HEAVENLY LOAN

"Who gives to the poor," says the book of Proverbs, "lends to the Lord, and He will repay it unto him again." Whether that be considered as a definite promise or merely a poetic expression of what seemed true to King Solomon, the fact remains that nobody ever felt any sense of loss after digging into his purse to help till his Community Chest.

An ancient Roman saying, "He gives twice who gives quickly," is especially true in case of sudden need. This year everyone is asked not only to give quickly but also to give liberally, twice as much as last year. For this year the Community Chest is turned, in most communities, into a War Chest, in which sudden and suffering peoples of the occupied countries will share. Lend to the Lord quickly, and twice and pressed down, and running over. It may look like a lot of money to take out today, but once paid in, it will soon be forgotten and only the righteous glow of having helped somebody will remain.

YOUNG SOLDIERS

It may be assumed that most of the boys in the upper high school and lower college classes are not very enthusiastic just now about dropping their school work and entering the army. They are as patriotic as anybody. But it is sad to face the breaking of home and school ties and plunge into a new, strange world, not knowing when or whether they will ever be able to return to their studies. Arrangements will doubtless be made, however, to ease most of the younger men at the shipping point between high school and job or college.

The boys of this generation fill all their seeming reckless, are good patriots and good sports. They seem to have grown up in the most part, almost literally without fear. They will carry in to the war the toughness of mind and body that they have acquired in the school room and in the athletic fields. Regardless of the seeming frivolity of any of them, nobody need be surprised if they prove to be the best soldiers that have ever fought under the American flag. They know what is at stake, and there is no need in them the determination to win.

INVASION

Not since the War of 1812 has the soil of American homeland been attacked by an invader. Yet this war may see just that, warned Maj.-Gen. Sherman Miles in an address at Boston. He said: "Hitler has in the United States and particularly in New England, the most profitable target he ever had, for this country now is the arsenal of democracy. He is a gone-goose if the wheels are allowed to keep turning, and let us give him credit for sense enough to know it."

Surprise and speed are his principal elements, whereby he hopes to achieve confusion. That is the main thing for us to prevent. We must be prepared to defend the country against unpredictable attack, probably by fifth columnists, parachutists or commandos. They will be small but determined and highly trained bodies of men."

A hit-and-run invasion is by no means improbable. Before Hitler finally throws up the sponge, he may try everything once.

CAR THRIFT

Government control tightens around the automobile traffic that used to be as free as the service-station air. Never, perhaps, have Americans been pushed around and restricted in their operations as they are going to be now, while the rubber crisis lasts. And they will have to grin and take it. Easy-going Uncle Sam, when he cracks down in an emergency, can be tough. It is going to be pitiful (?) to see all those millions of citizens held not only to 35 miles an hour

but to 55 miles a week. That is only 18 miles a day. It may even become worse than that, in all but essential driving cases, before it gets better.

Fortunately a nation of rubber-masters is at last beginning to take the situation seriously. You can see them, by thousands, as they park their cars, pausing to take a sad last look at the vanishing tire-tread. They begin also to watch the speedometer and count the miles in tens, or even in ones, instead of thousands. And that is good for both tires and souls.

Sweetest Day is announced as a day on which to buy candy. For most Americans the sweetest day would be that which witnessed another bombing of Tokyo.

With unnecessary travel discouraged or impossible, homing and roaming, will soon be the order of the day.

It's too bad, all these domestic straps about what to scrap.

Time to buy another Bond. Brother—also Sister.

OPEN FORUM

Good Citizen Editor Daily Press: Have been reading your articles about the scrap metal collection. You can tell the public of Eastland county and any one else that reads your nice paper, that I, Jesse Penn, am doing everything I can to help win this terrible war. I have already had trucked in from my ranch as much as 15 thousand pounds of scrap iron in the way of old tractors, old car engines and everything that will enter war material. I always do my part in everything that is honest and right; have lived a good life and am not ashamed of it. JESSE PENN.

speech-making and fun rounded out a happy evening of get-together enjoyment for both hosts and guests. Chief Police M. L. Perdus, armed with a fierce looking knife, that would put to shame the most barbaric sword of the ancient Turk, led the committee which carried the 340 pounds of meat for the event. Like the ancient cup bearers who tasted of the wine and food to show that it was not poisoned, H. A. Bible, Joe Clements, J. R. Burnett, Bob Winston, F. E. Shockley and a few others, gnawed the bones as they cut the meat into convenient chunks for serving. The wives of the hosts had cooked numerous delicious cakes for the occasion, while black coffee, ice water, onions and pickles flowed freely. At the close of the meal, it was announced that A. D. and Jack Anderson, of the A. G. Motor company had sent out ice cream for the crowd. Following the

of the group Mayor Berry had charge of the program, which began with readings of three Texas poems by Mrs. Paul Woods in her own individual, unimitable way, followed in a grand climax with Larry Chittendon's "Christmas Ball in Old Anson, Texas," with musical variations by Harry Schaefer and Ernest Hittson. Mrs. Woods was unusually good in these renditions.

Mrs. A. J. Long of Cochise, Ariz., passed through Cisco Thursday night on one o'clock train with the body of her husband who died in Veterans hospital at Muskogee, Oklahoma Monday. She was accompanied from Cisco to her home in Arizona by her mother, Mrs. F. L. Wimberly of San Marcus. Mrs. Wimberly was staying at the home of her sister, Mrs. H. J. Woolbridge.

Postmaster Luther McCrea hands us the following postal receipt report for April, 1936. Receipts for April 1936, \$2,122.97; for April 1935, \$1,879.92; a gain of \$143.05; a percentage gain over last year for the same month, of 13 per cent. The sale of baby bonds totaled, \$8,081.25, with a value at maturity of \$10,755.00. Since postal receipts usually reflect the economic condition of the country, Cisco apparently, is well on the road to complete recovery.

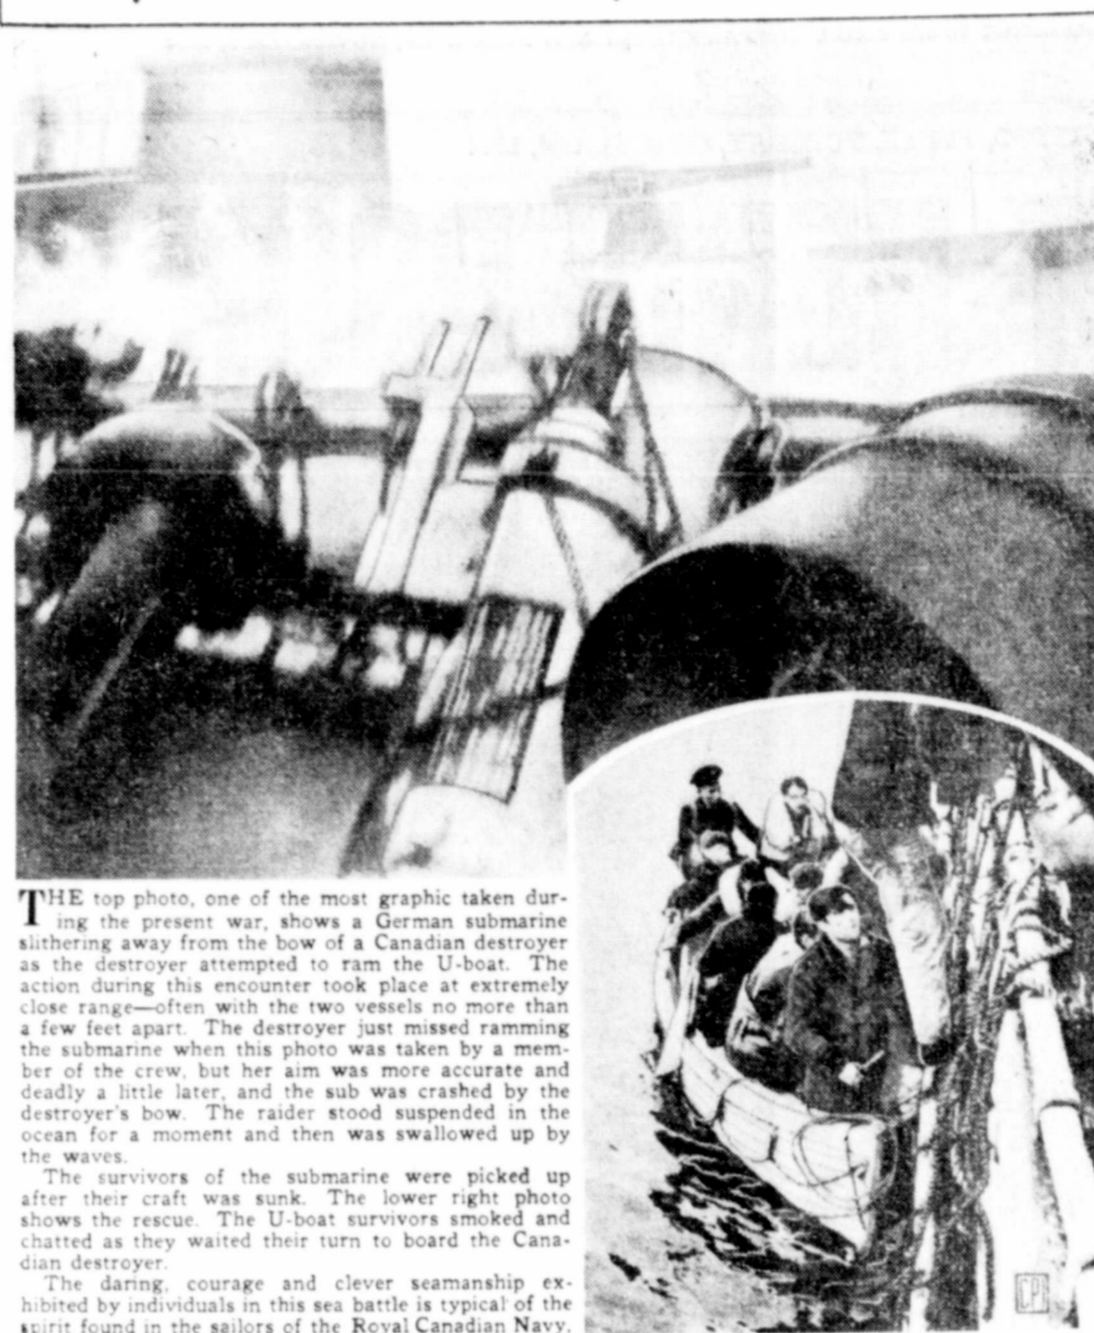

It was mentioned in the Cisco Daily News yesterday that Mr. Yates had in his possession a one-cent piece dated 1835. Connie Davis read the item and told us this morning that he had a 25-cent piece in his possession dated 1823, which would make it 111 years old. The coin is about mid-size between our present quarter and half-dollar. The date is perfectly plain, evidently not having circulated very much. He also has a half-dime dated 1853. Mrs. Davis has two coins of rare age, one, a one-cent piece, bearing date of 1820, and a silver dollar dated 1866.

Wesley Smith and Marston Surles displayed a bass caught in Lake Cisco early this morning, weighing four pounds and five ounces. Several other fish were caught but were below the legal size.

The City-Firemen picnic, forming a group of some 200 individuals, ate barbecue, home-baked cakes and all the trimmings, at the lake park Thursday evening, after which readings, music,

German U-Boat Rammed, Crew Captured By Canadian Destroyer in Fierce Duel

THE top photo, one of the most graphic taken during the present war, shows a German submarine slithering away from the bow of a Canadian destroyer as the destroyer attempted to ram the U-boat. The action during this encounter took place at extremely close range—often with the two vessels no more than a few feet apart. The destroyer just missed ramming the submarine when this photo was taken by a member of the crew, but her aim was more accurate and deadly a little later, and the sub was crashed by the destroyer's bow. The raider stood suspended in the ocean for a moment and then was swallowed up by the waves.

The survivors of the submarine were picked up after their craft was sunk. The lower right photo shows the rescue. The U-boat survivors smoked and chatted as they waited their turn to board the Canadian destroyer.

The daring courage and clever seamanship exhibited by individuals in this sea battle is typical of the spirit found in the sailors of the Royal Canadian Navy.

#### AMERICA IN 1950

##### IF THE AXIS WINS . . .

. . . you'll still be in a uniform, whether you're a man, woman, or child. And your immediate superior won't be a hard-boiled American sergeant—he'll be a Nazi gauleiter, a storm trooper or a swaggering Japanese militarist.

##### IF AMERICA WINS . . .

. . . you can be certain that your loved ones now in uniform will be back with you, working at their old jobs and enjoying life as only Americans can. And to get that form of life, you have to support your government now, by investing 10% of your money in War Bonds.

TALKS IT OVER WITH YOU

### "Mister, can you spare a dime?"

**YOU:** A dime? For a cup of coffee, I suppose. You know—nowadays a dime won't buy much!

**REDDY:** Oh, won't it? Well, you may be surprised to learn that most West Texas families buy enough electricity to run their homes for a dime a day!

**YOU:** You mean—the average electric bill is only 10 cents a day?

**REDDY:** That's right! That powerful little dime gives sight-saving light . . . music, laughter, world-wide news at the turn of the radio dial . . . refrigeration to keep food healthful and appetizing . . . power to wash and iron clothes . . . sweep the floor . . . and many other things. Yes, that one little dime eliminates a lot of drudgery . . . creates a lot of happiness in living.

**YOU:** U-u-u-m-mm. So it does! How is this big bargain possible?

**REDDY:** Good management! Efficient business management under free enterprise. The men and women who operate your electric company are trained and experienced people whose success depends on bringing the greatest service to the greatest number of homes at the lowest possible cost.

**YOU:** That's the American way . . . the West Texas way . . . of doing business!
