### UTILITIES AND CONOCOS SET LIVELY PACE

West Texas Utilities bowlers won three straight games from Conoco's Conoco last night, but only after a terrific struggle, witnesses stated. In the battle between The Man's Store and Cisco Lumber & Supply Co., the former took two out of three games.

High score for the evening went to C. C. Cutting, who averaged 177. Earl Williams and Glenn Hugh tied for second place, each making up 170.

The line-up Friday night will be Thomas Funeral Home vs. Palace Theater, Cisco Gas Corporation vs. Collins Hardware. Last night's games in detail: West Texas Utilities—

### GARDNER TORPEDOMAN OF THIRD CLASS

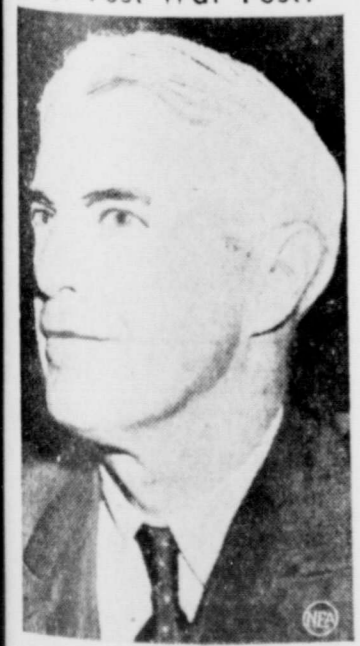

W. C. Gardner, well known Cisco boy and nephew of K. N. Lee, is here from Whidbey Island, near Washington, D. C., on furlough after 13 months of naval training.

The young man will be 19 years of age his next birthday and is a member of the third class. He is well over six feet in height and is in his preparatory training for sea duty. He has been time well spent. He will return to his post after this week and expects call to active service within the near future.

### DAUGHTER OF DOGS.

FT. WORTH, Feb. 23.—The Austin laboratories of the state department of health reported Fort Worth's twelfth case of dog rabies this year as police hunted another suspected rabid dog which bit Mrs. Martin Prelutsky, 3210 McPherson.

### For Post-War Post?

William L. Clayton, above, assistant secretary of commerce, is considered a leading candidate for the job of post-war surplus property administrator, as recommended in the post-war demobilization and industrial reversion report submitted by Bernard M. Baruch, economic adviser to War Mobilization Director Byrnes.

### CISCO AIRPORT BE REOPENED

Mayor Edward Lee, Commissioner A. D. Anderson, George Boyd, Henry S. Drumwright, J. J. Collins, Charles J. Kleiner and City Secretary George W. Downie were all present at last night's city commission meeting.

Probably the most important matter discussed and acted upon was the commission's decision to re-open Cisco airport and place a man in charge, with 24-hour service for planes landing here. A considerable number of planes from nearby flying fields use the local port for emergency landings and the number of commercial planes is steadily increasing. M. L. (Chuck) Cannon was employed and a small house inherited by the city from C. and N. E. railroad will be moved to the airport for occupancy by Mr. Cannon and family. A telephone will be installed for the convenience of army or other visitors and all important Texas airports will be notified that the local port is again in commission.

Commissioner Kleiner, who had charge of canteen finances during operation of the war ordinance training school for women, which was discontinued by the government some time ago, made his final detailed report to the commission. The report disclosed income of \$23,210.42 with operating expense of \$24,976.12, or a net operating profit of \$2,764.30. Cost of canteen equipment was \$2,098.11 and sale of equipment realized \$2,264. An equipment loss of \$434.11. Subtracting equipment loss from canteen profit leaves an overall loss of \$199.81. However, the city still has an investment of \$2,709.74 in the canteen building. Commissioner Kleiner has delivered all canteen records to the city secretary and his report will be audited in the usual manner later along with the general city audit.

### CAMPAIGN TO DRAFT TEXAN FOR DEMOCRATS

HOUSTON, Feb. 23.—A campaign to "draft" Sen. W. Lee (Pappy) O'Daniel for the democratic presidential nomination this year has been launched over a Houston radio station against a background of the hillbilly music which helped the former Fort Worth flour salesman into top-flight politics.

The station (KXYZ) said the program material was submitted by C. V. Milligan, who is listed in the city directory as an official of a manufacturing company.

Featuring string-band music, with O'Daniel's "Beautiful Texas" as the theme, the program is aired at 12:45 p. m. daily. It opens with the statement: "This is a paid political announcement."

Observers noted that the time is the same as used by O'Daniel in his flour promotion broadcasts and later favored by him for political use.

Yesterday, the announcer reported: "An invitation will be extended to every state in the union to send hillbilly bands to stamper the democratic convention. The democratic declined to discuss the program, beyond the actual broadcast, beyond the actual broadcast, beyond the actual broadcast. He told reporters to pay close attention Friday, "for important news is coming."

PEACEFUL SHELTER—This mission on Apamama, in the Gilberts, is a bit of peace in the wake of war for Cpl. Jack Ely, Marine combat photographer. He talks to sister M. Dolores, flanked by two natives, one of whom can't resist wearing a grass skirt over her dress.

### The Windsors 'At Home'

Here is the newest portrait of the British royal family, photographed at Windsor Castle by noted photographer Cecil Beaton. Left to right are: Princess Elizabeth, heir apparent, who will reach her 18th birthday in April; Princess Margaret Rose, Queen Elizabeth and King George.

GREAT BATTING AVERAGE.—When St. Louis Cardinals donated their championship caps to Maj. Greg Bovington's "Black Sheep" Squadron, the boys promised to bring down a Jap for every cap. So far they've downed 48 Japs for 20 caps. These Leathernecks, shown in South Pacific, left to right: Lieut. Robert W. McClung of Newcastle, Pa., Lieut. Robert Paul R. Mullen of Pittsburgh, and Lieut. Edwin L. Olander of Northampton, Mass., are aiming to make the score three for every cap now.

### CONGRESS TO OVERRIDE VETO

WASHINGTON, Feb. 23.—Democratic and republican tax leaders in the house in a blistering attack on President Roosevelt's "irresponsible" veto of the new tax bill, charged today that "irresponsible theorists" serving as white house advisors were seeking to usurp tax powers rightfully belonging to congress.

In a joint statement calling on congress to "retain its constitutional taxing authority by overriding the veto," Chairman Robert L. Doughton (Democrat, North Carolina) of the house ways and means committee, and Rep. Harold Knutson (Republican, Minnesota), ranking member, charged that the president's proposed \$10,500,000,000 tax program would be a "crushing blow" to both individuals and industry.

Representative Doughton, former proponent of Rooseveltian tax policies, declared the president's advisors "seem to have lost patience with constitutional government by law" and "favor government by executive decree."

Doughton and Knutson also contend that the country already has lost \$87,000,000 in excise taxes through failure of Mr. Roosevelt to sign the bill by Feb. 19, and stand to lose more than \$1,000,000,000 in 1944 if the veto is sustained.

Indications today are that congress will override the veto, vote on which is set for tomorrow in the house.

### AMERICAN JUDAISM

HOUSTON, Feb. 23.—Resolutions designed to "revitalize and strengthen American Reform Judaism" have been passed by Congregation Beth Israel of Houston, the south's largest Reform Jewish congregation. A letter accompanying the resolutions being sent to officers, trustees and rabbis of Reform Congregations points out that there are only 55,000 affiliated with Reform Congregations. "We are not satisfied with this showing after 75 years and are not content to see Reform Judaism disappear from the American Jewish scene," wrote Leopold L. Meyer, Beth Israel president.

### LONDON BOMBED FOURTH TIME IN FIVE NIGHTS, GIVING THE CAPITAL ITS 713 AIR ALERT

LONDON, Feb. 23.—Two mighty American air armadas shot down 133 German fighters and reduced key aircraft plants in four German cities to smoking ruins yesterday in the first shattering assaults of a co-ordinated air offensive from Britain and Italy.

British twin-engined Mosquito bombers heaped new destruction on Germany in small-scale attacks on unspecified objectives in southwestern and western Germany last night without loss, the air ministry announced.

Stung into a show of retaliation, German planes penetrated London's terrific anti-aircraft barrage for the fourth time in five nights early today to give the capital its 713th air alert of the war. The attack appeared heavier and more widespread than the previous four raids, though it still was far from the scale of the blitz raids of 1940-41.

Most damage was in the suburbs. Bombs also fell in southeast England and the home counties. An Air Ministry-Home Security Ministry report said there were a number of casualties, some of them fatal. At least 10 of the raiders were shot down, two of them over continental bases in France.

The 8th U. S. Air Force carried its offensive against German fighter plane production centers through its third day yesterday with attacks on Bernburg, Aechelsleben and Halberstadt, all 80 to 105 miles southwest of Berlin, while the 15th Air Force in Italy joined in the assault for the first time with a raid on fighter plane factories at Regensburg, 250 miles south of Berlin.

Thunderbolt fighters which escorted British-based Flying Fortresses to central Germany shot down 59 intercepting German planes while the bombers themselves accounted for an additional 34 in some of the fiercest aerial combats of the battle of Germany.

Flying Fortresses and Liberators from Italy shot down 40 out of 120 intercepting German planes during the attack on Regensburg, an Algiers communique announced.

The Fortresses shot down 14 during a 55-minute running battle south of Regensburg and over the city itself, while Liberators destroyed the remaining 26, some of them rocket-firing twin-engined planes.

The Mediterranean air forces accounted for an additional 10 enemy fighters in engagements over the Anzio beachhead below Rome.

The new successes brought the Americans' three-day toll of enemy aircraft over Germany to 310. An additional 18 were "probably" destroyed over southern Germany yesterday.

Fifty-seven Allied planes were lost yesterday in all activity over Axis Europe, which also included small-scale attacks on central and southern Germany and occupied France and Holland by British-based planes, and objectives in Italy and Yugoslavia by the Mediterranean forces.

The 8th Air Force lost 14 heavy bombers and one fighter in the attacks on central Germany, while 15 planes failed to return to Italian bases. Another 10 American fighters were reported missing from the raids on central Germany.

### NAZIS MAKE RABAU GETS READY FOR 18TH DAILY A BIG PUSH HAMMERING

NAPLES, Feb. 23.—American and British troops on the Anzio front held firm under new German counter-attacks, a communique said today, as front reports indicated Nazi armored forces were massing in great strength for a third major attempt to crush the Allied beachhead.

Covered by bad weather and a day-long artillery barrage that sent hundreds of shells crashing into the beachhead, the Germans thrust repeatedly against the Allied lines yesterday and moved strong formations of tanks and shock troops into position for a general attack.

Two Nazi attacks against the American lines west of Cisterna were beaten off after a brief, bitter fight, and British artillery for the second straight day broke up an enemy concentration in the Aprilia sector.

Headquarters spokesmen said the Germans suffered considerable casualties in both sectors, but it was indicated the local actions were designed to screen Nazi preparations for another big push.

SANTIAGO, Chile, Feb. 23.—Fourteen alleged members of a German spy ring were in custody here Wednesday and several others were under house arrest after an investigation by the Chilean government.

"That's a B-24. I read where it takes 200 gallons of 100-octane gasoline to keep that ship in the air for an hour. Multiply that by thousands of planes on thousands of missions and you soon see why we've got to conserve on gas at home."

Says the O. P. A. in a special report on Civilian gasoline supply:

Mechanized warfare leads insatiably on petroleum products. Tanks of one armored division will burn some 25,000 gallons in traveling 100 miles. On a single six-hour mission, a thousand Flying Fortresses use at least 1,500,000 gallons of high octane fuel. During the North African campaign, tankers made up 60 per cent of the tonnage required for supplying the Allied forces.

### What's the patriotic way to peel a potato?

If you are a regular listener each Tuesday and Friday to our Home Economics Director, Albertine Berry, on WFAA and KRDL, you know the patriotic way is NOT AT ALL. For these Lone Star radio programs are packed with such food and nutrition information.

If potatoes are peeled before cooking, much of their food value is lost in the cooking process. In cooking potatoes, boil in covered utensil in just enough water to cover them or bake in hot oven (450 degrees).

In cooking potatoes, or any other food on your gas range, remember the range should have the best of care. Today it can only be replaced under very rigid wartime regulations. Our home economics department offers the suggestions below:

### CARE for your gas range

Do not put wet dishes directly on the enamel. (The enamel is glass.) Protect top with asbestos mats.

Wipe off spilled foods at once, with dry cloth. Later when range is cool, clean with damp cloth.

To clean top burners of aluminum or enamel, use mild soapuds, rinse and dry. (Do not boil in soda solution.)

To clean broiler grill, let cool before washing with soapuds; use fine steel wool. (Remove grill and pan from the range, as soon as food is taken off.) Whenever possible, use only a moderate heat for broiling, and you will find the broiler easier to clean. (Many foods broil well with a moderate heat.)

The oven-lining will last longer, if you roast meats at low temperatures (250° to 325°). It makes better tasting meat, besides, and also cuts down grease-spatter on oven-walls.

To clean up spill-overs on oven-floor, let cool, and then use a fine steel wool.

### She'd like to call home tonight

Those Long Distance calls mean a lot to her — and the folks.

Will you please help them get through quicker by not using Long Distance from 7 to 10 p.m.?

The night-time hours are about the only time many service men and women have to call.
