## SPEZIA, ITALY'S BIG NAVAL BASE, BOMBED

### RAF MADE NERVY DASH FROM BRITAIN TO AFRICA, HITTING ITALY ON WAY HOME

LONDON, June 24.—British four-engined bombers, flying from North African bases on the first shuttle assault of its kind ever undertaken, bombed Italy's biggest naval base at Spezia last night and flew on another 700 miles to land in England.

The raid, pressed home by the same formation of Lancasters that took off from Britain Sunday night and bombed Friedrichshafen, Germany, on the 1200-mile southeastward flight to North Africa, held an implied threat of a terrific two-way assault from North Africa and Britain against Italy, possibly as a prelude to invasion.

The success of the operation obviously laid open all Italy, as well as Sicily and Sardinia, to raids from bombers based in Britain and lent added significance to a Royal Air Force spokesman's comment only yesterday that the Allies would have no scruples about bombing Rome as one of the centers of the Axis war effort.

Not a single plane was lost either in the raid of Spezia, where a large portion of the harbor-bound Italian fleet recently was reported tied up, or that on Friedrichshafen, in southwestern Germany just across Lake Constance from Switzerland.

British based planes, both bombers and fighters, took over the European offensive in daylight this morning. Watchers on the English southeastern coast said that at least one large formation roared across the channel toward Northern France, while fighters crossed and recrossed the coast on sweeps.

Though no figures were available on the number of Lancasters that participated in the two-way raids on Friedrichshafen and Spezia, it has been estimated that approximately 400 tons of bombs were dropped on the German city, site of important radio location equipment works.

Preliminary reports of the raid on Spezia indicated that docks were bombed accurately and oil stores set afire, the Air Ministry said.

It made no mention of the presence of warships in the harbor, though three battleships and a number of smaller warships were docked or anchored there when American Flying Fortresses attacked Spezia June 5 and damaged shipping.

Spezia, Italy's largest naval base, lies on the Ligurian Sea 50 miles down the west coast of Italy from Genoa and has been raided six times by aircraft from North African and British bases.

The Spezia-Friedrichshafen raids constituted the first shuttle operation ever undertaken by the RAF between Britain and North Africa.

On shuttle raids of this type, the bombers face the formidable anti-aircraft defenses of western Germany on only a one-way trip and complete their journey over the weaker Italian defenses. When a round trip must be made over Germany, night fighters and anti-aircraft gun crews are waiting for the bombers on their return journey.

#### WAAC OFFICER COMING.

Lt. Virginia Williams, WAAC recruiting officer from Abilene, will be in Cisco Saturday and Sunday as the guest of Mrs. Lilla Smart, local recruiting chairman. Lieutenant Williams is anxious to contact as many Cisco women as possible on this visit and will be glad to furnish any information desired by those interested in the growing organization.

### Federal Court Services Admitting 84 Aliens To Citizenship, Impressive

### DEATH CLAIMS LLEWELLYN McCREA, AGE 7

DALLAS, June 24.—Eighty-four aliens, many of them in tears but speaking firmly in broken English, swore allegiance to their new country and its government yesterday as they were admitted to citizenship in Federal Judge William H. Atwell's court.

"I trust you may never grow tired of the importance of the Constitution and the Declaration of Independence," Judge Atwell declared. "You need no historical inspiration to place your citizenship in this country."

"It is strong, it is brave. Your flag teaches beauty and the amalgamation of the world's best blood into one nation. It is now your flag. Maintain it with the best of your ability. Above all, be loyal. May your citizenship be a happy marriage between you and your nation."

Included among those granted citizenship was the first Chinese ever admitted in the Dallas district. He was Pfc. Daniel G. Lee, 21-year-old soldier stationed at Love Field, whose home is in Portland, Ore.

Standing behind Atwell during the three-hour hearing was a representative of the Army, Navy and Marines in Dallas.

Beside the judge on the rostrum were four youths, all from Wichita Falls, who spoke eloquently to the new citizens on the Army, Navy, Marines and American flag.

The total admitted to citizenship yesterday brought the grand total of this year in Dallas to 309. Nineteen of the petitions were denied without prejudice.

Twenty of the eighty-four admitted were born in Germany, the largest single class.

A 66-year-old Italian woman walked directly up to Atwell's bench, declared her love for her country but said she could read or write very little English. She answered a few questions about the government, knew the president's name, declared she had three sons in the Army. Her citizenship was granted.

Besides Lee, the Chinese, four other military petitions were granted to natives of Russia, Canada and Mexico. They swore allegiance in a body.

Two of the petitions were denied without prejudice.

### SHELTON HERE 60 YEARS AGO

W. P. Shelton of St. Louis and Elmo White of Stephenville, county clerk of Erath county, are guests of Mr. Shelton's brother, J. E. Shelton, 1102 E. Sixth street, and visited the Cisco Daily Press this morning, recalling memories of Cisco dating back to the early eighties—60 years ago—when W. P. Shelton started a newspaper called the Cisco Press in 1883, and the establishment of the first bank in Cisco by J. R. Fleming & Co., also in 1883. Shelton sold the paper to a man named Schaefer, who is said to have changed the paper's name to Cisco Telegram.

Mr. Shelton, who is still very alert and appears many years younger than he evidently is, recalls Charles H. Fee as a prosperous hardware merchant. Mr. Shelton said he had a very pleasant visit with Mr. Fee this week.

When Mr. Shelton first visited Cisco the T. & P. railroad had already been built and he thinks the Texas Central was possibly being built through at that time or had just been completed through Cisco.

This is the first time Mr. Shelton has visited Cisco since those days and of course he finds it hard now to get his bearings. Many of the older establishments have long since changed and new ones have come.

J. E. Shelton is the uncle of Mr. White's wife, and so Mr. White is visiting about with the Sheltons, seeing the town and meeting many friendly people, he said.

Deceased is survived by his parents and two grandmothers, Mrs. L. H. McCrea, Sr., Cisco and Nashville, Tenn., and Mrs. J. E. Chesley, Cisco; brother, Yancey, Jr., and sisters, Patsy Lois and Berlie Ann.

Pallbearers will be Luther McCrea, G. W. Wilcox, Monroe Sweeney, W. H. LaRoque, Dr. D. Ball and Hal Wagon. Honorary pallbearers will be all his school friends and acquaintances.

**MORE COFFEE.**

WASHINGTON, June 24.—The next two coffee rations will be on the basis of one pound in three weeks—the most liberal allowance since the beginning of rationing—since the OPA announced today. The present ration is one pound for four weeks.

**FIGHT LIKELY IF ANTISTRIKE BILL VETOED**

WASHINGTON, June 24.—President Roosevelt's proposal to meet any new coal strike with a draft club was viewed in most congressional quarters today as an inadequate substitute for the antistrike bill, which many lawmakers now expect him to veto.

Roosevelt disclosed yesterday that steps already had been taken to set up machinery for inducting all draft-age miners into the armed forces, and he said more over that he will ask congress to raise from 45 to 65 the maximum age for induction into noncombat military service. This would take in many of the older miners.

Some quarters interpreted this to mean strikers would be put in uniform and under army discipline returned to their coal digging jobs at a private's pay of \$50 a month. Chairman William H. Davis of the war labor board has estimated their present pay scale for a six-day week at \$49.60, or about four times as much as army pay.

Immediate reaction in both house and senate was cool. The Appalachian operators viewed the president's stand favorably but asked, nevertheless, that their mines, operated by the government since May 1, be returned to the owners. They said they had obeyed the government's wishes while John L. Lewis, president of the United Mine Workers, had been defiant in his demands for \$2 a day wage increases.

Lewis instructed the miners to work until Oct. 31 but only as long as the mines are government-operated.

Meanwhile the return to work movement was slow, some Pennsylvania unions voting against resumption without a contract.

**RANGER BOY KILLED.**

SHERMAN, June 24.—Lt. Cliff G. Zweck, 21, and Pvt. Archie H. Hazard, 22, were killed in the crash of their Perrin Field plane near Fort Smith, Ark., while on a training flight Wednesday.

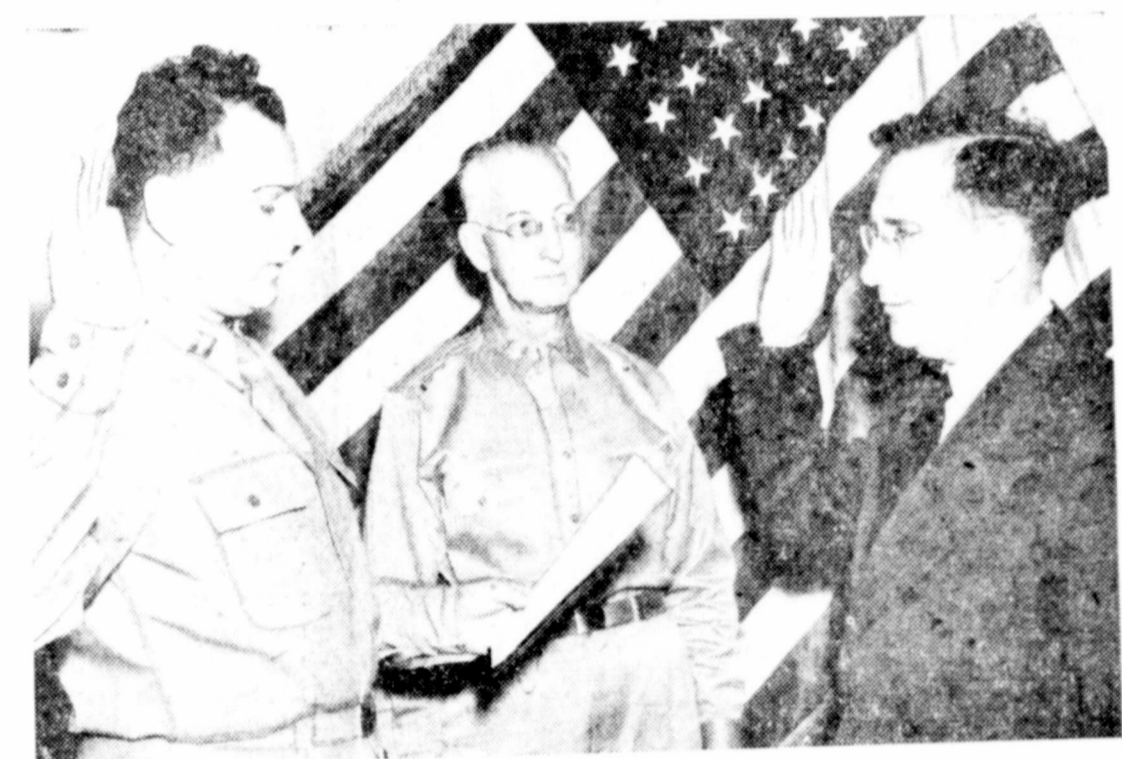

Zweck is the son of Mr. and Mrs. B. H. Zweck of Concord, Cal. Hazard's parents are Mr. and Mrs. C. P. Hazard of Ranger.

**DIED IN ALEUTIANS.**

Mrs. Homer Doyle and Mrs. Dan McCrary were notified Tuesday of the death of their brother, Cecil Hagar, which occurred in the Aleutian Islands where he was working on a defense job. Details of the death were not given.

Besides his wife and a son, who live in Sweetwater, he is survived by his mother and several brothers and sisters. Deceased was reared in Cisco and was married to Miss Dibbon Choate, who lived with her parents here at the time of their marriage.

## HANDOUTS.

Freedom to us in this country is our greatest heritage—likewise its preservation is our gravest responsibility.

We have used the freedom our men are fighting to perpetuate, as an instrument to avoid discomfort. Some of us went out on strike in vital defense work because we did not get total wage increases demanded. Hundreds of thousands of us struck against government because we didn't think we were paid enough to dig coal with which to win the war. We actually have had the gall to wave the American flag over such acts, the same flag under which our troops are dying in every corner of the world.

Many of us, in our own selfishness, cheer at proposals for our government to run the show after the war, just like other governments have been running the show in Europe. We cheer because we think we can get more handouts from government. Apparently after the war, we don't intend to stand up to wipe Out Glory—we plan to do it sitting down in an easy chair.

This abuse of freedom must end somewhere, or there won't be any freedom to abuse. Our employing, tax-paying enterprises must be preserved as private endeavors. Men returning from war must be saved the right to go back to work under private employment, as free citizens. Unless that right is retained, its corollary, representative government, cannot survive. Neither can survive unless the numerical attempts to use our freedom to avoid the hardships of war are put down effectively and soon.

## WRIGGLING.

The Nazi supermen are beginning to wriggle partially under the pressure brought to bear on them by the Allies, and to find excuses for their increasing failures. Press Agent Goebbels tells the German people:

"Science above all should be observed by our risky critics. In this world no one is infallible, and this applies equally well to the government and chiefs of staff, who are not at all liable to make mistakes as anyone else." As for the German public, whom the supermen have got into this mess, he says it "has been spoiled by a long series of victories and swift, triumphant reverses."

It is refreshing to get such plain truth from a man at last and to have assurance from the highest sources in the Reich that their "supermen" doctrine is bunk. It is not clear that the "All-Highest" Adolf himself is inclined in this humble confession, but if not, he soon will be.

And so is exemplified more clearly every day the soundness of the American saying, "the higher they rise the harder they fall."

## RABBITS.

It is evident that civilians will get along in this meat-eating country, with considerably less meat than usual — for the duration of the war, and for some time afterward. It will mean privation to some, but people must get used to it.

The most obvious remedy is to eat more vegetables. And almost everywhere city people and suburbanites are meeting this problem part way, at least, by growing fresh vegetables in their own gardens, where they have space for it.

Meat substitution is a more serious problem, but there are ways by which many people can add to the supply. Poultry raising, for instance. Another method taken up widely as a fad, now tends to develop into a serious business. It is the raising of rabbits for food, and is said to be rather easy and profitable for people willing to take the trouble. Boys and girls usually like such occupations. Rabbits breed rapidly, are easy to feed and the good

## BALANCE.

Congressman Clare E. Hoffman, author and politician, is quoted as saying in a recent speech that "only when men of practical experience, rather than men of political theory, administer the national government, will the United States win the war quickly."

Here is one of those questions on which there is "much to be said on both sides." Theorists and self-styled "practical men" are always leading. And, as usual in such cases, the "truth" usually seems to be about midway between the two extremes. "Theory" properly used, is a goal worth striving for. The man with practical experience but lack of reasoned theory, whether in public or private life, is likely to be narrow-minded. The man with much theory but little practice is likely to be awkward in the application of his ideas. Good statesmanship or good business management comes from a wise balance between the two.

## THE RIDDLE.

The master of the Oregon state grange and the chairman of the national grange executive committee have joined the national master of the grange in strongly endorsing the price subsidy program on the ground that it "directly contributes to inflation by further increasing the purchasing power of the high-income group — a purchasing power which already is in excess of the amount of consumer goods available."

The reason given for the subsidy is to help hold down prices, thereby retarding inflation. But could that not pay any subsidy through taxation when it turns around inflation. The argument for a price subsidy does not ring true.

How can prices be stabilized unless the cost of production is stabilized? That is the riddle that has never yet been answered.

## NECESSITY FOR HIKE IN PRICE CRUDE GROWS

AUSTIN, June 24.—Regulatory authorities in all oil-producing states agree that an immediate

price raise is necessary to provide a continuous adequate supply of oil, says Ernest O. Thompson of the Texas railroad commission.

In a statement prepared for presentation to the house navy affairs sub-committee in Dallas today, Thompson pointed out that representatives from the oil states called for a 35c price raise at their meeting in Washington last April. Prevailing prices established by office of price administration make uneconomic both exploration and equipment for more efficient secondary recovery, the resolution said.

"I have gone into this matter very carefully and consulted members of the twelve states that belong to the Interstate Oil Compact Commission and I have been

in recent association with regulatory authorities of the fourteen oil states," Thompson's statement said. "They are in accord that we must have an immediate increase in the price of crude if we are to offer the proper incentive which has in the past brought new discoveries."

"Crude" demands have just begun. It seems only prudent to prepare for increased demand.

We have drawn down on our stored oil many millions of barrels and our ability to produce from our known wells is gradually decreasing day by day. State after state now cannot make a quota in production."

Stalin's new attitude is the best proof that victory is certain. We couldn't join us all the way, but we showed the power to win.

hostess. Mrs. J. S. Mobley, chairman, presided at the business session. The report of group activities during the year was read and approved. Other business matters were transacted.

Mrs. C. R. West brought a lesson from the book, "The New Testament Church." Prayer by Mrs. Randolph Lee Clark followed.

A social hour was held and refreshments were passed to Mrs. J. S. Mobley, Mrs. C. R. West, Mrs. Randolph Lee Clark, Mrs. J. C. Fletcher, Mrs. A. L. Clark, Misses Jo Gray and Ethel Mae Wilson and the hostess.

EAST CISCO WMU IN MISSION STUDY.

The women's missionary society of East Cisco Baptist church met Monday afternoon at the church for mission study. The meeting opened with singing of the hymn, "Trust, Try and Prove Me," followed with prayer by Mrs. J. D. Hall.

Mrs. V. H. Bosworth, mission study chairman, brought an in-

teresting review of a chapter from "Stewardship Parables of Jesus," using Luke 12: 13-23 as a scripture basis.

Mrs. Willie Thetford, vice president, was in charge of the business period. Names of various committees to serve when the church entertains the annual Cisco Baptist association in July, were read. Mrs. O. M. Lindsay was appointed Baptist community missions chairman. Mrs. J. D. Hall was elected to serve as young people's secretary. The meeting closed with prayer by Mrs. L. E. Shirley.

Those present were Mrs. Willie Thetford, Mrs. V. H. Bosworth, Mrs. O. M. Lindsay, Mrs. Carlton Holder, Mrs. Don Rupe, Mrs. J. D. Hall, Mrs. R. E. McCard, Mrs. L. E. Shirley, Mrs. Sheba Houston and Mrs. C. R. Hightower.

TWO WERE HONORED AT BREAKFAST.

Honoring two young ladies who are serving the government—Miss

Joyce Rainbolt, with the women's army auxiliary corps of Mitchell Field, New York, and Miss Lillian Coldwell, of the women's auxiliary volunteer emergency service, Washington, D. C. — Mrs. Leon McPherson entertained with a lovely breakfast in her home, 1300 L. avenue, Wednesday morning.

The house was gay with decorations of seasonal cut flowers and potted plants and an arrangement of the flowers centered the dining table where guests were seated while partaking of the meal. An hour of pleasant conversation was enjoyed following breakfast.

The guest list included Miss Joyce Rainbolt, Miss Lillian Coldwell, Mrs. G. P. Rainbolt, Miss Lillian Coldwell, Miss Mayne Estes, Mrs. Roy Camfield and the hostess, Mrs. McPherson.

WAYLAND DEATH.

BRECKENRIDGE, June 24 — Mrs. Lamine McDonald, 54, wife of T. G. McDonald of Wayland,

died yesterday at a local hospital following an illness of four weeks. Funeral will be held at Necessity tabernacle this afternoon, with Rev. Cole Jackson of Moran officiating. The husband and a son and daughter are immediate survivors. Deceased was a member of the Church of Christ at Wayland.

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache Many patients require nagging liniments quickly, once they discover that the real cause of their trouble may be found in the kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or easy passage with burning and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

CISCO — ABILENE

"This is my Coal — I'll Dig or I Wont Dig — Just as I like"

The man who acts on the above assumption, has forgotten that his right to do anything—the right to work for himself — the right to liberty of action in any manner — comes from the consent of those governed — a result of cooperation in building a free government that protects its citizens in liberties that are allowed just so long as they do not abridge or deny to others the same privileges they are demanding for themselves.

Strikers who are delaying production on the home front are canceling their rights to the liberties for which millions of soldiers are risking their lives, and leaving their business activities at home, and they are meriting as their just due, the sneer of the masses who call them traitors to their country and to the cause of liberty everywhere.

Men and women of America who are cooperating in deed and in money to the fullest extent, have little patience with those who would block their government's war program in order to win for themselves a few more cents per day added to their salaries.

## SPEZIA, ITALY'S BIG NAVAL BASE, BOMBED

### RAF MADE NERVY DASH FROM BRITAIN TO AFRICA, HITTING ITALY ON WAY HOME

LONDON, June 24.—British four-engined bombers, flying from North African bases on the first shuttle assault of its kind ever undertaken, bombarded Italy's biggest naval base at Spezia last night and flew on another 700 miles to land in England.

The raid, pressed home by the same formation of Lancasters that took off from Britain Sunday night and bombed Freiderichshafen, Germany, on the 1200-mile southeastward flight to North Africa, held an implied threat of a terrific two-way assault from North Africa and Britain against Italy, possibly as a prelude to invasion.

The success of the operation obviously laid open all Italy, as well as Sicily and Sardinia, to raids from bombers based in Britain and lent added significance to a Royal Air Force spokesman's comment yesterday that the Allies would have no scruples about bombing Rome as one of the centers of the Axis war effort.

Not a single plane was lost either in the raid of Spezia, where a large portion of the harbor-bound Italian fleet recently was reported tied up, or that on Freiderichshafen, in southwestern Germany just across Lake Constance from Switzerland.

British based planes, both bombers and fighters, took over the European offensive in daylight this morning. Watchers on the English southeastern coast said that at least one large formation roared across the channel toward Northern France, while fighters crossed and recrossed the coast on sweeps.

Though no figures were available on the number of Lancasters that participated in the two-way raids on Friedrichshafen and Spezia, it has been estimated that approximately 400 tons of bombs were dropped on the German city, site of important radio location equipment works.

Preliminary reports of the raid on Spezia indicated that docks were bombed accurately and oil stores set afire, the Air Ministry said.

It made no mention of the presence of warships in the harbor, though three battleships and a number of smaller warships were docked or anchored there when American Flying Fortresses attacked Spezia June 5 and damaged shipping.

Spezia, Italy's largest naval base, lies on the Ligurian Sea 50 miles down the west coast of Italy from Genoa and has been raided six times by aircraft from North African and British bases.

The Spezia-Friedrichshafen raids constituted the first shuttle operation ever undertaken by the RAF between Britain and North Africa.

On shuttle raids of this type, the bombers face the formidable anti-aircraft defenses of western Germany on only a one-way trip and complete their journey over the weaker Italian defenses. When a round trip must be made over Germany, night fighters and anti-aircraft gun crews are waiting for the bombers on their return journey.

### Federal Court Services Admitting 84 Aliens To Citizenship, Impressive

### SHOCKLEY NEW HEAD ROTARY

DALLAS, June 24.—Eighty-four aliens, many of them in tears but speaking firmly in broken English, swore allegiance to their new country and its government yesterday as they were admitted to citizenship in Federal Judge William H. Atwell's court.

"I trust you may never grow tired of the importance of the Constitution and the Declaration of Independence," Judge Atwell declared. "You need no historical inspiration to place your citizenship in this country."

"It is strong, it is honest. Your flag teaches beauty and the amalgamation of the world's best blood

into one nation. It is now your flag. Maintain it with the best of your ability. Above all, be loyal. May your citizenship be a happy marriage between you and your nation."

Included among those granted citizenship was the first Chinese ever admitted in the Dallas district. He was Pfc. Daniel G. Lee, 21-year-old soldier stationed at Love Field, whose home is in Portland, Ore.

Standing behind Atwell during the three-hour hearing was a representative of the Army, Navy and Marines in Dallas.

Beside the judge on the rostrum were four youths, all from Wichita Falls, who spoke eloquently to the new citizens on the Army, Navy, Marines and American flag.

The total admitted to citizenship yesterday brought the grand total of this year in Dallas to 309.

Nineteen of the petitions were continued.

Two of the petitions were denied without prejudice.

Twenty of the eighty-four admitted were born in Germany, the largest single class.

A 66-year-old Italian woman walked directly up to Atwell's bench, declared her love for her country, but said she could read or write very little English. She answered a few questions about the government, knew the president's name, declared she had three sons in the Army. Her citizenship was granted.

Besides Lee, the Chinese, four other military petitions were granted to natives of Russia, Canada and Mexico. They swore allegiance in a body.

The Rotary program was interesting and varied and was enjoyed by a large number of visitors who also appeared to enjoy the well-served meal.

The closing of the year of the administration of President Hittson, who has given his closing expressions of appreciation for the work of his successors by introducing his successor, Lonnie Shockley, to receive the gavel as the president of the office.

Mr. J. D. Davis, who won the annual medal given by the club to the most outstanding boy of the high school senior class this year, was a guest and expressed his appreciation of the honor, telling how he will treasure the medal for what it signified.

Mr. Marion Reynolds of Anson, who is teaching staff at the Presbyterian encampment, gave piano numbers which were enjoyed.

Mr. Gary Hoffius of Itaska, who is the camp teaching staff, talked to the country of his ancestors, the Netherlands—telling of the customs, their play, their religion, and yet feeling that behind the country was feeling the rule of the German oppressors.

Mr. Hoffius said he was born in a town in a northern state, but that his life had been spent mostly among the Dutch, so that he has the brogue and accent of his ancestors. His talk was very interesting, and he was overwhelmed with questions at the close of the meeting.

In closing of the past year's work of the club, President Hittson said the Cisco club had been in the upper ten column on attendance practically all the year, and that a check-up of attendance showed that 12 out of the 21 members had 100 percent attendance for the year. He said he was grateful for the privilege of being president for a year, which had seemed all too short because it had been so interesting.

When the incoming president, Lonnie Shockley, took over the gavel, he said that while it took the work of the members to make a club, he felt that the zeal of the president had much to do with the club's success this year. He stated that he would name his successors at the next meeting.

Other guests present were Doris Johnson, pianist; Elton Murphy, Abilene; B. B. Hurst and N. C. Hinton, Cisco; T. J. McCarty, Abilene; Dr. J. C. Whittington, Eastland and Rev. Clifford Williams, Sweetwater, director of the Presbyterian encampment at Lake Cisco.

**MRS. D'MARC DEAD.**  
Mr. and Mrs. Charles Roberts received news Tuesday of the death of his sister, Mrs. Belle D'Marc, which occurred at the home of her daughter in Houston, Tuesday morning, after an illness of several months. Funeral and burial rites were held in Houston today. Mrs. D'Marc was well known in Cisco, having visited several times in the Roberts home here and Cisco friends will regret to hear of her death.

### DEATH CLAIMS LLEWELLYN McCREA, AGE 7

Just when anxious parents and friends were being cheered by hopes that little Llewellyn McCREA might not only recover from the accident of a broken arm, but save the arm also, death came suddenly yesterday afternoon at about 6:30 o'clock at Harris Memorial hospital in Fort Worth, where the child had been taken for treatment. Mother and father were with him and the end came suddenly, after he had asked for a drink of water.

A blood transfusion given by the father Tuesday night had seemed to revive the little boy to the extent that physicians were optimistic that the crisis had passed.

An ambulance from the Thomas funeral home brought the body to Cisco this afternoon and arrangements have been made for the funeral to be held tomorrow afternoon at 6:30 at the First Presbyterian church, where he would have completed his third year of perfect Sunday school attendance in September.

The services will be conducted by Dr. Gary L. Smith, pastor of the church, assisted by Rev. Leslie Seymour, pastor of the First Methodist church. Burial will be in Oakwood cemetery.

A fine compliment had been paid this little boy by his teacher, Miss Attie Stevens, who preceded him in death only a few days. Miss Stevens said she had never had a pupil in her school in her life whom she enjoyed teaching like she did little Llewellyn. When he came into the school room he immediately went to his studies and when on the playground he was just as busy at his play. He was loving in disposition, always having a smile for his friends.

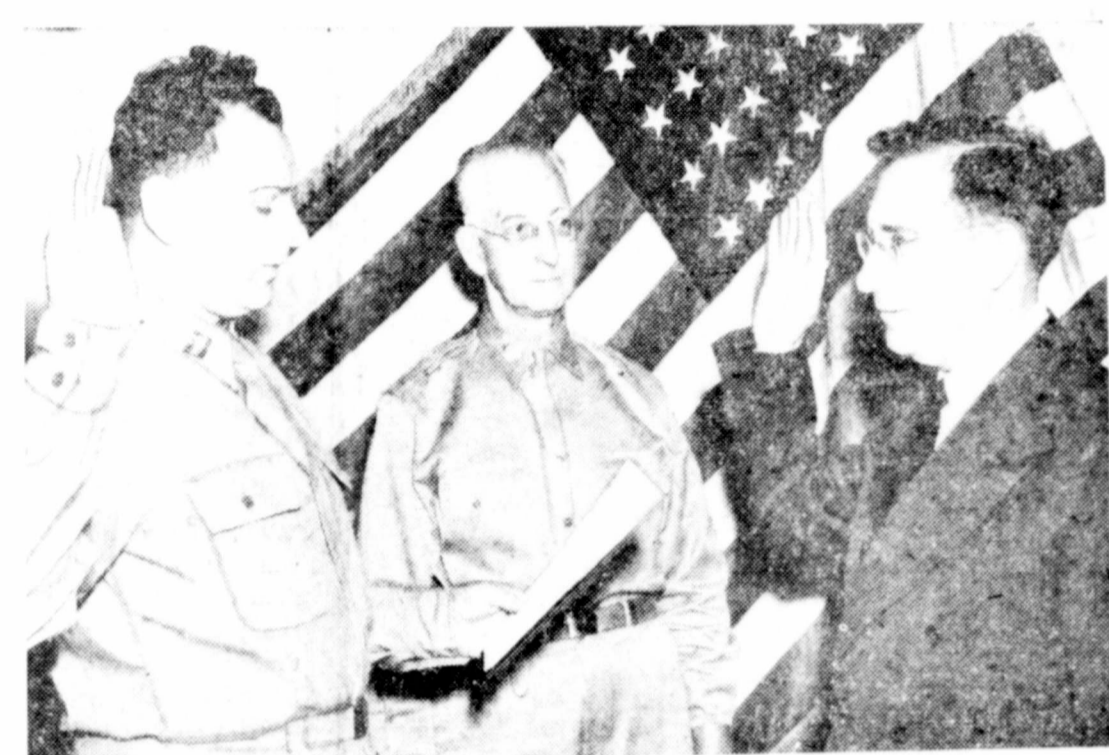

Mr. and Mrs. Yancey McCREA, parents of the little boy, pay tribute to the efforts of the physicians who were in attendance. Dr. F. C. Clayton of Fort Worth, and Dr. E. L. Graham and Dr. D. Ball of Cisco, did all in their power to preserve the life of their little son and they say that they are very grateful.

Deceased is survived by his parents and two grandmothers, Mrs. L. H. McCREA, Sr., Cisco and Nashville, Tenn., and Mrs. J. E. Chesley, Cisco; brother, Yancey, Jr., and sisters, Patsy Lois and Bernice Ann.

Funeral services will be held at the home of Mrs. G. W. Wilcox, Monroe Sweeney, W. H. LaRogue, Dr. D. Ball and Hal Wagoner. Honorary pallbearers will be all his school friends and acquaintances.

### FIGHT LIKELY IF ANTISTRIKE BILL VETOED

WASHINGTON, June 24.—President Roosevelt's proposal to meet any new coal strike with a draft club was viewed in most congressional quarters today as an inadequate substitute for the antistrike bill, which many lawmakers now expect him to veto.

Roosevelt disclosed yesterday that steps already had been taken to set up machinery for inducting all draft-age miners into the armed forces, and he said moreover that he will ask congress to raise from 45 to 65 the maximum age for induction into noncombat military service. This would take in many of the older miners.

Some quarters interpreted this to mean strikers would be put in uniform and under army discipline returned to their coal digging jobs at a private's pay of \$50 a month. Chairman William H. Davis of the war labor board has estimated their present pay scale for a six-day week at \$49.60, or about four times as much as army pay.

Immediate reaction in both house and senate was cool. The Appalachian operators viewed the president's stand favorably but asked, nevertheless, that their mines, operated by the government since May 1, be returned to the owners. They said they had obeyed the government's wishes while John L. Lewis, president of the United Mine Workers, had been defiant in his demands for \$2 a day wage increases.

Lewis instructed the miners to

### DIED IN ALEUTIANS.

Mrs. Homer Doyle and Mrs. Dan McCrary were notified Tuesday of the death of their brother, Cecil Hagar, which occurred in the Aleutian Islands where he was working on a defense job. Details of the death were not given. Besides his wife and a son, who lived in Sweetwater, he is survived by his mother and several brothers and sisters. Deceased was reared in Cisco and was married to Miss Dibbon Choate, who lived with her parents here at the time of their marriage.

No woman is ever too old or ugly to arouse the suspicion of a jealous wife.

### RANGER BOY KILLED.

SHERMAN, June 24.—Lt. Cliff G. Zwick, 21, and Pvt. Archie H. Hazard, 22, were killed in the crash of their Perrin Field plane near Fort Smith, Ark., while on a training flight Wednesday. Zwick is the son of Mr. and Mrs. B. H. Zwick of Concord, Cal. Hazard's parents are Mr. and Mrs. C. P. Hazard of Ranger.

### SHELTON HERE 60 YEARS AGO

W. P. Shelton of St. Louis and Elmo White of Stephenville, county clerk of Erath county, are guests of Mr. Shelton's brother, J. E. Shelton, 1102 E. Sixth street, and visited the Cisco Daily Press this morning, recalling memories of Cisco dating back to the early eighties—60 years ago—when W. P. Shelton started a newspaper called the Cisco Press in 1883, and the establishment of the first bank in Cisco by J. R. Flemaing & Co., also in 1883. Shelton sold the paper to a man named Schaefer, who is said to have changed the paper's name to Cisco Telegram.

Mr. Shelton, who is still very alert and appears many years younger than he evidently is, recalls Charles H. Fee as a prosperous hardware merchant. Mr. Shelton said he had a very pleasant visit with Mr. Fee this week.

When Mr. Shelton first visited the T. & P. railroad had already been built and he thinks the Texas Central was possibly being built through at that time or had just been completed through Cisco.

This is the first time Mr. Shelton has visited Cisco since those days and of course he finds it hard now to get his bearings. Many of the older establishments have long since changed and new ones have come.

J. E. Shelton is the uncle of Mr. White's wife, and so Mr. White is visiting about with the Sheltons, seeing the town and meeting many friendly people, he said.

When You Buy Real Estate . . .

. . . you not only buy the land and all that's attached to it above and below, but some kind of a title, good or bad. The abstract is a written history of the title and is the evidence of your security or insecurity. Since security is the basis and measure of all values the abstract becomes the most important factor in every real estate transaction. Always demand an abstract!

**MAN MUST WORK**

John Smith is said to have made the rule at Jamestown that he who would not work should not eat. A good rule might now be to take those who do not want to work into the army. At any rate their minds would be taken off of a raise in salary every little while. They might become more patriotic after a short while in Uncle Sam's army.

Let's all do our bit. Buy war stamps and bonds and do the jobs that come to hand. Harvest fields need hands, and so do the ordinary channels of business. What can you do?
