A. & M. VOCATIONAL HEADS MET IN CISCO

An agricultural extension course was brought to vocational agricultural teachers of the Cisco area by supervisors of the department of education from A. & M. college in a two-day session ended here Friday night.

Robt. A. Manire, state director of agricultural education, issued the following statement to the Daily Press at the close of the session. "The local school authorities should be congratulated on their plans for meeting the needs in the community through their public schools and junior colleges, which are far-reaching and fundamentally sound."

A discussion for present and post-war plans for the community in conjunction with the schools was participated in by prominent educators, together with teachers from schools of the surrounding area. M. D. Fox, local vocational agriculture teacher, was host to the group and his work here was warmly commended by visiting educators. The following men were present:

E. R. Alexander, head of the department of agricultural education; A. & M.; Robt. A. Manire, state director of agricultural education; J. B. Payne, area supervisor; C. B. Edwards, district supervisor of food production for area training, Breckenridge; Doyle Graves, teacher, Stephenville; Jim Whitson, teacher, Breckenridge; J. F. Bailey, Breckenridge; Garth Baker, Graham; Sam White, Martin Valley; Mr. Baggett, Olney; Mr. Collins, Olney; A. I. Edwards, Berkett; Lawrence Dooley, DeLeon; O. B. Edmundson, Cross Plains; A. J. McCain, May; Mr. Patton, May; L. H. Hampton, Stratton; Supt. Schraeder, Stratton; Cuffman, Mineral Wells; Ross Newton, Pioneer; Supt. J. E. Baker, May and M. D. Fox, Cisco.

MOAD GROCERY OPENS

Charles Moad, well known Cisco, who operated El Moad Courts for a number of years and later was employed by West Texas Produce company, has opened a grocery at 1110 D avenue, former location of the Ed Stewart grocery. Mr. Moad has installed a complete line of groceries and will carry a select stock of fresh vegetables and meats. He invites his friends to call and inspect his new place of business.

REV. SIDNEY R. ANDERSON (above), for some 30 years a missionary to China and recently a prisoner of the Japanese until allowed to come to America aboard the ship Gripsholm, will preach at First Methodist church at 11 o'clock service today. Mr. Anderson is a native of Rising Star and is related to various Cisco families, including the J. T. Andersons, the S. H. Nances and Mrs. J. P. Leveridge. Since having arrived in America early in the winter he has been in great demand over the nation as a speaker for church conferences as well as to local congregations, according to Rev. Leslie Seymour, pastor of the Cisco Methodist church.

LAWSON TELLS OF AIR HERO

The Daily Press is under obligation to O. G. Lawson for excerpts from an interesting letter he received from his son, Tech. Sgt. Victor Lawson, airplane mechanic in Italy. The letter was dated March 16 and arrived in Cisco March 24.

Much of the communication was devoted to tributes to an outstanding fighter pilot in Sergeant Lawson's group, Frank (Spot) Collins as he was known to Cisco football players and fans just a few years ago, but now Major Frank Collins, with 250 combat hours and at least nine Messerschmidts to his credit.

A telephone call to Breckenridge Saturday revealed that Major Collins is now in the United States and with his younger brother, Hal Collins, in North Carolina, but is expected to arrive in Breckenridge next Wednesday for a visit with his mother, Mrs. Frank Collins. Frank Collins, Sr., has died since Major Collins went overseas. Hal Collins is in a flying school.

Sgt. Lawson's Letter. "There is a pilot from Breckenridge in our fighter group here, Major Frank Collins. He has been with us about ever since we started. I do not remember if he came in at Hartford, Conn., or Hills Grove, R. I.; anyway, he is the last of the old pilots who came over from the states with us. All the rest went home after 50 missions or 150 hours' combat time, but Collins instead of going home for a furlough, signed up for another 50 missions.

"Our commanding officer was missing in action a few days ago, so Major Collins took over as C. O., but they were going to take him for a desk job at wing, so he is leaving tomorrow for the states. "The Major just likes to fly and fight. He has about 80 missions and over 250 combat hours and 9 Messerschmidts to his credit and several probables. A pilot must take a rest at home after 250 hours in combat, but he was trying to get special permission to stay until he found out they were going to shanghai him for a desk job, so he could not leave too soon.

"At a formation today he said he would call any mother or father of the fellows if they would give him their telephone number, so I gave him yours and also your house number. He said he had relations in Cisco and that if he got over he would drop by the house to see you."

"We have been having lots of rain here lately, and not much flying weather. The boys hate to see a day pass that they cannot fly. It means more work and may mean nothing but getting cold chow, but when the 319th fighter group misses a day of flying, we cannot help but feel that the war will last just that much longer. This fighter group went to Africa from the states in January, 1943, and from Africa to Italy."

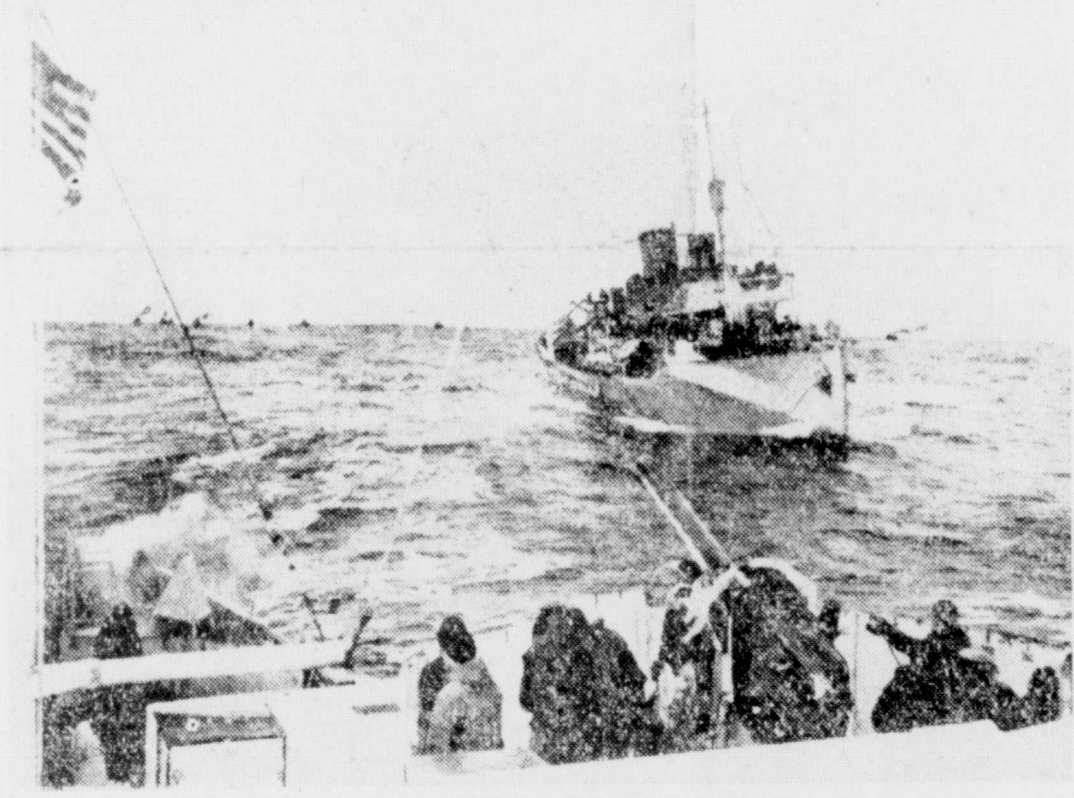

Major Collins' Cisco relative referred to by Sergeant Lawson is Lieut. Ralph Glenn of the Glenn Furniture store, now a bombardier and navigator instructor and stationed at Midland (Tex.) Flying Field.

ETHERIDGE IS WELL

Mr. and Mrs. L. C. Etheridge have a letter from their son, Sgt. J. B. Etheridge, 29, in New Guinea, which said he was well. The Cisco youth has been overseas more than two years and is with the army air corps. He was born in Eastland county and attended the Cisco schools.

Carl Zeidler, Mayor-on-leave to armed forces and his successor, John Bohn, both of whom were nominated in primaries.

STRIPPER-WELL SUBSIDY PLAN BEFORE VINSON

WASHINGTON, March 25.—Revised stripper-well subsidy is being studied by Economic Director Vinson. Instead of the percentage plan first suggested, the new scheme would provide payments of 35 cents more per barrel for oil from stripper wells producing up to five barrels a day; 25 cents for wells producing from five to seven barrels; and 20 cents for wells producing from seven to nine barrels a day.

Plan also includes provision for a flat 75-cents-a-barrel increase for Pennsylvania-grade crude, of which there is a scarcity. This is produced chiefly in Pennsylvania but also in New York, West Virginia, and Ohio.

SENIOR PLAY ENJOYED BY LARGE CROWD

A large and attentive audience saw the Cisco high school senior play Friday night and pronounced it outstanding from natural talent displayed and the fact that at no time did a character seem to stumble over or forget lines. The training by Miss Marjorie Chambliss and her assistants is to be complimented.

The plot was the usual tribulations of school boys and girls, who have waited too late to begin that studying necessary to completing the courses, and two of them, Harry Grantz as Paul Jones and Homer Tompkins as Jack, find themselves compelled to forego the pleasures of a summer vacation with their girl friends, but must attend summer school instead.

Dick Anderson as Father Jones and Yvonne Hazlewood as Mother Jones, played their parts well, as did Bob Donohoe, Jeannette Myrick, Gloria Henson, Darwin Kriessl, Dorothy Jackson and Betty Jean Guthrie.

Of course, Grantz and Tompkins, being the leading characters, captured the audience, with first the pathetic side and then the humorous, that kept the audience on tiptoe during the entire drama.

Winnifred Tichenor, Fred Steffey and Doris Thomas assisted Band Director Burl Williams as stage crew. Music between acts was furnished by Barbara Grist, Billie Jean Hall and Dorothy Nell Pugh.

RED ARMIES BACK WHERE WAR WAS STARTED IN 1941; HUNGARY ONLY 60 MILES AWAY

MOSCOW, March 25.—The official Izvestia proclaimed Saturday that "the Germans have been pushed back to the border where the war started by Russian armies massing in the foothills of the Carpathians, along the upper Dniester and almost within sight of the Prut river.

The Russians were only 60 miles from Hungary. "We are fighting where we fought in the summer of 1941," an Izvestia dispatch reported from the southern front, where synchronized drives by three Red armies appeared to have doomed all German positions east of the Balkans.

The First Army of the Ukraine was poised on the north bank of the Dniester for a smash into Bacovina Province of pre-war Rumania. The second was slashing in toward the Prut border of Rumania. The third was rolling back the nose of the tottering German salient along the Black Sea.

The advance was so swift that the Russians captured two trainloads of intact tanks in the freight yards at Gusyatin. Another Soviet unit seized 800 German trucks, dispatches said.

To the southeast, 2nd Ukrainian Army forces battled through the streets of Balti, strategic Bessarabian railway junction only 45 miles north of Iasi, last reported headquarters of German Marshal Fritz Erich von Manstein, and neared the Prut river border of Rumania proper.

Zhukov's forces engulfed more than 400 towns and villages and killed 20,000 Germans in their four-day advance to the Bucovina border from the Tarnopol-Proskurov area of the western Ukraine and old Poland.

The Soviet High Command reported that "thoroughly defeated" German divisions were in full retreat, abandoning their tanks, guns and other arms as they fell back across the Dniester.

Incomplete front reports told of the capture of 300 tanks and self-propelled guns, 120 armored carriers, more than 500 guns, 490 trench mortars and more than 5000 trucks.

NAPLES.—German reinforcements have entered Cassino through a series of ancient tunnels, it was disclosed today, bolstering Nazi forces that already have recaptured one-quarter of the ruined town.

Enemy troops now occupy a belt several houses thick running from the southern extremities of the town all the way past Highway 6 into northern Cassino, to within about 250 yards of a wall which marked the most advanced point which Allied Fifth Army troops had reached before the big air bombardment of March 15, United Press Correspondent James E. Roper reported in a front dispatch.

"Heavy fighting continues in Cassino where the general situation remains unchanged," the communique said.

Three tunnels dug under the town in the 16th century—in connection with searches for buried treasure, according to local tales—enabled the Germans to move their troops from one strongpoint to another, a headquarters spokesman said. In recent years the tunnels had been used as wine cellars.

On the Anzio beachhead below Rome, Fifth Army artillery stopped a "number of enemy tanks." A patrol clash was reported near Aprilia.

BURMA, INDIA.—Americans under 39-year-old Brig. Gen. Frank Merrill have slashed through Burma's Mogaung Valley to occupy Shadup and increase the threat to Japan's important railway center of Myitkyina, Allied headquarters announced Saturday.

The Americans, including some veterans of the South Pacific battle, are now within 58 miles of Myitkyina, upon which a force of British Commandos are also driving from the north.

Merrill's success blunts the propaganda advantage, if any, the Japanese were utilizing as a result of their three-pronged advance across the Indian border toward Imphal in the Manipur Valley. Allied counter-attacks here have virtually stopped the Japanese but heavy fighting continues.

The military situation has become so confused in the North Burma sector, where both the Japanese and the Allies have offensives going at the same time in different areas that an Allied headquarters spokesman apologized for the vagueness of communique by saying they are "no more obscure than the military situation itself."

FIBBER M'GEE BETTER

SANTA MONICA, Cal., March 25.—Definite improvement in the condition of Jim Jordan, "Fibber McGee" of radio, was shown Saturday as doctors said he was enjoying his "first real rest and sleep." Jordan was taken to St. John's Hospital two days ago suffering from pneumonia.

ARMY AMPUTATIONS

WASHINGTON, March 25.—The Army divulged through Representative Rogers of Massachusetts Saturday that 1,194 American soldiers have had arms or legs amputated thus far in the war. Persistent rumors had put the number at a much higher figure.

A Little Lesson in Abstracting—
The abstract is a written history of the title chain. If carefully prepared it will (1) definitely locate the tract under search. (2) Reveal, if possible, the true ownership. (3) Show liens, if any, and (4) the defects in the deed or other written documents. It may or may not prove the title to be good. This is the reason for the abstract and why it is necessary in every real estate transaction.

School Trustee Candidate.

TO THE PUBLIC:

Mrs. D. Ball has consented, after several years' urging by many friends, to become a candidate for trustee on the local school board. She is well equipped for the position, being a graduate nurse, mother of three elegant children and with much experience in school activities.

She helped organize the local Parent-Teacher association, was a member of the county and state board and is still a member of the county student loan fund committee; has two children in school at present and a soldier son is a recent graduate.

Mrs. Ball has been very active

in school work and social activities, which has equipped her for a place on the board. She has always been willing to work and assist in all school activities, working at whatever time or place she could be of service; ever willing worker for the board in taking a carload of members to concerts and conventions, whenever they might be held.

The candidate will run on her own merits and on no one's merits. She is a logical candidate for the place, with the attitude, striving through honest effort for the betterment of our schools and school activities.

Paid for By Friends of Mrs. D. Ball.
