U. S. PLANNING TO RATION SPENDING MONEY

PART OF FRENCH FLEET AT TOULON SCUTTLED AS REMAINDER IS SEIZED BY THE GERMAN FORCES

LONDON, Nov. 27. — German forces today seized the French fleet at Toulon after a battle with the French in which part of the fleet was scuttled.

How much of the fleet was sent to the bottom by Frenchmen who preferred to sink their ships rather than allow them to fall into Nazi hands was not immediately revealed.

All early reports of the Nazis came from German radio sources. There was no independent report of the Nazi coup and the ensuing battle in the streets of Toulon.

However, the Nazi high command admitted that "part of the French fleet scuttled itself, despite the orders of the French government."

The communique repeated that resistance at isolated places was encountered by the German troops when they started their march into the naval base last night.

The German communique attributed the resistance to "Anglo-Saxon influence."

However, it insisted that the efforts of the French to resist were "crushed in the bud" and that the operation was carried out in a few hours.

The town and harbor of Toulon have been firmly in the hands of our troops since early this morning," the Nazi high command said.

Italian troops as well as German marched into the French naval base city, the communique asserted, taking over the fleet had been agreed upon by both Adolf Hitler and Benito Mussolini.

The Germans said they acted to prevent the French warships from slipping out to sea.

PEANUTS COMING IN FAST

"We are making more room to store the peanut crop," said W. B. Starr today as he arranged to begin storing in the former Coca Cola building, adjacent to the Cisco Daily Press.

Starr, anticipating the need for lots of storage room in Cisco, had already rented the old building, but was waiting until he had filled his other storage capacity before using the Coca Cola building. He will now begin unloading the long line of trucks that have been coming to his other storage place, at this new site.

Texas is marketing its biggest peanut crop in history, and the price is also a record-breaker. While Cisco territory has much land unsuited to peanuts, favoring grain and pasture land rather than the list and also break its records for the once-lowly but now highly-prized nut.

The largest crop that has ever been housed in Cisco is about 800 tons, and 1942 Cisco storage will probably top that figure, it was stated.

WAR RELIEF—This photo hasn't anything to do with war. Posing on a West Coast beach, pretty Gene Tierney should take your mind off gas and coffee rationing and even forthcoming taxes.

MAY TRY OUTLAW GAS CUT

WASHINGTON, Nov. 27. — Leaders of the congressional anti-rationing bloc met today to consider legislation for outlawing the gasoline rationing program in oil-surplus areas in spite of President Roosevelt's warning that nationwide rationing must start next Tuesday to prevent delay of victory.

A spokesman for western congressmen who have revolted against extension of gasoline rationing to their states said:

"We know we cannot prevent rationing from going into effect now, but possibly we can outlaw it before too much harm is done."

The senate committee investigating the war effort began an investigation of the national gasoline rationing order today, having subpoenaed the four administration officials responsible for it—Price Administrator Leon Henderson, Rubber Director William M. Jeffers, Petroleum Co-ordinator Harold L. Ickes and Transportation Director Joseph Eastman.

The committee's chairman, Sen. Harry S. Truman, Democrat of Missouri, believes nationwide rationing necessary, but he wants to explain to the people plainly why it is necessary—to conserve rubber tires for essential driving.

Rep. Hatton W. Summers, of Texas, chairman of the anti-rationing bloc's steering committee, admitted that his group had hoped to get a postponement of the deadline—Dec. 1—through presidential action.

President Roosevelt smashed that hope last night in identical letters to Jeffers and Henderson. He also made it plain that he would veto any legislation designed to disrupt the rationing plan.

Mr. Roosevelt told Jeffers and Henderson that the need for nationwide gasoline rationing as a rubber conservation measure "grows more acute... with every day that passes." The Army and Navy must have rubber, he said, and civilians must conserve their tires.

He quoted the Baruch committee's report which warned that unless corrective measures were taken to conserve existing rubber tires "this country will face both a military and civilian collapse." The Baruch report described the United States' last summer as a "have not" nation with respect to rubber.

WASHINGTON, Nov. 27.—Petroleum Co-ordinator Ickes has announced two contractors will start work in the next week on the eastward leg of the emergency pipe line between Norris City, Ill., and the New York-Philadelphia area.

Ickes said the contractors will then have finished their portions of the first leg of the pipe line from Longview to Norris City.

Ickes estimated that the first leg is now 85 per cent complete, and "barring serious continued weather difficulties and delay in receipt of pumping equipment," the first leg should be in operation soon after Jan. 1.

THREE BOYS HELD. ELGIN, Nov. 27. — Three 15-year-old boys were held by officers today after the destruction by fire of a warehouse and 1,900 bales of cotton, valued at \$175,000.

AN ALTERNATIVE IS A FORCED SAVINGS PROGRAM; EITHER BE HARD TO WORK OUT, IT IS SAID

WASHINGTON, Nov. 27. — Planners of the Treasury Department and the Office of Economic Stabilization today are studying drastic forced savings programs and an alternative plan to ration spending money.

Those officials, under Secretary of the Treasury Henry Morgenthau, Jr., and Economic Stabilization Director James F. Byrnes, estimate that there will be an annual surplus of \$25,000,000,000 in purchasing power even after the American people pay their present taxes.

The economists who are seeking measures to curb inflation believe that a large part of that surplus must be absorbed if price, wage and rationing controls are to function.

The proposals to ration the spending of 130,000,000 Americans just as most consumer goods will be rationed appeals to the administration economic planners but it would involve tremendous — if not insurmountable — administrative problems.

One of the plans being studied would ration spending money like this:

Each wage and salary earner or investment coupon clipper would receive a certain amount of "free" ration coupons with his periodic wage, salary or investment income. Those coupons, say in a total amount of \$1500 a year, would permit him to buy the bare necessities of life tax free.

After an individual exhausted his free coupons he could obtain more by paying a tax on them. The rate of that tax would be sharply graduated to the prohibitive level, so that after say \$5000 or \$10,000 of spending it would take \$2 to buy \$1 worth of consumer goods or services.

ALLIES NEAR JAP MARINE BIZERTÉ UNITS LAND NAVAL BASE AT BUNA-GONA

LONDON, Nov. 27.—Lieut. Gen. Dwight D. Eisenhower Allied American, British and French armies were reported to be near Bizerte and to be fighting only 10 miles from Tunis today in a full-scale offensive against the powerful Axis forces in northeastern Tunisia.

While one Allied army drove to within striking distance of Bizerte, a great naval base, a second one was believed fighting in the neighborhood of Djedeida, junction of the Tunis-Bizerte railroad line 10 miles west of Tunis, the capital of Tunisia.

Another Allied force, driving toward the east coast, was reported to have reached a point 24 miles southwest of Tunis.

A great Allied army, possibly comprising the bulk of the Allied striking forces, was reported moving northeastward through the interior of Tunisia to strike at the Axis forces on the east coast including the Sfax-Gabes area.

An Allied general headquarters communique announced the capture of Medjez-El-Bab, 35 miles southwest of Tunis, after probably the most ferocious battle of the Tunisian campaign.

ALLIED HEADQUARTERS IN AUSTRALIA, Nov. 27. — Reinforced by strong and well-equipped marine units, Japanese troops crammed into the narrow Buna-Gona beachhead are holding their major positions in the face of day-long air assaults and steady but slightly abated pressure from Allied ground forces.

Comparatively meager official reports from the New Guinea front Friday showed little geographical change in the battle picture in the last 24 hours.

But a check on the Japanese dead confirmed earlier indications that the enemy, despite severe blows by Gen. Douglas MacArthur's aerial squadrons, had succeeded in bringing reinforcements into action.

DR. ARMSTRONG DEAD. FT. WORTH, Nov. 27. — Dr. Marvin Armstrong, 76, a pioneer physician of West Texas and father of Dr. W. Frank Armstrong of Fort Worth, died in a hospital early today of complications following a hip fracture. Funeral services will be held Saturday at 4 p.m. in Merkel, where he had lived and practiced medicine for nearly half a century. He was a Mason and had been a steward in the Methodist church for 55 years.

CISCO WOMAN'S BROTHER IN AN IMPORTANT JOB

Mrs. Jack Anderson, of 706 E. Twenty-third street, Cisco, has received a copy of the Corpus Christi Caller which carried the picture and an article about her brother, Lt. J. H. Mayberry, stating he is now stationed at the naval reserve base at Norman, Okla.

The newspaper article tells of the young man's career as a radio expert and flyer and is as follows:

"Lt. J. H. Mayberry, well known South Texas commercial pilot and radio man who enlisted in the U. S. navy reserve less than a year ago, is now stationed at the naval reserve aviation base at Norman, Okla., as assistant operations officer."

Lieutenant Mayberry who, before entering the navy was in charge of the Corpus Christi police radio station on Lawrence Drive, was promoted to full lieutenant six months after being commissioned a lieutenant (jg).

While flying commercially in this section he had charge of four flying schools and participated in the dusting of cotton for worm-ridden farmers. His work as a dusting cotton, a dangerous occupation, is believed to have hood him in good stead when he encountered the accuracy of naval flying.

"While in charge of the police radio station he was a regular employee of the city of Corpus Christi. He built the radio station at Cliff Maus municipal airport and installed the first two-way radio transmitting set-up for police work here."

RUSSIAN ADVANCE GROWING

MOSCOW, Nov. 27.—The Russians, smashing resistance and advancing on all sectors in a gigantic Volga-Don offensive, today were reported to have practically wiped out the German left flank northwest of Stalingrad.

Trapped German and Rumanian forces were being ruthlessly exterminated, as the prongs of a giant pincer rolled on in the plains west of the Don river.

Germans killed and captured had mounted to more than 116,500 since the offensive opened Nov. 19.

"The Stalingrad offensive continues relentlessly and unceasingly over snowy fields littered with the wreckage of tanks, guns and corpses," Radio Moscow said.

QUESTION SALARY LIMIT.

WASHINGTON, Nov. 27.—Validity of President Roosevelt's \$25,000 maximum net salary order is certain to be challenged by the new congress. Chairman George of the senate finance committee believes. Indicating he thinks the salary limit is invalid, George told interviewers he believed it "unnecessary and unnecessary" and that the president had "no authority to issue it."

NAVAL LOSSES 17,252

WASHINGTON, Nov. 27.—The navy's losses in killed, wounded or missing since Pearl Harbor total 17,252 officers and men.

ALL-DAY SERVICE SUNDAY AT CHURCH CHRIST

Remodeling of the Church of Christ building at Eighth street and H avenue is being completed this week. Plans had been made to build a new building, but due to labor and material shortage it was decided to make only necessary repairs for the present.

A special all-day service has been planned for Sunday, in the form of a home-coming day and invitations have been sent to former members of the church now living elsewhere.

The Sunday morning service at 10:50 will be conducted by the minister, Elbert Young, whose subject will be "The Four Uses," and the afternoon service at 3 o'clock will be conducted by Foy Short of South Africa. His subject will be "Christianity in Africa," and he should be thoroughly capable of giving facts, as his parents are missionaries there and he was born and reared in Africa. He has been in the United States the past three years, finishing his education, but expects to return to Africa soon to take up work as a missionary. The public is cordially invited to attend.

Dinner will be prepared by church members and served in the church building following the morning service.

BRECK AN EASY WINNER FROM CISCO LOBOES

Rallying after a smothering early in the game, the Cisco Loboes, far outweighed, made desperate efforts to make a comeback to push over a score against the heavy Buckaroos in the annual turkey game at Breckenridge yesterday, but though they several times threatened in the Breckenridge territory, they were too light and the holes were plugged too tight in the hefty Buckaroo line to allow the Loboes even one score, the game closing 60 to 0 against them.

The Loboes were outclassed and there never seemed a hope that they could score, despite heroic efforts to do so after they had had time to settle themselves and fix their strategy.

The Loboes won from the Buckaroos in 1933, but since that time the score has steadily gone against them. There has always been plenty of substitutes in the Breckenridge string, with plenty of power, many of the substitute players being almost as good as the first string.

Many Ciscoans accompanied the team's pep squad and band to the capital of Stephens county and did what they could on the sidelines to bolster the team.

CISCO SINGERS WILL MEET AT 2 P. M. SUNDAY

Cisco Fifth Sunday Singing convention will meet at 2 o'clock Sunday afternoon at the Church of God, Eleventh street and F avenue.

Don Rupe, chairman, says he expects a big attendance from surrounding communities, since this may be the last time many will be able to attend because of gas rationing, which President Roosevelt insists must go into effect December 1.

The Fifth Sunday Singing organization is twelve years old, Rupe stated and has never failed to hold the regular fifth-Sunday meeting since it was launched.

SPANISH ARMY GROWS.

MADRID, Nov. 27. — Spain's army strength was rising toward 750,000 today as members of the classes of 1938, '39, '40 and '41 reported under orders putting into effect the partial mobilization which Generalissimo Franco authorized shortly after the Allies moved into French North Africa.

Nature adjusts things, and soldiers who carry 60 pounds of equipment soon have that much less fat to carry.

DAWN OF CIVILIZATION

The great Nazi crime wave has passed its peak and is rapidly declining. Hitler and his diabolical system may be expected to go out in a wave of terror, but that may be the end of organized terror in Europe for at least a generation. And a new generation may be wise enough not to let such perils to civilization get another start.

PICTURE IS BEING FILMED ON A. & M. CAMPUS

COLLEGE STATION, Nov. 27.—Filming of the Walter Wanger Universal picture, "We've Never Been Licked," is now under way on A. & M. college campus with a location party of over 115 principals, directors, cameramen, technicians, workers and 6,510 Texas Aggie students all busy at work on the feature picture which will tell the story of the Spirit of Aggieland and the part the college has played in the history of this country.

Richard Quine, who appeared in "My Sister Eileen," plays the lead, with Noah Beery, Jr., the supporting star. The feminine lead is played by Anne Gwynne with Martha O'Driscoll supporting. Other important parts are played by

William Frawley and Harry Davenport, with Edgar Barrier, who played the Polish pilot in "Eagle Squadron," doing the main character role of Nishikawa.

The story was written by Norman Reilly Haine, who also did "Eagle Squadron" for Wanger. Haine was on the campus the past few days, making minor changes in the manuscript which is portraying Texas A. & M. college life as it actually is.

Even Reveille, the Texas Aggie mascot, has taken a role and has become the worst scene-stealer on the lot. She waits until Director Jack Rawlins calls "action!" then she steps right into the forefront of whatever the scene being taken may be.

It is planned that all the Aggies in school now will appear in the many scenes to be taken at the college and over the Thanksgiving weekend 300 girls from State College for Women will be imported from Denton to take part in the staged field artillery ball sequence which is a highlight of the picture.

Over 500 Aggies have volunteered to forego their Thanksgiving vacation to return to the campus and take part in the dance scene which it is expected will take most of two days in filming. The Aggieland orchestra, the student dance band which was a recent Fitch Bandwagon and Show Time radio feature, will provide

the music for the two-day dance. All expenses of the T.S.C.W. girls to and from the college and the costs while on the campus will be taken care of by the movie company. Later a camera crew will move up to Denton to include a few shots from the Aggie's sister school which plays a part in the story.

So long as favorable weather continues it is expected that the location party will be at the college for approximately five weeks more and then return to Universal City, Hollywood, where the film will be completed. Approximately 70 per cent of the picture will be taken right on the campus and its environs in order to keep the cost of sets below the governmental restrictions.

So far the shooting is progressing on schedule. Director Rawlins has announced Ralph Brown, who is handling the recordings of the A. & M. college music, is highly pleased with the way the band, the Aggieland orchestra, the yell practices and singing cadets are turning out. "It's perfect and it is played and sung just the way the music was written," he explained.

BROADWAY AFTER DARK 1942

New York's famous "Great White Way" is white no longer. Having shed its glamorous glare for the duration under Army restrictions governing outdoor lighting on the East Coast, the "main stem" carries on in a subdued manner with many of its former patrons away in the armed forces. Lads in khaki and Navy blue, mostly from out of town, outnumber civilians by far as they give the swank spots the go-by in favor of lesser-known places where their few dollars enjoy a longer life. Painful indeed has been the experience for night clubs where the torrent of gold has diminished to a trickle. At least two of these places are reported about to close their doors and many others are in bad financial straits. Here is Broadway today wearing its mantle of gloom.

The performance will be interesting and, in many ways, unusual, say the ambitious young men.

Announced features will be a Gypsy fortune-teller, brought here at considerable expense; penny-

pitching contest, weight-lifting and several attractions of a surprise nature that have never been seen in Texas before.

For the opening night admission charges will be two cents for adults and one cent for children.

NEW ORLEANS, La., Nov. 27.—A widespread civil service campaign in this area Thursday to recruit critically needed junior mechanics, \$1,860 a year, for civilian employment at the army air force sub-depot, Midland, Texas, according to the local civil service secretary.

Persons with two years' mechanical training or experience may qualify. Auto mechanics and men with hydraulic, machinist or instrument experience are especially urged to apply for this civil service position.

Application forms may be secured from and should be filed with the local civil service secretary at postoffice. Persons engaged in war work of equal skill need not apply.

TENTH CIVIL SERVICE REGION

The turn has come. People now ask who deserves the credit instead of who was to blame.

Don't let navy life carry you too far, girls. Tattooed pretties won't look nice when you go back to evening gowns.

ROCKWELL BROS. & CO.

On Dr. Goebbels' calendar there's a circle 'round January 1

ON JANUARY 1 the Nazis are going to find out just how we Americans really feel about this war—whether we're all of us in it all the way.

For January 1 is the date set by Uncle Sam when everybody on a payroll ought to be enrolled in the Payroll Savings Plan—so that at least 10% of the gross payroll of every firm goes into War Bonds every payday.

And when we reach that goal by January 1—it's going to be painful news for Dr. Goebbels and his cronies!

At the moment there are many of us who ought to be on Payroll Savings Plans—and aren't. And though some of us are investing more than 10%, a lot of us are doing less than we can and should.

So it's up to you to see that we "Top That 10% by New Year's." If you're not in on the Payroll Savings Plan, sign up today. If you're setting aside less than 10%, get signed up for more—and fast! If you can afford to invest more than 10% do it—and be glad you can.

For there's nothing that can end this war quicker, nothing that can shatter our enemies as completely as the knowledge that we Americans are all of us fighting this war with everything we've got! And doing it our own democratic way—because we know in our own minds we've got to do it to survive.

And in serving our country we serve ourselves—not only today, but tomorrow as well. For every \$3 we put into War Bonds comes back to us as \$4 when the Bonds mature—to buy the things we want and cannot get today.

Won't you put your name on the line today? Sign up on the Payroll Savings Plan for not 6% or 7% or 8% but at least 10% of your wages every payday.

WHAT YOU SHOULD DO:

If you are...

1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
3. Working in a plant where the Payroll Savings plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.
