COAL INDUSTRY IS IN A DEPLORABLE MESS

11 BLAST FURNACES SHUT DOWN IN PENNSYLVANIA FOR LACK FUEL; OUTLOOK BAD

The revolt of coal miners against their union's back to work order and President Roosevelt's "work or fight" proposal spread today, cutting deeper into the steel production vital to the war effort, as plans were mapped at Washington for continued government operation of the mines.

Reports from the coal fields indicated that less than half the nation's 530,000 bituminous and anthracite miners were in the pits as operators met with Secretary of Interior Harold L. Ickes, government custodian of the mines, to draft future plans.

Both the revolt and curtailed steel production centered in Pennsylvania. Eleven blast furnaces in the state already were shutdown and further closings were anticipated unless dwindling coal stockpiles were replenished immediately.

Many of those still out of the mines were expected to report today or later this week, but others, who previously had complied with the order of their policy committee, voted at meetings last night to go back on strike.

Locals at two mines of the Republic Steel Co. employing 1020 men and workers at a Weirton Coal Co. mine employing 1800 men—all in Greene county, Pennsylvania—voted last night not to return to work.

It doesn't pay to expose an evil before the people see it. They resent your criticism, then when they see the truth, they forget that you saw it first.

Withholding Tax Goes Into Effect on July First; More Balm Than Bite

Francis Scofield, Collector of Internal Revenue First Texas District and War Bond Administrator in Cisco, gives the following statement relative to the withholding tax:

When the next tax which goes into effect July 1 is rather painful, it is brought into proper perspective when it is seen that it has more balm than bite. For instance, our examination of the withholding brackets shows that a man with a wife and two children who earns \$40 a week is asked for only 80 cents a week. This is 50 cents per week less than he is now paying out of his pocket for the 5 per cent Victory tax, and his entire federal income tax is all paid up.

500 SOLDIERS WANT ROOMS NIGHT JULY 3

A 50-piece band from Camp Bowie is to play at Lake Cisco Saturday night and Sunday, July 2 and 3, and authorities from the city have made inquiry as to possible facilities for 500 soldiers for the night of July 3, according to Maurice Sweeney, manager of Lake Cisco Amusement company.

NEW TEST FOR OIL NEARING CADDO LIME

W. F. Brown and associates, drilling a new oil test on the old Hilburn place northwest of Rising Star, had reached a depth of better than 1,800 feet Tuesday. Drillers hope to reach the Caddo lime this week.

MAT REEVES DEAD.

Relatives here were advised today of the death of Mat Reeves, who lived in Cisco previous to his removal to Roscoe. He died Thursday and will be buried in the Roscoe cemetery at 4 o'clock this afternoon.

US. BOMBERS WRECK AXIS BASE, GREECE

NORTH AFRICA, June 25.—Three hundred American bombers and fighters from the Northwest Africa Command pounded Sicily yesterday while more than 50 Ninth U. S. Air Force Liberators wrecked an Axis airbase near Salonika, Greece, in one of their longest flights of the war.

The sudden intensification of the aerial offensive against the Italian outposts of Sardinia stirred up heavy fighter opposition, but 20 enemy planes, 19 of them German Messerschmitt 109s, were shot down.

MRS. LUCE ATTACKS FD FOREIGN POLICY

WASHINGTON, June 25.—In one of the most spirited exchanges of the seventy-eighth congress, Representative Luther Johnson of Corsicana, Texas, fiercely attacked Roosevelt's foreign policy against a bitter attack by Clare Boothe Luce, blind Republican congresswoman from Connecticut.

WORTH 55 CENTS.

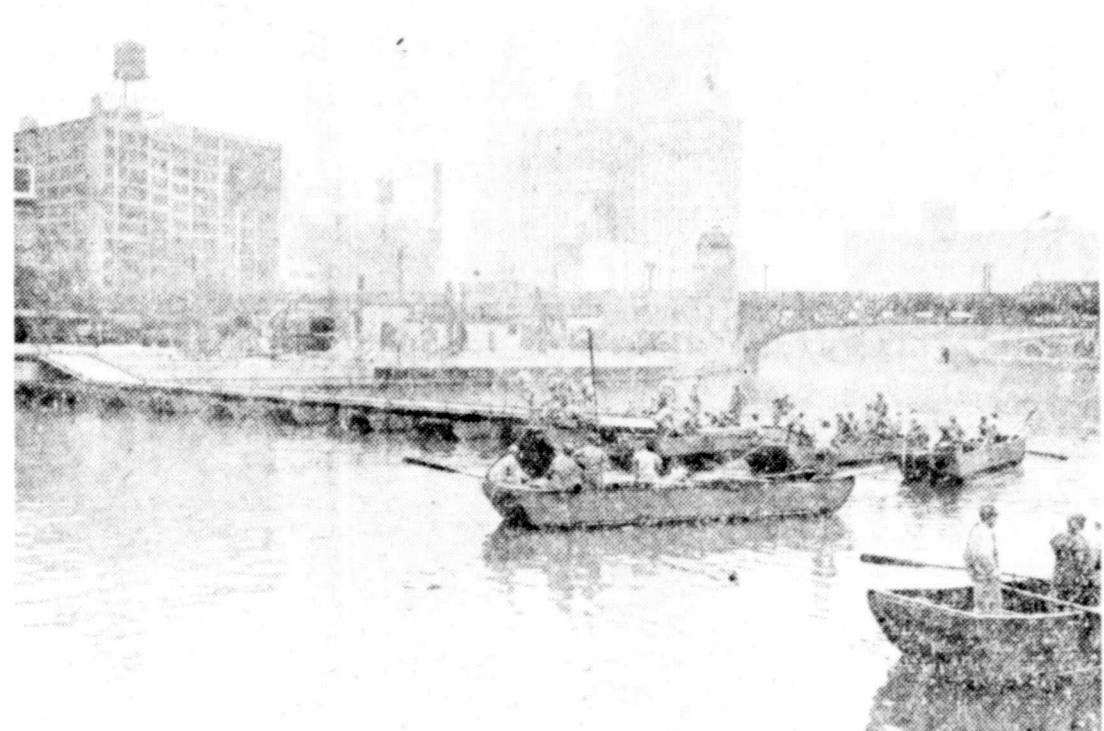

AUSTIN, June 25.—The wage earner's dollar today is worth only 55 cents, compared with what it was worth in 1940, says Joe T. Steadham, chairman of the joint railway legislative board of Texas.

HE'S PROBABLY RIGHT.

NEW YORK, June 25.—Sufficient beef for 200,000,000 persons for an entire year would be available if half the "excess cattle" in the nation were slaughtered, contends Joe G. Montague of Fort Worth, counsel for the Texas and Southwestern Cattle Raisers Association.

FIRST TEXAS OATS.

FT. WORTH, June 25.—First carload of Texas oats of the 1943 crop reached Fort Worth Friday morning, about 30 days later than usual. The Texas crop generally is very short.

BRIDGE IN 55 MINUTES—In less than an hour U. S. Army Engineers from Camp McCoy Wis., built a bridge across the Chicago River capable of carrying a 10-ton load.

NO MORE WATER—There's no more water to be had in this Jap vehicular tank, shot full of holes somewhere in South Pacific. Yank fighter has a look-see at interior and says it wouldn't hold a hatful, after Yank shell fire.

FRENCH LEADERS — General Henri Giraud, left, General Charles de Gaulle, center, and M. Robert, right, president of Algerian Assembly, at final session of General Assembly in Algiers.

THREE EXECUTED.

BOSTON, June 25.—Three convicted murderers were executed in the electric chair at Charlestown State Prison early today. Robert Gray, Negro, died for the murder of Mrs. Zelma Karcher, young Roxbury, Mass., housewife, and Donald Millard and Joseph E. Sheppard were executed for the slaying of three guards in a jail break at Bridgewater State Farm.

DISEASES INCREASE.

AUSTIN, June 25.—Continued high incidence of dysentery, influenza, malaria, meningitis, pneumonia and poliomyelitis was reported today by the state department of health.

MRS. WILLS IS DEAD; WAS 75 YEARS OF AGE

Mrs. H. J. Wills of 403 E. Eighth street, Cisco, died early this morning in the county hospital at Ranger. She had been ill about six weeks. Deceased was 75 years of age and came here from Levelland about five years ago. She was a member of the First Baptist church.

BARBECUE JULY 10.

The Eastland County Sheep and Goat Raisers association will hold their annual barbecue and field day at Ranger Country club on July 10. Dr. I. B. Boughton of the Sonora experiment station will be on the program.

RECORD OPERATION.

NEW YORK, June 25.—In what doctors said was the first such operation on record, a Brooklyn physician fished out a metal lock from the stomach of a 5-year-old boy by means of a magnet. The patient, Donald Brown, of Brooklyn, swallowed the inch-long lock 13 days ago.

FT. WORTH MARKET.

Limited supplies of cattle and calves that reached Fort Worth for today's trade found a generally steady market. Butcher hogs were steady to 10c higher at an extreme top of \$14.10 while packers paid up to \$14. All classes of sheep and lambs were about steady.

SCHOOL GRANT.

BROWNWOOD, June 25.—Grant of \$19,788 has been approved for the Brownwood city schools by the Federal Works Agency in Washington to help pay for maintenance and operation in the 1942-43 term.

THE WAACS.

The WAACS have proved their usefulness. They are better fitted in many cases for the jobs they are doing than the men they replaced. Capt. Charles H. Frizell, Jr., of Philadelphia, who has been working in the psychological examination of WAAC recruits, says this and adds:

"They seem to have just the right combination of patience and accuracy to make good communications specialists for one thing. Also the right mental and manual co-ordination for good motor vehicle drivers, and the right mechanical and other technical skills. The great majority had ideal qualities for office jobs, either administrative or clerical."

It is not true, said Capt. Frizell, that women are emotionally untrained for war. They are constantly meeting emergencies in home life to which they rise and meet the crises very well. Capt. Frizell was a veteran of the first World War, called back for duty at this time. He has had plenty of opportunity for judging both men and women. He is enthusiastic over the part women are playing.

Above all he emphasizes the great need of more WAACS. The army needs thousands of all sorts of specialists and technicians — parachute riggers, signifiers, proof readers, weather observers, radio operators, cryptanalysts, topographers, cartographers, photographers.

The Navy needs WAVES and SPARS. The Marines need women, too. Both army and navy need nurses by the thousands. There can hardly be too many enlistments. There is even talk of drafting women if enough do not volunteer. It's great work for the young women.

OPEN FORUM

Captain Eastland.

L. H. Friesleben, Eastland county's representative in the Texas legislature, writing from his home in Ranger, tells us that the recent legislative session was an interesting one. William Mosby Eastland, his namesake cousin, was named to the position of Eastland County's representative to the 48th legislative session. This is the first time this has been done since the 12th day session was authorized.

I greatly appreciate the honor of being your representative from the 10th district. I thoroughly enjoyed every minute of the session. I never missed a day, but except on the few occasions when business matters necessitated my absence. The day's creation with the passing of time. During the last two months of the session, we worked on a budget of nearly \$100,000,000. This amount requires a great deal of time as did the session of the House. Most work is done in the afternoon in the committee, following which I was a member of 12 highways and roads, 10 charter, 10 rail, gas and mining, 10 public works, 14 education, 10 judiciary and other state laws and 16 pensioners.

Fewer bills than usual were introduced in this legislature. Those that I considered good always received my support. I likewise opposed all bills that I considered bad. Am glad to report that I helped to defeat a number of bills and proposals which I considered inimical to the best interest of our state. I trust that I have rendered a worthwhile service as your representative. I at all times voted my convictions, and fought for the people as a whole.

"The people of Eastland county should be very proud of its name. It was named in honor of Capt. William Mosby Eastland, a San Jacinto veteran and a member of the ill-fated Mier Expedition. Born at Woodford, Woodford county, Ky., March 21, 1806, he

ALSO SERVES—Five Sullivan brothers lost their lives aboard ship in Southern Pacific, but that doesn't deter their sister, Genevieve, 26, from enlisting in WAVES. Waterloo, Ia., miss goes to Naval Training School, New York.

May we all cherish the memory of this unselfish and brave Texan. By so doing we will be better citizens.

MAN MUST WORK

John Smith is said to have made the rule at Jamestown that he who would not work should not eat. A good rule might now be to take those who do not want to work into the army. At any rate their minds would be taken off of a raise in salary every little while. They might become more patriotic after a short while in Uncle Sam's army.

WHAT HAPPENED TO FLETCHER'S CASTORIA

AFTER SEVEN WEEKS

of intensive work, laboratory researchers have discovered the reason why certain batches of Fletcher's Castoria caused nausea.

Methods of preventing a recurrence of the trouble are now known and manufacture is being resumed.

No Fletcher's Castoria has been made during this seven-week period, and at its beginning the makers issued a nationwide warning to consumers and retailers not to use or sell the product and to return all stocks for destruction.

The U. S. Food and Drug Administration has been kept informed of all these developments.

Q. What caused the trouble?

A. The sugar content of Fletcher's Castoria was reduced to conserve sugar under wartime conditions. A year ago, Castoria was made with this reduced sugar content and was up to standard in every respect. This year, in March, we again started production with reduced sugar.

However, at that time a chemical change—harmless in itself—occurred in the characteristics of the water used in making Castoria. But this change, in combination with the reduced sugar, increased the degree and rate of normal fermentation. The more rapid fermentation retarded normal re-oxidation during the ageing process, resulting in a product which caused nausea.

Q. Why didn't normal tests show that something was wrong?

A. The changes which occurred were so elusive that they could not be detected by the regular testing procedures — procedures which had kept Castoria a respected product for more than seventy-five years. In fact, even after the nauseating effect was discovered in actual use, it took weeks of laboratory research to identify the factors that were causing the trouble.

Q. Is Fletcher's Castoria now on sale?

A. No. Manufacture has been resumed, but because of the time required for manufacture and distribution it may be about two months before Castoria will again be on sale at your retailer's. When it is, you will be notified in your local newspaper.

Q. Will the package be the same?

A. No. The Fletcher's Castoria now being made will bear a distinctive green band. This green band is for your protection in case any old Castoria has not been returned.

Q. What are the makers doing to prevent a recurrence of the trouble?

A. Now that the cause is known, procedures have been put in effect which will assure normal re-oxidation of the product. Additional safeguards have been set up. New laboratory controls have been installed. New biological and chemical tests will be applied to every batch of Fletcher's Castoria. Each bottle will be stamped with a plainly visible control number, in verification of these tests.

COAL INDUSTRY IS IN A DEPLORABLE MESS

11 BLAST FURNACES SHUT DOWN IN PENNSYLVANIA FOR LACK FUEL; OUTLOOK BAD

The revolt of coal miners against their union's back to work order and President Roosevelt's "work or fight" proposal spread today, cutting deeper into the steel production vital to the war effort, as plans were mapped at Washington for continued government operation of the mines.

Reports from the coal fields indicated that less than half the nation's 530,000 bituminous and anthracite miners were in the pits as operators met with Secretary of Interior Harold L. Ickes, government custodian of the mines, to draft future plans. Ickes believes the government will be forced to retain control of the mines "for a considerable time."

In the back to the mines order which John L. Lewis, president of the United Mine Workers Union, and his policy committee issued Tuesday night, it was stipulated that the miners would continue work until Oct. 31 only if the government remained in control of the mines.

As the miners' resentment against the President's proposal increased, members of the House Military Affairs Committee predicted Mr. Roosevelt's suggestion to make all strikers up to the age of 65 subject to Selective Service would be pigeonholed.

Both the revolt and curtailed steel production centered in Pennsylvania. Eleven blast furnaces in the state already were shutdown and further closings were anticipated unless dwindling coal stockpiles were replenished immediately. In Alabama, the Republic Steel Co., said it would have to bank two of its blast furnaces today.

Many of those still out of the mines were expected to report today or later this week, but others, who previously had complied with the order of their policy committee, voted at meetings last night to go back on strike.

In the rich soft coal fields of Fayette county, Pennsylvania, state police and deputy sheriffs were called early today to break up roving bands of pickets who sought to pull miners from their jobs at Wynn coke ovens of the H. C. Frick Coke Co. At Duncan, stripping plant pickets warned drivers of trucks en route to the oven to stop work.

Sheriff Charles P. Frock, of Fayette county, seeking to prevent a recurrence of yesterday's violence when a mine maintenance worker was beaten by pickets, swore in stripping plant employees as deputies. Frock ordered liquor establishments in the vicinity of the picketing activities closed.

Locals at two mines of the Republic Steel Co. employing 1020 men and workers at a Werten Coal Co. mine employing 1800 men—all in Greene county, Pennsylvania—voted last night not to return to work.

Similar action was taken by miners of the Crucible Steel Co. and workers in the Bridgeport and Phillips mines of the Frick Co. The action of the locals came after members of the UMW board in District 4, comprising Fayette, Greene and Westmoreland counties, voted to capitulate to their policy committee order.

"We have been sold out, but coal is vital so I guess we'd better go back to work," District President Steven Ezar said. Earlier, 3700 men in the Penn-

sylvanian bituminous fields joined in the strike as a survey showed that 45,000 miners in District Two would be idle today—closing down the central Pennsylvania region almost 100 per cent.

FT. WORTH MARKET.

Limited supplies of cattle and calves that reached Fort Worth for today's trade found a generally steady market. Butcher hogs were steady to 10c higher at an extreme top of \$14.10 while packers paid up to \$14. All classes of sheep and lambs were about steady.

SCHOOL GRANT.

BROWNWOOD, June 25.—Grant of \$19,788 has been approved for the Brownwood city schools by the Federal Works Agency in Washington to help pay for maintenance and operation in the 1942-43 term.

Withholding Tax Goes Into Effect on July First; More Balm Than Bite

Frank Scofield, Collector of Internal Revenue First Texas District and War Bond Administrator for Texas, gives the following statement relative to the withholding tax:

We have just put Uncle Sam's new withholding tax under the microscope and find that it isn't as frightening as we first thought.

In fact, the next tax which goes into effect July 1 is rather painless when it is brought into proper perspective. It has more balm than bite.

For instance, our examination of the withholding brackets shows that a man with a wife and two children, who earns \$40 a week, will be asked for only 80 cents a week. This is 50 cents per week less than he is now paying out of his pocket for the 5 per cent Victory tax—and his entire federal income tax is all paid up.

If the same family earns \$50 a week, the withholding tax will be \$2.00 a week. There is no mathematical nightmare about this.

When Mr. Taxpayer realizes that the withholding tax includes the Victory tax he is now paying, he should breathe with considerable relief. In many cases, the new income tax deduction from his pay will be less than it is now.

Let's examine the status of a married man with two children now earning \$25 a week. He will pay 40 cents a week as compared with 70 cents now going to Victory tax.

If the same worker makes \$30 a week, his new deduction will be 50 cents against 90 cents now coming out of his pay.

If he earns \$35 weekly, he will pay 70 cents where he is now paying out \$1.10.

Of course, when the man of the

500 SOLDIERS WANT ROOMS NIGHT JULY 3

A Dispersal band from Camp Bowie is to play at Lake Cisco Saturday night and Sunday, July 3 and 4, and authorities from the camp have made inquiry as to housing facilities for 500 soldiers for the night of July 3, according to Monroe Sweeney, manager of Lake Cisco Amusement company. All Ciscoans who will furnish rooms for one or more soldiers are requested to telephone the number of commerce (395) and make known the number they can offer for that night.

Mr. Sweeney is expecting two big days at the lake, July 4 and 5. A number of business concerns have signified that they expect to close their stores on Monday, so their employees may have the extra holiday to spend at the lake, swimming, fishing, boating or picnicking in some manner.

MAT REEVES DEAD.

Relatives here were advised today of the death of Mat Reeves, who lived in Cisco previous to the removal to Roscoe. He died Thursday and will be buried in the Roscoe cemetery at 4 o'clock this afternoon. He was a nephew of James Reeves and a cousin of Dick Reeves, Cisco.

House with two children reaches \$45 a week it starts to become a different story. His tax will be increased 20 cents a week—from \$1.60 to \$1.80.

The increases come rather rapidly from there on.

The same wage-earner earning \$60 a week will see his tax jump from \$2.10 to \$4.30 a week.

And so it goes on up to a \$100-a-week salary where the Victory tax is now \$4.10 per week but the new withholding tax will be \$12.80 a week out of the pay envelope.

When Mr. Taxpayer gets into the so-called upper wage brackets, the withholding tax does not cover the total tax. Taxes begin to accumulate against him for the annual settlement.

But from an analysis of the setup it looks as if all wage-earners pay less to the extent of the difference between a 3 per cent and a 5 per cent Victory tax.

And the harassed taxpayer should not forget the 75 per cent skip-a-year forgiveness on either his 1942 or 1943 income tax.

The accompanying withholding tax table shows the comparative Victory Tax in the last column.

We do not expect any falling off in either over-the-counter sales or in plants where payroll deductions for war bonds are in operation.

The new tax is not a flat 20 per cent tax, but 20 per cent on that portion of income in excess of allowable exemptions. The 20 per cent includes 17 per cent for income taxes and 3 per cent for Victory taxes.

Withholding Deductions.

In this table rates may be a little more than those of the revenue office tables where the rates run on averages between brackets.

NEW TEST FOR OIL NEARING CADDO LINE

W. F. Brown and associates, drilling a new oil test on the old Hilburn place northwest of Rising Star, had reached a depth of better than 1,600 feet Tuesday. Drillers hope to reach the Caddo line this week.

A large rotary rig is being kept in operation night and day and pay is expected in what is known as the Hilburn level—about 3,100 feet.

At one time the Hilburn field boasted the biggest play of any oil pool in this area and Mr. Brown is convinced there is still good pay to be found there.

FEWER VIOLATIONS.

NEW YORK, June 25.—Draft law violations so far during the war, says E. E. Conroy, chief of the New York FBI office, show a 62 per cent drop as compared with World War I figures.

US. BOMBERS WRECK AXIS BASE, GREECE

NORTH AFRICA, June 25.—Three hundred American bombers and fighters from the Northwest Africa Command pounded Sardinia yesterday while more than 50 Ninth U. S. Air Force Liberators wrecked an Axis airfield near Salonika, Greece, in one of their longest flights of the war.

The sudden intensification of the aerial offensive against the Italian outposts of Sardinia stirred up heavy fighter opposition, but 20 enemy planes, 19 of them German Messerschmitt 109s, were shot down.

The Sardinia raiders concentrated on railroad targets, factories, airfields and shipping.

Striking from Middle-Eastern bases, two waves of four-engined Liberator bombers dropped considerably more than 250,000 pounds of explosives on the Sedes airfield at Salonika, setting fires to three hangars, and oil dumps, destroying at least three parked planes and scoring hits on administration buildings.

No fighter opposition was encountered, although the bombers flew a round trip of at least 1,100 miles across the Mediterranean and Aegean seas, the latter packed with Axis island bases.

MRS. LUCE ATTACKS FD FOREIGN POLICY

WASHINGTON, June 25.—In one of the most spirited exchanges of the seventy-eighth congress, Representative Luther Johnson of Corsicana, Texas, defended President Roosevelt's foreign policy against a bitter attack by Clare Boothe Luce, blind Republican congresswoman from Connecticut.

Mrs. Luce called Roosevelt not better than a renegade interventionist and the Texan retorted that she was an illogical and unqualified critic.

Johnson, veteran member of the house foreign affairs committee, said Mrs. Luce was unfair in her criticism and declared she never would have made her charges had she been a member of the house during the critical years before the war.

Mrs. Luce declared that the administration's foreign policy had first been isolation, and latterly merely adoption, in default of a foreign policy of its own, of the war policies undertaken by England.

WORTH 55 CENTS.

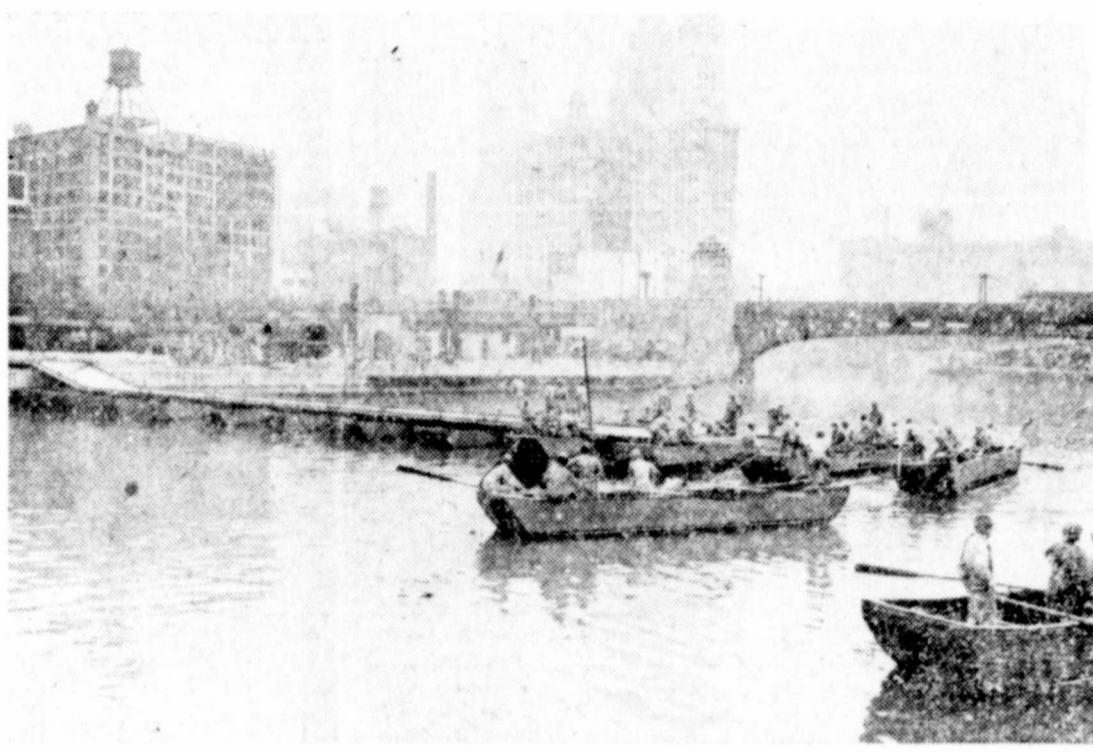

AUSTIN, June 25.—The wage earner's dollar today is worth only 55 cents, compared with what it was worth in 1940, says Joe T. Steadham, chairman of the joint railway legislative board of Texas.

HE'S PROBABLY RIGHT.

NEW YORK, June 25.—Sufficient beef for 200,000,000 persons for an entire year would be available if half the "excess cattle" in the nation were slaughtered, contends Joe G. Montague of Fort Worth, counsel for the Texas and Southwestern Cattle Raisers Association.

FIRST TEXAS OATS.

BRIDGE IN 55 MINUTES—In less than an hour U. S. Army Engineers from Camp McCoy Wis., built a bridge across the Chicago River capable of carrying a 10-ton load. In another hour they had dismantled it, all on Engineer's 168th anniversary.

NO MORE WATER—There's no more water to be had in this Jap vehicular tank, shot full of holes somewhere in South Pacific. Yank fighter has a look-see at interior and says it wouldn't hold a hatful, after Yank shell fire.

FRENCH LEADERS — General Henri Giraud, left, General Charles de Gaulle, center, and M. Robert, right, president of Algerian Assembly, at final session of General Assembly in Algiers. Later the full French Committee for Liberation of France was convened for show-down between generals.

THREE EXECUTED.

BOSTON, June 25.—Three convicted murderers were executed in the electric chair at Charles-town State Prison early today.

Robert J. Gray, Negro, died for the murder of Mrs. Zeina Karcher, young Roxbury, Mass., housewife; and Donald Millard and Joseph E. Sheppard were executed for the slaying of three guards in a jail break at Bridgewater State Farm.

DISEASES INCREASE.

AUSTIN, June 25.—Continued high incidence of dysentery, influenza, malaria, meningitis, pneumonia and poliomyelitis was reported today by the state department of health.

MRS. WILLS IS DEAD; WAS 75 YEARS OF AGE

Mrs. M. J. Wills of 403 E. Eighth street, Cisco, died early this morning in the county hospital at Ranger. She had been ill about six weeks. Deceased was 75 years of age and came here from Levelland about five years ago. She was a member of the First Baptist church.

The Thomas funeral home has the body, but no funeral arrangements had been made at noon today.

Survivors include the husband, H. J. Wills; C. N. Wills, a son, Stockton, Cal.; five sisters and ten grandchildren. The sisters are Mrs. H. W. Ham, Mrs. William Oldham and Mrs. Richard Vanderford, Cisco; Mrs. Ida Pruitt, Waco; Mrs. Roxie Campbell, Dallas.

BARBECUE JULY 10.

The Eastland County Sheep and Goat Raisers association will hold their annual barbecue and field day at Ranger Country club on July 10. Dr. I. B. Boughton of the Sonora experiment station will be on the program.

RECORD OPERATION.

NEW YORK, June 25.—In what doctors said was the first such operation on record, a Brooklyn physician fished out a metal lock from the stomach of a 5-year-old boy by means of a magnet. The patient, Donald Brown, of Brooklyn, swallowed the inch-long lock 13 days ago.

BRIEFLY TOLD

Kenneth Huffman, son of Mr. and Mrs. H. T. TEXAS BREEDER BUYS TOP PRICE PUREBRED BULL

WICHITA FALLS, TEXAS—Dr. Charles R. Hartsook, shown at the left in the above photo, purchased the top bull, Prince Peter, shown below, for \$5,000 at the recent dispersal sale of the purebred Short-horn herd of the late George B. Longan, Kansas City publisher, at Merryvale farm at Grandview, Mo. With Dr. Hartsook is Russell Kece, of Grandview, who acquired and dispersed the Longan herd. The sale, at which 70 Short-horns brought an average price of \$1,044, set a new high average in recent history of the breed. One of the features of the sale, which attracted buyers from 22 states and Canada, was the disposition of 20 sons and daughters of the imported bull, Calrossie Prince Peter, 1940 Perth, Scotland, champion. MAN MUST WORK

John Smith is said to have made the rule at James-town that he who would not work should not eat. A good rule might now be to take those who do not want to work into the army. At any rate their minds would be taken off of a raise in salary every little while. They might become more patriotic after a short while in Uncle Sam's army.

Let's all do our bit. Buy war stamps and bonds and do the jobs that come to hand. Harvest fields need hands, and so do the ordinary channels of business. What can you do?

WHAT HAPPENED TO FLETCHER'S CASTORIA

AFTER SEVEN WEEKS

of intensive work, laboratory researchers have discovered the reason why certain batches of Fletcher's Castoria caused nausea.

Methods of preventing a recurrence of the trouble are now known and manufacture is being resumed.

No Fletcher's Castoria has been made during this seven-week period, and at its beginning the makers issued a nationwide warning to consumers and retailers not to use or sell the product and to return all stocks for destruction.

The U. S. Food and Drug Administration has been kept informed of all these developments.

Q. Why didn't normal tests show that something was wrong?

A. The change in the product was so slight that it would not be detected by the regular testing procedures. Procedures which had kept Fletcher's Castoria in production for more than seventy years. In fact, even after the non-curing effect was discovered in actual use, it took weeks of laboratory research to identify the factors that were causing the trouble.

Q. Is Fletcher's Castoria now on sale?

A. No. Manufacture has been resumed, but because of the time required for manufacture and distribution it may be about two months before Castoria will again be on sale at your retailer's. When it is, you will be notified in your local newspaper.

Q. Will the package be the same?

A. No. The Fletcher's Castoria now being made will bear a distinctive green band. This green band is for your protection in case any old Castoria has not been returned.

Q. What caused the trouble?

A. The sugar content of Fletcher's Castoria was reduced to conserve sugar under wartime conditions. A year ago, Castoria was made with this reduced sugar content and was up to standard in every respect. This year, in March, we again started production with reduced sugar.

Q. What are the makers doing to prevent a recurrence of the trouble?

A. Now that the cause is known, procedures have been put in effect which will assure normal re-oxidation of the product. Additional safeguards have been set up. New laboratory controls have been installed. New biological and chemical tests will be applied to every batch of Fletcher's Castoria. Each bottle will be stamped with a plainly visible control number, in verification of these tests.

However, at that time a chemical change—harmless in itself—occurred in the characteristics of the water used in making Castoria. But this change, in combination with the reduced sugar, increased the degree and rate of normal fermentation. The more rapid fermentation retarded normal re-oxidation during the ageing process, resulting in a product which caused nausea.
