L. A. HARRISON SUCCEMDED TO SUDDEN HEART ATTACK SUNDAY AFTER DINING WITH FRIENDS

Friends of L. A. (Buck) Harrison, 69, were shocked Sunday afternoon when it was learned that he had been found dead from a heart attack in an upstairs bath room of the J. J. Butts home, following lunch with Mrs. Harrison and other guests of Miss Mary Jane Butts.

Both Mr. Harrison and Mrs. Harrison had attended church services at the First Baptist church that morning and he had been feeling unusually well, laughing and joking with the guests and seemingly enjoying himself, as was his custom whenever he was with friends.

The group sat about the table until Mr. Harrison asked to be shown to the bath room. It was then about 2 o'clock. After an unusual absence someone went to see about him and he was found on the bath room floor with a lighted cigarette in his hand. He was already dead.

Mr. Harrison had long been identified with the business interests of Cisco and through his geniality and the good fellowship of his personality, he had made many friends since he came to Cisco in 1910, where he had been sent by the J. M. Radford Wholesale Grocery Co., from Abilene.

During most of his mature life Mr. Harrison had been identified with the wholesale or retail grocery business. He was connected successively with the Radford, Webster and Foxworth wholesale houses as salesman. He was in the retail business for a few years as owner of the Cisco Grocery Co. and the "M" System. Retiring from the retail business, he was again employed by the Webster house out of Breckenridge, and later with Foxworth grocery in Cisco where he was employed at the time of his death.

Funeral services will be held at the First Baptist church Wednesday at 2 p. m., with Rev. Cooper Waters in charge, assisted by Rev. L. W. Seymour, pastor of the First Methodist church, and Dr. McKinsey, of Grand Prairie. Green funeral home has charge of the body.

Luther Asbury Harrison was born near Gilmer, October 4, 1873. Moving to Ranger in 1895, he was later married to Miss Neal Rawls of Ranger. One son, now Lt. Eugene Harrison, commander of rangers aircraft company was born to this union.

Several years later, following the death of his wife, Mr. Harrison met and married Miss Josephine Wheeler of Dublin, June 25, 1911. To this union were born a daughter, LeClaire, June 26, 1913; and a son, now Lt. A. Harrison, Jr., who is stationed at Fort Custer, Mich., was born Nov. 9, 1916.

In addition to his wife and three children, deceased is survived by a brother, John Harrison, of Eastland, and two sisters, Miss Beulah Harrison and Mrs. C. E. May, of Ranger; two grandchildren, Dorothy Jean and Jimmie Harrison, of Dallas.

Pallbearers—W. W. Fewell, E. B. Butts, F. D. Wright, W. J. Foxworth, J. T. Anderson, Leon Maner, Alex Spears, Jewel Poe, Fred Grist.

Honorary pallbearers—Edward Lee, G. P. Mitcham, J. E. Spencer, Asa Skiles, F. E. Shepard, Levi Wilson, George Davenport, Cyrus Frost, F. B. Altman, Henry Drumwright, Charlie Fee, Dr. D. Ball, Dr. F. E. Clark, C. A. Williams, J. H. Reynolds, Will McCall, J. R. Burnett, Bob Weddington, W. J. Armstrong, Roscoe St. John, A. A. Webster, W. H. LaRoque, Dr. C. H. Jones, Frank Harrell, R. L. Ponsler, Bob Mancill, Otho Kean, J. T. Berry, Wm. Reagan, A. V. Clark, L. H. McCrear, L. J. Leach, S. H. Nance, J. F. Coats, W. B. Statham and J. T. Egeon.

To assist with flowers—Mrs. A. C. Green, Mrs. F. D. Wright, Miss Mary Jane Butts, Mrs. Bill Mitcham, Mrs. Jewel Poe, Mrs. F. E. Shepard, Mrs. Edward Lee.

In charge of memory book will be Mrs. Frank Walker, Mrs. L. J. Leach, Mrs. Asa Skiles, Mrs. George Boyd.

JOE MEADOR, POPULAR CISCO MAN, DIES

Joseph Terrill Meador, 51, a resident of Cisco for 22 years, died Sunday morning at 9:15 o'clock in the Methodist hospital at Dallas, following an operation. He had been in the hospital only a few days and his death was a surprise to his many Cisco friends, few being aware of his condition.

Mr. Meador is survived by his wife, one son and one daughter; a twin brother who lives in New Mexico and another brother who resides in Stephenville. He was a barber by trade and was highly skilled in his chosen work. He was born in Erath county, February 23, 1891. His son is a radio mechanic and operator and is now with the American forces in Puerto Rico.

The funeral was held at 3 o'clock this afternoon, from the First Methodist church, of which he was a member, with burial following at Oakwood cemetery. Rev. Leslie W. Seymour conducted the funeral services and Green Funeral Home was in charge of the remains.

Pallbearers—R. L. Ponsler, Alex Spears, H. C. Henderson, J. T. Eggen, Homer Ferguson, Reed Young, S. H. Nance. Honorary pallbearers were his many friends and all Cisco barbers.

This picture of the immediate members of the W. L. Parmer family was taken on November 9, 1942, on the occasion of Mr. Parmer's 80th birthday, when some 75 members of the family gathered at Lake Cisco for a barbeque.

W. T. U., 32 YEARS OF AGE NEXT MONTH, FURNISHES UNCLE SAM AMPLE POWER, MEN AND MONEY

Uncle Sam, observing the first wartime Thanksgiving Day since 1917, still has many things for which to be thankful, among them four substantial contributions to the war effort being made by the West Texas Utilities.

The company, which begins its 32nd year of service to West Texans next month, is credited with supplying ample power for production in this area, highly skilled men for the armed forces, many tons of scrap metal and with contributing \$1,200,000 in 1942 taxes.

Light and power from WTU'S three major generating stations at San Angelo, Quanah and Abilene now is serving war plants over a 45,000-square-mile territory with military training camps at San Angelo, Abilene, Ballinger, Stamford, Cisco, Vernon, Childress, Dumas and Dalhart. The need for electricity at all points has been met in full and without delay.

The company now has a total of 138 men in military service, with more being called almost daily. Twenty-four of the 138, many of whom are commissioned officers. One is a lieutenant-colonel, six are majors, four are captains, twelve are lieutenants, and one is a navy ensign.

Each local office has contributed quantities of scrap metal in community drives, much of which was highly prized copper and aluminum.

Statisticians have figured that the \$1,200,000 in 1942 taxes paid by the company, up 39 per cent from last year, is "enough to blast the Japanese with 57 million bullets from the new Gerand rifle," based on the army's specified price of 25 cents a dozen.

In addition to these four major contributions to the war effort, nearly a thousand employees in nine districts are competing for bond-drive honors. Early this year over 96 per cent of all regular employees pledged themselves to a voluntary war bond and stamp buying program.

The various districts, with headquarters in Abilene, Cisco, Stamford, Dalhart, Quanah, Ballinger, Mcamey, Childress and San Angelo, now are vying for the highest percentage-of-payroll purchases.

LARGE NUMBER CISCO MEN AND WOMEN BUSY TODAY SOLICITING FUNDS FOR COMMUNITY CHEST

An enthusiastic group of Cisco business men and women met this morning at the Laguna for breakfast and organization under the leadership of H. S. Drumwright, who has been chosen chairman of the Community Chest organization, to begin the drive for funds for the five benevolence named as recipients of the funds to be secured in the drive. They are Public schools hot lunch program, boy scouts, nursery school, welfare association and service men's club.

About forty persons were present and, after being teamed up in pairs, they selected the names of persons to be solicited. It was indicated that the funds would be secured perhaps by the end of the day, or not later than the end of the week.

Teams paired were as follows: O. L. Stamey and Arlin Bint; C. E. Hickman and J. E. Hays; Mrs. Rex Carrothers and Miss Lillian Shertzer.

Rev. Cooper Waters and Asa Skiles.

N. C. Huston and Austin Flint; Paul Culp and Harry Schmidt; Mrs. R. B. Carswell and Mrs. W. W. Wallace.

Mrs. Bill Mitcham and Mrs. Edward Lee.

H. A. Bible and Tom Stark.

Mrs. Paul Wood and Mrs. Bill Hogue.

Mrs. K. N. Greer and Mrs. Charles Sandler.

J. W. Slaughter and A. E. McNeely.

Cecil Shaw and Carter Belew.

E. P. Crawford and W. J. Foxworth.

Samuel Greer and G. P. Mitcham.

Mrs. J. L. Thornton and Mrs. Pete Nance.

Mrs. J. B. Pratt and Mrs. Ralph Glenn.

Dr. Gary L. Smith and Ernest Hiltson.

J. B. Pratt and W. R. Huestis.

Mrs. H. J. McArdle and Mrs. Edgar Muller.

Charles S. Sandler and R. E. Grantham.

Mrs. James Moore and Mrs. A. D. Anderson.

Homer Ferguson and Rev. L. W. Seymour.

R. L. Boyd and Pete Nance.

George Bond and Edward Lee.

Charles J. Kleiner and S. H. Nance.

MEGLASSON IS SECOND LIEUT. IN U. S. ARMY

George W. Meglasson, son of Mrs. Cora E. Meglasson, 1102 G avenue, Cisco, who has been attending the officers candidate division of the anti-aircraft artillery school at Camp Davis, N. C., has graduated from that institution and received his commission as second lieutenant in the army of the United States.

Lieutenant Meglasson was a bookkeeper for the Cisco Daily Press when he resigned to take a preparatory course at the University of Texas, later volunteering for army service.

His many Cisco friends join in congratulating the Ciscoan on his advancement by Uncle Sam.

TWO CHILDREN HURT IN BUS-CAR COLLISION

Johnny Kent, 14, and the 11-year-old daughter of Mr. and Mrs. J. F. Sharp of the Grapevine community, were painfully hurt in an accident this morning when a school bus and the car driven by George Kent, older brother of Johnny Kent, collided near the Grammar school.

Johnny Kent was taken to Graham Sanitarium and treated by Dr. D. Ball. He will be kept there overnight for observation. His injuries were cuts on the front, side and back of his head, and a cut on his eyelid, Dr. Ball said.

The little girl was treated by Dr. F. E. Clark and was carried to her home. Her injuries were on a foot and ankle, the seriousness of which is not known, pending an x-ray picture.

No others were reported injured.

Johnny Kent is a carrier boy for the Cisco Daily Press with a mighty good record for serving his customers.

U. S., BRITAIN PLEDGE UTTER DEFEAT OF JAP

LONDON, Dec. 8.—Messages exchanged by President Roosevelt and Prime Minister Churchill pledging their two nations to the utter defeat of Japan were made public here Tuesday.

"Our country no less than the United States was the object of an infamous outrage a year ago," Churchill told the president in a message on the anniversary of Pearl Harbor.

"We look forward one and all to the day when our full strength can be joined to that of our United States, Dutch and Chinese allies for the utter and final destruction of Japan's aggressive power."

The president replied that "partial retribution in kind has been meted out to Japan in the past few months but this is only the beginning."

"We will continue to strike with ever-increasing force."

ARMY MEN, REPRESENTATIVES FROM CALIFORNIA'S STATE DEPARTMENT HERE NEXT WEEK

Opening of the Women's Automotive Training school has been deferred until January 4, not because the building would not be ready on the date first fixed, December 14, but to allow the young women to spend Christmas with their families. The trainees will arrive January 2.

Capt. C. B. Potter, office chief of ordnance, Washington, D. C., was here yesterday and today, conferring with Henry A. Tillett, Estier Sorenson and others connected with the school setup.

The ladies who are at the Daniel hotel are connected with Applied Arts and Homemaking departments of Texas Tech college, Lubbock. Miss Sorenson is area supervisor of homemaking education in this district.

Captain Potter's work is to develop and set up training programs for civilian ordnance for employees.

Other representatives are to hold a conference in Cisco soon, one meeting of which will be held on December 17, 18, 19, which will include representatives from the state department of California and army representatives, who will review plans for the instruction courses to be tried out in Cisco, which they say is to be a kind of guinea pig for this department of work.

Meanwhile work on the building of the school, and remodeling of the Daniel hotel, which is to house many of these workers, is being rushed to a finish.

Miss Mabel Daniel, proprietor of the hotel, has about 16 carpenters, plumbers, painters and roofers busy making the hotel a modern place in which to house and provide recreation for the young women. Better sewage facilities are being installed, new bath rooms provided and closets built into the rooms, many of which are being enlarged, while a recreation room is to be made from the old cafe building, so that the young women may have wholesome recreation when off duty.

A new roof tops the whole structure, while painters renovate the interior.

J. R. Crawford is absent from the city today and Mr. Tillett is supervising work at the plant.

ALLIES MAKE READY FOR HEAVY TUNISIA ASSAULT FROM EAST; TERRIFIC STRUGGLE IS RAGING

LONDON, Dec. 8.—A grand Allied assault from the east on the Axis position in Africa, it appeared today, may hit the Germans and Italians while the Tunisia fighting still is in the hard skirmishing stage.

The British Eighth Army in the opinion of London observers probably has completed preparations for the break-through attack at El Aghelia which is expected to throw Marshal Erwin Rommel into a new retreat for Tripoli.

As the Eighth Army attack develops, it was said, the British First Army with its American and French elements under Lieut. Gen. K. A. N. Anderson can be expected to move forward to pinch the Axis from the West.

For the moment, reports from Africa made plain, the Allies in Tunisia were on the defensive as they worked to bring up sufficient air strength to break the Luftwaffe's dominance of the forward fighting zone.

However, it was doubted that the Germans with the limited land forces at their disposal will attempt to press forward any great distance despite their success in the opening rounds of the Tebourba-Djedjida-Mateur battle.

But it was agreed that Allied losses in tanks and men will probably continue so long as the Axis air superiority can be maintained in the battle area.

Allied bombing of Axis airbases at Bizerte and Tunis was believed to be hampering the Nazis in employing these fields and cutting their air attacks on American and British troops to a considerable extent.

German radio reports from Tangier said that Anderson's headquarters indicated the Allies would be forced to wage a defensive battle in Tunisia for some time.

Radio Vichy claimed that a new and violent tank battle was being fought west of Tebourba and the DNB Nazi News Agency said German divebombers and fighters had destroyed many Allied tanks.

The battle centered about Tebourba, 20 miles west of Tunis and 30 south of Bizerte, from which Allied troops retreated last week to a heights behind the city. German efforts to dislodge them proved fruitless, front patches said.

The tank clash was announced by an Allied headquarters communique which said the fighting started Sunday and was continuing. The official announcement gave no hint of progress.

Madrid dispatches from Algiers reported, however, that the Allies had placed a semi-circle of artillery in the hills surrounding Tebourba and were battering Axis dispositions, particularly of German armored units.

In the Mateur sector, at the apex of the Tunisian triangle toward Bizerte, self-propelled British-American guns engaged a German column attempting to drive into the Medjerda valley and compelled it to retreat with heavy losses.

Radio Morocco reported that Anderson's British and American forces in Tunisia were receiving support from naval artillery and driving steadily against the German positions.

STEEL PLANTS SPREAD

NEW YORK, Dec. 8.—The United States Steel Corporation is engaged in the greatest expansion program in its history with more than a half dozen new units scheduled to be finished in the first half of 1943, Irving S. Olds, chairman, reports. The corporation is building new producing or finishing units near Pittsburgh, Chicago, Cleveland, Birmingham, Duluth, Worcester, Mass., Provo, Utah, and in the West Coast costing more than \$700,000,000.

INTEGRITY IN OFFICE

How many state governors, knowing that their consent to a proposed law would ensure the presidency for their party, would refuse? One who actually did this was John Jay, governor of New York and first chief justice of the Supreme Court, whose birthday falls on Dec. 12.

The time was 1800. Then, as so often since, the election was likely to turn on New York. The people were certain to choose electors pledged to Jefferson for president, a man whom Governor Jay loathed. Alexander Hamilton had the bright idea that the legislature, which was federalist, might in its few remaining weeks of office change the election law to provide for the appointment by the legislature of federalist electors. It would mean Jefferson's defeat, and the reelection of John Adams. This letter from Hamilton was later found among Jay's papers, indorsed: "Proposing a measure for party purposes which I think it would not become me to adopt."

In other words, Jay would not support a measure for his party's glory if it meant the defeat of a man whom he would set back the basic cause of democracy. In these days, when popular government is fighting for its very life, how many governors and congressmen are ruled by the standards of John Jay?

TELEPHONE NUMBERS

Can property interest be acquired in a telephone number? Who owns a house number? There is "26 Broadway." To thousands that spells Standard Oil. Would there be a property loss if New York should decide to change its ancient, long-standing numbering system and turn that number now a name and a symbol—into, say, 1398?

H. J. Hollander of Cleveland has filed suit asking that the Ohio Bell Telephone Company be restrained from taking away his telephone number. Ninety-four of the business of the Hollander Abstract company, he says, is done by telephone, and the customer who has the old number which his company has had for many years, the OPA office has been given that number, and its operator has enough to do without handling all those wrong number calls, especially since the Hollander customers are irritated and insist that the number they have given is the right one.

Many people who have had similar difficulties are hoping the courts will decide that a subscriber has rights. But technical verbiage may be overwhelming.

COTTON PICKER

For several years there have been stories at intervals about a new mechanical cotton picker which was expected to be one of the great labor-saving devices of the century. The announcement has now been made that the invention has arrived at a workable stage. It has taken about forty years of perfecting to get it there, but the manufacturers say it is now ready for use as a commercial machine.

The present situation as regards priorities will prevent the device from being made in any great numbers until the war is over, so perhaps its introduction can be made gradually, and cause less disturbance to the southern labor situation than sometimes has been feared. But the invention which will do the work of 50 to 80 laborers is bound to be upsetting in its immediate effect, no matter how benevolent in the long run.

The production of other new things after the war will doubtless take up the labor slack, in time, and southern prosperity should be greatly increased in the long run. But if cotton is handled on an ever-larger scale, certainly more and more fertilizers will be needed. The South has suffered too much loss of fertility already. It must prepare in a serious way to restore its depleted soil.

TREASON

Treason trials have been a great rarity in this country, but since this war began people are getting used to them. The latest example is the conviction of Anthony Cramer, of Yorkville, N. Y., found guilty of helping the Nazi saboteurs who were recently executed in Washington. He is sentenced to 45 years in prison and fined \$10,000. As he is now 45 years old, it means a life sentence unless the present severity in such cases is relaxed later on. A feminine friend gets three years in prison for having guilty knowledge of his treason and not informing the authorities. The severity in such cases is justified by national danger, and will dissuade many potential traitors.

TIRES NEXT YEAR?

Jesse Jones, secretary of commerce, is credited with the statement that artificial rubber production may reach 1,000,000 tons a year by the end of 1943. That is just a little more than a year from now. Production in normal times is estimated at two-thirds of that.

On the basis of his statement, many people with tires in pretty good condition may decide to drive about as usual. If so, they will be making a serious mistake. It will be remembered that some of Secretary Jones' estimates in the past have been optimistic. And, in the present case, there is going to be an unprecedented demand for rubber as production nears normal again.

That demand will come not only from the driving public, but from the army, whose supplies are being used all so fast and whose needs grow continually. It might take at least two years for the private motorists without priorities to replace their present tires. Better be careful, drive slowly and watch every mile.

THE EAGLE'S WAY

Now for him, the eagle's way. Eye of steel and heart of leather. Meeting barons, meeting his own. Crying down their dawns together.

Now for him, the stallion's way. Wind's way, and unbroken plain. Never the pasture, never the rein. Soon enough, the years will whittle.

All of his wildness to their mold. Before the eagle's wings are brittle.

Give him this passage, proud delight. Before his mauling is begun. Give him his running, give him flight!

PARDONABLE—Most women fear "bags under the eyes," but the Sphinx of Egypt today has bags under her chin. They're sand bags, for protection from enemy bomb fragments.

Speaker Sam Rayburn, Congressman Hutton Summers and Wright Patman, both our senators from this state, as well as many persons of equal prominence from other states.

It is a notable fact that most of the men so assailed are persons of known integrity and were in positions of prominence, official or otherwise, before the new deal gave political birth to Leon Henderson.

The recent reference to our governor attributed to Mr. Henderson while in our midst was an exposition of very poor taste. His more recent outburst in behalf of all who do not see eye to eye with him, leaves little room for doubt that he has too much authority, and is imbued with a false notion of his own importance.

The American Legion Tasty Band will play at the opening of the Eastland National Bank at Eastland Monday at 4 p.m. There will be prominent speakers from the Federal Reserve Bank, Mercantile National Bank of Dallas and other banks of Dallas and Fort Worth, it was announced.

Beginning at 3 o'clock there will be a free ride to the rodeo grounds on North Seaman street. The bank is opening with W. C. Campbell as president, Albert Taylor of Austin as vice president and cashier, Guy Parker and Russell Hill as assistant cashiers and Miss Lahoma Hathcox as bookkeeper. The bank is opening under a national charter, \$50,000 stock, \$10,000 surplus and \$2,500 undivided profits. Eastland has been without a bank since Oct. 2, 1931 and, through the cooperation of the RFC, \$62,500 in frozen assets will be turned loose at this time.

The American Legion auxiliary, with Mrs. Charles D. Robert as president, will sell poppies here.

Saturday, Nov. 10. The buying and wearing of the poppies will commemorate the services of the American soldiers who fought in Flanders fields. "All money contributed is spent in caring for disabled veterans who need our aid," the auxiliary declared, "and should be liberal for memory's sake."

Cisco police also enjoyed Halloween. Commissioner H. C. Henderson and Chief M. L. Perdue joined in an expression of appreciation to Cisco folk today for the way they celebrated "spook night."

There was plenty of noise and merrymaking, but the mischief-making element was conspicuous by its absence.

Mrs. Lonnie Shockley, who was Miss Hortez Tyndall before her marriage, October 19, was honored Monday afternoon with a shower for which Mesdames C. B. Powell, Sam Kimmell, Jack Winston and Rex Moore were hostesses in the home of Mrs. C. B. Powell at 304 W. Seventh street. The guests were met at the door by Mrs. Powell and Mrs. Winston and shown into a beautifully decorated living room.

Pink roses and tinazogavilla were central decorations for the table which was spread in lace. Mrs. Shockley and Mrs. Tyndall presided at the table in two seats as a program number.

NOTICE TO THE PUBLIC . . .

We, the Plumbers, and Electricians of Cisco, ask the people of Cisco to be patient, when we can't get to their repair work. Because of the shortage of skilled labor as well as laborers, we are unable to do all the work we have requests for in Cisco.

No doubt we could make much more by working for the government than we do in Cisco, which would leave no one to do the repair work.

There is less than half the plumbers and electricians and twice as much work, so you see the spot it puts us on.

We hope after the AXIS is BEATEN you will not hold a grudge against us. Instead, remember us as the ones who stayed at home and did their best.

Credit on Your Income Tax . . .

... for the money spent on title work in 1942 will not be allowed. But don't worry. The savings you have made in getting the abstract first and buying later will be sufficient, in most cases, to pay your entire tax, and probably some to spare.

So let us resolve for 1943 that we will not buy real estate, howsoever cheap, without first getting an abstract, and having it approved by a title attorney.

Reddy Kilowatt Talks it Over with You

"Who Owns Your Electric Company?"

YOU: You mean—the West Texas Utilities?
REDDY: Yes. Say the West Texas Utilities if you like. Who owns it?
YOU: Why, that's easy! The stockholders of course.
REDDY: And who are the stockholders?
YOU: Oh, well, gee! A lot of people. The butcher, the baker, and the candlestick maker! Doctors, carpenters, plumbers, railroadmen, lawyers, colleges, churches, farmers, and stockmen. Why, some of my friends and neighbors own shares in the utilities.

LETTERS TO SANTA CLAUS

Dear Santa, I am a little girl six years old. Sometimes I am very good, but sometimes I get a little bad. I hope you will bring me a little table and chairs, a set of china dishes, a Miss Pig Tails doll and an airline hostess suit. Of course if you don't have enough toys you can just bring me what you can. Remember all the other little children in the world, also my own brother and little sister. I love you. NORMA SUE SCHAEFER, Star Route, Cisco, Texas.

Dear Santa, I want a BB gun and a feet with eight ships, a Gene Army pistol, some negro boys, peaches, walnuts, apples, oranges and a coconut if you can get one. Oh, yes, I almost forgot to tell you to bring me an army truck. I am going to be a good boy, so mother won't have to fuss at me. And I want one more piece for my train to cross with some leather to put on the end of my football, some little cards for my printing set—about a dozen of them. Santa, I will be so good that you don't have to bring me these things. I hope you can bring me everything I ask for. Goodbye. BUDDY DEAN, 716 E. Twenty-second street, Cisco, Texas.

(P. S.—And please bring me a little pin for my soldier cap.)

Congress should tax increased income to get the new wealth. Soaking those who don't share the increase is rank unfairness.
