## HITLER MAY GO THE WAY OF MUSSOLINI

### M. A. COOPER BURIED TODAY IN OAKWOOD

M. A. Cooper, 42, died Monday afternoon at his home, 403 E. Trenton street. Deceased came here from Altus, Okla., about four months ago. He had been ill for the past five years.

The funeral was held at the Methodist church at 4 o'clock this afternoon, with burial in Oakwood cemetery. Rev. Sam Kirkpatrick of Cisco and Rev. C. Y. Butler of Risina Star conducted the funeral ceremonies. Thomas funeral home was in charge of the remains.

Deceased was a native of Erath county and is survived by two daughters, his father, seven brothers and one sister. The father and daughters live in California and two of the brothers—C. C. and Johnny Cooper—are residents of Cisco.

Burial services were as follows: B. H. and Travis Lassiter, J. D. Russell, C. E. Ehrhard, W. T. Whaley and W. D. Hunt.

### US. ARMY CLOSES CAFES

W. D. Brecheen spent Monday in Fort Worth, where he sold eight packer sows to the Shirley Livestock Commission company. The animals weighed 2,000 pounds and the Cisco's check was for \$365.85 — \$12.75 per hundred weight.

Mr. Brecheen was greatly impressed by "the absence of things" in Fort Worth. It was almost impossible to get a square meal at the restaurants he sought, and when he did get served, it was always after a long, tiresome wait.

Many restaurants have been closed the Cisco man stated, the doors and windows bearing notices such as this:

"Closed because of sanitary conditions. By Order of the Army."

As an indication of Fort Worth prices, a Weatherford man in the Brecheen party paid 50 cents for a very ordinary, hastily constructed ham sandwich.

### 40 HEREFORDS BRING TOTAL OF \$35,000

One of the largest private cattle sales consummated in Shackelford county is announced by F. W. Alexander who has closed a deal by sale of 40 selected animals from his Diamond Ranch near Herefords four miles north of Albany. Buyer was Charles Pettit of Dallas who bought the stock for his Flat Top Ranch in Borden county.

Included in the sale were 20 carefully selected cows, all with calves at side, and the 40 animals were sold for \$35,000 cash. All the animals were Diamond ranch bred and represented top grade from the herd, Alexander reported.

Reason for selling some of the best animals from his herd, Mr. Alexander said, was the fact they were going to one of the state's best ranches where they would give good production and result in advertising for both the Diamond Ranch and Shackelford county.

Pettit purchased 20 cows from the Diamond ranch three years ago and all have proved good investments, he said, which induced him to return to the same ranch for more Herefords.

Pettit's Flat Top Ranch at Walnut Springs covers 18,000 acres of pasture land and he has a herd of 1,000 pure-bred Herefords on the place.

### SWIM AND DIVING EXPERT HERE SUNDAY

Charles Chigmadia, H company, armored regiment, Camp Bowie, was a visitor at Lake Cisco yesterday and gave an exhibition on professional swimming and diving that thrilled those who chanced to be present at the time.

The Camp Bowie soldier, an Adirondack (N. Y.) A. A. U. title holder of swimming and diving records for 1941-42 and was connected with the Y. M. C. A. at New Brunswick, N. J., before he joined the colors.

Chigmadia, who complimented the Cisco pool as one of the largest and nicest in the country, will be here again next Sunday for a swimming and diving program if he can secure leave from camp, said Manager Monroe Sweeney.

BIG BLOW—Huffing and puffing aboard convoy ship returning to U. S., enlisted men check lifebelts for possible leaks. They're hoping not to put them to practical use this trip, against lurking Nazi U-boat.

### POLITICS FIRST IN CAPITAL

FT. WORTH, July 27.—Senator O'Daniel settled down for a rest Monday at his Aledo ranch, convinced that the "professional politicians" in Washington have put the war in second place to the 1944 campaign.

The Texas junior senator reached his ranch Saturday afternoon after what he described as a "hitchhike" ride with a friend from Washington. He will return to the capital on Sept. 14.

Outfitted for summer in white pants, white shirt and cowboy boots, O'Daniel sat on the veranda and reached these conclusions:

Politics is first in the hearts of the Washington politicians; winning the war is second.

The Henry Wallace-Jesse Jones quarrel was a political move disguised as part of the war effort and the Roosevelt Administration accomplished one thing from it: It eliminated Wallace from the 1944 political picture.

Congress will pass additional taxes as soon as it reconvenes. The OPA is deliberately inefficient—trying to socialize America. The senator thinks it should be abolished.

PILOT IN PILOT'S SEAT—One of Britain's political pilots, dapper Foreign Minister Anthony Eden, sits in pilot's seat for this picture, somewhere in England. He was making routine call and inspection of U. S. Army Air Forces.

### RUSSIAN WEB AT OREL IS TIGHTENING

MOSCOW, July 27.—The Red Army has immobilized the last German main supply and reinforcement road to Orel, Nazi

south-central front bastion, and breached Axis defenses 16 miles south of the city, front dispatches said today.

Secondary lines of communication with Orel still remain in German hands, but are not believed capable of handling the supplies required by the 250,000 Germans defending the Orel pocket.

Our trouble is not lack of a foreign policy, but a different policy by every bureau dealing with foreigners.

### ROOSEVELT ON AIR 8:30 TOMORROW NIGHT

WASHINGTON, July 27.—President Roosevelt is preparing a momentous declaration which authoritative sources in Washington said will disclose American agreement with Great Britain in demanding the unconditional surrender of Italy.

The white house announced that the president will make the declaration in an address Wednesday night over all major networks.

Secretary Stephen T. Early said the president will go on the air at 8:30 p. m. CWT and will speak for half an hour. "The speech will explain itself," was Early's only comment.

### PATRIOTIC NAZI OFFICERS WHO HATE FUEHRER, WANT BEST POSSIBLE TERMS FOR HOMELAND

(Scripps-Howard Foreign Editor.)

WASHINGTON, July 27.—Circumstantial reports indicate that, after Mussolini, the days of Adolf Hitler may also be numbered.

Details of a plan to overthrow the Nazi Fuehrer and set up a new government, especially designed to make peace with the Allies, have already reached an advanced stage, according to a usually reliable source known to be in close touch with the European underground.

The head of the new regime, according to my informant, would be a certain internationally known and admired figure whom he named. When last heard of this man was in a German concentration camp. To publish his name now might subject him to torture or even endanger his life, so it is omitted.

The No. 2 man would be Dr. Hjalmar Schacht, former financial dictator of the Reich, now reported to be living in a sort of exile at Lienz, in the Italian Tyrol.

The third strong man would be Field Marshal General Walther von Brauchitsch, commander of the Reichwehr at the beginning of the war and grand master of the blitzkrieg. He is now reported in Hitler's bad graces.

This, I was told, does not mean that Germany is about to crack up. On the contrary, it is said, German leaders are convinced that Hitler's ouster is necessary to save Germany. That is why they want to take the war out of the hands of a crystal-gazing ex-paperhanger and turn it over to trained soldiers. Only in that way can they hope to hold out against the Allies long enough to obtain something better than unconditional surrender.

The timing of the coup it is said, depends on the breaks—on European developments as a whole no less than on developments within Germany itself. That is why Mussolini's downfall is so important. It goes a long way toward bringing things to a head.

An Austrian general and former member of the Austrian General Staff told me several months ago that the German Army would take over when the right time came. When I asked what he meant by "the right time," he replied substantially as follows:

"German officers who despise Hitler are nevertheless just as loyal to the Fatherland as Hitler is—or even more so. For while his first thought is for the Nazi Party and personal glory, theirs is for their country. That has been their training. If they can help it, they will do nothing which might plunge the country into civil war and expose it to certain defeat. Which is what a premature coup might do.

"So the officers will not force matters. If given enough rope, the Fuehrer will hang himself. His guesswork war planning has already brought colossal defeats. Sooner or later he will become so unpopular that the people will welcome his ouster. That will be the time to act."

Much, of course, depends on the attitude of Russia. But Russia, many believe, is ready to play ball with any "democratic" regime which will oust the Nazis and evacuate Russian territory and Russian spheres of interest—the Baltic states, eastern Poland, Czechoslovakia, Bessarabia, Moldavia and the Balkans.

In any event, the manifesto put out by the "Free Germany" Committee in Russia last week is widely interpreted as having such a meaning. If the Germans will oust Hitler and his gang, said the manifesto, they can set up a government pretty much of their own choosing, with private property rights, a free economy, freedom of religion, freedom of speech and press and all the rest.

The committee, composed of German war prisoners, was set up by Russian consent. Its manifesto was spread over the front page of every important Soviet newspaper.

Perhaps the German conspirators are fully aware of what they are doing. For if a new German regime is set up, and Russia makes peace with it, there does not seem to be much the other Allies could do but follow suit.

### VATICAN WILL ASK FOR ARMISTICE, SAID

LONDON, July 27.—A move by the Italians to gain an armistice with the Allies and take Italy out of the war was reported already under way today after the Fascist dictatorship was snuffed out with the downfall of Benito Mussolini.

Negotiations for an armistice were begun Monday night at the Vatican, according to the Bern, Switzerland, correspondent of the Stockholm newspaper Svenska Dagbladet.

Stockholm dispatches said that army officers who reportedly captured Mussolini while he was trying to escape into Germany intend to hand over the former premier as soon as peace is concluded.

### 30 INDICTED UNDER ANTI-STRIKE LAW

PITTSBURG, July 27.—In the first action under the newly-enacted Connally anti-strike law a federal grand jury has indicted 30 persons on charges of conspiracy and fomenting strikes in connection with recent unauthorized work stoppages in Southwestern Pennsylvania coal fields.

The indictments followed nearly two weeks of investigation by the grand jury, called July 14 while more than 12,000 miners were idle and after steel production had dropped because of a lack of coal to fire blast furnaces.

Of the 30 persons indicted, five were presidents of local unions of the United Mine Workers, one a local ex-president, one a local vice president, one a checkweighman, 10 local committeemen and one local recording secretary. Others were members.

### CORINTH REVIVAL TO OPEN WEDNESDAY EVE

Extensive preparations have been made for the opening of a revival at Corinth Baptist church, between Cisco and Eastland, Wednesday night. It is planned for the meeting to continue through next week.

Rev. Elbert Galloway, pastor, will be assisted in the preaching by Rev. Cooper Waters of Cisco. Rev. H. D. Blair of the Corinth community will direct the singing.

Corinth church was established in 1883, or about 60 years ago, and has been active in the religious life of Eastland county from that time until today. Many outstanding ministers have pastored this church since its birth and they have always been backed up by a small but stable, courageous membership.

### ICE SHORTAGE

FT. WORTH, July 27.—Long strings of cars formed at ice docks over the city today as householders tried to "get there first" for ice, critically short after a week-end that saw one plant temporarily close doors for the first time in 21 years. Customers were lined up for two blocks at Crystal Ice Co. docks, where buyers were being rationed to 25 pounds apiece.

Red Cross. The soldier, Pvt. William D. Potts, returned Sunday to Camp Polk, La., after spending a two-week emergency furlough vainly trying to find living quarters for his family.

LONDON, July 27.—Marshal Badoglio, premier of Italy, is expected to declare Rome an open city to prevent further aerial bombardment, the Algiers radio said today, according to Reuters.

WASHINGTON, July 27.—Eleven more air attacks against Japanese positions on Kiska in the Aleutians, and an assault by long-range bombers against enemy-held Wake Island in the mid-Pacific were reported today by the navy.

POSTAGE STAMPS

The post office department has sent out a recommendation from Washington that people buy postage stamps in booklets. These booklets contain 24 two-cent stamps and 24 one-cent stamps. The other penny pairs for the little book (one) which keeps the stamps smooth and safe in wallet or handbag. This is a very good idea. Many people have been buying one or two stamps at a time. It takes as much time and trouble for a postoffice clerk to sell one three-cent stamp, or three ones for picture post cards, as it does to sell the book. And once the buyer has the book, he's fixed for several days, perhaps for several weeks, if he writes only a few letters a month and pays a few bills by mail. So the postoffice people are all encouraging the sale of these little books. With two and ones, combinations can be made for three-cent letters, or four-cent

REPUBLICAN CHARGE.

WASHINGTON, July 27.—Vice President Wallace's indictment of "isolationists" and "American Fascists" provoked a Republican charge Monday that he was attempting to "take the public mind

off the embarrassing messes of the administration" on the home front. If you can't manage husband by flattery there is no use trying anything else. Flattery is the food he wants. Daughters will be better off if she will quit running with chum, and in all probability the chum will improve. More Milk Needed to Reach 1943 Goal

In the first half of 1943 milk production totaled about the same as the first half of 1942. To meet the 1943 goal of 122 billion lbs. of milk, production in the last half of the year must be increased by 3 billion lbs.

WITH dairy farmers following the 8-point milk production program sponsored by the War Food Administration and the Dairy Industry Committee, authorities believe that the 1943 goal can be attained. More-Milk-for-Victory is the reason why 122 billion pounds are needed. The 8-point program includes the following suggestions for producing more milk: 1. Provide abundant pastures. 2. Provide plenty of good hay. 3. Provide abundant silage. 4. Condition cows for freshening with eight weeks' rest. 5. Feed good roughage liberally. 6. Feed balanced rations using protein concentrates wisely. 7. Feed to avoid summer slump. 8. Raise more calves with less milk. "Our nation's milk is a mainstay of our own American food supply and the products made from it are life-saving to our fighting forces and allied nations," says W. T. Martin of St. Louis, chairman of the Dairy Industry Committee. The War Food Administration in a message to the dairy farmers of America, says: "Dairy farmers have responded magnificently to the

wartime demand for increased milk production, but the world needs still more milk—all the milk in fact, that American dairymen can produce. "It is extremely urgent that everything possible be done to lessen the nationwide decline in milk flow that always follows when pastures begin to dry up. Much of the so-called summer slump in milk production is the result of failure to recognize the inadequacy of summer pastures and to provide supplementary feeds. "An abundant supply of good hay and silage will be of extreme importance in maintaining milk production at a high level this summer and also through the coming winter." There are nearly 27 million cows on U. S. farms—more than ever before. Authorities say efficient production methods will enable these cows to produce the milk needed.
