Department of Education Officials Inspected Auto Training School Quarters

A party of four from the state department of education and the Dallas war board area were in Cisco Saturday morning, checking on the progress of the buildings to house the Women's Automotive Training school to begin here December 14, and to aid in setting up the budget for the accounting system.

The visitors expressed themselves as well pleased with the enthusiasm and cooperation manifested in the rapid progress of the buildings which are to house the big school.

While here they visited Williamson Dam and the swimming pool, through the courtesy of E. Crawford, and were astonished at the magnitude of Lake Cisco and other symbols of building effort.

Conferences were held with Mayor G. P. Mitcham, A. D. Anderson, Charles J. Kleiner and Capt. R. N. Cluck, who head committees to whip the buildings into proper shape in record time.

The party consisted of Geo. A. Hinch, district supervisor of industrial education; T. J. O'Connor, chief clerk and auditor for the vocational department of state education; Mrs. Mary Mosely, dietitian for the Dallas war school, and Miss Billie Williamson, district supervisor of home-making in the department of state education, from the Arlington center division.

The party said their reports to headquarters would carry much praise for the local cooperation they had received in their various duties of checking and preparation for the school which they hope to see functioning in the shortest possible time.

Mayor Mitcham assured them their committees would have their various jobs completed at the specified time, and that all citizens would continue to cooperate in every way possible.

Cisco Lobo band members held their annual banquet at the First Christian church Friday night, with an attendance of about 90 members and guests. A. D. Anderson, Jr., president of the organization, was master of ceremonies.

Guests were Rev. James R. Wright, who gave the invocation; Mrs. Wright, Mr. and Mrs. W. W. Fewell, Band Master Merle Evans of Harbin - Simmons University and his party of entertainers.

TOUGH AUSSIES MAKE IT HARD FOR THE JAPS

MACARTHUR'S HEADQUARTERS IN AUSTRALIA, Nov. 28.—Australian veterans advancing on Buna, in northeast New Guinea, have smashed Japanese counter-attacks inflicting losses, while Allied bombers blasted enemy machine gun nests and mortar emplacements.

The Japanese, penned in a beachhead 40 miles square with their backs to the sea, counter-attacked Thursday.

It was becoming increasingly likely that the Allies will occupy Buna without a general battle, United Press Correspondent Don Caswell reported from somewhere in New Guinea.

He said the Japanese might pull out of Buna and select some other place for a test stand, where evacuation would be easier. The water is shallow around Buna Point and it is ringed by a reef.

If American forces along the Kokoda track take Buna, they still will leave pockets of Japanese around the airfield and around Sanananda and Gona, hence Buna's fall would not necessarily mean a complete Allied victory.

CHURCHILL BROADCAST
London announced Saturday that Prime Minister Winston Churchill will make a world-wide broadcast this afternoon on the eve of his 68th birthday. The broadcast is scheduled for 3 o'clock, Cisco time.

KILDAY STEPS DOWN
AUSTIN, Nov. 28.—Railroad Commissioner Beauford Jester, who succeeded Jerry Sadler, announced Saturday that Wallace Hughson of McKinney would replace Jim Kilday as head of the commission's motor transportation division Dec. 15.

EARTH CRACKS
PITTSBURGH, Pa., Nov. 23.—The earth split open, houses cracked, pavements buckled and scores of families were evacuated in a disastrous mine subsidence here Friday night and early Saturday, the worst in Eastern Pennsylvania's hard coal fields in several years.

DEMAND LEON'S SCALP
WASHINGTON, Nov. 28.—Abandoning efforts to block nationwide gasoline rationing, a growing group of congressmen launched a new fight Saturday against Price Administrator Leon Henderson. Their announced aim is to force his removal from the federal service through the medium of appropriations.

NAZIS OUTGENERALED; MUST PAY THE PRICE

MOSCOW, Nov. 28.—The Red army has cleared the last German soldier out of the Don Elbow west of Stalingrad and the remaining enemy forces, corralled in a rapidly closing ring of Russian guns and bayonets, are being hurled back east upon the bayonets of the Stalingrad garrison, frontline reports said Saturday.

Closing an important gap in its curving line, army dispatches reported the recapture of Kletskaia, Cossack city on the west bank of the Don 80 miles northwest of Stalingrad and a strong point which had been in enemy hands since last August.

The Russians had bypassed Kletskaia early in the new offensive.

While one force was taking this town, Pravda said, another swung east after an arching thrust from above Stalingrad and closed the Russian trap about the Nazi force on the west bank of the Don.

(The military correspondent of Reuters, British news agency, reported in London that the Russian pincers had closed on the Don below Kalach, rail town 40 miles west of Stalingrad, thus completing encirclement of the large Nazi force in the pocket southwest of Stalingrad.)

The Germans were reported counter-attacking frequently and futilely after being hurled to the east bank of the Don. Anticipating the Nazi moves, the Red army said its forces were methodically trapping and exterminating the enemy groups one by one.

Fuel rationing for automobiles begins at midnight Monday, and if the motorist fills his tank before that time, even though he does not receive a "B" or "C" card, he will have his tankful, plus his four-gallon rationing, to last him the full week.

By that time he has been allowed by the rationing board more than the "A" card gives, he can go on his way very merrily, provided his tires will warrant the extra mileage allowed. If he is not entitled to more than the "A" allowance, he will be compelled to adjust himself to the new condition.

As to coffee, if the applicant has sugar rationing stamp number 27, and can find a grocery store open, he can get one pound of coffee today or any day thereafter, and this must do him until January 3.

The sugar book stamps, to be used in order of 27, 28, 25, 26, 23, 24, 21, 22 and 20, will be good for a five weeks' period each. Only persons over 15 years old are entitled to coffee rations.

TWO HUNDRED SOUVENIRS—Despite two severed control cables, 200 holes in its fuselage and a left aileron almost torn away, this American B-24 Consolidated bomber got back safely to its base from long bombing flight in Libya. Crew members survey the scars of battle. (O.W.I. Photo)

Albert R. Westfall, Jr., 24, son of Mr. and Mrs. A. R. Westfall, 309 W. Eighth street, writes from England that he is in good shape and that the war outlook seems much brighter to the overseas boys.

Westfall, a private of the first class, is a parachute rigger with a bombing squadron and the letter was written November 13. He entered the service Jan. 3, 1941, as a volunteer and has been overseas about three months. The Cisco young man likes England and the English folk but of course, years for the good old United States.

He asked that the Daily Press be mailed to him regularly. He enclosed a clipping from "Stars and Stripes," published by the U. S. forces, in which Amos Carter, publisher of the Fort Worth Star Telegram and now in that country to visit his son, complimented the men of the expeditionary force on their military bearing, good conduct and general cooperativeness.

The whereabouts of Billy L. Westfall, 21, a brother of Albert R. Westfall, who was reported missing after his ship went down off the Java coast, in March, is still unknown.

ARMY ATTENDANCE
WASHINGTON, Nov. 28.—The war department Saturday announced that church attendance in the army during August totaled 3,638,060, with reports of 68 outlying garrisons still unrecieved by the chief of chaplains. Services held during the month totaled 62,911, a large proportion of which were held out-of-doors.

Freedom comes from two words, free and doom. Man can't be enslaved against his will, for he is free to choose doom instead.

WASHINGTON, Nov. 28.—Big Foot Wallace, famous frontiersman of early Texas history, will be the namesake for one of 24 Liberty ships already named by the nation's school children, the maritime commission has announced.

WAR STUDENTS.
NEW YORK, Nov. 28.—Facing a heavy loss in enrollment due to operation of the draft law, colleges and universities learned Saturday that their classrooms may be filled by as many as 250,000 men from the Armed Forces under a plan expected to be outlined in detail within the next two weeks.

BANK LOST \$9,426
HALE CENTER, Nov. 28.—A "slinky" man and his heavy-set companion were pursued by sheriffs, state highway patrolmen, rangers and federal officers Saturday during the robbery Friday of the First National Bank, in which the pair took \$9,426. They escaped in an automobile which was stolen, as one that had been identified from a farmer.

MISS LAVERNE TOMLINSON arrived Friday from Breckenridge to spend the week-end with her grandparents, Mr. and Mrs. R. M. Bates, and aunt, Mrs. M. P. Farnsworth and family.

U. S. AND BRITISH AIR POWER GROWING RAPIDLY; ATTACKS ON AXIS INCESSANT, DETERMINED

Allied troops Saturday were coming to close grips with Nazi columns in a drive to sweep them from Tunis and Bizerte and touch off an Axis African Dunkirk.

Reports from North Africa placed Allied spearheads at 15 miles or less from Tunis in what appeared to be a move to seize the Tunisian capital and isolate the Axis garrison defending the Bizerte naval base.

Some reports of Vichy origin placed the Allied vanguard within 10 miles of Tunis but there was no confirmation of these dispatches from authoritative sources.

The Allied High Command reported that Tabourda, 15 miles from Tunis, had been captured—apparently with little opposition. The American and British troops were moved on Djadeida, 10 miles from Tunis.

Allied air power showed a marked increase in the North African theater and 11 Axis planes were reported shot down in air combat.

The British Eighth Army air force was tightening the screws on the Axis from the east, plastering key Axis bases with heavy air bombardment. Targets in Sicily and the Italian Dodecanese Islands were singled out for attack.

Allied air strength, which seems to be the key to the Tunisian campaign, was swiftly increasing. Its growing power was indicated by continuous attacks, despite sloppy weather.

All types of American planes operating in the North African theater hammered an air field in Central Tunisia on Thursday, destroying 40 enemy planes. Then a British armored column moved in and took the field over.

(Allied General Headquarters in London announced that 11 enemy planes had been shot down in forward areas of Tunisia on Thursday. The Allies lost two fighters and the pilots of both were saved.)

Brig. Gen. James Doolittle's American 12th Air Force hammers Axis communications lines without surcease. One of their attacks was on the railroad station at Matui, where enemy troops and supply trains were waiting.

It was learned that one unit of the famous French Foreign Legion, which gave the Americans so much trouble south of Oran, has sworn allegiance to the American Army. It soon will be fighting with the Americans, with equipment it had previously lacked.

CONSTRUCTION STOPPED.
WASHINGTON, Nov. 28.—The War Production Board Saturday ordered immediate stoppage of all work on the \$45,000,000 expansion of the Continental Ordnance Plant at Hammond, Ind., in line with its policy of curtailing the use of materials for construction projects.

STALINGRAD GETS FOOD
MOSCOW, Nov. 28.—For the first time in more than a month supplies were flowing into Stalingrad Saturday from the northwest through the relief under Colonel Gorokhov smashed through German siege lines and made contact with the garrison of the beleaguered city.

A music lover is a person who doesn't know the name of the disagreeable noise the radio band is making.

NEGRO RUNS AMUCK.
MORTON, Tex., Nov. 28.—Officers kept secret Saturday the whereabouts of a negro who ran amuck Friday, killing one man and injuring a white woman and a man before he was captured by a posse. The negro, whose name was not disclosed, was taken to the Cochran county jail here, but officers would not say whether he was still there or had been moved. Angry crowds milled about the jail.

GALVESTON'S LARGEST
GALVESTON, Nov. 28.—Exactly one year from the day on which the Gray's Iron Works shipbuilding division confirmed a contract with the government, the 220-foot coastal tanker Seven Sisters, largest vessel ever launched at the port of Galveston, went down the ways Friday, the first of a series of such vessels to be built here.
