### McCAULEY IS NEW HEAD OF CISCO LIONS

The Cisco Lions club was honored today by the presence of Governor-elect Joe Childers of Abilene, who installed new officers for the year which begins July 1. Accompanying Mr. Childers was Morgan Jones, Jr., who is an active member of the Abilene Lions club.

Before the installation service, the governor-elect presented perfect attendance Lion pins to eight Lions. They were N. C. Huston, E. W. McCauley, C. M. Nevill, James S. Sandler, Harry Schmitt, O. L. Stamey, W. H. Rague and Geo. W. Downie.

The distinguished visitor was accompanied by President N. C. Huston in a short talk that outlined the activities of Mr. Childers, who is a lawyer in Abilene and a very active Lion for many years past. Childers was a deputy state governor of this district last year and was elected to that position at the Wichita Falls convention in May.

The governor-elect lined up the officers and outlined the duties of each in a clear and concise manner. Presenting R. W. McCauley as the new president he explained the importance of the position and the duties of the club for the year. The speaker then turned the program over to President Huston who presented a short talk of review of the activities of the club for the past year by handing the keys to the new president whom he congratulated as being the best of members for the honor.

James Knox, a guest of W. E. Jones, Dean, was also a visitor to the club.

McCaughey then spoke of his appreciation of the honor conferred and expressed his intention of rendering the best service of which he is capable.

James Knox, a guest of W. E. Jones, Dean, was also a visitor to the club.

### TEX. PIGS MAY TOTAL 4,116,000

AUSTIN, June 30.—The largest spring pig crop in Texas is being fattened in Texas today, the department of agriculture announced today.

Farmers report 2,348,000 head, 33 per cent more than in 1942 and nearly twice as many as the 1932-41 average.

It was estimated that 1,000,000 more were fattened in Texas farms, which is about 10 per cent more than in 1942 and 35 per cent more than the 1930-41 average.

It is estimated that 1,000,000 more were fattened in Texas farms, which is about 10 per cent more than in 1942 and 35 per cent more than the 1930-41 average.

MESS KIT FOR KING—Britain's King George eats an informal lunch from a Yank mess kit, in woods during his tour of North African Allied posts. With him are Lieut. Generals Mark W. Clark, left, and George S. Patton, right, and Sir James Grigg.

### PRESIDENT GREATLY DISTURBED

WASHINGTON, June 30.—Disputes within the administration on important policy questions seemed today to damage both the war effort and the prospect of election of a Democratic president next year.

It was reported at noon today that both Vice President Wallace and Secretary of Commerce Jones had been summoned to the office of War Mobilizer James F. Byrnes, to whom Wallace had submitted his charges against Jones, apparently without the knowledge of President Roosevelt.

Regardless of the merits of the controversy, it is apparent that the chief executive is greatly disturbed over the spectacle of Wallace and Jones contributing to "confusion" in war time by using the press and radio as a forum to air their personal differences.

### CHURCHILL ANNOUNCES GREAT ALLIED VICTORY OVER ENEMY U-BOATS DURING MAY, JUNE

WASHINGTON, June 30.—Combined U. S. forces, striking the first blow in a new American offensive in the Pacific, have landed on Rendova Island in the Central Solomons, only five miles from the Japanese base of Munda.

LONDON, June 30.—Prime Minister Winston Churchill said in a speech at Guild Hall today that the Allies had achieved a "total defeat" of the German U-boat attack in May and June—sinking more than 30 in May alone—and that Great Britain would fight on until Japan submits or "bites the dust."

Allied ship construction in June has been between seven and 10 times as great as losses, Churchill said.

The Allied air attack in May and June he described as the heaviest on record. In the first six months of 1943 the Royal Air Force dropped 35 times more bombs on Germany than the German air force dropped on the British Isles in the same period.

Churchill revealed that the Germans dropped 1500 tons of bombs on Britain in the last six months, during which the RAF loosed more than 50,000 tons on Germany—bombardment at the rate of more than 100,000 tons of explosives per year.

The great Allied victory in the battle of the Atlantic was turned into a "massacre of U-boats" during the last two months while Allied shipping was almost unmoled, Churchill said in a stirring speech that covered a wide range of war subjects.

- The Prime Minister said that:
1. The Allies will accept no compromise for ending the war which must be waged on the basis of unconditional Axis surrender.
  2. There will "probably be heavy fighting in the Mediterranean and elsewhere before the leaves of autumn fall."
  3. As the nights lengthen and the United States air force is strengthened "there is no industry or military target in Germany that will not receive as we deem necessary the utmost application of exterminating force."
  4. Great Britain will fight Japan "through the flaming years," sending all air, land and sea forces that can be used to the Far East in order to inflict total defeat on the Japanese. The prime minister's iteration of this pledge was couched in the most forceful language he has used in that connection.
  5. There must be strong British and American collaboration in the post war era to avert future world troubles, but Churchill's faith remains strong in the future of the British Empire and of the British commonwealth of nations.
  6. Allied ship construction in June was between seven and 10 times as great as ship losses.
  7. The RAF dumped 50,000 tons of bombs on Germany in the last six months—a rate of 100,000 tons a year—while the Nazis dropped only 1500 tons on Britain in the six-month period. This was a ratio of 35 tons of bombs on Germany for every ton dropped on Britain. The Allied air attack in May and June was the heaviest on record.

Churchill's speech was in connection with his visit to Guild Hall—crumpled by Nazi bombs in the heart of the City of London—to receive the freedom of the city.

He drove in an open horsedrawn carriage through the ancient bomb-pocked streets while great crowds, warned of his coming by loud speakers, cheered madly from the curb.

"We seek no profit," he said. "We want no territory or aggrandisement. We expect no reward and will accept no compromise."

"We the United Nations demand from the Nazi, Fascist and Japanese tyrants their unconditional surrender. By that we mean their will power to resist must be completely broken and they must yield themselves absolutely to our justice and mercy."

Churchill's report on the successful war against the U-boats was given additional significance in view of the persistent Axis radio reports of impending Allied invasion of Europe, which would depend largely on successful sea transportation.

"Since mid-May scarcely a single merchant ship has been sunk in the North Atlantic," Churchill said.

He declared that the Allies had achieved a "massacre of U-boats" and that the Allied ship loss record for June was the best for a single month in the 46 months since the outbreak of the war.

### THREE CISCO CHURCHES IN UNION SERVICE

Representatives from the Presbyterian, Methodist and Baptist churches in Cisco met at the town hall Sunday afternoon to discuss the Union Service for the summer.

The meeting was held at 8:30 on the steps of the Methodist church building. The speakers were: Rev. J. B. Lamm, pastor of the Presbyterian church; Rev. J. B. Lamm, pastor of the Methodist church; and Rev. J. B. Lamm, pastor of the Baptist church.

LONG-EARED PASSENGERS—Those big Douglas transport planes seem to carry about everything these days. Here are mules, bound for fighting front, loaded into plane at Allied base in New Guinea. Long-eared passengers are air-minded too.

### STUDY THAT RATION BOOK, GOOD FOLKS

Housewives are using up their last red meat stamps J. K. L. M. and N today in Cisco. Grocery stores but little heavy buying was reported. The five stamps expire at midnight. Stamps P, which became valid Sunday midnight, will continue to be good through July.

Red stamp Q will become good at midnight Sunday for the purchase of meats and fats.

Coffee stamp 24 in War Ration Book 1, which has been good through June for the purchase of one pound of coffee, also expires at midnight. Stamp 21 becomes good tomorrow and will be valid through July 21.

New blue ration stamps N, P and Q become valid tomorrow for the purchase of processed foods and will remain good through August 7. Blue stamps K, L and M will expire July 7.

### WPA TURNED BACK 130 MILLION AND QUIT

WASHINGTON, June 30.—The WPA turned back \$130,000,000 to the treasury today and went out of existence.

Only a small "liquidation staff" of the depression-born relief agency remained at the end, getting records and accounts into shape for a final report on its operations.

The records will show, officials said, that WPA spent some \$10,500,000,000 and employed 8,500,000 persons from its inception in 1935.

The turnover to the treasury, they said, was \$105,000,000 in unexpended funds and \$25,000,000 in supplies and materials.

UP TO VINSON.

WASHINGTON, June 30.—Representatives of the 21-states oil regulatory authorities have carried their request for an increase in the price of crude oil to War Stabilization Director Vinson, final price arbiter. A minimum of 35 cents a barrel was asked for.

### BANNER BUYS COYLE PLANT, SIXTH AND E

Work has already started in the People's Ice company equipment which, with the building at the corner of Sixth and E avenue, was sold by G. H. Coyle of Dallas to O. D. Dillinger, owner of the Banner Creamery. Consideration was not given.

Ben Anderson, local manager of Banner Creamery, said the plant would begin manufacturing ice as soon as it could be put in operation. The office would be moved from the Eighth-street location, Mr. Anderson thought, and all business transactions made through the People's Ice company building, with the former plant closed. However, these plans might change as far as closing the Eighth street location, Anderson said.

Workers are busy today at the newly acquired plant unloading material for repairs which may be necessary to put the plant in proper condition. This work will require several days, Anderson said.

### STROTHER GOT WINGS

Arthur D. Strother, whose home address is route one, Moran, is a second lieutenant in the Army branch of Uncle Sam's service. Strother received his wings at Ellington Field, Houston, Saturday and has already been transferred to another and advanced air unit. A late photo of Lieut. Strother has been placed in the Daily Press picture gallery.

### CARBON BOY PRISONER

Pvt. George W. Greenwood, son of Thomas Jefferson Greenwood of Carson, was listed by the war department Monday as one of the 20 held prisoner by Japan.

### ASHENHUST OF STAMFORD TO LOCATE HERE

A. F. Ashenhust, district gauger for the Humble Pipe Line company at Stamford, has been transferred to Cisco on account of his health and will be connected with the general offices here after July 15. Mr. Ashenhust has been with the company at Stamford for thirteen years.

The family consists of Mr. and Mrs. Ashenhust and the latter's parents, Mr. and Mrs. P. M. Buckner.

### BILL TO OUT-LAW SUBSIDY STARTS ANEW

WASHINGTON, June 30.—Legislation to outlaw the administration's subsidy-rollback program started through congress anew today in the form of a re-conditioned version of senate and house bills prohibiting government expenditures to keep retail food prices down.

Regarded as almost certain to set off another subsidy wrangle, the hybrid bill went to the house on the heels of a war labor board (WLB) warning that its stabilization program "calls for a prompt carrying forward of the announced policies of the administration affecting the cost of food."

HER FLAG—Mrs. Yoshiye Abe, American woman of Japanese extraction, formerly of Fresno, Cal., helps make American flag, in Denver factory, she hopes will be carried by Yank troops into Tokio.

### 5 REFINERIES ENJOY YEAR'S BEST BUSINESS

GLADEWATER, June 30.—Five refineries in the East Texas oil field enjoyed the best business of the year in May, reports to the Texas railroad commission revealed.

Peaks for 1943 were registered for production, sales and refining. Most favorable factors were a further recovery in the gasoline market which now has regained most of the ground lost because of rationing and another upswing for the sixth consecutive month in deliveries of fuel oil.

### TIME IS IT

WASHINGTON, June 30.—This is the last day men over 38 in the army in this country can apply for release to take jobs in agriculture and essential industry.

## UNREAL.

The Coast Guard has taken over the Biltmore hotel at Palm Beach, Fla., for its new school for SPARS. Guests who used to pay \$15 a day would hardly know the place. Its smart shop arcade now houses offices of personnel records, pay, supply, commissary and laundry. The Spanish chapel is used for religious services and other large meetings. The dining room is a recreation hall. Bedrooms contain several bunks each. But the SPARS, as soon as they get over their first date, enjoy the fine details of the buildings, hand-made grilles, colorful tiles, thick carpets. And most of all, they enjoy the bright blue sea.

They are there by hundreds, being outfitted with uniforms and taught principles of military courtesy and other things. The girls are delighted with the new life and the experience and opportunity for service that it offers. More SPARS are needed to release men for active Coast Guard duty. Girls are wanted who know about banking, buying and selling, typing, storekeepers to handle money and supplies, cooks and bakers. The latter study nutrition and meal planning besides doing actual work in mess halls. SPARS who have been through this training will be well fitted to run their own homes. Drivers can be used, dental and laboratory technicians, switchboard operators, draftsmen, practical nurses, court stenographers. Even musicians. They say there's a place for any intelligent, unencumbered young woman who wants to serve her country in an active way.

## BILLIONS.

The largest supply bill in history is the present War Department appropriation bill, amounting to 71 billion dollars. When Jefferson was president, he was able to govern the entire country for three million dollars a year. This was before the Louisiana Purchase, and was true only while the United States was merely a small belt along the Atlantic.

The difference in scale makes it a fair question whether it is worth while in an emergency to ask, "What would the authors of the Constitution have done?" So many are the differences between those days and these that the present generation has to make its own decisions about details without much reference to the past. When it comes to principles of human freedom, the ideas of the Founding Fathers deserve to be considered. In matters of finance they could not even have imagined our problems.

## COMPENSATION.

"Our age is not an age of small men and trifling events," truly says Rev. John MacKinnon, a Richmond, Va., clergyman. "It will bulk largely in the history of the future, for important changes are being made. It is hard to conceive when such titanic mistakes have been made, such awful crimes have been committed, such gigantic villains have towered above mankind. But history has thus far revealed a law of compensation. When evil is immense, so is good which rises to challenge it. This age has produced an army of monstrous men. It will not pass without some great ones."

## RIGHTO.

The old issue of States' Rights has bobbed up again, in a notable conference at Columbus, O., of two thirds of the state governors. There were some unusually able men there, and they did some unusual things. Of these the most impressive was the resolu-

tion declaring against further federal intrusion upon the privileges of the separate states. "It is the considered judgment of the conference," they said, "that no further concessions or encroachments of states' rights should be agreed to except such as may clearly be necessary to achieve victory. All rights of states heretofore relinquished to assist the war effort should be promptly reclaimed after the war. This statement is clearly in line with the freedom and democracy that Americans cherish."

## OTHER EDITORS

**Clean 'Em Out.**  
Dallas News. A brief story in The News told of the wrecking of a carnival at Hall and Central Sunday by a group of Negro rowdies who call themselves the Purple V Gang. This brings to most Dallas citizens the first intimation that such an organization exists. It should exist no longer than the police forces may require to identify and apprehend leaders and members of the gang. All gangs, white or otherwise, should be put out of business in Dallas. The gang spirit prompts destruction, as in the carnival incident, and leads inevitably to violence and conflict. Dallas wants none of that. The Detroit planes that shocked the nation and caused heavy loss of life might be resented in other cities if the gang spirit is not suppressed in its infancy. The post-suit war in Los Angeles has been magnified into an international incident which further magnified, might other parts of the gang that have been sown by our good-neighber policy.

Gangs bearing unique names and prescribing intriguing costumes seem to appeal to lawless adolescents in the larger cities. This isn't just a wartime development, although the trend has been more marked in these last two years of stress. Vigilance and strong measures can halt the trend in Dallas. They should be exercised and applied.

## DOBBIN'S DOWNFALL.

(Dallas News, July 1, 1893.)  
Fort Worth — J. S. Prince rode twenty miles on a bicycle against Lacey English, who rode the horses alternating each mile. Prince won by nearly two laps, one third of a mile, in one hour and eight minutes.

Rev. Seba Kirkpatrick from Cisco preached at Romney Sunday afternoon. He plans to begin a revival there next Sunday night.

Miss Elizabeth McCracken and her mother were guests in the home of Mr. and Mrs. G. W. Shove Sunday evening.

Mrs. J. D. Clark, 74 and mother of Eastland county treasurer, Mrs. Ruth Branton, passed away at her home about two o'clock Saturday after a long siege of illness. The funeral rites were conducted at the Baptist church there at 3 o'clock Sunday afternoon by the pastor, Rev. H. J. Starnes, after which a long procession of relatives and friends followed the body to Long Branch where it was placed beside others who had preceded her in death. Native of North Carolina, more than half of Mrs. Clark's life had been spent in Texas. She was converted early in life and had spent many years in Christian service. Two of her fourteen children had passed on. Besides the bereaved husband she leaves six daughters, six sons, 26 grand children and 11 great-grandchildren. She also had two brothers, Sam Culp of Cooper, Texas, and Walter Culp of Wellington. Her youngest son, Wayne, in North Africa and Josh

in Oregon were not present for the burial. Other sons are Elmer of Rising Star; Mid of Claude; H. D. and G. J. of St. Elmo, Ill. Beside Mrs. Branton of Eastland other daughters are: Mrs. T. A. Montgomery, Rising Star; Mrs. J. C. Sherrill, Longview; Mrs. Leona Porterfield, O'Donnell; Mrs. J. C. Ives, Athens, and Mrs. G. Sullivan, Electra. Hammer funeral director had charge of the burial, with pallbearers, John Hart, Dick Brown, Claude Hammett, Homer Smith, Ed Alton, Clyde Karkalis and Hood King.

## CORINTH

It's the system of free enterprise. It's simple—but it works.

It works so well that America's big peacetime industries became great war machines overnight.

It works so well that America's electric companies, under business management, were able to supply war plants with far more electric power than any nation has ever known before in addition to normal peacetime needs.

They're doing the job without rationing—and without increased cost to you!

It works so well that we're winning the war in spite of socialistic bureaucracies. But to hasten the day of victory, the bureaucrats must concentrate on the war and desist from their plans to permanently change our system of government by which America stands to lose its freedom at home.

But a lot of West Texas boys are doing it with deadly efficiency. (Ask Adolf, Benito or Tojo.) And they don't learn their jobs just by reading a book. It takes intensive training and practical experience to produce the bomber teams who risk their lives together.

The electric business is like that. You can't make kilowatt-hours with theories. You've got to learn how—the hard way.

### McCAULEY IS NEW HEAD OF CISCO LIONS

The Cisco Lions club was honored today by the presence of Governor-elect Joe Childers of Abilene, who installed new officers for the year beginning July 1. Accompanying Mr. Childers was Morgan Childers, who is an active member of the Abilene Lions club. Before the installation service, Governor-elect presented personal attention Lion pins to eight of them. They were N. C. Huston, W. McCauley, C. M. Nevill, Harry S. Sandier, Harry Sandier, O. L. Stamey, W. H. Abilene and Geo. W. Downie. The distinguished visitor was escorted by President N. C. Huston in a short talk that outlined the activities of Mr. Childers, who is a lawyer in Abilene and a very active Lion for many years past. Childers was a deputy district governor of this district last year and was elected district governor at the Wichita Falls convention in May. The governor-elect lined up the officers and outlined the duties of each in a clear and concise manner. Representing R. W. McCauley as the new president he emphasized the importance of the club as a director of the activities of the city for the year. The speaker then turned the program over to President Huston who closed his short talk of reviewing the activities of the club for the past year by handing the pin to the new president whom he congratulated as being the best of members for the honor. In response for McCauley the new hearty cooperation members will give him during his term of office. Then McCauley spoke of his appreciation of the honor conferred and expressed his intention of rendering the best service of which he is capable. Audrey Knox, a guest of W. E. Stacy Dean, was also a visitor of the day.

### TEX. PIGS MAY TOTAL 4,116,000

AUSTIN, June 30.—The largest spring pig crop in Texas is being fattened on Texas farms, the department of agriculture announced today. Farmers raised 2,145,000 head, 33 per cent more than in 1942 and nearly twice as many as the 1932-41 average. It was estimated that 300,000 sows were bred on Texas farms, which was 20 per cent above intentions for 1943 and 35 per cent above the 27,000 sows fattened in 1942. An average of 10 piglets per litter were raised, compared with 8.6 piglets per litter and 3.7 piglets per litter in 1942. If fall intentions are followed, 328,000 sows will be bred on Texas farms during the fall season (June 1-1943). This will be an increase of 22 per cent over last year's fattening of 260,000 sows and 69 per cent above the 10-year average of 174,000 fall sows. If the fall crop materializes as now indicated with an average of 6.0 pigs per litter, 4,116,000 pigs will be raised during 1943. This will be nearly twice the 2,121,000 head average during the period 1932-1941 and 24 per cent above last year's record number.

### THREE CISCO CHURCHES IN UNION SERVICE

Representatives from the Presbyterian, the Christian and First Methodist churches met Sunday afternoon to perfect plans for the Union Sunday evening services for the summer. The meetings will be held at 8:30 on the lawn of the Methodist church during July and August. The planning committee voted to extend an invitation to all other churches of the city to join in the cooperative summer program. If their congregational schedule would permit it. The following officers and committees were chosen: President, J. G. Rupe; secretary-treasurer, Sam King; committee on arrangements, F. D. Pierce, J. E. Proctor, Guy Ward, C. R. West; music committee, S. E. Hillson, Miss Ella Andres, Mrs. Troy Powell; Mrs. P. R. Warwick, committee on ushers, Kent Ward, H. C. Henderson, J. D. Landerdale; Lottie Shockley, Dr. C. E. Paul, Bill Childers.

### 5 REFINERIES ENJOY YEAR'S BEST BUSINESS

GLADEWATER, June 30.—Five refineries in the East Texas oil field enjoyed the best business of the year in May, reports to the Texas railroad commission revealed. Peaks for 1943 were registered by production, sales and runs to stills. Most favorable factors were a further recovery in the gasoline market which now has sustained most of the ground lost because of rationing, and another upswing for the sixth consecutive month, in deliveries of fuel oil.

WASHINGTON, June 30.—This is the last day men over 38 in the army in this country can apply for release to take jobs in agriculture and essential industry.

MESS KIT FOR KING—Britain's King George eats an informal lunch from a Yank mess kit, in woods during his tour of North African Allied posts. With him are Lieut. Generals Mark W. Clark, left, and George S. Patton, right, and Sir James Grigg.

LONG-EARED PASSENGERS—Those big Douglas transport planes seem to carry about everything these days. Here are mules, bound for fighting front, loaded into plane at Allied base in New Guinea. Long-eared passengers are air-minded too.

### ASHENHUST OF STAMFORD TO LOCATE HERE

A. F. Ashenhust, district gauger for the Humble Pipe Line company at Stamford, has been transferred to Cisco on account of his health and will be connected with the general offices here after July 15. Mr. Ashenhust has been with the company at Stamford for thirteen years. The family consists of Mr. and Mrs. Ashenhust and the latter's parents, Mr. and Mrs. P. M. Buckner.

### BILL TO OUTLAW SUBSIDY STARTS A NEW

WASHINGTON, June 30.—Legislation to outlaw the administration's subsidy-rollback program started through congress anew today in the form of a re-conditioned version of senate and house bills prohibiting government expenditures to keep retail food prices down. Resolved as almost certain to set off another subsidy wrangle, the hybrid bill went to the house on the heels of a war labor board (WLB) warning that its stabilization program "calls for a prompt carrying forward of the announced policies of the administration affecting the cost of food."

HER FLAG—Mrs. Yoshiye Abe, American woman of Japanese extraction, formerly of Fresno, Cal., helps make American flag, in Denver factory, she hopes will be carried by Yank troops into Tokio.

### PRESIDENT GREATLY DISTURBED

WASHINGTON, June 30.—Disputes within the administration on important policy questions seemed today to damage both the war effort and the prospect of election of a Democratic president next year. It was reported at noon today that both Vice President Wallace and Secretary of Commerce Jones had been summoned to the office of War Mobilizer James F. Byrnes, to whom Wallace had submitted his charges against Jones, apparently without the knowledge of President Roosevelt. Regardless of the merits of the controversy, it is apparent that the chief executive is greatly disturbed over the spectacle of Wallace and Jones contributing to "contusion" in war time by using the press and radio as a forum to air their personal differences.

### STUDY THAT RATION BOOK, GOOD FOLKS

Housewives are using up their last red meat stamps J. K. L. M. and N today in Cisco grocery stores but little heavy buying was reported. The five stamps expire at midnight. Stamps P, which became valid Sunday midnight, will continue to be good through July. Red stamp Q will become good at midnight Sunday for the purchase of meats and fats. Coffee stamp 24 in War Ration Book I, which has been good through June for the purchase of one pound of coffee, also expires at midnight. Stamp 21 becomes good tomorrow and will be valid through July 21. New blue ration stamps N, P and Q become valid tomorrow for the purchase of processed foods and will remain good through August 7. Blue stamps K, L and M will expire July 7.

### WPA TURNED BACK 130 MILLION AND QUIT

WASHINGTON, June 30.—The WPA turned back \$130,000,000 to the treasury today and went out of existence. Only a small "liquidation staff" of the depression-born relief agency remained at the end, getting records and accounts into shape for a final report on its operations. The records will show, officials said, that WPA spent some \$10,500,000,000 and employed 8,500,000 persons from its inception in 1935. The turnover to the treasury, they said, was \$105,000,000 in unexpended funds and \$25,000,000 in supplies and materials.

UP TO VINSON. WASHINGTON, June 30.—Representatives of the 21-states oil regulatory authorities have carried their request for an increase in the price of crude oil to War Stabilization Director Vinson, final price arbiter. A minimum of 35 cents a barrel was asked for.

### CHURCHILL ANNOUNCES GREAT ALLIED VICTORY OVER ENEMY U-BOATS DURING MAY, JUNE

WASHINGTON, June 30.—Combined U. S. forces, striking the first blow in a new American offensive in the Pacific, have landed on Rendova Island in the Central Solomons, only five miles from the Japanese base of Munda.

LONDON, June 30.—Prime Minister Winston Churchill said in a speech at Guild Hall today that the Allies had achieved a "total defeat" of the German U-boat attack in May and June—sinking more than 30 in May alone—and that Great Britain would fight on until Japan submits or "bites the dust."

Allied ship construction in June has been between seven and 10 times as great as losses, Churchill said. The Allied air attack in May and June he described as the heaviest on record. In the first six months of 1943 the Royal Air Force dropped 35 times more bombs on Germany than the German air force dropped on the British Isles in the same period.

Churchill revealed that the Germans dropped 1500 tons of bombs on Britain in the last six months, during which the RAF loosed more than 50,000 tons on Germany—bombardment at the rate of more than 100,000 tons of explosives per year.

The great Allied victory in the battle of the Atlantic was turned into a "massacre of U-boats" during the last two months while Allied shipping was almost unmoled, Churchill said in a stirring speech that covered a wide range of war subjects.

- The Prime Minister said that:
1. The Allies will accept no compromise for ending the war which must be waged on the basis of unconditional Axis surrender.
  2. There will "probably be heavy fighting in the Mediterranean and elsewhere before the leaves of autumn fall."
  3. As the nights lengthen and the United States air force is strengthened "there is no industry or military target in Germany that will not receive as we deem necessary the utmost application of exterminating force."
  4. Great Britain will fight Japan "through the flaming years," sending all air, land and sea forces that can be used to the Far East in order to inflict total defeat on the Japanese. "The prime minister's iteration of this pledge was couched in the most forceful language he has used in that connection."
  5. There must be strong British and American collaboration in the post war era to avert future world troubles, but Churchill's faith remains strong in the future of the British Empire and of the British commonwealth of nations.
  6. Allied ship construction in June was between seven and 10 times as great as ship losses.
  7. The RAF dumped 50,000 tons of bombs on Germany in the last six months—a rate of 100,000 tons a year—while the Nazis dropped only 1500 tons on Britain in the six-months period. This was a ratio of 35 tons of bombs on Germany for every ton dropped on Britain. The Allied air attack in May and June was the heaviest on record.

Churchill's speech was in connection with his visit to Guild Hall—crumbled by Nazi bombs in the heart of the City of London—to receive the freedom of the city. He drove in an open horsedrawn carriage through the ancient bomb-pocked streets while great crowds, warned of his coming by loud speakers, cheered madly from the curb. "We seek no profit," he said. "We want no territory or aggrandisement. We expect no reward and will accept no compromise."

"We the United Nations demand from the Nazi, Fascist and Japanese tyrants their unconditional surrender. By that we mean their will power to resist must be completely broken and they must yield themselves absolutely to our justice and mercy."

Churchill's report on the successful war against the U-boats was given additional significance in view of the persistent Axis radio reports of impending Allied invasion of Europe, which would depend largely on successful sea transportation.

"Since mid-May scarcely a single merchant ship has been sunk in the North Atlantic," Churchill said. He declared that the Allies had achieved a "massacre of U-boats" and that the Allied ship loss record for June was the best for a single month in the 46 months since the outbreak of the war.

### BANNER BUYS COYLE PLANT, SIXTH AND E

Work has already started in installing the People's Ice company equipment which, with the building at the corner of Sixth and E avenue, was sold by G. H. Coyle of Dallas to O. D. Dillingham, owner of the Banner Creamery. Consideration was not given.

Ben Anderson, local manager of Banner Creamery, said the work would begin manufacturing as soon as it could be put in motion. The office would be moved from the Eighth-street location, Mr. Anderson thought, if all business transactions made with the former place cleared up. However, these plans might change as far as closing the Eighth street location, Anderson said.

### STROTHER GOT WINGS

Arthur D. Strother, whose home address is route one, Moran, is a second lieutenant in the Army. Strother received his wings at Ellington Field, Houston, Saturday and has already been transferred to another and more advanced air unit. A late photo of the Daily Press picture.

CARBON BOY PRISONER. Pvt. George W. Greenwood, son of Thomas Jefferson Greenwood of Carbon, was listed by the war department Monday as one of the prisoners held prisoner by Japan.

### When You Buy Real Estate . . .

... you not only buy the land and all that's attached to it above and below, but some kind of a title, good or bad. The abstract is a written history of the title and is the evidence of your security or insecurity. Since security is the basis and measure of all values the abstract becomes the most important factor in every real estate transaction. Always demand an abstract!
