TAX CONFEREES MAY DECIDE ON A COMPROMISE

WASHINGTON, April 20.—A possibility developed today that Republicans supporting the skip-a-year and pay-as-you-go income tax plan and opposing Democrats might compromise on the abatement of approximately 30 per cent of one year's income taxes. Such an agreement would encompass a 20 per cent withholding levy against the taxable part of all wages and salaries. One conferee member said the Republicans and Democrats might "from sheer exhaustion" come to an agreement on cancellation of about 30 per cent of either 1942 or 1943 taxes.

A., April 20.—Allied fighters shot down 24 more Axis planes, half of them three-engined transports, yesterday in new crippling blows at the enemy's dwindling air power, a message announced today. (A Madrid dispatch said German Gen. Jurgen von Armin had sent an urgent appeal to Berlin for greater numbers of fighters to patrol the Sicilian Straits. Without replenishment, he was quoted as saying, he could not guarantee to prolong resistance in Tunisia or even evacuate essential personnel.)

HORTON WAS IN THE STORM OF 50 YEARS AGO

J. C. Horton, 1811 W. Eighth street, who moved to Cisco in 1903, was farming five miles east of here at the time of the cyclone of April 28, 1893. Mr. Horton will be 78 years of age on June 1 and is a native of Tennessee. During a visit to the Daily Press the other day, he told of the big twister, as follows: "I had been in Cisco all day and had just reached home when it struck. I left the house and held to a post oak sapling about ten feet from the house; was hit on the head by giant hailstones and nearly lost my hold on the sapling. As wife and I rushed out of the house the top of the building sailed away and the entire structure was destroyed—nothing left but the foundation. Mrs. Horton had been watching the approaching twister before my arrival home and had packed everything. None of our cattle was killed." Mr. Horton remembers that the Hickman family lost five little children and that the death total was 27 persons.

CAR CONSERVATION IS VITAL TO VICTORY!

"Automotive transportation is absolutely essential to the winning of the war. Goods must reach their destination... and workers must get to their jobs on time. Service men, in maintaining and conserving both vehicles and tires, are performing a most important function in the nation's war effort."

JOSEPH B. EASTMAN, Director

WAKE UP!

TIME TO SUMMERIZE FOR BEST WARTIME MILEAGE

Driving fewer miles at slower speeds may conserve your tires, but it won't save your car.

Under war-time driving conditions your motor rarely gets hot enough to drive off harmful by-products of combustion. During long periods of idleness, lubricants may drain from grease fittings and expose vital chassis parts to excessive wear. To combat this condition automotive engineers strongly recommend that you change oil and have your car lubricated every 1,000 miles or every two months—whichever comes first.

Magnolia SUMMERIZE Service offers a one-stop opportunity to replace dirty winter lubricants with fresh, clean Mobiloils and Mobilgreases. At the same time your friendly Magnolia Dealer will clean your radiator, check tires, battery, filters and other important accessories to help lengthen the life of your car. Drive in now!
