## EASTLAND CO. AGAIN EXCEEDS BOND QUOTA

### Bill Latch Writes Fine Letter to Home Folks; Okehs Jimmie Roosevelt

Four letters from Bill Latch, U. S. marine, "somewhere in the Pacific," were received by his parents, Mr. and Mrs. W. Z. Latch, this week. It was the first time he had been heard from in five weeks. The letters were dated Oct. 30, Nov. 6, Nov. 16 and Nov. 20, and the Nov. 16 message was received first. He wrote, in part:

Dearest Folks: This is Nov. 6, and a former Lobo, several thousand miles from Cisco, is thinking of his home team and what they are going to do with Ranger on Nov. 11.

Days have come and gone in a hurry. The marines celebrated their 177th anniversary the tenth.

### WEAVER AND AIDES HAVE TRYING JOB

The Eastland county gasoline panel of the War Price and Rationing board, headed by Joe Weaver and consisting of eight other selected citizens, this week was deep in the task of passing on applications for supplemental mileage.

In a statement on behalf of the board, Weaver appealed for patience on the part of the public, pointing out the difficulties and the fact that the board is necessarily governed, not by what it would like to do, but by what it must do under OPA regulations.

He asked particularly that applicants use care in the making of applications, and that they inform themselves upon what can and cannot be granted before making requests which often must be disallowed, either because of illegality or because of improper application. Such care will materially assist the board in its work.

"The citizen must understand," said Weaver, "that whenever an applicant is granted supplemental mileage, that applicant sacrifices 150 miles of the unrestricted driving allowed to the holder of an A or basic card. This mileage is taken from the 240 allowed by the A card, leaving only 90 of unrestricted driving.

"Anyone receiving other than an A book certifies that he will NOT use his car for more than 90 miles per month for pleasure driving, or for any driving other than that directly connected with this business.

"The citizen must understand that we are controlled by regulations of the OPA. Every effort is being made to fit the regulations to our local situation, where distances make the auto much more essential than in areas of crowded population having public conveyances. We are trying to be fair and impartial. It may be that in some cases we are very much in error. But if errors occur we will gladly rectify them.

"Keep in mind that upon asking for supplemental mileage and receiving it, the applicant MUST SURRENDER 150 miles of UNRESTRICTED DRIVING allowed by the A book.

In other words the A book is unrestricted until mileage in excess of it is granted. The values of the units represented by coupons at this time are: Four gallons in the A, B and C books and five gallons in the T1 and T2 books. The coupon unit in non-highway use is one gallon for E books and five gallons for R books.

"Naturally some confusion arises in putting over a program of this character. We are doing our best to get the cards out. We hope the county will be patient with its board."

Armistice the eleventh, and soon Thanksgiving will be here. People are slow to realize how much there is to be thankful for. The folks at home can't know how fortunate they are that we are fighting this war on foreign soil, rather than in their own backyards. The pacifists and non-belligerents don't know what a war at home would mean. Personally, I would prefer to fight ten wars away from home than one at home.

If I ever get a chance I will send my blue uniforms home. The marines have done away with them for the duration. We can still wear them on liberty (if we ever get any more liberties), but the green uniforms are the official ones now. I want to save my blues in memory of the marine corps and my days on the Happy Helena.

If everyone at home is as well as I am, we are a healthy family. I am feeling fine and we are still going strong (as much as the Japs hate to admit it). However, I'll be happier when this whole affair is ended.

I had a letter from Van and Paul the other day, and enjoyed them fully. All of you write me, often, for about all the boys get out of life here is what the postman gives us.

So Lela is going classy on us and thinking of FBI work that has been offered her! Then she mentioned a government inquiry to ask if she would accept an appointment as teacher in a Jap relocation center. I don't know whether to credit it to stupidity or persistence, but if the benighted Jap children are as hard to teach as their service men, you're facing a real job. We spank their army and navy every once in a while, but they try to get away with the same stuff again. If you take that job, I hope you have a lot more success teaching them with books than we have with guns. I hate to think of our teachers leaving the schoolroom. After all, our nation must stand on truth and righteousness, not military strength. Without knowledge, we can never survive as a people or a nation. I think you are rendering the greatest service possible just where you are.

Sure wish I could have seen Tom Morrison. I know he is one of the best soldiers that ever has been. Lucky boy, he was, to get his time on the "Lex" when he did.

I didn't know that Rex Pollard had been shipped out. Do you have any idea where he is? Send me his address. We get around some, and I might run into him some day.

Incidentally, I'm sure some of the chronic sawklers have been on the Roosevelt boys. I don't know about the rest, but Major James Roosevelt of the marines is o. k. I have had the opportunity of knowing (came through boot camp with them) some of his raider outfit. They are sent on some of the most dangerous and impossible missions possible. His duties are largely executive, but he is always the first "over the top" and his men almost worship him. The best way I know to get punched in the nose is to say something about him to some of his men. They are really a good outfit. The officers stand in the same "chow" line and eat the same chow with the men. They turn to with the men and formality is unknown. There is an unusual spirit of comradeship between the officers and their men out here on the battle line.

The candy you mentioned having sent hasn't come yet, Ardie. I appreciate it very much, but don't try to send any more, for it takes about two months to get there and usually is not in good shape when it arrives.

It will probably be Christmas when you get this letter, so I will wish you a merry Christmas now. Sorry, but we can't buy presents here. We are lucky to

get enough to eat shipped to this place. We couldn't send presents if we could buy them.

Again—I am fine, and don't worry about me. Oh, yes; forgot to say I'm a corporal now.

Much love, BILL LATCH.

### COMMON SENSE SHOULD RULE GAS RATIONING

WASHINGTON, Dec. 5.—Senator Tom Connally has demanded a new national survey of the conditions and necessities of gasoline rationing in various parts of the country.

"Rationing should preserve essential services and essential needs and not destroy the normal and necessary functioning of our economy," he said in a statement. "It further seems to me that the country should be divided into regions or zones dependent upon

the geography, available transportation facilities, distances between points, and all other factors.

"Connecticut, with a congested population, plenty of railroads and buses, and plenty of electric transmission lines, cannot and should not be treated by the same yardstick as Texas. There is no use in putting the whole country in the same straitjacket."

Rationing of gasoline, he concluded, "should be based upon common sense and good judgment rather than upon arrogance and autocracy."

### GERMAN CLAIMS.

BERLIN (From German Broadcasts), Dec. 5.—The high command declared Saturday that a powerful British-American advance detachment had been "almost completely annihilated" in the battle of Tunisia and an important railway junction had been regained by the Axis after several days of fighting.

### ABILENE SCHOOL HEADS

WASHINGTON, Dec. 5.—Presidents of three Abilene, Texas colleges were to depart for home Saturday after conferences with army, navy and war manpower commission officials. The Texans were here to present officials with a description of the facilities of each school to determine how they could be used by the armed forces.

### TOKIO WARNS JAPS.

NEW YORK, Dec. 5.—A Tokyo radio commentator warned Japanese listeners Saturday that the second year of the war with the United States will be a test "to see whether we are prepared or not to meet what is in store for us."

CONSTRUCTION CONTRAST—F. B. Garner (left), 4 ft. 11 in. tall and R. L. Shaw, 6 ft. 11 in. in height, are the "tall and short of it," at Terminal Island, Calif., shipyards.

### WORK ON AUTOMOTIVE TRAINING SCHOOL BUILDINGS IS NEARING COMPLETION; TO OPEN DEC. 14

Around 40 men were working Saturday to rush to completion the Women's Automotive Training School building, so that training might begin on the scheduled date—December 14.

Carpenters, plumbers, painters, electricians and other laborers seemed of one mind—to hurry the work as fast as was humanly possible in order that there should be no delay on Cisco's part.

The concrete floors are practically laid, ceilings will be up by Monday and painting of the interior is following closely behind this work. Partitions are up and one can now visualize the completed buildings and rooms.

The boiler for steam heat is set and a roof has been placed over that part of the plant.

Apparently, the canteen is rather behind other work, but workmen in charge say that it will be ready on time—everything to be finished this coming week.

Two additions have been made to the canteen, which now allows two 14x28 feet dining halls, a roomy kitchen, store room and office room. Walks will flank the canteen to protect it from mud and water.

The parking space in front of the main building has been graded and graded, making it convenient to come and go with automobiles, even in the worst of weather.

Superintendent J. R. Crawford has been on the ground this week, busy arranging for office personnel and supervising details, so

### SEVEN SHIPS OF AIR PATROL VISIT CISCO SALES OF \$100,000 NECESSARY THIS MONTH TO PUT US RIGHT FOR ENTIRE YEAR, SAYS FROST

Announcement Saturday afternoon from Charlie Roberts, local airport clearance officer, that a wire from Dallas said a fleet of eight ships would visit the airport at Cisco at about 3:30 a clock, took about fourteen persons to the port to see the landings and what it was all about.

Seven of the ships came in under the command of Lieut. Rodney Napier of the Fort Worth Civil Air Patrol, making a trip from Fort Worth via Ranger and Stephenville. One of the ships had trouble and did not leave the home port.

The planes took gasoline at Cisco airport and returned to their home port.

Personnel of the pilots and navigators were Lieutenant Napier, David Leavell, Mrs. Clyde Burns, Thomas Marrs, Ed Frederick, Woodrow Atkinson, Mary Johnson, Mrs. Robert W. Canfield, A. G. Hahn, Dr. L. R. Griffin, Bob Singleton.

Local persons meeting the visitors were Judge Eugene Lanford, A. D. Anderson, E. L. Jackson, R. L. Grantham, Tom Stark, Mr. and Mrs. R. L. Ponsler, Mr. and Mrs. E. P. Crawford, P. R. Warwick, George P. Fee, L. A. Warren, Jack Anderson and W. H. LaRoque.

### REDS CROSS DOWN IN SUDDEN ATTACK

MOSCOW, Dec. 5.—Russian shock troops, lashing out suddenly in a new direction southwest of Stalingrad, have crossed the lower half of the Don river bend to the west bank at three important points and have driven their bridgeheads 10 miles beyond the river, special dispatches reported today.

In their new attacks, shifting their spearheads westward, the Russians were driving along the railroad toward Rostov at the mouth of the Don, key to the Caucasus, 240 miles southwest of Stalingrad.

Their sudden move had put their battle for the annihilation of the great Axis armies trapped between the Volga and the Don into a completely new phase.

Already, dispatches said, the Russians had driven through a number of heavily fortified villages.

Today's noon communique said that southwest of Stalingrad the Russians had overrun several German fortified positions and destroyed 10 dugouts and 40 pill boxes.

In the factory area of Stalingrad city, Russian assault detachments operating in small groups destroyed 25 enemy pill boxes and dugouts during the night and killed 200 Germans, the noon communique said.

Repeated German counterattacks west of Rizev, 135 miles west of Moscow, on the central front, cost the enemy 1100 men killed and seven tanks and 120 trucks destroyed, the noon communique reported.

### THE PANAMA DEAL

WASHINGTON, Dec. 5.—An agreement transferring to Panama American property valued at from \$12,000,000 to \$100,000,000, went to the house Saturday for final action over minority senate protest that the measure was an attempt to by-pass its constitutional authority on treaties. The measure, which the administration advocated as a means of removing "possible sources of irritation and misunderstanding," was approved by the senate Friday, 40 to 29. If it had been a treaty, as senate opponents asked, it would have failed to obtain the necessary two-third majority for ratification.

Eastland, Texas, December 5, 1942.

Cisco Daily Press.

Cisco, Texas.

Ranger lead all other towns in the county in the sale of War Bonds and Stamps for November.

The five banks and thirteen postoffices reporting sales of War Bonds and Stamps for November show a total of \$53,607.85.

At an early date there will be added to this bonds sold out of Eastland county and purchased for employes and other parties living in Eastland county, which should run the total up to approximately \$60,000.

Our quota for the month of November was \$50,400, so Eastland county has again—for the fourth month—exceeded her quota. The sales reported are as follows:

RANGER	\$13,848.75
CISCO	12,189.90
EASTLAND	11,840.50
GORMAN	8,093.75
RISING STAR	6,603.00
CARBON	550.00
OLDEN	388.60
DESDEMONA	89.00
PIONEER	5.75
DOTHAN	5.00
OKRA	2.25
SCRANTON	1.00
NIMROD	.25

In order for Eastland county to have met her quotas for the entire year, it will be necessary to sell during the month of December \$100,000 worth of Bonds and Stamps. This will be approximately double our usual quota.

However, during December, we believe we can confidently expect the farmers and ranchers alone to buy between fifty and sixty thousand dollars worth of Bonds and Stamps.

The county is making about a two-million dollar peanut crop and cattle, other livestock, wool and mohair are at the highest prices in years, and December is the big month to bank deposits from sales of all of these commodities and livestock.

As our bank accounts build up from these welcome deposits, the safest investment we can make of all or a part of the same is to invest in the bonds of our government.

We will be assured a return of our principal with interest; we will keep down inflation; we will have money after the war is over for new homes, new farms, new ranches and the many other things for which the American people like to spend their money—if we invest now in War Bonds.

But, we will have something greater than all these. We will be backing up our boys on the far-flung fronts and expediting the financing of this the greatest of all wars.

We will that much faster bring to a close the war, stop its expense and, above all, prepare the way for our boys to return to the comforts of the fireside and their own family circles.

I know we will all do our duty. REMEMBER PEARL HARBOR! Very kindly yours, CYRUS B. FROST, Eastland County Chairman.

### U. S. PLANES SHOWER BOMBS NAPLES, ITALY

Naples, Italy's third city and chief Nazi reinforcement port for North Africa, has been hard hit by a shattering American air raid, it was disclosed today.

The Italian high command admitted 159 killed, 388 wounded and heavy damage done in the raid in which Allied heavy bombers followed on the tail of an Axis plane formation from Africa to sweep over the city undetected and shower their bombs on the city by daylight yesterday. Hits

were scored on an Italian battleship and two cruisers in the harbor, Cairo reported. A Middle Eastern command communique reported that the attack was made in heavy force and successfully on the dock area and other targets. In making the raid the Allied planes, United States Army Flying Fortresses, gave Italy the first terrible substantiation of the warning by Prime Minister Winston Churchill last Sunday that the Allies intended to attack southern Italy mercilessly from Africa. The Allied planes had been able to bring Naples within effective range because the Eighth Army had given them new bases by driving westward through Libya to the bulge at Benghazi, 700 air line miles away. Congress can't run the war. It is too busy with "domestic problems" that can be used to make votes.

Subscription rates: \$2 per year by mail (outside of Cisco), \$1.50 in advance.

WARS AND FIRES

Wars occur only occasionally in the life of a nation. The United States has averaged about four a century since it started with the Revolution. But fires and accidents go on all the time.

Whether wars can be prevented until more spiritually-minded peoples inhabit the earth is doubtful. Certainly all nations have had wars. But most accidents are preventable by simple habits of caution, and such a devastating fire as that in the Boston night club has no excuse.

There were other things that night that fire. One of nearly 300 patrons, a woman, perhaps, with her hands or feet in a flammable material, didn't know what she was doing.

Can't fire insurance companies and honest officials work out and the officials regulators that will prevent these needless unnecessary conflagrations—would that we were expecting the best of our boasted intelligence and intentions.

UNKNOWN ISLAND

For an island as remote as Santina, it is not surprising that about as few as 100 people live in Europe. Legend has it that the coast is so inhospitable that no one would ever attempt to land there.

CHANCE FOR ITALY

Obviously Italy for her own salvation, should pull out of the war and help herself instead of helping Hitler. Every consideration of common sense and historical policy demands it.

proved to be her worst handicap. It was Mussolini, who deserted union labor politics and created modern Fascism and Hitler merely copied his system with weird variations. For a time Italy seemed to thrive under it. Industry recovered and the peasant nation prospered.

The United States, a country by its proud tradition to the Italian people, has opened its eyes to the Italian people's plight. The Italian people are in great distress and poverty, smouldering with hatred in its efforts to save its own people.

DEMONSTRATION CLUB WITH MISS BACON

Worship Home Demonstration club met Thursday, December 3, in the home of Miss Alice Bacon. The recreation period was led by Mrs. Billie Bacon and Miss Willie Word, president, called the meeting to order.

The club decided to have a Christmas tree, Friday night, December 18, in the home of Mrs. M. P. Farnsworth. It was voted to take a gift to the party for a soldier, which will be given to the local Service Men's club for distribution. All left-over cookies will also be donated to them. The club voted to get material to make more afghans for soldiers hospital.

After the business period a celebration was held honoring the birthday of Miss Willie Word, retiring president. A unique gift of an umbrella apron was presented the honoree, which had patches of many different hues. It was found that the patches contained silver coins with which the owner may purchase a gift of her own choosing.

THE LOVELY WHITE BIRTHDAY CAKE

The lovely white birthday cake was taken out and served with hot spiced tea to a visitor and twelve members, as follows: Mrs. Philip Pettit, visitor; Miss

NOTICE TO THE PUBLIC. We, the Plumbers, and Electricians of Cisco, ask the people of Cisco to be patient, when we can't get to their repair work. Because of the shortage of skilled labor as well as laborers, we are unable to do all the work we have requests for in Cisco.

No doubt we could make much more by working for the government than we do in Cisco, which would leave no one to do the repair work. There is less than half the plumbers and electricians and twice as much work, so you see the spot it puts us on.

BRIEFLY TOLD

Rev. Wm. H. Cole, Methodist district superintendent and Mrs. Cole, enjoyed visits recently with their daughter, Miss Agnes Cole, senior student in the John Sealey nurse's school at Galveston. They also visited their sons, Hugh and Edwin Cole, students of Southwestern university, and their youngest son, Richard Cole, senior of Georgetown high school.

"Bringing Christmas Joy to the Soldiers" will be the topic discussed Monday at the Grace Garden club, which will meet in the club house at 3 p. m. A special program of music has been arranged.

Mrs. James Shelton and son, Burton Shelton of Abilene visited Mrs. Ida Shelton and other relatives in Cisco Friday.

Mrs. Andrew Watson, who had her tonsils removed at Graham Sanitarium Thursday, is reported doing well and has been removed to her home, 505 W. Eighteenth street.

J. Poe, Mrs. Leslie W. Seymour, Mrs. O. L. Stamey, Mrs. W. W. Wallace, Mrs. Joe Wilson and Mrs. M. F. Underwood.

CHAPEL PROGRAM WAS PRESENTED BY DAR.

A chapel program was presented Friday by Daughters of the American Revolution, which took the place of the regular meeting of the organization.

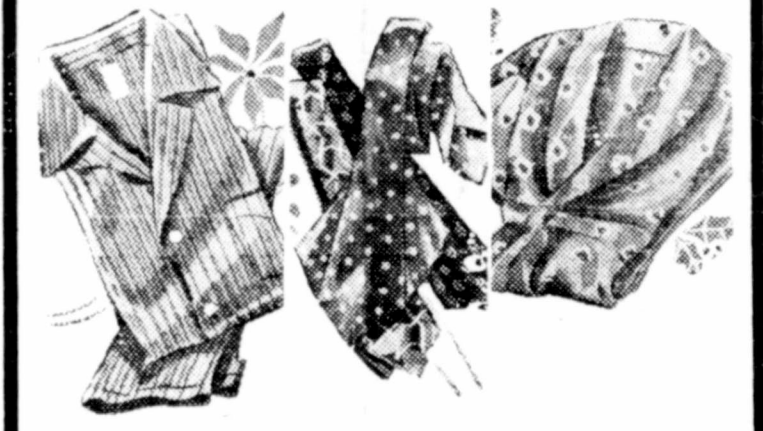

Mrs. Alfred Irby introduced the members to the chapel high school group, after which an article from the national DAR magazine was read by Mrs. Alex Spears and Mrs. Philip Pettit. Mrs. Yancy McCrea was presented in a talk concerning rules to be observed in giving the pledge to the flag and also when the national anthem is sung. She then led the assembly in giving the pledge, after which Mrs. Philip Pettit, DAR chaplain, offered prayer.

Mrs. Randolph Lee Clark, music chairman, led the group in singing a number of patriotic songs, with Miss Betty Slicker playing piano accompaniments. The songs were America, Battle Hymn of the Republic and God Bless America. Mrs. Alex Spears, president, gave a talk on the organization of the Daughters of the American Revolution, in which she gave organization dates of the national, state and local organizations. The Star Spangled Banner was sung by the assembly, led by Mrs. Clark. Prayer by Mrs. Philip Pettit closed the program.

DAR members present were Mrs. Alex Spears, Mrs. Philip Pettit, Mrs. F. E. Harrell, Mrs. Yancy McCrea, Mrs. Randolph Lee Clark, Mrs. W. C. McDaniel, Mrs. J. E. Caffrey and Mrs. W. W. Wallace.

GIVE TO THE COMMUNITY CHEST!

Owing to gasoline rationing your car will be a blank so far as having fun is concerned for this Christmas, but by giving to worthy causes you will find the greater joy which comes from making others happy instead of appealing to your own selfish interests.

And yet making others happy is selfish—but commendable. What greater selfish joy than that of knowing that you—yourself—have made many others happy through your giving in cooperation with others...

What an inspiration there should be in aiding those who are dependent on the Welfare association for their existence—their Christmas joy—their food—their clothing. And the Boy Scouts movement—to make a better man out of the boys who are enrolled there.

Aiding to carry on the Nursery School—the Hot Lunch program that enables many poor children as well as others, to have a hot, nourishing meal at noon time.

Giving what comfort you can to the Service Men's club and to the U. S. O. Find Your Christmas Joy in Giving to Others.
