REDS PAUSE AT PRUT TO STRAIGHTEN LINES

MORRIS ALIVE BUT LOCATION UNKNOWN

Mrs. Fannie Agnew received word Friday from her son Pvt. Herbert Ray Morris of the 131st field artillery that he is well and would like to hear from home.

Morris was reported missing by the war department in January, 1942, and this was the first word from him since that time.

He entered the service in January, 1941, and was stationed at Camp Bowie until November, 1941, when he was sent overseas. He was with the "lost battalion" in Java when that island fell into the hands of the Japs.

The card Mrs. Agnew received was not postmarked, but he had dated it February 20, 1943. The Red Cross investigation shows that Morris evidently made a mistake in the year, since the card was new, and that he is not a prisoner because it was not a prisoner's card. The Red Cross is still trying to ascertain his present location.

Morris is 25 years of age and was born in Fort Worth but raised in Cisco. He received his schooling in Cisco and was later employed at Edward Lee's Service Station.

Another son of Mrs. Agnew, James Edward Agnew, finished a commercial refrigeration course in the fleet service school in San Diego. He finished with a mark of 88 and was honor man in his class. He is now in school in San Pedro, Calif.

Another son, Eugene Agnew, left Friday for Lubbock where he entered the navy.

MEXICAN MISSION DEDICATION APRIL 2

The Brotherhoods of First Baptist church and East Cisco Baptist church have completed the little Mexican Mission church in north-east Cisco and will hold dedication ceremonies Sunday afternoon, April 2, at 3 o'clock, after which the building will be turned over to the Mexicans and their pastor, Rev. Mojica, for services at their will. Title to the property will be retained jointly by the two Cisco churches, with the Brotherhoods continuing to sponsor the mission.

Presidents of the two Brotherhoods respectively are W. H. LaRoque and Shobal Houston, but the program given below will be presided over by Rev. Cooper Waters of the First church:

3:30—Song and Praise Service, W. Frank Walker.

3:00—Introduction of Mexican members and friends, Rev. Mojica.

3:20—Recognition of work of committees, Rev. Cooper Waters.

3:25—Music, furnished by Mexicans.

3:30—Remarks by visiting pastors or representatives of Brotherhoods.

3:45—Prayer of dedication, Rev. H. D. Blair.

3:50—Presentation of use of building to Mexican members, Rev. Russell Dennis.

3:55—Statement of objectives and acceptance, Rev. Mojica.

4:00—Benediction, Felipe Trevino.

THEY KEEP DRY—No matter what the weather, Tommies must have their tea. Gunners with Allied Fifth Army, they use beach umbrellas which formerly sheltered tourists in swank Anzio cafes from sun, as protection against pouring rain, while they wait for tea to boil. Recent heavy rains turned area into a sea of mud.

FARLEY SAYS DEWEY, WARREN TO WIN

NEW YORK, March 23.—Postmaster General Farley was pictured today as believing that if the presidential election were held now the Democratic candidate would lose everywhere except in the "Solid South."

Newspaper columnist Ed Sullivan said in a CBS broadcast that Farley told him furthermore, that he does not foresee anything to alter this situation before Nov. 4, but thinks the Democrats could win back the White House by 1948.

The columnist quoted Farley as saying he believes the winning Republican combination will be Governor Dewey of New York and Governor Warren of California.

CERNAUTI, BIGGEST CITY OF BUCOVINA PROVINCE, WITHIN EASY RANGE OF SOVIET GUNS

MOSCOW, March 23.—Russian troops swept in force today to the Prut river opposite Cernauti and Iasi, twin gateways to the Balkans, and Red Army artillery raked the Rumanian plain on which the routed Germans must defend or yield the invasion path to the Carpathians.

Soviet mobile forces raced southward along the east bank of the Prut within easy gunshot of Iasi, key German stronghold of all Bessarabia, killing Germans by the thousands as they plunged panic-stricken into the river only to be drowned or cut down.

To the northwest, other Red Army units massed along the upper Prut across from Cernauti, biggest city of Bucovina Province, after a spectacular advance of 24 miles at a speed of one mile an hour.

Pounding forward in concert to clean up the entire bank of the upper Prut and clear the way for a grand scale surge into Rumania, the First and Second armies of the Ukraine drove spearheads within 22 miles of a junction which would close the deck of a German salient looping northeastward from captured Kamenets Podolsk, trapped thousands of enemy troops.

There was no word here to indicate that the Russians had crossed the Prut. But front dispatches describing extreme German demoralization and the probable Soviet command of river crossings suggested that they could ford the river at will.

All signs indicated that the Russians had paused deliberately at the Prut to straighten their saw-tooth lines through the Ukraine and old Poland and perhaps to deal with the menaced German salient along the Black Sea, tipped by the besieged Nikolaev.

There were no signs of any slowdown in the pace of the general Red Army advance. Field dispatches said the remnants of German divisions floundering in the region of the Bessarabian breakthrough were churning madly about, many units without commanders or staff officers.

Russian tanks and artillery massacred a big Axis force which had fled Balti, front reports said, as it struggled to escape across the Prut near Iasi.

NEW DELHI.—Japanese invasion forces have broken across the Somra Hills tract into the Ukhrul area of Eastern India, and are battling strong British units defending the frontier, a communique disclosed today.

Striking southward toward the Manipur Valley highway and the provincial capital of Imphal, the Japanese apparently had driven a dozen miles or more across the Burmese border to reach the Nkhrul area.

"Japanese pressure has increased," the communique said. "Heavy fighting is in progress, in which the Japanese are making determined attacks."

British units farther south were reported making satisfactory progress in clearing Japanese raiding parties from the Tiddim-Imphal highway, and it was indicated that the main enemy force in that area had been stalled at least temporarily, about 25 miles south of the Indo-Burmese frontiers.

A third Japanese force moving westward into India from Tamu was repulsed after a brief clash in which the enemy brought some field artillery into action.

NAPLES.—The big guns of the Allied 5th Army continued to pound German strong-points inside Cassino today while ground fighting all along the Italian battlefield subsided into a series of small-scale patrol actions.

Terse statement made no mention of the weeks-old campaign to reduce Cassino, which American and Canadian army newspapers said yesterday had ended in failure, but headquarters spokesmen indicated that street fighting in the town had halted momentarily while Allied artillerymen took over the job of battering the enemy's defenses.

Allied shellfire was concentrated again on the Continental Hotel and the Hotel des Roses, the two main German fortifications in Cassino.

Nazi guns countered with a heavy and sustained bombardment of Allied positions inside the town and in the surrounding hills.

The master of ceremonies has not been announced, but Dr. Thomas Taylor, president of Howard-Payne college and one of the most interesting after-dinner speakers in Texas, will make the principal address.

The banquet was originally scheduled for last week and was advanced on the calendar because of conflict with another event.

Dinner tickets are \$1 a head and the general public is invited.

21 DIE IN FRISCO ARSON FIRES

SAN FRANCISCO, March 23.—Fire, believed to have been set by a pyromaniac, raced through the 50-room New Amsterdam Hotel last night, killing at least 21 persons, most of them sleeping shipyard workers, and injuring 22 others.

The blaze, which climaxed a series of fires last night in cheap hotels and rooming houses in the area south of Market St., spread with lightning rapidity through all four floors of the building, trapping many of the occupants and burning others to death in their sleep.

The fire broke out about midnight and firemen fought for two hours before the flames were brought under control.

Four hours after the fire had been discovered, ambulance crews and rescue squads still were carrying out the bodies of the dead and the unconscious forms of those overcome by smoke.

Three times last night, firemen were summoned to fires in other small hotels and rooming houses in the same district, and in all cases, they reported, a definite odor of gasoline or kerosene was discovered. All were extinguished before any serious damage was done.

A Little Lesson in Abstracting—

The abstract is a written history of the title chain. If carefully prepared it will (1) definitely locate the tract under search. (2) Reveal, if possible, the true ownership. (3) Show liens, if any, and (4) the defects in the deed or other written documents. It may or may not prove the title to be good. This is the reason for the abstract and why it is necessary in every real estate transaction.
