CISCO, TEXAS, TUESDAY, NOVEMBER 2, 1943

NUMBER 40

## ALLIED CASUALTIES IN ITALY ARE HEAVY

### 9 CISCOANS MAKE PROGRESS, WOLTERS

CAMP WOLTERS, Nov. 2.—Two Cisco men have qualified for air crew training in the Army Air Force (pilot, navigator, bombardier), while seven have passed the mental examination. The two qualified are Robert W. Donohoe and Robert J. Poe and the seven who have passed mentally are Martin O. Cleveland, Melbourne L. Clegg, Claud L. Satterfield, Mifford M. Johnson, Billy E. Britan, LeFaye A. Leuz and William R. Morrison. Upon passing a physical examination and a board of officers, these seven men will also be qualified. Qualified men will receive the air corps enlisted reservist wings.

Officers from the reception center aviation cadet board at Camp Wolters were at the local high school recently to administer the mental tests.

Men enlisted in the reserve are 17 years of age and will be called to active duty when they become 18, or have completed the school term in which they are enrolled upon their 18th birthdays.

### PUBLIC MUST OBSERVE POSTAL RULES

Copies of publications entered as second-class matter when mailed by the public to army personnel overseas in response to specific requests, may be accepted either singly or in quantities at the transient second class rate of one cent for each two ounces or fraction thereof, or the parcel post rate, whichever is lower, provided parcels are within the limits of weight and size prescribed for overseas mail, says Postmaster L. H. McCrea.

In the absence of request, copies of publications of the second class, if sealed and not exceeding eight ounces, may be accepted at the first class rate without endorsement for mailing to army personnel.

Postmasters have been cautioned not to accept from the public for mailing overseas newspapers and other publications of the second class which are not presented in conformity with the foregoing conditions, as they will not be dispatched from the ports of embarkation.

### ABILENE GETS HOUSE.

A. R. Geistman has purchased from W. H. LaRoque the property at 811 W. Twelfth street and will move the 10-room dwelling thereon to Abilene, where it will be rebuilt into an apartment house. The house was erected by Sam Hunt, contractor, about 1919. This is the fourth Cisco residence to be torn down and moved to Abilene within the past twelve months.

### MASONS FROM MANY POINTS HERE MONDAY

Thirteen members of Tabernacle lodge No. 1195, A. F. and A. M., Fort Worth, conferred the master's degree on two candidates at Cisco Masonic temple Monday night.

Approximately 100 Masons were present and many visitors were here in addition to the Fort Worth party. Three were present from Gordon, three from Putnam, two from Cross Plains, two from Eastland, one from San Antonio and one from San Benito.

W. W. Fewell, worshipful master of Cisco lodge, said today that the initiatory work as given by the trained men from Tabernacle lodge was very impressive and interesting. The visiting team extended an invitation to Mr. Fewell to bring the Cisco degree team to Fort Worth and put on the master's work at some time in the future. This invitation will be accepted, Fewell said.

The Fort Worthians and other visitors were entertained at dinner at the Savoy cafe preceding the initiatory work.

MURDER HOUSE—Luxurious estate of the late Sir Harry Oakes, in Nassau, Bahamas, called Westborne. It was here that multi-millionaire was found bludgeoned to death, a crime with which his son-in-law, Count Alfred de Marigny, was charged. Main building is at left. Connecting building leads to country club. Marigny pleaded not guilty.

### CHAMBER OF COMMERCE ATTENDANCE LOW

Directors of the chamber of commerce will meet at 8 o'clock tonight in regular session.

Attendance in recent months has not been what it should have been and President J. D. Lauderdale urges that all directors be present tonight if possible for them to do so.

The directors' roll shows the following names: J. L. Thornton, J. R. Deen, J. H. Allen, William Reagan, R. N. Cluck, E. P. Crawford, A. B. O'Flaherty, Dr. Charles Hale, C. E. Hickman, J. D. Lauderdale, T. J. McCarty, R. L. Ponsler, Nick Miller, L. A. Warren and A. E. McNeely.

### LONG, FAITHFUL SERVICE WINS ADVANCE

The war department bureau of public relations at Washington informs the Daily Press that Staff Sgt. Harry L. Gray of Cisco, son of Mrs. Winnie Tichenor of Brownwood, has been promoted to technical sergeant.

The Cisco young man has served overseas almost two years, much of the time in India and China. His promotion, the Washington release states, is the result of "long and faithful service."

Gray was born in Cisco and attended the local schools and also Texas university. He is a grandson of Mrs. C. Mobley of Cisco.

### WAR VET — Thomas Billie Harris, 14, of Denver, Colo., has agreed to seek annulment of his marriage to 13-year-old bride. He has already seen action in the Pacific and was discharged from both Navy and Marines after his true age was discovered.

WAR VET — Thomas Billie Harris, 14, of Denver, Colo., has agreed to seek annulment of his marriage to 13-year-old bride. He has already seen action in the Pacific and was discharged from both Navy and Marines after his true age was discovered.

SLAIN IN NEW YORK — At left is Mrs. Patricia Burton Lonergan, heiress to millions, found slain in her luxurious apartment in New York. She is shown with husband, RCAF Cadet Wayne Lonergan, taken in Toronto for questioning by New York police. Victim was bludgeoned to death.

HOT OVERHEAD—Yank doughboys make themselves comfortable in trench on Volturno River front, while Nazi shells scream overhead. Scarred building at upper left indicates some hot ones came over. But Yanks later broke through Nazi fire, crossed Volturno and put Nazis to flight.

### NON-LEATHER RATION-FREE SHOES BY JAN.

WASHINGTON, Nov. 2.—To relieve a shortage of shoes for small children, a new supply of non-leather types will be made available ration-free about the first of the year.

The OPA also announced the removal from rationing of limited stocks of obsolete shoes, selling at 61 a pair or less.

The increased supply of non-leather children's shoes will generally benefit youngsters up to about 8 years of age, wearing 'misses' or 'youths' size three or smaller. Larger sizes will be rationed.

### HOUSTON GETS RAIN.

HOUSTON, Nov. 2.—Nine and one-half inches of rain in 12 hours an all-time record, deluged downtown Houston today.

### M'ARTHUR STRUCK SUDDENLY

SOUTHWEST PACIFIC, No. 2.—In a sudden stroke to speed final reconquest of the Solomons, American invasion forces stormed ashore on Bougainville Island yesterday to seize Empress Augusta Bay and doom thousands of Japanese troops at outflanking bases on the southeast approaches to Rabaul.

The surprise landing on the largest—and most powerful held—island in the Solomons group was carried out by troops under Admiral William F. Halsey's South Pacific command against slight opposition.

A dispatch revealed that the invasion was made at Cape Torokina by American Marines. Cape Torokina is at the north end of Empress Augusta Bay, about half way up the west coast of Bougainville.

MacArthur's expressed hope that the Japanese fleet would offer a fight apparently was not realized as the convoy unloaded men and supplies and the troops fanned out over dense jungle trails and rugged mountains in drives that soon may result in battles with possibly 40,000 enemy soldiers.

### MAJOR TEST ON SUBSIDIES IN SENATE

WASHINGTON, Nov. 2.—President Roosevelt's appeal to congress for authority to pay food subsidies to keep retail prices down faces a major test in the senate this week.

The agriculture committee, whose membership has been predominantly hostile to the subsidy principle, has arranged a hearing for Thursday to consider a bill which would knock out the present dairy feed subsidy to milk producers. It would require instead that the office of price administration immediately boost milk prices 46¢ per hundred pounds, the equivalent of one cent a quart.

In addition, the bill would require the OPA within 90 days to fix milk prices on a regional basis at a level high enough to offset increased production costs.

WASHINGTON, Nov. 2.—A crusade is being launched by Representative Patton of Texas to obtain approval of Jesse Jones, federal loan administrator, to establish a \$3,500,000 iron ore works at Rusk, Texas. Patton said yesterday he was "getting fed up and impatient" over delays.

### NAZIS ARE TRAPPED IN CRIMEA

MOSCOW, Nov. 2.—A Russian armored spearhead smashed through the last German defenses on the Perekop Isthmus, and drove into the Crimea today.

The official German News Agency DNB said Russian forces in the Caucasus had swept across Kerch Strait and landed north and south of Kerch at the eastern tip of the Crimea in an apparent pincer offensive against the peninsula. Although the agency claimed that the "major part" of the Soviet forces had been wiped out, it admitted by implication that the Russians had established a bridgehead.

All signs pointed to speedy Soviet conquest of the Black Sea peninsula, which had been torn by wars since the year 1250. The German garrison had been decimated to a maximum of 90,000 troops, and had failed to halt the Russians even temporarily on the narrow Perekop Peninsula.

While Russian advance guards fanned out across the northern coastal plains of the Crimea, Gen. Fedor I. Tolbukhin's main forces were delivering the coup de grace to straggling tens of thousands of Germany's shattered southern army cut off by the lightning Soviet advance across the Nogaiski steppes.

### MINERS TO GO BACK TO WORK?

WASHINGTON, Nov. 2.—For the second time this year, the government took over operation of the nation's strike-paralyzed coal mines today and the seizure put the United Mine Workers' Union leadership in this position:

- 1. Order the strikers to dig coal immediately, or—
- 2. Sit tight and face the possibility of severe penalties under the War Disputes Act, which outlines punishment for anyone who encourages a strike against government-operated industry in wartime.

The UMW's 200-man policy committee was in session this afternoon to make its choice. A back-to-work order was considered almost certain.

### COLDER TONIGHT.

FORT WORTH, Oct. 2.—Freezing weather and heavy frost were forecast here for Wednesday morning as general cold gripped most of the state with the Panhandle reporting sub-freezing temperatures.

### AFTER 27 YEARS.

NORFOLK, Va.—A bottle bearing a note tossed overboard by a young enlisted navy man in the Pacific 27 years ago washed ashore near here and was returned to the original owner who lives in Norfolk.

### PLANE OUTPUT UP.

WASHINGTON, Nov. 2.—Production of military aircraft took a 600-plane leap upwards during October to reach the record high output of 8200 planes—within striking distance of the 10,000 a month goal for 1944.

### BRITISH FIFTH ARMY CRACKED SOUTH END MAIN GERMAN LINE; GAIN VITAL ANCHOR POINTS

ALGIERS, Nov. 2.—American and British Fifth Army troops cracked the southern end of the Main German defense line below Rome today, driving forward into vital anchor points at a high cost of lives to oust the Germans from strongly-held mountain positions.

Lieut. Gen. Mark W. Clark's men, in twin drives, hacked two major chunks from the Nazi "Little Rommel" line by storming the slopes of Massico ridge at several points and capturing most of the Matese mountains toward the center of the line.

Official commentators said the German line some 90 miles below Rome was not yet crumbling but that they had lost vital points which they had fought bitterly to hold.

Driving for a four-mile advance, British troops captured the town of Casanova to occupy high points on the Massico ridge coastal anchor of the enemy line, installing itself on high ground dominating the plains of the Garigliano river seven miles northward.

In the center Allied troops fanned out north and northwest of Teano to seize new high ground and at the northern end of the Fifth's front the Americans seized Matese mountain positions dominating the eastern side of the Volturno river and within heavy artillery range of the important enemy pivot at Venafro. Extent distant of the gain was not specified.

Weather and terrain dominated the forward battle front. All available mules had been brought up to carry food, ammunition and supplies and the troops themselves were forced to form human chains to pass up shells and heavy equipment.

While the Fifth had bitten two major hunks from the Little Rommel line, the Eighth was maneuvering below Isernia to dislodge the Germans from the crest of a pass five miles past Cantalupo.

In the air, Flying Fortresses raided the harbor of Spezia, formerly a powerful Italian naval base 52 miles southeast of Genoa, and a bridge northeast of Spezia.

Mitchell medium bombers, escorted by Lightning fighters, attacked the railroad yards at Rimini, on the Italian Adriatic coast and the ship building yards at Ancona, 57 miles southeast. A direct hit was made on a 500-foot merchantman in the Ancona harbor.

Enemy bombers attacked Naples last night and two of the raiders were shot down. No damage was done.

Allied night bombers and fighters hit Antedocco, 40 miles north of Rome, while U. S. Warhawks shot down two of five enemy planes over the Yugoslav port of Split. Wellingtons last night hit the railroad yards of Via Reggio north of Pisa. Two Allied planes were missing from all operations.

### TODAY'S NEW YORK ELECTION WATCHED

NEW YORK, Nov. 2.—New York and New Jersey elections and a scattering of other pollings today were expected to sample pre-presidential year political trends and test the solidarity of the New Deal-Democratic coalition organization.

Most significant contests were in New York and New Jersey where Democratic victories in statewide polls would signify a turn from last year's anti-New Deal tide and give further impetus to a fourth term movement for President Roosevelt.

Lt. Gen. William N. Haskell, Democrat, opposes State Senator Joe R. Hanley, Republican, in New York for lieutenant governor.

The New York vote will be the best available pre-presidential year test of the comparative pulling power of Republican Gov. Thomas E. Dewey and Mr. Roosevelt in their home state.

### REG ROBBINS' MOTHER.

FORT WORTH, Oct. 2.—Funeral services for Mrs. Laura D. Robbins, 66, mother of Reg L. Robbins, aviator, were held at 2 p. m. today at the Everman Baptist church. A resident of the Everman community for 30 years, she died yesterday at her home after a long illness.

ENVOY — Vladimir Hurban, Czechoslovakian Ambassador to U. S., returns to Miami after air clipper trip to Cuba and Haiti, where he is also accredited by his government.

### TO AVOID SECRECY.

AUSTIN, Nov. 2.—University of Texas Regents, long criticized for executive sessions, today announced that copies of the minutes of their meetings will be placed in the reading room of the University library and be furnished to the press. Copies will be available about ten days after the meetings.

# THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

A. B. O'FLAHERTY, Publisher and General Manager.

Per year, in advance (Cisco) \$5.00  
Per week, by carrier boy 12c

## WO'S RICH?

Pity the millions. Their income tax brackets are being broken over the heads. The extent of this deterioration is astonishing.

Taking for illustration the cases of two prominent capitalists, the late Edward and President Charles E. Wilson of General Motors, expert for the joint congressional committee on internal revenue taxation figures out these facts.

The income for the year 1941, in round numbers, were \$276,000 for Wilson and \$234,000 for Mr. Ford. The taxes would be \$176,000 and \$146,000. That would cut down to \$100,000 and \$88,000.

Tax assaults Pearl Harbor knocked such net incomes galley. Thus in 1942 Mr. Wilson would pay a tax of \$216,000, leaving him a net \$50,000, and Mr. Ford would pay \$179,000 and leave \$55,000 left to spend. The continued deterioration of two "spending incomes" in 1943 would leave Mr. Wilson \$15,000 and Mr. Ford \$41,000. When the estimates are made for 1944, the expert's calculations indicate that, if left, "before taxes," \$276,000 Mr. Wilson would leave \$18,000, and "after taxes" \$215,000, leaving \$19,000 for himself.

In view of these figures, the ordinary employe who works with his head might consider himself privileged.

## FOOD FOR THOUGHT.

Herbert Hoover, discussing the controversial question of an alliance between the United States and Great Britain, declares that such an alliance would be a "betrayal of the human race" to what would be regarded as "the enemy of the world by English-speaking people."

There are two sides to this question. Mr. Hoover represents the usual American attitude toward international alliances. Early American history, however, shows no such historic prejudice against the states was accomplished largely by an alliance with France and the Declaration of Independence expressly declares the right to make international alliances.

In the past generations the practice has been avoided, on the one hand, of "friendship for all and entangling alliances with none." But today many Americans, observing the new problems and perils of these times, are disposed to draw the hands of the world together. Honest nations, they argue, must do this to protect themselves from criminal nations.

## REAL ESTATE.

A boom in the prices of real estate would be as dangerous as any other form of inflation—perhaps more so. John B. Blandford of the F. H. A. warns prospective home buyers about it.

The way for families thinking of buying a home is to get a conservative appraisal of the value of the property. The local bank or real estate board will be able to give information about that. Then it is not wise to buy the place at a price much out of line with this appraisal. Long-term value is more important to consider than short-term profits. If you are going to buy a house, it is best to work out a plan which includes monthly payments on the principal. In some localities monthly payments also include insurance and taxes. This provides a regular method of taking care of all necessary payments at once, and is much safer than hit-and-miss methods.

Owning a home is good for a family. But the people who buy at inflated prices find themselves out on a limb with their property when more normal market values return, along with increase in building. If it becomes necessary to sell, too great a loss is incurred. Foresight is good in these matters.

## GOOD SPORTS.

Americans in general pride themselves on their sportsmanship, but it is sad to see, nowadays, how often such honorable pride "goeth before a fall." This

in such pledging is observed also in many other states.

This is a matter in which sportsmanship pays in more ways than a clear conscience. A New Orleans survey reports that compliance with the OPA regulations has already cut food cost two per cent and the over-all costs of living five per cent.

The German rocket guns are not so new after all. Witness the line in the "Star Spangled Banner": "the rockets' red glare." This referred to rocket guns used by the British in the 1814 bombardment of Fort Mifflin, which inspired the song.

## COLLECTIONS DROP.

AUSTIN, Nov. 2.—Gasoline tax collections during October totaled \$4,101,315.95 in Texas, a decline both from September and from October last year, says State Comptroller George H. Sheppard. The figure is \$213,409 below September and \$574,861 under October last year.

There really is no use worrying about your future. Hopes for old folks are getting to be bigger and better all the time.

JUST BACK-SCRATCHERS—Mascots on Central Pacific island get backs scratched by trio of Yankee fighters. From left: Sgt. Arthur Bisner, Albany, N. Y.; Cpl. Ralph Flores, New York City, and S/Sgt. Frank Richards, Castleton, N. Y.

The Japs fight well. It is just the old story of a good little fighter and a good big fighter.

The final proof of love is that a woman with a regular job still finds time to "do" her husband's shirts.

Paper must be precious. When publishers use fine print in novels, it means paper is worth more than eyes.

## Action Under Vesuvius

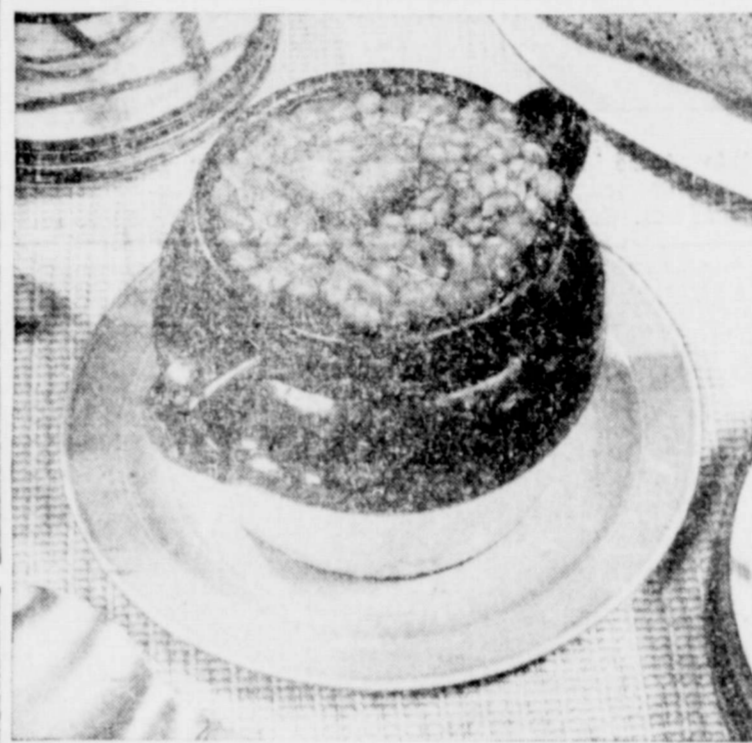

IN THE SHADOW OF MT. VESUVIUS, anti-tank gunners of a British regiment have set up their weapon at a vital crossroads. General Mark Clark's victorious Fifth Army is composed of about equal numbers of Yanks and Tommies who are together driving the Nazis northward through Italy.

IN MARIGNY TRIAL—Contents of a "filthy letter" said to have been written by Mrs. Ruth Fahnestock, above, former wife of Count Alfred de Marigny, may be revealed in trial of Count, charged with murder of Sir Harry Oakes, in Nassau.

## Baked Beans With Wine Boast Extra Flavor

**Baked Beans, Tokay**  
1 quart dried navy beans  
1/2 teaspoon soda  
1/2 cup molasses  
1/2 cup brown sugar  
1/2 teaspoon dry mustard  
2 teaspoons salt  
1/4 teaspoon pepper  
1/4 pound salt pork  
1 cup Tokay, Port or Muscatel wine  
Soak beans in cold water overnight. Drain, cover with cold water and add baking soda. Bring to the boil and boil fifteen minutes. Drain, cover with fresh water and bring to the boil again. Drain. Place onion in the casserole or bean pot. Add beans. Combine molasses, brown sugar, seasonings and the wine and pour over the beans. Cut salt pork into small pieces and press into beans. Add enough water so that beans are covered with liquid. Bake, covered, in a slow oven (325 degrees F.) five hours, adding more water when necessary to keep beans from drying out. Remove cover, bring salt pork to the surface and bake one hour longer.

**PROTECTIVE SERVICE**  
**FALL CONDITIONING**  
• A Complete Wartime Service Helps Your Car Last Longer

- LUBRICATION, using winter-weight lubricants.
- MOTOR OIL removed, crankcase flushed, and refilled with winter-grade oil.
- TRANSMISSION flushed and refilled with proper oil.
- DIFFERENTIAL flushed and refilled with correct gear oil.
- OIL FILTER inspected.
- TUNE-UP motor for faster starting, better gasoline mileage.

**NANCE MOTOR COMPANY**  
Phone 244. Night 246.

It may prove nothing, but no intelligence test includes questions about Superman or Dick Tracy or the others.  
An alliance to preserve peace isn't new. Our states made one; the people of every community make one.  
Relatives think Margaret's trouble is really money. She gets over a spell when husband borrows money to her go shopping.  
No black market steak. We like to know that the "Moo" and not the "Meat."

Corner E at 8th.

**LT. JANE ARMY NURSE WRITES TO MRS WILLIAMS**  
Dear Mrs Williams,  
Don't think that here on the battlefront we don't appreciate all that volunteer workers are doing at home, especially in salvaging waste kitchen fats. At present I am in charge of a section of an Air Corps hospital and so I know how much good and plentiful ammunition means to a flier. The glycerine from one pound of waste kitchen grease will fire ten machine gun bullets.  
You know. Not only that glycerine is used in the base of many healing drugs and ointments, which means that your waste fats work double time and overtime. Our hats are off to you volunteer salvagers and we are depending on you to keep the waste fats pouring in to your meat dealer.  
Sincerely, Jane

PARTY AND HAYRIDE SATURDAY NIGHT.

Carolyn Crofts, daughter of Mr. and Mrs. Sutton Crofts, entertained her friends Saturday night with a hay ride and hallowe'en party. The guests, in costume and masks, were met in town by a ghostly driver on the hay truck and spirited out to the ranch home of the Crofts, which was spookily decorated and lighted only with candles and jack o'-lanterns. After an unmasking game involving fortunes and forfeitures,

the prize for best costumes went to Betty Dean Lennon and Helen Raye Edwards, who were dressed as Raggedy Ann and Raggedy Andy. Honorable mention was given Mrs. Ernest Lennon for a highly original costume.

The evening was spent gaily with conducted tours to an underground chamber of horrors, visits to the gypsy fortune tellers, apple hobbling and other games. Refreshments of hot doughnuts and cocoa and hallowe'en candies were served before the trip back to town. Mrs. Crofts was assisted in serving by Mrs. Ernest Lennon and Mrs. George Atkins.

The guest list was as follows: Misses Katie Lou Atkins, Bettie Dean Lennon, Betty Jo Thurman, Dana Thornton, Catherine Scott, Helen Raye Edwards, Emma Lee

Donohoe, Carolyn Fewell and Messrs. Bobby Joe Carrothers, Pat Fee, Bill Purifoy, Billy Don Baker, Mickey Collins, George Fewell, Gene McQuay and Bobby Walker.

DELTA KAPPA GAMMA OPENED NEW YEAR.

Beta Upsilon chapter, Delta Kappa Gamma, opened its year with a noon luncheon Saturday on the roof of Laguna Hotel. The tables were attractively decorated with roses and chrysanthemums featuring the fraternity colors, with plate favors carrying out the theme of hallowe'en.

After luncheon, Miss Marion Chambliss, the outgoing president, presided. Each member told how she spent the summer. This was followed by installation of the

following officers: Miss Ella Andrews, president; Mrs. Katherine Healy, first vice president; Mrs. Thelma Berry, second vice president; Mrs. Vivian Grantham, recording secretary; Miss Doris Jo Pyle, corresponding secretary; Mrs. Irene Hallmark, treasurer; Mrs. Viola Bagwell, parliamentarian. A short business session followed.

After the business session Mrs. Minnie Hill and Miss Nellie Yunk gave interesting discussions on Federal Aid to Education. The meeting closed with a song led by Miss Ella Andrews.

The following members were present: Mesdames Lucretia Irby, Katherine Healy, Vivian Grantham, Irene Hallmark, Ina Stamey, Kate Allen, Ora Kirklen, Minnie Hill, Anna Mae McNeel, Berta Hazlewood, Alice Johnston, J. E. Crawford, Naldine Briscoe and

Misses Pearl Donoway, Doris Jo Pyle, Isadore Grimes, Marie Winston, Marion Chambliss, Lois Leary and Nellie Yunk.

TWO DEPARTMENTS ENTERTAINED SATURDAY

Mrs. A. E. Jamison and Mrs. P. R. Warwick entertained the primary and beginner departments of First Presbyterian Sunday school with a party Saturday afternoon at the church.

Mrs. Jamison's class met early to make a scrap book and both classes played games on the church lawn. They then marched into the church to sing hymns

with organ accompaniment played by Miss Doris Jamison.

Refreshments were served to Billy Stevenson, Carol Donohoe, Elizabeth Ann and Jimmie Klenner, Bobby, Donny, Nancy and Jackie Qualls, Patsy Donohoe, Dot and Dush Crofts, Louise, Josephine, Kenneth and Joe Woodward, Miss Doris Jamison, Mrs. A. E. Jamison and Mrs. P. R. Warwick.

METHODISTS OF THIS DISTRICT CONVENE

FORT WORTH, Nov. 2 - The seventy-eighth annual session of

the Central Texas Conference of the Methodist church met here today and will continue in session through Friday at First Methodist church, with leaders expecting heavy attendance. Bishop Ivan Lee Holt of Dallas is presiding.

The conference embraces ten districts, including 443 churches with membership of 180,000.

Rev. H. B. Selah of Oklahoma City is the conference preacher. Both meetings will be held each afternoon.

Arrangements will be announced at the concluding session Friday afternoon.

England and America could dominate Europe and Asia for a time if they and Asia combine against.

MANY FINE HEREFORDS TO SHOW AT DALLAS

More than 400 animals (232 bulls and 230 females) are entered by 85 of the nation's top breeders for the 1943 National Hereford Show to be held in Dallas Nov. 15-20. Seventeen breeders are from eight states other than Texas.

Prof. E. A. Trowbridge, head of Missouri University's animal husbandry department, will award rib-

Trowbridge

bons with firsts carrying a top of \$100 in all major classes of a \$29,000 premium list.

"It is impossible to estimate how much rubber will be saved by this big concentration of fine cattle," declared Jack Frost, president of the sponsoring Texas Hereford Association. "Buyers will not have to drive from ranch to ranch seeking herd needs. Here they can compare desirable cattle side by side. Also have 60 fine animals, consigned by 23 breeders, for the sale on Nov. 17, date on which judging will be completed. If breeders endure today's difficulties of fitting herds and transporting them to Dallas, then it's a cinch they have some fine cattle to exhibit," he said. Association Secretary Tom G. Paterson has seen many of the cattle and declares it would be a fine show under normal conditions. He is enthusiastic over loyalty shown by breeders this year. "They realize that expansion and improvement of the breed is better served by a show than by anything else," he said.

WREATH HONORS BISHOP

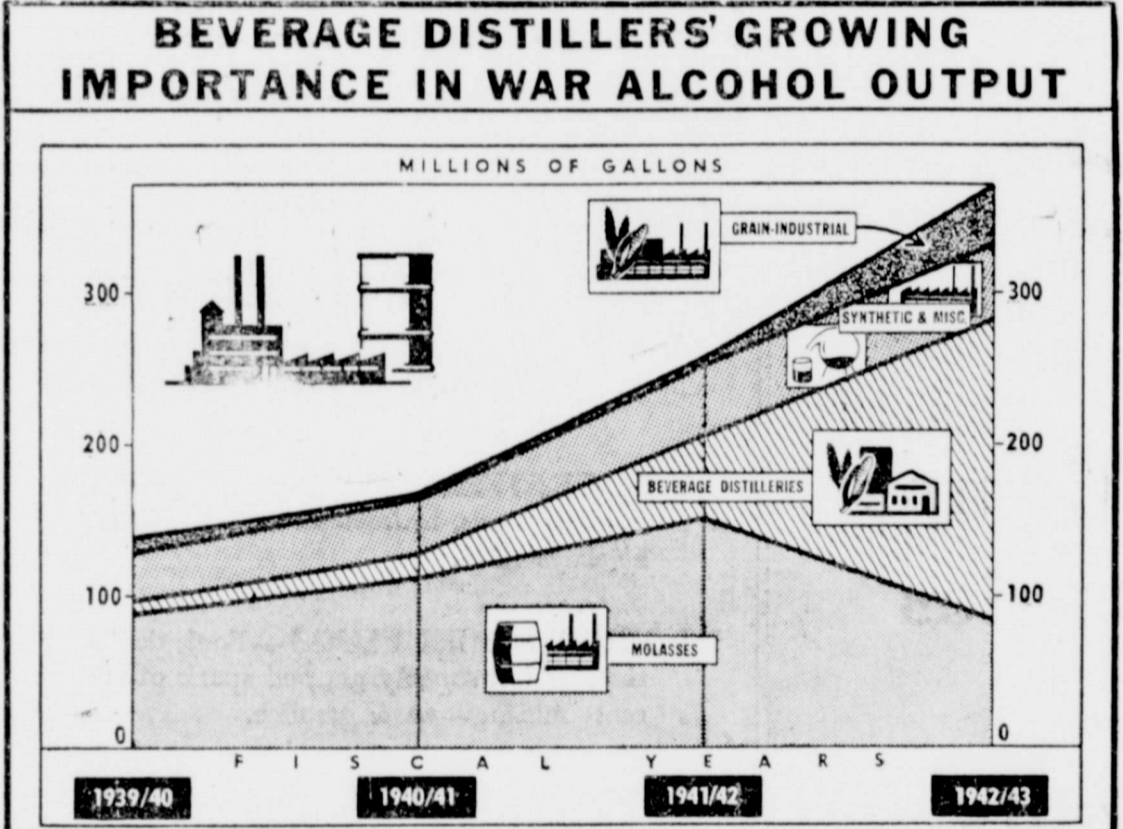

ICELAND - The Rev. Dr. William B. Pugh of Philadelphia, in assuming the unfinished mission to Protestant forces overseas, begun by the late Methodist Bishop Adna Wright Leonard of Washington, D. C., made a pilgrimage to the cemetery here where the 14 victims of an Army plane crash last May are buried. Aided by Deputy Chief of Chaplains, Col. George F. Rixey, U. S. A., and eight Army and Navy Chaplains, Dr. Pugh conducted memorial rites.

Dr. Pugh, Stated Clerk of the Presbyterian Church, U. S. A., succeeded the Bishop as chairman of both the General Commission on Army and Navy Chaplains and the Service Men's Christian League.

A human link between their home churches and the nation's servicemen and their Chaplains, Dr. Pugh, by the time he returns late in November, will have covered nearly every front.

KNOW THEIR GRAPES - Italian prisoners of war help harvest grapes on William Russe farm near Fredonia, N. Y. They receive 80 cents a day for their labor, as compared with 26 cents a day in the Fascist Army. Each prisoner gets \$3 a month credit at canteen. Balance will be given him when Allied victory frees him.

In the year ended June 30, 1940, 6.6% of the total alcohol output in this country was produced by the nation's beverage distilling industry. In the fiscal year ended June 30, 1943, beverage distillers produced 152,400,000 gallons of alcohol, plus 44,900,000 gallons redistilled from low-proof spirits, or 197,300,000 gallons, which is 52.6% of the total. This vital commodity is used primarily in the production of smokeless powder and synthetic rubber. No whiskey or gin has been produced for beverage purposes since October 8, 1942.

A Good Job, Well Done--

Those of us who have lived in Eastland County long time are not surprised at anything that happens. When the September bond quota was announced the size of the figure and the magnitude of the taking, made us dizzy. But intelligent leadership, perfect co-operation from the ranks did a great job. There will be future quotas, and with the same leadership and loyalty by us who follow, we cannot but expect a similar result.

What's Up With WAR BONDS

The Airplane is one of the most important of modern warfare transport of planes and a base for landing and refueling high seas where operation based planes is impossible to the success of the war.

On several carriers under construction, but the need for more is great. The cost runs into millions of dollars, depending on the carrier. Your War Bonds will help pay for them which have played an outstanding role in our Pacific. INVEST AT LEAST 10 PERCENT of your income pay day in War Bonds. U. S. Treasury Department

LIGHT BUT FAST—Hal Hamberg of Lonoke, Ark. who weighs 150 but played key role in scoring each of Navy's four touchdowns against Georgia Tech. He threw three touchdown passes, scored on himself and reeled off an 80-yard kickoff.

**Electricity for**

- Training Camps
- War Industries
- Hospitals

- Home Conveniences

Right at the Flip of a Switch!

MOST people take electric service for granted. We expect that when our fingers flip the switch, the lights will flash—INSTANTLY! AND THEY DO!

The same is true of power for the lathes, punches, riveters and other machines that make our war weapons, power to light our factories for night shifts, power to take workers from their homes to their jobs, and back. It's always there, right at the flip of a switch.

HOW DID IT GET THERE? That's another story—much more complicated, but very interesting. It's the story of a people who saw a job to do, and rolled up their sleeves and did it. Call it initiative—call it free enterprise—it's the spirit that has made America great!

The people in our company have that spirit. Years ago they saw the need for electricity that was more plentiful and dependable than ever before. Transmission lines extending into many territories in West Texas, bringing economical electric service to both large and small towns—that was the answer to that need they believed, AND IT WAS! They built the lines and the power plants.

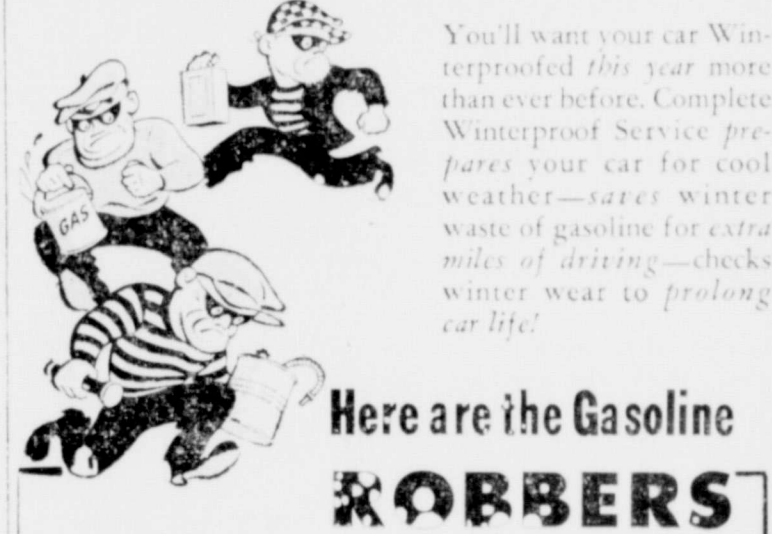

Today, we have an interconnected system of steam power plants, each independent of the other, yet so linked together that power is automatically switched from one region to another in event of mishap.

It's the most dependable system the world has ever known.

It's yours—all at your fingertips—right at the flip of a switch!

**West Texas Utilities Company**

SAVE GASOLINE Winterproof!

You'll want your car Winterproofed this year more than ever before. Complete Winterproof Service prepares your car for cool weather—saves winter waste of gasoline for extra miles of driving—checks winter wear to prolong car life!

Here are the Gasoline **ROBBERS**

- WEAK BATTERY**—Robs your gasoline. For easy starts, hydrometer reading should be above 1.225.
- FOULED SPARK PLUGS**—Foul, defective, or improperly gapped spark plugs cause missing—waste gasoline.
- DIRTY AIR CLEANER**—Dirty Air Cleaners promote engine wear—rob power.
- RADIATOR TROUBLE**—A clogged radiator, or low coolant level, causes engine overheating—wastes gasoline.
- DIRTY MOTOR OIL**—Causes sludge, sticks valves and rings—wastes oil and gasoline.
- NEGLECTED CHASSIS**—Wears rapidly, creates drag, robs power—wastes gasoline.
- STIFF GEAR GREASE**—Causes hard starts, puts extra load on motor—wastes gasoline.
- SOFT TIRES**—Increase road resistance—waste gasoline and rubber.

**Winterproof Now**

At the Sign of the Flying Red Horse!

Official War Message: SO EFFICIENTLY... WASTEFULLY! American home kitchens are the world's most efficiently equipped... and the most wasteful! Last year alone, as much food was wasted as was shipped to all our Allies under Lend-Lease! Cut down waste these three ways: Buy food more thoughtfully... Prepare it more carefully... Use it more wisely!
