

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool.

CISCO—1,614 ft. above sea; immense lake—three miles long, 87 ft. deep at Williamson hollow concrete dam; fish hatchery; 127 blocks paving; A-1 high school; Junior college; natural gas; electric and ice plants; War Industries Training School for Women.

VOLUME XXIII.

CISCO, TEXAS, FRIDAY, JULY 2, 1943.

NUMBER 214

MILITARY BAND, BOAT EXCURSIONS, SWIMMING

THESE, ALONG WITH FISHING, DANCING, GOLF AND BARBECUED MEATS, ARE SOME OF THE JULY 4-5 LAKE CISCO ATTRACTIONS

Saturday night, Sunday and Monday will be times of much fun and recreation at Lake Cisco, with all the events that will crowd the hours of Independence Week.

Military band music, plenty of soldiers to add the man-touch to the event and hundreds of men and their families taking their lunches to eat in the cool shades or cooking them in the barbecue pits, using the free water, lights and tables that are placed conveniently for such parties.

The orchestra from Camp Bowie will make music, while a dance at the pavilion begins Saturday night, to be resumed Sunday afternoon.

A water carnival during the morning of the Fourth, with an 'old fiddlers' contest as a special event for Monday, when many citizens of Cisco and adjacent communities will come for their outing and picnic.

Boat excursions will be available from the docks at Lake Cisco, where persons or parties may take rides along Lake Cisco's long shore line, where much beautiful scenery rolls past as the trip progresses.

Of course, golfing and fishing will come in for their share of the diversion to make this a real holiday, where one may forget for a while the problems of business and home, as well as the greater problems in foreign lands.

Manager Monroe Sweeney says the giant swimming pool was drained and the concrete bottom swept last night through courtesy of the Cisco fire department, and that one can enjoy a swim in water as pure as that which we drink.

CAMPING GROUNDS POPULAR

The Presbyterian church encampment at Lake Cisco has ended for the summer, about 50 seniors being present for last week, with Rev. Frank Crown of Rule and Rev. Thomas Currie of Fort Worth as directors and assistant, Dr. Gary L. Smith was business manager of the two programs just ended.

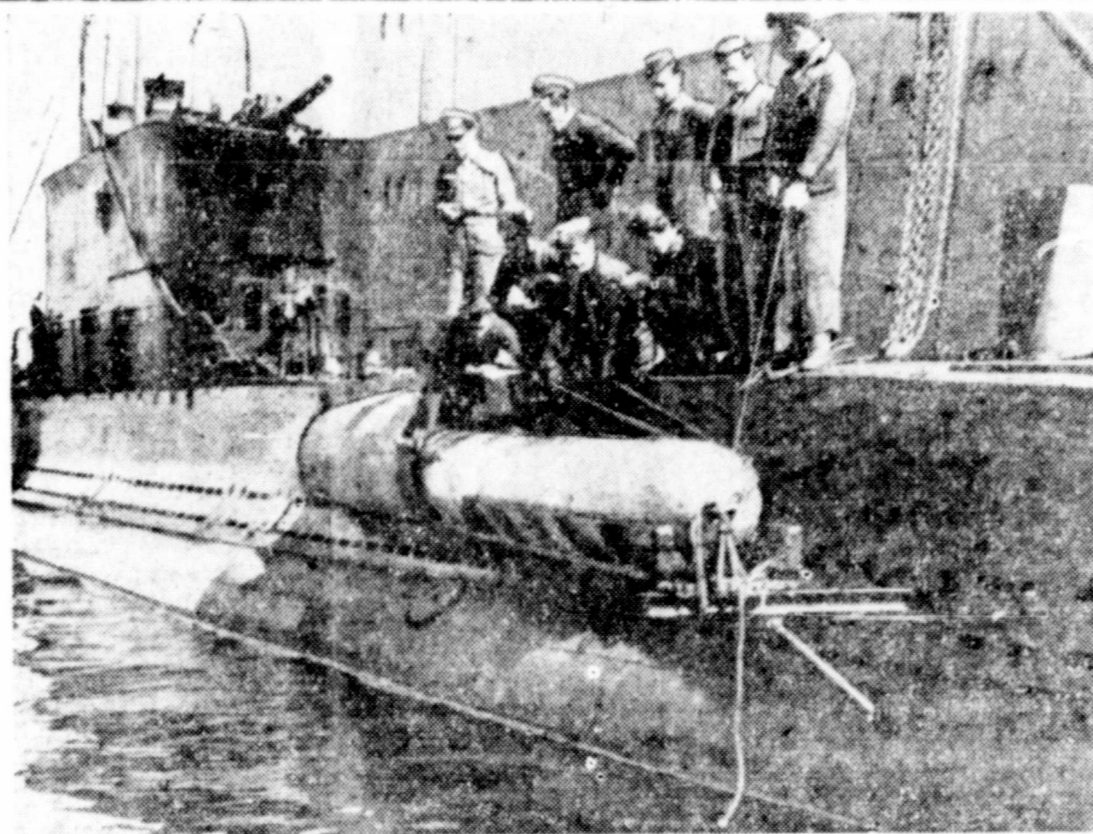

On July 19 the Nazarene church organization for the Abilene district, which extends from Amarillo to Denton and from Wichita Falls to Brownwood, will begin its encampment here for young people, 200 of whom will come from such distance that arrangements for their entertainment will be necessary, and about 100 local young people.

John L. Knight of Mineral Wells, district superintendent, will be in charge of the encampment. Hadley A. Hall of Amarillo will be in charge of the young people's program and Rev. R. T. Williams, pastor at Sulphur Springs, will be in charge of the music.

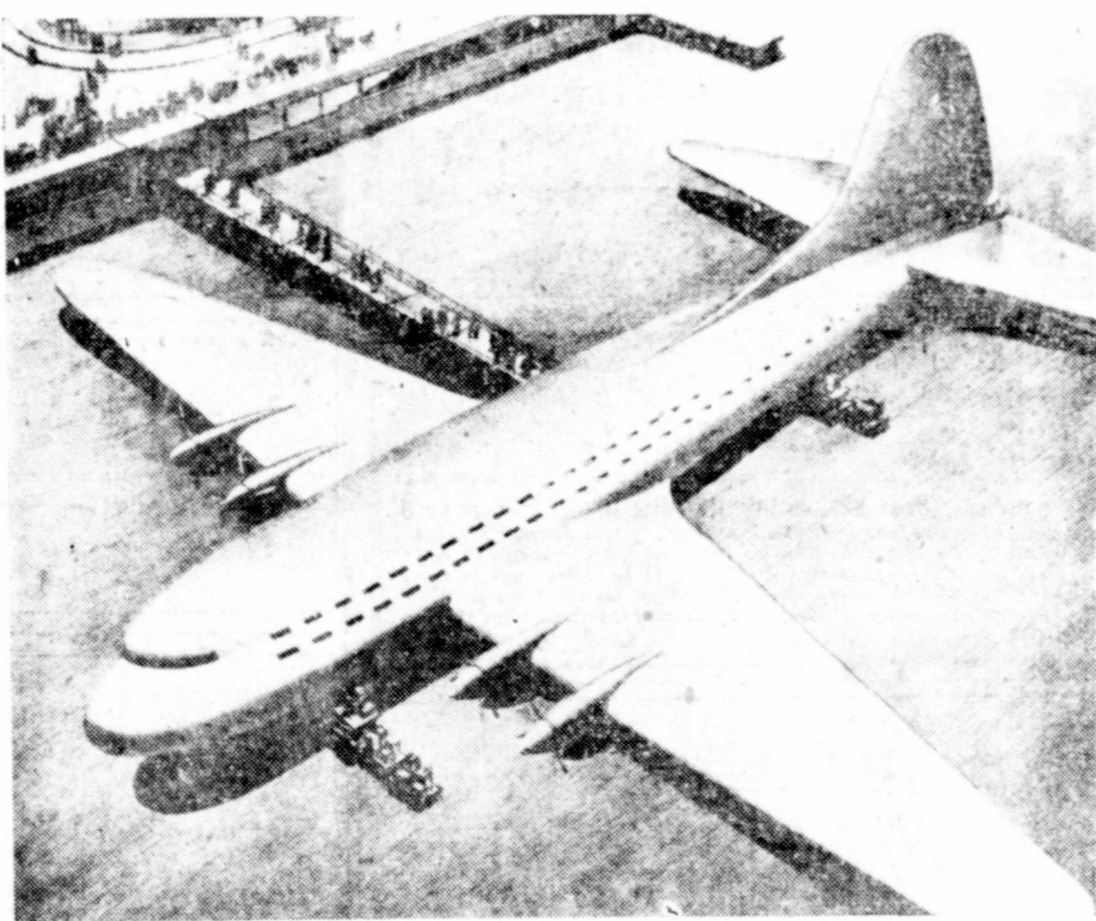

Dr. R. T. Williams of Kansas City, Mo., general superintendent of the Nazarene movement in America, will be the speaker each day of the encampment, which continues one week.

Beginning August 10 and continuing through August 13, the Methodist Women's Society of Christian Service will convene at Lake Cisco under the direction of Mrs. W. H. Cole of Cisco. This gathering will represent the women of the Methodist Central Texas conference, representing ten districts, who belong to the Methodist conference of Spiritual Life Retreat organization.

Late in August the football team from Roscoe will make training headquarters at Lake Cisco and will also use the Presbyterian encampment facilities.

BLASTED THE AXIS—Torpedo shown here alongside Greek submarine blasted one of the Axis ships, after submarine left an unnamed port for an ocean prow. Here, Greek sailors are putting the tin fish aboard the Lambros Katsonis, while sub is being otherwise readied. When sub left port, it headed for voyage in Aegean Sea.

IN FUTURE—Not now, but one of new conveniences we can look forward to after the war, according to United Air Lines, is this monster plane. Such super-size planes will lower air travel costs and make round-the-world vacation flights in two weeks available to millions of folks.

SNUB-NOSED WARRIORS—Army trucks for desert warfare are lined up in yard of Canadian motor car plant, awaiting shipment abroad. Snub-nosed vehicles are intended for fast work. Canada's war plants have achieved a high wartime output.

YANK ASSAULT TROOPS, SUPPORTED BY AIR BOMBARDMENT, MOVE IN ON YELLOW DEVILS

ALLIED HEADQUARTERS, Southwest Pacific, July 2.—American assault troops, supported by smashing aerial and artillery bombardment, closed in toward the Japanese jungle base at Munda on New Georgia Island today after sapping enemy air strength in the Solomons by destruction of at least 123 enemy planes.

ALLIED HEADQUARTERS, Australia, July 2.—U. S. troops pushed northwestward through the jungle fastness of New Georgia Island toward the Japanese air base at Munda today while artillery, mounted across the channel on newly-captured Rendova Island, joined bombers in a hurricane bombardment of enemy defenses.

One hundred and one Japanese planes were shot down in the first 36 hours of the Solomons attack as Allied aircraft and anti-aircraft guns thwarted desperate counter-attacks by enemy high-level bombers, dive-bombers, torpedo-bombers and fighters. Gen. Douglas MacArthur's headquarters reported. Seventeen Allied planes were lost.

The enemy air base at Munda was believed already neutralized by around-the-clock bombardment, but 30 miles still lay between it and American Army combat units and Marines who seized Viru Harbor, New Georgia's only anchorage, in hard fighting and then began consolidating their positions.

(Washington sources estimated the strength of Japanese forces in the central Solomons at 30,000 troops with another 30,000 to 40,000 in the Salamaua-Lae area of New Guinea, where co-ordinated attacks are under way.)

American forces also were pressing their advantage at other newly-won positions along a front stretching nearly 700 miles to the west in an offensive designed to win bases for an all-out assault to capture Rabaul, New Britain, kingpin base in the enemy's South Pacific set-up.

Official sources reported that casualties in all operations were light.

While forces landed at Nassau Bay, only 10 miles below the big Japanese base at Salamaua on the northern shore of New Guinea, extended their bridgehead, Australian troops, long established inland, attacked enemy parties at Malolo and Orodubi only a few miles northwest of Salamaua, and killed at least 26 officers and men.

American reinforcements, meantime, continued their unopposed landings on the Trobriand and Woodlark islands to the east, which are expected to provide advance air bases for an intensified air assault on Rabaul, some 300 miles to the north, as a prelude to possible invasion.

Rabaul already was under heavy air attack as Allied planes kept up their raids designed to neutralize the base and prevent reinforcement of Japanese forces resisting the American landings to the south.

Just before dawn yesterday, five waves of big four-engine Liberators dropped nearly 22 tons of bombs on the Lukunai, Vanakanau and Rapore airdromes at Rabaul.

MacArthur reported that Army troops and Marines who landed on Rendova, only five miles from Munda, at dawn Wednesday had completed the occupation and destroyed the garrison by mid-day.

Shore batteries were landed immediately after resistance had been broken and within two hours had begun shelling Munda.

Air and naval forces supported landing operations at both Rendova and New Georgia, bombing and shelling Munda and Vila, on Kolombangara Island, just west of New Georgia.

The Japanese counter-attacked vigorously with planes and submarines throughout Wednesday and yesterday, but a Washington communique indicated their only success during the initial stages of the offensive was the sinking of an empty troop transport, the 7712-ton McCawley, formerly the Grace liner Santa Barbara.

Other Allied planes supported ground action in New Guinea, strafing enemy defenses north of Nassau Bay, touching off explosions and fires in a heavy attack on Kela Point and Logui Village near Salamaua and raking installations, a runway and aircraft dispersal areas at Lae with machine-gun bullets.

BANK DEPOSITS GROW, WHILE LOANS SHRINK

FT. WORTH, July 2.—Fort Worth and Tarrant county banks had \$240,489,194.14 on deposit June 30, a gain of \$84,652,406.60 over the same date last year and an increase of \$14,174,479.45 in the last six months, a state and National bank call revealed today.

Loans and discounts reported by the 10 banks as of June 30 amounted to \$53,116,666.79, compared with \$59,105,331.87 on the same day last year and \$52,789,373.72 six months ago. Four banks showed increases of more than 100 per cent in deposits. Largest amount of deposits in any one bank was \$108,650,149.57, compared with \$67,534,411.47 on the same date a year ago.

JUNIOR COLLEGE SECOND TERM, JULY 6

The first term of Cisco Junior college summer school ends tomorrow, said Registrar C. J. Turner, today. The second term will begin July 6, with report cards being given Tuesday.

Mr. Turner reminds that all who expect to attend the second summer term should register either tomorrow or Tuesday.

MEN OF BAIRD MAKING POST-WAR PLANS

BAIRD, July 2.—At this week's meeting of the Baird Luncheon club the members unanimously accepted the construction of a city lake as their next project.

Preliminary work on several different surveys was started some time ago, but completion of plan was discarded at the time of the construction of the City-County hospital.

In line with the government policy of post war planning the club deemed it wise to re-open the lake project with the prospect of a federal grant. It is the desire of the club to perfect all local details so that when applications are again accepted for public work—it will be able to submit an immediate and definite plan to the authorities in Washington.

E. L. Woodley, Ace Hickman, Felix Mitchell and Judge B. H. Freeland were appointed as a committee to investigate the possibilities and work out plans for the construction of this lake for Baird.

JOB WANTED—Stout 16-year-old boy wants job of afternoons. Address Estel Seabourn, route two, Cisco. 216

EXCESSIVE PROFITS CHARGED

WASHINGTON, July 2.—Rep. Albert J. Engel, Republican of Michigan, reported to the house today that 48 corporations holding war contracts have made "sensational excessive profits" by figuring their taxes as a part of the cost of production which is paid by the government.

During the last two years, he said, these companies have paid \$3,000,000,000 in taxes out of Uncle Sam's pocket.

"The government pays these sums out of the treasury as war costs and they are then paid back into the treasury as taxes," he said.

"The \$3,000,000,000 does not include millions of dollars paid by these companies for social security, unemployment insurance, state corporation and real estate taxes, and other taxes, which likewise come out of the federal treasury in the cost of production, but are not returned to it."

Engel's report followed another made last Tuesday on excessive wages paid in war industries.

The survey included such companies as E. I. DuPont De Nemours Corporation, Wilmington, Del., General Motors Corporation, Chrysler Corporation, and Bethlehem Steel Corporation.

It showed, according to Engel, net corporate earnings ranging as high as 53 per cent of the dollar market stock value in 1941 and 1942.

FOR SALE—Big dressed fryers and Irish potatoes; will deliver. Ed Wende, route two, Cisco. 216

D. L. DUNAWAY WRITES HOME FROM AFRICA

Recent news from Pvt. Daniel L. Dunaway, 20, son of Mr. and Mrs. Luther Dunaway of the Dothan area, who is with the army forces in North Africa, said he was all right, but hungry for news from home.

Private Dunaway joined the forces at Camp Wolters last fall and has been on foreign soil about two months. He is a grandson of L. D. Dunaway of Dothan.

HUGE CONVOYS

LONDON, July 2.—Large contingents of American and Canadian troops have been conveyed to Britain during the past two months without loss, a reliable source said today. The exact number of the reinforcements was not disclosed, but an unofficial British military report said their strength "exceeded the highest hopes."

POINT VALUES INCREASE

Effective Sunday, point values will increase on most meats and most canned goods. They will be lower on certain pork cuts, lard, cheese, canned beans and tomato sauces. OPA officials conceded that the new point value tables, to be effective through July, add up to one thing—less rationed food for the civilian population.

ROBBERY SUSPECTS ARE IN EASTLAND JAIL

Walter Lemay and C. M. Marston, each about 32 years of age, who robbed four stores at Carbon, one at Okra and one at Burkett on the night of April 25, are in the Eastland jail and will probably be indicted by an Eastland county grand jury next week. Sheriff John Hart returned the men from Dallas, where they were arrested.

The two men escaped from the penitentiary at Huntsville on April 18, one week before the robberies mentioned. The men secured some \$800 in checks from the various robberies and these were later found under a culvert near Ranger.

John Wilson, who robbed two stores at Desdemona on May 7, pleaded guilty in Judge George L. Davenport's court, received a two-year sentence and is now in the penitentiary.

BRIBERY CHARGE

OKLAHOMA CITY, July 2.—Former Governor Leon C. Phillips and Robert R. Fitzgerald, his pardon and parole officer, were charged today in two counts of criminal conspiracy and bribery in an \$8,000 payoff for the parole of Dr. J. W. Eisiminger.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy 10c

STRENGTH.

It is impressive and reassuring to see how many Americans now repudiate "isolationism." The spirit of disillusionment and disgust which swept over the country at the end of the last war has almost vanished. Only a handful of bitter-enders seem left out of the hundreds of patriots in public life who so long condemned and stung all things foreign. A general feeling seems to have developed which ignores former political trends in this field and finds the world a small and dangerous place, which should be as far as possible and as soon as possible, be made safe for freedom and democracy.

This attitude was evident in the notable convention of state governors just held in Ohio. It was recognized by the conservatives that any world organization to establish and preserve peace must be reasonably satisfactory to all states to such a peace no longer seem so great, or the proposals visionary, as they used to be. Of course it can't all be done in one generation.

One of the prominent Republican delegates named as "conservative" Gov. John W. Bricker of Ohio, a prospective candidate for the presidency, insists that the very terms "isolationist" and "internationalist" are absurd. He says "America is not, never has been and never will be an isolationist nation. America must deal with the other nations of the world, and must assume leadership."

Such utterances seem to make it almost unanimous. And it is an expression not of weakness but of strength. America is here to herself.

PLIOFLEX.

Plioflex is a new term of which there will be heard. It is a glass which can be expanded like rubber, and used as a rubber substitute in a wide variety of uses. Molding automobile parts, shoe heels and soles are ready to be made of it. Also business men will make its acquaintance. It may well be manufactured from plioflex.

DEATH RATE.

A year ago it was a year ago to be about the last in which to expect a reduction in the death rate. Yet that is the 1942 record for this country according to Dr. Thomas Parran, Surgeon-General of the Army. Last year's record, he told the Appropriations Committee of the House of Representatives, was the lowest ever and the rate has been declining steadily for 12 years. Eventually it is expected to fall below the extraordinarily low figure of 13.75 deaths to every 100 births.

LIVING COSTS.

Only higher cost of living is in sight while the war lasts. Efforts against inflation are helping to some extent, and will, it is hoped, help more as the months go on. But consumer goods are disappearing from the markets and food becomes scarcer. Shelter is already far too short.

But after the war? The picture changes. There is a cookstove, for example, developed in Sweden, insulated and thermostatically controlled, which functions on a shovelful of coal a day. Inventors are working on the idea of redesigning this type of stove for gas. An article in a recent Saturday Evening Post tells not only of this stove but of dozens of inventions and improvements waiting only the green light of peace to go ahead. They are expected to lower living costs and raise living standards for the population

in general. The market for cheap kitchen fixtures alone is enormous. So far, they have cost too much. Less than half the families in the United States have private bathrooms in their homes. The new ones can be made much more cheaply.

There are not idle dreams of future abundance. They are dreams of hard-headed business men. To bring them into production, however, requires every ounce of hard effort at the wheel of war.

OTHER EDITORS

Up and At Em.

Stimulating. A strong likelihood seemed to exist that the Axis powers, comprising the Nazis, Japanese and British forces in the Pacific, would definitely win the war. The Axis powers had been outgeneraled in Europe. The Axis powers had not so much as changed in their attitude of defiance. The reaction from Pearl Harbor may have been an assumption but subsequent events have undoubtedly changed the Japanese reality in the Pacific direction.

It is suggested that the present campaign should be to drive home the fact that every contact between the American initiative has resulted in a Japanese defeat, thereby leading to the real attack on Japan, which has been the American objective since the Doolittle raid on Tokyo disclosed the vulnerability of the Japanese. Actually, the MacArthur campaign is an additional step in this campaign. It is an All-American state of mind to take the initiative. We are expected to make more when we are carrying the war to the enemy than when "taking it" as though to ourselves.

from Hico where she visited the past week with her friend, Miss Stella Barnett.

UNUSUAL ACCIDENT KILLED LEON THATE

CROSS PLAINS, July 2.—Leon Thate, 24, who was accidentally killed while repairing an automo-

mobile at his home, five miles north of town Sunday, was buried in the Burkett cemetery Wednesday morning. Services were conducted from the First Presbyterian church in Cross Plains with the Rev. J. L. Glenn, pastor, officiating. Other local pastors assisted.

Mr. Thate was working on his automobile and had one wheel jacked up. He was making repairs beneath the car when it is believed to have slipped, striking him across the neck and face. Death seems to have been instantaneous. He was found by his wife about four o'clock Sunday afternoon.

Survivors include the young wife, baby, mother, Mrs. S. T. Swafford, all of Cross Plains, one brother, Alfred Thate, who is in the service in the northeast, as well as a number of near relatives and a great host of friends.

We should give any man a full hearing, provided he first tells us what ax he has to grind.

AMERICAN HEROES

Because he sealed the walls of the fortification at Kasha-Mehdia, French Morocco, and from that hazardous position diverted the attention of the enemy with his rifle fire, enabling our troops to enter through the main gates of the fort, Pfc. C. L. Mohler was awarded the Distinguished Service Cross. He risked his life for you. How many more Bonds and Stamps can you afford to help him? Figure it out yourself.

Hope for folks pestered by KIDNEY PAIN

No more getting up at night! Swamp Root quickly relieves bladder pain and backache due to sluggish kidneys—makes restful sleep possible.

Thousands of middle-aged folks say Swamp Root helps them sleep like they did when young. Swamp Root flushes out painful and irritating acids from the kidneys, enables them to do a thorough job before going to bed. So there's no more getting up at night. In addition, Swamp Root promptly relieves bladder pain, backache and that general misery that sometimes keeps you from your work. You can't miss its wonderful tonic effect. Swamp Root was originally created by a well-known physician, Dr. Kilmer. It contains no toxic substances and medicinal ingredients that help you feel better. Try it now. It's the best thing you can do for your kidneys. You can get Swamp Root in any drug store. It's sold in bottles of 50¢ and \$1.00. Write for a free booklet on kidney troubles. Address: Dr. Kilmer's Swamp Root, P. O. Box 589, Albany, N. Y.

Now YOUR PAINTER

He uses LUMINALL and ULTRA LUMINALL, America's new Miracle Paint for Walls and Ceilings. More and more master painters are using and recommending these modern finishes for living rooms, bedrooms, dining rooms and halls. LUMINALL and ULTRA LUMINALL go on easily with a big wide brush, cover most surfaces with one coat and dry in 40 minutes. Because of these features, your master painter gives you a better job, quicker, and saves you money, too. One gallon of paste makes 1½ gallons paint, ready to apply.

on his second birthday. After arrival of guests the group enjoyed out-door games. Pictures were made of the children at play.

At the close of the games the white birthday cake topped with two pink candles was viewed by the group who then encircled the honoree and sang "Happy Birthday to You." Refreshments of punch and cake were served and favors of whistles for the boys and hair-bows for the girls were presented by the hostess.

The guest list included Danny

"Howzat Mom, if the FLIT hadn't come—we would have been eaten alive!"

Our soldiers are sure glad to get FLIT—and all our other super-slaying insecticides. They're real weapons of war on many insect-infested battle-fronts. Their spray of death kills many foul foreign insects just as FLIT blitzes your household pests here at home! FLIT has the highest rating established for household insecticides by the National Bureau of Standards... the AA Rating! Insist on FLIT... the double-A killer. Buy a bottle—today! KILLS mosquitoes, flies, gnats, bedbugs, roaches, ants, and other household pests.

Schmidt, Jackie Graves, Doy Alford, Sandra Norvell, June Hope Ezzell, Jane McCauley, Barbara McCauley, Budgie Garrett, Philip Surles, Juddie Jean Hopkins, Larry Schmidt and a visitor, Miss Fay Schmidt of Fort Worth.

Mothers present included Mrs. D. G. Alford, Mrs. Chester Norvell, Mrs. Audrey Ezzell, Mrs. Jay Garrett, Mrs. Marston Surles, Mrs.

R. W. McCauley, Mrs. W. R. Winston and out-of-town guests, Mrs. C. B. Hopkins, Fort Worth, and Mrs. George Thompson of Sweetwater and the hostess, Mrs. Schmidt.

Our big handicap is lack of vision. We'd all try harder if we realized that victory is far away and uncertain.

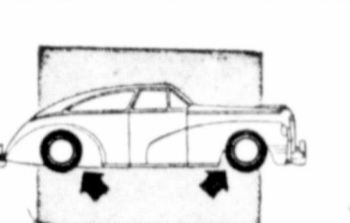

BIGGY RIDE—Rare collection of dolls is on display in department store in New York under sponsorship of American Hobby Federation. Barbara Ruth Amer, above, admires rare bisque head doll who is riding in a hand-carved, mahogany doll carriage that dates from about 1851.

A bright spot in the blueness of the news during the strike period has been gloriously brightened for Texas everywhere—whether in the foreign service or on the home front, in stores or on farms—and that is the unanimous stand Texas senators and congressmen at Washington took in overriding the veto of the strike bill.

It showed that Texans are fighters for what they think is right, whether it is in home or foreign fronts. We are proud of Texas.

 Traveler: Thank you. I'll be glad to help.
 Operator: Please, it's our pleasure.

What Does It Mean to You— The Constitution of the United States?

"We the People of the United States..."
 These words mean America's warranty of freedom.
 Today we are deep in war—that this warranty may ensure should we win—and a war we must win—whom will it profit?
 Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-earned home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.
 Do you worship God in a church, or in a synagogue, or in the secret pines of your heart? It will profit you that no heathen hand can desecrate your altars.
 Do you impart the truth to the printed page—or do you seek it there? It will profit

you that the presses will not be shattered in the night.
 Do you talk with your neighbors on a street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

The Constitution means more to the average man and woman than it does to the average politician. And these we fight for.
 In many ways we fight for the same thing—freedom. We fight for the freedom of the large, hard-earned home; the freedom of the farmer to plant and harvest his crops; the freedom of the worker to work for his own good; the freedom of the citizen to speak his mind; the freedom of the man to worship his God; the freedom of the woman to choose her own path; the freedom of the child to grow up in peace and love.
 We are proud to be among the men and women of industry fighting for it.
 And we join with the free-thinking people of West Texas in asking that Washington's bureaucrats freeze their political activities for the duration of our struggle on the front lines, and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—1,614 ft. above sea; immense lake—three miles long, 87 ft. deep at Williamson hollow concrete dam; fish hatchery; 127 blocks paving; A-1 high school, Junior college; natural gas; electric and ice plants; War Industries Training School, for Women.

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peaches, cotton, fruits, feeds, poultry, gas, oil, two railroads, Bankhead highway, huge concrete swimming pool.

VOLUME XXIII

CISCO, TEXAS, FRIDAY, JULY 2, 1943

NUMBER 214

MILITARY BAND, BOAT EXCURSIONS, SWIMMING

THESE, ALONG WITH FISHING, DANCING, GOLF AND BARBECUED MEATS, ARE SOME OF THE JULY 4-5 LAKE CISCO ATTRACTIONS

Saturday night, Sunday and Monday will be times of much fun and recreation at Lake Cisco, with all the events that will crowd the hours of Independence Week.

Military band music, plenty of soldiers to add the merriment to the event and hundreds of men and their families taking their lunches to eat in the cool shades or cooking them in the barbecue pits, using the free water, lights and tables that are placed conveniently for such parties.

The orchestra from Camp Bowie will make music, while a dance at the pavilion begins Saturday night, to be resumed Sunday afternoon.

A water carnival during the morning of the Fourth, with an old fiddlers' contest as a special event for Monday, when many citizens of Cisco and adjacent communities will come for their outing and picnic.

Boat excursions will be available from the docks at Lake Cisco, where persons or parties may take rides along Lake Cisco's long shore line, where much beautiful scenery rolls past as the trip progresses.

Of course, golfing and fishing will come in for their share of the diversion to make this a real holiday, where one may forget for a while the problems of business and home, as well as the greater problems in foreign lands.

Manager Monroe Sweeney says the giant swimming pool was drained and the concrete bottom swept last night through courtesy of the Cisco fire department, and that one can enjoy a swim in water as pure as that which we drink.

CAMPING GROUNDS POPULAR

The Presbyterian church encampment at Lake Cisco has ended for the summer, about 50 seniors being present for last week, with Rev. Frank Crown of Rule and Rev. Thomas Currie of Fort Worth as director and assistant. Dr. Gary L. Smith was business manager of the two programs just ended.

On July 19 the Nazarene church organization for the Abilene district, which extends from Amarillo to Denton and from Wichita Falls to Brownwood, will begin its encampment here for young people, 200 of whom will come from such distance that arrangements for their entertainment will be necessary, and about 100 local young people.

John L. Knight of Mineral Wells, district superintendent, will be in charge of the encampment. Hadley A. Hall of Amarillo will be in charge of the young people's program and Rev. R. T. Williams, pastor at Sulphur Springs, will be in charge of the music.

Dr. R. T. Williams of Kansas City, Mo., general superintendent of the Nazarene movement in America, will be the speaker each day of the encampment, which continues one week.

Beginning August 10 and continuing through August 13, the Methodist Women's Society of Christian Service will convene at Lake Cisco under the direction of Mrs. W. H. Cole of Cisco. This gathering will represent the women of the Methodist Central Texas conference, representing ten districts, who belong to the Methodist conference of Spiritual Life Retreat organization.

Late in August the football team from Roscoe will make training headquarters at Lake Cisco and will also use the Presbyterian encampment facilities.

JUNIOR COLLEGE SECOND TERM, JULY 6

The first term of Cisco Junior college summer school ends tomorrow, said Registrar C. J. Turner today. The second term will begin July 6, with report cards being given Tuesday.

Mr. Turner reminds that all who expect to attend the second summer term should register either tomorrow or Tuesday.

MEN OF BAIRD MAKING POST-WAR PLANS

BAIRD, July 2.—At this week's meeting of the Baird Luncheon club the members unanimously accepted the construction of a city lake as their next project.

Preliminary work on several different surveys was started some time ago, but completion of plans were discarded at the time of the construction of the City-County hospital.

In line with the government policy of post war planning the club deemed it wise to re-open the lake project with the prospect of a federal grant. It is the desire of the club to perfect all local details so that when applications are again accepted for public work—it will be able to submit an immediate and definite plan to the authorities in Washington.

E. L. Woodley, Ace Hickman, Felix Mitchell and Judge B. H. Freeland were appointed as a committee to investigate the possibilities and work out plans for the construction of this lake for Baird.

JOB WANTED—Stout 16-year-old boy wants job of afternoons. Address Estel Seabourn, route two, Cisco, 216

EXCESSIVE PROFITS CHARGED

WASHINGTON, July 2.—Rep. Albert J. Engel, Republican of Michigan, reported to the house today that 48 corporations holding war contracts have made "sensational excessive profits" by figuring their taxes as a part of the cost of production which is paid by the government.

During the last two years, he said, these companies have paid \$3,000,000,000 in taxes out of Uncle Sam's pocket.

"The government pays these sums out of the treasury as war costs and they are then paid back into the treasury as taxes," he said.

"The \$3,000,000,000 does not include millions of dollars paid by these companies for social security, unemployment insurance, state corporation and real estate taxes, and other taxes, which likewise come out of the federal treasury in the cost of production, but are not returned to it."

Engel's report followed another made last Tuesday on excessive wages paid in war industries.

The survey included such companies as E. I. Dupont de Nemours Corporation, Wilmington, Del., General Motors Corporation, Chrysler Corporation, and Bethlehem Steel Corporation.

It showed, according to Engel, net corporate earnings ranging as high as 53 per cent of the dollar market stock value in 1941 and 1942.

FOR SALE—Big dressed fryers and Irish potatoes; will deliver. Ed Wende, route two, Cisco, 216

D. L. DUNAWAY WRITES HOME FROM AFRICA

Recent news from Pvt. Daniel L. Dunaway, 20, son of Mr. and Mrs. Luther Dunaway of the Dothan area, who is with the army forces in North Africa, said he was all right, but hungry for news from home.

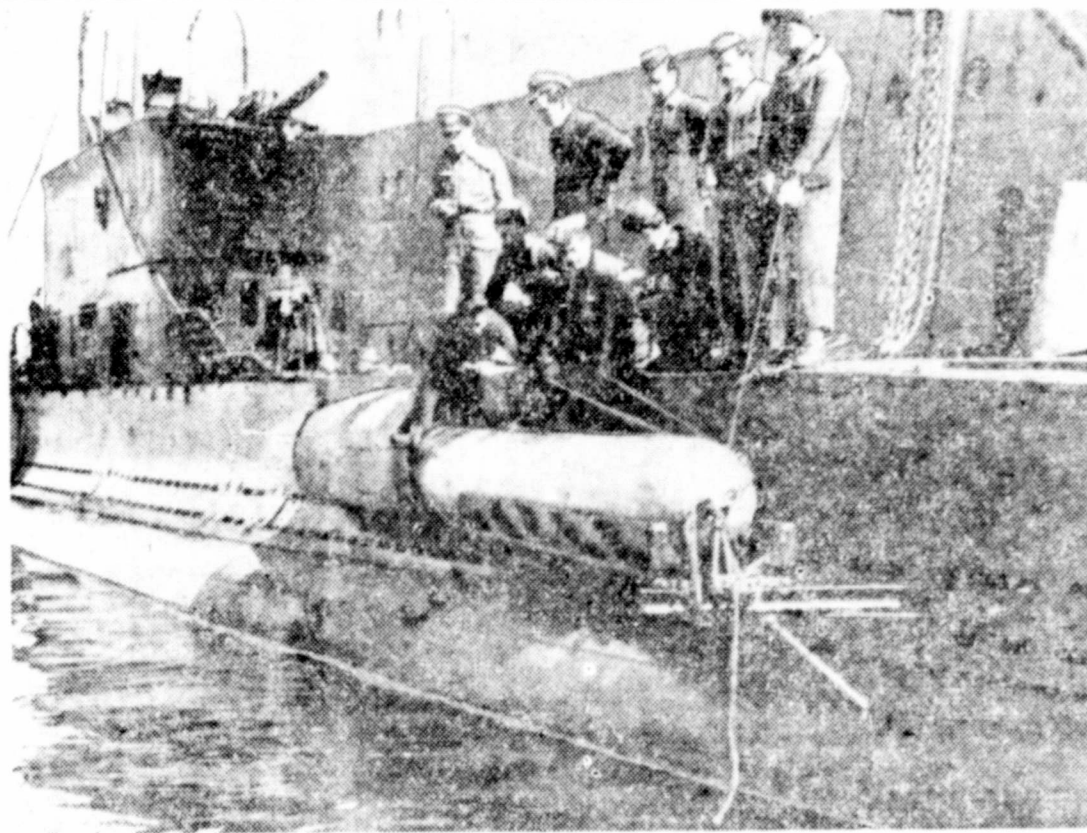

Private Dunaway joined the forces at Camp Wolters last fall and has been on foreign soil about two months. He is a grandson of L. D. Dunaway of Dothan.

HUGE CONVOYS

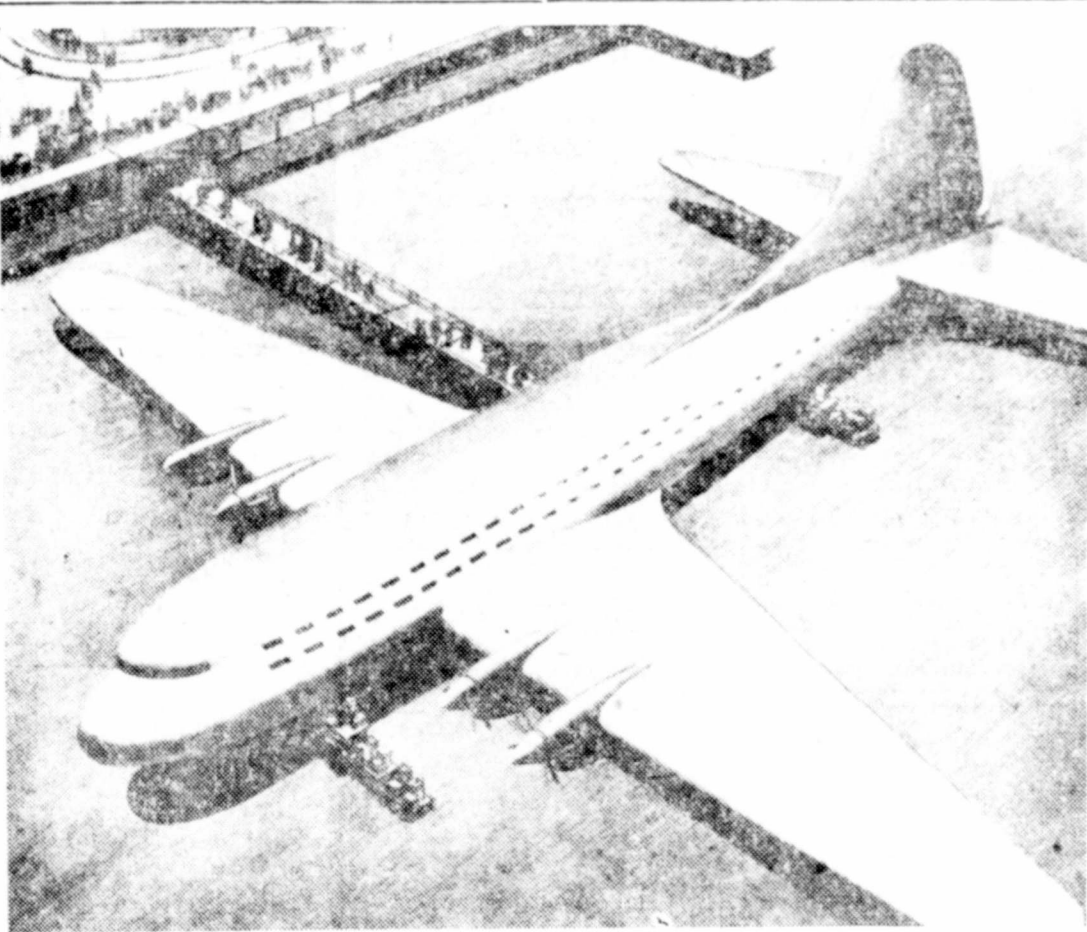

LONDON, July 2.—Large contingents of American and Canadian troops have been conveyed to Britain during the past two months without loss, a reliable source said today. The exact number of the reinforcements was not disclosed, but an unofficial British military report said their strength "exceeded the highest hopes."

POINT VALUES INCREASE

Effective Sunday, point values will increase on most meats and most canned goods. They will be lower on certain pork cuts, lard, cheese, canned beans and tomato sauces. OPA officials conceded that the new point value tables, to be effective through July, add up to one thing—less rationed food for the civilian population.

BLASTED THE AXIS—Torpedo shown here alongside Greek submarine blasted one of the Axis ships, after submarine left an unnamed port for an ocean prow. Here, Greek sailors are putting the tin fish aboard the Lambros Katsomis, while sub is being otherwise readied. When sub left port, it headed for voyage in Aegean Sea.

IN FUTURE—Not now, but one of new conveniences we can look forward to after the war, according to United Air Lines, is this monster plane. Such super-size planes will lower air travel costs and make round-the-world vacation flights in two weeks available to millions of folks.

SNUB-NOSED WARRIORS—Army trucks for desert warfare are lined up in yard of Canadian motor car plant, awaiting shipment abroad. Snub-nosed vehicles are intended for fast work. Canada's war plants have achieved a high wartime output.

ROBBERY SUSPECTS ARE IN EASTLAND JAIL

Walter Lemay and C. M. Marston, each about 32 years of age, who robbed four stores at Carbon, one at Okra and one at Burkett on the night of April 25, are in the Eastland jail and will probably be indicted by an Eastland county grand jury next week. Sheriff John Hart returned the men from Dallas, where they were arrested.

The two men escaped from the penitentiary at Huntsville on April 18, one week before the robberies mentioned. The men secured some \$800 in checks from the various robberies and these were later found under a culvert near Ranger.

John Wilson, who robbed two stores at Desdemona on May 7, pled guilty in Judge George L. Davenport's court, received a two-year sentence and is now in the penitentiary.

BRIBERY CHARGE
OKLAHOMA CITY, July 2.—Former Governor Leog C. Phillips and Robert R. Fitzgerald, his pardon and parole officer, were charged today in two counts of criminal conspiracy and bribery in an \$8,000 payoff for the parole of Dr. J. W. Eisiminger.

YANK ASSAULT TROOPS, SUPPORTED BY AIR BOMBARDMENT, MOVE IN ON YELLOW DEVILS

ALLIED HEADQUARTERS, Southwest Pacific, July 2.—American assault troops, supported by smashing aerial and artillery bombardment, closed in toward the Japanese jungle base at Munda on New Georgia Island today after sapping enemy air strength in the Solomons by destruction of at least 123 enemy planes.

ALLIED HEADQUARTERS, Australia, July 2.—U. S. troops pushed northwestward through the jungle fastness of New Georgia Island toward the Japanese air base at Munda today while artillery, mounted across the channel on newly-captured Rendova Island, joined bombers in a hurricane bombardment of enemy defenses.

One hundred and one Japanese planes were shot down in the first 36 hours of the Solomons attack as Allied aircraft and anti-aircraft guns thwarted desperate counter-attacks by enemy high-level bombers, dive-bombers, torpedo-bombers and fighters. Gen. Douglas MacArthur's headquarters reported. Seventeen Allied planes were lost.

The enemy air base at Munda was believed already neutralized by around-the-clock bombardment, but 30 miles still lay between it and American Army combat units and Marines who seized Viru Harbor, New Georgia's only anchorage in hard fighting and then began consolidating their positions.

Washington sources estimated the strength of Japanese forces in the central Solomons at 30,000 troops with another 30,000 to 40,000 in the Salamaua-Lae area of New Guinea, where coordinated attacks are under way.

American forces also were pressing their advantage at other newly-won positions along a front stretching nearly 700 miles to the west in an offensive designed to win bases for an all-out assault to capture Rabaul, New Britain, kingpin base in the enemy's South Pacific set-up.

Official sources reported that casualties in all operations were light.

While forces landed at Nassau Bay, only 10 miles below the big Japanese base at Salamaua on the northern shore of New Guinea, extended their bridgehead, Australian troops, long established inland, attacked enemy parties at Malolo and Oroubu only a few miles northwest of Salamaua, and killed at least 26 officers and men.

American reinforcements, meantime, continued their unopposed landings on the Trobriand and Woodlark islands to the east, which are expected to provide advance air bases for an intensified air assault on Rabaul, some 300 miles to the north, as a prelude to possible invasion.

Rabaul already was under heavy air attack as Allied planes kept up their raids designed to neutralize the base and prevent reinforcement of Japanese forces resisting the American landings to the south.

Just before dawn yesterday, five waves of big four-engine Liberators dropped nearly 22 tons of bombs on the Lukunai, Vanakanau and Rapore airdromes at Rabaul.

MacArthur reported that Army troops and Marines who landed on Rendova, only five miles from Munda, at dawn Wednesday had completed the occupation and destroyed the garrison by mid-day.

Shore batteries were landed immediately after resistance had been broken and within two hours had begun shelling Munda.

Air and naval forces supported landing operations at both Rendova and New Georgia, bombing and shelling Munda and Vila, on Kolombangara Island, just west of New Georgia.

The Japanese counter-attacked vigorously with planes and submarines throughout Wednesday and yesterday, but a Washington communique indicated their only success during the initial stages of the offensive was the sinking of an empty troop transport, the 7712-ton McCawley, formerly the Grace liner Santa Barbara.

Other Allied planes supported ground action in New Guinea, strafing enemy defenses north of Nassau Bay, touching off explosions and fires in a heavy attack on Kela Point and Logui Village near Salamaua and raking installations, a runway and aircraft dispersal areas at Lae with machine-gun bullets.

BANK DEPOSITS GROW, WHILE LOANS SHRINK

FT. WORTH, July 2.—Fort Worth and Tarrant county banks had \$240,489,194.14 on deposit June 30, a gain of \$84,652,406.60 over the same date last year and an increase of \$14,174,479.45 in

the last six months, a state and National bank call revealed today.

Loans and discounts reported by the 10 banks as of June 30 amounted to \$53,116,666.79, compared with \$59,105,331.87 on the same date last year and \$52,789,373.72 six months ago. Four banks showed increases of more than 100 per cent in deposits.

Largest amount of deposits in any one bank was \$108,650,149.37, compared with \$67,534,411.47 on the same date a year ago.

What Does It Mean to You—

The Constitution of the United States?

"We the people of the United States..."

Over a hundred fifty-six years ago, these words began America's warranty of freedom.

Today, we are deep in war—so that this warranty may endure, should we win—and we are won—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on a street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution is a great, living thing. And these we fight for:

In many ways our fight is a silent war—when our nation is the target of the firing of guns, the dropping of bombs, the firing of the torch, the burning of the pulpit's night, the burning of the weapons of war, and the supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting loss.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forgo their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.
