MURRY COLLEGE PLANS ADDITIONS

WENDE WRITES VICTORY WILL SOON BE OURS

ARLINGTON, July 15.—Dr. Harold G. Cooke, president of McMurry College, announces the launching of a campaign to raise \$1,750,000 for building and endowment fund, approximately \$750,000 to be used in the construction of four buildings on the campus, following the war, and \$1,000,000 to be made as a permanent endowment fund for the college.

Albert Wendt, 26, son of Mr. and Mrs. G. E. Wendt, who reside near Cisco, writes from somewhere in the Pacific that all is well and that "victory will soon be ours."

HAROLD G. COOKE

There is always the consolation and happy thought that is a mother's love, she is at home, doing her best and thinking of us and praying that God will protect us from harm and provide a safe trip home at the last. She also thinks of our loved ones we had to leave behind and remains with them in her prayers.

I am speaking of my darling wife and little son. She too as a mother is doing a splendid job towards our aim namely victory, which will soon be ours.

Now, with the above known facts, we can't help but give all we've got with a little more. I know as an individual we can do nothing but with God's help, but as a "body" we can do great things, and we will do great things.

Remember, I love you all and think of all of you often. Write as often as you can. Tell all the folks and friends lovingly. I am always your son.

JAS. A. WOHLFORD, PIONEER PASSES AT 86

James A. Wohlford, who died Tuesday at his home at Eureka, Stephens county, was buried in the Eureka cemetery, yesterday afternoon. A very large crowd, made up of relatives and friends of long standing, attended the funeral and burial. Rev. Seba Kirkpatrick, pastor of Cisco Twelfth-st. Methodist church, assisted in the funeral, which was held at the late home.

Mr. Wohlford was born November 23, 1856, in Tennessee, hence would have been 87 years of age his next birthday. He moved from Hood to Stephens county 62 years ago and had been a member of the Methodist church for more than half a century. An active farmer and cattleman during all these years, deceased was probably one of the best known men in the county and was highly esteemed as a progressive citizen and good man.

Besides the widow, five children survive Mr. Wohlford, as follows: J. R. Wohlford, Breckenridge; Mrs. Lula Eddleman, Portales, N. M.; Mrs. Robert Merritt, Lake Arthur, N. M.; Mrs. W. F. Keith, Artesia, N. M.; Mrs. Mabel Williams, of near Moran. There are also 16 grand-children. Included in the latter are Kirby Eddleman, Dallas, and Warren Eddleman, Houston, who attended the funeral. Mrs. Joe Wilson of Cisco was also present.

GIRAUD IN U. S.—At right is French General Henri Honoré Giraud, as he arrived in Washington on military mission. He was received by Admiral William D. Leahy, left, President Roosevelt's chief of staff. Visitor will confer with military leaders.

STEPHENSON 270 BOMBERS STRUCK DEVASTATING BLOWS AT KEY PORT; NAPLES ALSO HEAVILY BOMBED

Dr. G. M. Stephenson was the guest speaker at Rotary luncheon today, being introduced by J. W. Slaughter, who had charge of the program. T. E. O'Brien, former Cisco oilman, but now of Fort Worth, was the guest of R. L. Ponsler. Burt Williams, who has been in Mexico City for several weeks past, was welcomed back to Cisco and the club.

NORTH AFRICA, July 15.—Allied air fleets, including 270 bombers from the Northwest African and Middle East Commands, struck pulverizing blows at Messina yesterday, all but completing the destruction of the key Sicilian port, communique revealed today.

Two hundred bombers of Lieut. Gen. Carl A. Spaatz's force were joined in the assault on Messina by 70 Liberators from the Middle East. More than 400,000 pounds of explosives were dropped on the gateway to and from Italy.

The massive raids on Messina, across a two-mile strait from the Italian mainland, topped another 24 hours of non-stop attacks by Allied bombers and fighters blasting out a path of destruction across Sicily in advance of Allied troops smashing northward and westward.

(An Italian report said Allied planes raided Naples, one of the main reinforcement ports for Sicily, and the Sicilian northwest port of Palermo in addition to Messina last night).

The around-the-clock attacks on Messina, plus other raids on the mainland ferry terminal of San Giovanni and Reggio Calabria, opposite Messina, and British torpedo boat attacks on channel shipping, were believed virtually to have severed that route of reinforcement and supply for Sicily.

The Allied air forces also were ranging over waters north of Sicily to stem reinforcement from that source. British Beaufighters yesterday torpedoed and blew up a tanker, set fire to a small tanker and probably sank a freighter, boosting the number of enemy vessels sunk in that area in the past three days to 14.

The force that hit Messina in relays was spearheaded by Flying Fortresses and also included Mitchells, Raiders and Canadian Wellingtons with P-38 Lightnings mauling interference.

Large fires sprang up in the wake of the raiders and heavy damage was inflicted on railway yards, ferry slips and oil storage areas, where two heavy explosions occurred. A smoke pall covered the city as the last of the raiders left for its base.

Still another attack on Messina was made Tuesday night by Northwest African night bombers. Day and night raids were made on Enna in central Sicily, where enemy troops have been reported massing for major counter-attacks.

Allied forces fought off a powerful Axis counter-attack led by crack German units in the Augusta sector of Sicily and struck back today in increasingly heavy battles toward Catania on the east coast and Agrigento on the south coast.

What appeared to be the first major enemy counter blow was struck by strong forces, including elements of the reformed Hermann Goering division, in a drive that penetrated Allied lines to the Augusta harbor before being repelled.

BRACKENRIDGE BOYS

BRACKENRIDGE, July 15.—Brackenridge mothers were notified of their sons' escape from a Japanese prison camp in the Philippines. First Sgt. Wilbur B. Owens, Jr., son of Mrs. A. E. Owens, was reported to be dead of dysentery. Cause of death of Corp. Herman Bandy, son of Mr. and Mrs. Claude Bandy, was not stated.

WORLEY NEW MANAGER

T. F. Worley, formerly of Abilene, is the new manager of the Creamery and Harry Grindley is engineer in charge at the power ice plant. Mr. Worley will move his family here shortly, he stated. They consist of wife and two daughters, Imogene 13 and Terry Jane, 9.

NEGOTIATOR—Henri Etienne Hoppenot, appointed by French committee of National Liberation to negotiate return of French Antilles "into union of the French Empire." He is with Gen. Giraud in Washington.

ARMY OFFICER MUNDA CANT PLEASED WITH LAST LONG, SCRAP DRIVE EXPERTS SAY

SOUTHWEST PACIFIC, July 15.—Allied troops, opening the all-out offensive to drive the Japanese from their bases on the northeast New Guinea coast, attacked the Mubo defenses today in an assault to break the main bastion before Salamaua.

Their path opened by aerial bombardment, jungle fighters closed in on Mubo "for decisive action," a special announcement from MacArthur headquarters said.

The new action on the western end of the 750-mile line of operations came as field dispatches reported American tanks had joined in the assault on Munda, biggest Japanese base in the central Solomons and major objectives on the eastern end. Munda's fall is imminent.

SUPPLY AND DEMAND. ALEXANDRIA, La., July 15.—The Louisiana Cattlemen's association has unanimously adopted a resolution urging that the present government meat program be canceled and that the law of supply and demand be permitted to operate.

LOOKING INTO THE FUTURE

The Young Man of Today

Should look into the future and interpret as best he can the trend of human destinies. Especially the destinies of our nation in terms of relations to business and employment when the world struggle shall have been settled.

There will be new opportunities for expansion of business . . . The world with its islands, rich in opportunities for the aggressive young man with plenty of initiative and willingness to work, will lure many young men who will want to get into the swing of things after the peace.

The wise young man will equip himself to cope with these opportunities when they come. Many will need more education than they perhaps have now. Some will finish courses in college and universities that were dropped for various reasons. Some will have to depend upon correspondence courses and night study either at home or in night schools.

But however this knowledge is gained it will be needed and the time spent in acquiring it will be far from wasted.

To the young man or woman who majors in the various sciences and in mathematics, will come advancement that otherwise would pass them by. In the chemical and machine world men with technical knowledge will find rapid advancement, while the great strides in radio, electricity and aeronautics will make room for those versed in that technical knowledge.

It is time for the young man of today, be he 17 years of age or 30, to think seriously of a preparation for the problems of life. His is the generation that must solve most of them. He should be prepared to meet the responsibility.
