## NAZIS HOLD CASSINO UNTIL DEATH COMES

### W. B. STARR IN RACE FOR LEGISLATURE

W. B. Starr of route four, Cisco, here-with announces his candidacy for floratorial representative in the state legislature from the counties of Eastland and Callahan. Mr. Starr, a successful farmer and business man, submits the following statement:

"I have decided to make the race for floratorial representative. The basic industries of Eastland and Callahan counties are agriculture and stock raising. It has been many years since the people of this district have been represented in the legislature by a farmer or stockman. The welfare of all our people, both in the towns and country, lies in the welfare of those who operate our farms and ranches. It has been my pleasure, during my forty years residence in Eastland county, to try to improve the interests of the farmers and ranchmen of Texas, and at the same time to improve the soil from which my living has come.

"I feel I am fitted for the office I am seeking, therefore I am submitting my candidacy to the voters in this district. To those who may not be well acquainted with me I refer you, as to my record as a citizen, to my good neighbors among whom I have lived for the last forty years. As to my financial integrity, I refer you to any banker in this legislative district. (I believe my name on a note would have some weight with any of these men).

"As to opponents I may have, I have only the kindest feelings. I am making the race on what merits I may have and not on any conceits they may have. I want my friends to vote for whom they feel is the best fitted for this office and I assure them that their decision as represented by their ballots will be respected by me.

"Due to war conditions and the scarcity of tires and gas, I may not get to see all the voters, but I hope to contact many of them between now and the July primary. I would be glad to have you visit me at any time, and I would especially appreciate a card of encouragement from those who are glad to see me in this race. I will send you a few circulars, which you can tack up in public places, or otherwise distribute for me.

"Thanking you for your consideration and cooperation in this important matter, I remain, respectfully yours, W. B. Starr, Route 4, Cisco, Texas."

### PRAISES SCHOOLS, COLLEGE

R. N. Cluck, superintendent of Cisco schools, is in receipt of a letter from F. M. Trimble, first assistant superintendent of Texas schools, Austin, in which teachers and students of Cisco Independent School District, including Cisco Junior College, are paid many fine compliments. The highly treasured communication said:

"May I take this opportunity of congratulating the Cisco Independent School District, the teachers and the students upon their fine educational accomplishments. The Cisco High School has 44 accredited units of work, which gives the students of your school system an educational offering that is above the average of school systems of similar size.

"The recognition which you have gained, by obtaining and retaining standards which have allowed you to maintain membership in the Association of Colleges and Secondary Schools, bears evidence of a well operated school system with a well balanced curriculum, presided over by qualified teachers.

"The leadership furnished by your junior college will materially strengthen the junior college movement in this state.

"This letter is in recognition of a job well done."

### CALLAWAY ACCEDES TO CALL FROM PUBLIC

Answering requests of many voters, who feel that he could be of great value to the people of the district at this time, Judge J. J. Callaway Saturday authorized the Daily Press to announce his candidacy for floratorial representative from Eastland and Callahan counties.

Judge Callaway was born and reared on a farm in Johnson county, Tex., and largely worked his way through high school and college. He taught school for several years and read law nights and during spare time, attending law school at vacation. He volunteered and served as a soldier in World War One, practiced law while and later, in a modest way, engaged in the oil business as an independent. Friends call attention to the fact that he has always been interested in education and in the welfare of the young.

The candidate has lived in Cisco for several years and is now a member of Eastland county local OPA board, to which he has devoted a great deal of time, without pay and at his own expense in traveling and other activities incident to that work, as all members of the county board are doing.

Pressed for a statement, Judge Callaway smilingly answered that he was too busy with OPA duties right now for campaigning or talking platform, but hopes to do a moderate amount later, providing it can be done without interfering with quick winning of the war, which he thinks is paramount and must be thought of and worked for above all other matters.

The AAA office at Eastland is now accepting application and making dairy feed payments on production for the entire month of February. The payment rates are the same as in January—50 cents per ewt for whole milk, 6 cents per pound of butterfat and cents per pound of buttermilk and 4.8 cents per pound of butter. Producers failing to make application for January, 1944, production and sales may still have their applications approved if filed not later than March 31,

KILLING TIME—Before B-25 crew members leave for bombing mission on China-Burma-India front, they kill some time playing fan tan while waiting orders to go aloft and kill Japs.

### BLOODIEST FIGHTING IS AHEAD

William Howard Strawn, 20, son of Mr. and Mrs. I. D. Strawn of Cisco, who joined the Marines two years ago, writes to his mother from somewhere in the Pacific area as follows:

"Dear Mom: So glad to hear all is well at home. Yes, things are going ok over here; but please don't get too optimistic about it. If we win this war in four years we will be doing fine. The hardest and bloodiest fighting is to come. We will keep pulling together and praying to God for guidance and mercy.

"Please warn people not to slack up because the news sounds good at times. There will be many, many more gold-star mothers and widows before we see the dawn of victory. We out here know how difficult it is going to be.

"Tell Dad (Brown shipyard employe, Houston) to keep building those ships as fast as they can and keep buying all the bonds you can. That will hasten the day of victory.

"I am well. Love to all. Your son, William."

### GOP MIXED UP ON SOLDIER-VOTE SCHEME

WASHINGTON, March 18.—Republicans who supported Federal-ballot method for servicemen's voting are resentful over GOP National Committee's release of blast placing party on record against it. Complaints say committee members didn't approve statement and that it expressed view of Chairman Spangler's headquarters, only. Seventeen Republican House members and 10 Republican senators voted for Federal ballot on first roll call.

Justice department, displeased at premature publicity that it would O. K. CIO's political action committee, put its report on ice. It's still forthcoming, may be along about the time Dies Committee blasts the Hillman organization. Despite their many clashes, Justice Department has leaned heavily on Dies for evidence in sedition cases about to go on trial.

Supporters of Arabian pipe line say military men will tell Senate Oil Policy Committee — if asked — that pipe line is a defense necessity. Vice-Admiral Horne's among those who will so testify, they say.

Move is under way in congress to establish a national cemetery in every state. It's proposed as alternative to War Department plan to enlarge Arlington National Cemetery for war dead. Department has opposed state cemetery plan in past but has promised to study it again.

Sen. McKellar's anti-TVA amendments may pass the senate but will be checked in House. McKellar will not get a vote from his fellow Tennesseans in House. Boss Crump, Memphis Democratic leader, has condemned the amendments, and Rep. John Jennings, Knoxville Republican, is rallying other GOP congressmen against them.

Fast-spreading loan-shark business, long under investigation by Justice Department, probably will face indictments soon. They're expected to come from San Antonio grand jury.

Look for senate to approve permanent promotion of Gen. Patton and other high-ranking Army officers. Military Affairs Committee, which had buried promotions, has decided to dispose of them.

### THE EIGHT-WEEK STALEMATE IS THOUGHT TO BE NEAR END; NEW ZEALAND MEN THOROUGH

NAPLES, March 18.—Waves of Allied bombers smashed at the German lines around the Anzio beachhead below Rome today while New Zealand troops methodically reduced stubbornly resisting enemy pockets in the rubble heap of Cassino.

A dispatch from the beachhead said the air attack appeared to be one of the heaviest of the campaign in that sector, indicating that the Allied Command may be hitting the Germans around the 21-mile perimeter with a pulverizing blow similar to Wednesday's raid which destroyed Cassino in an effort to break the eight-week stalemate there.

United Press Correspondent Robert Vermillion reported from the beachhead at 8:30 a. m. that the high-flying bombers had been passing overhead for 15 minutes under a bright, clear sky and that dark columns of smoke were rising from the German rear in the wake of the first formation's attack.

The Fifth Army's grueling two months battle for Cassino appeared all but won, but enemy forces were making a strong stand west and south of the ruins of the town which still guards the main Via Casilina highway to Rome and Allied forces had lost one hill in the Cassino area to a German counter-attack.

Some key hills around the town—including the Monastery Hill to the west—still were held by the enemy and from them came heavy and accurate artillery fire to protect what few Germans still were holding out in the caves and rubble of the southwestern corner of Cassino.

As New Zealanders in General Sherman tanks rolled up the main highway, infantry joined the attack against the railroad station on the town's southern outskirts, threatening the Germans from two sides.

(A Nazi High Command communique admitted today that German forces had been driven out of Cassino rail station.)

The heaviest kind of fighting was progressing in the jagged hills to the west between the town and the Monastery Hill as New Zealanders and British Indians moved forward slowly. It appeared the Germans still were determined to make a stand to the death there in order to protect the main route to Rome.

MOSCOW.—Marshal Ivan S. Konev's 2nd Ukrainian army drove to within sight of the Dniester river border of Bessarabia today and front dispatches reported frantic German preparations to evacuate their forces to the southwest bank.

(A British broadcast reported by CBS said Russian heavy guns have begun shelling German lines beyond the Dniester.)

While Konev's forces neared the Dniester on a 40-mile front, the 1st Ukrainian army far to the northwest swept to within 60 miles of Lwow, one of the biggest communications centers in southeastern Europe, in a new break through that area more than 50 miles inside old Poland.

The Soviet High Command reported in its midnight communique the capture of two towns yesterday only 10 miles northeast of the Dniester and the pace of the Russian advance indicated the Red army would reach the river in force today or tomorrow.

The Germans were reported in panicky retreat, abandoning their dead and wounded in their haste to escape entrapment.

BURMA, INDIA.—American engineers and British infantrymen, landed by American gliders and transports, have carved out an air strip and land base behind Japanese lines in North Central Burma and placed a strong force squarely across supply lines linking the enemy's northern and southern armies.

Details of this daring assault were disclosed Saturday, nearly two weeks after the operation established a strong Allied position more than 100 miles south of where General Stilwell, with his Chinese and American regiments, is driving southward to clear the way for a new supply line to China.

The green clad British and Indian infantry forces were flown into the Burma jungle from India bases by a special air commando task force, first proposed at the Quebec conference of President Roosevelt and Prime Minister Churchill.

Commanded by Col. Philip G. Cochran, of Erie, Pa., the special air unit was whipped into shape by the United States Army Air Force as a solution to the problem of getting a strong ground force into the heart of Burma without struggling through the mountainous jungle.

Mules were flown in with the Americans and British who landed behind the Japanese lines.

One transport plane landed with a mule's head sticking through its top. British troops were forced to shoot one which broke loose in another plane over enemy territory. Unable to lift the carcass out of the plane, the fliers had to return to India.

BAKING BREAD AT FRONT—Set up on Anzio beachhead, GI mobile bakery unit turns out 13,000 loaves of bread for Army daily. Despite falling bombs, no loaves have sagged. Photo shows loaves piled on cart, after being taken fresh from cast iron ovens put up in old Italian machine shop.

### HIGH SCHOOL SENIOR PLAY FRIDAY NIGHT

"Almost Summer," a three-act comedy by Christopher Sergel, is the senior play to be given Friday night, March 24, 8 o'clock, in high school auditorium.

The story concerns Paul Jones, a high school senior, who is faced with the possibility of having to go to summer school and thereby lose his girl to King Kramer, the possessor of a cream-colored convertible coupe. Paul's sister and his kid brother make life almost unbearable for him, and his chum's attempts to help him further complicate matters. A stern father, an understanding mother and the world's toughest school principal add their bit to Paul's days.

The cast:  
Paul Jones—Harry Graetz.  
Mrs. Jones—Yvonne Hazlewood.  
Mr. Jones—Dick Anderson.  
Junior (kid brother)—Bob Donohoe.  
Mary (Paul's sister)—Jeanette Myrick.  
Jack (Paul's chum and Mary's boy friend)—Homer Tompkins.  
Jane (Mary's pal and The Girl for Paul)—Gloria Henson.  
Mr. Sraudgley (the principal)—Darwin Kresell.  
Anna (the maid)—Dorothy Jackson.  
Lilah (Johnny (somebody's "past")—Betty Guthrie.

### URBAN AVERAGE 1671-3; WILLIAMS BUT 167

Thomas Funeral Home got down to its knifing Friday night and defeated West Texas Utilities in three straight games at the Cisco bowling alleys, while Smitty's Conoco took two out of three from Collins Hardware. F. Urban acquired high average for the evening with a score of 167 1-3. Burl Williams secured the same score as Urban except for the fraction.

Tuesday night the setup will be Cisco Lumber Co. vs. Thomas Funeral Home and The Man's Store vs. Collins Hardware.

### JOHNSON MOTOR LINES OPENS TERMINAL HERE

Johnson Motor Lines, owned by W. A. Johnson of Ft. Worth, where the headquarters office is maintained, has established a freight terminal in Cisco to take care of local customers and those of surrounding towns.

W. E. (Dizzy) Dean, district superintendent for the transportation line and a resident of Cisco, will manage the local office until a suitable agent can be secured.

For the present warehouse and office will be located in the building formerly occupied by Foxworth Wholesale Grocery, 107 E. Seventh street, but it is the purpose of the Johnson organization to erect its own warehouse home within the near future, or as soon as labor is available, Mr. Dean stated.

Johnson Motor Lines is one of the oldest transportation organizations in Texas and extends into Oklahoma. Establishment of a

terminal here will mean much to local business people and to the city in general, inasmuch as it will give employment to five or six men of family.

Mrs. K. N. Greer received a telegram Saturday morning announcing the death of R. E. Scott at his home in Dallas. The message came from Mr. Scott's daughter, Mrs. Arthur Butler, formerly Miss Jerry Scott of Cisco, and stated that burial would be at Terrell, deceased's old home.

Mr. Scott, familiarly known as Bob Scott, lived in Cisco for many years and will be remembered as having been water superintendent here for a number of years. He moved to Houston about 1930.

There are two daughters, Mrs. Butler, who lives in Houston, and Mrs. Norine Jones of Dallas, with whom Mr. Scott was living at the time of his death.

## THE PALESTINE PROBLEM.

It is a pity to have the question of Jews in Palestine come up now, as merely one of tangled, confusing problems. It deserves quiet study on its own merits. But the British "White Paper" closes the gates to Jews March 31, 1944.

There are about 16,000,000 Arabs in Arabia and the Near East, with other millions spreading elsewhere. Only about one million of these, fierce, jealous nomad tribes, make and have made all the trouble for centuries. They breed fine horses, but the National Encyclopedia calls them "reluctant and exceedingly poor agriculturists." The crux may be in that.

In Arab hands Palestine, once green and lovely, according to Ernest Renan, had deteriorated. Soil had been lost and the population grown less. When land-hungry Jews began to come in a few years ago, Arabs gladly sold what they thought poor land at what they thought high prices. Then the Jews, with characteristic energy, began to farm, to build, to restore. Farms became productive, gardens beautiful. The Arabs couldn't or wouldn't farm well, but resented the presence of people who could.

Chamberlain's group feared Arab threats of "Jihad"—"Holy war"—which might spread throughout the Mohammedan world. But Arab minds are keen and most of them probably know by now that their bread is buttered on the British side. They go through motions of protesting, but it is likely that the White Paper can now be abrogated without any serious trouble. The abrogation would go far to solve the immediate refugee problem, and the Arabs would doubtless have better food and more products of industry if the Jews were allowed to go on developing their homeland along modern lines. Only half a million Jews are there now, a million Arabs, more than 100,000 Christians and others. Palestine, properly developed, could support more than twice that number. In all the world there are only about 16,000,000 Jews.

## DEMOCRATIC AUSTRALIA.

If nothing else can be said in favor of the war, it is at least educational. Most Americans think this the most democratic country on earth. Many are now learning that Australia is a close competitor. And if George H. Johnston, an Australian war correspondent, is right, Australia leaves us behind. He writes in his newly published "Pacific Partner."

"The Australian way of life is probably more democratic even than the American. There are few of the wide differences that are found in the United States. There is less poverty, but there is less wealth. There are few palatial buildings and practically no luxury hotels, but there are no slums. There is remarkably little respect for either wealth or position. The job of the plumber is respected as much as that of the lawyer. In any case the two usually start life by attending the same government school."

The Australian achievement will command American admiration, even if we have to some extent blackballed from this ideal.

## CALL TO ARMS.

Over and over in the last year or two when the French, exasperated beyond endurance, have begun to let their guerrilla warfare rise, the Allies have warned them to lie low, to wait, to be ready but not to let their forces get out of hand, lest they be made to suffer too much before help could come. When the day came, they were told, the word would be given.

Over and over the Czechs were given similar warnings. But in the last few weeks more and more stories have come of the arming of the French, of their preparation to make their "Movement of Resistance" a part of the war. A few days ago the Czech government in exile sent word to its people. They are to form bands, to organize, to be ready for a real job. As fast as possible, their governments say, they will be armed.

Fighters marking time, homefolks waiting and working, all long for D-Day, dreading it also, with good reason. Occupied peoples pray for it, dreading nothing so much as prolonged bearing of their present miseries.

There have been false alarms before. This may be another. But signs multiply that the long period of suspense may soon be over.

## Don't Let "Gums" Become "Repulsive"

Are your "GUMS" unsightly? Do they itch? Do they burn?—Druggists return money if first bottle of "LETO'S" fails to satisfy. DEAN DRUG CO.

NO USE TRYING—Former New York Yankee hurler Lefty Gomez readily admits that his pitching arm is dead, but Al Todd, one-time National League catcher now managing Elmira Pioneers, finds talent so scarce for his Eastern League team that he's willing to give Gomez a shot of day-cold juice to restore his arm.

"I'm sticking to MY JOB!"

THIS boy—and many thousands of his fighting buddies have seen action! They were in North Africa, and after successful operation moved on to Italy. When Mussolini finally got his due they became part of our great strength in invasion forces. They've done their job in Germany—and no one could be happier or prouder than they.

BUT also, no one knows better than they do, the price of Victory. And so those who have survived, and are fit—are now being shifted in the direction of Japan.

BECAUSE the war is far from over! The final third of the Axis is still a tough enemy. And our boys are sticking by their guns—and by their jobs.

SO though we take pride in our Victory in Europe: though happiness fills our hearts—let us too "stick by our guns" and our jobs—intensifying our war effort, rather than diminishing it: and putting all we can in the War Bond purchases that will shorten the battle — and save our loved ones' lives.
