### RODNEY HERN- DON DIED IN ST. LOUIS, MO.

Rodney E. Herndon, 47, son of Mr. and Mrs. S. R. Herndon of Cisco, died at a hospital in St. Louis, Mo., Tuesday night from a complication of troubles. Mr. Herndon, who is survived by his wife, three children, his parents and a brother and sister, was a teacher in Cisco high school, 1927-30. He was teaching at Bonne Terre, Mo., when he became ill and will be buried there, tomorrow afternoon. His brother and sister were with him when death came.

### CISCO WOMAN NOW HAS THREE SONS IN WAR

Lawrence G. Johnston, 18, went to Abilene Tuesday, took the physical examination for the navy and left Wednesday for the naval base at San Diego, Calif. The young man is a high school senior and would have graduated in May. Johnston is the youngest son of Mrs. Linnie Johnston of Cisco. Two other sons are also in the service, as follows: Sgt. Melvin Johnston, in Africa; George H. Johnston, at Camp Howze. The father of the boys has been dead 18 years. He was George S. Johnston, who was farming near Cisco at the time of his death.

### MITCHAM ASKS SUPPORT OF BONDS DRIVE

As mayor of Cisco I ask my fellow citizens to join to the full extent of your financial ability in the treasury department's second war loan campaign which opens April 12, said Mayor G. P. Mitcham, this morning. I feel sure that when the final returns are in, our community will stand high among cities and towns of our size and resources in the country for our accomplishments in this patriotic drive.

The government is asking the people of this country to lend 13 billion dollars to help prosecute this war. All of us know how vital this money is in our common cause. We have sent our fathers, sons, brothers and friends off to fight. We must provide the money to put the finest weapons and other munitions in their hands, so they can end this war as quickly as possible.

The second war loan campaign is more than a mere transfer of our money to the government for a period at good interest rates. It is a demonstration of our will to victory and our desire to back up our men on the fighting lines. The treasury department has recognized this basic patriotic aspect of the second war loan campaign by offering a series of securities designed for every pocketbook.

There are the familiar war loans, tax certificates, and other long term and short term securities. Democracy never has given a finer example of its strength than in this appeal. Workingman and business man, professional man and industrialist, housewife and war worker—all may send their dollars off to fight alongside our troops.

If there ever was a time when we should as a community sound a patriotic note in a public undertaking it is in this campaign. And so I ask everyone—homes, businesses, factories, stores, schools and public buildings—to display the flag on April 12.

Let us all take to our hearts the theme of this campaign: "They Give Their Lives, You Lend Your Money."

### CLARK F. ROBERDS MISSING

The war department has notified Mr. and Mrs. Fred Roberds of Rising Star that their son, Clark F. Roberds, 26, pilot of a B-26 fighter plane, has been missing since March 25, in some Latin-American area. Mr. Roberds, well known and popular in Cisco, was city attorney here for more than a year. On July 1, 1941, the Cisco city commission gave him a leave of absence to join the war forces. While in training at Ellington Field, he was married to Miss Frances Ellis of Brownwood. The young man graduated from Howard Payne college in 1936 and from the University of Texas in 1939.

### ELMER FREDE TALKED TO ROTARY TODAY

Talks and demonstrations of what the trainees of the Cisco War Ordnance Work school are doing, were features of the program presented by Rotarian O. J. Russell at the club today. Some announcements were made by President Ernest Hillon regarding letters received from the war procurement office, in appreciation of the program sponsored by the club and featuring the visit of Miss Kathryn Brooks to the club.

Elmer Frede, instructor at the trainee school, and Mrs. Myrtle De Vore and Mrs. Helen Hendon, student mechanics, told of the work while the latter student mechanic disassembled and reassembled a carburetor in about eight minutes for each process.

Speaking of the idea and results being obtained, Mr. Frede said it was being proved that women are far more efficient as mechanics in carburetion and electric repair than men. In many ways, which he mentioned, Mr. Frede said women were proving themselves the superior workmen. Continuing the speaker said that no favors were shown trainees on account of sex. Women picked up their own work, lugged their tool kits and waited on themselves, just like they must do when they have entered upon their jobs in the war effort into which they must fit.

Strict rules and regulations have been formulated at the school and the work—a nightmare at first—is now being organized into a methodical, smooth running machine, with both students and instructors getting into the swing with as much rhythm as the perfect running motor which they are supposed to turn out.

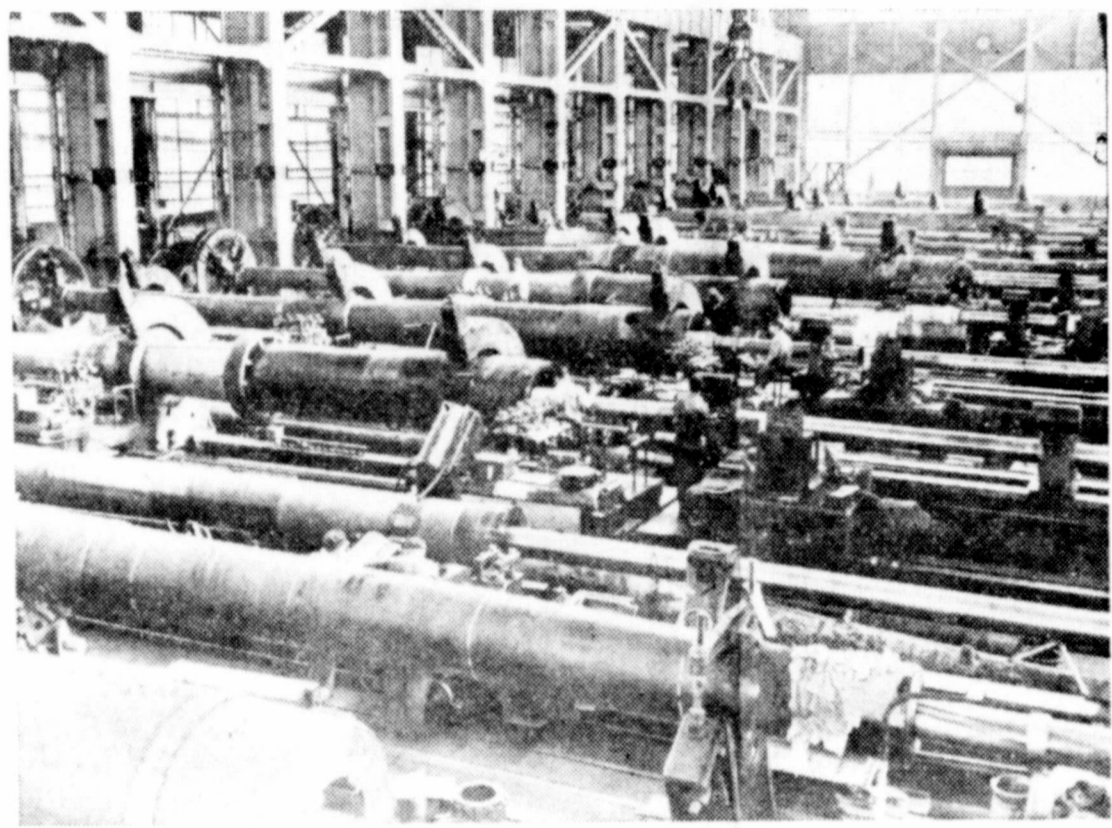

Persons are invited to visit the school at any time between the hours of 9 a. m. and 5 p. m., but an open house will be ordered soon and all Ciscoans will be given cordial invitations to inspect the plant.

Mrs. DeVore spoke interestingly along the line of her first impressions of the school, while Mrs. Hendon showed the result of her 8-day instruction in the carburetor department.

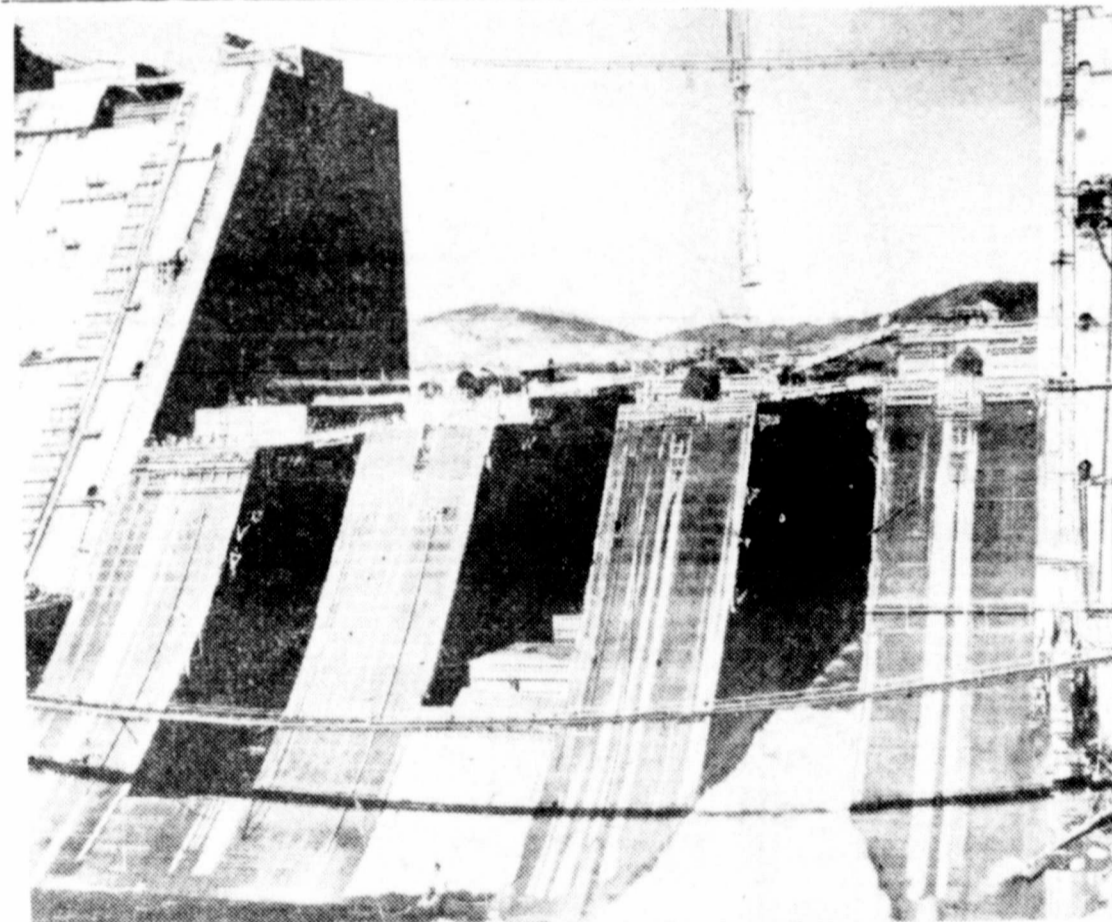

Mr. Frede's talk, which covered quite a scope of the beginning and organization of the school's training program, was highly enlightening and interesting.

The entire program was very complimentary to the work of the school.

Other visitors were John Mathews of Midland, guest of Rotarian Cooper Waters, and Mrs. A. E. McNeely, who was pinch hitting as pianist.

### P. N. ROBINETT FORMER CISCO- AN, IS DEAD

P. N. Robinett, good citizen and West Texas pioneer, who would have been 85 years of age Christmas day, died in Amarillo Wednesday afternoon, at the home of a daughter, Mrs. Nugent Kunkel.

The remains will be brought to Cisco for burial and the funeral will be held at the First Presbyterian church, probably Saturday. Deceased, who was born in Missouri, where he married Miss Effie Fenley, came to Cisco in 1880 and farmed near the Word school house, south of Cisco. They were members of the Presbyterian church.

Survivors include two daughters, Mrs. Nugent Kunkel, Amarillo; Mrs. N. S. McCanlies, Littlefield; ten grandchildren, four nephews and a niece. The nephews and niece, all of whom live in Cisco, are as follows: R. O. Fenley, E. R. Fenley, E. I. Fenley, Reese Porter and Mrs. Hugh Boyd.

### FUNERAL AT BAIRD.

Mrs. Ralph Glenn and Mrs. Milton A. Elliott went to Baird today where the body of the latter's husband, Lieut. Milton A. Elliott, will be brought for interment. It is thought the funeral will be held Saturday. Lieutenant Elliott was accidentally killed in San Antonio, Tuesday night.

### OIL HIKE OF 50 CENTS A BBL., MAYBE

WASHINGTON, April 8.—Petroleum Administrator Ickes has submitted his recommendations on the proposed increase in crude oil prices to Price Administrator Brown, it was stated today.

Nature of the recommendation was a closely guarded secret, although it was believed that Ickes had recommended an increase in crude prices.

The report prepared for Ickes by his own staff, had recommended an increase in crude prices "up to 50 cents a barrel." Whether Ickes followed the suggestion of his staff could not be learned.

### GREAT QUANTI- TY CRUDE OIL HAS BEEN LOST

FT. WORTH, April 8.—More than 215,000,000 barrels of sorely-needed crude oil reserves have been lost in the U. S. during the past seven and a half years through the abandonment of thousands of "stripper" producers. F. M. Van Tuyl told geologists at their annual convention today in Hotel Texas.

These stripper wells—producers yielding two to six barrels of oil daily, are still capable of producing substantial amounts of oil over a period of many years but were abandoned due to low crude oil prices and the high salvage value of pipe and related well equipment, Van Tuyl said.

In emphasizing the importance of the problem, Van Tuyl, who is director of the geology department at the Colorado School of Mines, said 11,308 stripper producers were abandoned in 1941.

Concerning the current deeper drilling trend, the speaker said the average depth of all wells drilled in 1942 for all states was 3038 feet against 2963 feet in 1941.

### PROPERTY TAX CUT.

AUSTIN, April 8.—Property-owning Texans can wipe off \$1,600,000 from their 1943 state tax bills. Governor Stevenson has signed senate bill 24 reducing from seven to two cents per \$100 valuation of state ad valorem tax for support of the Confederate Veterans pension fund.

### TEXAS IRON SOON.

WASHINGTON, April 8.—Representative Patman of Texarkana announced a big iron ore blast furnace under construction at Dalingerfield, Texas, should be in production by Aug. 15. He estimated cost of the plant at \$20,000,000 and said the output would be from 1,200 to 1,500 tons of pig iron daily.

### TWISTER HITS FROST.

FROST, April 8.—A strong twisting wind struck here this morning, destroying one home, damaging half a dozen others but causing no known injuries. The storm came within a few weeks of the thirteenth anniversary of a cyclone which demolished the town's business section and killed about 22 persons on May 6, 1930.

### WATSON AT SAN DIEGO.

Bruce O. Watson, 18, who enlisted in the navy March 23, his parents, Mr. and Mrs. Clyde O. Watson, taking him to Abilene for induction, is now stationed at San Diego, Calif. The young man finished grammar school here in 1941 and is a member of the First Methodist church.

NOW IT NEEDS MENDING—Japs gave Lieutenant John J. Brahan, Long Beach, N. Y., worry when he strafed them in Aleutians. That's a shrapnel hole in bomber nose, at Andreanoff air base.

### QUIET ELECTION.

J. J. Kelly was elected mayor of Ranger in the election of Tuesday, while V. V. Cooper, Jr., L. E. Gray, C. B. Pruett and Edwin George, Jr., were chosen as commissioners. None of the candidates were opposed. Mayor Hall Walker did not offer for re-election. Mr. Kelly, the new mayor, who will take office May 1, is a former city commissioner and is well acquainted with municipal affairs.

### SEED PEANUTS.

### What You Buy With WAR BONDS

It takes hundreds of auxiliary ships to keep our Navy going. Tenders, tankers for fuel, provision ships and other craft are necessary to the successful operation of our battle fleets. Included in this category is a seaplane wrecking derrick.

These wreckers operate much like the derricks about our airports. They are fast and are equipped to "spot" wrecked planes and aid in their rescue. Your purchase of War Bonds helps pay for them. The fighting resources of the United States — Army, Navy, Air Fleet — are backing up what that Statue of Liberty means as it stands at the entrance to New York Harbor today.

The admiring French people donated it to the young American republic shortly after it had won its independence from the mother country — England. It has been a lasting monument to what America means to all nations of the earth.

But our boys are now fighting in foreign lands to make good on that guarantee to these nations and to ourselves, this standard we have sponsored. The outcome means everything to civilized nations of the earth — this includes our own existence.

Uncle Sam is asking that we buy bonds in the largest amount ever before conceived — Thirteen Billion Dollars — more than all Ciscosans perhaps could ever count if they should start right now — But it is needed to carry on with the struggle which just now is heading toward the shores of Europe and Germany. We can't fall more bonds — and then more.
