

# THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—1,614 ft. above sea; Lake Cisco—three miles long, 87 ft. deep at Williamson hollow concrete dam; fish hatchery; 127 blocks paving; A-1 high school; Junior college; natural gas, electric and ice plants.

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil, two railroads; Bankhead highway; huge concrete swimming pool.

VOLUME XXIV.

CISCO, TEXAS, THURSDAY, OCTOBER 14, 1943.

NUMBER 27

## YANKEE TANKS, BIG GUNS CROSS VOLTURNO

### LOBOES TO MEET SAN-ANGELO

The Fighting Loboes will play San Angelo tomorrow night at 8 o'clock at San Angelo. The local team is in good physical shape and will give a good account of themselves, says Monroe Sweetney.

San Angelo is rated as one of the strong state contenders in District AAA. In four games the Loboes team has been scored on but one. They defeated Lubbock in the time of 44 to 0.

The first conference game to be played at home by the Loboes was set for Friday afternoon, October 22, at 3:30 o'clock.

Two conference games have been played by the Loboes, who won one and lost one. They beat Mineral Wells 32-7 and lost to Stephenville 33-7.

### BRECK MURDER TRIAL

BRECKENRIDGE, Oct. 14.—A special venire of 75 has been called for the trial of C. L. Farmer of Fort Worth, under indictment for murder in connection with the death here Sept. 24 of W. T. Conner of Breckenridge. Trial has been set for Oct. 25. Conner was killed in a fist fight in a parking lot after a football game here between Breckenridge and North Side High school of Fort Worth.

### SOYBEANS TO TEXAS

WASHINGTON, Oct. 14.—Soybeans have started moving to Texas to relieve the livestock production food shortage, reports Carl C. Farington, vice president of the commodity credit corporation. Several carloads are en route from the Midwest, he said, and the movement will continue throughout the winter.

### BURNED TO DEATH

STEPHENVILLE, Oct. 14.—Three Camp Bowie soldiers, burned to death in a head-on collision of their auto and a truck near Stephenville last night, have been identified and sent to Camp Wooters pending arrangements.

### TEN GRANDSONS

Mr. and Mrs. Bill Dill of Cisco have ten grandsons in the service of Uncle Sam. Eight are in the army and two are in the navy. They are Gerald G. Watts, M. T. Martin, Ralph Watts, Marvin Dill, Clarence Lewis, Earl E. Brown, Clarence Dill, Lemmon Dill, Bill Dill and Wm. T. Ingram.

**JUMPER**—Lieut. Col. Serge Obolensky, former Russian prince, who led four Yankee officers and men in a parachute jump over Sardinia, to establish Allied contact with Italians fighting Germans. It was his first jump. He gave up royal title when he became American citizen.

### COMMON SENSE BE NEEDED SAID TAYLOR

Dr. G. M. Stephenson and H. H. Tompkins, Cisco, Lions A. C. Van Hoy, E. T. Spence and Harry Taylor of Eastland were guests at Lion luncheon yesterday when Mr. Taylor discussed the question of what to do with the impoverished peoples of Europe after the Allies have won the present struggle.

Lion E. C. Paul announced a preliminary meeting at the bowling alley Thursday night, when a team of Lions will be selected to play Rotarians the following Tuesday night.

Mr. Tompkins was asked to speak on the projected frozen foods locker and to answer a number of questions regarding the establishment and operation of the project. Tompkins said lockers would cost from \$12 to \$15 and should be in operation by the first of the year, provided as many as 200 signers were secured in time.

At the suggestion of Lion Stamey, principal of the high school, Lions agreed to help boost for the Lobo-Weatherford football game to be played here Friday, October 22. It was intimated that an effort might be made to close the stores during the game.

Lion Turner reported on glasses fitted for school children and sponsored by the Lions club.

As a preliminary to beginning his talk, Mr. Taylor said he wanted his audience to assume that they were capable of understanding such questions as he was going to discuss, and that living was a simple process. All should get rid of selfish ideas and thoughts when thinking on the subject of post-war planning.

He then emphasized that there were some seventy million more people in Europe than the country was able to support in a fair standard of living—not having a car and a maid, but just simple living that providing for them to get a new start in life after the war was going to be a tremendous problem, and that the load and responsibility was going to be dumped upon the United States if we were of a mind to accept it.

He said some common sense was going to be sorely needed, rather than sentiment in looking into those matters.

He then outlined a solution which he thought would give these people the new start in life, and he gave reasons why he thought it would work. He said Africa, with its vast area and multitudinous assets, was open for development. Its size is much greater than that of North America, and its possibilities unlimited.

Some of the richest lands in the world lie there and uncovered wealth is in its hills and mountains. The reason why it has not developed is because European people have exploited it rather than develop its vast resources.

This country is ours, he said, and we have a right to think and speak according to our ideas. That is where some common sense is going to come in handy, he added.

### AVERAGE MAN SAYS AMEN TO REDS' LOGIC

MOSCOW, Oct. 14.—The official Communist party organ Pravda declares that the Russians do not intend to discuss frontiers or the status of the Baltic states at the forthcoming three-power conference any more than "the borders of the United States or the status of California."

In its first announcement of the conference to be held in Moscow among representatives of Russia, the United States and Great Britain, Pravda said the Russians intend to use the meeting to discuss the "second front" and Hitler's complete defeat, and not to debate postwar frontier questions.

### CHANCE TO HELP OURSELVES

Booths will be established at several down-town points tomorrow as headquarters for the young women of Cisco Junior College who have patriotically offered to sell tags for the college Library Fund.

Ciscoans who have an opportunity to purchase these tags may do so with the assurance that money thus expended will go to the further upbuilding of a well-functioning home institution—one that is certain to be merged with the state-owned college system of Texas when properly developed. Nothing would have a more stabilizing effect on Cisco than the fruition of these plans.

It is announced by Carlos J. Turner, college registrar, that the headquarter booths will be located at the J. C. Penney store, Red Front Drug, Norvell-Miller grocery, Drumwright, Inc., Dean Drug store and Skiles grocery.

### ISSUING RATION BOOK FOUR

October 21, 22 and 23 residents of Cisco and Eastland county will register for War Ration Book No. 4 at the school nearest to them.

Before going to school to register, people are urged to make the following preparation:

1. Take with you War Ration Book 3 on each member of your family for whom you expect to register.
2. Be sure the face or front of Book 3 is completely filled in and signed in the name of the person to whom issued. This means the complete address and age, sex, weight and occupation of applicant.

If all will follow these instructions it will assist school authorities in distributing the ration book in a minimum length of time, say county OPA officials.

Herewith is a list of school locations where the book will be distributed:

Alameda, Carbon, Center Point, Bullock, Cisco (school to be announced later), Colony, Desdemona, Eastland (nearest school to residence), Flatwood, Gorman, Lone Cedar, Morton Valley, Okra, Olden, Pioneer, Ranger (recreation building), Scranton, Rising Star.

### JOE WEAVER HONORED

FT. WORTH, Oct. 14.—Maston Nixon, of Corpus Christi, took over new duties today as president of the Texas Mid-Continent Oil & Gas Assn., succeeding George Sawtelle, of Houston. Other officers elected, at the organization's business meeting in Blackstone Hotel, included W. C. Kelley, with Snowdens & McSweeney here, director, and Joe M. Weaver, of Eastland, vice president for the West Central Texas district.

**HANDY HELPER**—Skipper earns his keep because his master, Fred B. Dugger, civilian electrician at Camp Callan, Cal., trained the pooch to carry tools and electrical appliances at command. Skipper can climb a ladder, if necessary.

**PANTS FOR TWO**—Sgt. John A. Thomas, left, of South Houston, Texas, was issued these work trousers at Moses Lake Army Air Base and told they would shrink. But there's still room for T-Sgt. Jerry P. Longo of Stamford, Conn.

### PECAN CROP TOPS AVERAGE 15 PCT

WASHINGTON, Oct. 14.—A pecan crop 15 per cent larger than average is forecast by the agriculture department. Production is placed at 104,806,000 pounds, against 78,800,000 in 1942.

The prospective crop is larger than that of last year in all states except Georgia, Alabama and Florida, with particularly heavy increases in the important seedling producing states of Texas,

Oklahoma and Missouri where extremely short crops were produced in 1942. Georgia's estimate of 23,600,000 pounds tops the nation with Texas second at 23,250,000 and Oklahoma third at 14,800,000 pounds.

### FRESHMEN OFFICERS

Cisco Junior College freshmen met Wednesday afternoon and elected officers and sponsors for the group and disposed of other matters of detailed nature. Officers named were Cathryn Shepard, president; Burl Nichols, vice president; Claire Jordan, secretary; Dick McPherson, reporter. Sponsors are Mrs. Ora Kirkland and Carlos J. Turner.

### M'ARTHUR SMASHED RABAU

SOUTHWEST PACIFIC, Oct. 14.—Japan's whole Southwest Pacific defense perimeter has been laid open to attack by the smashing of 177 planes and 123 ships at her great air-sea base of Rabaul, New Britain, in the heaviest air blow of the war in this theater.

Hurling into the attack virtually every combat plane in his arsenal, Gen. MacArthur caught the Japanese completely by surprise at Rabaul—Japan's Pearl Harbor of the Southwest Pacific—at mid-day Tuesday and battered them with 350 tons of bombs.

When the last of the armada roared away Wednesday they left behind:

100 enemy planes destroyed and 51 severely damaged on the ground;

26 of 40 intercepting fighters shot down;

Three destroyers, three large merchant ships, 43 smaller freighters and 70 harbor craft sunk or destroyed.

A submarine, two naval tenders and a 7000-ton freighter severely damaged.

In addition, the raiders demolished fuel and ammunition dumps, anti-aircraft batteries, operational buildings and port installations, at a loss of only five planes.

Hailing the raid as a "disastrous defeat" for the enemy, MacArthur's communique said it "gives us definite mastery in the air over the Solomons Sea and adjacent waters, and thereby threatens the enemy's whole perimeter of defense."

"If I succeed," MacArthur had told war correspondents before his raiding fleet took off, "it will be the end of the Japanese base at Rabaul."

Interrogation of the more than 1000 fliers who took part in the attack indicated it had succeeded fully, knocking out 60 per cent of Japan's air forces at Rabaul at an incredibly low cost.

### REDS AGAIN BLAST HOPES OF INVADERS

MOSCOW, Oct. 14.—Military sources said today that Russian penetrations of the Kiev, Zaporozh, Melitopol and Gornel defenses had killed whatever slim hope the Germans may have had of stopping the Red Army at the Dnieper line and holding the Crimea.

The fall of Melitopol and Gornel, big bases anchoring the ends of the Dnieper line, was believed near. In between, Red armies were slicing into the suburbs of Zaporozh on the big bend of the Dnieper and closing in on Kiev, ravaged and virtually abandoned Ukrainian capital.

The gates of the corridor to the Ferekop neck of the Crimea were swinging open under the hammer blows of Soviet troops fighting street by street through Melitopol.

Far to the north the crumbling of the Gornel hinge in White Russia brought the Soviet command nearer to the realization of its hopes of splitting the entire German front wide open.

### FIFTH ARMY NOW HAS ACCESS TO THE MAIN HIGHWAY LEADING TO THE CITY OF ROME

ALGIERS, Oct. 14.—The Fifth Army, launching its full dress push toward Rome, has smashed across the Volturno river above Naples and established strong bridgeheads into which tanks and big guns are pouring to support the battles against fierce German resistance.

A co-ordinated attack by Allied shock forces, assault boats, swimming troops, and guns massed along the south bank of the Volturno broke the German defense line and won springboards for liquidation of the river fortifications and the long awaited drive on Rome.

The Allies attacked in darkness after crushing a German assault which won temporary footholds on the south bank of the Volturno. The announcement of the offensive was delayed pending a definite trend in the bitter struggle north of the river.

The footholds on the north bank of the Volturno, on either side of the Capua strong point 17 miles from the mouth of the river, were secured under heavy German mortar, machine gun and rifle fire, and now are being strengthened swiftly with heavy armor.

To the northeast the American and British forces gained new ground all along the line. The right flank of the Fifth Army swept beyond the Calore river, a tributary of the Volturno, to capture the town of Guardia—an advance of almost six miles in the central sector.

The British Eighth Army reported good progress generally along with the capture of Gildone, nine miles northwest of Gamberale, which brought the line within eight miles of Vinchiaturo, key junction on the Temoli-Naples highway.

Lieut. Gen. Mark W. Clark launched his sledge hammer drive against the Volturno line as soon as a pause in the heavy rainfall brought firmer footing.

The Germans had timed and launched an attack which coincided with the Allied assault. It carried across to the south bank of the Volturno near Capua. The Allied onslaught swept the Germans back with sufficient momentum to break their grip on the north bank and fix the first Allied footholds.

The primary importance of the Allied bridgeheads on either side of Capua lay in the fact that the main road to Rome runs through that town.

### GREEN RE-ELECTED

BOSTON, Oct. 14.—The American Federation of Labor today re-elected President William Green for his twentieth term as head of the labor organization. A single ballot was cast.

### NINE CASUALTIES

BRECKENRIDGE, Oct. 14.—Two Stephens county men have been reported killed in action in Italy, four are listed as missing and three wounded. All the casualties were former national guardsmen.

### STRIKERS RETURNING

ATLANTA, Oct. 14.—Nearly all of the 3,500 striking truck drivers in six southern states returned to their jobs today, but the vote to go back, a Memphis union spokesman said, was coupled with a notice to strike if the WLB does not take action on their wage rate request in 30 days.

**'WAY DOWN IN CONNECTICUT**—It's cotton picking time in Stamford, Conn. Crop is probably first of its kind grown in Nutmeg State. It's an experiment at American Cyanamid laboratories to observe effect of a chemical that brings premature leafless condition, easier to harvest.

# THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

A. E. O'FLAHERTY, Publisher and General Manager;

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D avenue, Cisco, Texas.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year by mail (outside Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties, Texas; outside the above-mentioned counties \$3.50; \$4.75 in U. S. outside of Texas.

Per year, in advance (Cisco) \$5.00  
Per week, by carrier boy 12c

## SPIRITUAL.

President Roosevelt, in a letter encouraging Religious Week, said: "We have already proved that we are the arsenal of democracy; but this accomplishment, great as it is, will not suffice to gain us that just and durable peace for which we strive unless we prove also that we are an arsenal of spiritual values. We need to live above our immediate experiences, to see the slow, difficult but constant struggle of our forebears toward the realization of their ideals."

In the easy-going twenties, and the hard-going thirties, people tending to overemphasize material values. Now, under fear of losing everything, as so many of Europe's unfortunates have done, again comes a temptation to think that a peace which is merely the absence of war, a civilization in which there are enough jobs and things to go around, is all that is necessary. But it is not.

## THE LAW.

Sometimes the law has sense. A man brought to court the remains of a dressed chicken, which he had purchased as a live fowl for 39 cents a pound when the selling price was 34 cents. Roasting chickens had a selling price of 39 cents and the case hinged on whether the chicken was a fowl or a roaster. Chicken wholesalers said it was a roaster—that is, not over nine months old. Both sides agreed that the test was the hardness of the breast bone, so the chicken was cut open and the bone was undeniably hard.

Then the judge spoke: He had been a former farm boy and could tell how old a chicken was. This was an old hen, and he knew it when he first laid eyes on it. Evidence of the defendants' experts had no value. The defendant was declared guilty.

Argument might have proceeded for days, with no point. The introduction of the cooked bird

and the surgery upon it made all plain. Sometimes people wish all OPA decisions were as simple as that.

## HOUSES.

Can a house be built too well? Is there such a thing as a too-good house? Some people think so. Frank W. Cortright, executive vice president of the National Association of Home Builders of the United States, is one of them.

When a neighborhood, especially one near the center of a growing city, is built up with strong, substantial houses, they tend to outlast the group which built them. Because they are solid and handsome, no one thinks of replacing them with homes in a more modern manner. Because they are not properly remodeled, and maintained suitably to today's living conditions, they tend to fit with slovenly tenants and the hole neighborhood runs down. The former group moves to the edges or outside of the town and builds its new homes there. The better-built the house, the longer it lasts and the more desirably it degenerates.

Cortright believes that houses should be built to last not 100 years, nor even 60, but about 30 years, the average life of one generation. Certain ideas of "old-home" stability lose out in such a plan. But for the most part they are gone out of American life anyhow. A young couple starts in a small home, then buys a bigger, better one to house a growing family. Thirty years later the young birds have fled the nest, and the aging couple move to smaller quarters.

Many new ideas are floating around about homes—some architectural and some sociological. It will take time to shake them down and sort out the good ones.

## RUSSIA.

Can it be that the supposedly "Godless Reds" are turning religious again? Color has nothing to do with such a matter, but human nature has a great deal. And there certainly are signs not exactly of a religious "revival" in Russia, but a restoration of religious interest and tolerance.

From that may come a new development of religious faith and practice in Russia, slow but strong. In pre-revolutionary times, when left to their own devices, the Russians were very religious. Their dense ignorance, however, led the masses into lamentable superstition, under cor-

rupt and ignorant leaders. There is less danger of such abuses now, with a more literate and intelligent nation and a man like Josef Stalin holding the reins. The Russians seem to be slowly growing modern in their general thinking, as they have been doing in their industry and national defense.

## NIMROD

Rev. Floyd Allen of Rising Star filled the pulpit here Sunday and Sunday night and the church called him as pastor for another year.

Mrs. L. D. Stanaford returned last week from west Texas where

she had been visiting for some time.

Mr. and Mrs. Ed Townsend spent Sunday afternoon in the Cook community.

Mr. and Mrs. Clyde Stansell of Cisco visited in the home of his parents, Mr. and Mrs. Jim Stansell Sunday night.

Lonnie Jordan and family visited in the Branton Gin community Saturday.

Mrs. D. L. Allen is in the hospital at Gorman.

Mr. and Mrs. Ed Townsend called at the A. N. McBeth home Tuesday afternoon.

Mr. and Mrs. Herman Harrel-

son and children were Sunday dinner guests of L. D. Stanaford. W. N. Compton made a business trip to Cisco last week.

Rev. Floyd Allen was a Sunday dinner guest in the home of A. N. McBeth.

This era is "sophisticated," which means that dirty stories have moved from the livery stable to the bridge table.

All these years we've tried to remember to pronounce it leezure, and now a college professor on "Books and Men" says lazure.

The heroine always curls up with a good book. She doesn't care for books that would straighten her out.

MRS. S. H. NANCE HOSTESS TO CIRCLE.

Circle one of First Methodist society of Christian service met Tuesday afternoon with Mrs. S. H. Nance. The meeting began with the devotional, "Following Christ's Way of Service," brought by Mrs. B. E. Morehart, with responses read by the group.

Mrs. Leslie W. Seymour was leader of the program on mission work in Cuba and Porto Rico, in which she was assisted by Mrs. Wm. Joyner, Mrs. S. H. Nance and Mrs. J. E. Crawford.

Mrs. C. E. Paul then conducted the business session where reports were made by committee chairmen.

Refreshments were passed to Mrs. Wm. Joyner, Mrs. J. E. Crawford, Mrs. S. H. McCannles, Mrs. J. W. Slaughter, Mrs. Edith Rainbolt, Mrs. W. A. Cox, Mrs. B. E. Morehart, Mrs. Leslie W. Seymour, Mrs. Homer Ferguson, Mrs. C. E. Paul, Mrs. J. T. Fields and Mrs. Nance.

CISCO MUSIC STUDY CLUB MET WEDNESDAY.

Cisco Music Study club met at the club house Wednesday in the first meeting of the club season for a war service program. Mrs. Ben Krauskopf was hostess and passed each one present a printed program to which a favor of a hand-made French rebec was attached.

The first program number, "What the Federation of Music Clubs is Doing for the Men in Service," was told in a splendid talk by Mrs. S. H. Hittson; Mrs. C. E. Paul was presented in a vocal solo, "The Morning Wind," by Branscombe, with Mrs. Hittson playing piano accompaniment. Mrs. John Kleiner passed year books for the coming season to members; a vocal duet, "America My Home," by Albert Wooler, was sung by Mrs. A. E. Jamison and Mrs. John E. Walter, with piano accompaniment by Mrs. Hittson. Mrs. J. R. Burnett, guest speaker, was presented in a talk on "Music on the War and Home Fronts."

Those present were Mrs. F. D.

It's FALL Again! And all the things that go with this delightful season of the year—Football, hallowe'en and big sales on winter goods. It is well that people enjoy these things. In these gloomy times of war and loss of life many homes have felt the tragic hand of such bloody strife, and a vacant chair will never again be filled. But despite all this children have a right to be happy, normal life, and the gloom should not be allowed to settle upon them to blight the joy of youth. And this only reminds us that we should do all we can to end this curse upon civilization as soon as possible. We must cooperate with our government in every way so that the enormous expense may be met—We have put our hand to the plow; we cannot look back. There is light only in one direction—Forward.
