AXIS TROOPS POUR INTO UNOCCUPIED FRANCE

Buying Was Brisk at the Cattle Yards, Probably Due to Nippy Weather

The brisk weather may be something to do with it, but at any rate trade was very brisk at the Cisco Livestock Exchange Tuesday afternoon, when sales amounted to about \$4,500. Buyers were selling and everyone seemed to be buying, according to Secretary Paul Booth.

COY WARREN IN TEXAS U.-T.C.U. GAME SATURDAY

AUSTIN, Nov. 11.—A sophomore, who has been named Coy Warren, will play for the University of Texas against the Texas College of Commerce and Business Administration on Saturday. Warren is a member of the varsity football team and will play at the University of Texas stadium in Austin.

COY WARREN

Warren, who plays the game "because I enjoy every bit of it, from ball handling to tackling and blocking," was a standout member of the Longhorns' junior edition. The Yearling, last season, stepping out very well in the three-game freshman schedule. Warren, who has been credited with one blocked punt in a touchdown against Kansas State in the second game of the Longhorns' season, has also seen considerable action in the Arkansas game at Little Rock and in the Corpus Christi Naval Air Station game here at Austin. He is expected to see action against the Frog Saturday.

Warren is a feet ballback who works behind Ken Matthews and Max Minor at the snagback spot, and he provides the third line runner for that important position on the Longhorns' speedy reserve plays.

A conscientious student and a player with a great competitive spirit, Warren is considered one of the most promising men to come up from the freshman team of last season.

In addition to Warren, there will be eight West Texas boys on the 33-man squad which Coach D. X. Bible takes to Fort Worth for the important T. C. U. tilt. They include: Max Minor of Tahoma, Roy McKay of Junction, Audrey Gill of Sweetwater, Jack Schube of Electra, McCharles Huff, Max Bumgardner and Joe Parker of Wichita Falls and Stanley Mauldin, Amarillo.

EX-AUDITOR INDICTED

ABILENE, Nov. 11.—Mrs. Mary R. Yeaton, former assistant Taylor county auditor, was named Tuesday by the 104th district court grand jury in 21 indictments charging her with fraudulent issuance of county warrants totaling \$7,025.

33 FIREMEN HURT

HOUSTON, Nov. 11.—Thirty-three firemen and one Coast Guardsman were injured while fighting a four-alarm fire at the Schulze-Uno department store early today. Damage is estimated at \$500,000.

PUBLIC CAN AID GREATLY

The postoffice department, says L. H. McCrea, Cisco postmaster, now is starting the most gigantic task in its history—the movement of a deluge of Christmas parcels, cards and letters while maintaining the regular flow of millions of pieces of mail daily to and from our armed forces all over the world.

Indications are that the volume of Christmas mail will be the largest on record. Already in September, latest month for which figures are available, retail sales had reached a level second only to the record month of December, 1941, according to the department of commerce. And sales are rising. Such heavy purchases also presage heavy mailings. If thousands of our soldiers, sailors, marines and civilian friends are not to be disappointed at Christmas time, the public must cooperate by mailing earlier than ever before and by addressing letters and parcels properly. The best efforts of the postoffice department alone cannot be enough, in view of wartime difficulties faced by the postal system. The public must assist.

About 25,000 experienced postal workers already have been taken by the war services. Arrangements are under way to add thousands of temporary personnel to postal staffs, but this man power is hard to find and is inexperienced. Facilities of railroads and air lines are heavily taxed by movements of huge quantities of war materials and personnel. Extra trucks are almost impossible to obtain. Winter weather, hampering transportation, is beginning.

The freemailing privilege granted to members of the armed forces has raised their mailings some 30 per cent, it is estimated. Expansion of those forces also is adding rapidly to the postal burden.

The deadline already is past for mailing gifts to army and navy personnel overseas with assurance that the parcels will arrive by Christmas. The New York postoffice reports that in late October, 350,000 such parcels were handled daily in that office alone.

The postoffice department is making strenuous efforts to avoid such a terrific jam as it faced in 1918 under similar conditions, during the First World War. It can succeed in those efforts—and avoid many heartaches for its patrons—if the public will cooperate by mailing early.

BRIEFLY TOLD.

Private Curtis Rhone of Camp Wolters spent the weekend here as a guest of his sister, Mrs. J. S. Mobley, and her daughter, Miss Mary Sue Mobley.

Mr. and Mrs. Russell Dill and children, Beth Lynn and Gene of Rising Star, visited in the J. S. Mobley home Sunday.

Mrs. Ralph Glenn and Mrs. M. Elliott are spending today with relatives in Abilene.

Mr. and Mrs. H. H. Tompkins went to Ranger this afternoon to attend the football game—Cisco versus Ranger.

Miss Ruth Hibbert left Monday for Abilene, where she is employed by the Western Union Telegraph company.

OFF FOR GUADALCANAL—Old Glory leads the way as U. S. troops review before embarkation to aid embattled U. S. Marines in Solomons. They arrived in time to help devil-dogs stem Jap invasion thrusts.

NAVY CRUISER DEFEAT INEVITABLE FOR AT O'DANIEL NEXT MONDAY NAZIS, JAPS' TEEN-AGE BILL

D. L. Fenter of the Eastland navy recruiting sub-station was in Cisco today and called at the Daily Press office.

The visitor announced that a group of navy recruiters made up of medical examiners and yeomen will be in the county next week and in Cisco and Rising Star Monday. They will visit the cities of Ranger and Eastland Tuesday.

Yeoman Elliott McClung of the publicity department of the navy recruiting service, Dallas, also called at the Daily Press office following Mr. Fenter's visit. McClung said the recruiters would be in Rising Star Monday morning and would spend the afternoon and night in Cisco. At 8 o'clock Monday night a free picture show will be given at the city hall, McClung stated. The traveling enlistment office is a streamlined trailer, which will "dock" in the 600 block on D avenue on its arrival here from Rising Star Monday afternoon.

This group, said Mr. Fenter, will have the facilities to give navy applicants their final physical examination, making enlistment complete, even to swearing the applicant into the U. S. navy. Said Mr. Fenter: "Here is a chance for Eastland county men to complete their enlistments right at home. Any man desiring to take advantage of this convenience may contact the full-time recruiting office in the basement of the Eastland postoffice and make out application, in order to speed things for the visit of the cruiser crew."

In October Eastland county led in other counties of this district for volunteers in the U. S. navy, and is well on the way for top place in November.

Men are still eligible for enlistment who have received their final induction orders for the army. Help make and keep the U. S. navy the best navy in the world. The American navy is made up entirely of volunteers—men who want to fight with the navy.

WASHINGTON, Nov. 11.—President Roosevelt, honoring the dead of past wars on this Armistice Day, declared at Arlington National Cemetery Wednesday that the German Nazis and their "appropriate associates, the Japanese," face "inevitable final defeat."

"The forces of liberation are advancing," the Chief Executive asserted, adding that the "opponents of decency and justice have passed their peak."

Roosevelt made this forecast of Allied victory after placing a wreath on the tomb of the Unknown Soldier of World War I. Looking on was America's 82-year-old leader-hero of that conflict, Gen. John J. Pershing.

ACTION THURSDAY

WASHINGTON, Nov. 11.—Administration leaders expect swift senate approval Thursday of the "teen-age draft bill, stripped of a controversial clause which would have required a full year's training before a soldier under 20 could be sent abroad to fight."

LIGHT SENTENCE

FT. WORTH, Nov. 11.—Morton Joseph Kramer, 37, was sentenced to two years in prison by Federal Judge Davidson after he pleaded guilty to charges of impersonating a federal officer. During the trial he admitted having married 10 times without getting any divorces.

BARNEY GOOGLE ARTIST.

NEW YORK, Nov. 11.—Billy de Beck, 32, world famous cartoonist and creator of the comic strip "Barney Google" for King Features Syndicate, died at Lenox Hill Hospital Wednesday after a long illness.

Big Boy Benito will now postpone again that triumphal entry into Alexandria.

General Montgomery had the right method—mow 'em down, then mop 'em up.

WASHINGTON, Nov. 11.—Senator W. Lee O'Daniel of Texas stands accused by Secretary of War Henry Stimson as a man who doesn't seem to have heard of Pearl Harbor, and who has a "pre-war mentality."

Stimson did not mention O'Daniel by name at his press conference, but he struck out with all he had at those who foisted the amendment on the "teen-age draft bill. And there could be no doubt of Stimson's remarks being pointed at O'Daniel among others, because it is the O'Daniel amendment he criticized so severely.

The O'Daniel amendment requires that 18- and 19-year-old men must have a year of training before they can be sent into combat areas abroad.

CLEARING THE JUNGLES.

MACARTHUR HEADQUARTERS, Australia, Nov. 11.—Allied troops, fighting a desperate Japanese force in the thick New Guinea jungles around Oivi while Allied aircraft attacked the only remaining path of withdrawal for the enemy, are bringing their battle to a decision, General MacArthur's headquarters announced today.

PLEADS WITH FRENCH

LONDON, Nov. 11.—Gen. Charles de Gaulle called on the French people Wednesday to join the fight against Hitler. "Seize the few hours which still are left to you to come, if you can, to join those who fight by the side of the Allies," the Fighting French leader said in a broadcast over BBC.

CATTLE MARKET.

The Fort Worth livestock market today was fully steady on all classes of cattle and calves. Hogs were fully 25c above Tuesday's best with a top of \$14 paid for most good and choice heavy butchers. The early packer top was \$13.85 while packers later were paying up to \$14 for good hogs. All classes of sheep and lambs ruled steady.

HITLER'S MINIONS IN RACE TO HEAD OFF U. S. DRIVE TO EAST FROM ALGERIA; YANKS GOING ON

LONDON, Nov. 11.—Adolf Hitler set Axis troops racing across the demarcation line into unoccupied France and French Corsica in an Armistice Day coup today and it was revealed that Nazi air troop transports and combat planes are pouring into Tunisia in Africa in a frantic race against American troops driving east from Algeria.

In blatant disregard of his pledges and commitments to France and over the feeble protest of Marshal Henri Philippe Petain, Hitler was launching a desperate bid to counter the American offensive in French Africa.

Developments:

1—Nazi troops poured across the demarcation line at dawn.

2—Italian troops were believed landing in Corsica, off the Italian coast.

3—German air-borne troops and combat planes were revealed to be landing in Tunisia—a troop movement which Allied headquarters revealed had been under way for some time.

4—American troops, speeding southeast from Algiers, were believed to be nearing the Tunisian frontier where they may clash for the first time with the Nazi army.

5—A dramatic tug-of-war was building up for the French fleet with the Allies appealing to French naval units to rush to Gibraltar and Hitler insisting that his move was designed to "protect" the French warships.

6—A French cabinet crisis of unparalleled magnitude appeared to be in the making with Chief of Government Pierre Laval apparently absent and possibly in consultation with Hitler and Benito Mussolini and Petain feebly protesting the Nazi moves.

Hitler, it was evident, was casting aside any further consideration for the Vichy government and making his decisions from a basis of plain military urgency.

With American troops rapidly mopping up French Africa and driving full tilt toward Tunisia, with his favorite general, Marshal Erwin Rommel falling back into Libya, beaten and battered, with the Allies on the verge of winning full control of the western Mediterranean seaways, Hitler appeared to be striving desperately to build up some protection against Allied assault on the Axis Achilles heel—the "soft underside of Europe"—France Mediterranean coast and the extended coastline of Italy.

Whether Hitler could get away with his full military occupation of France without touching off a massive uprising by French patriots was uncertain.

But every report from France indicated that the situation was tinder-tense. The Vichy government was appealing to the populace to remain calm, to refrain from listening to "false information." But there were indications that the Vichy government already was virtually adrift in a swirling sea of forces which were beyond its power to control.

From the military standpoint the dispatch of the Nazi forces to Tunisia seemed more immediately important than the southward push of Nazi troops within France itself.

Tunisia is the immediate objective of the American expeditionary

corps as soon as Algeria and Morocco are cleared up.

Military sources believed that the Nazi vanguard in Tunisia probably has instructions to stand off the Americans until Rommel can either reorganize his broken Afrika Korps for a new battle in Tripolitania or until the remnants of the once proud army can be evacuated.

A good politician should know where the people want to be led before he begins leading them.

The election went about like some of the prophets said it would, although some of the competing prophets said it wouldn't.

RETAIL COSTS OF FOOD ARE SAID RISING

AUSTIN, Nov. 11.—Retail costs of Texas food continued to rise during October, when prices of 10 items surveyed increased 1.9 per cent, according to State Labor Commissioner John Reed.

"This represents a very serious problem to the average person, especially since issuance of the price stabilization order by President Roosevelt under which most salaries will be 'frozen,' said Reed.

The commissioner declared that the overall cost of living in Texas has increased 17 per cent since April 1941, principally because of higher food prices.

Absence of bacon, lamb, canned tomatoes, spinach, and pork and beans in some of the stores surveyed in 19 Texas cities was noted for the first time in October. Reed added. The cost of 59 food items covered by price ceilings increased an average of 0.63 per cent, Reed said, while 26 items for which no ceiling had been set averaged 3.07 per cent more.

ALICE NOW SHOWING

THE REMARKABLE ANDREW. A Paramount Picture with BRIAN DONLEVY, WILLIAM HOLDEN, ELLEN DREW.

ALICE THURSDAY FRIDAY

Whole nation is looking for elusive, mysterious Mister V! The woman who loves him keep track of him. Quick! Miss him in this dynamite picture!

I'LL LOVE MANHATTAN. ESTAPO HATES. ESLE HOWARD. 'Mister V'.

CLASSIFIED

FARM FOR RENT—200 acres, half in grass. Phone 338. 51

WANTED—Quilting or crocheting to do. Table cloths and quilts for sale. Address Mrs. Madeline Brooks, 1000 E. Sixteenth street, route two, Cisco. 53

BIDS WANTED—The City of Cisco will receive bids for grass leases only on all city-owned lands until 5:00 o'clock p. m. Monday, November 16, at the office of the City Secretary. Leases will be for a period of one year only. 52

SPHIRELLA Corsetiere. Mrs. M. E. Goldberg. 70

FOR RENT—Furnished apartment, bells, paid, garage, 297 Lavigne. 49

FOR SALE—Five-room house, close in. Frank Threat. 50

FOR SALE—Water-cooled gas Electrofax, been stored two years; \$25. Mrs. E. P. Whitaker, Putnam. 50

FOR RENT—Three-room apartment, private entrance; private bath; garage; on payment, close in. 701 W. Ninth. 52

WANT TO BUY—Reasonably good moveable 4- or 5-room house, or would buy an old building that could be wrecked and the material used for out buildings. O. C. Stewart, Wickett, Texas. 50

FOR SALE—Durham-Jersey milk cow, extra good quality. Camp Hancock, Cisco. 50

Prosecutor: "Now tell the court how you came to take the car." Defendant: "Well, the car was standing in front of the cemetery and I naturally thought the owner was dead."

Buy bonds. They will keep you out of jail next March when taxes come due.

COUNTY CLERK SHOWS TOTAL OF 80 BIRTHS

MRS. ED HUESTIS HOSTES TO CIRCLE

Circle one of First Methodist women's society of Christian service met in the home of Mrs. Ed Huestis Tuesday afternoon with Mrs. J. T. Fields presiding.

An article bearing on the subject was read by Mrs. Philip Pettit; Mrs. C. A. Shockey talked on "Forgiveness" and Mrs. J. T. Fields gave the highlights of the WSCS bulletin.

A brief business session was held, after which the meeting adjourned with prayer. At the conclusion of the social hour a refreshment plate was passed to Mrs. Philip Pettit, Mrs. C. A. Shockey, Mrs. Leslie W. Seymour, Mrs. J. T. Fields and the hostess.

YOUNG COUPLE MARRIED SUNDAY

Miss Mildred Louise Lawrence of Carroll, N. M., became the bride of Truman Evans of Cisco at 9:30 o'clock Sunday morning. The ceremony was performed by Rev. Russell Dennis, pastor of the East Cisco Baptist church, in his home.

Mr. Evans is the daughter of Mr. and Mrs. Lloyd Brown of Carroll and has visited in Cisco frequently and has many friends here, where the family formerly lived.

Mr. Evans, son of Mr. and Mrs. Hardy Q. Evans of Cisco, was born and reared here and attended Cisco high school. He is employed in the mechanical department of the Cisco Daily Press.

ANNOUNCEMENT OF RECENT MARRIAGE

Mr. and Mrs. J. H. Hyatt announce the marriage of their daughter, Miss Betty Sue Bryant, to Corp. Glenn Hightower of Chickasha, Okla., which took place there on October 31. Rev. Gilbert of that city officiated in the rites.

Mr. Hightower was born and reared in Cisco and attended the local high school. She left Tuesday night for Watertown, N. Y., where she will join her husband, who is stationed there.

48-HOUR WEEK 45-MILE SPEED FOR TRUCKERS

CHICAGO, Ill., Nov. 11.—Governmental assistance in solving wartime problems besetting the oil industry was requested by the Petroleum Industry War council, which recommended:

Extending the regular work week from 40 to 48 hours as a step toward solving the manpower problem.

Increasing speed limit for oil transport trucks from 35 to 45 miles an hour.

Releasing sufficient truck tires by rationing boards to keep petroleum trucks rolling.

Fair and adequate price for crude oil, rather than government subsidies, as a means of maintaining production and increasing oil reserves.

On the truck speed question, the council said the reduced speed had cut petroleum deliveries, required more men and equipment, increased fuel consumption and tire wear and was causing greater wear on almost irreplaceable transmissions, brakes, gears and clutches.

Our new production motto is "Faster and better." If only Washington would apply this to bureaucrats.

A want ad will rent your rooms.

Turkey Time Tradition

Despite the war, hostesses are keeping traditional American hospitality alive. Holiday entertainment is simpler this year, of course. But it's just as gracious as ever when typically American refreshments such as bottled carbonated beverages, nuts and fruits tempt guests.

ARMISTICE DAY Honoring Our Service Men Who Have Left Their Business and Homes To Fight Until the VICTORY IS WON! LET US HAVE FAITH THAT RIGHT MAKES MIGHT; AND IN THAT FAITH LET US TO THE END DARE TO DO OUR DUTY AS WE UNDERSTAND IT. Lincoln OUR DUTY IS PLAIN... The path of our duty lies in keeping faith that the cause we fight is a just one and that we will be victorious. Back of that faith is the courage that will make victory inevitable. Our duty lies in bolstering up that courage so that it remains high even through set backs. We must believe in our leadership, in the strength of our armed forces, in production efforts of business. If we do our duty of believing unflinchingly, we cannot be anything but successful. Cisco Gas Corporation

Two-Man Jap Submarine on War Bond Tour

Navy turns over midget undersea craft, pictured above at left, as it was captured on fateful December 7, 1941, at Pearl Harbor, to Treasury Department to promote sale of War Bonds in hundreds of cities from coast-to-coast. Its visit to this state will be under the direction of our War Savings State Administrator instead of a Tokio war lord. These two photos tell their own story of how the sub's stab-in-the-back venture backfired.

WASHINGTON, D. C.—Millions of Americans will have the opportunity to study at close range the midget two-man Japanese submarine, which was captured during Japan's sneak attack on Pearl Harbor on fateful December 7, 1941, the Treasury Department announced today.

Mounted on a huge truck and tractor rig, the submersible, nicknamed "The Tojo Cigar" by its captors, has been turned over to the War Savings Staff for a coast-to-coast tour to promote the sale of War Bonds and Stamps. Along with War Bond rallies there will be naval recruiting activities in communities in which the submarine will be shown.

Starting in San Francisco, the tour winds through California and then heads eastward by way of the Southwest. Parts have been cut in its sides and walkways installed to give the public a good view of the deadly craft.

The undersea craft, which was captured on Oahu Island after it had vainly fired one torpedo at an American cruiser, "The Tojo Cigar" was seized as he attempted to swim to safety. The other member of the crew drowned.

The Tojo Cigar was still carrying the 185-foot torpedo when captured. It had a cruising range of only 200 miles. Its construction indicated it was truly a suicide ship. Launched overboard from the deck of a large ship by cranes, it was never expected to return to the mother vessel.

The midget submarine, 44 feet long, has a beam of 10 feet and a conning tower 4 1/2 feet above the deck. The hull is constructed of one-quarter inch plate, and is divided into five compartments, two of which are occupied by the electric batteries used for propulsion. The hull and conning tower are streamlined and painted black.

The submarine was propelled by electric motors only and had a designed speed of 24 knots. The conning tower of the submarine projects five feet above the top of the conning tower.

The tiny ship is an oversized sardine can. The batteries, electric motor, torpedoes, tubes and controls are packed in the four compartments for the teamman.

The ship carried emergency food rations which included water and some liquor.

The Navy has removed its engines and torpedoes for study.

TEXAS TO LEAD THE NATION IN SCIENTIFIC WAY

ASTIN, Nov. 11.—Texas will lead the nation in post-war scientific developments because of its abundant natural resources, Howard Bakken, science editor of the Associated Press, predicted in an address at the University of Texas.

Speaking before a journalism class, the science writer asserted that post-war radio and magazine writers could have a gold mine of scientific news to write about when the war is over, and added:

"I put Texas at the top of the list because an empire here has abundant natural resources—timber, gas, which yields innumerable uses, cosmetics, explosives and in other fields, petroleum and agriculture."

GOOD STENOS CAN GET JOBS IN WASHINGTON

The Federal government administration is looking for additional stenographers and typists for employment in Washington. Miss Ethel Moore, local secretary-in-charge of U. S. Civil Service examiners, said today that representatives of GSA will be in Cisco to conduct examinations in Abilene Friday, Nov. 20 at 10 a. m. Those applicants who successfully pass the examination will be hired on the basis of salaries of \$1440 per year.

Those applicants accepted for employment will be sent to Dallas for preliminary training of 30 to 60 days in the regional office of the GSA. Upon completion of this training program, applicants will be sent to Washington, D. C. They will be required to pass a GSA examination, which will have a bonus for them to stay.

Miss Moore pointed out that the standards of the civil service test have been lowered and that the minimum age limit for stenographers and typists is now seventeen and one-half years. There is no maximum age limit. "Here is a chance for stenographers and typists to secure jobs in Washington under the most favorable conditions and to do their part in helping to win the war," said Miss Moore.

All America Knows Budweiser... but Few Know This

THEY'VE PASSED THEIR 'PHYSICAL'-TOO

America's feathered and four-legged armies are very much on their toes these days. Yeast vitamins used in fortifying animal feeds have done wonders in recent years to better the quality and propagation of livestock and poultry. Did you know that the Home of Budweiser is America's biggest single source of these vitamins?

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

Endless research in making the world's leading beer has led to other products

- VITAMINS, B COMPLEX**—for manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.
- VITAMIN D**—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.
- BAKER'S YEAST**—We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread.
- CORN SYRUP**—many millions of pounds annually for America's candy industry.
- SYRUPS**—for food, table and confectionery uses and special syrups for medicinal purposes.
- STARCH**—for food, textile, paper and other industries—millions of pounds annually.
- REFRIGERATING EQUIPMENT**—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.
- DIESEL ENGINES**—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.
