COL. WINSTON OF CISCO GETS MERIT AWARD

A communication to the Daily Press from army headquarters in the South Pacific tells of new honors for a Cisco man, Col. Barlow Winston, son of the late Mr. and Mrs. John J. Winston of this city. Accompanying the letter was a large photo showing Lieut. Gen. Millard F. Harmon in the act of pinning the Legion of Merit award on the Ciscoan's lapel. The photograph has been added to the Daily Press photo gallery. The letter:

WITH U. S. TROOPS IN SOUTH PACIFIC—Col. Barlow Winston, a Texan whose work as director of army supply and salvage for the South Pacific "concluded materially to our successful operations in the Solomon Islands," has been awarded the Legion of Merit.

The award, "for exceptionally meritorious conduct in the performance of outstanding service," was pinned on Colonel Winston by Lieut. Gen. Millard F. Harmon, commanding general of U. S. army forces in the South Pacific, in ceremonies April 7.

Colonel Winston, of Cisco, Texas, was commended in a citation covering the period October 8, 1942 to April 1, 1944.

"In the extremely capable performance of his duties as director of the supply and salvage division, headquarters, services of supply, Colonel Winston contributed in a marked degree to the effective functioning of the South Pacific command," the citation said.

"Displaying a wide knowledge of the problems and requirements of all branches of the service, he intelligently organized his division along lines that made it particularly well adapted to the conditions peculiar to this theater.

"He perceived immediately the advantages of joint operations with the navy and marine corps, and his harmonious relations with these services attest to his tact, respected administrative ability and leadership. Colonel Winston contributed materially to our successful operations in the Solomon Islands."

Colonel Winston attended Cisco high school, Texas Christian University and Texas A. and M. College. He was commissioned a second lieutenant during World war I, serving two years and five months in the infantry. In 1920, he was given a commission in the regular army.

Colonel Winston was elevated to his present rank February 1, 1942, arriving in the South Pacific July 23, 1942. During his long army career, he spent three years in the Canal Zone.

Born November 24, 1895, Colonel Winston is married to Mrs. Margaret G. Winston, who lives at 1436 Vilas avenue, Madison, Wis.

JOHN SUE, JR., KILLED IN AIR PLANE CRASH

First Lieut. J. O. Sue, 22, was killed Sunday night in an airplane crash at Bryan, where he was an army air corps instructor. Two other occupants of the plane were also killed.

He was the son of Mr. and Mrs. J. O. Sue of Houston, former Ciscoans. The young man was born at Eastland, but grew up in Cisco and attended the local public schools until the father, an employe of the Humble Oil company, was transferred to Houston, some 15 years ago, where he is now general superintendent of gas production.

Deceased had been in the service two years. Burial will be in Houston.

Immediate survivors include the parents and a sister, Mrs. Margaret Rust of Houston; his great grandfather, Jacob Lyerla, and two grandmothers, Mrs. John Sue, Sr. and Mrs. Laura E. Murrell all of Eastland.

WOMEN BOWLERS BANQUET AND AWARD PRIZES

Cisco Women's Bowling league, which recently completed a series of 36 games, banqueted at First Christian church Monday night. Twenty-three persons were present and prizes were awarded the winning teams and the high scorer of each team.

Mrs. C. B. Shaw presided and Mrs. O. Stutenroth and Mrs. C. E. Paul sang, with Miss Marilyn Shorter accompanying them at the piano. Mrs. Troy Powell gave an accordion number.

At the conclusion of the banquet and the awarding of prizes, the league members adjourned to the home of Mrs. Katherine Helton, where they enjoyed various games.

The four teams finished as follows:

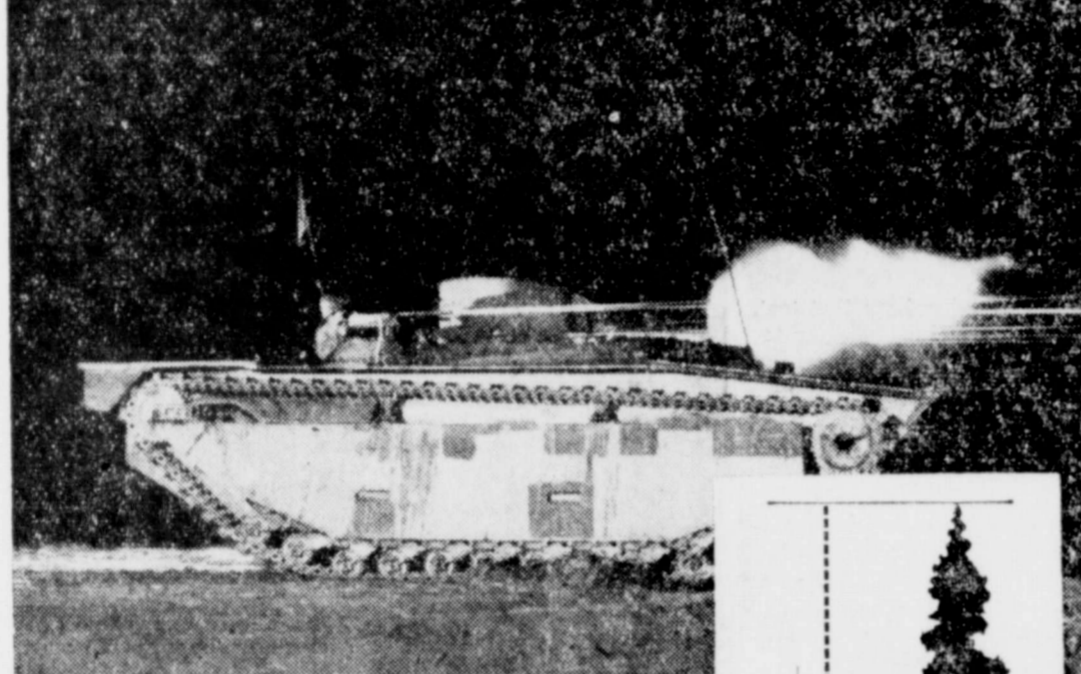

Team	Won	Lost
Carmichael Grocery	25	11
Drumwright's	18	16
Nance Motor	18	18
Elite Beauty Shop	14	22

Individual Averages.

Patsy Allen	132.9
Winifred Tichenor	127.4
Zovelle Cagle	127.0
Mrs. F. Reames	126.6
Mrs. D. J. McCallum	125.2
Mrs. L. Jenkins	123.0
Betty Surles	122.4
Mrs. J. Locke	121.7
Fern Burnette	117.0
Mrs. Brunkenhofer	116.0
Mrs. F. Triplett	114.0
Mrs. C. B. Shaw	112.5
Mrs. K. Helton	109.8
Mrs. Guy Ward	107.1
Mrs. Oma Milner	104.5
Mrs. C. E. Paul	62.0

A new bowling schedule will be arranged for the fall season.

"BUFFALO" HITS LIKE FALLING TRUCK

Drop a 3-ton truck from treetop height and you have an idea of how hard the 57 millimeter shell from the "Water Buffalo" hits. The Food Machinery Corporation-made amphibian tanks, which are operating successfully in the South Pacific, carry firepower enough to crush the hide of any tank they face.

FOR PROTECTION—Guarding soldiers as they work on graves of fallen comrades, sentry paces up and down American cemetery in the Admiralty islands. Few hours before photo was taken, Jap sniper attacked soldiers setting up crosses.

JUD FIELDS WRITES HOME FROM IRELAND

Jud Fields, 26-year-old son of Mr. and Mrs. Tom Fields of Cisco, writes his parents from somewhere in Ireland in unique manner.

Fields, a private of the first class, is a member of the 9th infantry and will have been in the service four years next October. The v-mail letter said:

"Sitting on my G-I bed, My G-I hat upon my head; My G-I pants, my G-I shoes, Everything free, nothing to lose. G-I razor, G-I comb— But, G, I wish I was home!

"They issue everything I need; Paper to write on, books to read; They issue food to make us grow, But, G, I want a long furlough! Our belts, our shoes, our G-I lie— Everything free, nothing to buy.

"We eat our food from a G-I plate. Buy our meals at G-I rate; It's G-I this and G-I that. But, G, I wish that I could kiss you."

ADMIRAL CRITICAL OF EDUCATION, U. S.

LOS ANGELES, April 18.—Adm. Randall Jacobs, chief of the Bureau of Personnel, U. S. Navy, criticized the sort of education America's youth is getting nowadays.

"Failure adequately to teach American youth the three R's, reading and writing and arithmetic, made me very skeptical of their ability to win a war," he declared.

"Men with college degrees come seeking commissions and many could neither properly read nor write and had no higher mathematics than simple arithmetic."

PURIFOY PROMOTED; FAMILY TO HOUSTON

A. R. Purifoy, local agent for the Railway Express company for the past four years, has been transferred to Houston and will become chief clerk there to the claim agent for this district, which is a distinct promotion. He left yesterday for his new home.

Mr. Purifoy has made many friends during his residence in Cisco and his departure is regretted. He was an active member of First Presbyterian church and took a keen interest in all worthwhile civic matters. Mrs. Purifoy and children will remain in Cisco until the end of the present school term.

H. O. Smith of the Railway Express office at Eastland is helping out locally until a successor to Mr. Purifoy has been named.

ABILENE MAN HURT

C. M. Cullar of Abilene, who bought the old Bill Bedford home at Twelfth and N streets and who is raising it preparatory to removal to Abilene, was painfully injured this morning when one of the chimneys fell on him. No bones were broken, but he received numerous bruises about the head and shoulders. The property was taken over by the school board for unpaid taxes and the large lot, one of the most desirable in Cisco for residence purposes, is now owned by Jack Stephenson, son of Dr. and Mrs. G. M. Stephenson, whose home place adjoins it.

MISSING IN ACTION

Mr. and Mrs. I. D. Strawn have been notified by the war department that their son, Staff Sgt. George N. Strawn, with the 1st cavalry division in the Southwest Pacific area, has been missing since March 13. Sergeant Strawn, 21, has been in the service about four years. He was born in Ellenville, Tex., and had never lived in Cisco.

WILL FIND WAY

WASHINGTON, April 18.—Some Texas congressmen, back after the Easter holiday, say that resentment against the U. S. Supreme Court's decision outlawing the "lily white" primary is deep and permanent. But they aren't worried. They figure that the Negro vote won't amount to much this summer, and "we'll have two years to find a way." That "way" might be to divorce all phases of the Democratic primary from the state.

WORLD'S LARGEST

WASHINGTON, April 18.—The largest transport plane in the world, the Lockheed Constellation, crossed this continent yesterday in 6 hours and 58 minutes, an average speed of 355 miles an hour—the record. The great ship has a gross weight of some forty tons and a payload of more than 14 tons. Its wing spread is 123 feet.

NEARBY BALAKLAVA, FAMED BY CHARGE OF THE LIGHT BRIGADE IN 1854, WILL SOON BE TAKEN

MOSCOW, April 18.—Gen. Andrei Yeremenko's maritime army forced the last mountain passes in the Southern Crimea and poured into the plain behind burning Sevastopol today for the perhaps decisive assault on the Black Sea citadel.

While other Soviet forces methodically reduced long-prepared defenses in a tedious advance through the north-eastern and eastern suburbs, Yeremenko's tanks swept over crumbling opposition on the southeastern approaches to Sevastopol along the same route over which the Germans finally broke Russian resistance in 1942 after an eight-month siege.

Balaklava, eight miles southeast of Sevastopol and immortalized in the Charge of the Light Brigade in the Crimean War of 1854, was expected to be engulfed almost momentarily by a maritime army column that yesterday captured the highway junction of Varnutka, five miles to the southeast and 11 miles southeast of Sevastopol itself.

The Russians already could see huge pillars of smoke towering over Sevastopol from German demolitions and the almost ceaseless Soviet artillery and aerial bombardment designed to harass enemy attempts to evacuate the last remaining thousands of a Crimean garrison that once exceeded 100,000 men.

Front dispatches said Soviet pilots reported scenes of terror along the waterfront as Germans and Romanians crowded piers in attempts to board landing barges and evacuation ships. Planes of the Black Sea Fleet Air Arm sank a 3000-ton transport and a fast landing barge and damaged the remaining two landing craft and two patrol cutters in an attack on a convoy bound for Sevastopol yesterday.

LONDON.—Waves of Allied planes swept out through brilliant sunshine toward the continent today and the Berlin radio reported American bombers over Germany in an apparent resumption of the pre-invasion offensive after a weather enforced lull.

The daylight attacks followed a two-way bombardment of Europe by RAF bombers from Italy and Britain. They hit Cologne, Germany's third largest city, and the Bulgarian railway center of Plovdiv.

The Nazi radio warning system said bomber forces flew in over northern and northwestern Germany and continued toward the central part of the Reich.

Twin-engined RAF Mosquitoes from Britain scattered their cargoes of demolition and fire bombs over Cologne, industrial capital of the Rhineland, last night in the first night raid on Germany in four nights. One plane was lost in subsidiary mine-laying operations.

Italy-based RAF Liberators and Wellingtons carried on the almost non-stop Allied aerial assault on the Balkans with a pre-dawn raid on the most important railway yards between Sofia and Istanbul at Plovdiv, 80 miles southeast of the Bulgarian capital.

Haze obscured the results of the bombing, but the attack probably further snarled traffic on one of the main trunk lines serving the Germans on the northern Romanian front.

The night attacks followed raids by 600 Flying Fortress and Liberators and 200 fighters, also from Italy, in daylight yesterday on railway yards at Sofia and Belgrade, capital of Yugoslavia.

NAPLES.—Allied troops and artillery smashed strong German patrol thrusts all along the trans-Italian front, a communique announced today, while Anglo-American warplanes ranged over the battle areas and north of Rome to batter the enemy's communications lines and supply centers.

Official reports said bitter skirmishing and artillery duels flared up on both Fifth Army fronts and on the British Eighth Army's Adriatic sector yesterday as Nazi combat patrols, in considerable strength, attacked Allied forward positions.

One German raiding party broke into a Fifth Army strong point in the hills above Cassino, 1 1/2 miles east of Terelle and inflicted some casualties on the Allied defenders. The Nazis finally were driven back after a brief hand-to-hand battle.

NO OIL SCARCITY

HOUSTON, April 18.—President H. C. Wiess asserted in a report to Humble Oil and Refining Company stockholders Monday that "alarm over an early scarcity of domestic petroleum supplies" is not warranted.

BRITISH TAKE ACTION

LONDON, April 18.—The British government announced a new defense regulation today authorizing imposition of penalties up to five years imprisonment and \$2,000 fines to curb instigation of strikes.

AT HUSBAND'S GRAVE—One of first American widows to visit final resting place of husband on foreign soil, Mrs. Jack Feinstein, kneels at grave of Sgt. Jack Feinstein in Kzarnetzour cemetery, Tunisia. She is professional entertainer with USO unit touring North Africa.

NOT BAD, THIS CAPTIVITY—Questioned at American headquarters, Jap prisoner was taken by first U. S. cavalry division on Los Negros Island. His leg wound bandaged by American doctors, he sits back and enjoys a cigaret while being quizzed.

POLITICAL BAROMETERS.

Political wisecracks, professional and amateur, are always looking for straws to show which way the wind blows. The recent Wisconsin primary, bringing about Wilkie's withdrawal from the presidential race and enormously enhancing Dewey's chances, was a practical large straw.

Two generations ago, followers of the presidential race had some very conspicuous sights to go by. Ohio, Pennsylvania and Indiana for many years held state elections in October, a month before the national election. Results were watched breathlessly. In 1856 the Democratic victory in Pennsylvania's October election showed that this state, then doubtful, would in November send James Buchanan to the White House. In 1876 and 1884 Democratic victories in Indiana encouraged supporters of Tilden and Cleveland.

Excitement over the October elections poured barrels of money into these three states to buy up doubtful voters. It became a scandal, and October voting was finally done away with.

Later the September elections of Maine and Vermont were watched almost as closely. There appeared to be a traceable relationship between the size of the Republican majority in Vermont in September and the outcome in the country two months later. But Vermont has long since given up voting in September. Only Maine remains, and Maine has not for years been regarded as a political barometer.

As to nominees of the two great parties, the best bet right now for the Democrats is Mr. Roosevelt and either Vice President Wallace or Sam Rayburn of Texas as his running mate.

In the Republican camp Governor Dewey of New York appears to be in the lead, with Governor Warren of California for second place. However, many leading Republicans are said to believe that Gen. Douglas MacArthur would run a better race throughout the nation than Mr. Dewey. It might well be that the Republican nominees will be Dewey and MacArthur.

A Navy Seabee and His Seagoing Truck

J. H. Prickett, CMic with the Navy's fighting Seabees, can talk for hours about his exciting experiences with GMC amphibian trucks on European battle fronts.
Because of the "Duck's" ability to travel over sand bars and shoals in any depth of water, he recommended their use for the checking and charting of invasion waters. In Africa, he helped to develop sonic depth sounding devices which were installed on three "Ducks" for these charting missions.
These "Ducks" charted Sicilian invasion waters while waves were rolling ten feet high, and then helped to bring supplies ashore in the face of three German motorized divisions and a lot of German aircraft.
At Salerno, these "Ducks" also successfully surveyed the beaches for LST landings, but were caught between the fire of British Naval guns and enemy shore batteries when returning to sea. The "Ducks" then joined other craft in the assault on the beaches and aided in setting up a British Command Post while exposed to terrific enemy fire.
Seabee Prickett's next assignment was the hazardous one of attempting to salvage some ammunition from a LCT boat that was burning fiercely after being hit by an 88 mm German shell. Taking on a "Duck" load of ammunition in the face of the spreading fire, Prickett's crew rushed it ashore to a British Tank Corps that was getting desperately short of fire power.
For the next several days, while the battle for the Salerno beach head was at its height, these "Ducks" carried supplies from ship to shore to firing line. On the return trips, the wounded were brought back to the ships. During this period, one "Duck" was called upon to rescue a disabled LCT boat lying offshore. An LCT is 110 feet long but the "Duck" towed and winched it into shore.
After seeing the GMC "Duck" perform so many different duties under fire at Salerno, Seabee Prickett stated that, in his opinion, the men responsible for the development and manufacture of this amphibian truck had made one of the finest possible contributions toward winning the war.

WEST TEXAS UTILITIES COMPANY PROTECT THE LIFE LINE OF YOUR ELECTRIC APPLIANCES Want to keep those appliances from getting old? Then, watch those "yanks" — a jerk of the cord can shorten the life of any appliance. When you pull out the cord, take a firm grasp on the plug and pull it out—Quick. Never yank the plug from the outlet by using the cord as a handle. Keeping your electric appliances clean is most important. The appliance may be washed with a damp, soapy cloth, but be sure no water gets into the motor.

Studebaker Champion a money-saver says Civil Air Patrol pilot

"MY 1940 Studebaker Champion has traveled more than 110,000 tough miles," reports Civil Air Patrol pilot Lieutenant J. E. McGuiggan of Squadron 3 who is employed by Universal Studios of St. Paul, Minnesota.

"I average 25 miles to the gallon and my original tires stood up well over 60,000 miles. Of all the cars I've owned, this Champion is easily the most satisfactory and economical."

From coast to coast, it's the same story these war days—tires last longer, gas goes further, repairs are required less frequently in a Studebaker, thanks to advanced engineering principles and quality materials and craftsmanship.
