FLASH!

Eastland, Texas, September 16, 1943. CITY AND COMMUNITY COMMITTEEMEN, BANKERS, POSTMASTERS, NEWSPAPERS AND CITIZENS OF EASTLAND COUNTY:

We are now in the middle of the second week's drive for Eastland county's quota of \$597,500, to be purchased during the month of September, all the quota to be subscribed by citizens, corporations, schools, trust companies, partnerships, divisions of government and by everyone except the commercial banks.

I am pleased to state to you that after a canvass of the county I find that each community has made the securing of its respective quota the most important business now confronting it and citizens generally are going to their banks or postoffices and making their selection from the seven different bond issues offered.

Today, Thursday, September 16, we have slightly less than 40 percent of the total raised and we only have about thirteen actual working days yet to go.

During the last 24 hours radio and papers have told us of the hard fighting that our boys are doing in Italy, the sacrifice of life that is being made and the temporary reverses in some sections to which they are being subjected.

Never has an enemy fought harder than Hitler and his puppets on the plains and the beaches of Salerno.

Never has an Allied army made temporary fallbacks and given some ground at a greater cost to our foes.

As our boys fight hard to maintain their positions there, against the severest odds, we should not lose one moment in moving forward here on the home front to an overwhelming subscription of this Third War Loan.

We must not fail our boys in this crucial hour!

You can not wait until the last day to make your purchase; because, if you do, it will be too late to clear the same through the banks and this county will have failed to reach its quota.

This we have never done before and I am sure you will not let it be done this time!

Very kindly yours,
CYRUS B. FROST,
Eastland County Chairman War Finance Committee.

WOMEN HOLD INSPIRATIONAL MEETING

A meeting of some 25 Eastland county club women, both rural and city, met in the county courthouse yesterday afternoon to discuss ways and means by which the women of Eastland county may do their full part in the Third War Loan Bond drive.

Mrs. Paul M. Woods of Cisco, chairman of the women's division of the drive, presided. Speakers included Judge Cyrus Frost and Mrs. Joseph M. Perkins of Eastland and R. L. Ponsler of Cisco. The chairman and each of the speakers made patriotic appeals to all women to do their level best to encourage the purchase of bonds and thereby make certain that the \$597,500 quota assigned Eastland county is secured.

It was the consensus of opinion that each and every Eastland county woman pledge herself to place first in mind, heart and effort the winning of this—her battle—on the home front.

TEXAS OCTOBER OIL QUOTA DUE SOON

AUSTIN, Sept. 16.—Issuance of the October allowable order, for which testimony was received by the Texas railroad commission at the statewide hearing held here Wednesday, before the end of the week is anticipated.

Nominations at the statewide hearing totaled 2,042,721 barrels, exceeding the PAW certification of 1,999,000 barrels, which was an increase of 90,000 barrels over September.

In the nominations, the greater part of the increase went to West Texas, which the PAW certified should receive 25,000 barrels of the 90,000-barrel hike in October. The remainder will go to posts producing sweet oil. The West Texas increase was 26,725 barrels.

BRITISH EIGHTH ARMY IS NOW WITHIN 51 MILES OF JUNCTION WITH US. FIFTH ARMY

NORTH AFRICA, Sept. 16.—The reinforced Fifth Army has strengthened its hold on the Salerno bridgehead after gaining the upper hand over German troops who for a time threatened to hurl the Allies back into the sea.

Front dispatches said the Germans had begun digging in and showing signs of a limited withdrawal from at least one wedge they had driven in the Allied line, while a spokesman at Allied headquarters asserted, in the most optimistic official statement in three days, that the Fifth Army was more than holding its own.

The British Eighth Army advanced another 15 miles up the Italian west coast from the south to seize Scalera, only 51 air miles and three days' marching time from a junction with the Fifth Army.

The tide of battle along a 26-mile stretch of the Salerno Gulf below Naples was turned by a mighty air and sea bombardment, the ceaseless flow of reinforcements of troops, tanks and guns into the beachhead and a do-or-die stand by the Americans and British against the heaviest German assault in the western or Mediterranean theaters since 1940.

The Allies for the second straight day flew more than 2000 sorties over the Salerno battle zone, with every type of airplane from fighter to Flying Fortress participating. They dropped "a vastly greater load of bombs than ever dropped previously in the Mediterranean theater—more than the 1200 tons dropped on Rome."

The British battleships Warspite and Valiant—both of 30,000 tons—rushed back into the Salerno zone to participate in the bombardment of Nazi tank columns, gun emplacements and positions in the hills as the Allied navies moved in under the noses of enemy batteries to support the ground troops. The bombardment last night was in bright moonlight.

Such drastic moves as the throwing of all available airplanes and warships into support of the troops ashore resulted in stemming the grave German threat to the Allies' bridgehead and apparently has now given them more than an even balance of strength.

German fighters and fighter-bombers made no important attempts to hold off the Allied aerial bombardment but concentrated their meager resources on attacking ships in Salerno harbor and other vessels along the bridgehead. They failed to interrupt landing of supplies and reinforcements.

A front dispatch from L. S. B. Shapiro, representing the combined Canadian press, said the Germans yesterday, for the first time since the Allied landing one week ago this morning, failed to mount a substantial counter-attack and gave indications they were making a limited withdrawal from the salient they drove into the Anglo-American bridgehead Monday night and early Tuesday.

Reynolds Packard, United Press war correspondent with the Fifth Army, said a number of German groups that had infiltrated the Allied lines were bottled up and liquidated. In one instance, Americans, surrounded by a group of Germans, killed 45 of them with mortar fire, took a number of prisoners and smashed a number of tanks.

Packard said the situation now was "well in hand."

AUSSIES ARE REDS HURRY-BUT 2 MILES IN TO KIEV FROM LAE NOW BEFORE RAINS

SOUTHWEST PACIFIC, Sept. 16.—Australian forces were only two miles east of Lae today as Allied troops to the west advanced to attack a fourth enemy plantation strongpoint after blasting through three others near the Japanese New Guinea coastal base.

A third Allied column pushing up from the south had advanced 10 miles in pursuit of beaten enemy troops from Salamaua and rapidly is closing the pocket on the trapped Lae garrison.

CAN'T KEEP GRANDMA IN HER CHAIR
 She's as lively as a Youngster—Now her Backache is better—

Many sufferers never imagine backache quickly when they discover that the real cause of their trouble may be their kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 1/2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, big fat, loss of pep and energy, graying hair, itching, swelling, puffing under the eyes, headache and dizziness. Frequent or scanty passage with stinging and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give better relief and will help the 15 million of kidney cases that are present but waste from your blood. Get Doan's Pills.

WASHINGTON, Sept. 16.—"Out of this foolish, child-complexed, child-complexed," Secretary of State Henry Morgenthau declared last night that the conquest of Italy—"Merely an outpost of the defeat of Europe"—cost the Allies material losses ranging up to 14 per cent. He warned that the attack on Italy is the beginning of the war, as far as the United States is concerned.

"One who is worse than a man getting a citation of merit while earning it."

It is Italy more humane, and war noises had to be over and dress in brown or black about adjustment.

We Have PLENTY MECHANICS. We have been fortunate in securing the services of three new mechanics to add to our staff, which enables us to offer a more prompt and efficient mechanical service to our patrons.

The recent additions are Mr. Pete Clements, formerly with the Cisco War Training School; Mr. Walter Wright, formerly employed by Shobal Houston, and Mr. H. C. Ables, of Carbon. Old shop employes are Fred Hays, E. S. Townsend, Reed McKeen and Milton Cook. Mr. Alvin Wende, formerly with the U. S. Armed Forces, is parts room supervisor.

The fact that we still have the most needed parts, also aids in this service to you.

If your car is going to require some mechanical repair, or tuning for the winter, it would be well for you to have it done now while workmen and parts may be had. Every day you use the car that needs attention, serves to make the need for repair greater and the expense more.
