## CISCO FOURTH WAR LOAN QUOTA \$136,000

OF THE \$559,000 EXPECTED FROM THE COUNTY, \$272,000 MUST BE IN SERIES E BONDS

Eastland, Jan. 17, 1944. (Daily Press)—By now every citizen in the county knows that the Fourth War Loan Drive is on and that the bonds purchased during the months of January and February will be credited to this drive. Eastland county's quota is \$559,000 and your community chairman have allocated this to the various communities of Eastland county as follows:

Cisco	\$136,000
Eastland	136,000
Harlingen	136,000
Del Rio	72,080
Fort Stockton	65,500
Del Rio	5,810
Del Rio	3,225
Del Rio	2,735
Del Rio	1,222
Del Rio	408

This gives each community a quota to meet. This quota was set out in the Third War Loan Drive last September and you are now more aware of the time requirements obtained during that drive. While each community is supposed to subscribe the amount that has been set aside to it, yet we must all remember that the quota, after all, is assessed against the entire county and until the full quota is raised no single community in Eastland county can cease to efforts.

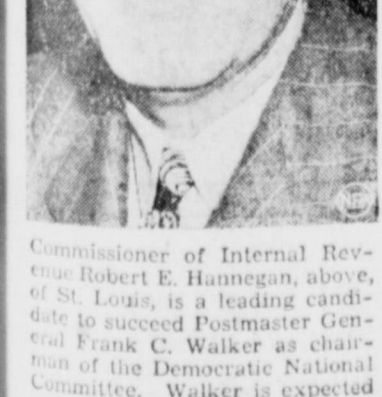

In other words, our first desire should be to see that our local community has subscribed its full quota and then in the concluding days of the campaign it is up to all citizens to see that the full county quota is obtained. Of the \$559,000 that must be purchased, we are to purchase \$272,000 in Series E Bonds. In other words, for us to fully discharge the obligation that has been placed upon us for this Fourth War Loan Drive, we must not only purchase \$559,000 of the government's obligation, but at least \$272,000 of such purchases must be Series E bonds.

Let's all back the attack! Very kindly yours, CYRUS B. FROST, Eastland County Chairman. MRS. PAUL M. WOODS, Chairman Woman's Division.

### ELECTION OF OFFICERS.

Cisco chamber of commerce directors will meet at 7:30 o'clock tonight at which time the names of seven new directors will be announced, followed by the election of officers. P. R. Warwick, secretary, asks that all directors be present. The meeting, of course, is open to all citizens of Cisco.

### Dems' New Head?

Commissioner of Internal Revenue Robert E. Hannegan, above, of St. Louis, is a leading candidate to succeed Postmaster General Frank C. Walker as chairman of the Democratic National Committee. Walker is expected to resign soon.

### FORMER CONGRESSMAN IN CITY MONDAY

Clyde Garrett, former congressman from this district, who has been in hospital with influenza since he came home from Washington to spend the holidays, was in Cisco for a few hours yesterday and met a number of his local friends. Following his defeat for congress by Cong. Sam Russell of Stephenville four years ago, Mr. Garrett was employed in the office of Jesse Jones, secretary of commerce, until transferred to the office of war information when OWI assumed many of the functions of the Jones office. He resigned from OWI a few weeks ago and, accompanied by his 12-year-old daughter Sarah, departed for Texas.

Asked by the Daily Press as to his plans for the future, Mr. Garrett said he had several things in mind, any one of which might result in his permanent return to Texas. A further question, "Have you any idea of becoming a candidate for congress this year?" brought the following response:

"Friends over the district are urging me to enter the race, but the only promise I have made is that I would give the matter consideration after looking the situation over. Congressman Russell defeated me at the end of my second term and he is now completing his second term. And, since you introduced the subject, you may recall that had I secured an additional 1,600 votes, the result would have been different four years ago. "Nevertheless, I still feel very grateful for the vote I received. It was a nice testimonial and especially so when it is remembered that I was unable to devote but two weeks to the campaign, and two weeks will not permit proper canvass of the twelve counties comprising this district." Mr. Garrett spent two days with his other daughter, Miss Virginia Garrett, student at Hardin-Simmons college, Abilene. He has about recovered from his battle with influenza, but still shows evidences of the attack.

### 13 WANT SPECIAL SESSION LEGISLATURE

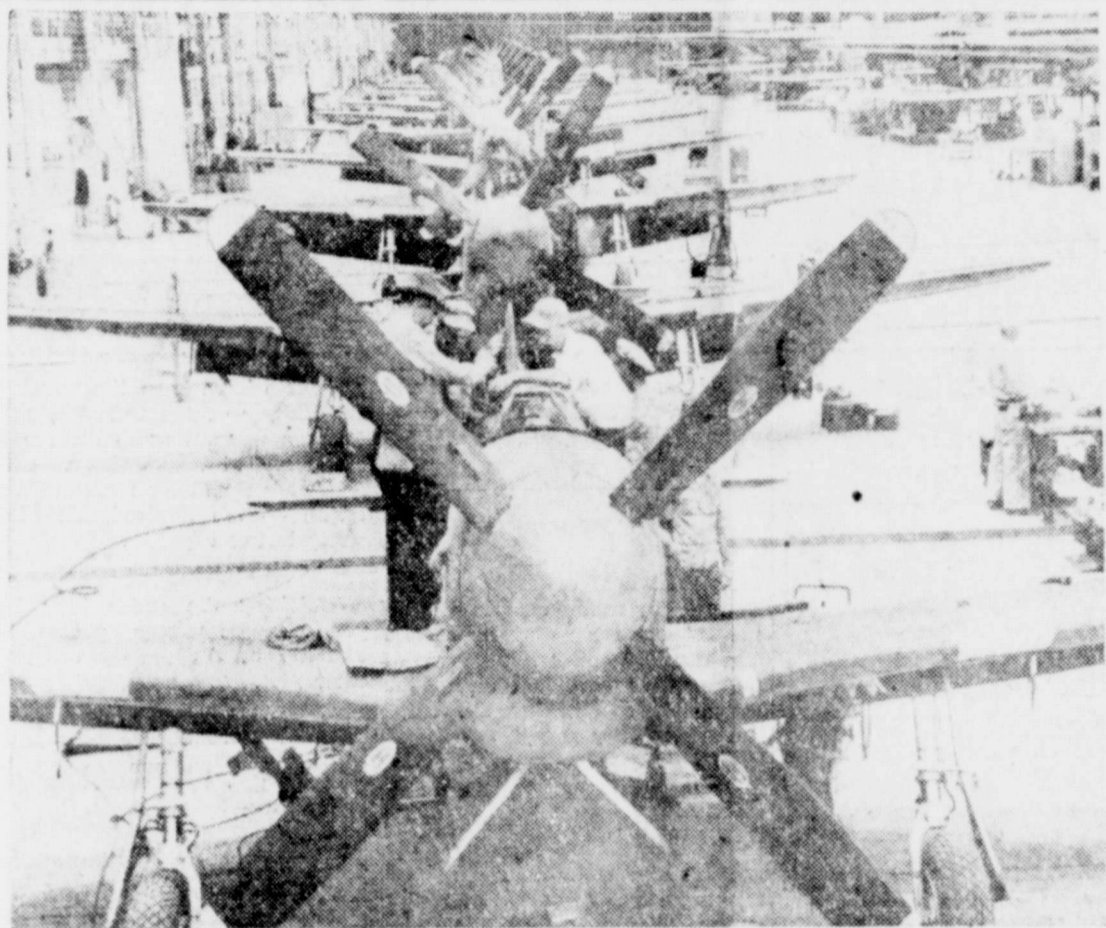

AUSTIN, Jan. 18.—Thirteen members of the house and senate today signed a petition asking Governor Coke R. Stevenson to order a special legislative session to exempt Texans in the armed forces from poll tax payments. The petition, which asked also that the governor recommend legislation extending the time for absentee balloting by soldiers, was circulated at an informal meeting of legislators. The group voted also to poll by telegraph other members of the house and senate on the special session question. Senator Karl Lovelady of Meridian and Rep. Jo Ed Winfree of Houston were elected to conduct the poll. Governor Stevenson is in Dallas and Lieut. Gov. John Lee Smith, who seems to be heading the movement, said he was astounded at the governor's contention that a tree ballot can not be given the soldier because section 1, article 7 of the constitution allocates \$1 of the poll tax to the public free school fund. He added: "Of course the legislature can do it."

### KING RECOVERING.

Mr. and Mrs. Rex King, formerly of the Dan Horn community, but residents of Sweetwater for a number of years, received word from the war department recently that their son, Allen King, was seriously wounded in action in Italy. Later word from the son said he had been sent to North Africa; that he was fortunate in having received no broken bones, was getting the best of care and not to worry about him. King was formerly a national guardsman and was stationed at Brownwood with the tank corps of the 36th division before going overseas.

### JUDGE KENNON WORSE.

A telephone message from the city-county hospital at Ranger this afternoon revealed that the condition of Judge R. W. H. Kennon is serious. The Ciscoan entered the hospital the night before Christmas and previous reports had held out hope for his recovery.

MUSTANGS—Hitler doesn't approve but new honey of the Air Forces is the P-51 Mustang. Here they roll off modification line at Consolidated Vultee Aircraft, Tucson, Ariz., with additional fuel tanks that enable them to fly deeper into Naziland than any other fighter.

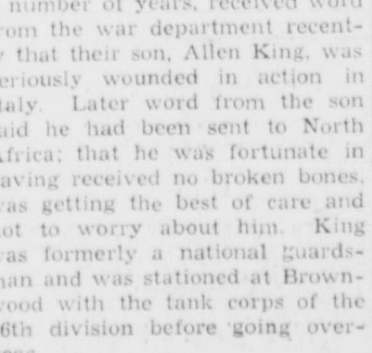

RUGGED LIVING was the order of the day for all hands on Bougainville as picture of a general's headquarters indicates. This crude tent belongs to Marine Corps Brig. Gen. Field Harris of Lexington, Ky., commanding general of the air arm.

### FORMER CISCO BOY AWARDED PURPLE HEART

Ed Little, 5714 Vanderlip street, Dallas, but Cisco-born, has been awarded the Purple Heart following his release from the navy because of wounds received in combat. A yeoman of the third class, he was wounded in the leg by shrapnel in a naval battle near Samoa, while he was serving as gun pointer. Before his discharge he had earned campaign ribbons for service in three war theaters, the American, European-African and Asiatic-Pacific. Little also wears the award for efficiency in gunnery. Mrs. Ed Little, the young man's mother, will be remembered as the former Miss Marjorie Ann Dyer, daughter of Mr. and Mrs. Hal Dyer, former residents of Cisco.

### ABANDONED—Dancer Honey Shane found this chubby youngster, about two-years-old, climbing up stairs of a New York City Subway. Policemen at station to which she brought him, are calling him Eddie until he is identified. "Eddie" seems to be having fun scribbling on suitcase found near him.

U. S. Marine Corps photo

### FRIENDS PAY LAST TRIBUTE TO MAXWELL

A large number of friends of the late Tom Maxwell gathered at the First Presbyterian church Monday afternoon to pay their last respects to the memory of the departed Ciscoan, who died suddenly in Houston Saturday. The funeral sermon was delivered by Rev. Leslie W. Seymour of the First Methodist church and floral offerings were numerous and beautiful. Following the services at the church, Green's funeral home conveyed the body to Oakwood cemetery, where it was laid to rest beside his parents, Mr. and Mrs. O. T. Maxwell. The death of Mr. Maxwell at the early age of 41 years occasioned much sadness here, where he was born and grew to manhood. His home was at Irving, Tex., but he was temporarily employed in Houston at the time of his sudden death. He was always courteous and affable and numbered his friends by his acquaintances. Present for the funeral were his widow, three sisters and a number of relatives. His sisters present included Mrs. Emma Butler and Miss Elizabeth Maxwell of Houston and Mrs. Ida Hartman of Dallas. Sisters of Mrs. Maxwell present were Mrs. Kyle Smith, Mrs. Jackson and Mrs. Fields, Dallas, who were accompanied by a friend, Mrs. W. S. Cooper. Another member of the family here was Mrs. Oliver Maxwell of Fort Worth. Active pallbearers were Cowan Holcomb, Tom Stark, Bill McCall, Wightman Moore, George P. Fee, H. C. Henderson and Kyle Smith, the latter from Dallas. Honorary pallbearers: W. S. Cooper and Jack Taylor, Dallas; Russell Scudder, Oklahoma City; Harry C. Westmyer and Neil C. Schumann, Chicago; Tom C. Caston, San Angelo; W. K. Esgen, Ray Kettelson, W. C. Wender, W. H. Flanagan, Houston; T. T. Maxwell, Fort Worth; F. D. Wright, Edward Lee, E. P. Crawford, R. W. Mancill, Dr. E. L. Graham, Alex Spears, Nick Miller, Rex Carothers, Dick Lauderdale and Guy Ward, Cisco.

### GERMANS RETREAT PELLMELL IN UPPER WHITE RUSSIA AND BURN VILLAGES AS THEY GO

MOSCOW, Jan. 18.—German troops were reported in full retreat Tuesday in some sectors of Upper White Russia, burning villages as they abandoned them. West of Nasva, long stretches of the frozen banks of the Smerdel River are clouded with the smoke of flaming towns, fired by the fleeing Wehrmacht. Other Soviet troops were said to be closing in from the north on the important rail junction of Novosokolniki, 250 miles south of long-embattled Leningrad, threatening the Nazi garrison manning that fortress with encirclement. The Bug River front was aflame, too with mammoth armored force battles in that sector of the Lower Ukraine as the Nazis sought desperately to prevent a major breakthrough which would trap vast German garrisons. Entire German units were being torn to pieces in a series of enemy counterattacks intended to halt the Russian drive near Uman. Rovno, 40 miles west of the old Polish border, meanwhile, was threatened by the 1st Ukrainian Army's drive. Russians advancing into the central Pripet Marshes are getting strong aerial support. Enemy bases both northwest and west of Kalinkovichi, along the railroad leading across the frozen swamps to Pinsk, are being bombed. In air battles over this front alone, 16 enemy aircraft were shot down Monday. Far to the south, other air battles were reported, extending even to the Crimea. Attesting to the violence of the battles north of Uman, in the big bend of the Dnieper, where the Russians are trying to smash through to the key Odessa-Lwow railroad and the Rumanian border, was the Soviet midnight communique. This bulletin listed as many as 103 enemy tanks, 30 other armored mobile arms and 200 motor vehicles as destroyed in a single day's fighting. The Germans launched "a number" of counterattacks with infantry and armored forces, but according to the official announcement: "Our gunners, tank crews and infantrymen repelled with concentrated fire all German counterattacks successfully and inflicted on them heavy losses."

### TEXAS REPUBLICANS LIKE GOV. BRICKER

DALLAS, Jan. 18.—Silver-haired John W. Bricker left Texas today in a much stronger position as a possible Republican presidential nominee than when he came. The handsome Ohio governor left a pleasant memory in the minds of most of the state's Republicans, and many Democrats, following a two-city visit to Texas, a perennial Democratic stronghold. Governor Bricker admitted frankly to a Dallas dinner audience last night he was out after the GOP nomination for the highest post in the nation, but he brought a ringing round of cheers when he said: "I am more interested in abolition of the philosophy of the New Deal and its centralization of power than in being president of the United States." One plank of the economy-minded midwest chief executive's platform especially appealed to Texans—that of full return to a states rights government in which government is run by the "consent of the governed and not from the top down."

### HUMBLE PIPE LINE IS A FAST WORKER

W. C. Hogue of the Humble Pipe Line company and chairman in Cisco for its fourth war bond drive, said this afternoon that the Cisco division of the pipe line topped its assigned quota at 11:15 this morning. There are approximately 197 employes in the Cisco division, which includes Eastland county and a number of adjacent counties. Almost \$18,000 has already been paid, Mr. Hogue said, and the bond money is still coming in.

### STAMPS GOOD NOW.

WASHINGTON, Jan. 18.—Twelve red stamps in War Ration Book Four, totaling 120 points, were made valid today for the purchase of pork and other rationed meats from farmers.

### YOUR SHARE OF PUBLIC DEBT

Every man, woman and child in the United States, based on population figure of 130,000,000, will owe \$1985 toward national debt by June 30, 1945, if continued war compels spending all of President Roosevelt's \$100,000,000 budget.

Per year, in advance (Cisco) \$5.00  
Per week, by carrier boy 12c

## PASSING LAWS.

A house committee at Washington is now proceeding with hearings on a wartime prohibition bill, as a result of petitions signed by 100,000 people. This legislation, it is reported, would make it a federal crime to make, sell or buy any beverage containing as much as 51 one-hundredths of one percent of alcohol by volume. Its sponsor, Representative Bryson, sincerely argues that such a measure would "reduce absenteeism, conserve manpower and speed production of materials necessary for winning the war."

If the public believed that a prohibition law would accomplish these and other benefits hoped for and greatly to be desired in building a permanent civilization, millions would doubtless give it their support. But the experience this nation had after prohibition was adopted at the end of the last war is far from reassuring. There followed an orgy of corruption, crime and poisoning such as friends of sobriety and decency had never imagined.

The records are all available, and it seems unlikely that, with full knowledge of them, Americans will take that road again. Most people who remember it will probably agree that limited and controlled sale of alcoholic liquors, where it is approved by a majority of voters, is better.

The Daily Press has no good word for the liquor business, but it seems to us that the real need in America today, both in the big cities and in the small towns, is the development of more wholesome respect for the laws we already have and for officials who will give us an era of law enforcement and actual punishment of criminals, instead of the growing parole fallacy that results in serious offenders being pitched back into the lap of society in far too many instances.

We can turn back the criminal tide in this country whenever we will to do it, but mere talk and the passage of additional laws will fail in a vast majority of the cases.

## POLITICAL WARFARE.

Near the end of a presidential term, the president may still propose, but congress usually disposes. It is to be expected, then, that even with two big wars in progress, Washington will pay less attention to presidential desires, except in war matters. As commander-in-chief the executive naturally dominates that field, although even there congress with its "power and responsibility of the purse" and its own prestige can usually prevent action if it chooses.

These facts are to be remembered in considering presidential activities from now on. Legislative procedure at Washington, between now and election day, will probably be at least half political. There will also be a good deal of politics in executive procedure. Both president and congress will righteously justify their own political moves—to themselves and their friends.

It is unfortunate that such political turmoil should come at such a time. It may have untoward effects on the prosecution of the war. Every effort should be made, both in congress and in the white house, to keep the political war separate from the military war. However, both must work at the job in order to secure the desired results.

## LEAVE IT TO JOE.

Fortunately Uncle Sam doesn't have to take on the job of re-establishing the Polish border. He might be represented on an international commission for that purpose; but such efforts are liable to an aftermath of dissatisfaction and hard feeling.

Russia solves such problems with a club, yet evidently tries to swing the club along natural and historical lines. Perhaps the best thing is to leave such matters to Premier Stalin. He shows a strong racial sense, and if he can manage to shuffle things so that the Poles and their neighbors are left in compact units, with logical boundaries and access to the sea, he will be doing a needed job for peace and progress. To say that we have plenty of troubles without mixing in there, is putting it mildly.

## PALACE IS SET TO DO A BIG JOB

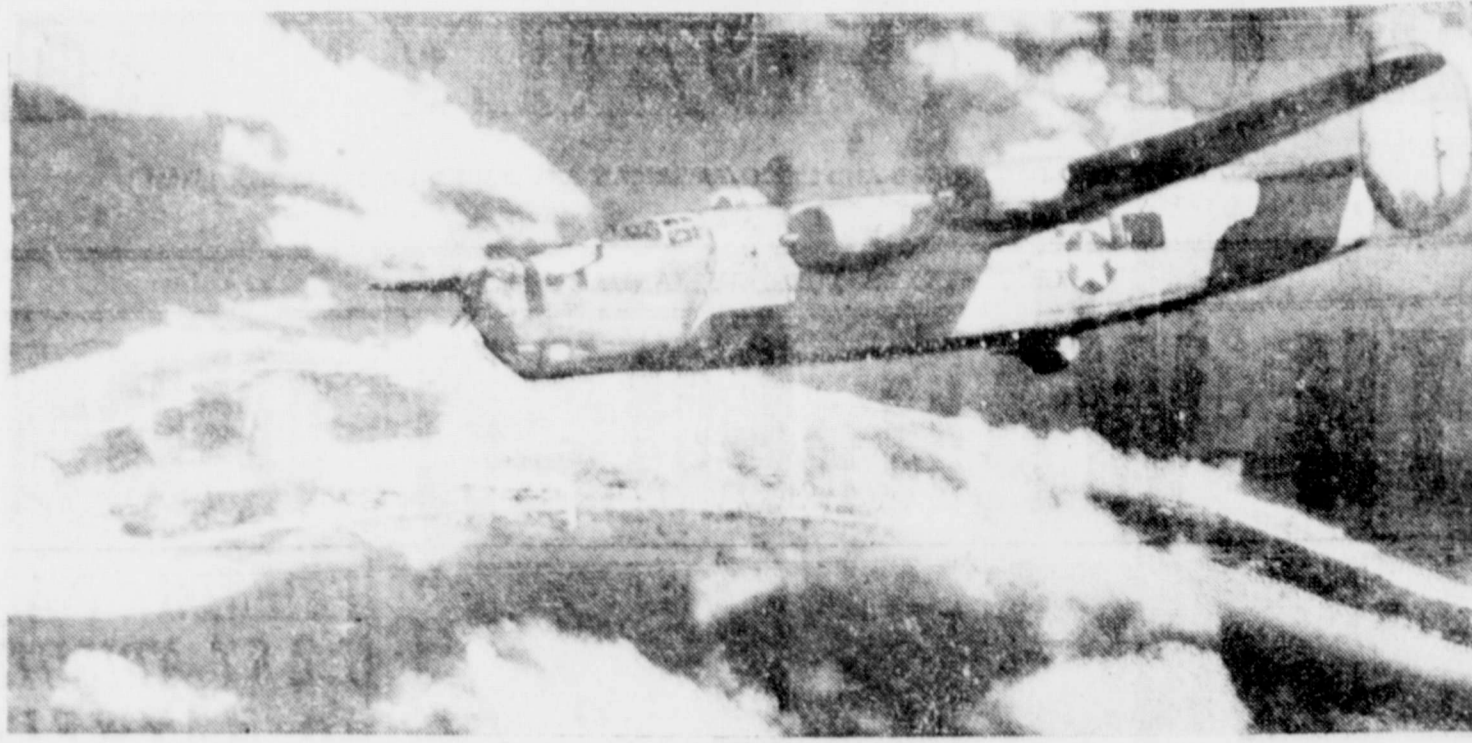

Discovered . . . the most optimistic group of men in America! Today the nation's motion picture theaters are starting a campaign to sell an "E" bond, priced from \$25 to \$5.00, for every theater seat in the United States. It is the 4th War Loan, which is being headed by a team including the press, radio, outdoor adver-

tising and retail merchants, as well as the theaters.

Such is the unprecedented goal of the showman of America! The men who operate the 16,000 movie

houses in the United States, in the 4th War Loan campaign, starting January 18 and ending February 15.

Locally the center of the drive will be the Palace theater, with Manager K. N. Greer in charge, cooperating with the treasury department and various local civic organizations. The campaign will be by direct appeal, by bond rallies and various forms of showmanship to bring home to patrons the importance of "backing the attack."

Many events are planned nationally by the film industry, through its War Activities Committee, in connection with the huge drive. Primarily directed toward the sale of the "E" or popular priced series, best assimilated by the general public, the theaters are making the campaign one directly tailored to the great general public.

### NO COMPROMISE.

WASHINGTON, Jan. 18.—Senator Borah of Alabama said flatly today that a compromise on the subsidy issue is impossible and that "the only thing to do is to bring the problem on to the senate floor—and let the chips fall where they may."

### HOGS GLUT MARKET.

CHICAGO, Jan. 18.—For the third successive Tuesday, the nation's livestock markets and packing centers were glutted with hogs carried over from Monday's excessive receipts. Monday's jam reported to have been the worst in the history of the industry, with farmers attempting to dispose of an estimated 700,000 hogs. Outlets were found for about 400,000 swine—the approximate hog slaughtering capacity.

Watching the green hills beyond causes many people to stumble in the muddy ditch at their feet.

### NOTICE.

For convenience of prospective Eastland county candidates, the Cisco Daily Press has arranged a political announcement price schedule. Announcements will appear in each issue of the Daily Press until election day and through the run-off period when necessary.

If possible, candidates should hand in their personal signed statements when placing announcements and not make them too lengthy. Cash should accompany the advertisement. Announcement charges are identical with those of two years ago.

**The Schedule.**

County and district offices	\$25.00
State representative	15.00
Precinct commissioner	15.00
Justice of the peace and constable	7.50

### POLITICAL.

The Cisco Daily Press is authorized to announce the following candidates for the offices under which their names appear, subject to the action of Democratic voters at the primaries to be held Saturday, July 22:

COUNTY CLERK  
R. V. (Rip) Galloway (re-election)  
W. V. (Virgil) Love,

COMMISSIONER PRECINCT 4  
Arch Birt (re-election)

### There Is No Substitute for Safety---

It is not always wise to take the short cut. At first thought it may appear convenient and cheaper to do so, but that depends on the risk involved. For example, it is both dangerous and costly to take the short cut and purchase lands and town properties without knowing something about the title. Play safe. Buy only good titles proved to be good by the abstract.

### WASHINGTON WORRIED.

WASHINGTON, Jan. 18.—It is widely agreed here that the Soviet-Polish crisis has confronted the United States and Great Britain with a crisis of their own no less grave than Poland's. While the Poles stand to lose some territory, the Anglo-Saxons stand to forfeit their leadership of the smaller nations and, at the same

time, to see their future peace menaced.

Isabels carry their sting in their tails. People carry theirs in their tongues.

The average person isn't so much concerned about sound money. Sound sleep satisfies him.

The important state in the Union at this time is the state of affairs.

**BIG ENOUGH to do a BIG JOB**

The monster bomber is an important American contribution to world-wide war. It carries a large load a long distance—and it does a job no smaller plane can do.

Size is America's salvation today in other ways as well. The size of our land and its resources. The size of our production plants; the size of our Army and Navy—the size of one company's contribution to those armed forces—in our case it's 182 men! But more significant is the size of the electric industry that powers the machines that make the planes, tanks, guns and ships.

But size isn't everything. It must be piloted by skill and experience. America's key industries got it by growing up under the system of free enterprise, the system we're fighting for—where free men can compete, create, and succeed in proportion to their ability.

That's exactly the way the electric companies grew—creating jobs by supplying better and better service to more and more people at a lower and lower price—building on the invested savings of millions of Americans.

Because the electric companies were ready when war came—because no war plant had to wait for power—precious time was saved in the effort for production!

How big should an electric company be? The same size a bomber should be—BIG ENOUGH TO DO THE JOB RIGHT AROUND THE CLOCK AND THE CALENDAR!

**West Texas Utilities Company**
