SHOWDOWN IN SOLOMONS AREA IS IMMINENT

LEUT. RUSSELL TALKED TO ROTARIANS TODAY

Secretary G. R. (Pete) Nance of the Rotary luncheon club was holding a session with Cisco today, as introduced Judge James P. Blanton, Charley Blair and Vic Lett as visitors at the club. Lt. Russell made announcements regarding the welfare of the club and to combine all any drive that would eliminate during the autumn months. P. Crawford moved that the Rotary endorse the Community Chest and that Rotarian be retained to represent the club in further deliberations. Lt. Russell objected to having Red Cross included in the drive since the war made it necessary that the Red Cross be a separate organization. His objection was carried. E. Shepard, program chairman, introduced Lt. Wendell Russell, son of Rotarian O. J. Russell. He said Lieutenant Russell had just finished his artillery at Ft. Sill and was transferred to Camp Bowie.

BLENDING FUEL TO BE PROCESSED AT RANGER

RANGER, Oct. 15.—Plans have been completed for the addition of gasoline fractionating units to the Lone Star Gasoline company plant No. 101, three miles southwest of Ranger. Actual construction is scheduled to start upon final approval from the War Production board. Fractionating units will take natural gas from Breckenridge and other company plants in the West Texas area and process it into isobutane, butane, pentane, pentane and heavier hydrocarbons. Isobutane and pentane are used for blending with other refinery stocks to make aviation gasoline. Construction of the units will be by the Gasoline Plant Construction company of Houston. Directing Lone Star operations on the project will be J. H. Jarvis, superintendent; Harry Wheeler, assistant superintendent; and John Kinkie, superintendent of the Ranger district.

NAZIS APPEAR TO MAKE LITTLE HEADWAY

MOSCOW, Oct. 15.—Fierce fighting broke out anew in northern Stalingrad today, but the Russians killed more than 2,000 attacking Germans, blew up 23 of their tanks and even seized some Nazi strongholds. Red Star said that the Germans had attacked with powerful forces of infantry and tanks on two sectors, trying to take a northern district of Stalingrad after almost a week's lull. On one sector, the defenders, rested and reinforced, mauled the Germans so badly they fled from several houses they had captured days ago, the newspaper reported. The Russians quickly occupied the houses, and improved their own positions. On a neighboring sector, the Germans brought up fresh forces to make good their losses, and attacked four times in quick succession in an effort to smash through to some factories. The entrenched Russians held their positions killing 2,000 Germans and destroying 23 tanks. Only a narrow strip of debris-strewn street separated the Germans from guardsmen defending approaches to the Volga river. The Germans, dispatches said, have been stabbing at the strip for several days, constantly throwing in fresh troops against Red army men who have been fighting for months. But the government organ Izvestia said the guardsmen stood like iron among houses collapsing under artillery and mortar fire. Above Stalingrad, where Marshal Semyon Timoshenko was on the offensive between the Don and Volga rivers, German counter-attacks were reported. One Red unit smashed five such attacks and killed 300 Germans, it said. Soviet scouts penetrated German defenses and killed 60 soldiers.

WAVES IN TRAINING—Feminine sailors enlisted in the WAVES didn't even have time to change into uniform before an ensign (right) had them picking 'em up and laying 'em down after arrival at Smith College in Northampton, Mass. They're crossing campus bridge.

JAPS LAND IN LARGE NUMBERS ON GUADALCANAL AND A FIGHT TO FINISH MAY BE EXPECTED

WASHINGTON, Oct. 15.—The inevitable showdown battle for Guadalcanal—key to the Solomon Islands—today appeared imminent, if not already under way.

That possibility was revealed by announcement that a Japanese invasion force—repulsed once over the weekend in a fierce naval battle—was landing on the north shore of Guadalcanal; that the enemy surface ships have bombarded the airfield and shore installations on Guadalcanal.

There was no mention of the American naval task force which last weekend sank four warships and a transport of the enemy invasion fleet.

Action of both American and Japanese forces during the last two months has made plain the great importance attached to possessing the Solomon Islands, especially Guadalcanal.

The Americans already have paid a high price—three heavy cruisers, three destroyers and four transports—to capture Guadalcanal with its important airfield.

The Japanese have paid a higher price in abortive attempts to recapture the island. Enemy losses now total eight ships sunk, two probably sunk and 38 damaged, several of the latter damaged seriously enough to put them out of commission for a long time.

Last night's naval communique indicated a sudden turn for the worse for the American forces in the Solomons. Less than 24 hours before they were on the offensive—having repulsed the invasion force for the second time and making ground gains on the island.

There was no attempt here to belittle the seriousness of the situation if the enemy succeeds in completing its landing operation. But officials are confident, and they are supported by statements made in Pearl Harbor by Admiral Chester W. Nimitz after his return from the Solomons, that the Japanese—if they ask for it—are in for the toughest fight of their lives when they try to take Guadalcanal from the U. S. Marines.

Regardless of the outcome of the present action, officials are convinced that because of the strategic importance of Guadalcanal the Japanese will attack again and again. Its capture by the Marines represents the first time the Allies have retaken Japanese-captured territory. If the Marines hold, it will be the United Nations' first step toward Tokyo. Bombardment of the airfield and shore installations by enemy surface ships came on the night of Oct. 13-14 and the landings were in force and that they were being carried out during daylight in defiance of any air or sea attacks the Americans may have sent against them—indicating a task force of considerable size. Presumably the enemy was landing tanks and other heavy equipment. Marine tanks have been mentioned in navy communique, and a large scale tank battle may be in the making on the jungle-covered South Pacific island. The navy made no mention of American resistance either to the bombardment of the strategic airfield which controls the air in the Solomons, or to the landings. Whether the field was damaged too badly to offer air resistance was not disclosed. Meantime, there were unconfirmed reports from Australia that a big Japanese armada—said to include seven battleships, four carriers and an unknown number of cruisers—was heading toward the South Pacific. If that report is true, an all-out attempt to retake Guadalcanal can be expected, with a sea and air battle of major proportions.

AIR CARAVAN SECURED 3 MEN OUT OF CISCO

Representatives of the San Angelo bomber caravan of the air corps were in Cisco this afternoon, seeking to enlist technicians so badly needed in Uncle Sam's armies. Mechanics, radio men and instrument men are sought in this particular enlistment effort.

The personnel of the caravan was as follows: Lieut. B. E. Vance, Staff Sgt. B. T. Morrison and Charles Dolan. Three men had enlisted at 4 o'clock this afternoon. They were Clarence Carbery, James Mayhew and Clinton Blatin.

The caravan will be in Abilene this afternoon for further enlistments. Incidentally, Lieutenant Vance said these men would draw regular army pay, but the chance for advancement will be very favorable for men who qualify.

GET CANNING SUGAR RIGHT AWAY; SAFER KEOUGH WELL REACHES 725 FOOT DEPTH

Ed Keough of Cisco and John W. Erch of San Angelo recently let a contract to J. O. Fox & Son of Dallas to drill a 3,500-ft. oil test on the H. A. Bible land, four miles southwest of Cisco and the drill has already reached a depth of 725 feet. The new well is about two miles north of the McElreath wells drilled by Mr. Keough two years ago, which are still producing at the original rate.

Operators supporting the new well are Grady Vaughn, R. B. George, Allen Guberson, John B. Mills, J. O. Fox and J. P. Kittrell, Dallas; Kirby Petroleum Co., Houston; Hickok & Reynolds, Cisco.

GET CANNING SUGAR RIGHT AWAY; SAFER

"Saturday of this week is the last day you may get canning sugar in Cisco through your ration card, and November 14 is the last day one can get canning sugar anywhere," said O. J. Russell, Cisco member of the county rationing board, today.

In other words, if Cisco housekeepers are entitled to sugar for canning purposes, they should secure it from local grocers this week. However, it will be possible for those able to qualify to secure canning sugar permits from the county board any time before November 14.

FT. WORTH, Oct. 15.—A freak windstorm that whipped into 60 minutes of dangerous fury shortly after midnight last night, tore down live wires, left smashed window panes and broken tree limbs in its wake today, but no serious damage was reported. At the height of its velocity, seven minutes after midnight, the wind blew at 56 miles per hour.

MINERAL WELLS, Oct. 15.—Brig. Gen. Everts W. Opie, army of the United States, this week reported for duty at Camp Wolters where he will be assistant to Maj. Gen. Bruce Magruder, who commands the infantry replacement training center. General Opie expects to spend most of his time in the field, observing the training of troops.

CLASSIFIED AD FOUND LOST POCKETBOOK

Mrs. H. J. Locke of Moran, who recently advertised through the Daily Press for a lost pocketbook, has received her property, intact. Elbert Rains, city street sweeper, found the pocketbook, which contained two five-dollar bills. He watched the classified columns of the Press and was thus able to communicate with the owner.

CLASS IN FIRST AID WORK IS TO START TONIGHT

An American Red Cross first aid class has been organized for Cisco and class study will begin at 8 o'clock tonight at the city fire station. The class, sponsored by the Red Cross, will be directed by Mrs. Edward Lee and B. B. Hurst, both of whom possess Red Cross first aid instructors' cards. The class starts off tonight with 10 members already enrolled and an additional ten can be taken care of. Those completing the twenty-hour course will be given standard first aid cards. This work, said E. L. Jackson, is part of the national war effort and first aid workers may be badly needed before the war is concluded—either because of the war or because of fire or floods.

But if you judge by scientific dietary rules, a lot of our strongest and healthiest workers ought to be dead.

GUARD TO DRILL DOWNTOWN FRIDAY EVENING

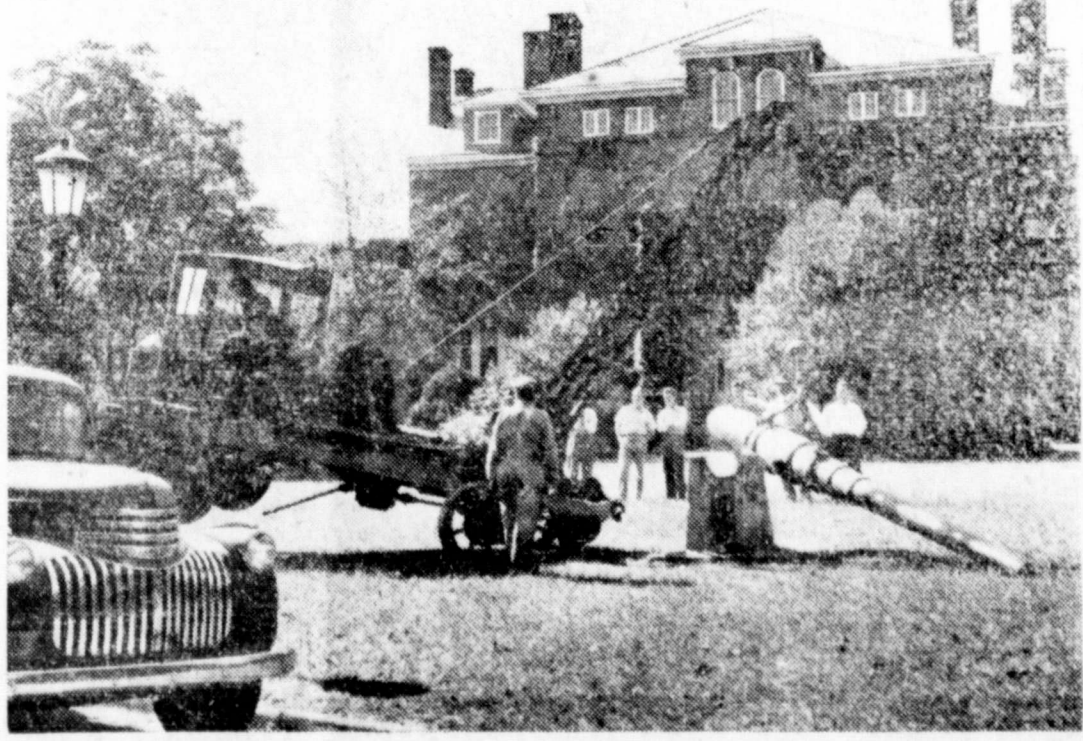

Cisco Defense Guard will meet Friday night at the fire station, after which a downtown drill will be conducted. Recently the Daily Press announced that the weekly drills would be held on Monday nights hereafter, instead of Friday nights, as had been the custom. However, while that statement was made on what appeared to be good authority, it seems now to have been incorrect. All in all, the local organization has made distinct progress, both in attendance, application to drill and military procedure generally.

BOMBERS HIT TOBRUK.

CAIRO, Oct. 15.—A daylight heavy bomber attack on Axis supply shipping in the port of Tobruk was announced Thursday by the United States army headquarters which said two direct hits were scored on a large merchantman. A lighter alongside the merchant vessel was said to have been demolished by another direct hit.

SUGAR CARDS.

WASHINGTON, Oct. 15.—Sugar ration stamp No. 9 will be good for the purchase of three pounds of sugar for home use between Nov. 1 and Dec. 15, the Office of Price Administration announced Thursday. Stamp No. 8, which calls for five pounds, expires at midnight Oct. 31.

RETRIBUTION

When the Axis is smacked down, and the time comes for ending the war and settling the damages, it would be fair to make the Germans rebuild Stalingrad.

It would also be fair to make them rebuild so far as duplication is possible the valuable and historic structures they have demolished in London, the section they want destroyed in Rotterdam and other fine buildings.

The technicians and building trades in Germany could spend several years on such reconstruction work. It would not be so good as the original construction, but it would serve the double purpose of study and retribution.

And it would help to divert any latent Hitler from such enormous and wasteful destruction of property.

Probably it will not be done. The job of retribution is still a long way off, and the damage done is too great to assume. But if retribution is impossible, surely there must be some other form of retribution to impose instead of letting the conquerors go as lightly as they have done last time.

The punishment should be impressive enough to prevent a recurrence in a hundred years.

Probably it will not be done. The job of retribution is still a long way off, and the damage done is too great to assume.

ARMY DESIRES BOTH MEN AND WOMEN—NOW

Lieut. Claude Parham and Kenneth Spring, from the army recruiting and induction station at Abilene, were welcome callers at the Daily Press office this morning.

Lieutenant Parham said the army is interested especially in the enlistment of 18- and 19-year-old boys who can practically choose any branch of service they want—right now.

This also applies to women between 21 and 45—white and negro—the officer stated.

PASSING THE BUCK

A teacher sent this note to the mother of an unruly pupil:

"Dear Mrs. Jones, I regret to inform you that your son, Robert, juries away his time, is disobedient, quarrelsome, and disturbs other students who are trying to work. He needs a good thrashing and I strongly urge that you give him one."

This was the reply she received: "Dear Miss Smith, Lick him yourself. I ain't mad at him."

"Papa," asked Willie, "what is middle age?" "It is the time of life, son," he replied, "when you would rather not have a good time than recover from it."

COUNCIL GROUP FOUR MET IN CHURCH
 First Christian church council group four met for regular meeting in the church Tuesday afternoon. Mrs. J. F. Benedict, chairman, presided. Mrs. Burl Williams brought the devotional, which was much enjoyed. The lesson from the bulletin, "Today in All the World," was taught by Mrs. Troy Powell. A short business session was held during

CONVENTION TO MEET IN CISCO OCTOBER 30.
 A streamlined one-day convention of the Sixth district federated music clubs will be held here October 30 at Laguna hotel. Members of Cisco Music Study club met Monday morning in the home of Mrs. S. E. Hittson to make plans for entertaining the group. Mrs. Ben Krauskopf, local club president, was in charge.
 Mrs. Joseph M. Perkins, of Eastland, district program chairman, was present and a splendid program was arranged for the afternoon with Mrs. Bard W. Paul of Dallas, state president, as principal speaker. The program will follow a luncheon, served in the hotel at noon.
 A fine arts program was planned for the evening; a well known pianist and violinist are among those named on the program. A

community sing-song will be another feature of the evening. The public will be invited and urged to attend.
PRESBYTERIAN GROUP IN BUSINESS MEETING
 First Presbyterian women's auxiliary met at the church Tuesday in a business meeting, with Mrs. Homer Slicker in charge. Mrs. A. E. Jamison brought the devotional and "Rendering to Him the Fruits in Their Season" was discussed. A hymn, "Oh, for a Closer Walk with God," was sung by the group. Sentence prayers were offered by Mrs. C. H. Fee, Mrs. Alex Spears, Mrs. Gary L. Smith and Mrs. E. McCracken. A prayer for peace was offered by Mrs. W. W. Wallace.
 Minutes of previous meeting were read by Mrs. Yancey McCrea and approved by the body. Reports for various causes were made, as follows: Foreign missions, Mrs. C. H. Fee; home missions, Miss Willie Word; Christian education and ministerial relief, Mrs. W. W. Wallace; religious education, Mrs. Gary L. Smith; spiritual life, Mrs. A. E. Jamison; circle reports were given by Mrs. Alex Spears, chairman of circle one; Mrs. R. M. Pentecost, circle two, and Miss Willie Word, circle three. Mrs. Gary L. Smith gave a report of the conference at Sweetwater.
 The auxiliary decided to sponsor filling a downtown window with pictures of men and boys enlisted in various branches of the government. Committees were appointed to receive pictures for the purpose. The meeting was dismissed with prayer by Mrs. C. H. Fee.
 Members attending were Mrs. J. E. Coleman, Mrs. Willie Bogan Dunne, Mrs. Abbie Daniel, Mrs. C. H. Fee, Mrs. O. Gustafson, Mrs. John Garrett, Mrs. B. S. Huey, Mrs. H. L. Jackson, Mrs. A. E. The cellar is 8 x 12, walled with brick and plaster, with cement top and floor.
 Ventilation is supplied by two openings, one eight inches from the floor and the other at the top. This allows a cool current of air to pass through the pantry shelves, even when the door is closed.
 There is 180 feet of shelving space in the pantry and Mrs. Walker has 425 quarts of fruit and vegetables stored there. There is ample room for storing dried fruits and empty jars.
 This Eastland county homemaker, and many like her, are making a great effort for victory on the home front.

DAUGHTERS OF WESLEY ENJOYED LUNCHEON
 The daughters of Wesley of the First Methodist church Sunday school met in the home of Mrs. Joe Wilson Wednesday for a spend-the-day visit. A covered-dish luncheon was served at noon. Mrs. M. D. Paschall offered the invocation.
 The afternoon was spent in conversation and needlework. Those enjoying the day together were Mrs. M. D. Paschall, Mrs. W. H. Hurd, Mrs. M. A. Northrup, Mrs. W. J. Donovan, Mrs. W. W. Manning, Mrs. McGill and Mrs. Wilson.

REMINDS:

"Have you got a penny?"

"Of course! Everyone has, now that there is so much spending through government borrowing. But—this penny. To a child, it means a piece of candy. Or a stick of chewing gum. Or ten pennies will buy a WAR STAMP.

"But in the average home—do you know what this penny will do?"

"Your penny will run a sewing machine for an afternoon. It'll make twenty slices of toast. Or it'll operate the electric refrigerator MORE THAN FIVE HOURS!

"Hmmm. Your penny packs quite a punch, doesn't it?"

"The men and women who manage and operate the West Texas Utilities put the punch in the pennies you spend for Electric Service. They're doing a REAL job under our American system of FREE enterprise. On their own initiative and under public regulation, they have been able to plan, produce and supply YOU with MORE electric service at LESS cost.

"Their efficient business methods have given the average West Texas home twice or three times as much electricity for about the same cost as ten or fifteen years ago.

"Today—well, it's ABOUT THE ONLY HOUSEHOLD ITEM THAT HASN'T GONE UP.

"Your penny today—in wartime—buys as much electricity as it did before the war and much heavier taxes began, and over twice as much as it did just ten or fifteen years ago!"

THE LAST MAGIC CHEF MADE-- TAKE GOOD CARE OF YOURS

In December, 1941, the American Stove Company, manufacturers of MAGIC CHEF, announced their wholehearted cooperation with the government to help win the war. They meant it.

On account of the demand for metal to aid in this war preparation, and the need for industry to participate in war munitions manufacturing, the company made its last MAGIC CHEF in July of this year.

The great plant had been remodeled for war munitions manufacturing—the making of airplane flares, after more than a year of preparation for the work, and through an expenditure of many thousands of dollars.

GIVE YOUR RANGE THE BEST OF CARE-- DO NOT USE THE OVEN FOR HEATING!

It behooves all housewives to give their ranges the best of care. No telling when you can buy another. Your range is the result of a cooking development gradually going on through the centuries. It is a long step in advance of the open fire or crude flat rock cooking of the savages.

Your fine range was never intended as a heating element. It was not built to radiate heat as a warming device. Conserve its fine efficiency as a cooking appliance by giving it the best of care.

WE WILL BE GLAD TO COOPERATE WITH YOU IN ANY WAY TO PROLONG THE LIFE OF YOUR RANGE. DON'T FAIL TO CALL US IF WE CAN HELP YOU.
