

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil, two railroads; Hankhead highway; huge concrete swimming pool.

CISCO—1,614 ft. above sea; immense lake—three miles long, 87 ft. deep at Williamson yellow concrete dam; fish hatchery; 127 blocks paving; A-1 high school; Junior college; natural gas; electric and ice plants; War Industries Training School for Women.

VOLUME XXIII.

CISCO, TEXAS, TUESDAY, JUNE 15, 1943.

NUMBER 201

U. S. SUBS MADE RECORD BAG OF JAP SHIPS

TWO CISCO LADS ON USS. ENTERPRISE, WHICH WAS CITED BY THE PRESIDENT FOR FIGHTING VALOR

Mr. and Mrs. S. O. Barnhill have just received letters from the USS Enterprise from President Roosevelt. The citation reads: "For outstanding fighting valor in the Pacific." The Enterprise is the only plane carrier to receive such an award.

ORDNANCE CARNIVAL A SUCCESS

Saturday night's carnival sponsored by the Women's Ordnance Training Center at the recreational club rooms, D. Avenue and Fifth street, was a complete success from every standpoint. Receipts totaled about \$100, from which expenses are to be deducted.

One of the main ideas in mind was to bring about a closer acquaintance between Cisco people and trainees. This was accomplished. Another feature was to give the trainees an opportunity for some relaxation from their studies at the school.

"Since all work and no play makes Jack a dull boy," school officials are anxious for students to enter into social activities of the community as much as possible, they say.

Mrs. Eleanor Phillips, supervisor of women at the school, announces that the morning shift—7 a. m. to 3 p. m.—has received an invitation to attend a dance at the recreation center at Abilene, Friday night. Refreshments and transportation by bus both ways will be furnished, said Mrs. Phillips, who is to chaperone the group.

REVIVAL HOLDS SPECIAL GROUP RECOGNITION

It's boy scout night at the revival at First Baptist church tonight and all scouts of the city are invited to attend and receive recognition at the services.

Ernest Hillson, scout master of troop No. 101, has dismissed the regular scout meeting—held at First Presbyterian church each Tuesday night—and has asked that his troop join in the services tonight.

Family night will be Wednesday night, and a Bible is to be given to the largest family group. Training union night will be Thursday night. Brotherhood night, Friday night, and Women's Ordnance Workers' night will be Saturday night.

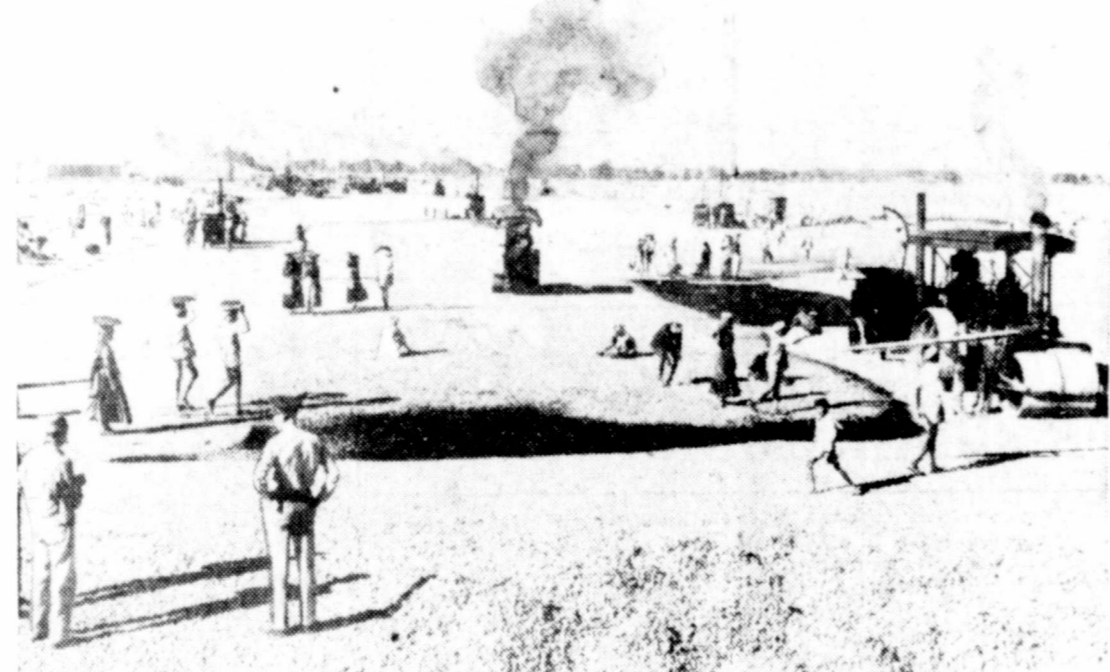

Last night was Sunday school recognition night and every departmental superintendent was present; several departments also had 100 percent attendance of teachers and officers.

There have been 19 additions to the church since the beginning of the revival. Four were baptized Sunday night with two more awaiting the baptismal service.

Rev. Sid Martin is doing the preaching and Joe Trussell is conducting the song services, both being outstanding in their men being, with crowds and interest steadily increasing. All choir members of the city are invited to participate in the singing. The big orchestra is a valuable adjunct to the music.

PRISONERS—Like youngsters on a holiday, these Italian prisoners are laughing and shouting, as they leave Gromballa prison camp in Tunisia for a more permanent camp than the one there. First leg of their journey takes them to Tunis. They're some of the 224,000 Axis prisoners captured during African campaign and for them war is definitely over.

AIRFIELD IN INDIA—Coolie laborers bring baskets of fine sand to cover tar, in construction of U. S. airfield somewhere in India. Steel hangars in background were carried from U. S. Part of work is being done by Indian Army Garrison Engineers.

NEWLY-ELECT'D OFFICERS OF CISCO MASONS

Newly-elected officers of the three Masonic orders of Cisco are as follows:

- Cisco lodge, No. 556 A. F. & A. M.: W. W. Fewell, worshipful master; R. E. Grantham, senior warden; A. B. Byrd, junior warden; Haywood Cabanes, treasurer; L. D. Wilson, secretary; R. H. Walker, tiler.
- Subordinate officers appointed: M. P. Underwood, senior deacon; Charles Clark, junior deacon; W. E. Dean, senior steward; Paul Poe, junior steward. Installation June 25.
- Cisco Council No. 128, R. & S. M.: W. Joe Britain, thrice illustrious master; J. M. Witten, right illustrious master; W. E. Dean, illustrious principal conductor of work; Haywood Cabanes, treasurer; L. D. Wilson, recorder.
- Subordinate officers appointed: George T. LaMar, captain of the guard; A. B. Byrd, conductor of council; R. E. Grantham, steward; H. T. Huffman, sentry. Installation, July 1.
- Cisco Chapter 190, R. A. M.: W. Joe Britain, high priest; W. W. Fewell, king; W. E. Dean, scribe; George D. Boyd, treasurer; L. D. Wilson, secretary.
- Appointive officers: George T.

LIET. BERRY FLEW HERE FROM SCHOOL

Lieut. Bill Berry, popular Cisco boy, accompanied by Lieutenant Kneedles, arrived here late Saturday by plane from Kingman, N. M., and spent the night as guests of Mr. and Mrs. J. Harry Reynolds, 1001 W. Fourteenth street.

The party included six lieutenants in three planes, making routine cross-country flights from their station at Kingman. They departed Sunday morning for the home station.

Lieutenant Berry, son of Mr. and Mrs. P. G. Berry, former Ciscoan but now resident of Gage, Ariz., attended school and grew up in Cisco. He is now taking special training at the Kingman bombardier school.

GIRL RAPED.

CLIFTON, June 15.—A 13-year-old Clifton girl, kidnaped and criminally attacked by two men she said were Mexicans, Monday night, was under the care of a physician today while peace officers and citizens hunted her two assailants.

BOARD GIVES NAMES OF 46 SERVICE MEN

The Eastland county selective service board says the following selectees have been inducted into various branches of the armed forces since its last report, with another list to follow within a few days:

- Cisco—W. C. Phillips, Robert W. Jackson, Standlee McCracken, Billy R. Swindle, A. C. Purifoy, Jr., T. Childers, B. R. Dill, R. E. Rhodes, J. A. Burnam, Bill Dee Morris, J. J. Haynie, C. M. Lancaster, J. L. King, L. M. Bean, Eastland—N. E. Jones, J. T. Hale, W. E. Justice, C. C. Hudson, A. I. Head, Billy Ray McBee, B. F. Pryor, E. D. Nash, W. F. Howell.
- Ranger—C. C. Phillips, R. H. Quinn, H. E. Weaver, E. L. Martin, R. J. Frazier, B. V. Kelley, Jr., S. P. Crawley, J. E. Simmons, J. A. Ownby, C. N. Strong, Fonzo Bravner.
- Rising Star—T. C. Freeman, John D. Somerford, W. W. Bray, L. E. Guynes.
- Gorman—J. B. Williams, G. H. Porter, C. D. Glasson.
- Carbon—C. M. Thompson, J. S. Stone, C. C. Milford, T. G. Jackson.
- Olden—E. L. Smethers.

It is estimated that he could save 683 billion man hours by killing every specification, rule and regulation that doesn't help win the war.

RAF BOMBERS HAMMER OBERHAUSEN CITY

LONDON, June 15.—A powerful force of British four-engine bombers hammered the arms city of Oberhausen and other targets in the battered Western Ruhr last night.

"Large fires were seen, but clouds made it difficult to observe results fully," an Air Ministry communique said.

Eighteen planes were lost in the attack, the fourth on Germany in as many nights in the renewed British pre-invasion aerial offensive.

Putting the attacks on Nazi European fortress back on an around-the-clock schedule, operations yesterday, British Spitfire fighters lashed out across the Fecamp area of Northern France on an offensive sweep today, and destroyed three German Focke-Wulf 190 fighters. Other enemy fighters were damaged.

A German broadcast acknowledged heavy damage at Oberhausen and claimed that 20 raiders were shot down. Residential districts of other Western German towns also were bombed, the broadcast said.

Besides Oberhausen, the Western Ruhr also includes such important targets as Duisburg and Muelheim, and other arms cities.

Oberhausen has been raided only twice previously by the RAF, on Oct. 11 and Nov. 7, 1940. Situated six miles northwest of Essen, its principal industries are blast furnaces and steel works.

FORT WORTH HAS MANY IDLE MEN

FT. WORTH, June 15.—Fort Worth is threatened with classification as a critical area by the War Manpower Commission. That would mean the 48-hour week for all employers of more than eight people. And all of them under the wage-hour law would have to pay time and a half over 40 hours.

The farmers are short of help for harvesting. The laundries can't get help and neither can many other service industries.

Yet, we noticed, in walking past a domino parlor in the middle of the forenoon, that it was full of men playing dominoes. They may have been night workers relaxing, maybe so, maybe not.

Not long ago we passed through a small county seat town and the public square open forum was well attended. Some of them were old men but a lot of them looked as if they would be good farm hands if not war factory workers.

People just have to do so much looting, some more than others. But it looks unfair to impose critical restrictions on some where there are still men idle.

WELD INDUSTRY.

WASHINGTON, June 15.—Europe under the Nazi heel was described by the OWI today as one giant industrial empire welded together by German interests so strong they could maintain power despite changes in leadership of the Reich, the Nazi party or the German army.

TEXAS ALLOWABLE.

AUSTIN, June 15.—The average daily allowable of Texas oil wells increased 2,436 barrels to 1,589,713 in the week ended June 12, the railroad commission reported. The number of producing wells increased by 33 to 99,817.

CRASH KILLED FIVE.

MONROE, La., June 15.—A twin-engine navigation training plane exploded during flight Monday morning, killing five men from nearby Selman Field and crashing four miles north of Hammond, La.

TOTAL OF 181 JAP SHIPS SUNK BY OUR SUBS SINCE PEARL HARBOR IS THE LATEST GOOD NEWS

WASHINGTON, June 15.—American submarines were credited today with a record bag of Japanese ships—12 sunk, including a destroyer; one probably sunk, and three, including a destroyer, damaged.

The latest list of Japanese ships sunk by submarines brought to 181 the number sent to the bottom by undersea craft since Pearl Harbor. Submarines have accounted for 50 percent of the 360 enemy ships sunk in the Pacific. In addition American submarines have probably sunk 28 ships and damaged 47 more.

The 16 Japanese ships were listed in the navy's latest report on submarine warfare in the Pacific. It was the largest report of successful American submarine action ever released by the navy.

In addition to the destroyer, vessels listed as sunk in the communique were five medium sized cargo ships, one large transport, one large trawler, one patrol vessel, one small supply ship and two small cargo ships.

A medium-sized transport was reported probably sunk. One destroyer and one tanker were damaged and one medium-sized transport was "badly damaged."

The navy's communiques on submarine warfare give no details, merely listing the ships, sunk, probably sunk and damaged. But the heroic work of submarine crews has been revealed from time to time when officers and men have been decorated. The quiet work of American submarines has been a major factor in keeping the long Japanese communications lines under fire.

A. F. OF L. THREATENS 16 TEXANS

WASHINGTON, June 15.—The American Federation of Labor "will pour every resource at its command" to defeat for re-election 16 out of the 21 members of the Texas delegation in the house of representatives, because they voted for the Connally-Smith anti-strike bill.

The A. F. of L. has made this announcement in its weekly "news service" clip sheet, circulated to all of its unions, and to most newspapers.

LAST OF 5 GERMANS ARE NOW IN JAIL

AUSTIN, June 15.—Ludwig Jung and Harald Stalleicken, escaped German prisoners of war, were in Travis county jail waiting return to Camp Hood today after their capture at Cedar Park, 30 miles northwest of here on the Burnet Highway.

Hungry and headed for Mexico, the fugitives were captured late Monday afternoon by three civilians who acted on a tip given by Mrs. Halsey Street of Cedar Park.

You can recognize a new bureau head in Washington by the fresh footprints on his pants.

RUBBER GOVERNORS

Two rubber state governors are scheduled to get together June 28, when American Made rubber day is celebrated in Texas. The day has been proclaimed by Governor Coke R. Stevenson and all Texas will join in celebrating the important part Texas is playing in the vital rubber program.

Because most of the rubber is now processed in Ohio the arrangements committee, headed by Thornton Hall, of San Antonio, president of the Texas Newspaper Publishers' association and Deskins Wells, manager of the Texas Press association, has invited Governor John W. Bricker to take part in the ceremonies.

Four of the government-owned plants are being erected in Texas, and more synthetic rubber will be produced in this state than in any other. Occasion of the June 28 celebration is the opening of the Baytown plant, to be operated by The General Tire & Rubber company in association with the General Latex and Chemical company, of Cambridge, Mass.

A nation-wide broadcast on the night of June 28 will tell the nation of Texas' part in the solution of the rubber problem.

CANADIAN STRIKE.

TORONTO, June 15.—Approximately 10,000 war industry workers were on strike in Ontario and Quebec today, seeking higher wages or union recognition.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

A. B. O'FLAHERTY, Publisher and General Manager; W. H. LAROQUE, Advertising Manager.

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D Avenue, Cisco, Texas.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year by mail (outside Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties, Texas; outside the above-mentioned counties, \$3.50; \$4.75 in U. S. outside of Texas.

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy 10c

SALT IT DOWN.

It seems necessary to repeat, over and over, that the American public must be sensible about its finances instead of squandering its liberal war-time pay. With some thirty billions of ready money floating around in people's pockets, naturally a lot of it is spent thoughtlessly, and a lot of time is wasted away in trying to find ways to spend it.

This is not only foolish when people should be salting down their money for use in harder times. It is also dangerous, because it tends to push up prices and force monetary inflation. There is already considerable swelling of prices, and the accumulation of all these loose billions of dollars, in the hands of foolish or reckless people, tends to crack the price controls.

It is as necessary now to hold the financial line as it is to hold the military line. Paper money thrown around recklessly will wild cats lose its value. Excessive spending in these times could crack prices until a dozen dollars to buy what a dollar buys now. The way to keep money sound and valuable is to spend less, and to carry around less of it. Those extra thirty billions should be saved up and salted down, in the form of sound real estate and stock investments, and especially in the convenient and safe form of government war bonds. This many of the evils and dangers of war-time can be counteracted.

ANY DAY

Broadly speaking the European war has "marked time" lately. It has been a time of crisis, in the dramatic sense of that word—turning point after which things will come victory or defeat. Needless to say, the Allied Nations are expecting victory, as they have good reason to do.

Any day now the comparative calm may be broken on the Russian front, the Western European front and the Med-bercean front. And the ensuing struggle may determine the European outcome for generations. In this moment of suspense Americans, consistently avoid the trial and the outcome.

With good fortune and supreme effort, involving great sacrifice and the loyal support of all Americans, the United Nations may win this year or next year. They can turn their full power against Japan.

So far, the war in the Pacific has been mainly a "holding" task, intended to keep the Japanese at bay, and gradually press them back on their outer edges, while waiting for the European clean-up. But there are evidences of

THE LATIN.

General Arturo Rawson was the leader in the Argentine revolution and the first choice to head the new government. While he resigned from the presidency even before assuming the office, he remains an important figure in the country's life.

He obviously English name probably goes back to one of the many English marines and adventurers who settled in Argentina and Chile more than a century ago. Admiral Cochrane, the Dauntless, headed successively the navies of Chile and Brazil at the time these countries gained their independence.

The Irish also have been there. Two bright stars of Chilean history are Amalio O'Higgins and his son Bernardo, the latter a dictator for several years and one of that country's most progressive rulers. The seasoning contributed by these foreign elements has done much to make Argentina and Chile great Latin American states.

Results of the great German immigration into Argentina have not been so happy.

DECEPTIVE.

"He was so agreeable and looked so honest." This excuse was given the other day by a simple-minded soul who had entrusted her life-savings to a plausible swindler. She has now learned a lesson often acquired at great cost, that looks mean just nothing. A Chapin-like moustache can hide a nature the exact opposite of comely. The Germans know now that if Churchill resembles a Kewpie, the quaint doll that delights children, something more than this lies behind.

As the old proverb has it, "You can't tell from a cat's looks how fat he will jump."

JUST POLITICS.

Raymond Clapper, American news columnist now in London, is having difficulty these in explaining our American labor troubles. The British people simply can't understand.

"In this war," he writes, "there is no parallel for the course taken by John L. Lewis. Wartime stresses regarding in Britain have been in defiance of union leaders. People here can understand the labor leader whose men get out of hand, but not one who orders a stoppage in a basic war production like coal mining."

Well, most Americans can't understand it, either.

OTHER EDITORS

Lewis' Tactics.

Dallas News. In a recent bulletin of Freedom House, New York, John Chamberlain writes: "Almost a decade ago Heywood Brown said:

"It seems to me that the political and economic history of America in the next ten years will be largely written in terms of the success or failure of John L. Lewis." To which the late Senator Huey P. Long added: "Old Huey thinks this John L. will be the most powerful man in America unless I get there first."

Chamberlain goes on to say that Lewis' grand strategy is to split the Roosevelt support consisting of what he calls the anomalous combination of the labor North and the Bourbon South which he designates as the "one qua non of continuing Democratic victory."

Chamberlain's stuff makes interesting reading but it is not good practical politics. The solid South will undoubtedly support the Democratic nominee in the next election. By calling the South "Bourbon," the Freedom House writer shows that he knows little of history. There are some Bourbons in the South (primarily in books written by Northern writers), but the majority of the South has always been profoundly Democratic and profoundly internationalist in its thinking about things that count.

Chamberlain overlooks the more effective strategy of Lewis in his fight against Roosevelt.

namely, to discredit the national administration in the eyes of the whole country to the extent that the rather slender Democratic majority may be lost in the next election, not necessarily in the South or in the labor centers. Lewis is out to get the vote in the territory where it will count the

most, that is, in those states near the border line of balance between Democratic and Republican strength or possibly as Lewis conceives it, between Roosevelt and anti-Roosevelt strength. That leaves the South out, if history means anything.

Lewis is continuing one suc-

cessful assault after another back down on the \$5 fine is the basis. The national administration in view of all it has done for the nation's war effort, Lewis' political machinations that are as great, even considered, as originally planned by Lewis and refused by War Labor Board. But said, No.

Roosevelt has tried to appear that he is fighting for the nation's war effort, Lewis' political machinations that are as great, even considered, as originally planned by Lewis and refused by War Labor Board. But said, No.

Freedom was discussed in anyway. The press was free, but was prostituted to body who would pay.

TIMELY TIPS on tire care

Get our careful, complete tire check-up today

Let us remove small stones, find and fix tire cuts and breaks that may mean serious trouble. Have us check wheels and brakes, too. We offer reliable services at reasonable cost.

Don't wait until your tire is worn too thin for recapping and becomes a total loss. We'll tell you when to act. No ration permit needed.

GOODYEAR

And—you pay no more for **GOOD YEAR EXTRA-MILEAGE RECAPPING**

A job you can trust, done by experts—using Goodyear methods and materials to give you many months of safe driving.

\$6.50 per tire (Recappable carcasses furnished by year)

GOOD NEWS! Use your tube certificate to buy **LIFEGUARDS**

The best tubes money can buy!

A pre-war product—LifeGuards hold air better, wear two to three times longer. You can't get better protection to save your life! Limited stock—so buy NOW.

GOODYEAR TIRES LOW COST... HIGH VALUE

Don't let YOUR battery "GO DEAD!"

Get our careful FREE check-up NOW. Prompt, reliable recharging service. Need a new battery? Get a factory-fresh, full-power GOODYEAR!

MAKING AMERICA STRONG

TELESCOPIC PLATFORM!

THE TALLEST EVER BUILT, THIS TELESCOPE PLATFORM FOR REPAIRING AIRPLANE AND DIRIGIBLE HANGAR ROOFS IS PORTABLE, ELECTRICALLY OPERATED, AND CAN BE ELEVATED TO A HEIGHT OF 95 FEET!

HOW TO AVOID TROUBLE WITH YOUR GRAIN DRILL

By Eric Patterson
Farm Dept., N. Y. State Institute of Applied Agriculture, Ithaca, Pennsylvania

ALTHOUGH a grain drill may last for many years, it actually does only about four months work in its lifetime, according to a survey here in New York. On larger western farms, the average may be considerably higher. Even so, it is apparent that this machine wears

out, not in proportion to use but in proportion to time. In short, rust and weather consume a large part of the farmer's investment in this machine.

Accordingly, a regular daily schedule of lubrication with good lubricants is of foremost importance. Last year, a survey by Agricultural Engineers in New York revealed the following to be the most common grain drill troubles:

1. Twisted fertilizer feed shaft
2. Broken castings in fertilizer box
3. Worn and poorly adjusted clutch
4. Broken feed gears
5. Fertilizer and feed box spring out of alignment
6. Incorrect mesh of driving gear
7. Worn pawls in drive wheels
8. Gate "frozen" in fertilizer feed box

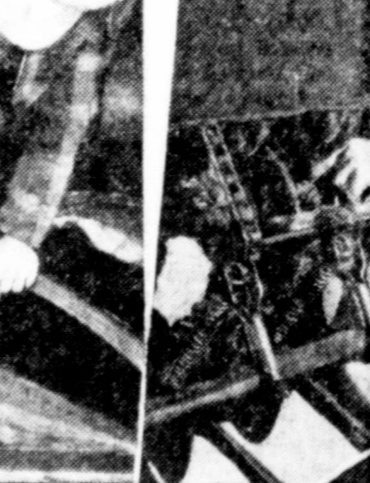

Most of the above troubles could have been avoided or remedied by frequent check-ups and adequate lubrication.

It is not the policy of the New York State Institute of Applied Agriculture to recommend any specific products, and nothing in this article should be so construed.

Lubricate power/lift bearing daily. Use a good "grease lubricant" that will stick to the job. Pack the grease cups serving the bearings on the furrow openers twice daily. Lubricate wheel bearings twice daily.

See that spring tension on clutch plate is adjusted properly. Replace worn driving bevel gears and seed-plate gears. Do not wait until slippage occurs. If you do, other troubles may develop. Replace pawls in drive wheels when ends become rounded.

How to free nuts: If rusted tight, drench nuts in kerosene. Rest short length of pipe on nut. Tap smartly with a hammer to break rust. Remove nut and coat with oil.

HOW TO CHECK RATE OF DRILLING

Check frequently to make sure the drill is putting out the amount of seed for which it is set. If the drill is not calibrated for the seed to be used, it can be estimated as follows:

- 1—Measure the circumference of one of the wheels; multiply by the width of the strip the drill sows and divide 43560—the number of square feet in an acre—by this number, to get the number of wheel revolutions necessary to sow an acre.
- 2—Measure the amount of seed the drill drops in making enough revolutions to cover 1/4 of an acre, and multiply by 4. By adjusting the feeders, the exact amount to be sown per acre can be determined.

FAMILY REUNION WAS HELD HERE SUNDAY.

A family reunion was held in the home of Mr. and Mrs. J. P. McCanties Sunday with the children and their cousins as guests. The occasion was brought about by the visit of some out of state children. Twenty-four guests were seated at the two long dining tables, where fried fish and all the garnishes were served. During the afternoon refreshments of home-made ice cream were passed to all present and pictures were made of the group.

Those participating in the delightful occasion were Mr. and Mrs. Eloy McCanties and children Mike and Linda of Tom Ball; Mrs. Ed Smith and two children, Shirley and Richard; Mrs. Charley Smith and daughter, Charlene, all of Douglas, Ariz.; Mr. and Mrs. Edgar Garner and son, William Perry of Sweetwater; Mr. and Mrs. Jonah Mack Lawrence and children of Sweetwater; Mr. and Mrs. C. M. Nichols of Glen Rose; Mr. and Mrs. Herbert Lawrence

and son Bobby Joe of Cisco and daughter, Miss Bessie Lee Lawrence of Fort Worth.

Phil McCanties, youngest son of Mr. and Mrs. McCanties, who is stationed in South Carolina, could not be present but expects to spend his furlough in Cisco during the summer.

CHANGE OF TIME IS MADE AT S. D. ROOM.

A change of time has been made at the surgical dressings room in order to accommodate housewives who are busy canning. Instead of meeting every afternoon as heretofore, the time is changed to an all-day session of work two days each week. The days will be Wednesday and Thursday.

Work will begin promptly at 8:30 each morning. Husbands of some of the women who have been helping belong to Lion or Rotary clubs and will not be at home for lunch on those days. It is necessary to have 25 women at work on these days to maintain required production. A capable woman will be in charge at all times during the two work days.

The month of June is half gone and the required amount of surgical dressings for June is not half made. We hope the women will rally to their duty and come to the work room Wednesday and Thursday to assist in this task.

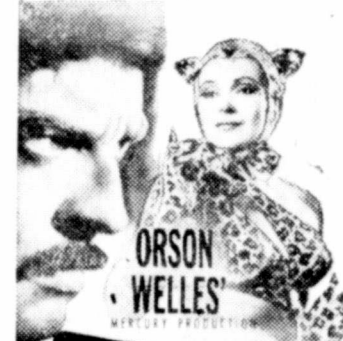

ROBT. SMITH LOST HIS CAR LAST NIGHT

"It is not safe to leave the key in your car," is a fact that will be attested to by Robt. C. Smith of 206 I avenue. But it was impressed upon him too late to save his 1935 model Chevrolet car, which was taken from his driveway last night. Mr. Smith says that he does not have a garage where he lives and so ordinarily parks his car, either in the driveway or behind the house. His wife looked out this morning and seeing no car asked where he had left it. The alarm was sounded over the radio so that officers will be on the lookout for it, Smith said.

Modern version: Oh, T cards, what crimes are committed in thy name.

Welles, Del Rio Together In Smash Mystery Melodrama!

JOURNEY INTO FEAR starring JOSEPH COTTEN DOLORES DEL RIO RUTH WARRICK with ORSON WELLES

First Great Story of Those Taunt, Tense Days When the World Hung on the Edge of WAR!

"MARCH OF TIME"

Thirty out of one hundred and sixty Russian Government cameramen were killed in the making of the new March of Time film, "One Day of War—Russia, 1943."

Shows the Real Russia

Besides spectacular battle sequences photographed from tanks actually under fire, the film shows how the Russian people live and work under the shadow of war.

Red Wine Makes Stew a Real Treat

Beef and Kidney Stew, Red Wine (Serves 6)

- 3 lamb kidneys, 1/2 pound beef, chuck or shoulder, 2 tablespoons fat, 1 1/2 cups boiling water, 1/2 teaspoon salt, 1/4 teaspoon pepper, 4 small carrots, split lengthwise, 2 potatoes, cubed, 3 onions, sliced, 1/2 cup flour, 1 cup cold water, 1/2 cup California Claret, Burgundy, Cabernet or any red table wine.

Mashed potatoes or baking powder biscuits. Split kidneys lengthwise; remove tubes and soak 1/2 hour in cold salted water. Cut beef in 1 inch cubes, brown in 2 tablespoons fat and add boiling water. Add salt and pepper, cover, and simmer for 1 1/2 hour. Add vegetables and more water if needed and simmer twenty minutes. Blend flour with cold water and stir mixture into stew. Bring to the boil, stirring constantly, until gravy thickens. Add the kidneys and the wine and turn stew into baking dish. Garnish with mashed potatoes run through a pastry tube or top with baking powder biscuits. Brush potatoes with egg yolk mixed with a little water. Bake in a hot oven (450 degrees F.) until browned. (Baking powder biscuits require 12 to 15 minutes.)

Canada's Mothers Do Big Job

EACH day the great war industries of Canada are enrolling more women to take the place of men called away from their machines for active duty in the armed services. Already nearly 250,000 Canadian women are working in war factories. Immense release of woman-power has been possible by the creation of day nurseries by Dominion and Provincial authorities.

Children are well cared for while mothers work at war machines. Organized group games are important in the program planned for the tiny tots sheltered daily at the nurseries. Trained attendants care for every need of these youngsters.

Organized group games are important in the program planned for the tiny tots sheltered daily by the Dominion-Provincial Nurseries. Trained attendants care for every need of these youngsters whose mothers are employed in Canada's many war industries.

Canadian women reporting for work at a munitions plant. Many of them are mothers, who have shortly before left their children in a local nursery for the day while they are working.

Balanced meals at regular hours, rest periods and supervised recreation are among the childhood essentials supplied to these youngsters of Canadian women war workers. Knowing their children are well cared for, Canadian women can put their best efforts into their war jobs with a free mind.

Starting mainly as inspectors, Canadian women have invaded every field of operation, except those where sheer strength is the prime requisite. They are making intricate radio and electrical devices, shell fuses, parachutes, and uniforms; they operate lathes and milling machines; they work in

many sections of shell filling, explosive and chemical plants. In the vital aircraft production field their numbers have grown from a handful at the outbreak of the war to a total larger than the pre-war total of all employees. And while it is customary to associate female workers in aircraft plants with the sewing of fabric in airplane wings and fuselages, it is less well known that they now tackle the make-up of electrical wiring, riveting, welding and fitting of sub-assembly work on metal planes.

GARRETT OFF TO VFW MEETING, LUFKIN

Major H. R. Garrett, Mrs. Garrett and daughter Dorothy left today for the state enampment of the Veterans of Foreign Wars to be held at Lufkin, from Friday through Sunday.

Major Garrett is post commander of district 8. All the districts are expected to be represented, said Garrett.

Incidentally, Major Garrett will contact some prospective students while on the trip and will visit the E. B. Isaacks family at Cleburne, where Rev. Isaacks has been recently called to the pastorate of the Christian church of that city.

BRIEFLY TOLD

Mr. and Mrs. E. J. Poe enjoyed visits of their daughters and husbands over the weekend. With them were Mr. and Mrs. Al Strasser of Abilene and Mr. and Mrs. Donald White of Houston. Mr. Strasser is stationed with the army air base at Abilene and Mr. White, a seaman of the first class, is connected with the coast guard at Houston.

Pfc. George B. Hull left Sunday for the army air base at Santa Maria, Calif., after a 15-day furlough spent here with his mother, Mrs. Carrie Hull, his brothers and other relatives and friends.

LL Robert Kalkie has returned to Camp Bowie after a visit here with his cousin, Mrs. C. I. McAuley, 711 W. Thirtieth street.

A communication to the Daily Press from Fort Mason, Calif., states that Second Lt. James P. McCracken of the army transportation corps has reported at San Francisco port of embarkation for duty. He is a son of Mrs. Elizabeth McCracken of Cisco.

Mr. and Mrs. Norman Zahn of 505 W. Sixth street visited relatives in Mineral Wells Sunday.

Mr. and Mrs. Jack Underwood of Odessa visited his mother and wife, Mr. and Mrs. M. F. Dinkenswood over the weekend.

Mrs. Roy Cameron is spending the week with Mr. Campbell at Trussett.

Tipon Page, stationed at the army air base at Goodhue, visited his parents, Mr. and Mrs. Tom Page near Cisco the past weekend.

Mr. and Mrs. Sam Lambert and little Robert Lambert spent Saturday afternoon with friends in Abilene.

Mrs. Paul Pate and her sister, Mary Jeanette, returned from a visit with her mother, Mrs. Ben Blacklock, at Monday.

Mrs. W. G. McArthur of Mercedes, N. M., who has been visiting in the home of Dr. and Mrs. G.

M. Stephenson, returned home Monday.

Mr. and Mrs. Lawson Hutton have returned to Houston after a visit with her brothers, Smitty and Ed Huestis, and with her mother, Mrs. George Huestis, in Eastland.

Mrs. R. B. Lane of Fort Worth visited her parents, Mr. and Mrs. J. E. Barnam, the past few days.

Mr. and Mrs. George Saunders of Brownsville and Sweetwater spent Sunday with their daughter, Betsy Morrison Saunders, in the home of Mrs. Saunders' parents, Mr. and Mrs. Roy Morrison. Bill Morrison accompanied his brother-in-law on his return to Brownsville and will be his assistant on a business trip to Old Mexico.

Mrs. Ben R. Towrey and son of German visited her mother, Mrs. Gorman Pollock here Sunday.

Mrs. E. A. Smith returned to her home in Fort Worth Sunday night after a visit with her mother, Mrs. W. D. Brown, and Mrs. W. D. Brown, the former Miss Helen Taylor.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

Mr. and Mrs. Ed Olson of Mexican visited Mrs. Olson's sisters, Misses Fannie and Arnie Stevens, Saturday. They were accompanied by the couple and their son, Mr. and Mrs. John Hancock, and Mr. and Mrs. John Hancock.

a meeting of Eastern Star at Moran Monday night. Installation of officers was the highlight of the occasion.

J. W. (Sleepy) Harris has returned to the air base at Craig Field, near Selma, Ala., after a visit in the home of his sister, Mrs. Laila Stuart.

Billy Ray Swindle son of Mr. and Mrs. A. M. Swindle has been sent to Fort Knox, Ky., for basic training. He was inducted into the army on May 28.

Mrs. E. L. Schmidt of Omaha, Neb., is a guest in the home of Mr. and Mrs. Mossy Lammack.

Mr. and Mrs. Howard Lord and daughter Janet of Fort Worth spent the weekend with her parents, Rev. and Mrs. H. D. Blair.

Mrs. T. E. Lisenbee and children Monterey and Roger and her sister, Mrs. Dale King of Los Angeles spent today with friends in Brownsville.

Mrs. Allen Barnam has gone to Brownsville to remain with her mother, Mrs. Bishop, for the duration. Allen Barnam was inducted into the armed forces recently.

Guests in the home of Mr. and Mrs. J. H. Latson, Sr., over the weekend were their daughter, Mrs. Mabel Kiveland and her sons W. E. and Wendell Kiveland and Bob Latson of SMU, Misses Fred Ella and Blanche Grand all of Dallas and Staff Sgt. H. Vance Latson, Camp Harker, Tex.

Miss Ethel Leverage, who has been visiting in the home of her mother, Mrs. Will Leverage, returned to her home in Brownsville Sunday after a visit with her sister and husband, Mr. and Mrs. O. L. Shoney.

Mr. Charles A. Tancered, of Colorado Springs, Colo., and Miss Lillian Day of Cisco were united in marriage at the army chapel at Goodhue last Thursday, an arrangement officiating. The young couple for mother, Mrs. R. L. Day, over the weekend.

Miss Edna Moad of Big Spring visited her parents, Rev. and Mrs. S. Moad over the weekend.

LIVESTOCK EXCHANGE SALES TOTAL \$6,000

The Cisco Livestock exchange had a very live auction at their stock pens Friday afternoon, with a total sale of about \$6,000. Stock were of the usual high quality of the Cisco country, bringing top prices and finding plenty of eager takers.

NANCE MOTOR COMPANY, INC. CISCO, TEXAS

SPECIALISTS ALL OVER THE WORLD EXPAND GM WAR EFFORT BEYOND PRODUCTION LINE

NEW YORK—Far-flung wartime activities of General Motors cover and exceed its large-scale war production, through which it has made available the services of technicians, developed training facilities and utilized overseas plants and personnel in cooperation with United States and Allied military leaders all over the world, was presented in detail today for the first time in a special message by Alfred P. Sloan, Jr., chairman of the board, to 400,000 General Motors stockholders.

Highlights of the war products field service program launched shortly after Pearl Harbor at the request of military authorities and since greatly expanded, which has the one primary objective of assuring that GM war equipment is kept in the operating efficiency and available for action at the front the maximum of time, are:

"Technical centers" have been established in England, Egypt, India, Australia, New Zealand and elsewhere.

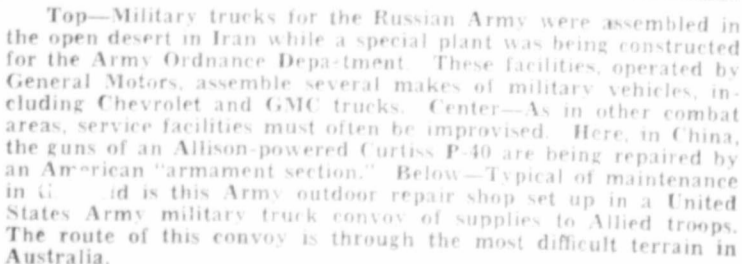

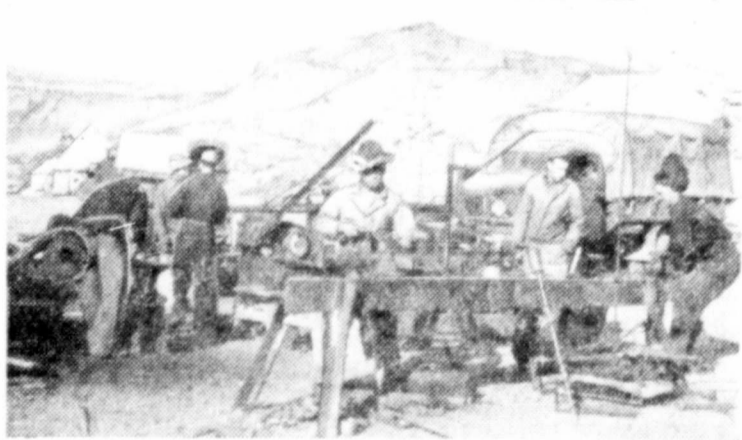

More than 200 technicians are assigned to combat areas as field observers, service or parts specialists on GM war products.

A constant flow of performance reports on GM equipment at the front is forwarded through military channels to the research, development and engineering staffs, forming the basis for joint action with military technicians in steadily increasing the technical excellence of the products.

Management and other services were provided in procuring and operating these emergency assembly plants for military vehicles in the Middle East.

Assistance was provided to the Army in setting up truck reconditioning plants in specific combat areas, and to the Navy in establishing overseas service points for GM Diesel engines. Manufacturing and assembly plants in England, India, Australia, New Zealand and South Africa have been converted to war production or assembly.

Engineering facilities and personnel in the United States have been made available for experimental and development work. The General Motors Proving Ground has become an Army testing field for war products.

Top—Military trucks for the Russian Army were assembled in the open desert in Iran while a special plant was being constructed for the Army Ordnance Department. These facilities, operated by General Motors, assemble several makes of military vehicles, including Chevrolet and GMC trucks. Center—As in other combat areas, service facilities must often be improvised. Here, in China, the guns of an Allison-powered Curtiss P-40 are being repaired by an American "armament section." Below—Typical of maintenance in the field is this Army outdoor repair shop set up in a United States Army military truck convoy of supplies to Allied troops. The route of this convoy is through the most difficult terrain in Australia.

put itself in technological development, and in furthering the essential services from the product leaves the factory until it has served its full purpose in the battle fronts. General Motors has made available its entire resources of skill and experience to one common purpose—Victory.

• "Dive Bombing" mosquitoes — "Four Motor" flies — are just two of the insect enemies that wage war on our soldiers on many battlefronts... and two reasons why the army uses such vast quantities of FLIT and other insecticides.

For these super-slayers kill many vicious foreign pests just as they now down household insects here at home!

FLIT has the AA Rating... the highest established for household insecticides by the U.S. Bureau of Standards.

Before Cords Get Like This—

Have Them Repaired!

A cord in this condition is dangerous. When the insulation starts wearing away near the plug, have it repaired.

Yes, we know it's hard to get household help nowadays. That's the reason we're reminding you to be sure your electric servants are kept at work, doing their full share of the job.

They were intended to relieve women of much household drudgery. A flip of the switch puts them to work. Use them on every occasion—there's plenty of electric service.

And if something goes wrong, ask our repairman to help get your appliances back in working condition. We want to help you MAKE 'EM LAST!

West Texas Utilities Company
