ITALIANS TO FACE NAZIS AT BRENNER PASS

BEDFORD MASHBURN SAID TO BE VERY SICK

Mr. and Mrs. Bedford Mashburn, accompanied by their daughter, Mrs. Lee Barton of El Paso and his brother, Tom Mashburn of Breckenridge, have returned from Temple, where Mr. Mashburn was taken for medical treatment at Scott & White Sanitarium. His many friends will be glad to learn that his condition is now being treated as serious.

The 62-year-old man is a native of North Carolina, but came to Texas with his parents when about 12 years of age, the family first settling near Mesquite Lake, a cattleman and resident of E. avenue, Cisco.

Members of the family at Mr. Mashburn's bedside are his son, W. T. Malone of San Antonio, and Mrs. Charles Horn of the Horn community.

TIRE PANEL MEMBERS SPEAK

Because of limited personnel and tremendous increase in volume of work placed upon its members, the Tire Panel of the Eastland County War Production Board announced that effective July 29, it will have no more public meetings. All applications must be made to the board and further communication with respect to their applications should be made in writing.

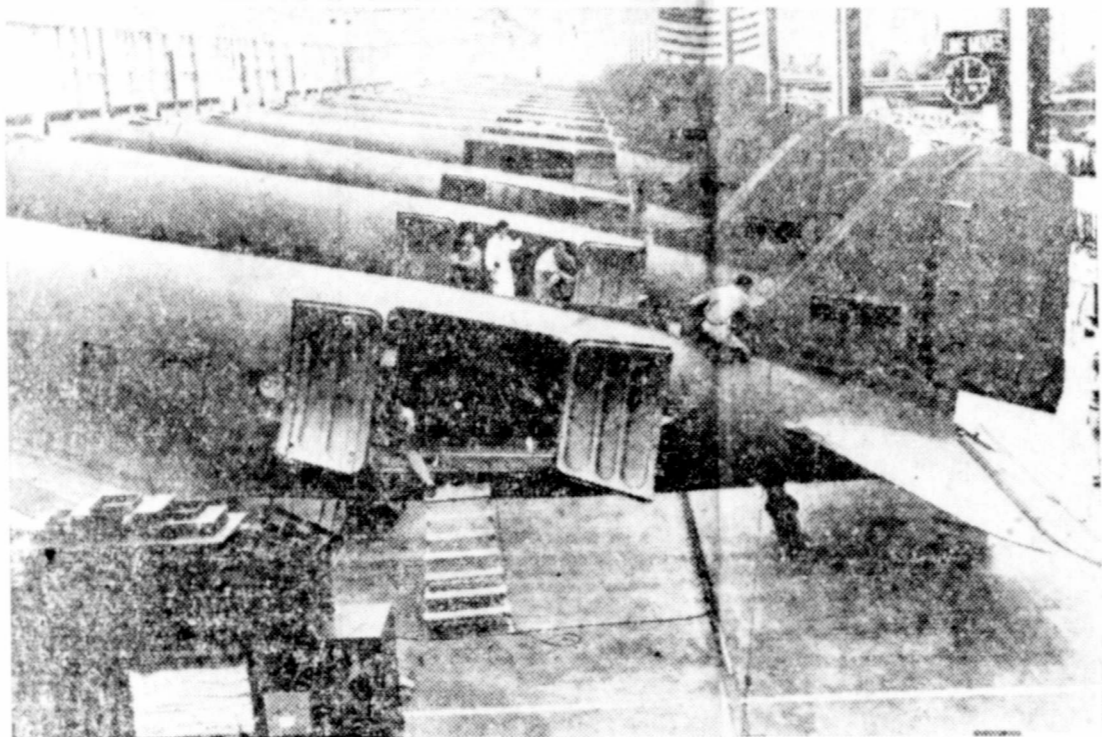

The board is unable to accept a substantial number of applications for tires, and is unable to issue a permit for the use of tires in excess of the amount of tires and gasoline the personal interviews have indicated as a part of the tire and gasoline applications. All members must appear without pay and must carry on their own personal business.

Automobile owners are urged to reduce their tire requirements of gasoline and water. Tire applications now on the board are granted at once, because the tire quota for about two months can readily be seen that most applicants simply will not get their tires when their present ones wear out.

It is expected to be available in 1944 before adequate tires are available for essential vehicles.

Until such time as more tires are available only the most essential users are approved. This effort will be made to secure tires regardless of need.

Therefore, the board advises owners must expect to get along on their present tires for at least a year longer.

EXIT FOR PARATROOPERS—Once these planes are in the air, out of these doors will pour paratroopers, to carry more trouble to Axis. Planes are Douglas C-47s, on assembly line at Santa Monica, Cal. plant of company. Plant is turning them out at much faster rate than its best peace-time record of production.

WRIGHT WAS PRINCIPAL ROTARY SPEAKER

Rotarian R. N. Cluck presented Rev. James R. Wright, chairman of the Red Cross home service committee, in a talk along the line of his duties as such, at the Rotary luncheon today which was probably a less than 100 percent meeting since it was thought that some of the absentees could not make up. J. E. Hays, attendance auditor, reported 100 percent attendance last week.

Maj. William (Bill) Carter, C. C. Chenoweth, B. A. Tunnell and Joe Johns, of Abilene, were visitors, making up attendance for their own club.

President Lonnie Shackley announced that Pete Nance was improving rapidly and would probably soon be able to get back to his job of secretary with the club, which Shackley is filling along with being president.

Mr. Wright explained that his job for the Red Cross was looking after the local end of the Red Cross work with regard to the service men and his family. He explained that the Red Cross was a go-between for the soldier and his family at home. In case of emergency problems arising out of interrupted relations of the family and the soldier, the Red Cross took over and adjusted the relations. For instance, if illness or disaster overtook either the family or the soldier, the Red Cross takes over and acts as go-between for them or between them and the military authorities. Mr. Wright acting for the Red Cross at the local point of the family.

At this point Mr. Wright emphasized the importance of each family knowing the serial number of its soldier, since there might be many John Smiths in the army but there would be only one soldier in the vast service with this number.

While stating that a major part of his duties had to do with furloughs or extension of furloughs, Mr. Wright said that he could not get any soldier a furlough. The request for a furlough must originate with the soldier himself. If on account of an emergency regarding the family and a furlough for the soldier is desired, the home service officer transmits the diagnosis and prognosis of the physician in attendance on the sick or deceased to army headquarters of the soldier, and then the army acts. No furlough is granted merely on request.

In many cases finances are interrupted between the family and the soldier and the family may come in need, in which case the Red Cross home service officer makes recommendation and a loan or gift of need is granted to relieve the emergency.

The speaker then recounted a number of other duties that might fall upon him, such as acting as a bureau of information in many ways.

In many cases of emergency the home service committee must use its own judgment in making relief.

Mr. Cluck and the speaker were congratulated on the program.

75,000 TROOPS WILL ATTEMPT TO STOP FLOW OF NAZI MEN INTO ITALY, SPAIN THINKS

LONDON, July 29.—Italy had ordered home 26 divisions in the Balkans and France and sent 75,000 troops to the Brenner Pass to stem the flow of Germans into northern Italy, Madrid advices said today, and a Swiss dispatch reported that general strikes have broken out in Turin and riot-torn Milan.

Italian troops soon may be fighting their Allies, Madrid said, either in northern Italy or elsewhere in Europe when the four divisions in France and 22 in the Balkans attempt to return to Italy through German lines.

German forces in northern Italy already have encountered "hostile acts" from both Italian civilians and light advanced army units in the hills of northern Italy, Madrid said.

Marshal Pietro Badoglio, new Italian chief of government, ordered two army corps northward from Padova and Vicenza to prevent German troops from establishing strong bridgeheads in northern Italy so as to leave his hands free to talk peace terms with the Allies, according to reports reaching Madrid from France.

The question of an early peace for Italy remained confused. Rome Radio harped on the theme that Italy would fight harder than ever now that the Fascists were overthrown, but it was recognized that this might be a smoke-screen to cover peace feelers and strengthen the Italian bargaining position.

Neutral sources, from Madrid and Ankara, continued to insist that peace negotiations were imminent, if not under way.

General strikes were called in Turin, Milan and other northern Italian cities as anti-Fascist disorders spread to Naples, Bari, Taranto and Foggia in southern Italy, where several prominent party members were reported lynched, a Bern dispatch said.

The situation in Milan, already the scene of pitched gun battles between Fascists and army Royalists and police, was reported so serious that the military governor of the province, General Canale, proclaimed that strikers were liable to court martial and execution if they did not return to work.

"The higher interests of the nation demand an immediate resumption of work for a harmonious return to normal life," he said. "I will enforce these interests by acting with the utmost force against violators, who will be court-martialed immediately. Violators caught in the act will be shot on the spot. I remind the population that troops have received orders to fire without warnings against gatherings of more than three people in the public streets."

The strikes followed the spread of rumors that employers would be unable to meet monthly payrolls since all the banks in Milan and Turin closed without explanation Monday, Bern said.

Thirty-seven Fascists were reported by Bern to be still holding off regular army troops from the top floor of Benito Mussolini's newspaper Popolo d'Italia, in Milan.

Seizing women and children as hostages, they barricaded themselves in the building yesterday and opened fire on their besiegers with hand grenades and automatic rifles. Two soldiers were killed while operating searchlights. Though equipped with cannon and tanks, the army forces hesitated to fire because of the presence of hostages.

One of the most orderly cities in Italy, a Bern report said, was the central industrial city of Bologna, where the inhabitants scrowl at but do not dare attack Fascists because of the presence of three fully-armed Blackshirt militia battalions who just have arrived from Croatia.

Madrid reports said the two Italian army corps—five divisions—marching toward the Brenner Pass were authorized to inform the Germans that no further advance into Italian territory would be permitted and to back this up by force, though there was no indication of whether they could offer any real opposition to Adolf Hitler's panzer divisions.

German troops now crossing into northern Italy to reinforce the garrisons of 60,000 hitherto have been confined to Tyrol, Madrid said. The northern Italian garrisons originally had been slated to go to Tunisia and later Sicily, but it was understood that the transfer of troops to Sicily had been halted and the garrisons ordered to "war positions."

Reports that German reinforcements moving into northern Italy totaled 10 divisions were believed by Madrid sources to be exaggerated.

CARLILE FAMILY REUNION LAKE CISCO

The Carlile family, headed by Lake N. Carlile of route one, Ringling, is enjoying its annual reunion at Lake Cisco. The party began arriving yesterday and will remain at the lake through Friday.

Mr. Carlile said he thought the reunion here this year would reach 100, although more than 200 people attended the function last year.

Reunions have been held here for the past 15 years and Lake Cisco has been the meeting point for the past three years.

Members of families already on the grounds include Lake N. Carlile, Ringling Star; R. W. Carlile, Abilene; C. Labinski, Georgetown; William Smith, Moran; T. D. Doolittle, Cisco.

The 100 members of the Carlile family, by the way, are serving with the U. S. armed forces.

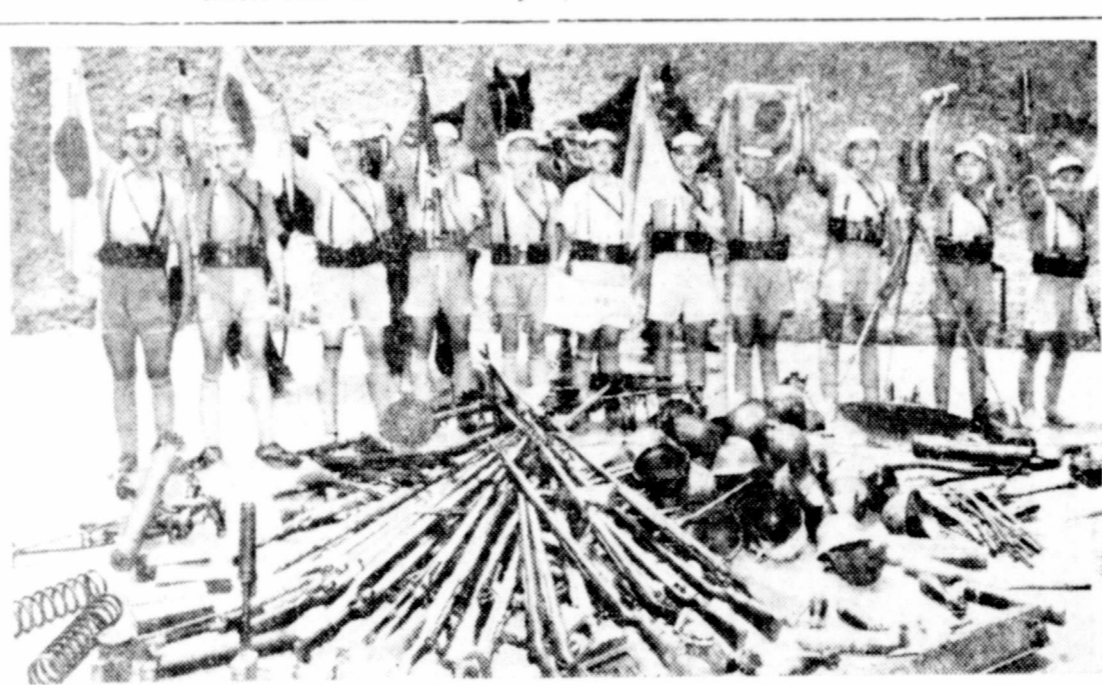

ANNUAL RED CROSS ELECTION AUG. 4

Eastland county Red Cross chapters will hold its annual meeting Wednesday afternoon at 2 o'clock, in 91st district courtroom. An executive committee will be elected, reports considered and other business transacted.

LINK BETWEEN MEAT AND POLIO SOUGHT

FT. WORTH, July 29.—Veterinarians will be asked to help a special legislative committee determine whether diseased cattle sent to markets in Texas may be one source of infantile paralysis.

Representative Roger Q. Evans of Denison, chairman of the committee, said his group will meet in Dallas, probably Aug. 19, with veterinarians who might be able to shed light on the subject.

Housekeepers bought coffee today without giving up ration stamps for the first time in seven months.

Many Cisco grocers were selling it ration-free following the president's announcement last night that coffee rationing was discontinued.

District OPA officials said they had had no word on the end of coffee rationing other than Mr. Roosevelt's announcement.

COFFEE RATIONING IS DISCONTINUED

WASHINGTON, July 29.—Government petroleum officials today predicted that the East Coast pleasure driving ban soon would be lifted.

ALLIES TIGHTEN AXIS LIFE LINES, SICILY

NORTH AFRICA, July 29.—Allied forces drawing tighter their steel noose about enemy units trapped in the northeast corner of Sicily slashed forward today and occupied four more strategic towns while threatening to sever another enemy lifeline.

The road junction along the routes leading to Nazi-held Catania and Mount Etna, fell to advancing Allied troops, along with the smaller towns of Pollina, Castelbuono and Gangi.

Other Allied spearheads were applying increasing pressure to Nicosia, almost due north of Leonforte, at the junction of a main north-south highway with an east-west road now seeing service as a vital avenue of escape for Axis legions withdrawing in the direction of Randazzo, north of Mount Etna.

MOSCOW, July 29.—Russian forces beat off rear-guard counter-attacks and pressed on in hot pursuit of German garrisons withdrawing from the area south of Orel today, but the enemy still was throwing fresh reserves into bitter battles north of the Axis stronghold.

Front dispatches said the Red Army was advancing on all three prongs of their drive to turn Orel into a summer "Stalingrad" for 250,000 Germans defending the key town at the hinge of the southern and central fronts.

LT. MCCRACKEN READS CISCO DAILY PRESS

Mrs. Elizabeth McCracken has had word recently from her son, Lt. James P. McCracken, with the army somewhere in the Hawaiian Isles. He was all right and said he read the Cisco Daily Press with much interest.

In one of his letters the young man mentioned having spent some time with Dudley Lee, son of Dr. and Mrs. W. P. Lee of Cisco. Lee is an electrician's mate on the USS. Pensacola. Lee, too, was in good health at that time.

If the young thing says a man of 40 is in his prime he means there aren't any younger ones around.

NICE REMEMBRANCE

The Daily Press is indebted to G. P. Mitcham for a nice gift of peaches grown on one of his East Texas oil leases. They were (where is correct) of the Elberta variety and unusually large considering 1943 has been a poor year for peaches.

An Open House

To the Public:

We wish to extend to our many customers and friends an invitation to visit our new home, commemorating the twelfth year of our advent into the fair city of Cisco.

We have made scores of friends since coming here, and we attribute it to the democratic principles we have tried to put into practice.

It has always been our policy to treat every one alike, whether friend or stranger, black or white; and to render the very best service that is in our power to give.

We feel that our personnel, both in shop and office is of the best. It is true we have had our ups and downs during the past twelve years, but through it all we have kept our chins up and strived to look the world in the face and continue to give to the public the very best service possible. We love people and it is a great joy to serve them—the night is never too dark or cold to answer the call to go out and assist some one that needs help. Our motto: "A friend in need is a friend indeed."

During our very recent misfortune, it looked as though the end of our business career was at hand; but through the cooperation and help of you, our friends, we have fought through smoke and ruins and are back on top ready to give the best service we are capable of rendering.

We are extremely anxious for you to come and see our new home, for we are very proud of it and want you to help us enjoy it. We even want you to see our little pent-house, up stairs.

Very sincerely yours,

MR. and MRS. S. H. NANCE.

As the resignation of Mussolini appears to be the first step in the cracking up of the Axis steel defense, and we are expecting further evidence of this weakening, it behooves us to be all the more staunch in our line against the enemy.

We must form an unbroken line, whether we agree with leaders and individuals of our country in every detail or not. Germany and Japan must not think that we are out of harmony with our government, lest it hinder that break that we are looking forward to.

Americans, all—millions of them!

The son of the tailor down at the corner . . . the young brother of the banker . . . the nephew of the gas-station man . . . the farm boy from Iowa . . . the college boy from Park Avenue.

Fighting, all of them—for us. That's Democracy in action. Because all Americans were "created free and equal" every American has an equal duty to perform.

And that's where WE come in. We've got to back up these boys. We've got to see that they get the stuff to fight with. Planes . . . tanks . . . guns . . . bullets . . . bombs . . . more of them than the world has ever seen before.

Every payday we've got to see—put 10 percent of our pay in War Bonds. Millions of other Americans are doing it. "Sacrifice," you say? As great a sacrifice as the boys make at Bataan or Corregidor? As great a sacrifice as a fire made who deliberately gave his life to bomb a Jap plane carrier?

Nothing we can do to our equal what these men have already done.

Must you, we're not even asked to give this money. Every time we save \$1.77 we get a War Bond worth \$25 in 10 years.

That's why we're not looking for excuses, we Americans. We're not looking for excuses from spending money; when other Americans are giving their lives.

ITALIANS TO FACE NAZIS AT BRENNER PASS

BEDFORD MASH-BURN SAID TO BE VERY SICK

Mr. and Mrs. Bedford Mashburn, accompanied by their daughter, Mrs. Lee Barton of Elgin, and his brother, Tom Mashburn of Breckenridge, have returned from Temple, where Mr. Mashburn was taken for medical treatment at Scott & White Sanitarium. His many friends will be glad to learn that his condition is regarded as serious.

The 62-year-old man is 62 years of age and a native of North Carolina, but came to Texas with his parents when about 12 years of age, the family first settling near Morgan. He is a cattleman and resides at 902 E. avenue, Cisco.

Other members of the family at Mr. Mashburn's bedside are his sister, Mrs. W. T. Malone of San Antonio, and Mrs. Charles Horn of the Iron Horn community.

CARLILE FAMILY REUNION LAKE CISCO

The Carlile family, headed by Lake N. Carlile of route one, Ringgold, is enjoying its annual family reunion at Lake Cisco. The party began arriving yesterday and will remain at the lake through Friday.

Mr. Carlile said he thought the reunion here this year would reach its peak, although more than 200 people attended the function last year.

The reunions have been held here for the past 15 years and Lake Cisco has been the meeting point for the past three years.

Members of families already on the grounds include Lake N. Carlile, Ringgold Star; R. W. Carlile, Abilene; J. C. Labinski, Georgetown; William Smith, Moran; T. D. Deane, Cisco.

Three other members of the Carlile family, by the way, are serving with the U. S. armed forces.

ANNUAL RED CROSS ELECTION AUG. 4

Eastland county Red Cross chapter will hold its annual meeting next Wednesday afternoon at 2 o'clock, in 91st district courtroom. An executive committee will be elected, reports considered and other business transacted.

All residents of the county who have contributed as much as one dollar to the Red Cross during the year are members of the chapter and may vote on all matters arising.

Present officers of the chapter are: Executive committee—Chairman, Mrs. Joseph M. Perkins; vice chairman, Victor Cornelius; secretary, Mrs. Jack W. Frost; treasurer, Earl Woody.

Staff assistance corps, Mrs. E. C. Sitterwhite; finance chairman, Earl Woody; public information chairman, Victor Cornelius; home service chairman, Herbert Tanner; nursing chairman, Mrs. E. Roy Townsend; nutrition, Mrs. Helen McAnely; first aid and accident prevention, Les Taylor; water safety, life saving, Sim Ledford; junior Red Cross chairman, Mrs. Willie Mae Carswell; volunteer special services, Mrs. Phillip Pettit; Camp Bowie Camp and hospital service, Mrs. F. M. Kenny; production, Mrs. Curtis Kimbrell; surgical dressing, Mrs. Curtis Hartig.

NICE REMEMBRANCE.
The Daily Press is indebted to G. P. Miteham for a nice gift of peaches grown on one of his East Texas oil leases. They were (we are correct) of the Elberta variety and unusually large considering 1943 has been a poor year for peaches.

TIRE PANEL MEMBERS SPEAK

Because of limited personnel and tremendous increase in volume of work placed upon its members, the Tire Panel of the Eastland County War Price and Rationing Board announces that effective now it will have no more public meetings. All applications must be made to board and further communication with respect to their applications should be made in writing.

The desire of many applicants to interview in person has caused a substantial amount of time becoming irrevocable as well as of gasoline, which has not apparently been a great deal. In addition to the interview, use of tire and gasoline, these personal interviews have consumed a large part of the time given to board members for consideration of applications. All members serve without pay and must carry on their own personal business.

Automobile owners are urged to reduce their present usage of gasoline whenever possible. Some applications may be granted at once, because the entire quota for about two months can readily be seen that many applicants simply will not get tires when their present ones cease to run.

It is expected to be held during 1944 before adequate tires are available for essential users.

Until such time as more tires are available, only the most essential users are advised to make an effort, will be able to secure tires, regardless of need.

Therefore, the board asks that owners must expect to get along on their present tires for at least a year longer.

FLEM HALL OF STAR-TELEGRAM VISITOR HERE

Flem Hall, sports editor of the Star-Telegram, will arrive in Cisco tonight and will make his headquarters at Laguna Hotel for several days, while visiting the nearby army camp of Camp Bowie and Hankney.

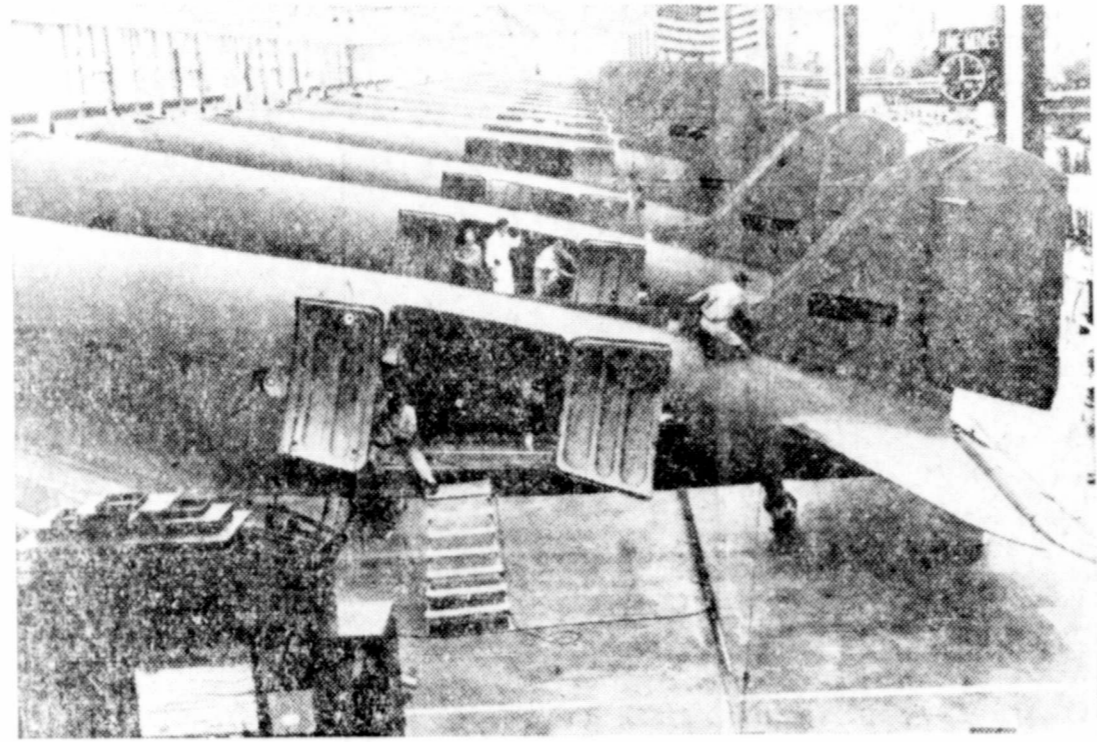

While in Cisco Mr. Hall will be the guest of Monroe Sweeney and expects to do a bit of fishing at Lake Cisco, which he has visited frequently in the past. Hall likes Cisco and has many friends here, who have come to regard him as the outstanding sports authority of West Texas.

LT. MCCRACKEN READS CISCO DAILY PRESS

Mrs. Elizabeth McCracken has had word recently from her son, Lt. James P. McCracken, with the army somewhere in the Hawaiian Isles. He was all right and said he read the Cisco Daily Press with much interest.

In one of his letters the young man mentioned having spent some time with Dudley Lee, son of Dr. and Mrs. W. P. Lee of Cisco. Lee is an electrician's mate on the USS. Pensacola. Lee, too, was in good health at that time.

If the young thing says a man of 40 is in his prime she means there aren't any younger ones around.

EXIT FOR PARATROOPERS—Once these planes are in the air, out of these doors will pour paratroopers, to carry more trouble to Axis. Planes are Douglas C-47s, on assembly line at Santa Monica, Cal. plant of company. Plant is turning them out at much faster rate than its best peace-time record of production.

TO THE VICTORS—Helmets, ammunition, rifles and bombs litter ground in front of triumphant Chinese soldiers. Booty gathered from Japanese during fierce fighting in Upper Yangtze River area. Horses also captured from Japs.

WHAT THE GUNS DID—Radio picture flashed from Britain shows what Yank Navy guns and air bombs did to town of Mellilli, Sicily. Shattered walls indicate punching power of invading forces on Italian island. Soldiers are some of British 8th Army on way through town, advancing to attack port of Catania.

ALLIES TIGHTEN AXIS LIFE LINES, SICILY

NORTH AFRICA, July 29.—Allied forces drawing tighter their steel noose about enemy units trapped in the northeast corner of Sicily slashed forward today and occupied four more strategic towns while threatening to sever another enemy lifeline.

The road junction city of Leonforte, a vital link along the routes leading to Nazi-held Catania and Mount Etna, fell to advancing Allied troops, along with the smaller towns of Pollina, Castelbuono and Gangi.

Other Allied spearheads were applying increasing pressure to Nicosia, almost due north of Leonforte, at the junction of a main north-south highway with an east-west road now seeing service as a

OREL BATTLE SEEMS NEAR FINAL STAGE

MOSCOW, July 29.—Russian forces beat off rear-guard counter-attacks and pressed on in hot pursuit of German garrisons withdrawing from the area south of Orel today, but the enemy still was throwing fresh reserves into bitter battles north of the Axis stronghold.

Front dispatches said the Red Army was advancing on all three prongs of their drive to turn Orel into a summer "Stalingrad" for 250,000 Germans defending the key town at the hinge of the southern and central fronts.

LINK BETWEEN MEAT AND POLIO SOUGHT

FT. WORTH, July 29.—Veterinarians will be asked to help a special legislative committee determine whether diseased cattle sent to markets in Texas may be one source of infantile paralysis. Representative Roger Q. Evans of Denison, chairman of the committee, said his group will meet in Dallas, probably Aug. 19, with veterinarians who might be able to shed light on the subject.

BAN BE LIFTED.
WASHINGTON, July 29.—Government petroleum officials today predicted that the East Coast pleasure driving ban soon would be lifted.

WRIGHT WAS PRINCIPAL ROTARY SPEAKER

Rotarian R. N. Cluck presented Rev. James R. Wright, chairman of the Red Cross home service committee, in a talk along the line of his duties as such, at the Rotary luncheon today which was probably a less than 100 percent meeting since it was thought that some of the absentees could not make up. J. E. Hays, attendance auditor, reported 100 percent attendance last week.

Mal. William (Bill) Carter, C. C. Chenoweth, B. A. Tunnell and Joe Johns, of Abilene, were visitors, making up attendance for their own club.

President Lonnie Shockley announced that Pete Nance was improving rapidly and would probably soon be able to get back to his job of secretary with the club, which Shockley is filling along with being president.

Mr. Wright explained that his job for the Red Cross was looking after the local end of the Red Cross work with regard to the service man and his family. He explained that the Red Cross was a go-between for the soldier and his family at home. In case of emergency problems arising out of interrupted relations of the family and the soldiers, the Red Cross took over and adjusted the relations. For instance, if illness or disaster overtook either the family or the soldier, the Red Cross takes over and acts as go-between for them or between them and the military authorities. Mr. Wright acting for the Red Cross at the local point of the family.

At this point Mr. Wright emphasized the importance of each family knowing the serial number of its soldier, since there might be many John Smiths in the army but there would be only one soldier in the vast service with this number.

While stating that a major part of his duties had to do with furloughs or extension of furloughs, Mr. Wright said that he could not get any soldier a furlough. The request for a furlough must originate with the soldier himself. If on account of an emergency regarding the family and a furlough for the soldier is desired, the home service officer transmits the diagnosis and prognosis of the physician in attendance on the sick or deceased to army headquarters of the soldier, and then the army acts. No furlough is granted merely on request.

In many cases finances are interrupted between the family and the soldier and the family may become in need, in which case the Red Cross home service officer makes recommendation and a loan or gift of need is granted to relieve the emergency.

The speaker then recounted a number of other duties that might fall upon him, such as acting as a bureau of information in many ways.

In many cases of emergency the home service committee must use its own judgment in making relief.

Mr. Cluck and the speaker were congratulated on the program.

75,000 TROOPS WILL ATTEMPT TO STOP FLOW OF NAZI MEN INTO ITALY, SPAIN THINKS

LONDON, July 29.—Italy had ordered home 26 divisions in the Balkans and France and sent 75,000 troops to the Brenner Pass to stem the flow of Germans into northern Italy, Madrid advices said today, and a Swiss dispatch reported that general strikes have broken out in Turin and riot-torn Milan.

Italian troops soon may be fighting their Allies, Madrid said, either in northern Italy or elsewhere in Europe when the four divisions in France and 22 in the Balkans attempt to return to Italy through German lines.

German forces in northern Italy already have encountered "hostile acts" from both Italian civilians and light advanced army units in the hills of northern Italy, Madrid said.

Marshal Pietro Badoglio, new Italian chief of government, ordered two army corps northward from Padova and Vicenza to prevent German troops from establishing strong bridgeheads in northern Italy so as to leave his hands free to talk peace terms with the Allies, according to reports reaching Madrid from France.

The question of an early peace for Italy remained confused. Rome Radio harped on the theme that Italy would fight harder than ever now that the Fascists were overthrown, but it was recognized that this might be a smoke-screen to cover peace feelers and strengthen the Italian bargaining position.

Neutral sources, from Madrid and Ankara, continued to insist that peace negotiations were imminent, if not under way.

General strikes were called in Turin, Milan and other northern Italian cities as anti-Fascist disorders spread to Naples, Bari, Taranto and Foggia in southern Italy, where several prominent party members were reported lynched, a Bern dispatch said.

The situation in Milan, already the scene of pitched gun battles between Fascists and army Royalists and police, was reported so serious that the military governor of the province, General Canale, proclaimed that strikers were liable to court martial and execution if they did not return to work.

"The higher interests of the nation demand an immediate resumption of work for a harmonious return to normal life," he said. "I will enforce these interests by acting with the utmost force against violators, who will be court martialed immediately. Violators caught in the act will be shot on the spot. I remind the population that troops have received orders to fire without warnings against gatherings of more than three people in the public streets."

The strikes followed the spread of rumors that employers would be unable to meet monthly payrolls since all the banks in Milan and Turin closed without explanation Monday, Bern said.

Thirty-seven Fascists were reported by Bern to be still holding off regular army troops from the top floor of Benito Mussolini's newspaper Popolo d'Italia, in Milan.

Seizing women and children as hostages, they barricaded themselves in the building yesterday and opened fire on their besiegers with hand grenades and automatic rifles. Two soldiers were killed while operating searchlights. Though equipped with cannon and tanks, the army forces hesitated to fire because of the presence of hostages.

One of the most orderly cities in Italy, a Bern report said, was the central industrial city of Bologna, where the inhabitants scowled at but do not dare attack Fascists because of the presence of three fully-armed Blackshirt militia battalions who just have arrived from Croatia.

Madrid reports said the two Italian army corps—five divisions—marching toward the Brenner Pass were authorized to inform the Germans that no further advance into Italian territory would be permitted and to back this up by force, though there was no indication of whether they could offer any real opposition to Adolf Hitler's panzer divisions.

German troops now crossing into northern Italy to reinforce the garrisons of 60,000 hitherto have been confined to Tyrol, Madrid said. The northern Italian garrisons originally had been slated to go to Tunisia and later Sicily, but it was understood that the transfer of troops to Sicily had been halted and the garrisons ordered to "war positions."

Reports that German reinforcements moving into northern Italy totaled 10 divisions were believed by Madrid sources to be exaggerated.

TEXAS TAXES UP.

WASHINGTON, July 29.—Federal internal revenue taxes in Texas during the fiscal year just ended were more than 60 per cent greater than collections in the previous year, the bureau of internal revenue announced today.

NAZI TROUBLE-SHOOTER.

LONDON, July 29.—Nazi Field Marshal Edwin Rommel has ar-

rived in Greece, the Berlin Radio said today, as disorders were reported in that occupied country coincident with a peace movement among Hitler's Balkan satellites.

20 LOST; TWO SAVED.

BOWLING GREEN, Ky., July 29.—An American airlines passenger plane crashed and burned last night in the foothills near Trammel, killing 20 persons.

Men you've never even met *Are fighting for you now!*

Americans, all—millions of them!

The son of the tailor down at the corner . . . the young brother of the banker . . . the nephew of the gas-station man . . . the farm boy from Iowa . . . the college boy from Park Avenue.

Fighting, all of them—for us. That's Democracy in action. Because all Americans were "created free and equal" every American has an equal duty to perform.

And that's where WE come in. We've got to *back up* those boys. We've got to see that they get the stuff to fight with. Planes . . . tanks . . . guns . . . bullets . . . bombs . . . more of them than the world has ever seen before.

Every payday we've got to *save*—put 10 percent of our pay in War Bonds. Millions of other Americans are doing it. "Sacrifice," you say? *As great a sacrifice as the boys made at Bataan or Corregidor!* As great a sacrifice as a flier made who deliberately gave his life to bomb a Jap plane carrier!

Nothing we can do can ever equal what these men have already done!

Mind you, we're not even asked to *give* this money. Every time we save \$18.75 we get a War Bond worth \$25 in 10 years.

That's why we're not looking for excuses, we Americans. We're not looking for excuses from *lending* money, when other Americans are *giving* their lives!

DO YOU KNOW?

When you buy WAR BONDS, you're saving, not giving! Series E WAR BONDS are worth 3 1/2 percent more in 10 years! You get \$1 for every \$3 you invest!

These BONDS, when held to maturity (10 years), yield 2 1/2 percent per year on your investment, compounded semi-annually!

Joining a Pay-Roll Savings Plan makes saving easy!

Joining your bank's Victory Club (it works like any Thrift or Christmas Club) is a convenient way to save for War Bonds for those who aren't members of a Pay-Roll Savings Plan.

You can have enough money to do a lot of things you'd like to do, and to buy the many things you'll need after the war is over, if you save enough in War Bonds every payday NOW!

You can start buying WAR BONDS by buying War Stamps for as little as 10 cents.

EVERYBODY — EVERY PAYDAY 10% IN WAR BONDS
