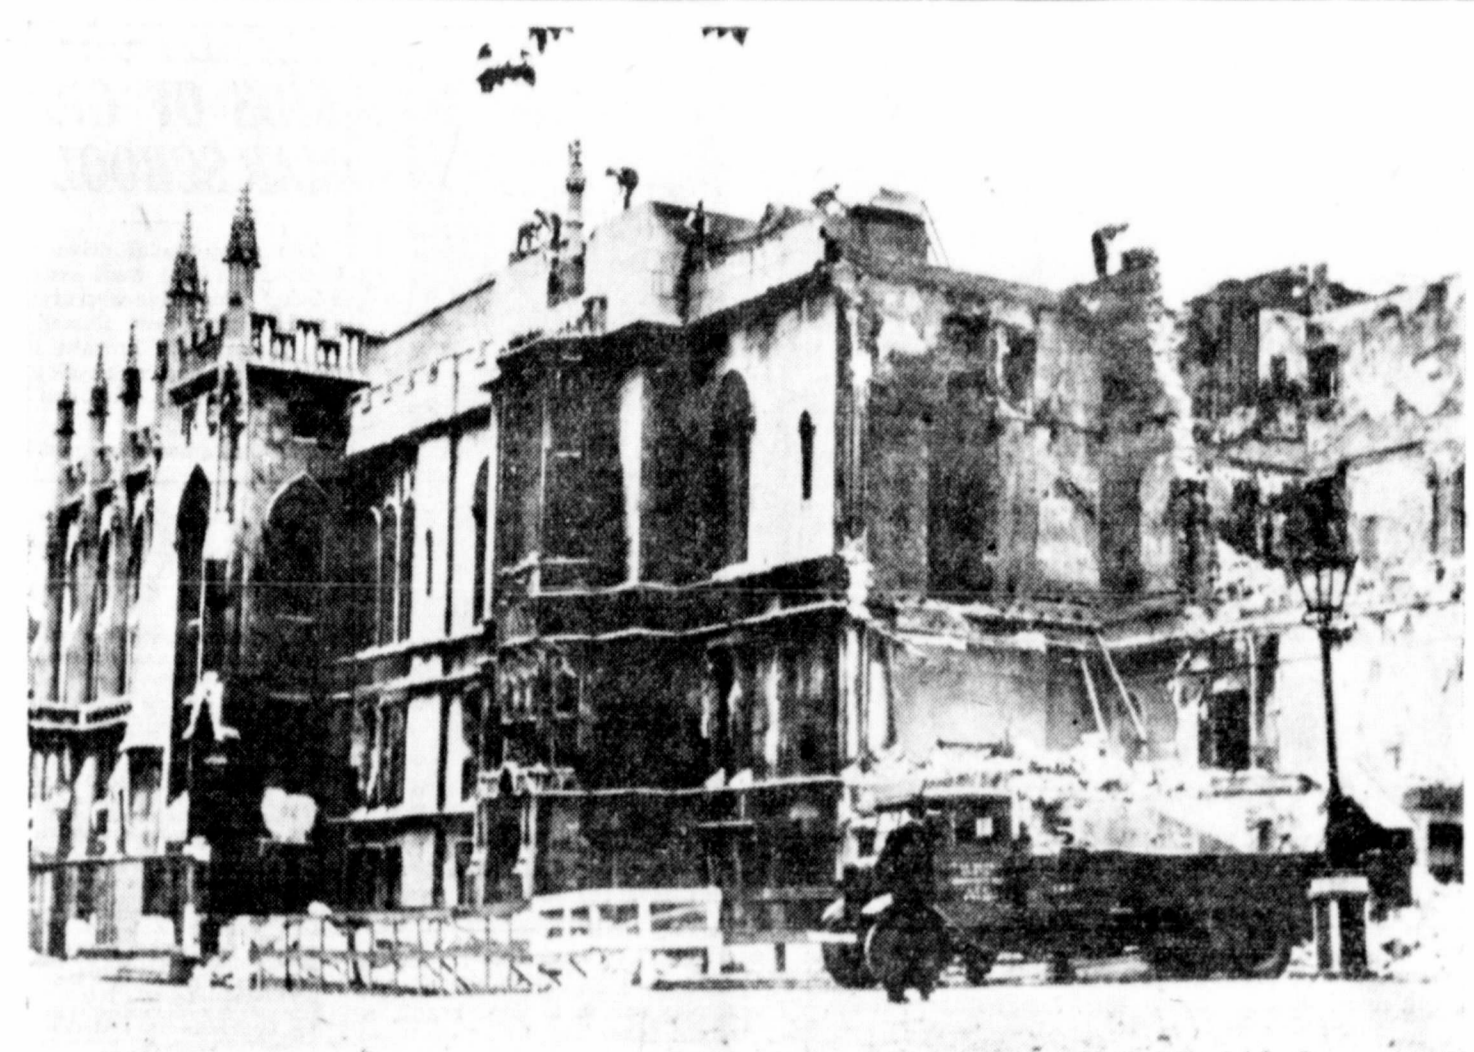

Football followers can look forward to another five-game broadcast schedule this Saturday as Humble Oil and Refining company brings fans one conference game and four important inter-sectional games over a number of Texas radio stations.

Baylor Bears take on the Arkansas aggregation in Fayetteville. The Porkers are hard to beat on their home field, so this game should provide plenty of excitement. Charley Jordan, who is fast becoming one of Humble's most popular play-by-play announcers will report the game direct from the field while Buddy Bostick of Little Rock describes color. Broadcast starts at 2:20 p. m. over station WRR, Dallas and WACO, Waco.

Dana Bible's sixth edition of Longhorns will take a short jaunt to Dallas to meet their traditional inter-sectional rivals, the University of Oklahoma in the Cotton Bowl. Kern Tips will handle the play-by-play assignment with Harfield Weedin doing the color work. Stations WFAA, Dallas; Ft. Worth, WOAI, San Antonio; KPRC, Houston, and KNOW, Austin will air this game starting at 2:20 p. m.

It will be home-coming day for Marty Karow, coach of the Corpus Christi naval air station team, as he and his team play host to his old alma mater—Texas A. & M. The fact that one of his ends, Bill Stages, is also an ex-Aggie star, will add point to this contest. Bill Michaels will do the play-by-play announcing while Tom Jacobs takes care of the color department. This game will come to fans over stations: KRIS, Corpus Christi; KTSA, San Antonio; KRGV, Weslaco; KXYZ, Houston, and KGKO, Fort Worth, starting at 2:20 p. m.

Rice, who nosed out Tulane by a one-point margin last year, will meet the Green Wave at New Orleans, with Ves Box giving his usual sparkling play-by-play reports while Bill Newkirk relieves him for color description. This game takes the air at 2:20

TEMPLE LIBRARY DEMOLISHED—England's famed Temple Library in London makes final appearance above as workmen set to work demolishing the structure, condemned as unsafe by authorities in wake of several hits of enemy bombers during blitzkrieg

over stations KTRH, Houston and KRLL, Dallas.

The latest game of the afternoon to go on the air is the one between T. C. U. and Kansas U., starting at 2:50 p. m. at Fort Worth. Dave Russell and Dave Byrn will alternate at the mike, the former taking the play-by-play assignment and the latter the color highlights. Stations KFJZ, Fort Worth; KGKL, San Angelo; KRBC, Abilene; KBST, Big Spring and KRLL, Midland will carry this game.

Cook in the Dark Exclude the light from vegetables when cooking them by putting a cover on the utensil, and you will reduce vitamin loss, say research workers in foods. The formula for successful vegetable cooking is like this: use as little water as possible for each vegetable in question, start the water boiling rapidly, add vegetable, cover, and turn top gas burner to a point sufficient to produce steam within the utensil; this will cook the vegetable quickly to tenderness. Utilize remaining cooking water in soup, sauce or as a hot juice cocktail. Too, only a minimum of fuel is needed for the cooking.

Mr. and Mrs. O. J. Russell and son Bill, accompanied by their new small son, Wendell Reed Russell, returned from Fort Sill, Okla., where they visited Sgt. Wendell Russell and were present when he received his commission as lieutenant. He returned with them to Cisco and will spend a ten-day furlough here.

The Cisco Federation of Women's clubs will hold the first meeting of the club year at 3 p. m. Monday in the club house. It is urged that a good representation of all federated clubs of the city attend, stated Mrs. A. J. Olson, program chairman.

Miss Mabel Halbert will leave Saturday for Hobbs, N. M., where she will work as relief operator for the Western Union Telegraph company. She will later go to Odessa, Texas, where she will accept a permanent position.

J. E. McCord, Corpus Christi lumber dealer and former highly esteemed Cisco resident, was a brief visitor in Cisco Wednesday and met a number of his friends. He was accompanied by Mrs. McCord and they were enroute to Mineral Wells. While here, Mr. McCord called on former Mayor J. M. Williamson, who is continuing to his home.

Byron Boyd, son of Mr. and Mrs. Sebe Boyd, 411 W. Sixteenth street, now in training at the Great Lakes naval station, is expected to come home for a brief

stay about November 1. He is making good headway in his studies and is in good health, a recent letter stated.

Mrs. Rosell Daniel and two small sons are leaving for Purcell, Oklahoma, Saturday where they will make their home.

METAL HUNT BY KIDS OF GRAMMAR SCHOOL A-1

The scrap metal drive at the Grammar school went over with a bang! The drive was under the supervision of Rev. Russell Dennis, whose room brought in the most metal and received the \$1 award offered by the Cisco Lions club.

The total amount brought in by the Grammar school was 16,111 pounds, or about eight tons. This will average about 80 pounds to the student.

Miss McBeth's room was second highest in the drive. Each student in the school was given a Junior Ranger badge, while each room was given a Junior Texas Ranger award.

The whole student body went at the matter wholeheartedly and, since the drive does not end until October 17, more metal will probably be brought in by the more alert pupils of the various Grammar school rooms.

STOPS GETTING UP AT NIGHT

Augusta lady gets fast relief from sluggish kidney pains. Backaches gone... sleeping fine now.

"Some days my back ached so bad I couldn't do my housework," writes Mrs. Lenora Lybrand. "At night I used to get up almost once an hour. So I'm mighty grateful to Dr. Kiefer's Swamp Root for relieving my kidney troubles. I feel just as good now."

Mrs. Lybrand is one of thousands of sufferers who have found relief with Swamp Root. For this remarkable stomachic and intestinal liquid tonic cures painful acid sediment from your kidneys. It acts fast!

Originally created by a well-known physician, Dr. Kiefer, Swamp Root is a combination of 16 herbs, roots, balsams and other natural ingredients. No harsh chemicals or habit-forming drugs. Just good ingredients that quickly relieve bladder pain, backache, run-down feeling, due to tired kidneys. And you can't miss its marvelous tonic effect!

Try Dr. Kiefer's Swamp Root free! Thousands have found relief with only a sample bottle. Send your name and address to Kiefer & Company, Inc., Department 000, Stamford, Conn., for a sample bottle free and postpaid. Be sure to follow directions on package. Offer limited. Send at once!

Mrs. Lenora Lybrand, 524 Crawford Ave., Augusta, Ga., is not pained by pain due to sluggish kidneys any longer. "Swamp Root" was a big help," says Mrs. Lybrand.

How Long Has It Been—

... since you had your abstract brought to date or your title checked for possible flaws and defects? Rising prices, cheap money and inflation of the currency are sure to favorably affect the value of all classes of real properties. Real estate bids to again become the safest and most profitable of all investments. Whether buying or selling, remember this: a defective title destroys value—a good title adds to it.
