### Cisco Home For Women's Auto Training School is Truly a Very Busy Place

More than forty men are busily engaged in the work of remodeling the former C. N. E. railroad roundhouse in order that equipment for the Women's Automotive Training school may be installed not later than December 14.

Committeemen who have taken over the various tasks are supervising the jobs assigned and the scene is indeed a busy one.

About 14 men are putting on a new roof for nine men are pouring concrete for the floors, while electricians, plumbers, carpenters and truckmen are also busily engaged.

A large excavation is being made to house a steam plant loaned to the school by R. L. Ponsler of the Cisco Gas Corporation. The gas company is furnishing piping, radiators and flues and is installing the equipment, complete, at its own expense.

A large frame building, 28 by 44 feet, has been moved to a location adjacent to the work shop and offices, to be used as a canteen for serving the trainees with their noon lunch. The preparation of this building is in charge of Charles J. Kleiner and his two committeemen, A. Warren and E. P. Crawford, and its remodeling will be subject to plans of the plant's supervisor.

J. D. Lauderdale, finance chairman, has called a meeting of his committeemen to meet in the chamber of commerce for a final check-up Wednesday night at 7:30 o'clock at which the individual donations will have probably reached the quota, Lauderdale said.

Members of the building and repairs committee are A. D. Anderson, R. L. Ponsler and S. Drumwright.

The plan is to push the work as rapidly as possible, with no let-up for Thanksgiving Day, one of the committeemen today.

However, should the working force see fit to observe Thursday as a holiday, it will still be appropriate and well worth while for Cisco men to walk or drive out to the grounds and see, first hand, the fine work that has already been accomplished.

As one man said, "We should all take interest in this government undertaking and be ready to lend a hand should the occasion arise. It will mean a great deal to the future of Cisco as we handle the project — now and later — in the big way."

### U.S. BOYS WILL GET TURKEY

FT. WORTH, Nov. 24.—"Pull a wishbone out and see what Lady Luck has in store for us."

That will be the army's slogan for Thursday when American soldiers all over the world sit down to feast on turkeys grown on American soil.

Quartermaster depot officials today announced they are buying more than 30,000 turkeys for soldiers in this area. Some time ago turkeys were purchased, frozen, wrapped and sent to North Africa, and other far-away army posts.

Official army orders are for every man to have at least one pound of the holiday bird on his Thanksgiving Day plate wherever it is humanly possible. The rest of the meal will include:

Oyster dressing, giblet gravy, cranberry sauce, French peas, buttered asparagus, candied yams, snowflake potatoes, creamed cauliflower, Waldorf salad, Lady Baltimore cake, assorted ice cream, mince meat pie, mixed nuts, assorted fruits, mixed sweet pickles, grape punch and coffee.

Some substitutions will be made in some areas, it was announced. In spite of the tremendous number of turkeys being bought up for the men in the armed forces, indications are that turkeys will be plentiful here. A shortage is likely before Christmas, however.

### STROEBEL AND VAN HORN ARE MAKING GOOD

Private Adolf E. Stroebel, son of Mr. and Mrs. Henry Stroebel, route two, Cisco, and Private Charles A. Van Horn, son of Mrs. John Van Horn, Cisco, have graduated from an intensive course in aviation mechanics and are now prepared to blast the Axis.

This information was furnished the Cisco Daily Press by the office of public relations at Sheppard Field. Both boys have been in the service a comparatively short time and their Cisco friends will be glad to hear of their excellent progress.

**GAVE \$500.**  
ALBANY, N. Y., Nov. 24.—President Roosevelt contributed \$500 to the Dutchess county Democratic committee campaign fund used in an unsuccessful attempt to unseat Representative Hamilton Fish. A report in the New York secretary of state's office Tuesday lists Treasury Secretary Henry Morgenthau, Jr., also a Dutchess county resident, as another contributor.

**GOVERNMENT JOBS.**  
WASHINGTON, Nov. 24.—Civilian job in the government increased by 122,827 during August to a total of 2,450,759 at the end of the month, the civil service commission announced today. Federal employment has gained an average of more than 100,000 for several months, indicating the present total probably is around 2,750,000.

THEY'RE ALL OVER, OVER THERE—Another of the many American Expeditionary Forces throughout the world comes ashore at Johannesburg, Union of South Africa. Tropical kit and sun helmets formed part of their equipment. Mayor of American Club bid them welcome.

### IF IRON RING FORGED BY MEN OF RUSSIA IS COMPLETED, A. HITLER'S HESSIANS ARE LOST

MOSCOW, Nov. 24. — A great and possibly decisive tank battle raged in the area west of Stalingrad today as battered German forces, foreseeing entrapment of 375,000 men in an iron ring forged by the Red army, sought to rally for a counter-attack.

The Soviet offensive gained momentum. One army pushing southward reached the village of Pogodinsky, well inside the bend of the River Don, in a drive to achieve a junction with the Russian forces hammering their way westward from Lalach. A third army, advancing from southern sectors, cut the railroad to Rostov and rolled on to the southeast.

The German attempt at a counter-attack was having little success. One entire German division was reported exterminated in a single brief operation when it tried to cut off the Soviet wedge northwest of Stalingrad. The Russians beat off the counter-assault while other forces struck the enemy flanks and encircled the division.

Another German division met a similar fate.

Col. Gen. Hermann Hoth, commander of the Germans in the Stalingrad area, hastened to develop a counter-offensive powerful enough to break the Russian drive before the big trap snapped shut and left him open to annihilation.

The inspired Russians gave him a foretaste of the peril in four days of fighting, during which 26,000 Germans were killed while another 1000, fighting inside the city of Stalingrad, were taken prisoner. Booty was in proportion.

In one Stalingrad segment alone the Russians annihilated a complete, fully-equipped infantry division of 12,000 which had arrived at the front recently. Within a few hours the same Soviet units annihilated the bulk of another division and the survivors abandoned their arms an ammunition in flight.

The Germans appeared stunned by the swiftness of the advance, particularly around Chernyshevskaya, 110 miles west of Stalingrad, on the west side of the Don. Russian forces broke into one village so suddenly the Germans were unable to organize a defense. One thousand were killed and 25 planes destroyed at the airdrome before they could take off.

The Russians also had taken Kalach, 40 miles west of Stalingrad, on the east bank of the Don. By closing the 60-mile gap between Chernyshevskaya and Kalach, the Russians could trap more than 25 German divisions operating around Stalingrad.

### NO MAIL DELIVERY THURSDAY

As is usual on Thanksgiving Day, there will be no mail delivery by the Cisco postoffice Thursday, says L. H. McCrea, postmaster. However, the postoffice doors will be open and mail will be worked for the postoffice boxes.

The postmaster also called attention to the habit of some mail users that is confusing to the postoffice, while delaying the mail of these parties. This has to do with those who use air mail envelopes for local or other mail requiring a three-cent stamp only.

In short, if you use an air mail envelope and place but one three-cent stamp thereon, the letter will be returned to you.

Envelopes bearing the air mail stamp are strictly for air mail use and should carry an extra three-cent stamp.

**PENTECOST FUNERAL.**  
The funeral service for Mrs. Rosalie M. Pentecost, who passed away Friday morning at the home of her daughter, Mrs. P. R. Warwick, was conducted at the First Presbyterian church at 9 o'clock Saturday morning. Rev. Gary L. Smith, pastor of the church, officiated and Mrs. S. E. Hittson gave several beautiful selections on the organ, among them "The Lost Chord," a favorite of the deceased. Many beautiful flowers paid silent tribute. Following the service, Mr. and Mrs. P. R. Warwick and their daughter, Miss Brenda Warwick, departed with the remains for Pittsburgh, Pa., for burial there. Pallbearers were A. R. Purifoy, R. Martin, H. C. Henderson, E. P. Crawford, Lee Hetzel and S. E. Hittson.

**BAPTISTS DIG DEEP.**  
DALLAS, Nov. 24. — Largest Texas Baptist gifts since the peak of the early twenties, were announced Monday by Rev. W. W. Melton, Dallas, executive secretary. He released figures showing total contributions of \$1,436,708.78 for the 1941-42 convention year. Records of Treasurer R. A. Springer show this to be \$421,000 more than last year.

### THANKS.

We give thanks for the privilege of being able to gather in chapels and churches this Thanksgiving, 1942.

We give thanks for the bountiful blessings with which we of this nation are endowed.

We give thanks for the full meal—"turkey and fixin's"—which soldiers and their loved ones at home may be able to enjoy this festive day.

But more than all else, we give thanks for being Americans, of the breed pledged to perish before surrendering its liberty.

We give thanks for men like Captain Colin Kelly and "Buzz" Wagner and Jimmy Doolittle and that chaplain credited with having said at the height of the Pearl Harbor fighting, "Praise the Lord, and pass the ammunition!"

We give thanks in the knowledge that we have the courage and fortitude of our forefathers of Bunker Hill, Gettysburg, San Jacinto, San Juan Hill and Cantigny, to carry on their noble traditions of the military service, to the end that our just cause shall triumph and our enemies be vanquished for all time.

### CLEAN-UP DAY IS HERE.

**MACARTHUR HEADQUARTERS, Australia, Nov. 24.**—American and Australian soldiers fought their way yard-by-yard toward Buna Tuesday against Japanese forces that apparently have chosen to be exterminated rather than to surrender their southernmost New Guinea beachhead. Extending the picture of relentless envelopment, Tuesday's communique reported an Australian jungle column had moved into Gona, enemy anchor 12 miles above Buna, and was mopping up the die-hard garrison there.

### DEATH FOR THREE

CHICAGO, Nov. 24.—Federal Judge William J. Campbell Tuesday sentenced three German-American men to death for treason, but the court spared the lives of their wives and co-defendants and handed them prison terms. The six defendants, all naturalized American citizens, had been found guilty of aiding, harboring and protecting Herbert Hans Haupt, executed Nazi saboteur. Condemned to follow him to his grave were his father, Hans Max Haupt; his uncle, Walter Froehling, and friend, Otto Wergin.

An expert is one who can catch fish if another expert baits the hook and another rows the boat.

### FRENCH LAMBAST ITALIANS

**ALLIED HEADQUARTERS, North Africa, Nov. 24.**—French Colonial troops, exacting a first payment for Benito Mussolini's stab in the back of stricken France in 1940, ripped an Italian force to pieces in one of the fiercest fights of the developing Tunisian campaign, reports to headquarters said today.

An Italian column attacked the French in superior force in north central Tunisia yesterday under the protection of a strong force of German Stuka dive-bombers.

The Frenchmen met the full shock of the Italian attack, stopped it and, in a counter-attack, gave the Italians what headquarters called "a terrific beating."

Allied Spitfire fighter planes roared into the fight and, it was reported, shot down a number of the Stukas while anti-aircraft guns accounted for others.

News of the French victory reached here as Gen. Emile Bethouat of the French army joined the staff of Lieut. Gen. Dwight D. Eisenhower, the Allied commander-in-chief, as liaison officer between the French and American armies, and as headquarters welcomed the news that Admiral Jean Francois Darlan had brought Dakar and all French West Africa into the Allied camp.

Headquarters could not confirm the Dakar news, but its accuracy was not doubted. Allied leaders had expected quick capitulation of all French West African areas as the result of their successful landings in the northwest.

It was intimated that the Allies would utilize Dakar to the fullest extent as a base from which to clean the last vestige of enemy submarine activity from the South Atlantic to which it had been switched when the North Atlantic and Caribbean became too hot.

From Dakar, it was said, the Allies would be able to hunt enemy submarines and possible surface craft up and down the African coast and far out to sea toward Brazil.

With Dakar, the Allies got an excellent port and naval base, a much better land communication route across Africa, a formidable number of French fighting ships, the biggest force of trained troops in French Africa and many planes.

### SCHOOLS WILL CLOSE THURSDAY, FRIDAY

There will be no school Thursday and Friday, said Supt. R. N. Cluck today.

It has been a long-established custom to dismiss schools on

Thanksgiving Day to allow teachers to attend the state teachers' institute. There will be no institute this year, but the schools will give Thanksgiving Day and will not resume session until Monday following, Mr. Cluck said.

WASHINGTON, Nov. 24.—The government acted today to assure retention of a sufficient army of war workers on the home front by forbidding enlistment of essential aircraft and shipbuilding workers and expanding the list of necessary jobs to one out of every nine types.

A SPENDING SPREE

General spending is now surpassing that of the famous boom-and-bust year, 1929. Financial experts give surprising facts.

The amount of money circulating in this country is the greatest ever. The average citizen who thought he was very well off a year ago, with about \$77 of home money lying around, now has more than \$105. Money in circulation has risen to an all-time record of \$14,900,000,000.

People will spend about \$2,000,000,000 this year for goods, instead of the \$44,000,000,000 they spent in the famous boom-and-bust year of 1929.

It is all natural enough, perhaps, when you consider how many more people are working and making big money now, including millions of women who formerly stayed at home or held small office or store jobs. But the total result is dangerous. So far, this country is in greater agony of production has exceeded serious inflation, but there is no assurance that such luck will continue.

MARK TWAIN

Once upon a time, if the question were asked who was America's best beloved author, the answer would probably have been Longfellow. Now, the name would probably be Samuel L. Clemens, much better known as Mark Twain, whose birthday will be celebrated on November 30.

Nobody could be more American than Mark Twain. Born in the village of Florida, Mo., in 1832, he became in turn a newspaper printer, a Mississippi river pilot (where he got his pen-name, Mark Twain, from a call used by pilots), a newspaper writer, lecturer and author. He was brought up in what is now a vanished civilization, the Mississippi River and the Far West of 80 years ago, and he has brought it home to us all. While his first reputation was made with the humorous travel book, "Innocents Abroad," he will live especially in books like "Roughing It," "Life on the Mississippi" and "Huckleberry Finn" and "Tom Sawyer."

It seems odd now that as late as 1900, histories of American literature could be written which contained all mention of Mark Twain in a footnote. Now he is recognized as one of our greatest writers. Popular appreciation did it for him, wiser in this case than the critics. Now both the critic and the man in the street take Mark Twain to their hearts, the best beloved American author.

COST OF NAZI RULE

Just before the American invasion of North Africa, with its consequences in the complete German occupation of France, the Fighting French delegation in Washington made a statement as to the cost of occupation by the Germans of what was then called "occupied France." It is now, doubtless, greatly increased.

The cost of every hour of German occupation was enough to support 500 French families of three people each for a whole year. The cost of every hour of the unoccupied French to spend if they could buy the 2,500 workers in the 150 locomotives another day and the 80 miles of railway lines the next, it might be well spent. At it is the money well spent to keep a lot of unpleasant Nazi workers leaving the French ground in their own country and making life generally almost too hard to endure.

The necessary but kindly and constructive pointing of the United Nations will feel heaven when it comes to France. They will be part of that new regime, not under it.

DOUBTFUL DARLAN

Criminal prosecutions often take terms with one of the criminals. He turns state's evidence against his accomplices, and saves his own skin at their expense. It is regrettable, and no one admires the criminal who profits by it, but apparently it has to be done.

It looks as if something of the sort took place with regard to Admiral Darlan. Whether or not he is a Nazi at heart, he has certainly played their game in France. Hatred of the British is said to be the cause in his case. If so, it has undoubtedly led him to the same paths as those with out-and-out Nazi sympathies.

Now that he is in American hands and under our watchful eyes is allowed to function as head of the Government in North Africa, he is to be useful. His order to the French to stop fighting doubtless saved many American lives. He is showing whether large or small is better on our side than on Hitler's. It seems very clear that Tolson Eisenhower's judgment is all to the good.

PRIVATE DOE

He was a right guy who wasn't afraid to die. From the beginning, he said he didn't want it soft—instead he wanted to be where the fight was thickest. There in the Solomons, it was rough. He got his wish—he had enough fighting—and wading mud—Diving bullets—and tasting blood.

But he had his glory. For when they found him—gory!—And past Red Cross attention. His name got honorable mention. They didn't send a medal to his dad—But he will remember the son he had. And you'll remember, too.

RUTH CLASS AND GUESTS ENJOY BANQUET THURSDAY

The Ruth class and a number of guests of First Baptist Sunday school enjoyed a pre-Thanksgiving banquet in the basement of the church Thursday evening. After the guests arrived, a patriotic sing-song was held, following which they took their places at the long banquet table, which was beautifully decorated with marigolds, chrysanthemums and autumn leaves. Paul M. Culp offered the invocation.

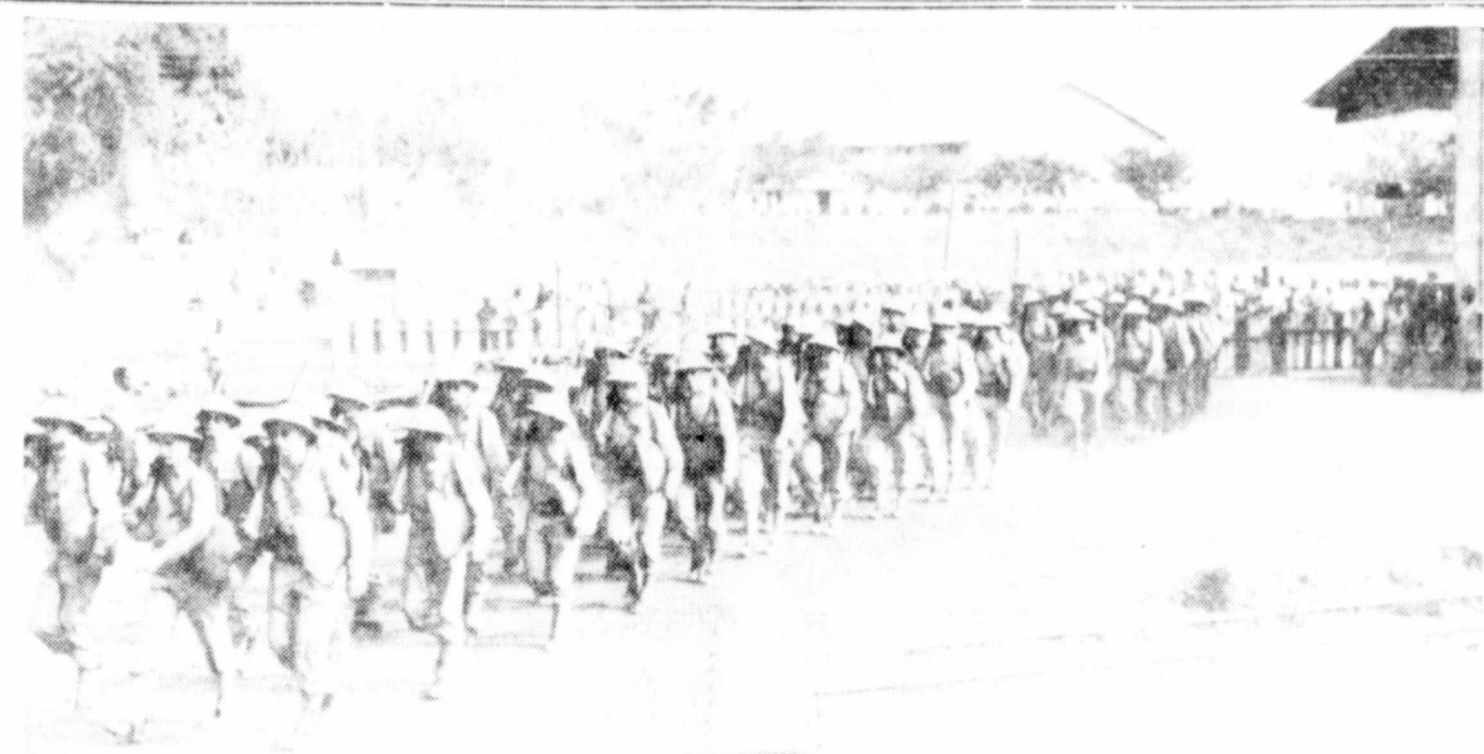

When the meal was finished, Haywood Cabaness, toastmaster, called on a number of the group for impromptu speeches. They responded, choosing various topics for discussion. B. B. Hurst, who chose for his topic, "Benefit of Light," was in the midst of his eloquent speech when all of a sudden the lights went off and the assembly was left in total darkness for a short time. The incident caused much merriment.

Rev. Cooper Waters, guest speaker of the evening, gave a splendid talk on "Thanksgiving," which closed the program. Those present were Rev. and Mrs. Cooper Waters, Mr. and Mrs. Haywood Cabaness, Mr. and Mrs. M. F. Underwood, Mr. and Mrs. B. B. Hurst, Mr. and Mrs. Paschall Cartwright, Mr. and Mrs. Charles Clark, Mr. and Mrs. J. E. Mayhew, Mr. and Mrs. J. T. Richardson, Jr., Mr. and Mrs. Joe Brittain, Mr. and Mrs. Cecil Adams, Mr. and Mrs. C. I. Webb, Mr. and Mrs. James Huddleston, Paul Culp and Mesdames F. B. Clarrmitt, T. E. ALTAIRIAN S. S. CLASS HAD SOCIAL MONDAY

The Altairian class of First Baptist Sunday school held a social in the home of Mrs. L. B. Mayhew, Monday night. Mrs. Kate Richardson, teacher of the class, was co-hostess.

After the group was wined, Thanksgiving thoughts were expressed and a poem, "Thanksgiving," by Isabelle Tupper, was read. Bible questions about the Apostle Paul and his associates were asked. A number of games were played and refreshments of coffee

GIRLS' AUXILIARY MET IN CHURCH MONDAY

Girls' auxiliary of First Baptist WMU met at the church Monday afternoon, with Mrs. Paul Poe, sponsor, in charge. The meeting opened with prayer and the group repeated the G. A. watchword. They then read the allegiance pledge and Mrs. Poe gave as a scripture lesson, Psalm 103, discussing "Thanksgiving."

Group singing of the hymn, "We've a Story to Tell to the Nations," completed the program, and prayer by Jo Ann Scott dismissed the meeting.

Those present were Helen Dennis, Monterey Lisenbee, Sara Jane and Betty Gallagher, Mary Jeanette Poe, Jo Ann Scott and Barbara McCaulley.

JUNIOR RED CROSS SERVES NEW WAY

A new service is being rendered by Junior Red Cross members, says Mrs. W. W. Wallace. Each Wednesday afternoon a team of Junior workers is available to run

errands for the Red Cross work rooms, the county co-chairman explained. This will save car trips, tires and time. "If you have garments you have made and wish returned to the work rooms," she continued, "call for a Junior to come and pick up your articles and bring you others to make."

This service will only be available on Wednesdays and the teams will use bicycles. Last Wednesday Melvin Sandler and Jere Paul Westfall were the messengers. Call 141 if you need a Junior.

"We have women's skirts and night gowns to be made and need cutters to work on the gown material. We also have scraps to be pieced into afghans and quilt tops and need workers or clubs for this labor," said the co-chairman.

Recently a button campaign was conducted through the schools by the Junior Red Cross to secure buttons for use on garments made in the work rooms. Several pounds of buttons were brought in. Buttons were and are needed for children's rompers, men's pajamas and women's skirts and gowns. Dark buttons, half and three-quarter inches in diameter, can be used on the wool skirt plackets.

Mrs. Fox is a graduate of Cisco high school, 1941 class. She has since been employed as Western Union Telegraph operator at Brownwood.

Sergeant Fox attended Olden high school and is now at Camp Edwards, Mass., with an officer training camp. He spent last week in the home of his parents in Olden and has now returned to his post. Mrs. Fox returned to her work in Brownwood, but plans to join her husband in the near future.

A LITTLE GIRL SENDS HER DOG OFF TO WAR

Typifying the rugged courage with which Britishers, men, women and children, have accepted their lot despite unprecedented hardships and suffering on the home front, this little English lass, who has seen many friends and playmates carried away in wake of crushing Luftwaffe air raids, parts with still another friend, Towsa, a mongrel dog who has been her pal since infancy. Taking matters in her own hands, she wrote to British army authorities offering to lend her dog for any one of the many duties he can perform with the armed forces. In skilled hands, the dogs are trained for roles both on the front lines and at home. Towsa was accepted and assigned to Guard Dog Training Center. Canines in this service are trained to detect suspicious characters, and give warnings, not by barking, but by signs.

THIS Iron Dough Boy of World War II resembles in appearance and design his "old man" of World War I—The Pershing Locomotive, which was a familiar sight to the boys in France in 1917-1918. These new Army locomotives, which are being built by The Baldwin Locomotive Works, Philadelphia, Pa., have not as yet been tagged with a name so famous as their parent, "The Pershing Engines" of 1917. Standing alongside of the first of a large number of the new Army locomotives constructed at Baldwin are (left to right) Col. E. F. MacFadden, Maj. J. W. Marsh, the officer responsible for the present design, and Col. W. G. Knight, all of the Corps of Engineers, U. S. Army.

## HOGS AT \$13.70

The Fort Worth market on cattle and calves today was active and steady on all classes. Hogs sold mostly 10c to 25c below Monday's average levels or about in line with the closing prices of that day. The top was \$13.70, with packers paying up to \$13.65. Slaughter classes of sheep and lambs ruled mostly steady, with feeders scarce. Estimated receipts at Fort Worth Tuesday compared with actual receipts on the like day of last week were: Cattle, 4,200 and 4,143; calves, 2,300 and 2,974; hogs, 1,600 and 1,335; and sheep, 3,500 and 4,550.

## Four questions every American should ask himself

1. HOW CAN I HELP WIN THE WAR?
2. HOW CAN I KEEP THE COST OF LIVING DOWN?
3. HOW CAN I BE SURE TO HAVE SOME MONEY TO TIDE ME OVER THE PERIOD OF RE-ADJUSTMENT WHEN THE WAR IS WON?
4. HOW CAN I GET \$4 FOR \$3?

An answer to all four questions is: BUY WAR BONDS through the Payroll Savings Plan.

The more bonds you buy, the more quickly we can win the war.

The more bonds you buy, the more you reduce the possibility of a rising cost of living.

The more bonds you buy now, the more money you will have when the war is won.

The more bonds you buy, the more four dollars you'll get for three!

Put at least 10%—not 6%, or 7%, or even 9%, but 10%—of your earnings into War Bonds. Do it through your company. Twenty-one million Americans are doing it now. Let's make it at least 10% for every American!

**WHAT YOU SHOULD DO—**  
If you are...

1. Already setting aside 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank. They will be glad to help you start a Plan of your own.
