## REDS MOVING IN ON ODESSA

### LION GOVERNOR GUEST OF LOCAL CLUB

District Governor Joe E. Childers of Abilene paid an official visit to Cisco Lions Wednesday and officiated in a ceremony of presenting two membership keys and installing George Atkins and Earl Pross as new members, preceding a talk on Lion activity over the world. Keys were also presented to Dr. C. E. Paul and Harry W. Schmidt. Rev. Joe Emmanuel of Moabans and E. Watson of Cisco were guests at the club.

In a later business session with the directors it was decided to have a ladies' night program some time this month, exact date to be set, and discussed appointing of delegates to the district convention in Fort Worth, May 2 and 3.

Governor Childers told of how Lions International, fearing a falling off of membership over the world on account of so many young men being called to service, began a campaign for membership which had resulted in the most phenomenal growth in the history of Lionism, spreading in the past two years from eleven to fourteen nations, with a growth in membership the last year of some 600 clubs and membership increase of about 25,000.

The governor said that all clubs over the state are showing increases with activities growing and finances in healthy condition. This shows what effort will do, the speaker decided. Governor Childers was introduced by Norman C. Huston, who was in charge of the program.

### DONATIONS OF BLOOD APR. 24-28

People of Cisco and Eastland county are to have opportunity to make blood donations to the American Red Cross bank the week of April 24 to 28, when a mobile hospital unit, staffed with government nurses and doctors, will be stationed in Eastland for the purpose of receiving blood plasma from all who will contribute, according to Rev. Leslie Seymour, chairman of the Cisco committee in charge of arrangements.

One day, Thursday the 27th, has been set as Cisco Day when it is expected that a minimum of 200 Cisco men and women between the ages of 18 and 60 will report on a pre-arranged schedule between the hours of 10 a. m. and 2 p. m. to make their donations to this most appealing cause.

A registration booth for Cisco will be set up in the Service Men's club room at 516 D avenue Monday, Tuesday and Wednesday next week, when Ciscons willing to give a pint of blood to save the lives of soldiers are asked to register. It is necessary to have this advance registration in order to arrange an efficient schedule for the taking of the blood donations on the 27th. D. A. R. members, with Mrs. Homer Slicker in charge, will have representatives at the Service Men's club room from 9 a. m. to 6 p. m. the three days next week to give information and to take registrations.

Registrants will be notified later the exact time they are to report on April 27. Each one who donates blood will be at the receiving station approximately 45 minutes. Efforts will be made to provide transportation to Eastland for those who cannot supply their own means of travel. Specific information will be given at the registration booth next week to all who come but some general regulations are as follows:

On the day the blood donation is to be made the donor must not eat any fats for four hours before the appointment. This means that milk, cream, butter and all fatty or fried foods must be avoided. However, the donor should not come to the station hungry. He may eat such foods as toast or bread with sweets, baked or boiled potatoes, any boiled vegetables, coffee or tea without cream, fresh fruit or fresh fruit juice. Age limits are 21 to 59. However, young people from 18 to 21 are eligible if they have the written consent of their parents. Individuals will be ineligible for donations if they have a cold, or if they have a blood pressure over 200, or if they have diabetes, or if they have ever had tuberculosis, or if they have had malaria within 15 years, if anemic or weigh less than 110 pounds, or if they are pregnant or have had a child within the last nine months.

Mr. Seymour states that it is expected that from 200 to 500 people of Cisco will register on the three days designated and if more sign up than can be cared for in Eastland on the 27th, another day will be reserved for Cisco. Other members of the central committee for Cisco are Mrs. Alex. Spears and R. L. Ponsler. Working with them are representatives of the various clubs and organizations of the city.

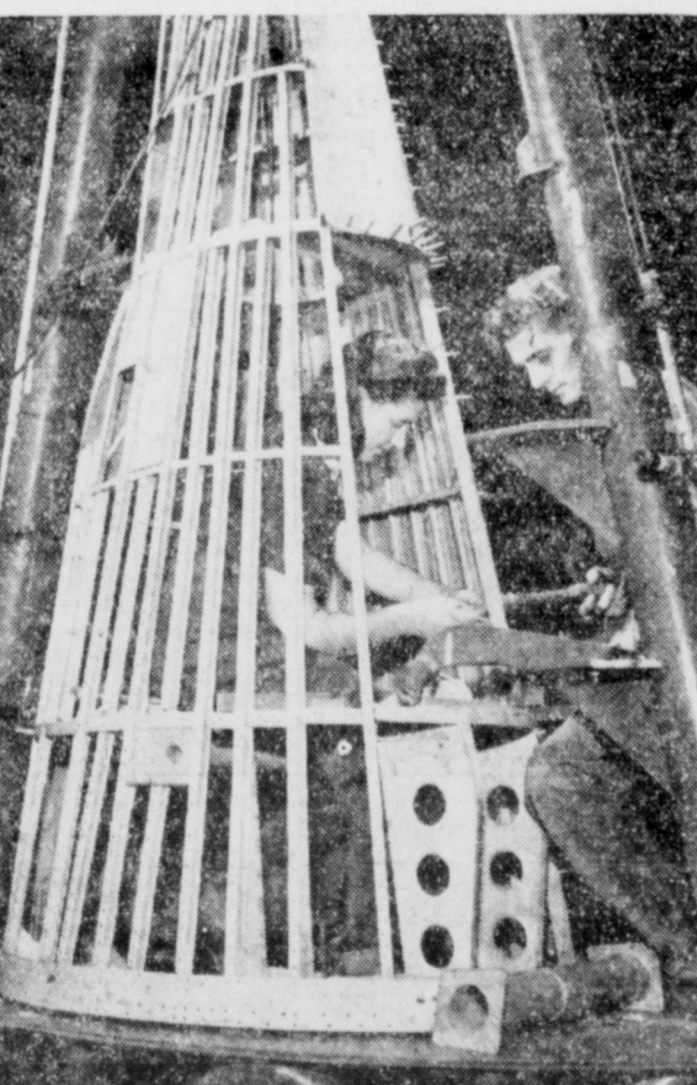

Those who desire further information should telephone Mrs. Homer Slicker at 493.

**JAP LOCOMOTIVE GETS ONCE-OVER**—Marines on Majuro inspect Nip gas-driven locomotive captured in Marshalls campaign. Engine used to pull seaplanes from shore to hangars is powered by Model A flivver motor. Locomotive was made in Tokyo. (U. S. Marine Corps Photo)

**WET SEASON WOES**—Marines pull up stakes and lift tents off ground as wet season sets in on Cape Gloucester, New Britain, and sleeping quarters become rooms with running water. Marines are Pfc. Ray G. Banator and Cpl. Edward Chitlik. (U. S. Marine Corps Photo)

**INDIAN RIVETER**—Working inside tepee-like aircraft tail cones at Westinghouse's Mansfield, O., plant, makes riveter Rhoda Shepherd feel at home. She's part Cherokee Indian. Teaming up with co-worker, she rivets aluminum "skin" to framework of tail cones for P-47 Thunderbolt fighter planes.

**JAP PRESSURE.** NEW DELHI, April 6.—Japanese forces are continuing to exert pressure all along the Assam front north of Imphal, but Allied troops have inflicted casualties on the enemy in ambushes laid along roads north and south of that Indian base. Lord Mountbatten's headquarters announced today.

### WILLKIE OUT OF PRESIDENTIAL CONTEST

WASHINGTON, April 6.—Wendell L. Willkie's sharply worded withdrawal from the 1944 contest for Republican presidential nomination today challenged the GOP with the possibility that he might bolt the party's nominee.

But organized and congressional Republicans generally waved him out of the contest with some cheers and few misgivings. The consensus seemed to be that Gov. Thomas E. Dewey's chances of being drafted for the presidential nomination steadily were improving.

Rep. Joseph W. Martin, Jr., of Massachusetts, house Republican leader, apparently was confident Willkie would stand by the Republican party to which he went from the Democrats after President Roosevelt's first election in 1932. From his Massachusetts home, Martin expressed hope and confidence that Willkie would continue to help the GOP lick the Roosevelt administration this year.

The withdrawal followed immediately upon announcement of complete but unofficial returns from Wisconsin's April 4 presidential preferential primary which revealed Willkie a bad fourth to Dewey, who won a smashing victory.

### MEXICAN BANDITS MADE A RICH HAUL

ONTARIO, Calif., April 6.—Armed bandits took more than \$100,000 in savings from 600 Mexican nationals passing through the State of Sinaloa en route home from doing United States farm work, Kelly Moya, Ontario businessman, reported today upon returning from Mexico City.

Moya, robbed of \$25 cash and his baggage, said the holdup occurred at Culiacan, aboard a train en route to Mexico City.

About 60 bandits, armed with revolvers and machine guns, were in the group, he said.

### CARELESS AMERICANS.

NAPLES, April 6.—Lieutenant General Eaker disclosed today that a number of Allied soldiers had been killed by bombs which accidentally fell far from the target during the great Allied air assault on Cassino March 15.

### MRS. BROWDER WINS.

WASHINGTON, April 6.—Mrs. Raissa Berkman Browder, wife of Earl Browder, the American Communist leader, has won her four-year fight against deportation. A board of immigration appeals says she has dissipated its doubts concerning her possible affiliation with "an organization believing in or advocating the overthrow of the United States government by force or violence."

**GETS DIVORCE**—Complaining that life at home with comedian Harry Ritz was no laughing matter, wife Betty May Ritz was granted divorce in Los Angeles court.

### HEAVY SIEGE GUNS NOW WITHIN TEN MILES OF SEAPORT; MOST OF GARRISON CERTAIN TO DIE

MOSCOW, April 6.—Russia's 3rd Ukrainian Army drove to within artillery range of the Black Sea fortress of Odessa today after dooming most of the garrison to death, capture or an attempted "Dunkirk" by cutting across its main escape routes to the northwest.

Gen. Rodion Y. Malinovsky's guns, tanks and artillery were expected to lay siege to the largest Soviet city remaining in German hands within a matter of hours.

Latest front reports placed the Russians within 10 miles north, 15 northeast and 15 east of Odessa, which fell to the Germans in 1941 only after a two-month siege.

(A Berlin communique said German troops "disengaged from the enemy according to plan" in the south Ukraine east of the lower Dniester. It reported that the German garrison of Kowel, oil junction in pre-war Poland only 38 miles from the northern Bug river had been "freed of encirclement," the first acknowledgement of its envelopment.)

Malinovsky's forces, some of them veterans of Stalingrad, virtually sealed the fate of the Odessa garrison yesterday by cutting both the highway and railway running from Odessa to Chisinau in Bessarabia and pushing on another three miles to the head of trackless swamps that extend down to the Dniester lagoon.

The only land escape route remaining in German hands was a single-track coastal railway that hurdles the five-mile-wide Dniester Lagoon by ferry. Only a trickle of Germans could escape from Odessa by this route.

A month ago, the remnants of the German 6th and 8th Armies remaining in the Odessa pocket were estimated unofficially at more than 100,000, but tens of thousands of the enemy since have fled westward to Rumania as the Russians converged on the port.

**ALLIED HEADQUARTERS.**—American heavy bombers and their fighter escorts shot down more than 40 enemy planes during Wednesday's big raid on Ploesti, Rumania, Germany's main source of oil. Allied headquarters announced today.

The main targets on this raid were rail yards choked with tank cars. Bombs were showered over tracks, rolling stock and adjacent buildings, causing many fires and explosions, an announcement said. Adjacent oil refineries also were hit.

Smaller formations of Flying Fortresses and Liberators attacked railways at Nis and Leskovac in Yugo-Slavia as the Allies pursued a relentless campaign against German communications in the Balkans in co-ordination with the Russian land advance.

While the heavy bombers were thus occupied on distant targets, mediums and fighter-bombers continued their intensive campaign against German communications in Italy. It was announced that all rail lines from Northern Italy to the front area again have been cut and that the Germans have been unable to move through trains since March 28.

**SAN FRANCISCO.**—Allied bombers, attacking Japanese air bases along a 1700-mile front from the Marshalls to New Guinea, destroyed 13 enemy planes at Wewak, and Australian troops today were reported only nine miles from Bogadjim, Japanese seaport on the northern New Guinea coast.

American Liberators, which have been carrying the weight of an offensive to smash Japan's air power on New Guinea, dropped 206 tons of bombs on Wewak Tuesday, demolishing all but two of the enemy planes seen on the ground there. Anti-aircraft defenses were silent and no enemy fighters attempted to stop the attack, the 19th on Wewak in less than a month.

In the ground operations, 216 miles south of Wewak, the Australian troops, advancing through the Mintjim Valley, passed through Kwato, seizing a motor park and 30 trucks.

### PUBLIC WELFARE CHECKS.

AUSTIN, April 6.—The state department of public welfare is distributing this week 176,685 old age assistance warrants totaling \$3,751,736.40. This is 783 fewer checks than were distributed last month. Blind aid is being distributed to 4,683 persons, which is four less than the previous month, at a total cost of \$114,014. The welfare department added 114 families with 236 children to the aid to dependent children rolls during the past month. A total of \$211,198 is being distributed this week to 9,963 dependent children families.

### DAIRY SPECIALISTS.

E. R. Eudaly and O. W. Thompson, dairy specialists from A. and M. College, will discuss "Livestock Feeding and Breeding, Care and Management," at a meeting to be held in Rising Star, April 19, 8:30 p. m., city hall.

### GIRL CHOKER SOUGHT.

FT. WORTH, April 6.—The trail of a man who tore the clothing from a 10-year-old Birdville schoolgirl and choked her into unconsciousness in a wooded spot was warming today as several residents of the vicinity reported they had seen on several occasions a car answering the description of that driven by the child's assailant.

EASTER.

This is no easy-go-lucky Easter, when new clothes seem important, when coming out of the most joyful services of the ecclesiastical year into the Easter parade of pretty hats and friendly greetings seems one of the most highly anticipated celebrations of a twelvemonth.

It isn't even going to be so much fun as usual for the folks who fast during Lent to sit down to the bountiful Easter dinner as a jolly and well-earned reward for six weeks of careful self-control.

The Easter of 1944 will have its spiritual happiness and its natural joy of returning spring, but set against a grim background of artillery fire, blood, mud, toil and sorrow. The sun shines, the birds are singing and nesting, trees are budding and flowers add color and gaiety to the outer scene. But for too many hearts the words of the Scottish song have new meaning:

"How can ye chant, ye little birds,
An' I sae weary, sae full o' care?"

Yet in the chanting of birds, the glow of flowers, the new life of trees and grasses, rises the eternal hope. This is the normal, the right life, the life for which God made a beautiful world. War is the wrong, abnormal thing.

Let all Americans hold fast to that in this hard year.

They also serve who only stay at home and keep business and industry running. Otherwise there'd be no country to come back to.

COST OF DRIVING.

Why buy a car? A midwestern citizen who has just bought his 1944 license is wondering if it was worth while. Here is his story:

"On an A card I can get only two gallons a week. That is 104 gallons, or, at 18 cents a gallon, \$18.72. The license plate cost \$10.25, the driver's license 46 cents, and the federal use tax \$5. That amounts to \$34.37, and I can buy only 104 gallons a year. I wonder if I could get my money back and buy a bicycle?"

He could get his money back, all right. There is plenty of demand for all used cars, good, bad and indifferent. Also, he forget to add in his insurance, which, if he insures his car properly, is no inconsiderable sum. But can he find a good bicycle? If he cannot, maybe he'd better get up early and learn to walk.

HOLLAND'S PERIL.

There have been alarming stories lately about Holland, about the operations of the Nazis in that country. It is hard to believe them, but the Germans in this war have done many diabolical and unprecedented things.

They represent the Nazis as opening the dykes in Holland to flood that country, and thus prevent the Allies from using that possible entrance in a drive against Germany. The Nazis have feared that the British-American invasion of Germany would come that way, and may have decided to take no chances. Rumors and even some apparently credible news accounts have seemed to indicate that a considerable part of the Netherlands was already flooded.

If this has happened, or is happening, it adds a supreme touch of devilishness to the Nazi assault on western Europe. The flooding of most of Holland would be easy to accomplish, because so much of it is below the sea level. Such a deed would drown many people. It would also destroy a vast amount of property, including the country's soil.

If that soil were soaked with salt water, it would not only be an immense job to rebuild the dykes and pump out the water, but the soil would be worthless for many years. Until the long, slow restoration was accomplished, the Dutch people—or those of them who were not drowned—would have no homes and a precarious livelihood as exiles.

WHY STOP HALF WAY?

The administrator of the Bonneville Federal power project, on authority given him by the Secretary of the Interior and 16 Washington state public utility districts, has offered the Puget Sound Power and Light Company \$90,000,000 to get out of business.

This would cost the state of Washington one of its best taxpaying assets in exchange for a largely tax-exempt power system run by Federal and PUD politicians.

Will the next drive be for public ownership of farms irrigated by water from tax-exempt Federal power dams? Will the advocates of state socialism sanction private operation of farms for "profit," while driving private citizens out of the electric business on the theory that "government" should sell power "at cost?"

A Little Lesson in Abstracting -

The abstract is a written history of the title chain. If carefully prepared it will (1) definitely locate the tract under search. (2) Reveal, if possible, the true ownership. (3) Show liens, if any, and (4) the defects in the deed or other written documents. It may or may not prove the title to be good. This is the reason for the abstract and why it is necessary in every real estate transaction.

# EASTER PRAYERS

MULTITUDINOUS are the words of prayer which will reach heavenward this Easter. Each of us will say a prayer apart — for the safety of a loved one in battle — for the return of a son, or brother, or husband now in an enemy's prison camp — for the healing of a wounded dear one. Yet together, we shall say one prayer for lasting peace following the United Nations' complete Victory. And we shall find our greatest faith—particularly those of us whom the war has already bereft—in recalling His resurrection, for whom this day is reborn each year!
