

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool.

VOLUME XXIII.

CISCO, TEXAS, WEDNESDAY, JULY 21, 1943.

NUMBER 227

ENNA BASE FALLS TO YANKS AND CANUCKS

PULLEY HAS SERVED NAVY LONG PERIOD

W. P. Pulley, 43, who was born in Cisco, has served in the U. S. navy. He is now at home in Los Angeles on his duties as recruiting officer for the construction branch of the navy.

A Los Angeles newspaper had something nice to say about the former Ciscoan recently. "The man of two world wars," said the writer N. L. Pulley is now a quarter of a century old, as indicated by the gold stars on his sleeve, and he is expected to wear four more stars on his chest. He still believes that some folks would be surprised that he was hospitalized for one of our big carriers at sea on her last voyage. He believes his lucky stars have seen him through the recruiting for the navy. It is his time to perform his duty as junior commander of the 1st Council of the Veterans' Foreign Wars.

DOCTOR SAYS POLIO CAN BE AVOIDED

BRIDGEMAN, July 21.—A rule boy in Ft. Worth has been the cause of a few cases of infantile paralysis in West Texas today brought forth from local health officials from local health officials. The case of the dread disease has been reported here.

Dr. J. W. Wood said that if you get Ft. Worth and other places where the disease has appeared, all quit coming here, and children's gatherings, and their homes clear of people, and their hands good before eating food, and use nose drops if they get a little cold, and you should be none in Breckinridge.

Henry J. Cloud, 14, son of Mr. and Mrs. Henry Cloud of Rule, died today in a Ft. Worth hospital of the disease, the attack being of the throat.

Unnecessary trips have been discouraged against by doctors of the places, among warnings given.

We can win without solving the tax or food problems, but they may double the cost in the long run.

ONE-ARMED — Despite handicap of only one arm, Pete Gray, center fielder for Memphis Chicks, is better baseball player than many persons with two arms. He has only three errors this year.

AFTER-WAR PROBLEMS DISCUSSED

Lion L. W. Seymour presented a program of the Lions luncheon today that was unique and practical in that he listed a series of questions having to do with the peace table discussions that must come when war has ended. The questions were distributed to the various Lions who wrote their answers.

Among those questions were the disposition of the islands of the Pacific, and the length of time necessary to reaching the three countries.

A tabulating of the answers showed a range of from one to six months for Italy, from six months to two years for Germany and from two years to never as the time required to defeat Japan.

All the answers, which of course were merely the opinion of the writers, showed that members had read discussions of the peace to come, and that the individuals had given thought to the subject on their own accounts.

As to what should be done with the people and governments of the three countries, brought varied answers, but all admitted that calm justice should temper emotions in the matter; for, after all, any disposition of the problem not in line with justice, would only serve to lead again in one or two decades down the line.

The program was an interesting and timely one and will probably be continued at some later time.

Harry DeLancey, a lone whose former home was Breckinridge, but now Fort Worth, was a guest, as was C. S. Ramsey of Denver, Colo., who is a son-in-law of the late Mr. Ramsey.

Dr. Davis is a practicing physician and a pharmacist in a drug store in his home town. He is accompanied by his wife and four children. They expect to remain about two weeks.

His mother came to Cisco about one year ago to live because she was told it would benefit her health. She has found Cisco to be all she could hope for, she says.

To this end the Cisco postoffice for the past two weeks has been undergoing a general refurbishing and overhauling. This work includes a coat of paint throughout, including the handsome lobby and all metal work, both in and out. Basement walls and concrete work on the attractive grounds where masonry had settled or cracked is being replaced. The contractor is George Groncy of Decatur, Ill., who is being assisted by L. J. Litchfield, also from Decatur.

Molly Pitcher Steps from Pages of History

WASHINGTON, D. C., July 21.—On August 8th, Molly Pitcher steps out on the pages of American history to serve as leading lady in a nation-wide Bond and Stamp Tag Day.

The girl who carried water to thirsty soldiers during the blistering Revolutionary battle of Monmouth (New Jersey), and took over her husband's cannon when he was wounded, has long been a symbol of the heroism of American women.

In her honor, brigades of modern Molly Pitchers will take their stands on Molly Pitcher Tag Day, at street corners, building entrances, and in public places to sell the Bonds and Stamps that back up our fighting men. To accommodate shoppers in rural areas, Saturday, August 7, will be the day.

To turn back the history pages, "Molly" was born Mary Ludwig, on a farm near Trenton, New Jersey, in 1754. She was married to John Hays about the time of the Revolution, and moved to Carlisle, Pa.

In Revolutionary days it was not unusual for wives to accompany their soldier husbands to battle. They washed, mended, cooked, and cared for the wounded. So Molly went to war with John.

During the Battle at Monmouth Court House, she carried water to the men, all day and into the night. The men calling "Molly! Pitcher!" gave her the name by which she is known to history.

On one of her trips from the well, Molly saw her husband fall at his cannon. She promptly took his place, and fired shot after shot until the battle was won.

For her heroism Molly Pitcher was made the first woman Sergeant in the Army by General Washington. In words of an old Revolutionary rhyme: "Molly Pitcher she stood by her gun, And rammed the charges home, sir; And thus on Monmouth's bloody field, A sergeant did become, sir."

That's the spirit behind the red-white-and-blue Molly Pitcher tags you will be asked to wear on August 4 — behind the water pitchers waiting to receive the proceeds of purchases of Bonds and Stamps.

UNCLE SAM MAINTAINS PROPERTY

Your Uncle Sam, who completed an unusually good looking as well as serviceable postoffice building in Cisco in November, 1933, has the reputation of keeping his properties in good physical condition; which, of course, is good business from the taxpayers' standpoint.

To this end the Cisco postoffice for the past two weeks has been undergoing a general refurbishing and overhauling. This work includes a coat of paint throughout, including the handsome lobby and all metal work, both in and out. Basement walls and concrete work on the attractive grounds where masonry had settled or cracked is being replaced. The contractor is George Groncy of Decatur, Ill., who is being assisted by L. J. Litchfield, also from Decatur.

Twenty-three employees work in and out of the Cisco federal building and the modern, well-appointed structure has housed two postmasters since it opened for business — W. H. Craddock until February, 1935, and Luther H. McCrea from that date until the present time.

The building was erected at a cost of about \$80,000, plus cost of equipment and cost of grounds.

Measure of merit: "He can't be a great man; I haven't heard a single dirty story about him."

Arizona Md. Here to fish and visit

Cisco is certainly a swell town and I am going to try some of this good fishing I understand you have here in your fine lakes," said Dr. C. D. Davis of Bisbee, Ariz., who is visiting his mother, Mrs. D. C. Davis, 1003 W. Tenth street.

Dr. Davis is a practicing physician and a pharmacist in a drug store in his home town. He is accompanied by his wife and four children. They expect to remain about two weeks.

His mother came to Cisco about one year ago to live because she was told it would benefit her health. She has found Cisco to be all she could hope for, she says.

To this end the Cisco postoffice for the past two weeks has been undergoing a general refurbishing and overhauling. This work includes a coat of paint throughout, including the handsome lobby and all metal work, both in and out. Basement walls and concrete work on the attractive grounds where masonry had settled or cracked is being replaced. The contractor is George Groncy of Decatur, Ill., who is being assisted by L. J. Litchfield, also from Decatur.

The building was erected at a cost of about \$80,000, plus cost of equipment and cost of grounds.

EXTENSION OF HIGHWAY 206

Directors of the chamber of commerce were occupied mostly at their meeting last night with discussion of the report of Wm. Reagan and George Boyd, who had returned from a visit with Leo Ehlinger, state highway engineer at Brownwood, who said he favored the proposal of a straight-line highway from Cross Plains to Cisco, connecting with highway 206 which feeds from Coleman and the San Angelo country.

These gentlemen, having been designated by the chamber of commerce to make the interview with Mr. Ehlinger, reported that Ehlinger would make the survey as soon as the state highway department instructed him to do so.

J. E. Spencer, former secretary of the Cisco chamber of commerce, and well versed in highway matters, has agreed to assist in the work of preparing a brief to present to the highway commission, which meets at Austin on July 30-31.

He will be accompanied by representatives from Cisco, Cross Plains and Coleman, and it is expected, by representatives from Eastland and Ranger.

This proposed route from Cross Plains to Highway No. 89, will not only greatly shorten the present routes to Fort Worth and Dallas markets, but will relieve the already greatly congested traffic on other routes. Discontinuance of the railroad branch from DeLeon to Cross Plains produces another vital reason for the proposed highway.

The further fact that all this section of country from Cisco and the southwest is now intensifying its program of producing cattle, hogs, sheep and wool — which must be shipped on the shortest route possible — makes the proposed road all the more important.

These shipments, which are going on constantly, day and night, very naturally add to the congestion of present routes, not only making it dangerous for traffic but tending to slow these cargoes that depend upon fast travel for reaching their destinations in the best possible condition.

RUSSIAN CLAIMS. MOSCOW, July 21.—Russian troops drove in behind Orel to within less than five miles of the Bryansk railroad today, practically immobilizing the only line for evacuation or reinforcement of the hard-pressed German base.

ILLINOIS OIL DISCOVERY IS NEAR NEW HIGH

CENTRALIA, Ill., July 21.—Equaling any record set during the oil boom of 1937, 1938 and 1939, Southern Illinois wildcaters have discovered eight new pools and new producing horizons in established fields during the past three weeks.

ALLIES NOW OCCUPY HALF OF 10,000 SQUARE MILE ISLAND; MANY GERMAN TROOPS CUT OFF

NORTH AFRICA, July 21.—American and Canadian forces driving up within 28 miles of the north Sicilian coast captured the main Axis communications center of Enna today while the British 8th Army pressed a hammer and tongs battle for the east coast port of Catania.

Troops of the United States 7th army, under Lt. Gen. George S. Patton, Jr., and Canadian forces advancing in unison stormed through the enemy center before Enna and fought their way into the town.

The Allied forces now occupy one-half of the 10,000-square mile island of Sicily and a considerable number of Axis troops, including Germans, were believed cut off in the western part of the island, especially along the American 7th Army front.

The fall of Enna, a town of 27,000 on a high horseshoe-shaped hill in mid-Sicily, cut off German and Italian rear guard troops and gave the Allies control of a network of roads leading to all corners of the island. French Goumiers, native Moroccan troops, participated in the Allied advance.

The Canadians closed in on Enna from the southeast, breaking through stubborn enemy resistance, while the American 7th Army reached the road junction from the southwest, after flanking operations that carried some units farther northward toward the coast.

The effect of the capture of Enna was to split Sicily in half, with the Allies controlling all territory south of a line running from Catania on the east coast to Enna and then southwestward to a point beyond Agrigento, where the Americans were still advancing. Enna represented an advance of about 35 air line miles from the nearest south coast port at Gela, but the troops covered many more miles in their offensive over mountain roads.

Of greatest importance, however, was the seizure of the road network centering at Enna. The Axis, with mid-island defenses crumbling, was being driven steadily back toward northeast Sicily and its main communication lines are vanishing except on the north coast.

The rearguard action fought by the enemy in the Enna sector as well as the fierce battle at Catania were regarded as designed to gain time while the main Axis forces fall back toward Messina, only a few miles from the toe of the Italian boot.

At Catania, however, enemy resistance continued strong against the 8th army of Gen. Montgomery. Field dispatches said the battlefields south of Catania were strewn with German dead and wrecked tanks of the Hermann Goering Division, while Allied warships and airplanes hammered at the coastal road leading northward to Messina.

Prisoners taken in Sicily were estimated to total around 40,000, more than half of them taken by the Americans. As usual, Italian prisoners complained that the Germans took their transports and fled, leaving the Italians to walk. They also complained that the Italian government had given them little equipment with which to fight.

Allied airplanes battered the enemy rear lines throughout Sicily yesterday as the Americans, Canadians and Goumiers hacked their way over rough mountain terrain to Enna.

Raddusa, midway between Enna and Catania, was hard hit by Mitchell bombers which started big fires and caused explosions. The Allied planes encountered no Axis fighter opposition.

Allied bombers also hammered Vibo Valentia and other air fields in southern Italy, while heavy bombers struck at rear bases as far north as the Naples area.

(Radio Cairo said the fall of Catania was imminent. A London broadcast reported that Allied warships were shelling the coastal road from Catania to Messina, 58 miles to the north).

JAPS LOSE 3 WARSHIPS AND THEN FLEE

SOUTHWEST PACIFIC, July 21.—U. S. bombers sank three and probably four warships yesterday to smash the largest-scale Japanese attempt yet to reinforce their base at Vila in the Central Solomons, a communique announced today.

One light cruiser and two and probably three destroyers were blasted to the bottom and another destroyer and a transport were damaged. The surviving vessels of the 11-ship convoy fled northward out of the range of American bombers.

REVENGER — When police arrested Robert Vanatta, 18 self-styled "revenge kid," he found list of persons he meant to kill. He is charged with slaying Norma Bradford, 20, he mistook for stepmother.

OFFICER KILLED

SAN ANGELO, July 21.—Second Lt. Thomas Lawrence Henry, 22, assistant provost marshal at San Angelo Army Air Field, and Adolph Mikeska, 23, alleged army deserter, were dead today as the result of a gun fight at Eola, small Concho county town 26 miles east of here. The killings took place when Lt. Henry went to Eola to arrest Mikeska.

GUADALCANAL, July 21.—The following Texans are survivors of the cruiser USS Helena who were rescued from a Japanese-held island after the ship was sunk: S. E. Shipman, McKinney; J. C. Layton, Roxton; J. D. Trinidad, San Antonio; R. E. Traynham, Pleasanton; Archie J. Gawlik, Orange Grove; T. A. Gowan, Jr., Corsicana, and James Wright, Austin.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy \$1.25

HUMBUG TAXATION.

From now on the public must think straight and without prejudice on the matter of taxation, or the best laid post-war plans will become worthless scraps of paper.

When business men plead for adequate corporate reserves for reconversion of industry to peacetime production, they are pleading not for themselves but for the millions who must be employed by industry when the war is over. If taxes prohibit the accumulation of adequate corporate reserves, it is not the business man who will suffer most. It will be the people looking for jobs—jobs that only industry can provide despite tempting bullshoo which would have us believe that come what may, we need not worry because the government will take up the slack in employment.

Senator George, chairman of the Senate Finance Committee, in warning that "Reserves for post-war contingencies and for conversion to peacetime activities, and for deferred maintenance and repairs, must be established and built up out of earnings during the war," speaks a truth with which there can be no compromise. And yet there are plenty of politicians who are trying at this very moment to undermine the stability of industry the same as they sought to in peacetime—by inequitable taxation—and they are doing it for the same reason they did it in peacetime, namely, because they think it appeals to the voters. These politician-assual politicians are the worst threat to the future of this nation.

The people must realize private industry is their strongholds in peace and in war. It is the bulwark of freedom. It can be destroyed by humping taxation.

WEATHER.

A general idea of the trend and character of the weather for the next few days during the week of the 21st to the 27th, can be attributed to the weather. It is in the nature of a forecast, and is not a guarantee. It is based on the weather as it is now, and the weather as it has been in the past. It is based on the weather as it is now, and the weather as it has been in the past. It is based on the weather as it is now, and the weather as it has been in the past.

At the present time, the temperature is in the 80's, and the humidity is high. There is a possibility of a shower or two during the week. The wind is from the south, and the clouds are light to moderate. The weather is generally pleasant, but it is a bit hot and sticky. It is a good time to enjoy the outdoors, but it is also a good time to stay indoors and enjoy the air conditioning.

SERGEANT SMITH.

Edith Geitz, left, and Jackie Beers are two of 36 girls who have begun to work in New York Stock Exchange. Until armed forces thinned ranks of employees, Stock Exchange was man's world. Now the girls keep quotation department supplied with up-to-the-minute figures.

Recent bombings of Cologne have aroused fears, among lovers

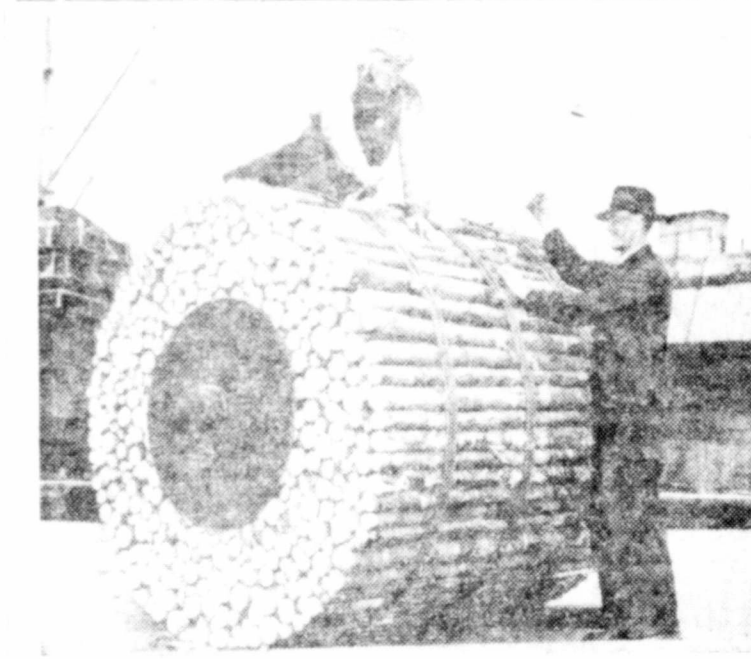

ORCHARD NEAR CISCO SHOWS VALUE SKILL

That a diligent tending and careful cultivation of an orchard will produce a crop of fruit is a well-known fact. It is the skill of the grower that makes the difference between a mediocre crop and a bumper crop. The orchard near Cisco, Texas, is a fine example of this. The trees are well cared for, and the fruit is of high quality.

The orchard is a fine example of the skill of the grower. The trees are well cared for, and the fruit is of high quality. The orchard is a fine example of the skill of the grower. The trees are well cared for, and the fruit is of high quality.

FRENCH BOY WEDS YANK GIRL—French boy, Corporal Pierre Baudet, gunner aboard French cruiser Montcalm, met American girl Lucia Baggiani. So they were wed, at St. Thomas Aquina church, Philadelphia.

FENDERS IN WOOD—Fenders for ships formerly were made of woven wicker imported from Orient. Now they're fashioned, at Seattle-Tacoma shipyards, out of fir poles. Poles are tightly packed together and are held by ropes until heavy steel cables bind them more securely.

MARKET GIRLS—Edith Geitz, left, and Jackie Beers are two of 36 girls who have begun to work in New York Stock Exchange. Until armed forces thinned ranks of employees, Stock Exchange was man's world. Now the girls keep quotation department supplied with up-to-the-minute figures.

each row of trees, but as the trees grew larger, he reduced the number of rows of trees until now he grows nothing on the land except the orchard trees, leaving all the moisture possible for the production of fruit. Already his trees are full of fruit buds to produce blooms for the next year's crop.

THEIR WEDDING CAKE—Simple open-air wedding ceremony on shores of mile-high Arrowhead Lake, Cal., was performed when movie actress Janet Blair was married to Sergt. Louis Busch. Busch was pianist and arranger for orchestra in which Miss Blair was former vocalist for the band.

Our temporary place of business on D avenue was closed Saturday night and we are now moving into our new home across from City Hall.

Watch this space for date of our OPEN HOUSE EVENT, when we hope to greet each and every one of our many good friends.

NOWLIN-SCHWAGER RITES HELD JULY 12.

Miss Lois Nowlin, daughter of Mr. and Mrs. C. G. Nowlin, Ste Marie, Ill., became the bride of Pte. William J. Schwager of Ste Marie, Ill., Monday July 12, in the post chapel at Tullahoma, Tenn. The simple ring ceremony was performed by the post chaplain, Mrs. Yowell J. Shevill, of Odessa, Tex., sister of the bride, who was her attendant and Pte. Joe Julian of Ohio served the groom as best man.

The bride wore a becoming blue crepe suit with white accessories and corsage of white carnations. Mrs. Schwager attended Cisco high school three years. She graduated with the 1941 class of Newton high school, Newton, Ill. She has recently been employed at Summer's clinic as nurse aid.

Mr. Schwager is a son of Mr. and Mrs. Vera Schwager of Ste Marie and is a graduate of Ste Marie high school. The couple will make their home at 461 south Jackson street, Tullahoma, Tenn.

WMC CIRCLE THREE WITH MRS. FARQUHAR

Circle three of First Baptist women's missionary union met in the home of Mrs. C. A. Farquhar, 2200 H. avenue, Tuesday afternoon, Mrs. A. B. Cooper, chairman, presided and the meeting opened with prayer by Mrs. E. L. Jackson. Minutes of previous

meeting were read by Mrs. L. B. Mathews. The Bible lesson was brought by Mrs. O. L. Mason. The meeting closed with prayer by Mrs. Fern Grant.

Refreshments were passed to a visitor, Mrs. Watson Cooper of Fort Ransom. Mrs. A. B. Cooper, Mrs. E. L. Jackson, Mrs. O. L. Mason, Mrs. L. A. Bickett, Mrs. L. B. Mathews and Mrs. Farquhar.

MRS. LEON McPHERSON HOSTESS TO CIRCLE.

Mrs. Leon McPherson was hostess when circle six of First Baptist women's missionary union met Tuesday afternoon in her home, 1300 L. avenue. Mrs. C. P. Cole opened the meeting with prayer and Mrs. F. B. Clamphitt, chairman, presided during the transaction of business.

Mrs. J. C. Irwin, Bible teacher, brought the devotional from Psalm 193, discussed "Putting God First."

During the social hour refreshments were passed to Mrs. D. E. Nix, Mrs. W. W. Fewell, Mrs. C. P. Cole, Mrs. O. D. Touchstone, Mrs. J. C. Irwin, Mrs. F. B. Clamphitt and Mrs. McPherson.

MRS. W. J. ARMSTRONG GROUP HOSTESS.

Group four of First Christian church council met Tuesday afternoon for regular meeting in the home of Mrs. W. J. Armstrong. After the meeting had been opened with prayer, the devotional was brought by Mrs. Alex Ward, in which she discussed the beatitudes as set forth by Jesus. Mrs. C. F. Swartz, chairman, presided during the business period. A covered luncheon was

What You Buy With WAR BONDS

Washing machines and other household appliances are not available today. Manufacturers have converted their plants to war work. If you save today, however, by buying War Bonds, this money saved will start these factories rolling and put millions of Americans to work after the War is won.

Join the payroll savings plan at your office or factory. Save a definite amount every payday, ten percent or more of your pay check. Your pay check today buys a pay check for tomorrow and gets you \$4 back for every \$3 you invest.

Write or go to nearest Navy Recruiting Station or Office of Naval Officer Procurement for copy of new WAVES booklet.

planned for July 29; routine business followed and at the close a social hour was enjoyed.

A sandwich plate with iced tea was passed to Mrs. L. A. Brunenboeker, Mrs. J. W. Culwell, Mrs. W. A. Amell, Mrs. Ray G. Miller, Mrs. W. R. Winston, Miss Marie Winston, Mrs. Alex Ward, Mrs. C. F. Swartz, Mrs. A. J. Sanders, Mrs. Armstrong and the following children: Dena Kay Swartz, Harris Miller, Mary Ellen and Dorothy Ann Sanders.

BIRTHDAY PARTY HONORED MRS. SMITH.

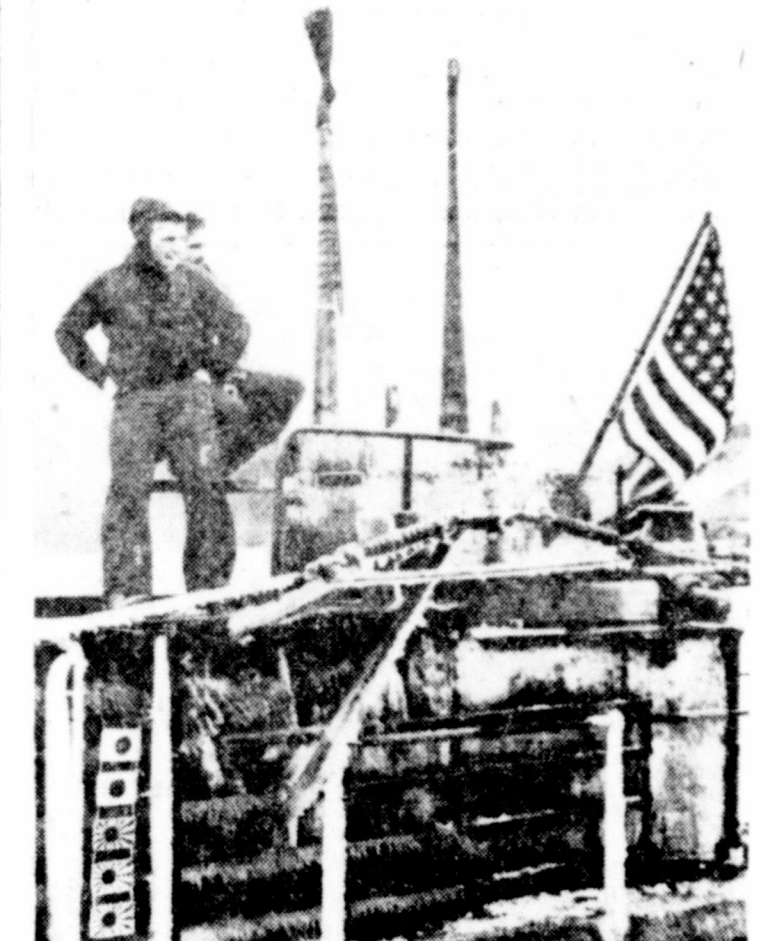

Presbyterian auxiliary circle met in the church Tuesday afternoon with Mrs. J. E. Caffrey, chairman, presiding. The meeting opened with prayer by Mrs. Gary L. Smith and after a short business session the Bible lesson from the Book of Acts was taught by Mrs. Smith.

The meeting closed by all repeating the missionary benediction. Members were then invited to

enter the lower auditorium of the church where other circles of the auxiliary were assembled. Upon entering, Mrs. Smith was greeted as the surprised honoree of the day, which was her birthday. She was not aware that any one in Cisco knew of her natal day except her husband.

The room was artistically decorated with seasonal flowers and centering the lace-covered table was a pretty birthday cake with one candle aglow. Hostesses of the party were Mrs. E. P. Crawford, auxiliary president; Mrs. J. E. Caffrey and Mrs. Homer Slicker.

Refreshments were passed by

BRIEFLY TOLD

Mrs. A. Z. Myrick and daughter and son Miss Jeanette and Franklin spent Tuesday afternoon with her parents in Ranger.

Mrs. Homer Scott has returned to Granbury after a visit with her sister Mrs. M. D. Paschall.

Mrs. Morgan Hall of Stanton visited Misses Myrtle and Letha Estes Tuesday.

Mrs. and Mrs. M. H. French of San Antonio are visiting her mother Mrs. W. I. Cabaness.

Mrs. Kenneth O'neal and sons Eugene and C. W. of Oklahoma City and Mrs. H. D. Lee and son Harold of Abilene are guests at the home of Mrs. Oble's cousins, Rev. and Mrs. J. B. Wright.

Mr. and Mrs. Bennie Kinard and baby of Sugarland are visiting his parents, Mr. and Mrs. N. S. Kinard, in Cisco, and her parents, Mr. and Mrs. Cooper, Basing Star.

Mrs. Hartman McCall and children Nancy and Charles Hartman McCall returned today to Baytown after a visit with her parents, Mr. and Mrs. S. H. Nance and Mr. McCall's parents, Mr. and Mrs. Bill McCall.

Miss Dorothy Grant is spending the week in Brownwood with relatives.

Pvt. and Mrs. M. C. Iyle of San Antonio are visiting their parents, Rev. and Mrs. W. R. Iyle and Mrs. Ruby Lassater.

Mr. and Mrs. C. J. Ballington of Wilcox, Okla. spent the past weekend in the home of their aunt, Mrs. A. D. Estes, who accompanied them on their return home. Mrs. Estes will spend a few weeks there with her sister and other relatives.

Miss Grace Stacey of Fort Sill, Okla. was a guest of friends in Cisco last weekend.

Mr. and Mrs. H. B. Fullerton of Abilene visited in the home of her mother, Mrs. M. H. McCasles, Sunday.

Mrs. Thomas B. Smartt left Tuesday for San Diego, Calif., after a visit in the home of her parents, Dr. and Mrs. F. E. Clark.

E. J. Kinard has returned to his home in Odessa after a visit with his parents, Mr. and Mrs. N. S. Kinard.

Mrs. R. C. Ferguson and daughter Miss Virginia of Eastland visited in Cisco Wednesday.

R. M. Freeman arrived last night from Los Angeles, Calif., for a two-weeks' visit with his family. He is a signpainter employe.

Mrs. Ford Taylor returned to Ballinger today after spending the past ten days with her parents, Mr. and Mrs. S. H. Nance.

Mrs. Joe H. Johnson was called to Gilmer by the illness of her sister.

Miss Octavia Jones leaves today for a visit with friends in Danville, Ill. She will be absent about one week.

Mrs. W. H. Hayes of Fort Worth will return home tomorrow after spending the week with Mrs. Bob Key.

F. B. Altman and sister, Miss Edith Altman and Mrs. Myrtle Anderson, returned Tuesday night from Dallas where they spent several days purchasing new merchandise for Altman's Style Shop. They were accompanied on the trip by Mr. and Mrs. Mason Altman of Abilene.

MEMBER OF MARINES.
Laxon Huddleston, recent Eastland county draftee and son of Mr. and Mrs. Glenn Huddleston, has successfully passed examination and is now a member of the Marine corps. The young man is 18 years of age and was expected to depart from Abilene this afternoon for an unannounced destination to start training.

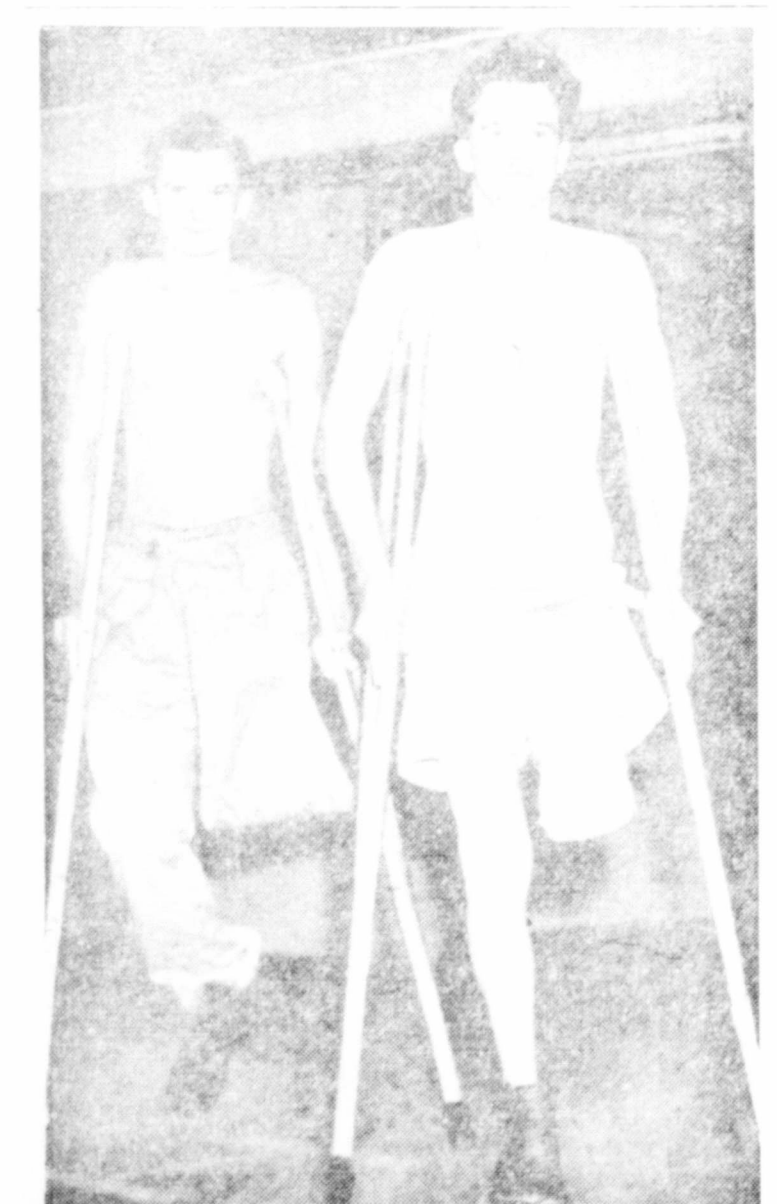

Believe it or not, your little sister is in the Motor Corps. Don't laugh, it's really true! I've found out a lot of things about engines, too. Even if you are driving one of those monster tanks of cars and slower driving here on especially acid forming in the cylinders - You know me for reading ads... that's how I found an answer for that trouble. It's Luoco Nth oil that told the girls the other day that my car was the sweetest-running of the lot. He said you (over)

You can help SAVE FOOD

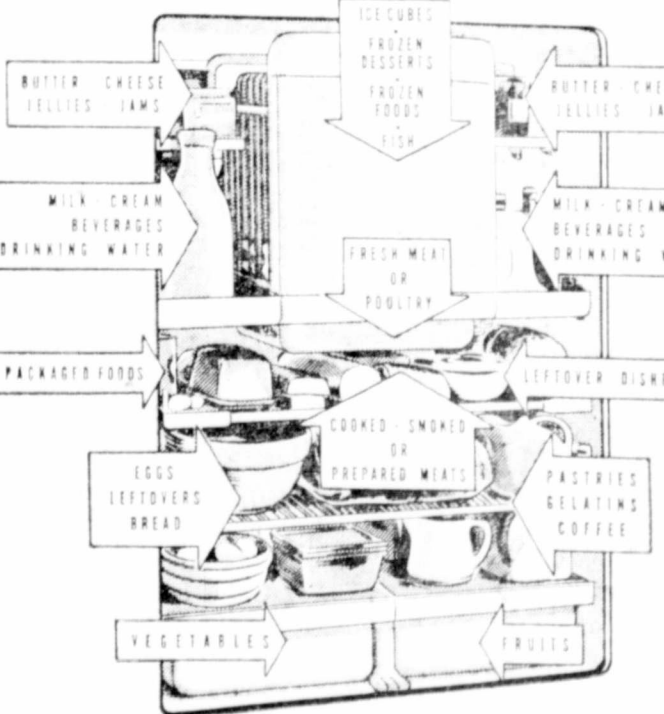

The more food that goes into our garbage cans, the more shortage there will be in our own country, and the less we can send to our allies. You can save food through careful planning and buying, proper cooking, well-balanced servings and proper storage.

Your gas refrigerator provides a steady, constant cold. There's no starting and stopping. It operates continuously without moving parts. It is a sure, easy way to protect foods. Use it to best advantage.

LET YOUR GAS REFRIGERATOR HELP YOU SAVE FOOD

- KEEP PERISHABLES COLD**
Vitamins and other nutritive elements in most food are lost when not protected from air and warmth. By storing foods in your Gas Refrigerator between the time they're bought and prepared for serving, you are sure to retain their full healthful value.
- STORE FOODS CAREFULLY**
To avoid waste, keep meats in your Gas Refrigerator with wax paper, or lightly covered with wax paper. Wash and remove wilted leaves of green vegetables before placing in vegetable fresheners. Bring warm foods to room temperature before storing.
- SAVE VEGETABLE JUICES**
The juices left after cooking carrots, spinach, celery, onions, etc., are rich in health-building minerals and vitamins. Save this liquid by straining and keeping safe and cool in your Gas Refrigerator. Serve as a vegetable cocktail, or used for creamed soups, sauces or gravies.
- USE LEFTOVERS FOR NEW DISHES.** Don't throw away food left over from meals. Transfer it to clean, covered containers and store in your Gas Refrigerator, until you're ready to use. There are many tasty dishes you can prepare from leftovers—for example, meat loaf, casseroles, sandwich fillings, jelled salads.

STORE FOOD PROPERLY
Cut out this chart and post in kitchen for easy reference

CAR OWNERS... DO YOU WANT A GOOD YEAR TIRE?

HERE'S WHAT TO DO ABOUT IT...

FIRST You must have your tires recapped — if they are in recappable condition. Be sure to get **GOODYEAR EXTRA-MILEAGE RECAPPING**. Don't wait too long. No ration certificate is needed.

GRADE I or GRADE III DRIVERS You are now entitled to Grade I or Grade III tires. When you get your Ration Board Certificate, bring it here to get the most value for it. We may have your size in a **GRADE I GOODYEAR TIRE**. That means that you get new Goodyears — first in quality, first in preference. Quantity is limited — but we may still be able to fit you. Come see!

BOOK HOLDERS Your best bet right now is to get our expert advice and service to keep your present tires running as long as possible. If a tire is "shot," see us for a dependable **CERTIFIED USED TIRE** or **DEPENDABLE RECAPPED TIRE**. Do it today — whatever your tire problem.

SYNTHETIC TIRES? Some synthetic tires are now being released, but most car owners will have to wait for many months before they can get them. When you get them, you'll have the finest synthetic tires — **GOODYEARS**, of course!

LOW COST... HIGH VALUE

NUMBER 227

ENNA BASE FALLS TO YANKS AND CANUCKS

PULLEY HAS SERVED NAVY LONG PERIOD

N. L. Pulley, 43, who was born and grew up in Cisco, has served 12 years in the U. S. navy. He is son of W. P. Pulley and now makes his home in Los Angeles while on his duties as recruiting officer for the construction division of the navy.

A Los Angeles newspaper had the following nice things to say about the former Ciscoan recently: "Veteran of two world wars, shipfitter N. L. Pulley is making his home in this city, more than a quarter of a century ago, as indicated by the gold watch on his sleeve, and is entitled to wear four combat ribbons on his chest. He still wears what some folks would call a 'big' that he was hospitalized for one of our big carriers. He started on her last year. He believes his lucky stars have seen him through the recruiting for the navy. He finds time to perform his duties as junior commander of the county Council of the Veterans' Foreign Wars."

AFTER-WAR PROBLEMS DISCUSSED

Lion L. W. Seymour presented a program of the Lions luncheon today that was unique yet practical, in that he listed a series of questions having to do with the peace table discussions that must come when war has ended. The questions were distributed to the various Lions, who write their answers.

Among those questions were the disposition of the people of Germany, Italy and Japan. Other questions had to do with the disposition of the islands of the Pacific, and the length of time estimated necessary to rebuilding the three countries.

A tabulating of the answers showed a range of from one to six months for Italy, from six months to two years for rebuilding Germany and from two years to never as the time required to defeat Japan.

All the answers, which of course were merely the opinion of the writers, showed that members had read discussions of the peace to come, and that the individuals had given thought to the subject on their own accounts.

As to what should be done with the people and governments of the three countries, brought varied answers, but all admitted that calm justice should temper emotions in the matter; for, after all, only a few years ago, the world was in the throes of a war that would not in line with justice, would only simmer to boil again in one or two decades down the line.

The program was an interesting and timely one and will probably be continued at some later time.

Harry DeLane, a Lions' former home, a Bessentree, but now Fort Worth was a guest, as was C. S. Ramsey, of Denver City, who is vacationing at cottage 9, Lake Casa. Ramsey said he expected to come back to Cisco next year and continue his fishing, which so far had yielded two fish for two fishing trips.

Molly Pitcher Steps from Pages of History

WASHINGTON, D. C., July 21. On August 4th, Molly Pitcher steps out on the pages of American history to serve as leading lady in a nation-wide Bond and Stamp Tag Day.

The girl who carried water to thirsty soldiers during the blistering Revolutionary battle of Monmouth (New Jersey), and took over her husband's cannon when he was wounded, has long been a symbol of the heroism of American women.

In her honor, brigades of modern Molly Pitchers will take their stands on Molly Pitcher Tag Day, at street corners, building entrances, and in public places to sell the Bonds and Stamps that back up our fighting men. To accommodate shoppers in rural areas, Saturday, August 7, will be the day.

To turn back the history pages, "Molly" was born Mary Ludwig, on a farm near Trenton, New Jersey, in 1754. She was married to John Hays about the time of the Revolution, and moved to Carlisle, Pa.

In Revolutionary days it was not unusual for wives to accompany their soldier husbands to battle. They washed, mended, cooked, and cared for the wounded. So Molly went to war with John.

During the Battle at Monmouth Court House, she carried water to the men, all day and into the night. The men calling "Molly! Pitcher!" gave her the name by which she is known to history.

On one of her trips from the well, Molly saw her husband fall at his cannon. She promptly took his place, and fired shot after shot until the battle was won.

For her heroism Molly Pitcher was made the first woman Sergeant in the Army by General Washington. In words of an old Revolutionary rhyme:

"Molly Pitcher she stood by her gun
And rammed the charges home,
And thus on Monmouth's bloody field
A sergeant did become, sir."
That's the spirit behind the red-white-and-blue Molly Pitcher tags you will be asked to wear on August 4—behind the water pitchers waiting to receive the proceeds of purchases of Bonds and Stamps.

EXTENSION OF HIGHWAY 206

Directors of the chamber of commerce were occupied mostly at their meeting last night with discussion of the report of Wm. Reagan and George Boyd, who had returned from a visit with Leo Ehlinger, state highway engineer at Brownwood, who said he favored the proposal of a straight-line highway from Cross Plains to Cisco, connecting with highway 206, which feeds from Coleman and the San Angelo country.

These gentlemen, having been designated by the chamber of commerce to make the survey, with Mr. Ehlinger, reported that Ehlinger would make the survey as soon as the state highway department instructed him to do so.

J. E. Spencer, former secretary of the Cisco chamber of commerce and well versed in highway matters, has agreed to assist in the work of preparing a brief to present to the highway commission, which meets at Austin on July 30-31.

He will be accompanied by representatives from Cisco, Cross Plains and Coleman, and it is expected, by representatives from Eastland and Ranger.

This proposed route from the southwest, and locally from Cross Plains to Highway No. 80, will not only greatly shorten the present routes to Fort Worth and Dallas markets, but will relieve the already greatly congested traffic on other routes. Discontinuance of the railroad branch from DeLeon to Cross Plains produces another vital reason for the proposed highway.

The further fact that all this section of country from Cisco and the southwest is now intensifying its program of producing cattle, hogs, sheep and wool—which must be shipped on the shortest route possible—makes the proposed road all the more important.

These shipments, which are going on constantly, day and night, very naturally add to the congestion of present routes, not only making it dangerous for traffic but tending to slow these cargoes that depend upon fast travel for reaching their destinations in the best possible condition.

ALLIES NOW OCCUPY HALF OF 10,000 SQUARE MILE ISLAND; MANY GERMAN TROOPS CUT OFF

NORTH AFRICA, July 21.—American and Canadian forces driving up within 26 miles of the north Sicilian coast captured the main Axis communications center of Enna today while the British 8th Army pressed a hammer and tongs battle for the east coast port of Catania.

Troops of the United States 7th army, under Lt. Gen. George S. Patton, Jr., and Canadian forces advancing in unison stormed through the enemy center before Enna and fought their way into the town.

The Allied forces now occupy one-half of the 10,000-square mile island of Sicily and a considerable number of Axis troops, including Germans, were believed cut off in the western part of the island, especially along the American 7th Army front.

The fall of Enna, a town of 27,000 on a high horseshoe-shaped hill in mid-Sicily, cut off German and Italian rear guard troops and gave the Allies control of a network of roads leading to all corners of the island. French Goumiers, native Moroccan troops, participated in the Allied advance.

The Canadians closed in on Enna from the southeast, breaking through stubborn enemy resistance, while the American 7th Army reached the road junction from the southwest, after flanking operations that carried some units farther northward toward the coast.

The effect of the capture of Enna was to split Sicily in half, with the Allies controlling all territory south of a line running from Catania on the east coast to Enna and then southwestward to a point beyond Agrigento, where the Americans were still advancing. Enna represented an advance of about 35 air line miles from the nearest south coast port at Gela, but the troops covered many more miles in their offensive over mountain roads.

Of greatest importance, however, was the seizure of the road network centering at Enna. The Axis, with mid-island defenses crumbling, was being driven steadily back toward northeast Sicily and its main communication lines are vanishing except on the north coast.

The rearguard action fought by the enemy in the Enna sector as well as the fierce battle at Catania were regarded as designed to gain time while the main Axis forces fall back toward Messina, only a few miles from the toe of the Italian boot.

At Catania, however, enemy resistance continued strong against the 8th army of Gen. Montgomery. Field dispatches said the battlefields south of Catania were strewn with German dead and wrecked tanks of the Hermann Goering Division, while Allied warships and airplanes hammered at the coastal road leading northward to Messina.

Prisoners taken in Sicily were estimated to total around 40,000, more than half of them taken by the Americans. As usual, Italian prisoners complained that the Germans took their transports and fled, leaving the Italians to walk. They also complained that the Italian government had given them little equipment with which to fight.

Allied airplanes battered the enemy rear lines throughout Sicily yesterday as the Americans, Canadians and Goumiers hacked their way over rough mountain terrain to Enna.

Raddusa, midway between Enna and Catania, was hard hit by Mitchell bombers which started big fires and caused explosions. The Allied planes encountered no Axis fighter opposition.

Allied bombers also hammered Vibo Valentia and other air fields in southern Italy, while heavy bombers struck at rear bases as far north as the Naples area.

(Radio Cairo said the fall of Catania was imminent. A London broadcast reported that Allied warships were shelling the coastal road from Catania to Messina, 58 miles to the north).

DOCTOR SAYS POLIO CAN BE AVOIDED

DR. KENRIDGE, July 21.—A boy in Ft. Worth has been one of a few cases of infantile paralysis in West Texas today brought forth another warning from local health officials. The case of the dread disease has been reported here.

Dr. Kenridge said that if a child from Ft. Worth and other places where the disease has appeared will quit coming here, and avoid children's gatherings, and their homes clear of toys, and use nose towels, and get a little cold, they would be none in Breckinridge.

Dr. J. Cloud, 14, son of Mr. and Mrs. Henry Cloud of Rule, Tex., Monday in a Ft. Worth hospital of the disease, the attack being in his throat.

Necessary trips have been made against by doctors of the places, among warnings given.

Who can win without solving the puzzle, tax or food problems, but they may double the cost in some places.

ARIZONA MD. HERE TO FISH AND VISIT

"Cisco is certainly a swell town and I am going to try some of this good fishing in your fine lakes," said Dr. C. D. Davis of Bisbee, Ariz., who is visiting his mother, Mrs. D. C. Davis, 1003 W. Tenth street.

Dr. Davis is a practicing physician and a pharmacist in a drug store in his home town. He is accompanied by his wife and four children. They expect to remain about two weeks.

His mother came to Cisco about one year ago to live because she was told it would benefit her health. She has found Cisco to be all she could hope for, she says.

UNCLE SAM MAINTAINS PROPERTY

Your Uncle Sam, who completed an unusually good looking as well as serviceable postoffice building in Cisco in November, 1933, has the reputation of keeping his properties in good physical condition; which, of course, is good business from the taxpayer's standpoint.

To this end the Cisco postoffice for the past two weeks has been undergoing a general refurbishing and overhauling. This work includes a coat of paint throughout, including the handsome lobby and all metal work, both in and out. Basement walls and concrete work on the attractive grounds where masonry had settled or cracked is being replaced. The contractor is George Groney of Decatur, Ill., who is being assisted by L. J. Litchfield, also from Decatur.

Twenty-three employes work in and out of the Cisco federal building and the modern, well-appointed structure has housed two postmasters since it opened for business—W. H. Craddock until February, 1935, and Luther H. McCrea from that date until the present time.

The building was erected at a cost of about \$80,000, plus cost of equipment and cost of grounds.

Measure of merit: "He can't be a great man; I haven't heard a single dirty story about him."

RANGER BOMBER PILOT IS LONG OVERDUE

RANGER, July 21.—Mr. and Mrs. S. O. Montgomery have been notified that their son, Lt. Garland Montgomery, pilot of a bomber, is missing somewhere between United States and Europe with the date of disappearance being given as June 21.

It is understood that Montgomery was flying in a bomber with a flight of ten ships enroute from the United States to some area of action in the European theatre. No other details were given and the parents are awaiting more information from the government. The last letter from the missing officer to his parents was postmarked June 22.

Lt. Montgomery is a graduate of the Ranger schools and of Texas Christian University, Fort Worth.

ILLINOIS OIL DISCOVERY IS NEAR NEW HIGH

CENTRALIA, Ill., July 21.—Equaling any record set during the oil boom of 1937, 1938 and 1939, Southern Illinois wildcaters have discovered eight new pools and new producing horizons in established fields during the past three weeks.

Listing the wildcat producers completed during July, the Midwest Oil Journal said that "discoveries in the state never were more numerous or frequent." Edwards county led in new production with three pool opening wells.

JAPS LOSE 3 WARSHIPS AND THEN FLEE

SOUTHWEST PACIFIC, July 21.—U. S. bombers sank three and probably four warships yesterday to smash the largest-scale Japanese attempt yet to reinforce their base at Vila in the Central Solomons, a communique announced today.

One light cruiser and two and probably three destroyers were blasted to the bottom and another destroyer and a transport were damaged. The surviving vessels of the 11-ship convoy fled northward out of the range of American bombers.

OFFICER KILLED

SAN ANGELO, July 21.—Second Lt. Thomas Lawrence Henry, 32, assistant provost marshal at San Angelo Army Air Field, and Adolph Mikeska, 23, alleged army deserter, were dead today as the result of a gun fight at Eola, small Concho county town 26 miles east of here. The killings took place when Lt. Henry went to Eola to arrest Mikeska.

GUADALCANAL, JULY 21

The following Texans are survivors of the cruiser USS Helena who were rescued from a Japanese-held island after the ship was sunk: S. E. Shipman, McKinney; J. C. Layton, Roston; J. D. Trindler, San Antonio; R. E. Traynham, Pleasanton; Archie J. Gawlik, Orange Grove; T. A. Gowan, Jr., Corsicana, and James Wright, Austin.

CATHOLICS EXERT PRESSURE ON THE AXIS

WASHINGTON, July 21.—Government officials listened silently today while Catholic pressure in this country increased for having Rome declared an open city and thus spared future bombardments.

Should Mussolini submit to that pressure, which is expected to spread among Catholics the world over, Allied officials would consider it a major military and diplomatic victory against the Axis.

Most sources here recognize that the Allies did not want to bomb Rome—or any other city—where civilians' lives would be in jeopardy. But modern war brings important military objectives into the immediate vicinity of civilian dwellings.

In the case of Rome it has been no secret for some time that it is Italy's transportation hub, and that Hitler and Mussolini have been taking advantage of the Allies' desires to avoid bombing it.

MEDAL OF HONOR—Sergt. Maynard H. Smith, of Caro, Mich., was awarded the Medal of Honor for heroic action in an air mission over France. Saving his crewmates, he safely brought his flying fortress to his home port.

ONE-ARMED

Despite handicap of only one arm, Pete Gray, center fielder for Memphis Chickies, is better baseball player than many persons with two arms. He has only three errors this year.

REVENGER

When police arrested Robert Vanatta, 18 self-styled "revenge kid," in Mount Vernon, Ill., they found list of persons he meant to kill. He is charged with slaying Norma Bradford, 20, he mistook for stepmother.

MEMBER OF MARINES.
Layton Huddleston, recent Eastland county draftee and son of Mr. and Mrs. Glenn Huddleston, has successfully passed examination to depart from Annapolis this afternoon for an unannounced destination to start training.

POULTRY RAISERS use SULPHO in drinking water or feed. Flocks in hot weather are in better health, have fewer germs, worms; repels bloodsucking lice, mites, bluebugs. Try a \$1 bottle for only 69 cents. Moore Drug Store.

NO GULPING, GENERAL—E. J. Knard, shipyard employe, is seen here eating a meal. He is a shipyard employe.

PRACTICALLY TORRID—Mrs. Benjamin Warner of San Francisco reads V-letter from sergeant husband, telling how he made it hot for Axis in Sicily on sixth wedding anniversary. He shot down six Axis planes and then added a seventh.

FOR FREEDOM—Next time you complain about war inconveniences on the home front, consider Corporal Alex Wach, 23, left, of Elyria, Ohio, and Corporal Fred W. Marshall, 25, of Penguilly, Minn. They were wounded in North Africa and are shown on ship returning to U. S.

You can help SAVE FOOD

The more food that goes into our garbage cans, the more shortage there will be in our own country, and the less we can send to our allies. You can save food through careful planning and buying, proper cooking, well-balanced servings and proper storage.

Your gas refrigerator provides a steady, constant cool. There's no starting and stopping. It operates continuously without moving parts. It is a sure, easy way to protect foods. Use it to best advantage.

LET YOUR GAS REFRIGERATOR HELP YOU SAVE FOOD

- KEEP PERISHABLES COLD**
Fats and other nutritive elements in most food are lost when not protected from air and warmth. By storing foods in your Gas Refrigerator between the time they're bought and prepared for serving, you are sure to retain their full beneficial value.
- STORE FOODS CAREFULLY**
To avoid waste, keep foods in your Gas Refrigerator either uncovered or lightly covered with wax paper. Wash and remove wilted leaves of green vegetables before placing in vegetable fresheners. Bring warm foods to room temperature before storing.
- SAVE VEGETABLE JUICES**
The juices left after cooking carrots, spinach, celery, onions, etc., are rich in health-building minerals and vitamins. Save this liquid by straining and keeping safe and cool in your Gas Refrigerator. Serve as a vegetable cocktail, or used for creamed soups, sauces or gravies.
- USE LEFTOVERS FOR NEW DISHES**
Don't throw away food left over from meals. Transfer it to clean, covered containers and store in your Gas Refrigerator until you're ready to cook. There are many tasty dishes—beef and vegetable soup, meat loaf, casseroles, sandwich fillings, jellied salads.

STORE FOOD PROPERLY
Cut out this chart and post in kitchen for easy reference

LONE STAR GAS COMPANY

Believe it or not, your little sister is in the Motor Corps. Don't laugh, I really am! I've found out a lot of things about engines, too. Even if you are driving one of those monster tanks, I'll bet you don't know that less use of cars and slower driving here on especially acid fuming in the cylinders — that's how I found for reading ads... that trouble. It's Conoco Nite oil that told this girl's the other day that my car was the sweetest-running of the lot. He said you (over)

CAR OWNERS... DO YOU WANT A GOOD YEAR TIRE?

HERE'S WHAT TO DO ABOUT IT...

FIRST You must have your tires recapped if they are in recappable condition. Be sure to get GOODYEAR EXTRA-MILEAGE RECAPPING. Don't wait too long. No ration certificate is needed.

GRADE I AND C RATION DRIVERS You are now entitled to Grade I or Grade III tires. When you get your Ration Board Certificate, bring it here to get the most value for it. We may have your size in a GRADE I GOODYEAR TIRE. That means that you get new Goodyears — first in quality, first in preference. Quantity is limited — but we may still be able to fit you. Come see!

A GOOD HOLDER Your best bet right now is to get our expert advice and service to keep your present tires running as long as possible. If a tire is "shot," see us for a dependable CERTIFIED USED TIRE or DEPENDABLE RECAPPED TIRE. Do it today — whatever your tire problem.

SYNTHETIC TIRES? Some synthetic tires are now being released, but most car owners will have to wait for many months before they can get them. When you get them, you'll have the finest synthetic tires — GOODYEARS, of course!

LOW COST... HIGH VALUE
