## JAPS FACE MARINE TANKS IN SOLOMONS

### TRUCKS WILL PICK UP CANS NEXT TUESDAY

In a committee meeting Tuesday afternoon President R. W. McCauley of the Lions club organized a drive to gather all available tin cans.

Starting at 5 o'clock next Tuesday afternoon (Nov. 16), trucks will visit every home in the city to pick up cans the householders have placed at the curbs in front of their homes.

Mr. McCauley urges that the cans be assembled before the hour mentioned. They are badly needed by the government and this is an opportunity for you to again demonstrate your good citizenship.

The drive for tin was begun some time ago by the Lions and a great deal of the metal has been brought in, it is stated; but, owing to an immediate need, the Lions have arranged to go out into the city and gather it in. The cans need not be washed, Mr. McCauley said.

Other members of the committee are N. C. Huston, C. M. Nevill, L. W. Seymour, Harry Schmidt and W. H. LaRoque.

### NOVEMBER QUOTA IS \$54,700

The Daily Press, Cisco, Texas. The Federal Reserve Bank of Dallas has finally given Eastland county credit for sales of the seven government securities in our Third War Loan Drive for the month of September in the amount of \$938,146.50. It will be recalled that our quota was \$597,500, so it will be seen that we oversubscribed our quota in the approximate amount of sixty per cent.

This is far above the average in the state as a whole and far above the average of the nation as a whole.

You will recall as a result of such a good showing for September that we were not assessed the usual quota of \$50,400 for October, but were told to rest during that month.

We now have our new quota for the month of November, which is \$54,700, and this is to cover the sale of Series E, F and G bonds.

In other words, we will get credit on this quota for all Series E, F and G Bonds that are sold in the county during the month of November, but if any other government paper is sold during that time we will not get credit on the same.

So, as we are all very anxious to continue to make our county quota, I hope it will be found to be the best interest of each purchaser to make his purchases in Series E, F and G Bonds.

The war is moving fast now on all fronts in our favor and let us as citizens move forward here with the same speed in subscribing the November quota.

CYRUS B. FROST, Eastland County Chairman.

### NAZIS FIND GOING BAD IN ITALY

ALGIERS, Nov. 10.—American and British troops fighting in seas of mud have smashed nine German counter-attacks, inflicting heavy casualties on enemy ranks, it was announced today as a growing battle raged on the Nazi line designed to stop the Allied march toward Rome.

Blasting back every enemy tank and infantry lunge as rainstorms swept the sodden western Italy battle area, Lt. Gen. Mark W. Clark's Army refused to yield a single foot of ground to the Germans.

Rank after rank of the enemy fell to Allied gunfire and prisoners were gathered in all along the line as Germans strove to protect the mountainous core of the line their commanders had ordered held at least for eight weeks and possibly through the winter.

Captured enemy documents revealed the German high command had issued orders that the Fifth striking forces trying to breakthrough on the main road from Capua to Rome must be held at all costs.

Practically all divisions of the Fifth except those at the Garigliano river coastal sector were sent into the battle while files of Allied guns raked the German forces that shoved out heedless of costs in attacks continuing for 24 hours.

Fighting was particularly fierce on the American sector of the front northeast of Venafro where the Nazis fought futilely in an attempt to blast the Yankees into the Voltorno River Valley.

### MRS. SOPHIA NANCE DIED EARLY TODAY

Mrs. Sophia Nance, widow of W. B. Nance, who died in 1906, and stepmother of S. H. Nance of Cisco, died at 12:15 a. m. today at the home of her daughter, Mrs. Lee Bills, in DeLeon. She was 84 years of age.

Deceased was a most estimable woman, a member of the Methodist church since childhood and had been ill about three months. Before her last illness she was unusually active for one of her age. She visited the Nance home here frequently, as well as in the home of Mr. and Mrs. Howard D'Spain, with whom she was connected by marriage.

Surviving children besides Mr. Nance are Olin Speegle of Pasadena, Calif., a retired army officer, and Mrs. Lee Bills.

The funeral will be held at the First Methodist church in DeLeon at 10 o'clock tomorrow morning, with burial in the family cemetery at Moran.

### BOUGAINVILLE BATTLE INTENSE, BUT YANKEES ARE GAINING THEIR OBJECTIVES

SOUTHWEST PACIFIC, Nov. 10.—U. S. Marines have thrown tanks into a raging battle against Japanese forces landed in a major challenge to the hard-won Bougainville Island beachhead in the Solomons.

Locked in a struggle rivaling Guadalcanal as their corps marked its 168th anniversary, the Marines were reported cutting their way through possibly 3000 enemy troops slipped ashore north of Empress Augusta Bay by barge.

Many Japanese died in the first phase of the fight Sunday, the day after the night enemy landing near Atsinima Bay seven miles north of Cape Torokina, on the Bougainville west coast, scene of the Marine landing on Nov. 1. United Press Correspondent George Jones reported from Admiral William F. Halsey's advanced South Pacific Headquarters.

Jones said as many as a regiment of Japanese—around 3000 men—may have come ashore Saturday night, landing on a strip of beach some two to three miles north of the mouth of the Laruma river whose course marked the northern line of the Marines. The river mouth lies some five miles north of Torokina.

Gen. Douglas MacArthur's spokesman said the Japanese landing was "not opposed but a message said Allied aircraft had destroyed or damaged "numerous barges" in Atsinima Bay Sunday besides strafing enemy rear areas.

Jones' dispatches indicated that Marine medium tanks put ashore by Allied boats had made a crossing of the Laruma to engage the Japanese as the Marines pushed northward to wipe out the threat which the enemy mounted despite an Allied air-sea blockade of Bougainville, northernmost and largest of the Solomons.

MacArthur's headquarters reports fixed the enemy's strength only at "several hundred" men. Halsey's Headquarters did not speculate on whence the Japanese came but indicated it may have been Buka, to the north, or Shortland Island, to the south of Bougainville. Strong enemy forces are concentrated at several places on or near the island. Anti-aircraft fire at Atsinima Bay indicated light enemy defense guns had been taken ashore.

Enemy aircraft aided the Japanese landing, dropping more than 50 bombs on Allied beach and inland positions. Night bombers also raided Munda, on New Georgia to the south, twice.

No fighting south of the Marine beachhead was reported. An official estimate set the Marine casualties in establishing the foothold at Bougainville at 60.

Allied torpedo and dive bombers, aided by fighters, hit at Buka, Kieta and Kahili, on three sides of Bougainville, and at Japanese gun positions and supply areas near Empress Augusta Bay in support of the Marines.

### REDS MOVING NEARER POLISH BORDER

MOSCOW, Nov. 10.—Gen. Nikolai F. Vatutin's Red army was reported closing in at a 10-mile a day pace today against Korosten, Zhitomir and Vinnitsa, Ukrainian anchor bases of the undermined German defenses before Poland and Rumania.

Southeastward 500 miles other Russian forces clamped a pincers against Kerch from bridgeheads on either side of the ancient town tipping the eastern Crimea, and the collapse of German resistance appeared near.

Front dispatches also reported fierce fighting in the Perekop Isthmus region of the Crimea, where scores of thousands of German troops were trapped under crushing assault from two directions.

#### MORE WAGE DEMANDS.

NEW YORK, Nov. 10.—The Iron Age, a trade publication today said that in addition to the loss of 110,000 tons of steel, the fourth coal strike had set off "spiraling wage demands which it granted may bring pressure for higher price levels."

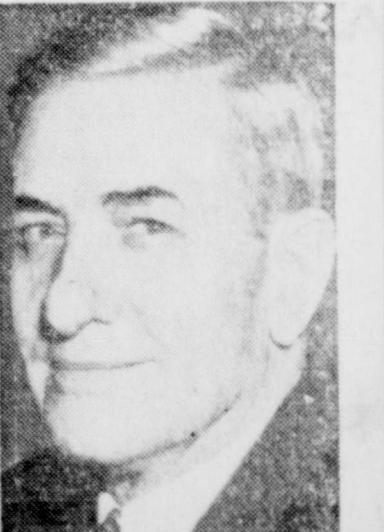

And when a hamburger or a handkerchief costs \$3.98, officials will still be saying "We must prevent inflation."

#### AMERICAN EARNINGS.

WASHINGTON, Nov. 10.—American earnings hit an all-time peak with gross income of \$103,088,000,000 in the first nine months of 1943, with indications the year would yield a total of \$142,000,000,000. The treasury reporting the figures, said Americans are spending at the unprecedented rate of \$91,000,000,000 annually.

#### HEREFORD SALES.

CORSICANA, Nov. 10.—The 68 Herefords offered in the R. L. Wheelock sale here Tuesday sold for an average of \$650.67.

## AUSTRIA.

The restoration of Austria, promised by the Moscow conference, is good news. Few countries have played so great a part in history. Beginning under Charlemagne, Austria became later the bulwark that saved Europe from the Turks, and an important part of the alliances that in turn kept Louis XIV of France and Napoleon from universal empire.

Austria's later power was less glorious. For most of the 19th century it was the reactionary center of the world. Finally it became a mere puppet-on of Germany, having less and less life till the last spark was extinguished by Hitler.

Austria has something to offer the world, however. While it lived, the Danube valley was more prosperous than it has been since. Also the proverbial "gemutlichkeit" or easy-going temper of the Austrian Germans has made them delightful folk to be with. As a republic, freed from Hitlerite domination and possession of economic resources that were denied the short-lived Austrian republic that the Nazis ended, Austria could yet be useful. It deserves another chance.

## ENFORCEMENT.

Carter Glass, an elder statesman whose character and courage place him virtually above party, has raised his weary voice once more in a great cause. He cannot take his place in the senate among his colleagues, but he announces: "I stand now where I have always stood, without quibble or equivocation, behind a league of nations with power to prevent war and enforce peace."

He has plenty of support at last. Things are clearer today than they were in 1919, when a little group of men, most of them presumably sincere but some merely "well-to-do," prevented a world league for peace. It has taken the greatest and most destructive of wars to establish the principle of international cooperation and enforced peace. Obviously it had to come, to save modern civilization from destruction. There is no use in crying over spilt milk, but millions of Americans cannot help sighing, "If it could only have come then!"

There is here a lesson of humility, alike for statesmen and private citizens.

## HOOVER.

Herbert Hoover may lack political genius and the common touch, but he has a heart for people in trouble, and he instinctively turns to help where the trouble is greatest. He finds particular satisfaction in feeding hungry people. He fed millions in the last war, when the victims could be reached, and he is now preparing again to render such service for hungry and oppressed people in Europe.

He thinks this may be the last winter of the war, but it will be the worst for the millions there struck down by the Germans and robbed of their food and clothing. He urges cooperation of the United States government with the British, Swedish and Swiss governments in shipping and distributing supplies.

This is a characteristic American service, which should be rendered without question, and which can pay good dividends in human satisfaction and foreign appreciation.

## BAITING.

Hitler and Goebbels could get a lot of satisfaction from the Truman committee's ridiculous idea of making Britain start immediate repayment for loans-lend material. Also for the general tone of the committee's report. Much of it seems unfair, and at best it must have a bad effect on relations between Britain and the United States.

Level-headed commentators promptly reminded the committee that this nation is not fighting Britain. Also that, while some abuses naturally creep into a vast, cooperative war plan like Lend-Lease, there is probably as much to be said on one side as on the other.

Certainly it is that Britain held the fort and nearly exhausted her resources until America joined the war, when as events proved, it was really as much our fight as Britain's. Both nations have escaped an enormous tragedy by the skin of their teeth. Moreover, the Truman committee should know, and all Americans should realize, that when America entered the war unprepared, the British stopped themselves of surely needed supplies to bolster our own defense. And all along, Britain has done what she could to help American armament, providing essential materials of many kinds.

feeding American troops in Europe and so on.

Any antagonizing of Britain now is unjust and unwise. Whatever happens, these two kindred nations with a thousand bonds must get along together.

and students are in a more or less serious frame of mind, teachers say. Many of them are wishing they had been a little more studious during former study hours, but Registrar C. J. Turner reports that general progress is satisfactory.

It takes a certain length of time for young men and women to accustom themselves to the liberties given college students as preliminary training to adult citizenship, wherein a student must take him or herself in charge and be the one to regulate the amount of study and attention he or she gives to the subjects elected for the course.

Overweight Motor Oil Proved Non-Essential

See how safe and economical a surprisingly Light grade can be with your engine Winter OIL-PLATED

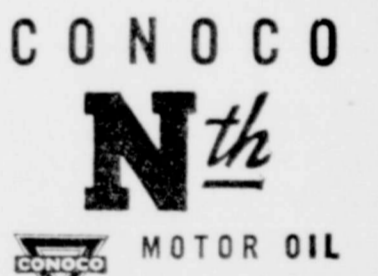

A motorist who kept a record for a month averaged only 2.7 miles between stops. Maybe you average twice that. Yet the "coupon shortage" means short runs—lots of stopping and starting. That's extra bad for your oil. The first hardships of Winter will find it unfit. This year, of all years, the height of economy is to change your oil promptly.

The lightest suitable oil you can use is best for your engine—your battery—your gasoline economy...best for lengthening your car's future! You needn't risk any overweight grade...not when you have your engine OIL-PLATED for Winter by changing to economical Conoco Nth motor oil.

The "magnetic attraction" that seems set up by a certain synthetic in Conoco Nth oil—patented—enables it to OIL-PLATE. All good plating forms a staunch protective surface, and that gives you the idea of OIL-PLATING. Now think of any OIL-PLATED part in your engine facing another OIL-PLATED part...double OIL-PLATING in between—plus Conoco Nth oil's regular-type liquid film that's extra strong! You can't get more protection than that, while with overweight oil you'd only invite needless drag and dangerous "absentee" lubrication in starting cold. Don't risk it. Consult Your Conoco Mileage Merchant for your lightest grade of Nth, and face Winter fully confident, with your engine OIL-PLATED. Continental Oil Co.

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops. Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids. But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.
