Education Costs Texas Taxpayers \$61,637,172 Yearly; Public Welfare and Pensions Come Next

AUSTIN, April 20.—Receipts of the Texas State government for the fiscal year ending Aug. 31, 1943, were \$245,551,441, and government expenditures \$161,795,540, it is revealed in the annual report of State Comptroller George E. Sheppard.

The difference between the two amounts is represented in funds collected and held in trust for special purposes, the largest of which were \$25,655,304 allocated for unemployment compensation and \$2,089,676 to teacher retirement benefits.

Education at \$61,637,172 was the largest cost item in state expenditures and represented 33.9 percent of the total. Next in order were public welfare, pensions, benefits and retirements at \$53,476,238 or 29.42 percent of the state's dollar, and then highways and road debt at \$41,042,192, or 22.58 percent of the dollar collected.

Pay rolls, wages, extra help and other to local officers totaled \$25,655,304. Traveling expenses aggregated \$1,566,532, with \$834,439 for personal car allowance, \$1,042,192 for gas and \$209,438 for gasoline and grease. Supplies, commodities and miscellaneous services cost \$7,938,506 and postage \$458,131.

Elementary and correctional institutions spent \$7,417,243, Legislature \$389,592, judiciary \$2,060,226, executive and administrative \$2,422,478, regulation of business and industry \$2,596,370, preservation of health and sanitation \$2,257,558, development and conservation of natural resources \$3,360,805 and protection to persons and property \$1,783,757. Parks and monuments cost \$177,042.

Motor fuel taxes brought the largest revenue to the state with \$12,241,678, but \$11,673,166 was refunded because the fuel was not used in traveling the highways. Sales receipts and oil and other production taxes yielded \$36,295,000, ad valorem \$24,685,618, cigarette stamps \$11,799,557, liquor and wine \$10,109,270; auto licenses \$9,585,542, insurance occupation taxes \$5,432,228, franchise taxes \$3,411,312, and \$1,391,005 from auto sales taxes. The motor tax is 1 per cent and the total shows the volume of sales of used cars in Texas.

Old-age assistance aggregated \$3,219,237 equally divided between state and federal funds with administrative costs of \$153,605 to the state and \$1,102,486 to the federal government. In pay-roll salaries the state spent \$111,558 to \$1,967,281 out of federal funds.

Under the new state law the state is bound to contribute \$1,000,000 monthly to old-age pensions which is matched by the federal government to bring the total somewhat above that for the preceding fiscal year under the old law.

CRUDE OIL. NEW YORK, April 20.—Crude oil production in the United States soared to within 4,300 barrels daily of the all-time record for the week ended April 15, the weekly statistical report of the American Petroleum Institute issued yesterday. Production averaged 4,432,150 barrels daily, an increase of 16,050 barrels daily over the previous week. The nation's record is 4,436,450 barrels daily established for the week ended Nov. 13, 1943.

VISITORS FROM SIXTH DIST. STEPHENVILLE MUSIC CLUBS AT LUNCHEON MEET HERE

There were a number of visitors from other clubs at the Lions luncheon Wednesday, among whom was Ivan P. Oliver, president of the Stephenville club and a candidate for governor of district 2-E. The Stephenville club, featuring talent from John Tarleton college, gave the program, which was in charge of Lion Harry Schmidt.

President Seymour of the local club announced the delegates to the district conference at Fort Worth, May 2-3, as follows: L. W. Seymour, Carlos J. Turner, W. H. LaRouge, N. C. Huston and Harry W. Schmidt. Alternates: O. L. Stamey, C. M. Novill, Jack Anderson, Charles S. Sandler and Geo. W. Downie. Ladies night was also announced for tomorrow night, with a distinguished speaker from Denton on the program.

Next week's luncheon will be held Thursday instead of Wednesday, to allow for the visit of Ramiro Collazo, international second vice president of Havana, Cuba, and his party of prominent Lions.

Lion Schmidt introduced Mr. Oliver, who in turn presented Joseph Chandler, in charge of the program.

Vocal solos by Bert Coffin of the fine arts department of John Tarleton college, Stephenville, accompanied by Peter Hinderlite, college cadet, received liberal encores.

Rev. H. M. Taylor then presented Oliver as their candidate, saying Oliver held that the office should seek the man, and hence was being offered by the club. Among other claims, the speaker said that his candidate was offered as a dark horse last year and lacked only a few votes of being elected.

He was followed by Mr. Chandler who told of the many activities of Lion Oliver, who is superintendent of Stephenville public school system.

Visitors were Oliver, Chandler, Smith, Coffin and Hinderlite from the Stephenville club; Joe Graham from Ranger, R. D. Smith from Breckenridge, E. L. Miller and Durwood Fleming from Eastland.

NAVY ACE. Home from battle on furlough, Lt. (JG) Ira C. Kepford, Navy's leading ace, calls on former football teammates at Northwestern University. Member of Blackburn's Irregulars, Kepford leads Navy fliers with 19 enemy planes downed. He hails from Muskegon, Mich.

Junior music clubs of the sixth district, State Federation of Music Clubs, will hold their annual convention in Cisco Saturday, with Junior Music Lovers' club and the Senior Cisco Music Study club as hostesses. The meeting will be a combination of the District Junior Competitive Festival and Junior Day, which until this year have been held separately.

The business meeting will start at 10:30 Saturday morning, in First Baptist church auditorium. At that time reports will be made by the different clubs and awards given for best club year-books and scrap books. Prizes for these will be offered by various music stores of the district. Mrs. Posey Collins, district junior counselor, from Brady, will preside throughout the convention.

Competitive work among the young musicians will also be held Saturday morning and at First Baptist church. This will include voice, piano, violin and accordion. Judges will be from Howard Payne College, Brownwood. Mrs. H. W. Broughton of Sweetwater will be contest chairman.

Luncheon will be served junior club members and district officers at 12:30, in basement of First Christian church.

At 2 o'clock, First Baptist church, the junior clubs will present a fine arts program, at which time the superior raters of last year's competitive festival will also be presented. There will be an installation service of newly-elected junior district officers, and Mrs. Sheridan Newman of Brady, president of Senior Music clubs of the district, will officiate.

Mrs. Ben Krauskopf is counselor of Cisco Junior Music Lovers' club and Betty Rowe Wilcox is president. Durwood Smith will represent the club on the fine arts program.

Representatives from Junior Music clubs of Brady, Brownwood, Sweetwater, San Angelo, Abilene and Eastland are expected here.

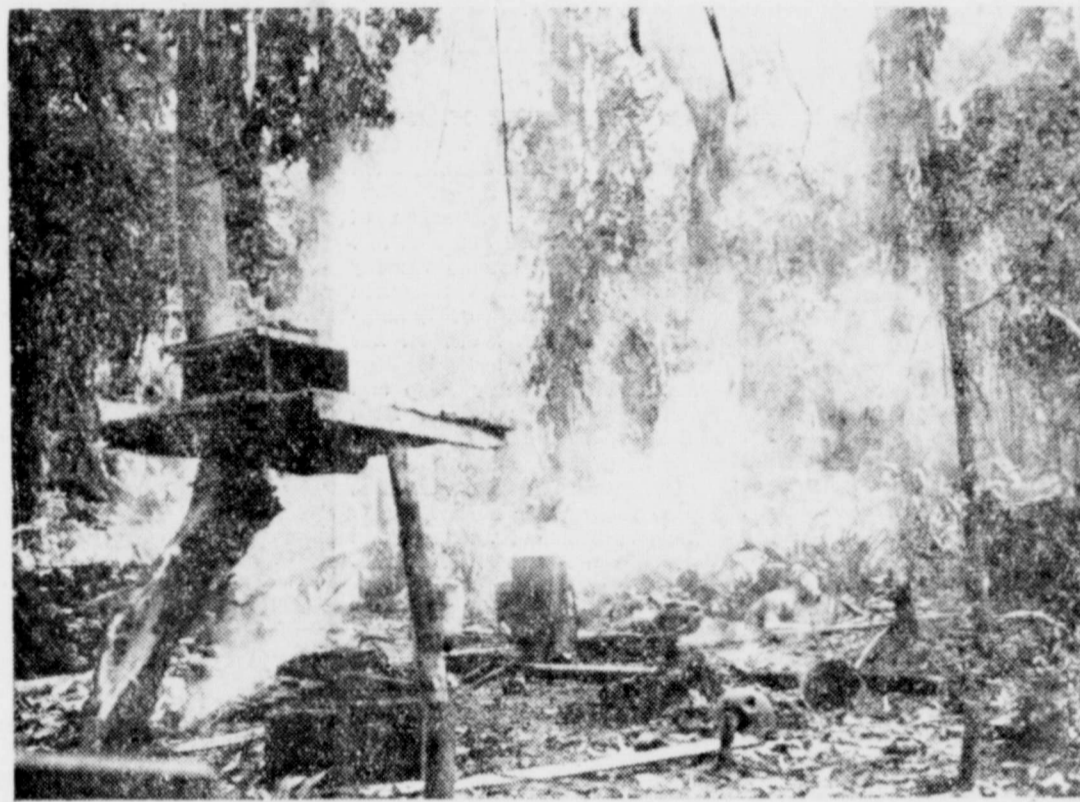

The public is invited to attend the fine arts program at 2 o'clock.

FIRST AIR-SEA BLOW AGAINST JAP-HELD DUTCH EAST INDIES SINCE ISLANDS LOST IN 1942

ALLIED SOUTHEAST ASIA HEADQUARTERS, KANDY, CEYLON, April 20.—A powerful Allied force of aircraft carriers, battleships and supporting fleet units struck within 700 miles of Singapore at dawn yesterday to bomb and shell the Japanese air and naval base of Sabang, on the northern tip of Sumatra, it was disclosed today.

Striking across the Indian Ocean for their first great counter-blow against the western flank of Japan's southern empire, the Allied battle fleet caught the enemy completely by surprise and blasted his base into a mass of wrecked planes and ruined fortifications.

At least 22 Japanese planes were caught aground and destroyed at the Sabang airdrome and several others were wrecked in a supporting attack on the nearby Lho Nga airfield.

Carrier-based Allied bombers and fighters hit the startled enemy at dawn, bombing and machine gunning the waterfronts, barracks and air field installations.

A terse communique announcing the strike said direct hits were scored on a dockyard power station, wharf areas, barracks and hangars.

(A BBC broadcast heard by the United Press in New York said great fires were left in the town area of Sabang and that two Japanese merchant ships were hit and two destroyers were strafed and set afire).

"A successful attack was carried out early on April 19 against Sabang at the north end of Sumatra by an Allied naval force under the command of Adm. Sir James Somerville," the communique said.

"This force suffered no damage. Further details will be published as soon as possible."

Sabang is situated on the tiny island of We off the southern tip of Sumatra and marks the northwest end of the Dutch East Indies. Only 700 miles to the southeast lies Singapore, the big naval base which Churchill has promised will be restored to British rule.

To reach Sabang, the Allied naval force presumably sailed nearly 1000 miles due east from Ceylon across the Indian Ocean, by-passing the Andaman and Nicobar islands to the northeast.

MOSCOW.—Russian armies have ripped into the inner defenses of Sevastopol and today were reported battling on the same lines where the Soviet garrison made its main stand in the 250-day siege of 1941-42.

Front dispatches referring to the "final hours" of the German and Romanian stand at Sevastopol said Red Air Force planes pounding the Crimean bastion sank 12 good-sized ships in the harbor within 24 hours.

Massed Russian assault planes were reported laying a "carpet of bombs" on Sevastopol and its Black Sea approaches, ranging as far westward as the Romanian coast to shatter the Axis evacuation fleet.

The Black Sea fleet threw its torpedo boats and other warships against the harried Axis retreat lines, converted them into an Indian-style gantlet in which blows fell from all sides and above.

Around the edges of Sevastopol, dust-caked and sun-burned Russian troops, many of whom had not slept for several days, fought into the German lines.

(A German communique said that "northeast of Sevastopol renewed Bolshevik attacks were warded off and a major number of tanks knocked out.")

HOUSTON PO-BIRTHS EXCEED LICE SEARCH DEATHS BY 41-2 FOR KILLER MILLIONS, USA.

HOUSTON, April 20.—A shoeless Negro was number one suspect today in the maniacal slaying of Mrs. Dollie Garrett Richardson, prominent Houston churchwoman.

Police questioned the Negro suspect while they waited for state laboratory chemists at Austin to report on a blood-stained shirt found yesterday in a weedy vacant lot not far from the Richardson home in a fashionable residential district.

A reward of \$300 awaited the person who could furnish police with information leading to arrest and conviction of the slayer, who slashed and stamped Mrs. Richardson to death Monday.

WASHINGTON, April 20.—An OWI report says that from April 1, 1940, to Nov. 1, 1943, the civilian population fell about 3.1 per cent from 131,329,104 to 127,307,884.

In that period the country's 9,604,000 births exceeded its 4,993,000 deaths by 4,611,000, OWI said. About 9,500,000 men and 138,000 women were inducted into the armed forces, however, leaving a net civilian population loss of about 4,000,000.

BRECKENRIDGE.—Larry Farmer of Ft. Worth, charged with the death of Jay Conner at a football game here, will be tried for the second time at Roby, Fisher county, in June.

THE IMPERIALISTIC HIGHWAY.

The Petroleum Industry War Council has presented in detail its reasons for opposing the entrance of our government into the field of oil production through the government's Petroleum Reserve Corporation which plans building a thousand-mile pipe line through three foreign nations between the Persian Gulf and the eastern Mediterranean. War Council says that this method of government going into oil business "is a sign post of the new highway of international power politics." The New Fascist, or corporative state approach to the postwar world indicated by the direct engagement of the United States government in the oil business and probably in other phases of private business in defining of the American way of life for which we are fighting.

"It represents a new philosophy that we, a democratic people, having given our shrews of war successfully on the basis of private enterprise... must needs revert to the hated procedure of the Nazi and Fascist in our postwar world and commitment to government (in Fascist fashion) direct engagement in the conduct of private enterprise, in surrender of freedom and the American system of free private enterprise."

The more fact that this program to put the government into the oil business was planned secretly by federal bureau officials, without the knowledge of the people and without opportunity for congressional consideration, justifies congressional investigation of the reasons for seeking to launch our nation on the imperialistic highway.

THE ALLIED BLOCKADE.

There comes a time in every war when belligerents have to get tough with their friends. That has come now in the attitude of the Allied leaders. That Sam and John Bull are reluctantly obliged to "do the dirty work" of Germany, Britain and the United States have created down on Sweden, war materials as well as bearings and certain kinds of machinery. It may be legitimate trade for a friendly nation which cannot make a living. But it cannot be tolerated by nations fighting for their lives. And a blockade against anything that helps the enemy benefits the neutral democratic nations themselves in the long run, even if it means temporary loss. More and more of such conflict will arise from now on, in Europe and elsewhere. Else, under Dr. Valera's agreement, rule is engaged in deliberate efforts to hinder the Allies, to the great disappointment of millions of American well-wishers. Spain and Argentina are helping the Axis as much as they dare. Friendly Portugal is helping the Axis to Germany. The Allied leaders, however, must do their best to observe international law, and have a good reason so far. They will be sorely tried if Turkey, which Britain has had close ties in the past, gives aid and comfort to the enemy.

INVASION NEARS.

Many think the invasion from England may come most any day. They have held that the Allies were awaiting such time as Russia could regain her lost territory and be ready to actually invade Germany at the same moment as forces from England. If that be correct, it would seem that the moment has almost arrived, since the Reds are already knocking at the door of Eastern Germany. Let's stand ready to give all-out support.

KEEP SUPPLIES ROLLING
As the invasion nears for the western front we can readily see how important it is to keep supplies rolling. Vast quantities are going to be needed then — much more than now. Many tons of supplies such as food, ammunition, guns, trucks and heavy armor will be lost perhaps as the Allies from England try to make landings on the beach-heads of the continent to invade Hitler's iron fortress of Europe. Still other tons will be used, since men in actual combat use more of all supplies than when in camps.
Thus it means to us here in America, in Texas, in Cisco, that we must keep supplies of everything rolling constantly, in order that there be no interval of scarcity. That means plenty of money with which to purchase these items for Uncle Sam's army must be in the U. S. Treasury.

mere thinks so well of turkey as a money-making project for small farmers that they are putting 200 birds with each of 25 farmers in Bee County.

On a recent trip with W. E. Cook, agricultural agent of the Missouri Pacific Railroad, I learned of the fine work his railroad has been doing with turkeys. Bill, who is a careful student of farm management problems, is very much sold on broad breasted turkeys and he passed a good bit of his enthusiasm on to me.

I don't know of anything else that the small farmer can undertake which is as safe and certain to make a profit as turkeys," said Mr. Cook. "While present turkey prices are not likely to be main-

TURKEYS BRING GOOD MONEY ON SMALL FARMS

By EUGENE BUTLER. A small farmer looking for a new source of cash income should investigate broad breasted turkeys. Many farmers have made big money on turkeys this past year. Recently we talked with R. A. Hall of Beeville. "I cleared \$1,400 on my flock of birds after charging off everything I could think of, including \$25 to cover rent of land on which I grew green feed for them," said Mr. Hall. "Starting with 450 pairs, I raised 382 of them. I made a net profit of \$3.60 per bird."

tained indefinitely, the margin of profit has been so large that a great deal of shrinkage can take place and still leave considerable profit. The money needed to get into the turkey business is comparatively small and a farmer can get into or out of the business quickly and with a minimum of risk.

"When I say 'raise turkeys' I mean broad breasted turkeys in confinement. On a 100-acre farm, the turkeys can be handled on 10 to 15 acres. In this way they can be shifted to fresh land each year over a period of years. Fifteen acres is sufficient to carry 1,000 birds. The remaining land on the farm can be used for other purposes, including feed production.

Turkeys eat a surprising amount of green feed. Also of importance is the fact that they can be raised very largely on home-grown feed over 50 per cent of their ration is whole grain that can be produced on the farm where they are grown.
