COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool.

VOLUME XXIII. CISCO, TEXAS, WEDNESDAY, NOVEMBER 18, 1942 NUMBER 54

## U.S. AND BRITISH SEIZE KEY POINTS IN TUNISIA

### Ciscoans to Raise \$7,000 Thursday, Aid Uncle Sam and Cinch Nice Pay Roll

In acquiring the Women's Automotive Training school, which will open here as soon as the building now undergoing repairs is finished, Cisco will have the privilege of doing something patriotic and aiding in work looking to winning the war, and at the same time take for herself a pay-amounting to \$1,000,000 per year!

When Opportunity recently visited Old Mother Cisco dumped into her lap a husky young female infant, she might much joy to the old dame, who had begun to despair of ever having any part in the war activities which were poured into other parts of Texas.

But now the light of mother love is gleaming in her eyes and the energy that comes to any mother as she sees herself caring for her infant, has come to Cisco.

#### PREPARATION NECESSARY

Much preparation is necessary, however, before the lady can lay the young infant in the cradle and begin to bask in on the joy that comes to the mother as she sees the cradle and watches her baby grow into a still later blessing.

The cradle must first be made ready. It must be painted and to an extent be remodeled for the infant's safety. Fortunately Cisco has a cradle just right for the little girl that is to grow into a comfort and joy to its fond mother.

Opportunity had already visited Cisco once before and posted in her back yard a discarded cradle, in the form of the C. & N. E. railroad roundhouse. At the time, Cisco wondered what she was going to do with it, but accepted gratefully because she thought it might come in handy some time. And it did come in handy.

Directors and members of the chamber of commerce met in conference last night to talk over plans for putting the cradle in condition and to confer as to what is already under way. The group heard Charles J. Miller, Mayor G. P. Mitcham, L. A. Warren, E. P. Crawford and others tell of plans for the hasty completion of the cradle to receive the baby girl at the earliest possible moment.

#### SPEED IS ESSENTIAL

Already workmen are busy. Mayor Mitcham, whose plan is, "Do it now!" said that plenty of carpenters, painters and day labor had been found, and that these men had entered into the spirit of working for the good of their town by asking only moderate wages instead of the present prevailing high scale of wages at project centers.

A concrete floor must be built at a cost of \$1,500, the plumbing must be fixed, sewer system, lighting, heating and paint and offices must be constructed—all of which will cost Cisco good money—but we will have a mighty cradle when it is all mended, polished and ready to go.

It will require \$7,000 to do the job, and \$3,500 of it must be raised by individuals through subscriptions, plans of which will be started at a breakfast Thursday morning at 7 o'clock, according to J. D. Lauderdale, president of the chamber of commerce and chairman of the finance committee appointed for this job.

The other half of the amount will be paid by the city.

"Raising this money should be no trouble," said one citizen at last night's meeting. "If we had been told some months ago that we could secure a million dollar payroll for Cisco by putting up \$7,000, it would have been raised within an hour; so why should we hesitate now, when we have the project thrown at us, provided we arrange to raise it within our own building, which merely needs this repair? And after the war is over we will still have the building, together with the use of about \$20,000 worth of funds that will form the nucleus for a mechanical school in connection with Cisco Junior College."

#### ALL SHOULD PARTICIPATE

Another man said: "Don't you remember how quick we once raised \$10,000 to bring the Cincinnati Reds here for winter training—when Bill Huey and the rest of us had the baseball bug? This is a cinch—if those able to do so will pitch in their part when the committee calls."

Donations have already started. The Cisco Gas company started off with a real handsome donation.

Other equally substantial subscriptions are expected and several men express the opinion that the necessary funds will be in sight by noon Thursday.

Following the 7 o'clock breakfast Thursday morning, the two-man teams will launch the subscription drive, as follows:

- C. M. Nevill and N. C. Huston.
  - Pete Nance and George Boyd.
  - J. R. Deen and Nick Miller.
  - Charles S. Sandler and A. E. McNeely.
  - L. A. Warren and A. D. Anderson.
  - Tom B. Stark and J. W. Slaughter.
  - S. H. Nance and Charles J. Kleiner.
  - G. P. Crawford and R. N. Cluck.
  - G. P. Mitcham and W. H. LaRoque.
- Directors and members present at last night's meeting were R. N. Cluck, E. P. Crawford, J. R. Deen, Dr. Charles Hale, C. E. Hickman, J. D. Lauderdale, T. J. McCarty, A. E. McNeely, A. B. O'Flaherty, L. A. Warren, Charles J. Kleiner, G. P. Mitcham and W. H. LaRoque.

### DISTRICT MISSIONARY INSTITUTE IN CISCO

Methodist pastors and laymen of the Cisco district assembled for the first meeting of the new church year in a district missionary institute at First Methodist church of Cisco Tuesday under the direction of the recently appointed superintendent, Rev. W. H. Cole.

Speakers on the program were Rev. J. D. Barron of Eastland, Mrs. M. H. Hageman of Ranger, Rev. J. A. Siefloff of DeLeon, Rev. Leslie Seymour of Cisco and Rev. D. A. Chisholm of Waxahachie, who represented the conference board of missions.

The afternoon session consisted largely of a round table discussion of plans for the year, with special emphasis on the Christmas offering for the Methodist home for orphans and on the general benevolent contributions of the church.

This meeting was one of a series being held in all the ten districts of the conference. They were held earlier than usual, because of the impending rationing of gasoline.

Mr. Seymour, local pastor, is district director of missionary work.

### GARRETT TOLD LIONS ABOUT WAR BUDDIES

A program consisting of a reading by Miss Golda Warren and vocal medleys by Misses Betty Mae Davis and Nadine Johnston, together with a talk on war buddies by Lion H. R. Garrett, which wound up with football reminiscences by others of the club, formed a very pleasing program at the Lions luncheon today.

Lion O. L. Stamey shone brightly as a pinch hitting tail twister, and Corp. Stanley Webb of Camp Wolters told something of his camp life and of the bad reputation he was getting from his buddies on account of his duties of waking the boys up each morning as bugler.

Other visitors were T. J. McCarty and Lion W. H. Cole, new superintendent of the Cisco Methodist district. Lion Cole was pastor of the Cisco church a few years ago and was an active and much loved Lion. He affiliates with the club here again.

Lion Stamey announced the football game here tomorrow with the Eastland Mavericks, which he said was a sort of preparation for Breckenridge next Thursday.

Lion G. P. Mitcham announced that he had received a message this morning from J. R. D. Eddy of Austin asking if the building could be gotten ready for occupation by the women trainees by December 14, and Mitcham said that after consulting with various committees, he had replied to Mr. Eddy that the building would be ready by that date.

Starting today, the Cisco Daily Press is being sent to Private Howell R. Clark, Blackland Flying School, Waco. Desiring that his son keep in touch with Cisco affairs, the father, A. L. Clark, ordered the local daily sent to his soldier son.

LUMBER MISS—Eighteen-year-old Norma Webber, one of eight women employed at New England Timber Salvage Corp., Concord, N. H., uses a "pick pole" to bring in a log, at sawmill to which logs are floated downstream from timber camps. Girls are filling gaps in labor ranks caused by inductions.

### EASTLAND AND CISCO MEET AT CHESLEY FIELD

The football game between Cisco Lobos and Eastland Mavericks at Chesley Field tomorrow afternoon at 3 o'clock—will be a hard-fought affair.

An added incentive will be the fact that the receipts for both teams will go to purchase jackets for the teams.

"Of course," said Coach Monroe Sweeney, "with this added incentive, no self-respecting player will fail to do his best to wind out the afternoon with a good showing."

Coach Sweeney added that fans may expect thrills a-plenty. The old-time rivalry between the two cities always insures a game worth the money, regardless of who cops the long end of the score.

### CISCO TO HAVE XMAS TREE BUT NO GAY LIGHTS

There will be no special illumination of Cisco streets for Christmas, it was decided at the chamber of commerce last night following a report by Secretary P. R. Warwick that surrounding cities—albeit obeying the general request of the government that such things be banned for the duration for a number of obvious reasons. As a compromise to those who must have some kind of Christmas reminder, a lighted, outdoor tree will be arranged for through the welfare association.

Candy will be given to children, as usual.

The smartest of men is fooled by self-interest. He sees what he wishes to see and believes what he wishes to be true.

INSIDE STUFF—Mrs. Laura Willey, 43, mother of four children, sharpens the teeth of Uncle Sam's war effort in the form of a lumbermill saw at Concord, N. H., where she's one of eight women employed.

#### DEATH OF LITTLE BOY

L. C. Nance, infant son of Mr. and Mrs. O. A. Nance of Cisco, died at 6 p. m. Monday in Ranger, from diphtheria. The boy was born December 9, 1939. Funeral was held from Green's funeral home at 3 o'clock this afternoon, with interment in Oakwood cemetery. Pallbearers were Jess Caffey, Leman Anderson, Bill Huestis, Paul Poe. W. Frank Walker was in charge of the music.

Our pretty niece used to have lots of character, but she ran through with it.

### TAKE TIME ON ALL EXTRA GAS APPLICATIONS

An urgent request comes from L. A. Warren and George Fee, Cisco members of the county gasoline rationing board, that no one go to Eastland in person, seeking a hearing on applications requesting additional gasoline—after they have received their "A" card from the Cisco board.

They urge that if one desires to fill out an application for additional gasoline, to do so, then mail it to the Eastland county rationing board at Eastland; but, in no case, take it in person.

The board will be very busy in its official capacity and much time will be conserved if applications are mailed, rather than carried in person, and action will be delayed, rather than hastened, if you do go, they said.

Do not use up tires and gasoline in this needless trip, but await your summons to appear before the board, should a hearing be necessary.

For convenience of local people, applications may be left at the Cisco chamber of commerce.

#### OPENS THE WAY

U. S. PACIFIC FLEET, PEARL HARBOR, Nov. 18.—Japan's naval defeat in the Solomon Islands, and its failure to oust U. S. forces from Guadalcanal Island, may have prepared the way for the long-awaited American drive northward through Japanese-held islands, well informed quarters said today. In recent operations the Japanese had established valuable observation posts in the Guadalcanal mountains, from which they could overlook American positions and report by radio to their headquarters. The first job would be to wipe out these observation nests; the next would be to throw the Japanese entirely off the island.

Brintley Thomas, son of Mr. and Mrs. Dick Thomas, writes his parents that he has been promoted to corporal. The young man is stationed at Wallace Field.

### HITLER SENDS ROMMEL BACK TO AFRICA TO TRY AND REORGANIZE HIS BADLY BATTERED FORCES

LONDON, Nov. 18.—U. S. and British paratroopers have seized key bases deep in Tunisia and advance patrols of the main Allied army under Lieut. Gen. Kenneth A. N. Anderson have thrown back Axis forces in the first vanguard action by ground troops, dispatches reported today.

British reports said Field Marshal Erwin Rommel had returned to Africa by airplane, after a conference with Adolf Hitler in Germany, in a desperate attempt to reorganize his shattered Axis army caught between Allied armies advancing eastward from Algeria and westward through Libya.

Anderson's 1st British Army, reinforced by U. S. Army mobile units, was reported driving rapidly into Tunisia behind three spearheads on a 60-mile front in the northern coastal area while a separate force struck through the interior toward the Gulf of Gabes to cut off the Axis line of supply and retreat into Libya.

Roundabout radio reports, purporting to emanate from Vichy, said a French military mission had left Dakar for North Africa, presumably to negotiate the surrender to the Allies of the vast West African territory which still is nominally loyal to the Vichy regime.

This would give the Allies, without a struggle, the key areas along the West African coast from which German submarine raids on Allied shipping to South Africa, the Middle East and India could be prevented.

A United Press dispatch from Oran, Algeria, filed Saturday, reported also that French authorities were then negotiating with the American army in the Oran zone to join the Allied forces for combat duty.

In their main Tunisia drive, the Allies were following a perfectly timed program under which:

1. The British and American paratroopers, carried in U. S. Army transport planes protected by American fighters, were being landed at many points in Tunisia to seize and hold airdromes and other bases.

2. The paratroopers were sending out patrols to scout Axis positions and reportedly by field wireless to the main army the strong points and concentration points to be attacked.

3. The main army was moving ahead in three main spearhead columns, probably led by U. S. Army mobile units, toward Tabarka, just inside the Tunisia border on the coast; Souk El Arba, road junction on the main highway to Bizerte and Tunis, and the east coast of Tunisia somewhere around the Gulf of Hammamet.

4. A second force was believed to be already inside Tunisia after having jumped off from Tebessa, 100 miles inland on the Algerian side of the border, and to be heading for the Gulf of Gabes at a point about 100 miles from the Libyan border.

5. The U. S. 12th air force, under Brig. Gen. James H. Doolittle, was advancing its air bases with amazing rapidity as the 1st army drove ahead. It was apparent that its crack ground forces were moving right with the army and preparing each airdrome taken for immediate use.

By this swift advance of the air force bases, it was apparent that before long the American and British air forces, operating from the west, would be in contact with the British Imperial air forces following close behind the 8th army in Libya to put an airplane umbrella over all remaining Axis-held position in Tunisia and Libya and make attempts to reinforce them from Sicily suicidal.

Already, Berlin was offering alibis to explain the dominance of the Allied air forces. The official News Agency, in a dispatch broadcast by Berlin, said that "heavy storms" had hampered German and Italian bombing planes for the last 48 hours in attacks on Allied shipping off North Africa.

A series of dispatches showed

the intense interest of neutral European nations in the situation which resulted from the Allied move into French North Africa and the German drive into unoccupied France.

Spain ordered partial mobilization to defend its "independence and sovereignty"—a move perhaps aimed directly at safeguarding Spain from German attack through France, rather than at the Allied campaign.

### BARNHILL BOYS WRITE TO PARENTS FROM SEA

Letters from Carroll and Wayne Barnhill, sons of Mr. and Mrs. S. O. Barnhill, written somewhere in the Pacific on November 2, stated both were all right. They are presumed to be on the SS Enterprise. Wayne Barnhill wrote as follows:

Dearest Folks: I'm writing you a few lines to let you know we are OK for the present, at least. We received your letter dated the 16th and also one from O. C. and one from Aunt Irene. You wanted us to ask Uncle Sam to let us come home just to see you. Well, Uncle Sam says we have a job to do and, believe me, we are out here doing it and doing it well. We would love to see all of you as bad as you want to see us, and when we get these Japs licked down to where those soldiers back home can give us a hand, we'll come home for that long-awaited rest.

Yes, I sent you a 3-star pin, but suppose it was lost in the mail. If I can get another I will try it again.

Raymond was on this ship, but left yesterday. He is still OK. Saw Clifford Dunn and he is alright, but Vernon Shirley may not be. I don't know for sure, so you had better see Garland and find out.

Please write often. Lots of love from both of us. Your Sons, WAYNE and CARROLL BARNHILL.

### GAS REGISTRATION STARTS IN MORNING, 9:30

Registration for gasoline will begin at the Cisco high school gym tomorrow morning at 9:30, said Supt. R. N. Cluck today. The same rules and regulations will obtain tomorrow as were published in the Cisco Daily Press last week.

All car owners must bring their license receipts, Cluck added. It will not be necessary for school to close, as enough volunteer citizens and teachers are available to carry on.

Those in rural districts will register for the Cisco area Friday, Cluck reminded.

#### CAPTURE TWO MOUNTAINS.

MOSCOW, Nov. 18. — Battle-front dispatches said today that the defenders of Stalingrad again had stemmed the Germans and that Red Army forces on the offensive southeast of Nalchik in the Caucasus had captured two mountains.

But if we aren't supplying our Allies, and never have enough anywhere for our own forces, what becomes of everything?

SOCIAL and CLUBS

TELEPHONE 316

NEW ENGLAND TOPIC DISCUSSED BY CLUB

The Alpha Delphian study chapter met in the club house at 9:30 this morning for a program on New England. Mrs. W. V. Gardenhire presided and Mrs. E. Lennon was hostess. Several items of business were transacted after which the meeting was turned to Mrs. Eugene Lankford, program leader of the morning.

Mrs. W. V. Gardenhire gave an interesting discussion of New England; Mrs. E. Hooks gave "New England from 1763-1800;" Mrs. W. D. Hazel brought the Readers' Digest, "I Was An Atheist Until," which was the closing program number.

MRS. J. R. BURNETT CIRCLE HOSTESS

Circle four of First Baptist missionary society met in the home of Mrs. J. R. Burnett Tuesday afternoon. After the opening prayer Mrs. R. R. Jones, president, took charge and presided during the transaction of business. Gifts were assembled to fill the box for Buckner's orphan home, which was packed at the close of the meeting.

R. T. Porter, Mrs. Kate Richardson and Mrs. J. R. Burnett.

LUNCHEON ENJOYED BY COUNCIL GROUP

Several members of First Christian council group four met in the home of Mrs. H. W. Schmidt Tuesday in an all-day work meeting. Toys were made and stuffed for children of the Juliet Fowler orphanage. An appetizing covered-dish luncheon was served at noon.

Following luncheon the regular meeting of the group was held with Mrs. J. F. Benedict presiding. Minutes of previous meeting were read by Mrs. F. E. Shockley and approved by the group. Roll call response was a favorite verse of scripture. Routine business followed and the session closed with prayer.

Members present were Mrs. Troy Powell, Mrs. F. E. Shockley, Mrs. J. F. Benedict and the hostess, Mrs. Schmidt.

TEACHERS IN A WORLD WORLD AT WAR

Beta Upsilon chapter of Delta Kappa Gamma met at Laguna hotel Saturday afternoon in its second session of the current year. The theme of the program, which followed a short business meeting, was "Teachers in a World at War," and four phases of this topic were presented at follows: Attitudes, by Miss Marion Chambliss; Qualifications, discus-

ed in a paper, written by Mrs. T. W. Briscoe and read by Mrs. Jewell Swanzey; Morale of Teachers in a World at War, by Mrs. Ora Kirklen.

Group singing, with Miss Andrews leading and Miss Daniel at the piano, brought the meeting to a close. Members present were Messdames J. E. Bagwell, John Berry, E. L. Hazlewood, Minnie B. Hill, Ora Kirklen, Jewel Swanzey and Misses Ella Andres, Marion Chambliss, Elizabeth Daniel, Isadore Grimes, Doris Jo Pyle, Marie Winston and Nellie Yank.

JUNIOR G. A. GROUP ENJOYED OUTING

The junior girls' auxiliary of First Baptist WMS met in the

home of their sponsor, Mrs. Paul Poe, Monday afternoon. They were chaperoned on a hike to the woods and spread a basket picnic lunch near a water tank. On returning to the Poe home, the group had lots of fun taking turns at riding in a buggy.

Those participating in the events were Mary Prudence Harris, Imogene Hibbert, Jo Ann Scott, Azilee Morris, Mary Ann Jones, Monterey Lisenbee, Betty Jo Gallagher, Billy Fay Robinson, Sara Jane Gallagher and Mary Jeanette Poe.

MRS. E. L. PUGH WAS HOSTESS TO CIRCLE

Circle six of First Baptist women's missionary society met

Tuesday morning in the home of Mrs. E. L. Pugh. In the absence of Mrs. B. B. Hurst, Mrs. W. W. Fewell presided and opened the meeting with prayer by Mrs. E. L. Pugh. Routine business was transacted and an interesting Bible lesson from the Book of Matthew was taught by Mrs. Fewell. The meeting closed with prayer.

Those present were Mrs. Lester Weathers, Mrs. Charles Clark, Mrs. W. W. Fewell, Mrs. Fred Scott, Mrs. Pugh and a visitor, Mrs. A. E. McNeely.

Next meeting will be held in the home of Mrs. Charles Clark, 1007 W. Tenth street.

COUNCIL GROUP TWO IN WORK MEETING

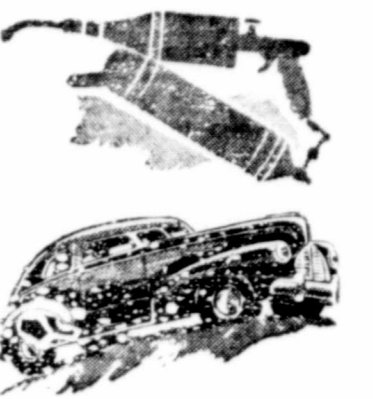

Group two of First Christian church council met in the church Tuesday afternoon to make chowchow for the Juliet Fowler orphan home. The afternoon was spent at this worthy task. The regular program was omitted, but a brief business session was called by Mrs. Fred Steffey, chairman.

Those present were Miss Alice Bacon, Mrs. Edward Lee, Mrs. Theresa Weddington, Mrs. Fred Steffey and Mrs. Roy Fonville.

Eggplant Sauté with TOMATO SAUCE

by Dorothy Greig

LIKE eggplant—fried crisply golden brown on the outside, succulent and tender within? Then suppose over the slices we serve a richly thick tomato sauce, keen and tangy in flavor and hot as hot can be—my, but it's good! 1 medium sized eggplant 1 teaspoon salt 1/2 teaspoon pepper 1/2 cup flour 1 egg (with 2 tablespoons water added) 1/2 cup fine bread crumbs Pare eggplant. Cut into 3/8 inch slices crosswise. Dredge the eggplant slices in the flour (combined with salt and pepper); then dip into the egg and water mixture and then dredge with the fine bread crumbs. Cook the eggplant in melted hot fat about 1/2 inch deep in a sauté pan. A medium-sized eggplant makes from 12 to 14 slices. Tomato Sauce: Heat condensed tomato soup just as it comes from the can and serve it hot with the golden brown slices of eggplant.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

RELIEVES CHAPPED SKIN SOOTHES RAW HANDS... CHAPPED LIPS Row, bitter weather dries skin cells, leaves them "thirsty." Skin becomes raw—may crack and bleed. Soothing Mentholatum acts medicinally, helps: 1. Reconciles thirsty cells so they can retain needed moisture. 2. Protects chapped skin from further irritation. At the first sign of chapped skin, smooth on cooling Mentholatum. Jars 30c.

CRAWFORD AGENCY Phone 453. 168 W. 8th street.

This man is not dead. He is just sleeping. And sleeping a little more soundly, perhaps, because there are still many Americans who are not putting at least 10% of their pay into War Bonds on a regular Payroll Savings Plan. How about you joining a lot of other fellows in giving the little paperhanger a rude awakening? How about you signing up with a Payroll Savings Plan today... to the tune of not 6%, or 7% or 8%, but 10% and more if you can? LET'S TOP THAT 10% BY NEW YEAR'S! WHAT YOU SHOULD DO: If you are... 1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can. 2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow. 3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help. 4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

TELEPHONE SERVICE IN WARTIME

We are trying to give our nation in war what we have always tried to give in time of peace—the best telephone service in the world. We can't build more lines to do it, because most of the metal is needed for arms. So the longer long distance lines, carrying vital war calls, are becoming more and more crowded. When you think of calling a faraway city, won't you please ask yourself: 1. Is it necessary? 2. If so, how can I keep it short? War calls come first, and we know you'll gladly help clear the way for them. SOUTHWESTERN BELL TELEPHONE CO.

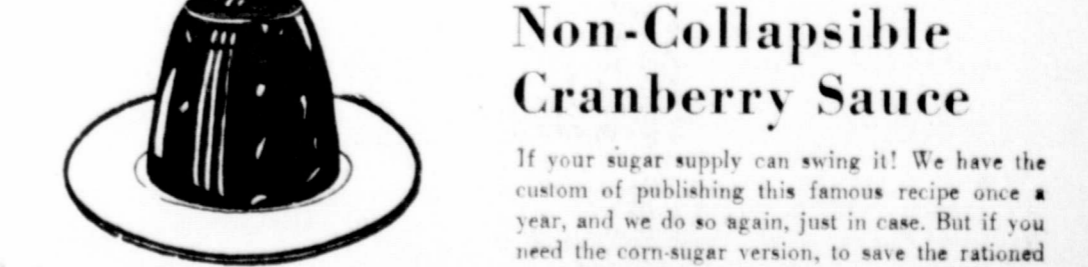

No Priority on Thanksgiving Turkey

WITH TURKEYS unrationed, and Thanksgiving turkey dinners still in order, there will be many a thermostat spinning to 325 degrees, to roast that bird to perfection... from army camps feeding 30,000 men, to the table at home with a service star in the window. This is one routine that can be normal, in spite of the war winter. And where there's a star in the window, there will probably be company for dinner from a nearby camp, in uniform.

Don't Waste It

Since Pearl Harbor, we have been working day and night to tie in enough gas to warm your houses. So don't waste it. We have a large reserve on tap, of course (the pipeline system connecting with more than 1,000 gas wells); but with 47 war plants on the network all of a sudden, you can imagine. Sheppard Field, for instance, at Wichita Falls, will use more gas than Wichita Falls itself.

And these war plants will be needing the gas more and more, until we wind up the peace. From making airplanes to a cup of tea, Natural Gas is the most economical automatic heat.

Corn-Sugar Version

Use 2 1/2 cups of Dyno (corn-sugar), instead of cane-sugar, and follow the same procedure. 4 cups perfect berries 2 cups boiling water 2 cups sugar

Cranberry sauce contains iron and phosphorus, and Vitamins A and C, besides the heat and energy values of the sugar.

Non-Collapsible Cranberry Sauce

If your sugar supply can swing it! We have the custom of publishing this famous recipe once a year, and we do so again, just in case. But if you need the corn-sugar version, to save the rationed cane-sugar, use the second recipe. Boil the berries until they all pop (6 to 8 minutes). Put through a sieve, add the sugar, and let come to a rolling boil (stir with a wooden spoon). Pour into hot sterilized glasses, and seal with paraffin.

# BRIEFLY TOLD

From St. Petersburg, Fla., comes word to the Daily Press that Private James W. Haddow of Cisco has arrived at the army air forces replacement center, there, to start his 30-day basic training. He is the son of Mrs. R. N. Hazlewood.

Dick Spoon, son of Mr. and Mrs. W. C. Spoon, is here from Greenville, S. C., on furlough. His sister, Mrs. Jack Johnston, employe of the Consolidated Aircraft plant, Fort Worth, spent the weekend in the W. C. Spoon home.

Mrs. A. N. Stroebel and small daughter, Nancy, Corp and Mrs. Stanley Webb of Mineral Wells, Mr. and Mrs. J. B. Webb of San Angelo, Miss Katherine Webb of Gorman and James Dean of Abilene were Sunday visitors in the home of Mr. and Mrs. Brice Webb, Rising Star highway.

Mrs. Wade Dulin, teacher in east ward school, left this week for Florida to visit her husband who is stationed with the U. S. army at Camp Blanding.

Mrs. R. W. Meekel is spending the week in DelLeon with Mr. Meekel who is working for the Humble company at Comyn.

Mr. and Mrs. Grady Coats of Paris visited his parents, Mr. and Mrs. C. F. Coats the first of the week while enroute to El Paso on a business errand.

John Dunn of Dunn's produce

and hatchery transacted business in Fort Worth Tuesday.

Mrs. Rex W. Moore is visiting her parents, Mr. and Mrs. H. S. Dossett in Dallas this week.

Mrs. A. B. Byrd, Mrs. Andrew Watson and Mrs. J. T. Waddell, Jr., spent Tuesday in Abilene.

Mrs. Joe Wilson is a guest this week of her son Ernie Wilson and family in Coleman.

Mr. and Mrs. Dale Moore of Grand Prairie are spending a vacation with his parents, Mr. and Mrs. H. A. Moore of Humbletown. Dale Moore is employed at Grand Prairie in the U. S. bomber plant.

Rev. A. A. Parmer, pastor of First Baptist church of Moran was in Cisco Tuesday, assisting in checking the donations for Buckner orphan home, which were sent here from several points in

the Cisco association and will be shipped to Dallas today.

Mr. and Mrs. Ray Kinard of Brownwood recently visited here with his parents, Mr. and Mrs. N. A. Kinard.

Mr. and Mrs. E. O. Parsons of Baird and Mr. and Mrs. Ed Cranfield of Dalhart spent Sunday here in the home of Mr. and Mrs. J. T. Waddell, Jr.

Mr. and Mrs. Art West and children, Arthur and Hazel of Long Beach, Calif., arrived this week for a visit with her mother, Mrs. H. P. Winston.

There will be a called meeting of the XXth Century club Friday morning at 10 o'clock in the club room at Cisco library. This is an important meeting and all members are urged to attend, says Mrs. Edward Lee, president.

Mr. and Mrs. Jack Anderson spent the past weekend in Fort Worth.

Mr. and Mrs. C. E. Hailey are spending the day in Breckenridge where he is transacting business.

Frank Kittrell, recently of Victoria, is spending a vacation here in the home of his mother, Mrs. W. H. Kittrell.

Dennis Ward, instructor at the naval aviation corps post at Grand Prairie, and Mrs. Ward returned to their home in Dallas Tuesday night after having been called to Cisco by the death of her mother, Mrs. S. W. Kendrick.

Mr. and Mrs. C. S. Karkalits of Eastland attended the funeral and burial rites held here Tuesday for Mrs. S. W. Kendrick.

Mrs. Burl Williams and small daughter, Judy are in Brownwood attending her mother, who is ill.

## KEAN WILL WAS PROBATED BY COUNTY COURT

The following probate matters were disposed of in the county court during the past week:

Jesse M. Camp, petition for letters of guardianship for the person and estate of Jack Ellis Camp, minor. Approved and letters issued. Bond of \$700 filed and approved with H. S. Childers and E. M. Oney, sureties. Oath administered. Inventory and appraisement approved as filed by Roy L. Lane, R. L. Jones and A. F. Taylor, appraisers.

In matter of estate of W. Couch, deceased. On application it was the order of court that court costs, legal fee, surety fee, and claim for monument be paid by H. G. Hill, administrator de bonis non. Application to sell certain real estate approved. Order of sale issued and report of sale approved as filed. Bond of administrator de bonis non filed and approved.

Petition of Jim Moates, executor, to probate will of Adeline Moates, deceased. Approved, will probated, oath administered.

Mrs. Nora Graham, application to probate will of J. E. Graham, deceased. Approved and will probated after proof was authenticated.

Ada Gordon, guardian of J. B. Ames and Bettie Sue Ames, minors. Application for authority to have a minor surgical operation for the removal of the tonsils of her ward, Bettie Sue Ames, showing to the court that operation is necessary for the preservation of the health of said ward. Approved, and guardian authorized to make an expenditure of \$80,

the amount required for said operation and expenses. The will of the late E. E. Kean was filed for probate Monday by D. K. Scott, Wm. Reagan, Alex. Spears, Mrs. Anna H. Kean, Otto W. Kean and E. E. Kean, Jr., named in the will as independent executors. E. P. Crawford, Connie Davis and Roy Wilson were named as appraisers of the estate. Mrs. Kean, Otto W. Kean and E. E. Kean, Jr., are the sole beneficiaries under the will. The property enumerated in the will by the testator includes besides the home,

certain city lots in Cisco, the Hartman hotel property and stocks and bonds of an estimated value of \$15,000. There are two community estates mentioned in the will, as the testator was twice married. One half of the community estate, the first wife's interest, passed to their two sons—Otto W. and E. E. Kean, Jr. Judge Adamson ordered the will probated.

John Eubank, petition to be permitted to resign as guardian of Tom Eubank, incompetent, and to accept his final report, and be

permitted to resign. At the appointment of Clara Eubank as guardian of said incompetent, the court that Clara Eubank be granted letters of guardianship of the estate of said incompetent.

Can boys of 18-19 make soldiers? Ashby's remaining company of artillery had a train of 19, a first lieutenant and a second of 18.

**NURSES IN NEW GUINEA**—In the absence of railroad trains and busses American Army nurses set out on foot for advanced U. S. base in New Guinea. The group of nurses had recently arrived at behind-the-lines receiving center, and was leaving for assigned posts.

**What's worse:  
35 miles an hour  
or 00 miles an hour?**

**D**ON'T flunk an easy one!...This is worth thought...The prize at stake is your car!

Today's sensible top speed of 35 for patriots is a cinch for your engine, compared to unlubricated cold starting—way down at 00 miles an hour!

People in dead earnest to battle wear from the very start, are having their engines OIL-PLATED. Without using up extra moments or money, they simply change to Conoco N<sup>th</sup> motor oil—patented. And this oil's added modern synthetic—with apparent "magnetic attraction"—closely bonds lubricant to inner engine parts. That's called OIL-PLATING because it resembles any good protective plating in not all "going elsewhere" while the car stands cold.

OIL-PLATING doesn't all quickly go draining off down to the crankcase. Oil down there in the depths is still trying to "get a move on" as the engine starts, while OIL-PLATING is already faithfully fastened clear up to the topmost piston rings. Simply because OIL-PLATING doesn't all go away, it's there ahead of

time, to get ahead of rampant wear in starting cold. It's there the rest of the time, too. And so the strong liquid-type film of Conoco N<sup>th</sup> oil is sliding between OIL-PLATED surfaces. Not much look-in for wartime wear. Better change to an OIL-PLATED engine, at Your Mileage Merchant's Conoco station. He knows your correct Winter grade of Conoco N<sup>th</sup> oil. *All America Knows  
Budweiser...  
but Few Know This*

## Starch Helps Make Munitions, Batteries..

Everyone knows that corn starch is used in pies, puddings, cakes and other good things to eat. In addition to various household uses, it is necessary, too, for making batteries, cosmetics, paper and textiles, to name a few. Where does Anheuser-Busch fit in this picture? We learned a lot about cereals from constant analysis of barley for Budweiser. With that knowledge we started a Corn Products Division, which now supplies millions of pounds of starches each year to food and other industries.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

### Endless research in making the world's leading beer has led to other products

**VITAMINS, B COMPLEX**—Our plant is one of the world's largest sources for manufacturers of pharmaceutical and food products.

**VITAMIN D**—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

**BAKER'S YEAST**—We are one of America's biggest suppliers of standard and enriched yeasts, and malt syrup used to make bread.

**CORN SYRUP**—many millions of pounds annually for America's candy industry.

**SYRUPS**—for food, table and confectionery uses and special syrups for medicinal purposes.

**VITAMINS FOR LIVESTOCK**—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

**REFRIGERATING EQUIPMENT**—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

**DIESEL ENGINES**—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.
