### MAX GOLDBERG DIED AT CISCO HOME FRIDAY

Max E. Goldberg, 66, who located in Cisco about 15 years ago, died Friday at 3:15 p. m. at his home on the Lake Road. He had suffered from heart attacks for several months.

Funeral will be held at the Robinson-Muller Funeral Home, Fort Worth, at 2:30 o'clock this afternoon, with burial in Hebrew Rest cemetery, that city. Rabbi Graubart of Ft. Worth will conduct the services and the Thomas Funeral Home of Cisco will be in charge of the remains.

Mr. Goldberg was born August 6, 1878, in Russia, and came to the United States at the age of 20. He spent a year or more in the east and then came to Texas and had been a resident of the Lone Star state continuously until his death. He was an upright man and a good citizen and had engaged the real estate business here in recent years.

He was united in marriage to Miss Blanche Abrams, in Dallas, some 42 years ago and to this union seven daughters were born, all of whom, together with the mother, survive him. The daughters are Mrs. A. B. Sandler, Oklahoma City; Mrs. Harry Shapiro, San Antonio; Mrs. Ralph K. Gillen, Dallas; Mrs. Nyman Shanblum, Fort Worth; Mrs. Leon Krupp, Dallas; Mrs. Charles S. Sandler, Cisco; Miss Byrna Goldberg, Dallas.

Pallbearers: Ben Goldberg, Abe Goldberg, N. Rude, Dallas; Pete Coole, Odessa; Ike Sandler, Louis Shanblum, Fort Worth. All of his friends are designated as honorary pallbearers.

### BANDITS USE MACHINE GUNS IN NEW YORK

NEW YORK, Feb. 5.—New York police searched today for eight bandits who subjected the city to two holdups in one day—a "payroll job" for \$30,400 and a building-and-loan robbery for \$3,500.

Six masked robbers armed with two submachine guns and a sawed-off shotgun seized the West Side Iron Works payroll Friday and after a gun duel and automobile race with police, wrecked their car in a collision with another and escaped. They left \$16,330 of their loot in the automobile.

### NEWS ANALYSIS.

WASHINGTON, Feb. 5.—Axis strategy: Rear-guard actions as long as possible; make every advance cost Allies dearly; stop and hold somewhere outside Germany and Japan proper; then tire Allies while trying to split them or induce negotiation.

In the Pacific: Japs, desperately short of shipping, are unable to maintain present front, which now extends 15,000 miles from Kamehatka around the Marshalls; East Indies, Burma, China and Manchuria. Japs' only defense for outposts: To plant suicide units and desert them.

Russia will cling to Eastern Poland, and Britain and U. S. probably will induce Poland to accept East Prussia and other German territory as "compensation." But for future reference: U. S. and Britain will rue the day, because Allies will be morally bound to go to Poland's aid when Germans stage "war of liberation" 25 years or more hence.

Lithuania, Latvia, Estonia are already as good as devoured by Russia. Moscow includes them among 16 "autonomous" republics. Britain is expected to recognize fait accompli sooner or later, but not U. S. It would be contrary to U. S. precedent.

Gen. Ramirez's regime in Argentina isn't likely to fall soon, say American residents of that country now home on leave. It's likely to hang on for a while although it's pro-Axis as ever.

### GERMANS SAY AIR INVASION RAIDS BEGUN

LONDON, Feb. 5.—By German account, preliminaries to the Allied invasion of Western Europe already are under way—including "reconnaissance attacks" by English units along various points of the Atlantic wall.

A spokesman for the German general staff was quoted in a Budapest broadcast recorded Saturday by the Ministry of Information as declaring:

"The English have begun their attack from the air first of all against sectors of the West Wall. In these air attacks American Flying Fortresses also are frequently employed.

"English units have attempted attacks against various points along the Atlantic wall, but these never have been more than reconnaissance operations.

"Early Spring will be the most favorable time for an attempt at invasion and it will probably be then that the British reconnaissance activity will reach its climax."

### NAZI SHAKEUP.

LONDON, Feb. 5.—Stockholm circles said Saturday they had received confirmation of reports that Hitler dismissed 47 Nazi generals because of "disagreement on eastern front strategy."

### RIGHT HOME LIFE DELINQUENCY CURB

ORANGE, Tex., Feb. 5.—Tarrant County Judge Clarence O. Kraft of Fort Worth posed a new question last night for those concerned over juvenile delinquency—Is there an increase in delinquency or is there an increase only in the awareness of delinquency?

Speaking at a celebration of the third anniversary of the National United Service Organizations, Judge Kraft said that unless something is done about the lack of home life for children, "America will fall morally, as France fell."

He criticized "unnecessary employment to the sacrifice of boys and girls," which he said was a "glamor job" compared to rearing children.

He urged fathers and mothers to return to their homes and continue to produce an America that will justify sacrifice on the battlefield.

He said he knew "the churches will not agree," but that he believed in sterilization of habitual criminals, drunkards, and the diseased.

### MUSTERING OUT PAY FOR SOLDIERS READY

WASHINGTON, Feb. 5.—Discharged war veterans will probably commence receiving their mustering-out pay by the middle of February, it was learned today as the war and navy departments prepared to put in effect the law signed yesterday by the president.

Payment will be made in the order in which applications are received and as rapidly as they can be processed. Enterprising veterans who get their applications mailed this week-end may in some instances receive payment by the end of next week, it was believed.

Late applicants may face delays, since approximately 1,300,000 veterans discharged since December 6, 1941, must be handled.

Veterans to be eligible must have been honorably discharged or released on or after December 7, 1941, from the various services, including the four women's reserves.

Those with less than 60 days' service will receive \$100; those with longer active service but no foreign duty will receive \$200 in two monthly installments, and veterans with more than 60 days' service as well as some foreign duty will receive \$300 in three monthly installments.

Those already mustered out must apply for the payments. Those discharged hereafter will receive their mustering-out pay automatically.

### AUSTIN MILITARY BRAWL LASTED HOUR

AUSTIN, Feb. 5.—Three military policemen were injured none seriously, in a brawl in a tavern in an East Austin district populated mostly by Negroes.

One of the injured was a Negro military policeman. The fight, said Maj. William A. Johnson, provost marshal, started when a Negro MP arrested a Negro soldier.

The row spread to the street and was not quelled until combined forces of city and military police, state police and sheriff's officers took a hand. The affair lasted about an hour.

### WITH NAVAL AID, MARINES TAKE MORE MARSHALL ISLES; TOUGH SLEDDING IN ITALY

MOSCOW, Feb. 5.—Major decisions were being won all along the Russian front Saturday with the onslaught against Hitler's battered armies continuing full swing from the Baltic to the Middle Ukraine.

General Govorov's Leningrad army had reached the mouth of the Narva river, nine miles inside the border of the Estonian Soviet Republic on the coast of the Gulf of Finland, and had advanced to Lake Peipus, 35 miles to the south, thereby sealing the land gap which forms the gateway to the Baltic.

Red armies of the Ukraine have curved 100 square miles out of the pocket in which upward of 100,000 Germans were trapped, front dispatches said today, and Soviet planes downed scores of big Junkers transports trying to supply the doomed Nazis.

Steady Soviet gains in a concentric drive on the 19 encircled German divisions, backed by pulverizing artillery fire, reduced the Dnieper pocket from 1000 to 900 square miles in a single day of fierce fighting, field reports said.

Military sources spoke confidently of an early liquidation of the biggest German force trapped since the Stalingrad debacle a year ago.

As the Ukrainian armies tightened the ring and almost wiped out its tangent with the Dnieper river below Kiev, the desperate German units were reported breaking in confusion and abandoning their futile attempts to break out.

The Russians captured divisional headquarters records which included an order from a commander to his officers to "put an end to this confusion."

The hard pressed Germans were reported abandoning their heavy equipment in perfect working order, ready for the Red Army to turn it directly on them, as they fell back from the rim of the pocket.

(The London Daily Mail reported from Stockholm that 50,000 of the original 100,000 encircled German troops already have been annihilated.)

Gen. Nikolai P. Vatutin and Ivan S. Konev of the 1st and 2nd Ukrainian armies appeared determined to destroy completely the trapped German units, if only to avenge the German massacre of their countrymen in Kiev, Smolensk and other key Soviet cities.

Unlike the Soviet command at Stalingrad, the two generals made no calls for the Germans' surrender.

PEARL HARBOR—U. S. Marines have seized seven more small islands at the northern end of Kwajalein atoll against light opposition, it was revealed as warships joined in a heavy new bombardment designed to crush desperate Japanese resistance on four islands to the south.

Attacking under cover of the sea, air and land bombardment, army veterans of Attu and Kiska extended their holds on Kwajalein and Ebeve Islands at the southeastern corner of the atoll and were expected momentarily—if they have not already done so—to swarm ashore on nearby Loi and Gugegwe.

Howard Handelman, representing the combined Allied press aboard the joint expeditionary force flagship, said Marines under Maj. Gen. Harry Schmidt extended their control of the northeastern portion of the 66-mile-long atoll by occupying seven unidentified islets after capturing the main strongholds of Roi and Namur.

American battleships and cruisers, along with bombers, were called in to supplement land artillery in battering down enemy defenses on Kwajalein, Ebeve, Loi and Gugegwe when it appeared they were the only strong pockets of resistance remaining in the

large atoll in the center of Japan's Marshall Islands.

Army troops under Maj. Gen. Charles H. Corlett already have burned and blasted the Japanese from half of both Kwajalein and Ebeve islands with the aid of flame-throwers, grenades, rifles, bayonets, machine-guns and even dynamite.

ITALY—The Germans have launched a new attack in their offensive to smash the Allied beachhead, this time striking at British troops north of Aprilia (Cassino), 20 miles southwest of Rome, but have been repulsed with heavy losses, it was announced Saturday.

On the main 8th Army front desperate fighting raged in Cassino and in the mountains north of the town, with the Germans holding on despite sledgehammer attacks of American infantry, artillery and armor.

The Germans were still in possession of the main part of Cassino. Positions changed hands several times. The Germans managed to get more six-barreled mortars, tanks and big self-propelled guns into Cassino. They had turned almost every house into a fortress.

Just to the north of Cassino American troops pushed farther west dislodging the Germans from most of Mount Hailo, but desperate fighting was continuing.

The Nazis threw into the beachhead the 25th Division, one of their best armored outfits in Italy, which has fought on both the 5th and 8th Army fronts.

All along the northern part of the beachhead the Germans probed the Allied line in apparent search for weak spots.

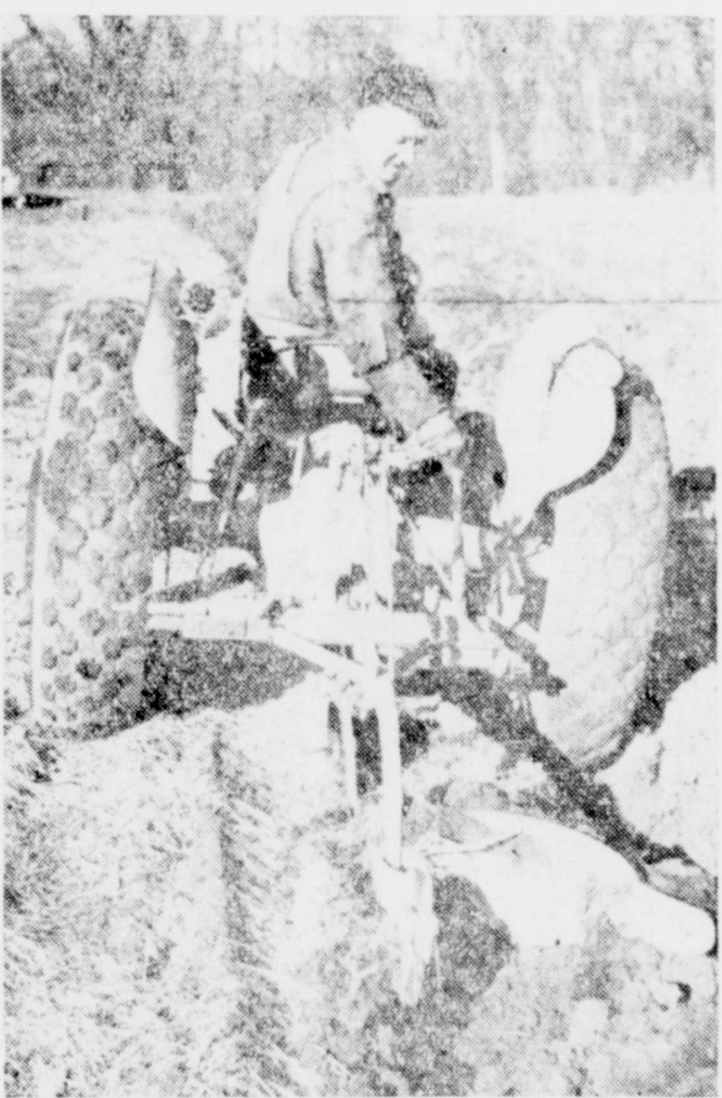

The Allies Friday took 90 prisoners in the beachhead fighting, bringing the total captured there since the landings to 1,500. The total number of Germans captured in Italy since the invasion of the continent started in Calabria Sept. 3, 1943, is now over 10,000, headquarters announced.

### BOWLING CLASSIC.

CHICAGO, Feb. 5.—The 1,022 score registered by Leo Faetz of Chicago Tuesday to set the pace in the Peterson individual bowling classic commanded increasing respect today in proportion to the narrowing field of competitors. Another night's onslaught that failed to disturb the top 10 in the standing of the \$32,000 tourney left Faetz much nearer the \$5,000 first prize, and there were only two more sessions left. On the basis of past history of the classic, Faetz' 1,022 would not be enough. On 16 occasions, it required 1,700 or better to win in the 31-year-old Peterson.

### "You Can't Go Wrong When You Use The Right Tools!"

"Now that's what I tell my customers," said the hardware dealer to his business friend. And he continued: "That's what I think of the 4th War Loan and all other drives to secure funds with which to carry on this war."

"Our soldiers have been faced with a big job --- a job that is almost super-human in scope. The drive up through Italy is faced by Hitler's well-trained, well-fortified troops, set behind seemingly impregnable fortresses. But our men are doing the job . . . Why are they able to do it? Simply because we are furnishing them with the proper kind of tools."

"Now I know that tools such as tanks, guns and airplanes cost money --- just gobs of it, and there is no other way to get it except the way we are doing it. There are no people to rob like Hitler robbed the Jews and many others. We must just lend it to the government, because our soldiers must never lack for one moment the tools needed to fight their way foot by foot as they are doing in the South Pacific and in the rugged mountains of Italy."

And those Russians who move on through snows day by day in temperatures that are too much for those not accustomed to them . . . They must have the tools and food which only our money can supply.

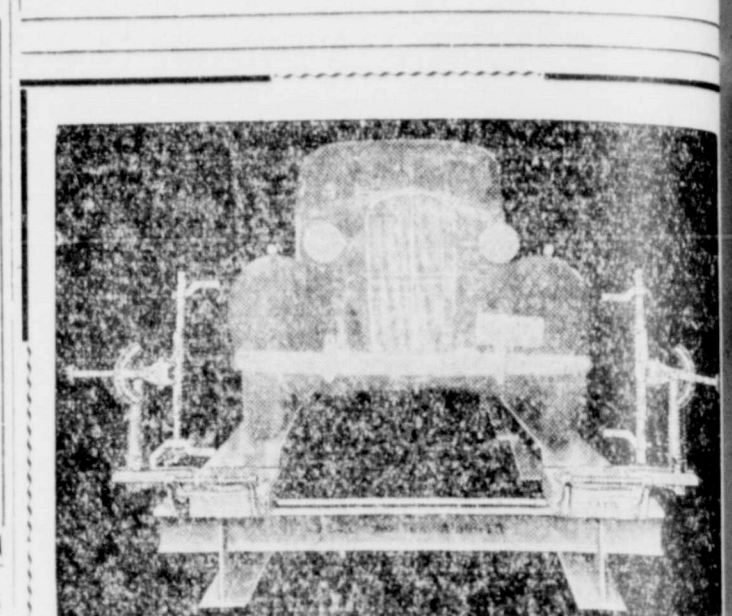

Yes, the hardware man is right. We must buy our share so that the money will keep on flowing to channels needed to keep our armies and our allies in fighting condition so that the attack will be pressed every day and night. There must be no let-up --- not for a minute. They must have the best.

Let's buy still another bond today.
