VOLUME XXIII.

CISCO, TEXAS, WEDNESDAY, MARCH 3, 1943.

NUMBER 127.

RZHEV, AXIS STRONGHOLD, IS EVACUATED

FORMER CISCO MAN KILLED IN ENGLAND

Lt. John E. Carpenter, Jr., brother of Mrs. Statham Ricks of Dallas, and son of Mr. and Mrs. John E. Carpenter, Sr., former Ciscoans, was killed in action in England recently. Cisco friends have been informed.

The lieutenant was a navigator on a Flying Fortress and had previously been reported as missing. Only a few weeks ago he was awarded the Distinguished Flying Cross.

The father of deceased was employed by the Frick-Reid company, here, in the early twenties.

LIONS ENTERTAIN LADIES AT 7:30 P. M.

In keeping with their annual custom, Cisco Lions will honor their wives and sweethearts at 7:30 tonight at hotel Laguna with a banquet and ladies night program.

The program will be of an entertaining nature, with a Texas Week stunt, presentation of an award and initiation ceremony for six Lion cubs.

Aside from the initiation, the program will be all musical—no speaker. Lion L. W. Seymour will be master of ceremonies and Lion E. L. Jackson will be special taitwister.

Lion Geo. W. Downie heads the program committee, while Lions Harry Schmidt and Carlos J. Turner form the decoration committee.

Lion Cubs to be initiated are Charles Clark, Russell Dennis, Ray Judia, Cecil Kirk, C. E. Paul and Julian J. Perkins.

TODAY PLEASANT AFTER A COLD NIGHT

Local reports of last night's and this morning's temperatures range all the way from four to 10 degrees, but many Ciscoans say the night was the coldest of the winter, although the night of December 19 was at least a close second. At 10 o'clock this morning it was cold and clear and the disagreeable wind of yesterday was missing.

Some who have had long experience in watching the result of cold waves, say much of the fruit crop has been badly damaged if not ruined. That which may save some fruit, they add, is the fact that the dry weather has held some trees back from budding or blooming.

HOME ON FURLOUGH.

George B. Hull, route four, Cisco, after completing a 16-week course in naval training at Newport, R. I., is spending a few days at home while enroute to California. The following relatives and friends visited with him Sunday: Mr. and Mrs. Charlie Horn, T. T. and Talmage Horn, Mr. and Mrs. Morton and daughter, Mary Cloma and her friend, Miss Green of Nimrod, Johnnie Speegle and Mrs. J. C. Stuteville and son David, Ben L. Hull and family and Linene Baird and Rufus Horn.

HEDRICK ADVANCED.

GOODFELLOW FIELD, March 3.—Aviation Cadet Sam W. Hedrick, Jr., son of Mr. and Mrs. S. W. Hedrick, Sr., route 1, Cisco, has been appointed an element leader in his class, 43F, in the 49th basic flying training squadron by Capt. Guy W. Shively, commandant of aviation cadets at this army air force basic flying school. Hedrick, left Putnam high school in 1939, soon enlisted as a mechanic in the army air forces in July, 1940. He completed primary flight training at Garner Field, Uvalde.

MITCHAM AND LEE FOR MAYOR

With the announcement today of Edward Lee as a candidate for mayor, Cisco voters will have two men to choose from for that office at the election of Tuesday, April 6, the present incumbent, G. P. Mitcham, having announced yesterday for re-election.

Lee, a former city commissioner, is 37 years of age and a son of the late Mr. and Mrs. R. Q. Lee.

Two commissioners are also to be named at the April 6 election. George Boyd and J. J. Collins have already announced for re-election to these positions.

A city ordinance governing the matter requires that all candidates for city office must file their names with the city secretary thirty days before election date. Thus, Saturday of this week is the last day for filing.

CISCO WOMAN WILL VISIT HER BROTHER

Melvin R. Garms, 23, brother of Mrs. D. L. Caffey of Cisco, will arrive in Mineral Wells Friday for a visit with his mother, Mrs. W. T. Brooks, and other relatives. This will be his first visit home in three years and Mrs. Caffey will go to Mineral Wells to be with her brother for a few days.

Sergeant Garms has been in the U. S. army seven years and was at Schofield Barracks, near Pearl Harbor, when the Japs made their sneak attack on December 7, 1941. He received a shrapnel wound in his hand on that occasion. Until recently he has been stationed in Hawaii.

SENATE COMMITTEE WILL HEAR ALLRED

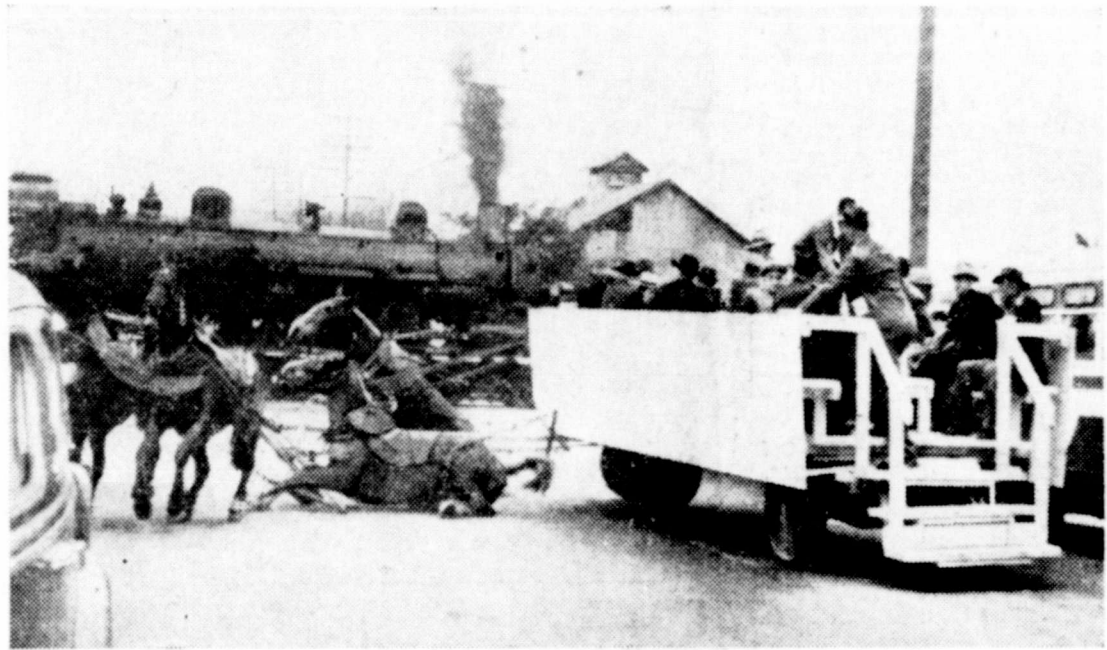

WASHINGTON, March 3.—Former Texas Governor James V. Allred, whose nomination to a judgeship on the Fifth Circuit Court of Appeals met strong opposition from Louisianans and Senator O'Daniel of Texas, is expected to testify Friday when a senate judiciary subcommittee hearing on the matter resumes. O'Daniel told the committee he thought it "peculiarly unfortunate" that a situation should develop "where there is substantial ground for the belief that federal judgeships are traded off as a part of a plan to purge from the United States senate those who are not willing to take orders from some other department of government."

HITLER'S AIDES.

SAN DIEGO, March 3.—Ending a 24-hour "round the clock" wage demonstration, AFL union workers at the Consolidated Aircraft plant settled back into regular routine today and watched to see what the war labor board does in Washington on their pay raise demands.

NAMES ODESSA MAN.

AUSTIN, March 3.—Governor Stevenson today appointed Arthur Knickenbocker of Odessa as state adjutant general. Knickenbocker, a major in the Texas Defense Guard, is now serving in the adjutant general's department.

SO THEY SAT DOWN—Fans going to Bay Meadows track, San Mateo, Cal., used everything for conveyance from shank's mare to horse-drawn buses. When this rig arrived at crossing, horses were frightened at engine and two of them sat down.

U.S. RIPS INTO JAP CONVOYS

McARTHUR'S HEADQUARTERS, Australia, March 3.—Allied Flying Fortresses and Liberators roared through tropical winds and rain today hounding the remnants of a shattered 14-ship Japanese convoy in the wide sea area around Finschhafen, on the northeast New Guinea coast. The enemy vessels were believed to be attempting to get into Lae, on the Huon Gulf, one of the remaining Japanese bases in New Guinea.

Allied planes caught the convoy between New Britain Island and Lae yesterday, ripping it to pieces, a headquarters communique said.

Incomplete reports revealed that a 10,000-ton transport was hit by five 1000-pounders and left burning and sinking, while an 8000-tonner was hit amidships and broke in two, sinking quickly. A 6000-tonner and another medium-size vessel were hit directly by bombs and several warships and cargo vessels were either hit or barely missed.

Allied bombers and fighters shot up 13 Japanese fighter planes, with five definitely destroyed and the others either destroyed or put out of action.

"The convoy consisted of three cruisers, four destroyers, seven cargo vessels and transports," an army spokesman said.

JOE DONAWAY WEDS.

Miss Era Powell of Abilene and Joe Donaway of Dothan were married in the home of the pastor of the Church of Christ in Breckenridge, Saturday afternoon. They will make their home at Dothan, where Mr. Donaway is engaged in farming. Mrs. Donaway was formerly of Cisco, but had been employed in Abilene for the past six months.

RETURNS TO CAMP CARSON.

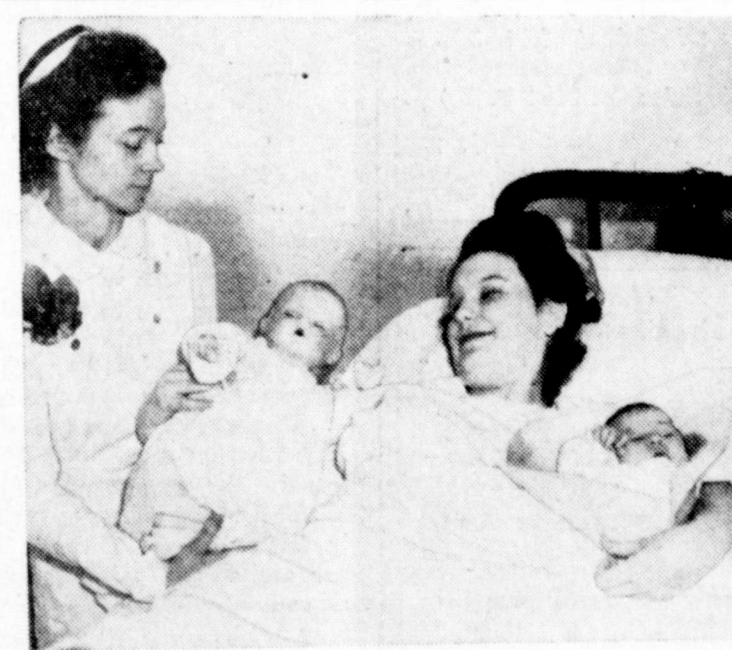

Staff Sgt. Elvis B. Nelms, 22 years old and a native of Cisco, has returned to Camp Carson, Colo., after a visit here with his wife and mother. Formerly employed at Clark's service station, young Nelms joined the army in June, 1942. He was only recently made a staff sergeant.

COLDEST IN 46 YEARS.

FT. WORTH, March 3.—The coldest March day in Fort Worth's 46-year weather history today left in its wake a trail of ruined gardens and blasted fruit crops. The mercury's low mark was 10 degrees. Weather Bureau forecasters look for a third freeze again tonight, with temperatures not so cold as last night.

JUNGLE BUNDLE—Bundle of supplies for American troops stationed in Naga Hills of India is packed at a supply base by Corporal Wade V. Walter of Griggsville, Ill. Bundle will be dropped by parachute to outpost.

MOTHER AT 12—Mrs. Violet Louise Foster, 12, won't need doil anymore, so she gives it to nurse, in Murphy, N. C. She has real baby of her own, weighing 7 pounds 4 ounces. Husband is in the Army.

WORST IS YET TO COME, BUT IT'S CLOSE BY

WASHINGTON, March 3.—The office of price administration may order point rationing of both meat

and cheese to begin about April 1 with each consumer probably limited to an average combined allotment of 1 1/4 pounds a week, it was learned today. Reliable sources also believed that rationing of butter, oleomargarine, lard and other cooking fats and oils may be ordered at the same time.

The world gets no worse. One-third of mankind killed another third when there were but three men.

PROGRESS OF DRIVE PLEASING

In conversation with Mrs. George P. Fee, Red Cross city chairman, Mrs. Joseph M. Perkins of Eastland, county chairman of the 1943 Red Cross drive, this morning expressed pleasure at the progress of the campaign throughout the county.

The little town of Okra, Mrs. Perkins announced, was the first to secure its quota.

Eastland and Ranger, late Tuesday, were close to the \$2,000 mark on the way to their respective goals of \$4,500.

Cisco, Mrs. Fee said, had not done quite so well when local receipts were totaled Tuesday night.

This, however, is explained by the fact that Cisco committees very properly made little effort Tuesday because of the cold weather and high winds.

NAZIS WANT VATICAN TO HALT RAIDS

LONDON, March 3.—The RAF rounded out a week of the heaviest aerial offensive in history last night with another attack on western Germany as the Reich reportedly sought the Vatican's aid to halt the Allied bombardment of Axis cities.

Three planes were lost in the raid in mine-laying operations, the Air Ministry said.

Preliminary reports indicated that last night's attack on western Germany was carried out in the face of heavy weather and consequently was on a much smaller scale than the raids during the previous six nights.

The Anglo-American aerial offensive was keyed to pave the way for an invasion.

Berlin itself was still smoldering from the heaviest raid of the war Monday night. The German radio announced that 191 persons were killed and 268 wounded and neutral sources said that hundreds, perhaps thousands, of Berlin residents were homeless.

Among buildings damaged in the Berlin assault, a Berne dispatch said, were the American and British embassies. The German radio claimed that five churches, three large hospitals and "many monumental buildings" were destroyed.

Blithely ignoring that Germany introduced the technique of large-scale bombing of cities with her assault on Warsaw in the early days of the war, and then blasted British cities with everything she had, Foreign Minister Joachim von Ribbentrop was reported in a Zurich dispatch to have urged the Vatican to intervene with Britain and the United States with a view to a "truce" on attacks on "open cities."

ATLANTA TURNS TRICK.

ATLANTA, March 3.—The navy announced Jan. 11 the cruiser Atlanta had been lost in a naval battle in the South Pacific, citizens joined in a war bond campaign to finance construction of another ship. The goal of \$35,740,000—the approximate cost of a new 10,000-ton cruiser—was reached Tuesday.

JAP TOLL GROWS.

WASHINGTON, March 3.—The sinking of five more Japanese supply ships and damaging of two others set the Pacific and Western Pacific score of American submarines today at 191 enemy vessels successfully attacked.

OBSERVERS NOW BELIEVE RED ARMY WILL ROLL THE GERMAN INVADERS BACK TO SMOLENSK

LONDON, March 3.—The German High Command announced the evacuation of Rzhev, Axis stronghold, 130 miles west northwest of Moscow today and Allied observers believed that the Red Army now would roll German forces back as far as Smolensk, 140 miles to the southwest.

The communique was broadcast by the Official German news agency DNB, which only a few minutes before had retracted an earlier announcement of the evacuation.

London observers believed that German propagandists got their signals crossed and hurriedly ordered the initial announcement of the evacuation withdrawn until after the issuance of the High Command communique.

The original announcement said German rear guards who had held the town the last few days "disengaged themselves, unnoticed by the enemy, after blowing up the Volga bridges last night."

The evacuation was in line with a "planned shortening of the front," DNB said.

Rzhev, 130 miles from Moscow, was the northern anchor of an Axis spearhead pointed directly at the Russian capital. From it and Vyazma, to the south, the Germans launched their all-out attempt to take Moscow in 1941.

The Germans held firm at both Rzhev and Vyazma throughout the Soviet winter offensive in 1941-1942, which relieved the immediate threat to Moscow.

Rzhev subsequently was outflanked by the capture of Velikie Luki, to the west, and Bely, 60 miles to the southwest.

MOSCOW, March 3.—Red armies consolidated newly-won positions deep in the German defense zone below Lake Ilmen today and gained new ground in advances at four key points along the 500-mile southern front.

(A radio Moscow broadcast reviewing the Soviet drive north of Kursk reported the capture of Zmievska, 23 miles south of Orel, after a 19-mile advance from Maloarkhangelsk.)

The Soviet mid-day communique announced that the Russians had routed the Germans from two settlements west of Kursk, seized several villages west of Kharkov, broken into enemy trenches before Taganrog and drove the enemy closer to the Black Sea and Sea of Azov in the northwest Caucasus.

Marshal Semyon Timoshenko's northwestern forces, meantime, were re-grouping for a renewed push toward Starava Russia after liberating 900 square miles and 302 villages in an eight-day offensive south of Lake Ilmen.

ALLIES MEN-ACE TUNISIAN AXIS FORCES

ALLIED HEADQUARTERS, North Africa, March 3.—American and British troops pushed south and southeast of Sbeitla today in

thrusts that menaced the vital Axis position at Faid Pass.

The Allied forces were pushing back across ground "over which they had been driven in retreat at the start of Marshal Erwin Rommel's offensive in South-Central Tunisia.

Their victory over the Axis at Kasserine Pass became all the more gratifying today when they learned that Rommel, "the Desert Fox," had been in personal command of the German-Italian forces in that engagement.

LEGISLATIVE COUNCILS.

Much is said about the encroachment of the federal government on the states. Too often the complaints overlook a chief cause, the failure of the states to do what needs to be done. Their default brings in Uncle Sam. He appears too often on the scene, the remedy is in the states' own hands. They must do what they have neglected to do, and improve on what they are already doing.

One important step would be the improvement of the work of the state legislatures. Too many come, sitting three or four months with little or nothing to show for it except the introduction of hundreds of ridiculous laws. Nebraska's one-house legislature is an attempt to improve matters. Another is the establishment of legislative councils.

A number of states have such councils. These work all the year round, making investigations and reports, and drafting bills to be considered when the legislature meets. They replace the special committees which often are nothing but junketing outfits. They find out what other states are doing, and how it works. They get information which the average legislator has neither the time nor the means of getting, and greatly save his time.

Here are some examples of their work. In Illinois the council has been looking at the corrupt practices acts of other states, in Kentucky at the regulation of the liquor traffic, Colorado, Kansas, Maryland, Michigan, Virginia and Nebraska are among the states that have legislative councils. States that do not have them may be falling behind.

MORE TERROR.

Apparently Adolf Hitler is still living. And the Mad Dog of Europe, not showing himself openly, is on the rampage again. His declaration to his party followers at Munich promises horrors greater than any yet seen.

His sanctified Nazi butchers "will not scruple about foreign lives at a time when such hard sacrifices are exacted from German lives." The nation must rise to the greatness of its danger, strengthen its "sacred faith," and destroy weakness, and "threat terror" with "ten-fold" terror. Traitors must be extinguished.

He boasts of the intensity of his fanaticism. He will persist in "the task that fate has entrusted to him" and will crown his efforts with "victories such as world history has never witnessed." While he has "borne sorrows which perhaps would have broken countless characters not so strong."

So the world has due notice. It will govern itself accordingly and proceed, with God's help, to

GLORY AND SHAME.

James F. Byrnes, "economic stabilizer," has a knack of stabilizing people's minds along with more material things. Talking to newspaper men the other day, he made a couple of comments worth remembering.

The coming year, he said, will be the hardest year our generation has ever had to endure. But we can make it a glorious year, by fighting the enemy instead of each other.

TWO WARS.

How much 1917 and 1943 sound alike? The following utterance of Woodrow Wilson fits like a glove today:

"It is plain how we were forced into the war. The military masters of Germany denied us the right to neutrality. They filled our unsuspecting communities with vicious spies and conspirators, and sought to corrupt the opinion of our people in their own behalf. When they found that they could not do that, their agents ingeniously spread sedition among us. They spread by violence to destroy our industries and interrupt our commerce. What great triumph in these circumstances would not have taken up arms?"

One other parallel between the war of 1917 and the war of 1943 may be named. They will both end in German defeat.

NAZI HEROES.

Add to the list of men whom the Nazis delight to honor, Hans Frank. A lawyer, several times convicted of embezzlement, he topped off this record by murdering a lawyer who stood in his way. With such a record, when Hitler came to power in 1933, he was naturally appointed Commissioner of Justice for Bavaria. His first official act was to free from prison his father, who was also serving a term for embezzlement. His second was to torture to death a rival lawyer.

If Al Capone were living in Nazi Germany, he would probably be read something of Daniel Webster. For instance, his utterance in November, 1849: "There is something on earth greater than arbitrary or despotic power, and that is the aroused indignation of the civilized world."

M'CARTY GETS FEDERAL JOB; DALLAS OFFICE

Hon. Milburn McCarty, Eastland lawyer, has received notice of his appointment as a special assistant to the United States attorney general and will be attached to the anti-trust division of the department of justice.

Mr. McCarty, well known in Cisco, was reared in Granger, Texas, and is a graduate of Baylor University and the University of Texas. He located in Eastland in 1922, where he has since engaged in the practice of law, confining himself to civil practice. McCarty has always taken an active part in the affairs of the Democratic party, having served four years on the state executive committee. In 1931 he was active in the formation of the Roosevelt-for-President organization in Texas, and in 1932 was presidential elector; was active in the presidential campaign of 1936 and in 1940 was a delegate to the Democratic national convention in Chicago. Mr. McCarty has also been active in the affairs of West Texas, and served as president of the West Texas chamber of commerce in 1938-39. He is a member of the board of directors of Texas Tech College, Lubbock.

Household Hint for Family Pet There is no need for that "doggy odor" when the family pet is wiped down with good quality witch hazel once a week. The family pet is an important little member of the household group. For all the pleasure he gives, he deserves the right care. Here are a few simple rules. Feed him regularly and correctly for his size and age. Give him plenty of exercise and always give him a walk about half an hour after feeding time. Comb him faithfully and every week wash off his coat with good quality witch hazel to take away that "doggy odor" and keep his fur soft and shiny. Use cotton saturated with witch hazel that has been diluted in water to clean his eyes and muzzle. When "man's best friend" seems cross or inclined to snap at people, don't take it for granted that a bad disposition is the cause - let a veterinarian determine what is wrong and instruct you on the proper treatment. Remember your dog is your friend-treat him as one!

Here Are Letters The Axis Doesn't Like

ALBERT LEONARDO would rather stencil the letters USA on the Army tanks being built by The Baldwin Locomotive Works Philadelphia, than paint back grounds for theater fronts, which he did for ten years. He knows when he has put those initials on the Army tanks, they are almost ready to go into action against the Axis and the faster those war monsters get to work, the better off we all will be.

He is a widower with two children, twin girls ten years of age who were born on November 11, Armistice Day. Both of the young ladies are already showing a natural talent for painting. Mr. Leonardo has worked for Baldwin for the past three months. His father was born in Italy, his mother in the United States. Albert received his art education at the Philadelphia Industrial Art School and at Wansmaker's Industrial School.

Make Them Last Longer

No wonder gas refrigerators are rationed. It takes the steel from about 500 of them to make a 30-ton tank.

Take Care of Your Gas Appliances

They are too valuable to replace, until we win this war

Since the Gas Refrigerator has no moving parts in its freezing system, it is free from ordinary machinery troubles. But it does need careful defrosting and cleaning, to keep it like new.

- 1. DEFROST at proper intervals, to keep refrigeration going at an easy clip. (Excessive frost on freezing unit acts as an insulating blanket, making it harder to chill the foods). 2. If the ICE-TRAYS stick, don't go after them with hammer and tongs! Treat them justly, and next time don't let them stick. Sticking trays are caused by (1) Too much water in them to start with; (2) Water on bottom of trays; and (3) Forgetting to defrost. 3. Be very careful to clean off any GREASE that gets on the rubber door-gasket. (Grease destroys rubber.) 4. Do not use steel wool or strong cleaning powder on the refrigerator. It is a sturdy enamel, and needs only the MILD EST SOAPSUDS. To freshen the inside, wash walls with lukewarm soda water (one teaspoon baking soda to one quart water). 5. Do not put dishes or trays on TOP of refrigerator, unless you protect the top with a mat. 6. To get dusty fuzz off the air-cooling fins in the back, put your vacuum cleaner in reverse and BLOW the fins clean, blowing downward so the fuzz can then be removed from floor. The fins can do a better cooling job when they are slick.
