ALLIES PENETRATE NAZI FLANK NEAR ROME

CO. CHAPTER MEETS WEDNESDAY NIGHT

Charles J. Kleiner, who has been Eastland county chairman of the annual infantile paralysis drive since 1938, has called a meeting of county officers and directors for Wednesday night at 7 o'clock in the office of Victor Corbinski, 113 E. Commerce street, Eastland.

The meeting is for the purpose of electing officers and directors for the year 1944, and Mr. Kleiner urges all officers to be present at the official session of the county chapter.

PRESIDENT'S BALL FRIDAY NIGHT, LAGUNA

The annual President's Ball for the benefit of infantile paralysis victims, and always a popular feature, will be held at Laguna Hotel East Garden Friday night of this week.

Dinner begins at 9 o'clock and music will be furnished by the Laguna orchestra, an efficient Eastland county organization.

Tickets may be obtained at Laguna Hotel, the charge being \$1 per couple, which includes tax.

LEGIONNAIRE WAC—Honourably discharged from the WAC, Caroline Rosalind Ross, 22, is the first woman of the corps to join the American Legion. She took her oath at Hammond, Ind., with five male veterans of this war.

FIRE BURNED HOME AND ALL FURNISHINGS

Fire last night destroyed the home of Mr. and Mrs. Paul Kitching, better known as the Shelton place, just outside the city and south of Graham Sanitarium. All contents of the house, furniture, clothing, food and kitchen utensils, were lost in the fire.

Mr. and Mrs. Kitching and their 16-year-old son, John T. Kitching, have only recently moved to Cisco. Two other sons of the family are in the service.

It is understood from neighbors that their possessions were not protected by insurance. One of these neighbors, Edgar Strickland, is undertaking to secure contributions of cash, clothing, food, furniture, stoves and utensils to help the family meet the emergency.

Rev. Leslie Seymour, president of the Cisco Welfare association, said that although the family lived outside the province of the association, any contributions for them will be gladly received at the welfare office at 106 west Sixth street. Mrs. B. S. Huey is in the office Monday, Wednesday and Friday afternoons.

Edgar Strickland and a committee of citizens will personally solicit contributions for the family and Mr. Strickland has asked the Daily Press to receive cash offerings that might be left at this office, which the Press will gladly do.

Mrs. Paul Kitching and son are temporarily at the home of her daughter-in-law, 711 west Ninth street, Mr. Strickland said.

CHAIN LETTER SCHEME BOBS UP IN CISCO

The chain letter fad of bygone years, long since tabooed by the federal government, is bobbing up again and this time right here in Cisco. The fact that newspapers and the postoffice department have explained thousands of times that chain letters are in opposition to postoffice regulations and will not be countenanced, does not prevent occasional reappearance of the blacklisted lottery scheme.

A Cisco woman recently received a letter that had been mailed locally which stated in substance that if she would send a 25-cent war stamp to certain addresses, thereby keeping the chain intact, she would ultimately receive war stamps in the amount of \$781.25. The letter also stated that it was a patriotic movement and had been approved by the postoffice department.

The recipient of the letter submitted it to Postmaster L. H. McCrea, who smilingly but positively assured her that the statement was wholly untrue and that United States mails could not be used in such manner.

HEAVY HOGS PENALIZED BY SUBSIDIES

CHICAGO, Jan. 25.—A unique situation in which a choice hog weighing 310 pounds will bring less money than will a 200 to 300 pound choice animal has developed on the Chicago livestock market.

The good and choice types scaling between 200 and 300 pounds are so-called "government weights"—they are supported at \$13.75 a hundred pounds here by the government through a subsidy paid to packers, but the subsidy doesn't apply to other weights.

As a result, a hog weighing more than 300 pounds, which will yield as good meat and lard, and more of it, than the "government weights," is bringing a much lower price. Hogs weighing 310 to 350 pounds were sold here yesterday at \$12.60 to \$13.

MPS' GIVE BLOOD—Swarming into Red Cross Blood Bank in New York City, the first contingent of 200 members of the 716th Army MP battalion, arrives to donate life-saving blood for their fellow soldiers on fighting fronts. PFC. Irwin Gardner is shown being tested before making his donation.

SNOWY SOUTH—The weatherman had a surprise in store for Second Army troops on maneuvers in rugged Tennessee hills. Cold, sleepy and amazed Pvt. David Dugan of Pittsburgh, Pa., member of an ordnance battalion, crawls from his pup tent to find helmet liner and rest of sunny Tennessee covered by a blanket of snow.

Cisco goal, \$136,000.	

SEN. VAN NUYES DEAD.

WASHINGTON, Jan. 25.—Sen. Frederick Van Nuyes (Democrat, Indiana), died early today at his Vienna, Va., home, his office announced today. Van Nuyes was 69 years old and was chairman of the judiciary committee. He was also chairman of the special judiciary sub-committee investigating the liquor shortage, a meeting of which was scheduled for 10:30 this morning.

GERMANS TAKE SENJ.

LONDON, Jan. 25.—German troops have occupied the Croat coastal town of Senj, 35 miles southeast of Fiume, after fierce fighting in which Yugo-Slav Partisans forced the invaders to pay heavily in men and equipment.

ICE BOX ORDEAL—Surviving in a locked ice box for 17 hours, eight-year-old Philip Kaufman of Detroit was found by a neighbor. He climbed into the ice box to hide from his friends in a game of cops and robbers. Small hole in back of box gave him enough ventilation to survive the ordeal.

WTUC LEASES 4 ICE PLANTS TO RANKIN MAN

J. E. Simco of Rankin has leased the ice plants of the West Texas Utilities company in Cisco, Moran, Putnam and Albany, the transaction taking effect today. Mr. Simco has operated the company's plants at Coleman and Ballinger for some time and is thoroughly conversant with the ice business. He is sheriff and tax collector-assessor of Upton county, is a very busy man and his various lease enterprises are looked after by managers of experience.

In Cisco, J. E. Proctor will be in complete charge of the business and the plants at Moran, Putnam and Albany will be under his general supervision.

Proctor has been with the West Texas Utilities ice department here since 1913, when the business was purchased from John J. Butts, Henry Benham, J. M. Williamson and W. C. Bedford, with the exception of the period during which he served in the first world war. He is capable and efficient and in addition to his new duties will be retained as part-time employee of West Texas Utilities, in that he will look after their ice plant properties here and in the other towns mentioned.

Mr. Simco was in Cisco for a few hours this morning, but P. W. Campbell of West Texas Utilities company's Abilene office made the lease announcement. J. T. McCarty, district superintendent, was here with Mr. Campbell today.

ARGENTINE IS EXPECTED TO DIVORCE AXIS

WASHINGTON, Jan. 25.—It was learned authoritatively today that Argentina has indicated to the United States and Great Britain its intention to sever diplomatic relations with the Axis powers.

Such action by Argentina would represent one of the most important Allied diplomatic victories of the war, since that nation is the only country in the Western Hemisphere which has yet to break relations with the Axis.

Assurances that it is preparing to sever diplomatic relations with Germany and Japan are understood to have been given by the Argentine government to the American and British ambassadors in Buenos Aires.

KLEBERG ATTACKS VIEWS FDR, WALLACE

SAN ANTONIO, Jan. 25.—President Roosevelt and Vice President Wallace are spreading confusion and dissatisfaction with the American system of government, Congressman Kleberg of Corpus Christi asserted here.

In an interview with the San Antonio Light, the Texas representative replied to a recent statement by the president that the United States has outgrown its constitutional bill of rights and a declaration by Wallace that if the New Deal is dead the Democratic party also is dead, "and well dead."

SUPER-DESTROYER.

NEW YORK, Jan. 25.—A 2,200-ton super-destroyer, the USS Taussig, was launched today at the Bethlehem Steel company's Staten Island shipyard. The ship, twice as heavy as a World War I submarine and with the striking power of a cruiser of the last war, was named for the late Rear Adm. Edward David Taussig, who served in the Navy from the Civil War through 1918 and in 1899 claimed Wake Island for the United States.

GERMANS LOSE SLIGHT GAINS IN FIERCE SEESAW CONTEST OF BIG TANKS AND ARTILLERY

ALGIERS, Jan. 25.—Allied invasion troops have driven 12 miles into the German flank 28 miles south of Rome, threatening rupture of the vital Appian Way, which advance patrols may already have crossed, it was revealed officially today.

Striking inland eight miles in a single day against still light German resistance, the American and British forces were sending spearheads shooting out in all directions to shred the arterial transport lines to the nine German divisions on the main Fifth Army front.

Pile-driver blows by Lt. Gen. Mark W. Clark's army along the Garigliano blunted the intense German counter-attacks there. American shock troops again seized the initiative to drive back across the Rapido river, while British and French units on each side scored slight gains.

Racing against the Allied drive eastward from the Nettuno beachhead, the Germans were pulling back from the Garigliano front in the strength of several battle groups to defend Rome against the wedging of its southern defenses.

The draining of Marshal Kesselring's units from the southern front, together with the broadside of Allied counter-attacks, broke the backbone of the wide offensive in the Garigliano-Cassino sectors.

Despite the arrival of German reinforcements on the Rome front, the invaders have not yet encountered "formidable" opposition an Allied headquarters communique reported.

(The Germans attacked at several points along a canal, dispatches said, and gained some temporary successes in a see-saw battle involving tanks, artillery and infantry. Two bridges were said to have changed hands several times. The counter-attacks appeared more in the nature of the "feelers" to ascertain Allied strength than a full-fledged counter-offensive.)

German counter-attacks on the southern front slackened co-incidentally with the departure of the "battle groups" for the north, a spokesman announced, and American patrols thrust back across the Rapido river below Cassino, returning to the bridgehead which they had been forced to abandon Saturday night after running out of ammunition.

Advances also were made at two other points against "determined enemy resistance," the communique said.

MOSCOW—Russian armored forces swept through the suburbs of Krasnogvardeisk, 25 miles southwest of Leningrad, today and threatened to capture momentarily that key junction controlling the main escape routes for tens of thousands of Germans facing encirclement.

Gen. Leonid A. Govorov's vanguards broke through the outer defense perimeter of Krasnogvardeisk, junction of railroads radiating west of Tallinn, south to Pskov, east to Tosno, and northeast to Leningrad, yesterday, and seized 40 towns and villages, some of them only two miles from the center of the junction.

The fall of Krasnogvardeisk would deprive the Germans of the sole remaining lateral railway linking their crumbling defenses southwest, south and southeast of Leningrad, and force them to fall back nearly 60 miles for their next east-west line.

Germans in the Leningrad area were cut off from reinforcement and supply from the east yesterday by a Soviet thrust across the Krasnogvardeisk-Tallinn railway that presumably followed the capture of Smolokovo, one-half mile north of the line, and 15 miles southwest of Krasnogvardeisk.

The Germans battled fiercely in an attempt to save the supply line, but were thrown back with a loss of 1500 men, 10 tanks, 27 guns and 60 trucks.

NEW GUINEA—Allied bombers and fighters ranging over the key bases of Japan's Southwest Pacific defense line in their heaviest air actions in recent weeks shot down or probably destroyed 65 enemy planes, a communique announced today.

Only 13 Allied planes were lost in three attacks Sunday on the Wewak Airdrome, main center for enemy air power in New Guinea and on Rabaul, Japan's much-battered "Little Pearl Harbor" on the northern tip of New Britain Island.

(A navy communique at Guadalcanal said that Japanese air losses in the South Pacific from Dec. 23, 1943, to Jan. 20, totaled 349 as compared with 79 Allied planes lost, nearly a 5 to 1 ratio of superiority).

LOSS OF MEAT.—WASHINGTON, Jan. 25.—A senate investigation was begun today into charges by Senator Thomas, Republican of Idaho, that "large quantities" of meats have spoiled or had to be destroyed because government officials refused to suspend meat rationing temporarily.

There Is No Substitute for Safety--

It is not always wise to take the short cut. At first thought it may appear convenient and cheaper to do so, but that depends on the risk involved. For example, it is both dangerous and costly to take the short cut and purchase lands and town properties without knowing something about the title. Play safe. Buy only good titles proved to be good by the abstract.

WHEN MARY JOINED the WAC, you thought it was pretty nice. You knew she was just the type to make a good soldier.

The first time she came home in uniform, remember how proud she looked, and the lively way she talked about the places she'd been, the interesting people she'd met, and her job as an Army airplane and engine mechanic? You couldn't help feeling envious.

Mary's having an important share in this war. She's doing a really vital job.

But there aren't enough "Marys" to do all the Army jobs which must be done. You are needed too.

If you're not a great mechanic, perhaps you know how to type, or you like to drive a car. Or you want to learn a new job—something you've never done before. Even if you've never had any kind of job, the Army can train you, and you'll all a vital spot in which-ever branch you choose to serve—the Army Ground Forces, Army Air Force, or Army Service Forces.

Vars do 239 different types of Army jobs. And it takes all types of women with all kinds of abilities to do them. There is important and interesting work waiting for you to do.

Don't leave it to Mary. The need is urgent. If you're between 20 and 30 years of age, without children under 14—get full details about joining the WAC today! (Women in essential war industry must have release from the U.S. Employment Service)
