NAZIS FIGHT FIERCELY, BUT REDS ADVANCE

OVERSEAS MEN THANK LEGION FOR CIGARETS

The American Legion is receiving many acknowledgements from overseas soldiers and sailors who have been receiving cigars mailed to them from Cisco during the past four months, said Rex Moore, Legion member, Saturday.

With each carton of cigars mailed to the service men a return card is enclosed and recipients are asked to notify the Legion if the cigars arrived in good condition. Two of the acknowledgements read as follows:

North Africa—John William Butts Post 123, Cisco, Texas. Dear Sirs: Happy to get the cigars. Beve it or not, but they were the brand I prefer, which I have not been able to get since I left the states, five months ago. I think it was a nice gesture on the part of the Legion and the home people. You have probably read of the two invasions over here. I was in both and was lucky to escape injury. Of course, the grace of God had much to do with it. Would appreciate a letter from you. I am from Harvey, Ill. I will answer all I get. Thanking you again, I am, Robert E. Adams, first C. USS, Andromeda, C division, Care FPO, New York, N. Y.

Somewhere in the Mediterranean — Dear Sirs: I wish to thank you for the cigars. I have taken part in the invasion of Sicily and Salerno and my hope is that we can do as good a job as you fellows did in the last war. Yours for victory, Harry A. Johnson.

The American Legion will continue to ship the cigars abroad as long as the war lasts and Cisco men who wish to participate in the gift to soldiers and sailors may deposit their donation in jars at the following places of business: Laguna news stand, Ideal cafe, Savy cafe, Red Front drug, Dean drug, Moore drug, Bowling alley, The Man's Store, City drug, Paul Poe grocery, J.D.'s cafe, Nell Carmichael grocery, Hamp's cafe, White Way cafe, J. T. Elliott's, Firestone Service station, Cisco postoffice.

KID WEST, PIONEER OIL MAN DIED SUDDENLY

James H. West, 77, widely known oil operator, fine man and former resident of Cisco, died suddenly in Stamford, Friday. Mrs. West was enroute to California when death came and time and place of funeral and burial were not known to his Cisco friends Saturday.

Besides his wife, Mr. West is survived by a son, Jimmie West, who resides in Stamford and who is also well known in Cisco.

Deceased, one of the pioneer oil men of West Texas, was familiarly known to a wide circle of friends as Kid West. He was connected with Charles J. Kleiner of Cisco in the oil business.

PERSONAL INTEREST—Mrs. Joseph P. Cleland, nurse's aide, had personal interest in visit of Mrs. Eleanor Roosevelt, right, at Walter Reed Hospital, Washington. She had previously received picture of her colonel husband with Mrs. Roosevelt during First Lady's visit to Guadalcanal.

POISON GAS PLANT IS BOMBED

LONDON, Nov. 20. — Another big fleet of British bombers, sending a record 100-ton-an-hour Allied air offensive against Germany through its third night, blasted the Reich's largest sulphuric acid plant last night in a blockbuster assault that may have loosed poison gas on the area.

Sweeping over the Rhineland while Berlin still burned from Thursday night's raid, the RAF heavyweights bombarded the I. G. Farben plant at Leverkusen, a suburb of Cologne, with hundreds of tons of explosives and fire bombs.

Poison gas components were manufactured at the plant and it was considered possible that the blast of the British two and four-ton block busters, one of which could devastate a city block, might have released the deadly vapors.

The raid was on a far-smaller scale than the 1000-plane attack that only 24 hours before devastated vast areas of Berlin and Ludwigshafen, but nevertheless probably was sufficiently heavy to knock the huge I. G. Farben sulphuric acid plant out of production at least temporarily.

Only five planes were lost in the assault, which encompassed other key objectives in Germany's great industrial Rhineland.

The almost astronomical 50-hour British bomb tonnage total of 5000—an average of 100 tons an hour—compared with the grand total of 7500 tons of bombs dropped by German planes on London during the entire 11-month "blitz" of 1940-41.

FATHER OF H. L. JACKSON DIED FRIDAY

T. J. Jackson, 80, father of H. L. Jackson, 507 W. Third street, Cisco, died Friday at the home of a son in Walnut Springs. Burial was at Walnut Springs at 4 o'clock Saturday afternoon. His wife died in 1940.

Deceased is survived by three sons—H. L. Jackson of Cisco, W. W. Jackson of Waco and W. J. Jackson of Walnut Springs.

The Cisco son has been an employee of the West Texas Utilities company for the past sixteen years and is connected with the ice department.

PRESENT FROM NIPS—This queer-looking angular craft with drop stern, was presented by Nip forces to Yanks, when Yanks chased the Nips away, near Munda, New Georgia Island. It evidently was used for hauling troops. It has a double steel hull, sturdy kerosene-burning engine and capacity for about 150 men. Yanks find it convenient for ferry service.

NIPS CLAIM MANY AUSSIES SLAIN

SOUTHWEST PACIFIC, Nov. 20. — Australian troops attacked main Japanese defenses at Sateberg in a drive to crush the last major enemy pocket on New Guinea's Yuon peninsula while Allied planes scored new successes along a 3000-mile front from Java to the Solomons.

MacArthur's spokesman said the infantrymen who attacked Sateberg from Finschhafen, 10 miles southeast, on Tuesday had advanced to within a mile of the township by Thursday, when Mitchell and Marauder bombers struck the Japanese positions with 44 tons of explosives in four attacks.

Domei, Japanese news agency in a dispatch broadcast by Tokyo said 3000 American troops made the Sateberg drive with tank support and were repulsed with 500 dead and four tanks destroyed after two days of severe fighting. The enemy dispatch admitted only eight Japanese dead and seven wounded in the battle and said the American troops were being swept back. Allied reports indicated only Australian ground troops were in the area.

MORE CANNED GOODS BE RELEASED SOON

WASHINGTON, Nov. 20.—The War Food Administration announced today that additional "substantial" quantities of Government-held canned vegetables, fruits and fruit juices will be released for civilian consumption—much of it in time for the holidays.

Adding to the release of about 5,400,000 cases of canned food previously announced, the WFA said grocers' shelves will be stocked with 540,000 cases of pineapple and 77,000 cases of figs previously consigned to the government.

Unspecified quantities, which the WFA said would be considerable, of asparagus, corn, pumpkin and spinach also will be released soon.

WASHINGTON WALKED.

WASHINGTON, Nov. 20.—Settlement of the bus strike that has had 40,000 Washington commuters thumbing rides since Friday morning was announced Saturday, just too late to get Saturday workers to the job on time.

BOMB HARVEST—Boosting nation's scrap drive by more than 1,000,000 pounds, bomb "harvesters" at San Angelo, Texas, bombardier school reap this crop. Used bombs are collected from school's 18 giant target ranges where cadets practice.

SIX IN SERVICE—Widowed Evelyn Herl sits beneath service flag in her window in Washington, D. C., hoping some of her six sons will be visiting her soon. She is mother of 16 children. With that number in her family she has kept that sewing machine busy making clothes for her brood.

ROME RAIL LINES HIT BY ALLIES

ALGIERS, Nov. 20. — Allied troops have advanced on both ends of the Italian front to break a week's lull, it was announced today, with British Eighth Army troops driving forward five miles through stiff German opposition to capture Perano, northwest of Atessa.

Battling in miserable weather, the British forces inflicted considerable casualties on German troops who tried vainly to halt their push toward the flooded Sangro river. The advance was scored as American forces of the Fifth Army gained ground above Venafro, across the peninsula on the western end of the line.

Weather hampered aerial activity but fighters raided road and rail lines near Rieti, only 15 miles northeast of Rome, destroying or damaging several locomotives and freight cars.

The Eighth's successful attack, breaking a long weather-enforced lull on the warty front, took place 12 miles inland from the Adriatic while at other points on the Eighth's line patrols made thrusts across the Sangro River into the strong Nazi defenses northward.

WASHINGTON, Nov. 20. — States-rights Southerners in the House have iced the Federal-ballot plan for soldier voting, substituting system under which servicemen would apply to county election boards for ballots and vote under regular absentee procedure.

Opponents of Federal ballot in House Elections Committee numbered only three at the outset, grew to majority of 12-member group at the wind-up. Federal plan probably will get by the Senate, but that's all.

Organized dries protest to Congressmen against allocation of portion of beer production to Army camps. They complain the system requires soldiers to drink the stuff whether they want it or not. Untrue, says the Army.

Senators and House members get preferential treatment in the dishing out of butter at capitol restaurants, which are also open to Congressional employees and public. In Senate restaurant butter is served only to Senators. In

WASHINGTON, Nov. 20.—Second Lt. Robert Derrace Moser, 24, former Texas A&M College football star, was one of at least eight, and probably 10 men killed when two Flying Fortresses collided 20 miles east of Tampa. One crashed and burned.

Moser, the son of Mr. and Mrs. H. A. Moser of Stephenville was commissioned in the Army and assigned to Perrin Field, Sherman, after graduation from A&M in May, 1942.

PEACE FEELER.

LONDON, Nov. 20.—A German peace feeler was put before Anthony Eden during his recent visit to Turkey, Swiss sources reported here Saturday. The Germans asked that terms would be acceptable, but said total disarmament would be impossible; that some half million storm troops would refuse to give up their arms.

CHERKASSY AND OVRUCH TAKEN, TIGHTEN GOMEL STRANGLEHOLD AND PUSH FORWARD TO POLAND

MOSCOW, Nov. 20.—Russian reinforcements of tanks, men and planes rushed into the see-saw battle at the south-western tip of the Kiev bulge today in an effort to seal off a Nazi wedge, recapture Zhitomir and resume the Soviet drive toward Poland and Rumania.

Some of the fiercest fighting since the fall of Kiev raged on the approaches of Zhitomir as an estimated 100,000 Axis troops sought at all cost to throw back Russian forces threatening the escape corridor for Germans in the Dnieper bend.

On both sides of Zhitomir, however, the Russians were advancing steadily. To the southeast, they closed in on Cherkassy from a newly-won bridgehead on the west bank of the Dnieper, and to the north they pushed on toward Folland from Ovruch and Korosten and tightened their stranglehold on Gomel.

The Russians abandoned Zhitomir, 85 miles west Kiev, yesterday in their second admitted withdrawal in three days and took up newly-fortified positions behind the city pending a new drive forward.

German Marshal Fritz Erich von Manstein threw counter-attack after counter-attack at the Soviet lines. Russian artillery took a heavy toll of men and machines, but still the Germans attacked in an apparent do-or-die attempt to blunt the Soviet offensive.

(The German International Bureau, a propaganda agency, claimed that Russian troops were encircled at Zhitomir and enormous booty was captured, including a great many tanks and heavy "offensive weapons.")

The capture of Zhitomir did not bring the Germans any immediate tactical advantages, however, for the only railroads running through the city already have been cut to the north and east and were useless to the enemy.

The Russians consolidated their hold on the Odessa-Leningrad line with the capture of the junction of Ovruch. An air-borne division captured Ovruch and seized valuable booty, including railway trains, many guns, ammunition dumps and other equipment.

Capture of Ovruch brought a salute of 12 salvoes from 124 guns for the 4th Guard Airborne Division, ordered by Premier Stalin. Ovruch, just south of the White Russian border, was the fourth big German-held stronghold captured by the Red Army during the past six days. Although Zhitomir fell Friday, the two others, Korosten and Rechitsa, are regarded as potential bases for drives against the White Russian rail centers of Kulinkovichi and Zhlobin.

PLAN FOR SOLDIER VOTE ICED

WASHINGTON, Nov. 20.—States-rights Southerners in the House have iced the Federal-ballot plan for soldier voting, substituting system under which servicemen would apply to county election boards for ballots and vote under regular absentee procedure.

MUSICAL COMEDIES.

The current musical comedy, "Oklahoma," is said to be setting a new record for sheet music. More than 500,000 sheets have been sold, surpassing the previous mark of "Show Boat." With songs like "Oh, What a Beautiful Morning" and "The Surrey With the Fringe On the Top" to stimulate the sale, 9,000 more are being bought daily. Meanwhile packed houses and frequent radio musical renderings attest the popularity of this show.

Stage fashions come and go, but a really good musical comedy with singable airs is a sure bet. "Floradora," "The Merry Widow," "The Pink Lady," "The Student Prince" and "Rose Marie," to name only a few, ran so long that it looked as if they would run forever. And their tunes are a permanent part of America's repertoire of popular music. Still another, almost a contemporary of these earlier pieces, "Blossom Time," goes on year after year and still draws crowds.

Just now a good musical comedy offers a pleasant escape from troubles. Such a show, through rest and laughter, strengthens national morale.

LUXURY SPENDING.

A shabbily dressed woman with a shawl over her head went into a fashionable jewelry store the other day, and asked the price of a wrist watch set with rubies. It was a couple of hundred dollars. She forthwith pulled out a large mass of bills and counted off the money.

This, says the store manager, is nothing new. Whereas before the war 90 per cent of the business was what he calls "the carriage trade," now only 10 per cent falls in that class. The rest is made up of customers like this woman, who never before entered the store. The war has brought her money, and all that she can think of, to buy, is luxuries like this watch. Or she may have had experience with Nazi looting, and want to put some of her savings into small articles of worth.

Many people will be dismayed at such extravagance, and think it dangerous to the community. But is it? Of course she would do far better to put her money into War Bonds. But such startling expenditures really do no great harm. They do not, like panic hoarding of necessities, force the price up for articles that everybody must have.

But such lavish expenditures suggest that local committees selling war bonds have left a rich field untilled.

OIL FROM COAL.

At the present rate of use, petroleum supplies in the United States are said to be on the way to exhaustion in about 30 years. So Uncle Sam has been insuring himself against that day by research into processes of extracting oil from coal and other substances. Britain has been producing synthetic gasoline since 1935. Germany started making it in 1939.

But now here we are without any coal to spare. It's in the earth, of course. And when the black coal is gone, there will still remain vast deposits of that young coal in the Northwest known as lignite, which it has not yet paid to mine in any appreciable quantity.

But more coal than usual stays in the ground now. Miners don't seem much interested in mining it. If there is any humor in this situation, the joke — and not a very good one — seems to be on Uncle Sam.

November, 1920

(Files of Cisco Daily News)

The monthly report of enrollment and attendance for the second school month which closed November 5 sets a new high mark for the Cisco public schools. This report is somewhat unusual in several respects. First, the number of girls exceeds the number of boys enrolled by only fifty-nine, or eight and one-half per cent; second, the per cent of attendance of each school for the month is above ninety and that for the entire system is ninety-one and one-half; third, the enrollment already exceeds the scholastic census of last March by ninety-five students. Total enrollment at that time was 1,446.

One hundred and ninety votes were cast at the bond election of Nov. 15, 1933 for and twenty-seven against. The proposition was to issue the city's 5 per cent 40-year bonds in the sum of \$50,000, for which the city will obtain what is known as the Britton school property, consisting of 234 acres of fine land adjoining the city and on which is located three large buildings. The buildings alone are worth as much as the city is

paying for the entire property. There was an effort in the morning to organize some opposition to the issuing of the bonds, but it failed to materialize to any extent. One man was quoted as saying that he was opposed to the bonds because it was impossible to have a street dance in Cisco. That was the only reason heard for opposing the bonds.

There were more than one hundred officials, stockholders and representatives of the Texas company in Cisco yesterday. They arrived here in the morning on a special train of six Pullmans, a diner and buffet-library car. The party is on an annual inspection tour and having been over the Oklahoma field they are now completing a look at the north central Texas field and will go from here to the south Texas field, winding up their trip at Houston in time for the annual meeting of stockholders.

Tomorrow Judge J. J. Butts, chairman of the road committee; Sam Fowlkes, secretary of the Chamber of Commerce and an engineer from the Humble company, will travel over the road between here and the Hilburn field and note the progress of the work.

At 3 o'clock this morning some

unknown party fired a revolver shot through the plate glass window of the Daniels hotel. The ball buried itself in the wall of the office just back of the clerk's desk. A negro porter was sleeping near the shattered window and threw several fits before he discovered he was safe and uninjured.

Below is a summary of the report of Dr. Joseph W. Gregory, city health officer, to the state board of health for October. There were fifteen births and nine deaths in the city. There were four cases of diphtheria, one of typhoid fever. The typhoid cases were investigated and the board of health is of the opinion that these cases were infected outside the city. Both cases had rapid recovery. Most of the deaths occurring during the month were those of people between the ages of 58 and 80 years. Health conditions throughout the city continue good.

TIME MAGAZINE PRAISES CRUSADE PROGRAM

Rev. Leslie Seymour, pastor of First Methodist church, calls attention to the fact that an article in Time Magazine this week gives high praise to a movement just now being initiated under the title, Methodist Crusade.

The first step in the program which is to reach all of the approximately eight million Metho-

dist members of America is the sending out of a poster painted for the crusade by Howard Chandler Christy, which portrays Jesus with hands outstretched over a war-torn world. The title given the painting is "The Coming Peace and the Prince of Peace."

Mr. Seymour has received copies of this painting which will be displayed in the local church for the next several months as it will be also in the other 42,000 Methodist churches of America. The first purpose of the crusade is to stimulate the thinking of church people with reference to the kind of peace that must come after the war. No formula for that peace is being suggested for approval or disapproval, but members are to be called upon to think for themselves and make known their convictions.

In January mass meetings will be held in 100 strategic cities, these to be followed by smaller gatherings in all district and local churches. The church school literature, special study courses, selected books for reading and discussion, sermons and other agencies will be utilized to arouse in people to constructive thinking, with the belief that when the common folks of our country make

DOUBLE OCTET CLUB IN ABBOTT HOME.

The Double Octet Anniversary club was entertained in the home of Mrs. Mary Abbott Thursday in celebration of the birthdays of Mrs. Mack Stephens and Mrs. Mary Abbott.

Decorations of cut flowers, attractively placed, made gay the rooms of the house and the dining table was centered with a pretty arrangement of chrysanthemums in pastel shades, placed in a hollow pumpkin. Attractive cards marked places for the guests at the tables and a turkey dinner with all the garnishings was served buffet style. Mrs. O. M. Cory, a guest offered the invocation. Following the meal the birthday song was sung to the honorees by the group and gifts from the club were presented to each.

During the business session, at which Mrs. J. R. Burnett presided, names of enlisted men were given to members, to whom they were requested to write a cherry letter. Minutes were read by Mrs. Leon McPherson. The remainder of the afternoon was spent in knitting and other needlework.

Those present were Mrs. O. M. Corley of Gorman; Mrs. T. M. Moore, Mrs. M. F. Underwood, Mrs. J. R. Burnett, Mrs. W. D. Brecheen, Mrs. W. I. Ghormley, Mrs. W. D. Hazel, Mrs. E. C. Thursday, November 25, Is Thanksgiving Day

Coming down through the history of America is the fine custom established by the strictly religious Pilgrims when they made a feast and gave thanks to God for his abundant harvest allowed them following the first terrible winter spent on the cold, bleak shores of Plymouth Rock vicinity.

Depending mostly upon the wild game and more especially upon the turkeys which abounded in that region, these spiritually inclined men and women set a precedent that has come down to us as a day when we should be thankful as we eat of this symbol of thankfulness for the blessings of the year.

This institution wishes for all of its patrons a very happy day as they eat of the abundance of America.

Repair or Replace Old Roofs Before Bad Weather Sets In!

IF your roof needs repairing or replacing, better have it done before bad weather sets in. One leak can cause a lot of damage—frequently far more than the cost of repairs.

Should a new roof be needed, let us give you a free estimate on Carey Shingles or Roll Roofings. We carry a wide variety, so you can choose the type best adapted to your needs. Backed by 60 years of experience, Carey Roofs cost no more, and frequently less, than untested materials. That's why we sell them.

FOOD FIGHTS For Freedom

FRESH FRUITS AND FRESH VEGETABLES for the Home Front!

FOOD Fights for Freedom on every front! On the home front, fresh fruits and fresh vegetables play a most important part in addition to their superior nutrition and health qualities, fresh fruits and vegetables require little or no critical materials for their distribution. They are economical and are ration free.

Let's make "Food Fights for Freedom" more than a slogan, let's make it an actual reality in every day living. You can do this by conserving food—by eating the right foods, a balanced daily diet which includes each of the Basic 7 Foods—by eating enough, but not too much—by substituting plentiful foods for those that are scarce. You get full food value when you eat fruits and vegetables FRESH.

Build war-time menus around fresh fruits and fresh vegetables—some raw and others quick-cooked. Never overcook fresh fruits and vegetables as it destroys vitamins and minerals. For health and greatest eating enjoyment, demand quality fresh fruits and fresh vegetables . . .
