MORE WAR STUFF

All this scrap that the nation has been rounding up and melting down to throw at Hitler has surprised even the people who gave or collected it.

As a temporary pause comes in the job, energetic Americans naturally start looking for other usable resources. There is plenty of stuff available besides waste metal and rubber that can be used in this war.

GUADALCANAL

Yes, it's a small world after all. Who could have imagined, a year ago that in mid-October of this year the minds and hearts of the American people would be focused on one of the Solomon Islands in the southwestern Pacific, nearly half a world away.

How the world shrinks! Even Puck's wild promise to put a knife around it in forty minutes is outdone now, and we can talk to the antipodes in seconds.

TOO MUCH TALK

The president and the Washington correspondents have been getting into each others' hair lately. That is unfortunate because the times demand peaceful cooperation.

The correspondents' grievances about Mr. Roosevelt's solo excursion, while understandable to every news man, have seemed overdone.

The restoration of good feeling, however, is mostly up to the president. He has been rather tetchy of late.

GERMAN POVERTY

In Berlin, says the American correspondent Louis P. Lochner,

who recently returned from Germany. "It is impossible to get such items as toothpaste, shoe laces, jelly glasses, dust cloths, floor wax, typewriter ribbons, or clothes pins.

The scantiness and monotony of their diet are well known. Adequate clothing is impossible. In short, the great German people, following their crazy leader in a rash effort to conquer the world, are now reduced to living on scraps and rags.

CHANGING WORLD

Who would ever guess the author of this statement, written in the last war?

"For the Germans, those thieves and incendiaries who mutilate infants and rape women; for the Germans who are able to gloat over the sinking of a ship filled with innocent passengers; for the Germans who use poison gas, mercy would be treason to one's country and to mankind.

These sentiments were written in 1915 by an Italian named Benito Mussolini.

DETROIT.—America will get its flying cargo carriers many months earlier than some of the dates that have been projected in the widespread discussion of these giant sky-boats, it was indicated by a Nash-Kelvinator announcement this week. The company, releasing what it called "the first report on navy's flying cargo carriers," declared that great fleets of these flying boats will soon be sailing from Nash-Kelvinator assembly lines. Much of the "makeready" period, in which the company undertook the building of a new plant and the conversion of others for quantity production of the mammoth, four-motor Vought-Sikorsky for the U. S. navy, is said to be past. The flying boat ran across the Atlantic in a matter of a few hours, and it is reported to have the longest range of any aircraft of its type. Shown landing is the Vought-Sikorsky original, which will be virtually duplicated, from a size, performance and appearance standpoint, by the automobile-refrigerator manufacturer.

LEGION CONVENTION SAID FINE SUCCESS

The convention of the 17th district American Legion and Auxiliary, which met at Laguna hotel and root garden Saturday evening and Sunday, was well attended considering the heavy rains which hindered traffic. There were about 125 persons present for the reception Saturday night, and the business session of the two groups at 10 o'clock Sunday morning, attending the church service at the First Christian church, where the pastor, Rev. James R. Wright, preached from the subject, "They Were Expensible."

The address of welcome was by L. A. Warren and response by Albert Stell of Anson, post commander. H. R. Garrett was master of ceremonies and introduced the distinguished guests.

A vocal solo by Miss Billye Cole, accompanied at the piano by Mrs. Roy Cornfield, preceded the introduction of the principal speaker, Ben Denn, of Breckenridge, county attorney at Stephenville. An interesting talk by Corporal Sills of Camp Wolters closed the entertainment program.

The Legion and Auxiliary then went into their respective business sessions. Bill Wisdom, of Stephenville, district commander, presided for the Legion. Other distinguished visitors present were T. N. Carwell, 15th district commander, Abilene; John Gray, state service officer, Austin; E. M. TAKE PAY IN CHECK, SAYS THE PRESIDENT

WASHINGTON, Oct. 21.—President Roosevelt, who has had some experience with finances, offers this economy unit:

Take your salary in check, not in cash. The president explained to a press conference Tuesday that when he was a navy department executive in 1914 he took his pay in cash, put it into his pocket and later did not know where it went.

Complaints began to rise at home about paying the grocery bills, he added, so he began taking his salary in check and depositing it in the bank. He withdrew about \$5 for his own use each week.

Furthermore, the president added, the person getting paid by check is more likely to buy war bonds than one who gets his salary in cash.

TWO SOLDIERS CERTIFIED FOR ABSENTEE VOTE

Two soldiers have been certified to R. V. Galloway, county clerk, as having been mailed ballots for absentee voting, according to a communication from W. J. Lawson, secretary of state, who advises the county clerk that his action was mandatory. The secretary of state said the attorney general had given no opinion as to the constitutionality of the absentee soldier vote, nor did he pass on the matter of the right to count these ballots mailed to absent soldiers; that the counting or not counting of the ballots was left to local boards.

Those to whom absentee ballots have been mailed included Earl Lee Alpine, Cisco, and Jack Warren Brown, Eastland.

TENTH SEASON OF LUTHERAN HOUR, OCT. 25

Tenth season of the Lutheran hour will begin Oct. 25 over 208 stations of the Mutual Broadcasting system and 23 independent stations. Local airing will be at 3:15 p. m. each Sunday on KFJZ. Short wave, foreign and electrical transcription broadcasts bring the total number of stations broadcasting the Lutheran hour to 391. Seven years ago only eight stations carried the program, says Rev. E. Steyer of the Lutheran community, south of Cisco. With the slogan "Bringing

Christ to the Nations" as its theme, the Lutheran hour has sought to reach the so-called "unchurched" masses.

This year the enlarged program seeks to reach also the men in the armed forces who are outside the influence formerly exerted by their home churches.

Dr. Walter A. Maier, an educator and not a clergyman, has been the regular Lutheran hour speaker since the inception of the broadcast. He is a full-time professor of Semitic languages at Concordia Seminary, and is generally described as "militant" and "twisted."

Widely known for his books on Christian marriage and the home, Dr. Maier has done outstanding work with young people.

JEHOVAH WITNESS GETS 2 YEARS IN PEN

GALVESTON, Oct. 21.—Judge T. M. Kennerly Tuesday sentenced Pete Butteccali, who identified himself as an ordained Jehovah's Witness minister from Fort Bend county and who was found guilty of violating the Selective Service Act, to serve two years in a federal prison.

TO THE RESCUE—This picture, taken from a neutral rescue ship, shows crewmen rigging ladders over the side as they approach a torpedoes and burning American tanker, which was attacked by what was believed to have been a Jap submarine off southern coast of Oregon in Pacific.

ATTACKERS SHIELDED—If the enemy can't see an attacking force, they can't very well drive it off. That's the idea behind these maneuvers during which low flying planes lay smoke screen before advancing American troops "somewhere in England."

Certainly, ranges are rationed

Here's why:

Range factories are making War Goods

IT'S a good sign, too, when you think about it. It means this country is bearing down on the war. Think of the guns, tank-plates, and airplane parts that American gas-equipment factories can turn out (some of the range factories had been making 550 ranges per day).

Take good care of the gas range you have. Gas ranges are for sale in the U.S.A. only to those persons who positively need them. (The same applies to Water Heaters).

Spoon Bread

This famous American recipe doesn't sound exciting, but it makes up with a spirited flavor and a high fragrance. Lots of vitamins, too.

1 cup boiling water — 2 teaspoons baking powder
2 cups yellow corn meal — 1 1/2 cups milk
1 teaspoon salt — 2 egg yolks
2 tablespoons butter or margarine — 2 egg whites

Pour boiling water over the meal, salt, and butter, stirring constantly. Let stand until cool. Add baking powder, milk, and beaten egg yolks, and blend well. Fold in stiffly beaten egg whites. Bake in a moderate gas oven (350 degrees F.) for 45 minutes. Serve immediately.
