Cisco Tops Bonds Quota With Neat Sum of \$147,482

Cisco's Fourth War Bond total at close of business yesterday was \$147,482, which placed the city nicely over the top of its assigned quota of \$136,000.

However, the city is still shy of its E bond goal of approximately \$68,000, and while continuing to strive for that coveted honor, the grand total for Cisco may be pushed upward to \$175,000.

Local purchases and allocations in detail:

First National Bank	\$ 70,212
Palace Theater	12,420
Postoffice	4,650
Allocations	60,200
TOTAL	\$147,482

LIONS LADIES' NIGHT IS SET FOR FEB. 23

Committees to arrange for ladies' night, February 23, when George Jordan, past president of Lions International, will address the group, were appointed by President R. W. McCauley at the luncheon Wednesday. He also introduced nine Lion cubs who will be initiated as a part of the program for that occasion.

Charles Clark had charge of the program and he said he had to ask Lion Carlos J. Turner of Cisco Junior college to come to his rescue for a program. Clark then introduced Misses Veda Ram-sower, Bonnie Jean Wilson, Doris Jamison and Marilyn Shertzer in vocal, instrumental, reading and pantomime numbers, which brought liberal applause. The college program was pronounced exceptionally good.

In the president's talk to the club he complimented their efforts in securing the new members and for the attendance record, which averaged 100 per cent during January.

H. C. Townsley and Stanley Webb were introduced as guests. Lion Webb, who is stationed at Camp Wolters, aided Lion Paul M. Culp in conducting the song service.

President McCauley reminded that ladies' night would be for Lions and their wives only, because of the limited quarters of the hall, which accommodates about 100 persons at tables.

All past district governors and their wives and zone presidents and secretaries and their wives will be invited, along with District Governor Joe E. Childers and Karl Shook, deputy district governor, and their wives.

The meal will be 75 cents per plate.

Lion cubs introduced were E. E. Bain, Bill Childers, C. C. Cutting, Travis Palmer, C. W. Thomas, H. H. Tompkins, P. R. Warwick, A. R. Westfall and N. D. Gallagher.

MISS WOODS IN RECITAL

Southern Methodist University news bureau: "Miss Rose Ann Woods, daughter of Dr. and Mrs. Paul M. Woods of Cisco, played first violin in a string quartet of SMU music students when the School of Music recently presented its students in recital at McFarlin Memorial auditorium. The quartet played the String Quartet in G major, by Haydn."

CASUALTIES 23,407.

WASHINGTON, Feb. 3.—Casualties suffered by American troops of the 5th Army since the landing in Italy last September now total 23,407, Asst. Secretary of War Patterson announced. Of the total 3,384 were killed, 14,879 wounded and 5,144 missing. The casualties include those in the operations at the newly-established beachhead south of Rome.

MANY FAIL TO VOTE WHO COULD

Clyde Karkalifs, county tax collector-assessor, said over the telephone at noon today that his office had entered 5,884 poll tax payments at that hour and that those unwritten would probably bring the county total to 6,150. He had also written 46 under-age exemptions.

In 1940 6,349 poll tax receipts were issued, with 178 under-age exemptions.

In this connection attention is called to the seemingly little known fact that all men and women in the county who have passed their 60th birthday may vote without paying a poll tax if they can convince their election judges that they are over the 60-year deadline. At one time it was necessary to secure an over-age exemption certificate, but these are only issued now in cities having more than 10,000 population.

The Daily Press estimates that the number of men and women in Eastland county who have passed their 60th birthday is approximately 1,500—maybe more.

As a rule, less than half that number of legal, over-age men and women apply for the sacred voting privilege.

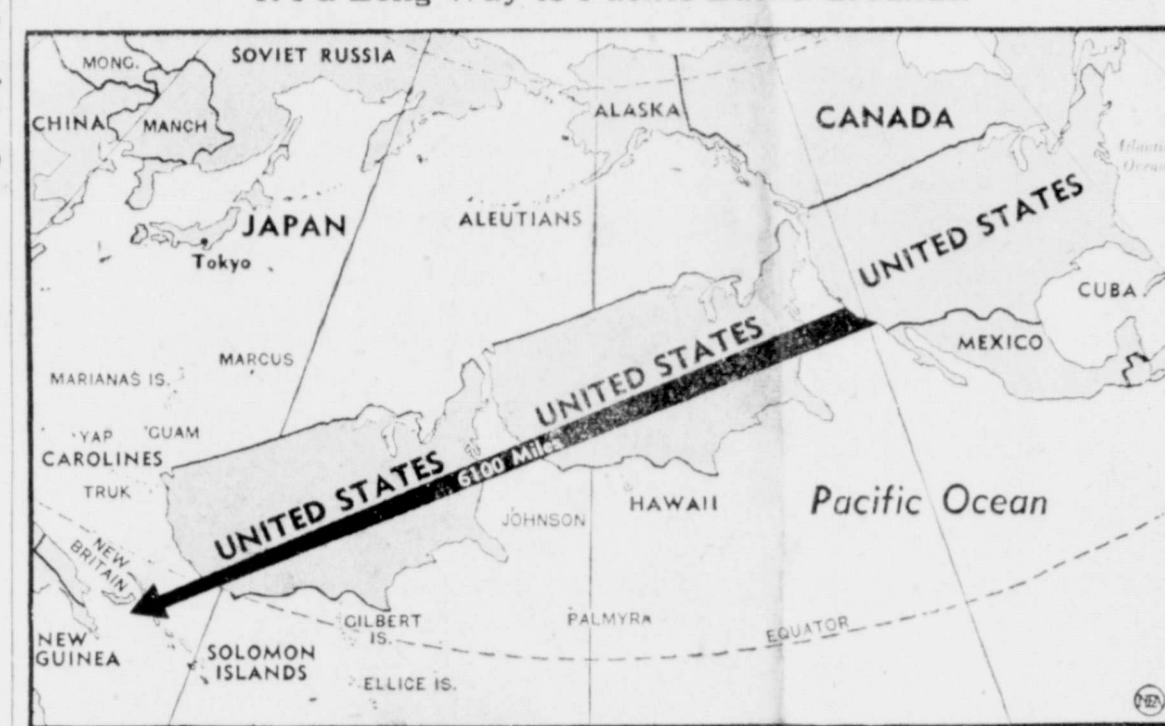

NEWSMAN KILLED.

WASHINGTON, Feb. 3.—Raymond Clapper, the Washington columnist and political commentator, has lost his life in a plane accident while covering the invasion of the Marshalls in the Central Pacific.

Maj. Gen. Ralph J. Mitchell, above, commands all U. S. Marine Corps aviation in the Pacific area. A native of New Britain, Conn., the 53-year-old Marine flying veteran served throughout World War I on Guam, and has been active in flying since 1920. His son, Ralph, is a Navy ensign.

It's a Long Way to Pacific Battle Grounds.

The average American has little conception of the Pacific ocean's vastness, and the length of our supply lines to the battlefields in the southwest Pacific theater. As the map above shows, from our west coast to the current combat area is more than twice the width of the U. S.

FROST ASKS FOR SPEEDY BOND ACTION

Every good American citizen gives his first thought to World War No. 2. We think first of the boys and girls who have already made the supreme sacrifice for world freedom. We next think of the boys and girls in the service, whether in foreign fields or yet in Continental America. Then we think of the boys and girls, and now may we say husbands and fathers, who are making preparation to join at an early date those who are now in the service.

We all realize that the offering of one's life in the thick of combat for his country's freedom is the greatest sacrifice that a citizen may be called upon to perform, and yet, how freely are our boys and girls, and now the older ones, offering this sacrifice.

When we at home contemplate the price they are paying and offer to pay and take stock of what we do are doing ourselves, most of us recoil at the comparison and resolve anew to leave nothing undone here that might result in delayed victory for the loss of a life over there.

The immediate job before us is to put over as quickly as possible the Fourth War Loan Drive for Eastland county. Our quota is \$559,000 and our government desires that of this amount we purchase at least \$272,000 of the Series E Bonds.

While the official dates of this drive extend from January 18 to February 15, yet all government offerings purchased during the months of January and February will be credited to our quota.

At the close of business Saturday, January 29, about 50 per cent of this quota had been purchased and if we will all do our part and do it early and do it NOW, we can have this county's quota fully subscribed by February 15.

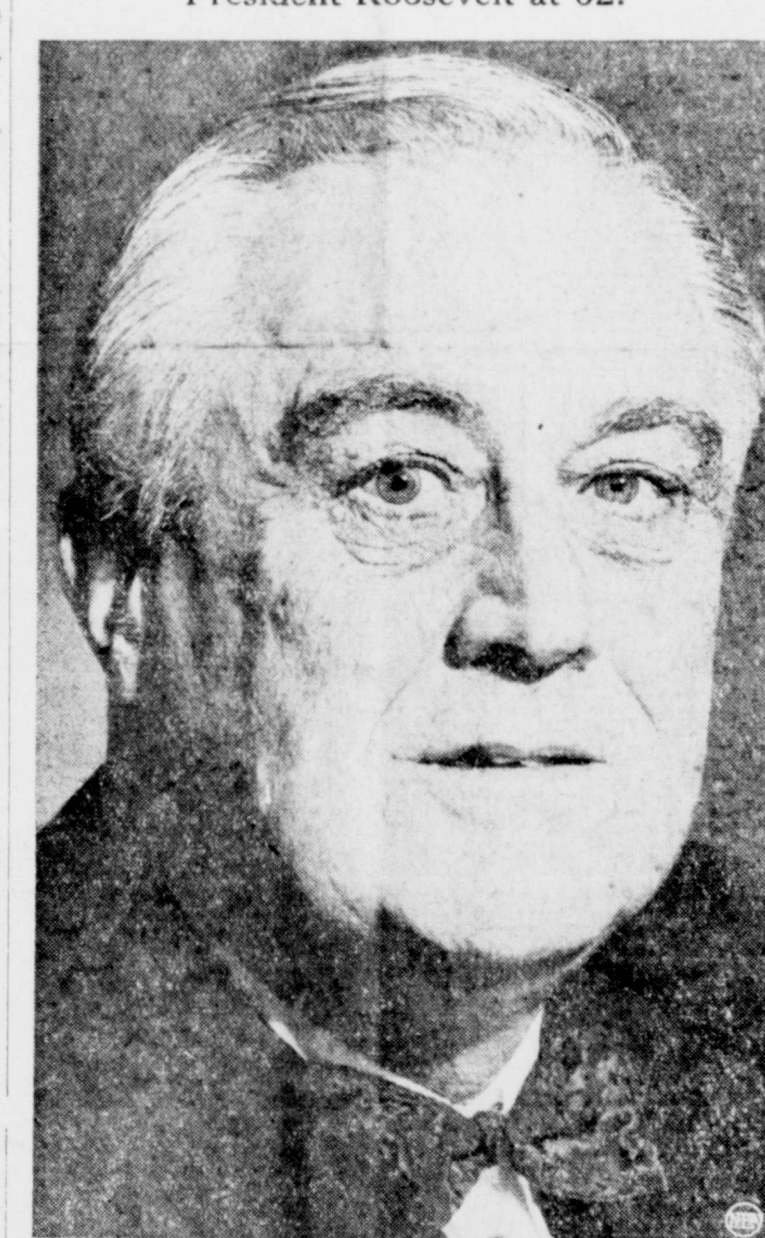

We like for things to snap on the war fronts in our favor and don't you know it will bring cheer to the boys and girls on those fronts if we make things snap back here in their favor?

The faster we subscribe the loans here, the faster will material and fighters reach the front and the sooner will this war be over and those in the service will be returning home.

Won't you go to your bank or postoffice just as quick as you possibly can and do your part to make this drive a success?

Very kindly yours,
CYRUS B. FROST,
Eastland County Chairman.
MRS. PAUL M. WOODS,
Chairman Women's Division.

Sullivans Get Sons' Medals

Mrs. and Mrs. Thomas F. Sullivan of Waterloo, Ia. are pictured above as they received from Rear Adm. Clark H. Woodward, in Washington, the Purple Heart medals awarded posthumously to their sons. The five Sullivan brothers were lost when the cruiser Juneau, on which they were serving, was sunk in the South Pacific.

JAPS STARVED OUT BY AUSTRALIAN YANKS

NEW GUINEA, Feb. 3.—The last disorganized and starving survivors of a once powerful Japanese army are reported fleeing into the Finisterre Mountains of northern New Guinea following an Australian break-through to within 30 miles of a junction with Americans at Saidor.

Walled against the sea on a narrow coastal plain between the closing jaws of the Australian-American trap, Japanese units appeared to have "disintegrated into mountainous passes and trails in an escape endeavor," Gen. Douglas MacArthur's message announced.

Enemy dead were being found in increasing numbers as the Australians stepped up their advance and overran a strong — and perhaps last — enemy pocket of resistance in a break-through that carried them past Reiss Point, some 30 miles east of the American beachhead at Saidor.

Most of the dead Japanese showed signs of extreme starvation and exhaustion, evidence of the effectiveness of the Allied blockade and bombing and strafing patrols.

STOCK SHOW MARCH 4, NOT FEBRUARY 19

The Daily Press carried a story yesterday concerning the approaching stock show to be held in Eastland, giving the date on which the show will be held as February 19, whereas the correct date is March 4.

In a telephone talk with Floyd Lynch, county farm agent, this morning, Mr. Lynch said February 19 was the original date set for the Eastland event, but that it had been changed to March 4 for the convenience of stock exhibitors who wished to participate in the Fort Worth stock show, the two dates being in conflict.

RECORD NUMBER WORKERS PARTICIPATE

Spokesmen for the Red Cross surgical dressings work rooms wish to express their appreciation for the fine turnout of women Wednesday, when 2,601 dressings were completed by 44 workers. This was a record attendance.

Those present yesterday included Mesdames L. A. Harrison, Don McEachern, H. J. McArdle, W. W. Moore, W. C. Hogue, A. D. Anderson, O. G. Lawson, E. H. Hester, J. G. Dunlap, John Elkins, J. A. FARM LOAN PAYMENTS.

FT. WORTH, Feb. 3.—Repayment of farm loans is the heaviest in the 26-year history of the Federal Land Bank of Houston, Sterling C. Evans, president, told a meeting of Northwest Texas members here yesterday.

THE HAND IS WRITING.

LONDON, Feb. 3.—Paced by more than 1,000 American heavy bombers and fighters which gutted the big Nazi naval base at Wilhelmshaven, Allied warplanes hammered at continental Europe today in a fresh round-the-clock offensive.

REDS ATTACK HISTORIC NARVA WHILE AMERICANS AND BRITISH ADVANCE IN ITALY, MARSHALLS

MOSCOW, Feb. 3.—Red armies poured into Estonia in a developing assault on historic Narva today and, 200 miles to the south, launched a powerful offensive toward Latvia.

General Govorov's army surged toward the Narva gap between the Gulf of Finland and Lake Peipus on a 35-mile front, advancing to within six miles east, seven northeast and 15 southwest of Narva itself, six miles inside Estonia.

The Russians' outflanking columns were expected to make the Nazi position untenable soon, perhaps forcing an evacuation even before a frontal attack can be launched along the Leningrad-Tallinn railroad and highway.

(Stockholm dispatches said the Germans already were evacuating Narva. Radio London quoted a Finnish broadcast as saying that an important conference of German military, naval and civic officials was held at Tallinn Monday, at which it was decided to order the evacuation of eastern Estonia.)

(President Mae of the German puppet government of Estonia, in a warning broadcast over the Turi Radio, urged the inhabitants to keep all roads to the front clear for the movement of troops and to prepare accommodations for wounded soldiers. "The enemy is at the gates," he said. The broadcast was recorded by U. S. Government monitors.)

The Soviets captured more than 40 towns and villages on the northwestern front yesterday and swept across the Estonian border to seize Vanakula, 11 miles north of Narva and one half-mile inside Estonia.

The fall of Fedorovka, seven miles north of Narva and only a half mile from the frontier, and Nikolskoye, 15 miles northeast of Lake Peipus and one mile from the border, indicated that the Red Army by this time had crossed into Estonia on a broad front.

More than 1200 Germans were killed as the Russians mopped up disorganized enemy units trying futilely to escape through the 27-mile wide Narva gap, the only land exit into Estonia north of Pskov, 100 miles to the south.

The new offensive aimed at Latvia was launched by Gen. Markian Popov, commander of the second Baltic front, from positions west of Novosokolniki within 60 miles of the Latvian border.

PEARL HARBOR, Feb. 3.—U. S. Marines and infantry, backed by tanks and the heaviest air and naval bombardment of the Pacific war, have seized half of the last enemy-held airfield in Kwajalein Atoll, in the heart of the Marshalls, and begun battles of extermination against Japanese remnants, front dispatches said today.

With the only enemy opposition in strength confined to a shrinking pocket at either end of the 66-mile-long atoll, complete conquest of Kwajalein, first pre-war Japanese territory invaded by the Americans, was in sight and perhaps only a matter of hours.

ALGIERS, Feb. 3.—American tanks and infantrymen have all but encircled the fortress town of Cassino at the center of the Germans' shattered Gustav line, it was disclosed today, as other Allied 5th Army forces extended their beachheads below Rome in the face of increasingly-heavy enemy counter-attacks.

Striking swiftly to implement Tuesday's break through along a four-mile segment of the Gustav line above Cassino, the Americans filtered into the outskirts of the town late yesterday, while other armored forces broke into the fortified village of Terreci, five miles to the northwest.

Front reports indicated the Americans already may have cut across the Via Casilina above Cassino and closed a death trap around the Nazi remaining in the town.

SAVOY CAFE CLOSED FOR REMODELING

The Savoy Cafe, operated by Messrs. Nick Nicklas and Sam Draganis, is closed for general remodeling and building repairs and will probably remain closed for two weeks.

Mr. Draganis has been in the restaurant business in Cisco since June, 1919. He came here from Abilene and was joined by Mr. Nicklas a few months later, the latter coming to Cisco from Rock Island, Ill. Both are men of family, true-blue Ciscoans and

MANY WILL VOTE

HOUSTON, Feb. 3.—The actual count of paid poll taxes in Harris county last night reached 128,397, and tax officer Jim Glass said today he expected the final figure to be well over 130,000. The tabulation of last night exceeded by 25,733 the total paid in 1940, last presidential election year.

UNCONDITIONAL SURRENDER!

Soft-hearted souls who would urge a negotiated peace at this point had better tread lightly and read in full the reports of the three army officers who escaped from captivity by the Japanese in the early days of this war.

The stories told in these reports are not rumors. They are hard, actual facts related by tough men who are used to taking hard experiences.

The tales of our own prisons in the past have not been happy ones. No American points with pride to the story of Libbey or of Andersonville. But there is a difference. In those cases the soldiers of the captor forces were hardly better off than their prisoners. They, too, were ragged and without sufficient food. Nor did they know, at that time, anything like what is now known about control of diseases. The Japanese do know about modern medicine and sanitation. And in the Philippines there was plenty of food. An American officer, seeing a food dump, asked for food for his men, and in reply had a tin of fish-bone at him, cutting his face open. Filipinos who gave food and aid to American soldiers were beaten or shot for their mercy.

These cruelties were deliberate and entirely unnecessary. There is only one answer—Unconditional Surrender!

RUSSIAN PROGRESS.

The Russian government continues to operate as a dictatorship over the Soviet system as a whole, yet internally seems to modify an iron-bound system. Americans may have read with interest, and some surprise a recent dispatch from London stating that Moscow was giving "the various republics within the Union of Soviet Socialist Republics" a voice in foreign policy and defense. It was also suggested that this action might foreshadow "far-reaching change in the makeup of postwar Russia."

The news was based on a Moscow broadcast, which said these proposals were made by the Council of People's Commissioners and approved by the central committee of the Communist party. The London dispatch also suggested that "with the Russian armies now liberating the Ukraine and White Russia, and advancing toward the Baltic states brought into the Soviet Union in 1940, the proposal to give the republics new powers appeared to be carefully timed."

Most Americans have assumed that Soviet Russia is a thorough-going dictatorship and destined to remain so, both nationally and locally. While maintaining a strong central government for national purposes, Russia really seems to have a good deal of internal democracy, and this trend may now become clearer after the war. The real question perhaps is whether it will retain its federal dictatorship, or will liberalize that also.

SUB-CIVILIZED PARTNERS.

Those two powerful enemies of civilization, the Nazis and the Japanese, are well matched. They obviously belong together, in spite of their racial and national differences. They both seek to live and thrive by crime, and in their assaults on other nations they seem to prefer the most inhuman methods.

The Japanese, as war-time revelations show, are somewhat lower in the scale of humanity than the Nazis, and nearer to primitive savagery. But under Hitler and his brutal gang, the difference is slight. To us as bad as Hitler and Hitler is as bad as Tojo, and their willing followers are nearly all tarred with the same stick.

It seems that the Japanese in general never have been really civilized, in spite of the good men occasionally found in that race. And much the same view must be taken with regard to the followers of Hitler. Their ideals and practices are higher than those of the Japs, but they have shown the same fatal tendency to revert to barbarism, lacking enough thoroughly civilized and responsible elements to maintain a true, modern civilization.

These are the world's problem nations. Collective crime is hard to deal with. Individuals of criminal propensities, in civilized countries, are placed in public institutions for public safety and personal correction. But it is hard to do that with scoundrel nations. And where the European Germans and Asiatic Japs will end, God only knows.

February, 1924

(From Files of Cisco Daily News)

Resolved, by John William Butts Post No. 123, American Legion, in regular session assembled, this the 18th day of February, 1924, that we consider any individual, group of individuals, or organizations, whether it be the Ku Klux Klan, County Constitu-

tional Club, or other identification, which creates, or fosters, racial, religious, political, or class strife among our people, or who seek to champion elections or candidates for election through radical beliefs and seize, un-American, and a menace to our liberties, and be it further resolved, that this Post considers such action by any individual, group, or organization, to be inconsistent with the ideals and purposes of the American Legion; and be it further re-

solved, that this Post adheres to the original purpose of the American Legion and stands for the service man, irrespective of belief in religion or politics, and welcomes all such to its fold that within this fold the question of such belief or affiliation be never raised to the prejudice of any one, but that the spirit of tolerance and good will be extended to all, irrespective of their belief in or adherence to any society or organization whatsoever, so long as the same does not conflict with allegiance to God and the government of the United States.

The Daily News regrets to report that it quoted incorrectly a statement made by H. Q. Lee relative to the poultry industry. It was Mr. Lee's statement that the volume to be derived from 125-1000 chickens in Cisco's trade territory would be equal to \$10,000 a week or the value of 1000000 of cotton selling at 20c a pound. In connection with the poultry industry it is understood that W. H. Hurd, the poultry dealer is now shipping close to 20 cases of eggs a day or almost 1-2 of a carload a week.

At a meeting of the publicity committee to decide upon appropriate literature for the address being put out by the chamber of commerce to advertise Cisco and its advantages, the folder already mapped out was discussed and approved and an order for the printing of 10,000 copies will be given soon. The committee consisted of P. W. Campbell, Paul Butler, M. T. Turner and G. C. Richardson.

Red Pass and Lightman Moore took the stage line to Eastland Wednesday night to see "Blossom Time."

LONG BRANCH

Rev. W. Rogers from Howard-Payne College preached at Long Branch Sunday morning and night. His sermons were appreciated by all and he has been asked to return here February 20.

Mrs. J. W. Gage is still suffering from an infected foot. Mr. and Mrs. Revis Gregg were here from Cisco to visit Mr. and Mrs. Earl Marsh, Sunday.

Repair or Replace Old Roofs Before Bad Weather Sets In!

If your roof needs repairing or replacing, better have it done before bad weather sets in. One leak can cause a lot of damage—frequently far more than the cost of repairs.

Should a new roof be needed, let us give you a free estimate on Carey Shingles or Roll Roofings. We carry a wide variety, so you can choose the type best adapted to your needs. Backed by 60 years of experience, Carey Roofs cost no more, and frequently less, than untested materials. That's why we sell them.

"You Can't Go Wrong When You Use The Right Tools!"

"Now that's what I tell my customers," said the hardware dealer to his business friend. And he continued: "That's what I think of the 4th War Loan and all other drives to secure funds with which to carry on this war."

"Our soldiers have been faced with a big job --- a job that is almost super-human in scope. The drive up through Italy is faced by Hitler's well-trained, well-fortified troops, set behind seemingly impregnable fortresses. But our men are doing the job... Why are they able to do it? Simply because we are furnishing them with the proper kind of tools.

"Now I know that tools such as tanks, guns and airplanes cost money --- just gobs of it, and there is no other way to get it except the way we are doing it. There are no people to rob like Hitler robbed the Jews and many others. We must just lend it to the government, because our soldiers must never lack for one moment the tools needed to fight their way foot by foot as they are doing in the South Pacific and in the rugged mountains of Italy.

And those Russians who move on through snows day by day in temperatures that are too much for those not accustomed to them... They must have the tools and food which only our money can supply.

Yes, the hardware man is right. We must buy our share so that the money will keep on flowing to channels needed to keep our armies and our allies in fighting condition so that the attack will be pressed every day and night. There must be no let-up --- not for a minute. They must have the best.

Let's buy still another bond today.

There is No Substitute for Safety--

It is not always wise to take the short cut. At first thought it may appear convenient and cheaper to do so, but that depends on the risk involved. For example, it is both dangerous and costly to take the short cut and purchase lands and town properties without knowing something about the title. Play safe. Buy only good titles proved to be good by the abstract.
